TITLE 6—AGRICULTURAL CREDIT
Chapter II—Commodity Credit Corporation

PART 250—CONTROL OF VEGETABLE OIL SEEDS AND PRODUCTS THEREFROM[1]

[Oilseed Order 2]

OILS REPURCHASED FROM THE COMMODITY CREDIT CORPORATION

Whereas, the Commodity Credit Corporation has entered into contracts with refiners of vegetable oils providing for the purchase of crude vegetable oils by the Corporation and for the repurchase, at a price below the purchase price paid by the Corporation, of such oils by such refiners; and

Whereas, it is necessary in the public interest that such repurchases by refiners be confined to the needs of such refiners for the manufacture of edible products, for sales to persons who will use such oils for the manufacture of edible products, or for supplying refined oils to the Commodity Credit Corporation:

Now, therefore, pursuant to the authority vested in the Commodity Credit Corporation by Directive No. 7 of the War Production Board, issued August 15, 1942, *It is hereby ordered that:*

Sec.
250.6 Use of repurchased oils.
250.7 Records; reports; communications.
250.8 Penalties.
250.9 Definitions.
250.10 Effective date.

AUTHORITY: §§ 250.6 to 250.10, inclusive, issued under W.P.B. Directive No. 7, 32 C.F.R. § 903.12, 7 F.R. 6518.

§ 250.6 *Use of repurchased oils.* No person shall, without the approval of the Commodity Credit Corporation, use any vegetable oils repurchased from the Commodity Credit Corporation pursuant to the Refiner Contract except for the manufacture of edible products, for sale to persons who will use such oils for the manufacture of edible products, or for supplying refined oil to the Commodity Credit Corporation as provided in such Refiner Contract, and no person to whom any such repurchased oils are sold shall, without the approval of the Commodity Credit Corporation, use such oils except for the manufacture of edible products.

§ 250.7 *Records; reports; communications.* (a) Every person subject to this order shall keep and preserve for not less than two years accurate and complete records concerning all repurchases of vegetable oils from the Commodity Credit Corporation pursuant to the Refiner Contract and concerning the use or disposition made of such vegetable oils. All such records shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Commodity Credit Corporation.

(b) Every person subject to this order shall execute and file with the Commodity Credit Corporation such reports and questionnaires as the Corporation may from time to time request.

(c) All reports required to be filed hereunder and all communications concerning this order shall be addressed to: Commodity Credit Corporation, South Agriculture Building, Washington, D. C.

§ 250.8 *Penalties.* Any person who willfully violates any provision of this order or who willfully furnishes false information to the Commodity Credit Corporation in connection with this order may be prohibited from processing, selling, transferring, or otherwise disposing of vegetable oils of any kind, and, in addition, may be punished by fine and imprisonment.

§ 250.9 *Definitions.* (a) "Refiner Contract" as used herein means the contract entitled "Refiner Contract, 1942 Vegetable Oils Program" entered into between the Commodity Credit Corporation and refiners of vegetable oils.

(b) "Vegetable oils" as used herein means cottonseed oil, peanut oil, and soybean oil, whether crude or refined.

(c) "Person" as used herein means any individual, partnership, business trust, association, or corporation, or any organized group of persons, whether incorporated or not.

§ 250.10 *Effective date.* This order shall become effective on and after Octo-

PART 55—SAMPLING, GRADING, GRADE LABELING, AND SUPERVISION OF PACKAGING OF BUTTER, CHEESE, EGGS, POULTRY, AND DRESSED DOMESTIC RABBITS

AMENDMENT CHANGING BASIS FOR CHARGES

By virtue of the authority vested in the Secretary of Agriculture by law (56 Stat. 664; 7 U.S.C. 414), the following amendment to Title 7, Chapter I, Subchapter C, Part 55, Code of Federal Regulations, as published in the FEDERAL REGISTER on July 23, 1941 (6 F.R. 3622), and as amended by 6 F.R. 5027 and 7 F.R. 1123 and 6804, is promulgated:

Section 55.35 is amended to read:

§ 55.35 *Basis for charges.* Fees and charges for sampling, grading, regrading, and supervising of packaging, grade labeling or other work shall be based upon the actual time required to render the service, including the time required for travel of the official sampler, grader, or supervisor of packaging between his office or point of previous duty and the place of service, at the rate of $2.00 per hour, or at the rate specified in §§ 55.36 to 55.40 inclusive, unless otherwise provided by contract with the applicant or by supplemental schedules approved by the Administrator. An additional fee of $3.00 shall be charged when additional time is required in sampling or grading because the service is performed in a freight or express car or other place where the entire lot of product is not readily accessible to the official sampler or official grader and when the fees charged are at the rates specified in §§ 55.36, 55.37 (a), 55.37 (b) and 55.38.

deposited by
U.S. Gov't

§ 702.303 *Tobacco*—(a) *State allotment.* The State allotment of tobacco for Puerto Rico is 30,600 acres.

(b) (1) A tobacco acreage allotment for the 1942-43 crop shall be determined for each farm for which a tobacco acreage allotment was, or could have been, established under the 1941 Agricultural Conservation Program on the basis of the tobacco acreage allotment which was, or could have been, established for the farm under the 1941 Agricultural Conservation Program, the land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

(c) (1) If the average of the normal yields established for all farms (weighted by the tobacco acreage allotments therein) exceeds 672 pounds (farm weight) of tobacco per acre, which is the adjusted average yield (farm weight) per acre for the State during the five crop years 1937-38 to 1941-42, inclusive, the normal yield for these farms shall be reduced pro rata so that the average of all normal yields shall not exceed this figure.

(d) *Payment in connection with tobacco acreage allotment.* Payment will be made at the rate of .018 cents per pound (farm weight) of the normal yield of the farm for each acre in the tobacco acreage allotment; *Provided,* That, where the tobacco acreage allotment for the farm has not been planted in full, no payment will be made unless an acreage equal to the tobacco acreage allotment or the unplanted part thereof (in addition to the minimum requirement under Practice No. 1) has been planted to one or more of the food crops specified by the Regional Director under § 702.301 (e) (1). (Minimum performance under Practice No. 1 of the soil-building practices for Puerto Rico is a prerequisite to any payment under the tobacco provision of the 1942 ACP for Puerto Rico.)

(e) *Deduction for excess tobacco acreage.* The payment computed for any farm under §§ 702.301 and 702.303 shall be subject to a deduction of 0.18 cents per pound (farm weight) of the normal yield of the farm for each acre planted to tobacco in excess of the tobacco acreage allotment for that farm.

EXTENSION OF TIME FOR FILING CAPITAL STOCK TAX RETURNS AND PAYING TAX

General extension. Under the authority of sections 1203 (b) (2) and 1205 (b) of the Internal Revenue Code, as amended, the period in which returns of capital stock tax for the year ended June 30, 1942, may be filed and the tax paid without assertion of penalties for delinquency, or of interest, was extended to September 29, 1942, by Treasury Decision 5158, approved June 27, 1942.

Under authority of the same sections of the Internal Revenue Code, as amended by H. J. Res. 344 (77th Congress, 2d Session), approved September 29, 1942, the period in which such returns may be filed and the tax paid is further extended to November 28, 1942. Collectors of internal revenue are authorized to accept returns without assertion of penalties for delinquency, or of interest, if the returns are filed and the tax paid on or before the further extended date. PART 802—RULES OF PROCEDURE

REPORTS OF INVESTIGATORS OR MEDIATORS

By virtue of the authority vested in the National War Labor Board by Executive Order of the President, No. 9017, dated January 12, 1942, the following section of part 802 (Administrative Regulation No. 2) is hereby amended to read as follows:

§ 802.8 *Reports of investigators or mediators.*[1] If the mediator or mediators are unable to settle any dispute by agreement or voluntary arbitration, a report shall be made to the Board setting forth findings of facts and recommendations for settlement of the dispute. Such report shall be transmitted to the Executive Secretary, who shall thereupon transmit a copy of it to the authorized representatives of each of the parties to the dispute. In the event that the panel is not unanimous on any of the points at issue, the parties shall be afforded one week after the receipt of the report within which to submit to the Board in writing any comments upon such points as they desire to make, provided that additional time for the submission of such comments may be granted in the discretion of the Chairman of the Board or his appointee upon good cause shown. Twelve copies of such written comments shall be filed with the Executive Secretary. The Executive Secretary shall place the case upon the Board Agenda for consideration not less than 48 hours after expiration of the period for the submission of such written comments. In cases of single mediators, referees, investigators or arbitrators whose award is subject to review by the Board, the same procedure as above will be followed. In the cases of unanimous panels the report will be placed on the Board's Agenda 48 hours after it is mailed to the parties.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1485]

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT 22

ORDER CANCELLING HEARING, ETC.

Order cancelling hearing, revising temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 22 for the establishment of price classifications and minimum prices for certain mines in District No. 22.

An original petition was filed with this Division on June 4, 1942, by the above-named party, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for run of mine coals produced in Subdistricts 1 and 2 in District No. 22 for shipment by rail into all market areas.

An Order Granting Temporary Relief and Conditionally Providing for Final Relief was issued on June 29, 1942, 7 F.R. 4876, temporarily establishing the price classifications and minimum prices requested in the original petition for the run of mine coals produced in Subdistricts 1 and 2 in District No. 22 and conditionally providing that such price classifications and minimum prices should become final sixty (60) days from the date of the order unless it should otherwise be ordered.

On August 12, 1942, the Bituminous Coal Consumers' Counsel filed an Intervention, Answer and Application for Termination or Modification of Temporary Relief in this matter praying (1) that the temporary relief in this proceeding be terminated or modified, so that the minimum prices would be based on the costs as determined in General Docket No. 15, rather than on the cost determinations in General Docket No. 21, and (2) that the order conditionally granting final relief be rescinded until after a public hearing, or else modified so that the applicable minimum prices would be based on General Docket No. 15 cost determinations, rather than General Docket No. 21 cost findings.

On August 29, 1942, 7 F.R. 6953, an order was issued herein continuing the temporary relief in effect, but terminating the conditionally final relief provided for in the order of June 29, 1942, and scheduling a hearing to be held on

---

[1] F.R. 600, 2925, 3926.

October 1, 1942, at Washington, D. C., on the issues raised by the Bituminous Coal Consumers' Counsel in its aforesaid petition of intervention.

An order having been issued in General Docket No. 21 on August 28, 1942 (to become effective October 1, 1942), 7 F.R. 6943, adjusting minimum prices generally, the Bituminous Coal Consumers' Counsel, on September 18, 1942, filed with the Division a motion, requesting (1) that the hearing scheduled for October 1, 1942, be postponed indefinitely or at least a month, so that he might have an opportunity to withdraw his demand for a hearing when a general revision of prices, with which the relief sought herein would be consistent, becomes effective, and (2) that the temporary relief now effective in this proceeding be modified so that no further increase in the prices herein temporarily established would be effected as a result of any final order in General Docket No. 21.

On September 23, 1942, District Board No. 22 filed an amendment to its original petition praying, in effect, that minimum prices of $2.25 per ton and $2.10 per ton be established for the commercial mine run coals produced in Subdistricts Nos. 1 and 2 of District No. 22, respectively, for rail shipment to all market areas, in lieu of the temporary minimum prices in effect for those coals; and that the minimum price increases provided for by the order of August 28, 1942, in General Docket No. 21 for coals produced in District No. 22 likewise be made applicable to the minimum prices for the above-mentioned mine run coals as revised.

Since petitioner and the Bituminous Coal Consumers' Counsel are now in substantial agreement as to the minimum prices which should presently apply to the mine run coals produced in Subdistricts 1 and 2 of District No. 22 for shipment by rail, it is deemed advisable to revise the minimum prices originally established herein by the Division's Order of June 29, 1942, and temporarily continued by the Division's Order of August 29, 1942, in accordance with the request contained in the amended petition of District Board No. 22. Further it appears that the hearing in this matter should be cancelled and that the relief herein granted should become final sixty (60) days from the date of this order, unless it should be otherwise ordered. This procedure will afford interested persons forty-five (45) days within which to file applications to stay, modify or terminate the temporary relief herein granted.

Now, therefore, it is ordered, That the hearing scheduled to be held in this matter on October 1, 1942, be, and it hereby is, cancelled.

It is further ordered, That pending final disposition of the above-entitled matter, the temporary relief granted by the Order of June 29, 1942, 7 F.R. 4876, and continued by the Order dated August 29, 1942, 7 F.R. 6953, be, and it hereby is, revised as follows: Commencing forthwith § 342.5 (*General prices; minimum prices for shipment via rail transportation*) in the Schedule of Effective Minimum Prices for District No. 22 for All Shipments be, and it hereby is, amended by revising the minimum prices for mine run coals produced in Subdistricts 1 and 2 of District No. 22 for shipment by rail into all market areas to read as follows:

	Size group 15.
Subdistrict No. 1—Roundup	225
Subdistrict No. 2—Red Lodge	210

It is further ordered, That pleadings in opposition to the petition, as amended, filed herein and applications to stay, terminate or modify the temporary relief granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That, the relief herein granted shall become final sixty (60) days from the date of this order unless it shall otherwise be ordered.

Dated: September 29, 1942.

[SEAL] DAN H. WHEELER,
Director.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1115—FUEL OIL

[Amendment 4 to Limitation Order L-56,[1] as Amended]

1. Section 1115.1 *Limitation Order L-56,* as amended, paragraphs (b), (c), (d), (e), (f), (g) and (h), are hereby amended to read as follows:

(b) *Definitions.* When used in this order:

(1) "Additional facilities" means any equipment designed to use fuel oil, other than internal combustion engines or equipment used for domestic cooking or illumination purposes, which equipment has been installed subsequent to July 31, 1942: *Provided,* That the replacement of wornout parts shall not be deemed to be the installation of additional facilities when the existing equipment is not adaptable to the use of alternate fuels.

(2) "Alternate fuel" means any fuel other than fuel oils, electricity, natural gas, manufactured gas or mixed natural and manufactured gas.

(3) "Area One" means the area specified in paragraphs (a) and (b) of Exhibit A hereof as the same may be amended from time to time.

(4) "Area Two" means the area specified in paragraph (c) of Exhibit A hereof as the same may be amended from time to time.

(5) "Area Three" means the area specified in paragraphs (d) and (e) of Exhibit A hereof as the same may be amended from time to time.

(6) "Area Four" means the area specified in Exhibit B hereof as the same may be amended from time to time.

(7) "Coal spraying equipment" means any equipment designed to use or using fuel oil or any other petroleum product for the purpose of applying such fuel oil or other petroleum product to coal.

(8) "Consumer" means any person acquiring fuel oil for use, including use as a component part of any manufactured article, material, or compound other than fuel oil. The term includes dealers and suppliers to the extent that they use fuel oil, or acquire fuel oil for use rather than for transfer.

(9) "Converted facilities" means any fuel oil burning equipment which was designed to use an alternate fuel and which has been converted to the use of fuel oil.

(10) "Coupon note" means a writing signed by a person to whom or to whose account fuel oil is transferred, whereby such person agrees to surrender coupons or other evidences, of a stated gallonage value, authorized by or issued under any fuel oil ration order of the Office of Price Administration, within fifteen (15) days after the effective date of such order. Such coupon note shall be in substantially the following form:

Date: October --------, 1942.
Amount: ------ gallons

The undersigned acknowledges receipt from --
(name and address of the transferor)
of -------- gallons of fuel oil and agrees to surrender fuel oil ration coupons or other evidences representing such gallonage within fifteen (15) days after the effective date of any fuel oil ration order of the Office of Price Administration, in accordance with the requirements of Limitation Order L-56.

(Name of transferee)
By: ------------------------------
(Officer or agent)

(Address of transferee)

(11) "Dealer" means any person, including a supplier, who operates a regular place of business at or from which fuel oil is regularly transferred to consumers. The term also includes any person who operates a tank truck or tank wagon for the transfer of fuel oil directly to consumers and who does not also maintain stationary fuel oil storage tanks.

(12) "Evidence" means a token, including a ration coupon, authorized by the Office of Price Administration to represent a right to receive a transfer of fuel oil.

(13) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, including grades No. 1, 2, 3, 4, 5, and 6, Bunker "C", Diesel oil, kerosene, range oil, gas oil, or any other liquid petroleum product used for the same purposes as the above designated grades.

(14) "Passenger automobile" means any motor vehicle other than a motorcycle, built primarily for the purpose of transporting passengers and having a rated seating capacity of seven persons or less.

(15) "Person" means any individual, partnership, corporation, association, government or government agency, or any other organized group or enterprise.

(16) "Primary supplier" means:

(i) Any person who refines fuel oil within Area Four; or

(ii) Any person who maintains stationary storage facilities within Area Four from which the first transfer of fuel oil within Area Four is made; or

(iii) Any consumer who maintains an establishment within Area Four at which delivery of fuel oil for his own use is taken by pipeline, barge, tank ship, or railroad tank car, directly from without Area Four; or

(iv) Any person, whether within or without Area Four, who does not maintain stationary storage facilities within Area Four, and who sends or brings fuel oil into Area Four and transfers it to a person other than a primary supplier as defined in subdivisions (i), (ii), or (iii) of this subparagraph (16). A person shall be deemed to be a primary supplier only with respect to the establishments maintained by him from which operations described in subdivisions (i), (ii), (iii), or (iv) of this subparagraph are carried on, and with respect to the establishments which are replenished solely on a stock transfer basis, rather than on a sales basis, from the establishments from which operations described in subdivisions (i), (ii), (iii) or (iv) of this subparagraph are carried on: *Provided,* That, if such person does not maintain stationary storage facilities, he shall be deemed to be a primary supplier with respect to all the mobile facilities operated by him within Area Four.

(17) "Secondary supplier" means any person, other than a primary supplier, who is engaged in the business of transferring fuel oil for resale: *Provided,* That any person who receives fuel oil on consignment from a primary supplier, title to the fuel oil remaining in the primary supplier until the time of transfer by the consignee, shall not be deemed to be a secondary supplier with respect to such fuel oil but shall, for all the purposes of this order, be deemed to be an agent of such primary supplier.

(18) "Standby facilities" means equipment (other than fireplaces) in serviceable operating condition designed to use an alternate fuel, for the operation of which a supply of such fuel is available.

(19) "Supplier" means a primary supplier, a secondary supplier, or both.

(20) "Transfer" means to sell, give, exchange, lease, lend, deliver, supply or furnish, and includes the acquisition of title by legal process or operation of law, such as, but not limited to, the acquisition of title by will, inheritance or foreclosure; it also includes the use by any dealer or supplier of fuel oil held by him; but does not include the creation of a security interest or security title involving no change of possession. Delivery to a carrier for shipment, or by a carrier in the course of or in completion of shipment, shall not be deemed a transfer to or by such carrier.

(21) "Transfer," as applied to an establishment or place of business, means any change from one person to another of the right to occupation of the premises and the right to possession and disposal of any fuel oil stocks on hands, whether or not the transferer continues on the premises in another capacity.

(c) *Prohibited transfers of fuel oil.* (1) No person shall transfer or accept a transfer of fuel oil:

(i) For use in the operation of coal spraying equipment in any place in the United States:

(ii) For use in the operation of additional facilities or converted facilities within Areas One, Two, and Three, except if:

(*a*) In the case of new construction, the additional facilities were specified in the construction contract and the foundations under the main part of the structure in which the additional facilities were to be installed was completed prior to July 31, 1942;

(*b*) In the case of converted facilities, such conversion was completed prior to July 31, 1942;

(*c*) In the case of either additional or converted facilities, the person using such facilities cannot use an alternate fuel either because such fuel is unavailable or because technical utilization factors prevent its use;

(iii) For use in the operation of oil burning equipment within Areas One, Two, and Three, where standby facilities are available, unless such standby facilities are operated to take the place of such equipment to the maximum possible extent and to effect the maximum reduction of fuel oil requirements;

(iv) For use in the operation of oil burning equipment, within Area Four, for the purpose of cooling space (other than hospital space) for human occupancy;

(v) From within Area Four to any point without Area Four, except to a consumer as provided in paragraph (d) (2);

(vi) For the operation of a passenger automobile anywhere in the United States.

(d) *Restrictions on transfers of fuel oil to or by consumers in Area Four.* (1) Within Area Four, on and after October 1, 1942, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person other than a dealer or supplier shall transfer or offer to transfer fuel oil to a consumer.

(2) During the period from October 1, 1942 to October 31, 1942, inclusive, notwithstanding the terms of any contract, agreement or commitment, regardless of when made, no dealer or supplier may transfer fuel oil from within or without Area Four to a consumer within Area Four, or from within such area to a consumer without such area, and no consumer shall accept such transfer except in exchange for coupon notes (or coupons or other evidences), for an amount equal to the number of gallons of fuel oil transferred. Such coupon notes shall be executed and forwarded to the transferor at the time of transfer or within twenty-four (24) hours thereafter.

(3) Nothing herein shall be deemed to forbid:

(i) The transfer of fuel oil actually in the fuel supply tank of a vehicle, boat or equipment used for purposes other than supplying heat or hot water to buildings or structures, in conjunction with a lawful and bona fide transfer of such vehicle, boat or equipment itself; or the consumption by the transferee in such vehicle, boat or equipment of fuel oil actually in the fuel supply tank thereof at the time of transfer; or

(ii) Transfers of fuel oil by legal process or by operation of law; or transfers of fuel oil in a storage tank or other container maintained by a consumer as part of an enterprise or establishment, or in the fuel supply tank of equipment supplying heat or hot water to buildings or structures, in conjunction with a lawful and bona fide transfer of such enterprise, establishment or equipment itself; or transfers of fuel oil by consumers to dealers or suppliers. Any person to whom a transfer of the character described in this sub-division (ii) is made within Area Four, shall forthwith report such transfer and the amount of fuel oil involved, to the Local War Price and Rationing Board in the area in which such fuel oil is located. Such person, if a dealer or supplier, shall surrender to the Board, together with such report, coupon notes signed by him for an amount equal to the number of gallons of fuel oil transferred. Such person, if not a dealer or supplier, may either:

(*a*) Transfer all or any part of such fuel oil in exchange for coupon notes for an amount equal to the number of gallons of fuel oil so transferred, and surrender to the Local War Price and Rationing Board coupon notes signed by him for an amount equal to such number of gallons; or

(*b*) Consume such fuel oil: *Provided,* That such person shall report the amount of fuel oil so consumed as fuel oil on hand if he makes application, under any fuel oil ration order issued by the Office of Price Administration, for a fuel oil ration covering the period during which such fuel oil was consumed.

(e) *Restrictions on transfers of fuel oil to dealers and suppliers within Area Four.* (1) During the period from October 1, 1942 to October 31, 1942, inclusive, no primary supplier within or without Area Four, and no dealer or secondary supplier within Area Four, shall transfer or offer to transfer fuel oil to any dealer or supplier within Area Four, and no dealer or supplier within Area Four shall accept such transfer of fuel oil, except in exchange for coupon notes (or coupons or other evidences) for an amount equal to the number of gallons of fuel oil transferred. Such coupon notes shall be executed by the transferee and forwarded to the transferor within twenty-four (24) hours after the transfer.

(2) If, between October 1, 1942 and October 31, 1942, the place of business of any dealer or supplier within Area Four, is transferred, the transferee of the business may acquire the fuel oil inventory of the transferor without executing a coupon note. All coupon notes of the transferor shall be turned over to the transferee, and shall be held by the

---

transferee until they have been redeemed; the coupons or other evidences received in redemption of the coupon notes shall be disposed of in the manner provided in the fuel oil ration order of the Office of Price Administration pursuant to which such coupons or evidences are issued.

(f) *Records to be kept by dealers and suppliers.* (1) At the time of making any transfer of fuel oil to any dealer or supplier within Area Four, every transferor shall furnish to such dealer or supplier an invoice, delivery ticket, or other document of transfer showing the name and address of the transferee and the date and amount of the transfer. Every such transferee shall retain at his place of business for a period of at least one year from the date of such transfer of fuel oil, the invoice, delivery ticket, or other document so furnished him.

(2) Every dealer or supplier who makes a transfer to a consumer, of the type described in paragraph (d) (2), shall keep a record of such transfer, showing the name and address of the transferee, the date of the transfer, and the number of gallons of fuel oil transferred. Every dealer or supplier shall retain such record at his place of business for a period of at least one year from the date of such delivery.

(3) Every person to whom coupon notes have been given shall retain all such coupon notes and, at the time of surrender to him of coupons or other evidences in full redemption of a coupon note, shall return such note to the person who signed it: *Provided*, That within thirty (30) days after the effective date of any fuel oil ration order issued by the Office of Price Administration, each such person shall report to the Regional Office of the Office of Price Administration in his region, the name and address of each person who has failed to redeem his coupon notes in full, and the amount of fuel oil transferred to such person.

(4) All coupon notes, records, reports, or other documents required by Limitation Order L–56 to be prepared and kept by any person, and the fuel oil facilities of any person, shall be subject to inspection by the War Production Board or the Office of Price Administration, or by any agent, representative or employee of either; such inspection may be made at the establishment or office of any such person at any reasonable time.

(g) *Redemption of coupon notes.* Within fifteen (15) days after the effective date of any fuel oil ration order issued by the Office of Price Administration, every person who has executed (or is required by this Order to execute) a coupon note shall surrender to the person to whom the note was given (or was required by this order to be given) coupons or other evidences, issued pursuant to such fuel oil ration order, equal in gallonage value to the number of gallons for which such notes were executed or required.

(h) *Directions as to deliveries and conversions.* (1) The Director General for Operations may, from time to time, subject to the provisions of paragraphs (d), (e) and (g) of this order, issue specific directions directing or forbidding the transfer of fuel oil to any person or class of persons.

(2) The Director General for Operations or a representative of the Office of Petroleum Coordinator for War designated by him may from time to time examine and investigate the fuel oil burning facilities owned or operated by any person for the purpose of determining whether such equipment can be converted to the use of an alternate fuel. In making such investigation facts and circumstances which may relate to the particular problem, including the availability of alternate fuel, shall be considered. If it is found that the fuel oil burning facilities of any person may be converted to the use of alternate fuel, and that a supply of such fuel is available, without any unreasonable expenditure upon the part of the person and without working any exceptional or unreasonable hardship upon such person, then the Director General for Operations may, after notice sufficient to permit such conversion, forbid further deliveries of fuel oil for use in such facilities.

2. *Effective date.* This Amendment No. 4 shall take effect October 1, 1942, and shall remain in effect until revoked by the Director General for Operations.

PART 949—CHROMIUM

[Supplementary Order M–18–b, as Amended September 30, 1942]

Section 949.3 *Supplementary Order M–18–b*, as amended June 27, 1942,[1] is hereby amended to read as follows:

§ 949.3 *Supplementary Order M–18–b, as amended September 30, 1942*—(a) *Definitions.* (1) "Primary chromium chemicals" means those chemicals processed directly from chrome ore, including but not by way of limitation, bichromate of soda, bichromate of potash and sodium chromate, and in addition all chromium tanning compounds.

(2) "Processor" means any person who uses ores or concentrates for the manufacture of, or which are converted into, primary chromium chemicals.

(3) "Dealer" means any person who procures primary chromium chemicals, either from domestic sources or by import, for sale without change in form, whether or not such person receives title to or physical delivery of the materials; and includes selling agents, warehouseman and brokers.

(b) *Directions with respect to delivery and use.* The Director General for Operations may from time to time issue specific directions with respect to the delivery, acceptance of delivery, or use by any person of primary chromium chemicals.

(c) *Restrictions on inventories.* No consumer of primary chromium chemicals shall accept delivery of primary chromium chemicals if the inventory of such material of the person accepting delivery is, or will by virtue of such acceptance become, in excess of a thirty-day supply thereof, having regard to current permissible use or sale, but this order shall not prevent a person's accepting delivery thereof in the smallest practical delivery unit.

(d) *Reports by consumers of primary chromium chemicals.* Except as specifically authorized by the Director General for Operations, no processor or dealer shall make, and no person shall accept delivery of primary chromium chemicals in any month unless the person seeking delivery shall on or before the 8th day of such month have filed with the processor a report on Form PD–54 and have sent a copy thereof to the War Production Board, or, if the delivery is made or accepted prior to the 8th day of a month, have filed such report and sent such copy on or before the 8th day of the preceding month. The filing of such form shall, in so far as concerns primary chromium chemicals, be in lieu of the filing of any form pursuant to paragraph (e) of General Preference Order M–18–a.[2] Any person affected by this order shall file such additional reports as may from time to time be directed by the Director General for Operations.

(e) *Exemption.* Nothing herein shall restrict in any way any delivery to, or acceptance of delivery by, the Army or Navy of the United States or the United States Maritime Commission.

(f) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref: M–18–b.

PART 1162—DYESTUFFS

[Conservation Order M–103, as Amended September 30, 1942]

Section 1162.1 *Conservation Order M–103*[3] is hereby amended to read as follows:

§ 1162.1 *Conservation Order M–103, as amended September 30, 1942*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Dyestuffs" means any coloring matter, with the exception of coloring matter the chemical constituents whereof are entirely inorganic in nature. As used herein, the word "dyestuffs" does not include inorganic pigments which may be extended or otherwise processed with substantially colorless organic material, and shall not include dyes certified under the provisions of the Federal Food, Drug and Cosmetic Act (52 Stat. 1040, Ch. 875) and which are sold and used exclusively for use in foods, drugs and cosmetics, as defined in the said Act.

(2) "Anthraquinone vat dyes" shall include, in addition to those dyes ordinarily known as such, Fast Red A. L. Salt, which shall be considered an anthraquinone vat dye of single strength.

(c) *Restrictions on sale and use of dyestuffs in fourth quarter*—(1) *Dyestuffs appearing on List A.* Except as provided in paragraphs (d) (2) and (e) hereof, no person shall hereafter sell or deliver any of the dyestuffs appearing on List A, to any person, and no person shall use any of the dyestuffs appearing on List A.

(2) *Anthraquinone vat dyes not on List A.* No person, except as provided in paragraph (e) hereof, shall, during the period beginning October 1, 1942, and ending December 31, 1942, deliver to any other person or persons for use in the continental United States or Canada an amount of anthraquinone vat dyes not appearing on List A in excess of 17½% of the amount of all anthraquione vat dyes, including those appearing on List A, delivered by such person in the period from January 1, 1941, to December 31, 1941.

No person, except as provided in paragraph (e) hereof, shall during the period beginning October 1, 1942, and ending December 31, 1942, accept delivery of for use in the continental United States or Canada or so use an amount of anthraquinone vat dyes not appearing on List A in excess of 17½% of the amount of all anthraquinone vat dyes, including those appearing on List A, delivered to, or used by, such person, as the case may be, in the period from January 1, 1941, to December 31, 1941.

For the purposes of this subparagraph amounts of anthraquinone vat dyes shall be calculated in pounds of equivalent single strength anthraquinone vat dyes and shall be raised but only to the extent necessary to equal 25 pounds or a multiple thereof.

(3) *All other anthraquinone dyes.* No person, except as provided in paragraph (e) hereof, shall during the period beginning October 1, 1942, and ending December 31, 1942, deliver to any other person or persons for use in the continental United States or Canada an amount of anthraquinone dyes other than those mentioned in (1) and (2) above in excess of 17½% of the amount of such anthraquinone dyes delivered by such person in the period from January 1, 1941 to December 31, 1941.

No person, except as provided in paragraph (e) hereof, shall during the period beginning October 1, 1942, and ending December 31, 1942, accept delivery of for use in the continental United States or Canada or so use an amount of anthraquinone dyes other than those mentioned in (1) and (2) above in excess of 17½% of the amount of such anthraquinone dyes delivered to or used by such person, as the case may be, in the period from January 1, 1941, to December 31, 1941. For the purposes of this subparagraph amounts of anthraquinone dyes shall be calculated in pounds and shall be raised but only to the extent necessary to equal 25 pounds or a multiple thereof.

(d) *Restrictions on export.* (1) No producer shall sell, or set aside, for export, during the period beginning October 1, 1942, and ending December 31, 1942, from the continental United States, upon orders other than defense orders, in any calendar month, more dyestuffs requiring anthraquinone derivatives in their manufacture than 8 percent of the total of such dyestuffs produced in such month by him, exports to Canada excepted.

(2) During the period beginning October 1, 1942, and ending December 31, 1942, notwithstanding the provisions of paragraph (c), but subject to the limitation of subparagraph (1) above, each producer of any of the dyestuffs appearing on List A may export in any month an amount of such dyestuffs not in excess of 3 percent of his total monthly production thereof, upon orders accompanied by export licenses issued by the Board of Economic Warfare, exports to Canada excepted.

(e) *General exceptions.* The prohibitions and restrictions of paragraphs (c) and (d) shall not apply to:

(1) The sale, delivery or use of dyestuffs for the manufacture of any item which is being produced under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, the War Shipping Administration, the Defense Plant Corporation, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or for the government of Canada, if in any such case the use of such dyestuff to the extent employed is required by the specifications of the prime contract, or

(2) Sales or deliveries of dyestuffs for use in, or resale for use in, and such use in, the manufacture of products to be physically incorporated in the following types of uniforms:

(i) U. S. Army officers (Commissioned, Warrant, and Specialist Corps) and nurses.

(ii) U. S. Navy officers (Commissioned and Warrant), Chief Petty officers and nurses.

(iii) U. S. Marine Corps officers (Commissioned and Warrant).

(vi) U. S. Maritime Commission and War Shipping Administration officers.

(vii) U. S. Coast and Geodetic Survey officers.

(viii) U. S. Public Health Service officers and nurses.

(ix) U. S. Women's Reserve of the U. S. Naval Reserve members (WAVES).

(3) Sales or deliveries of dyestuffs by or from a producer or his exclusive sales agent to another producer or the exclusive sales agent of such other producer, or

(4) Sales to, deliveries to, and use by any person for experimental purposes only of amounts of dyestuffs totaling for such person not in excess of 25 pounds for each self color.

(5) Sales to, deliveries to, and use by any person for coloring of leaded gasoline.

(f) *Restrictions on use of meta-toluylene diamine.* No person shall, after November 1, 1942, use any meta-toluylene diamine in the developing of diazotized dyes already present on textile fibers; provided, that nothing contained herein shall be construed to prohibit the use of meta-toluylene diamine in the manufacture of dyestuffs. The term "meta-toluylene diamine" as used in this paragraph (f) shall include, without being limited to, the products commonly known in the trade as Amanil Developer B, Pontamine Developer TN, Developer D, Developer DB, Developer MT, Developer MTD or Developer TD.

(g) *Restrictions on use of anthraquinone.* No person shall, after November 1, 1942 use any anthraquinone in any physical form in discharging, stripping or destroying napthol (azoic), vat, or other dyes already present on textile fibers; provided, that nothing contained herein shall be construed to prohibit the use of anthraquinone in the manufacture of dyestuffs. The term "discharging" as used in this paragraph (g), shall include, without being limited to, color and white discharge printing.

(h) *Restrictions on inventory.* In addition to the restrictions on inventory contained in Priorities Regulation No. 1 (§ 944.14), no person using dyestuffs shall hereafter purchase or accept delivery of any of the dyestuffs appearing on List A, which required the use of anthraquinone or anthaquinones derivatives in the manufacture thereof, which will increase his inventory thereof beyond an amount which, to the best of his knowledge and belief, will be used by him in the next 45 days; except that, notwithstanding the provisions of such Regulations and this paragraph (h), any person may purchase directly from the Defense Supplies Corporation any amount of the dyestuffs appearing on List A and hold the amounts so purchased as inventory: *Provided, however,* That such amounts purchased from the Defense Supplies Corporation shall be taken into account in determining the size of inventory insofar as purchases and deliveries from other persons are concerned.

(i) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver any dyestuffs to any person, if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as may be required by the said Board from time to time. No reports or questionnaires are to be filed by any person until forms therefor have been prescribed by the War Production Board.

(k) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of dyestuffs conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegraph, Reference M–103, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(m) *Communications to the War Production Board.* All communications concerning this order, or any reports required to be filed hereunder shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C. Ref: M–103.

PART 3036—COMMERCIAL COOKING AND FOOD AND PLATE WARMING EQUIPMENT

[General Limitation Order L-182]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the production of commercial cooking and food and plate warming equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3036.1 *General Limitation Order L–182*—(a) *Definitions.* For the purposes of this order:

(1) "Commercial cooking and food and plate warming equipment" means equipment using coal, wood, oil, gas or other non-electric fuel, or equipment attached to any steam or hot water system, designed for the heating of kitchen utensils or plates, or for the cooking or baking of food for consumption or sale on the premises in which the equipment is located. It includes, but is not limited to, such items as bakers, broilers, fryers, griddles, grills, hot plates, ovens (except built-in types), ranges, roasters, steamers, toasters, urns and warmers, but does not include cooking appliances for household use.

(2) "Ultimate consumer" means any person who uses commercial cooking and food and plate warming equipment for the heating of kitchen utensils or plates, or for the cooking or baking of food for consumption or sale.

(3) "New commercial cooking and food and plate warming equipment" means any commercial cooking and food and plate warming equipment that has never been used by an ultimate consumer.

(4) "Used commercial cooking and food and plate warming equipment" means any commercial cooking and food and plate warming equipment that has been used by an ultimate consumer.

(b) *Restrictions on manufacture.* (1) From and after October 1, 1942, no manufacturer of commercial cooking and food and plate warming equipment shall put into process in the manufacture of such equipment, including finished units and parts thereof, during any calendar quarter, any iron and steel in excess of 6¼% of the iron and steel put into process in the manufacture of finished units of such equipment by him during the calendar year, 1941, *except* that in addition to the quotas set forth in this paragraph, any manufacturer may put any iron or steel into the process of manufacture of any such equipment for delivery to or for the account of the Army, Navy, the Maritime Commission, the War Shipping Administration of the United States or the Defense Plant Corporation.

(2) No iron or steel may be used in the manufacture of any equipment listed on Schedule I, except in the manufacture of repair and replacement parts thereof as limited in paragraph (b) (1).

(c) *Restrictions on delivery.* Regardless of the terms of any contract, sale, other commitment or any preference rating, no person shall make or accept physical delivery of any new or used commercial cooking and food and plate warming equipment, except that:

(1) Any person may make or accept physical delivery of any such equipment on a specific contract or subcontract for delivery to or for the account of the Army, the Navy, the Maritime Commission, the War Shipping Administration of the United States, or the Defense Plant Corporation.

(2) Any person may make or accept physical delivery of any such equipment pursuant to specific authorization of the Director General for Operations on Form PD–638A.

(3) Any ultimate consumer may make physical delivery of any such equipment to any manufacturer, dealer or distributor of such equipment, and such manufacturer, dealer, or distributor may accept such delivery; and

(4) Any such equipment actually in transit at the time of issuance of this order may be delivered to its immediate destination.

(d) *Delivery of repair and replacement parts.* Nothing in this order shall prevent the delivery of repair or replacement parts for commercial cooking and food and plate warming equipment.

(e) *Reports.* Every manufacturer, dealer and distributor of any commercial cooking and food and plate warming equipment shall execute and file with the War Production Board on or before the tenth day of each month a report on Form PD–638, which may be obtained from the nearest field office of the War Production Board.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of all the Priorities Regulations of the War Production Board, as amended from time to time.

(g) *Applicability of other orders.* Insofar as any other order issued, or to be issued hereafter, limits the production or delivery of commercial cooking and food and plate warming equipment to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein. After the date of issuance of this order, General Limitation Orders No. L–79[1] and No. L–83[2] shall not apply to commercial cooking and food and plate warming equipment.

(h) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may appeal by letter to the War Production Board, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Branch, Washington, D. C., Ref: L-182.

(j) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing and using, materials under priority control and may be deprived of priorities assistance.

[1] 7 F.R. 6522.

(1) Paragraph (b) is amended by the addition of new paragraphs (b) (4) and (b) (5), reading as follows:

(4) On and after September 30, 1942, no person shall make delivery of, or use or process such pilchard in violation of orders of the Director General for Operations issued pursuant to this paragraph. The Director General for Operations may from time to time allocate the supply of pilchard and specifically direct the time, manner and quantities in which deliveries to particular persons shall be made or withheld. He may require fishing vessels delivering pilchard to deliver part or all of such pilchard to particular ports or to particular persons. The Director General for Operations may also direct or prohibit particular uses of such pilchard.

(5) Orders given by the Director General for Operations pursuant to paragraphs (b) (1) through (b) (4) must be carried out without regard to inconsistent provisions in any contract or agreement.

PART 3082—GAS CYLINDERS

[General Preference Order M-233]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of gas cylinders for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3082.1 (*General Preference Order M–233*)—(a) *Definitions.* (1) "Gas cylinder" means any portable steel container other than a steel drum, which has a capacity of less than one ton, and which is suitable for shipping gas charged at high or low pressure.

(2) "Gas cylinder forging" means any steel forging to be used in the manufacture of a gas cylinder.

(3) "Producer" means any person engaged in the manufacture of gas cylinders or gas cylinder forgings.

(b) *Restrictions upon manufacture and delivery of gas cylinders and gas cylinder forgings.* On and after September 30, 1942, and prior to January 1, 1943, all producers shall observe any specific direction by the Director General for Operations, pertaining to the manufacture and delivery of gas cylinders and gas cylinder forgings. On and after January 1, 1943, no producer shall manufacture or deliver any gas cylinder or gas cylinder forging except as specifically directed by the Director General for Operations. Such directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director General for Operations without regard to any previous ratings assigned to particular contracts or purchase orders.

(c) *Reports.* On or before October 25, 1942, each producer shall submit to Containers Branch, War Production Board, Washington, D. C., Ref: M-233, upon Form PD-662, data relative to the manufacture and delivery of gas cylinders and gas cylinder forgings during the calendar month beginning January 1, 1943. Similarly, on or before the 25th day of each calendar month after October 25, 1942, each producer shall file Form PD–662.

(d) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* Except to the extent that a schedule for the manufacture and delivery of gas cylinders or gas cylinder forgings is altered by any direction of the Director General for Operations, this order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C. Ref: M-233.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

[Amendment 32, to Revised Tire Rationing Regulations[1]]

TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

A new subparagraph (11) is added to § 1315.504 (a) as follows:

Tires and Tubes for Vehicles Eligible Under List B

* * * * *

§ 1315.504 *Eligibility classification, List B.* (a) On a passenger car used principally to provide one or more of the following transportation services. * * *

(11) Transportation of authorized representatives of government, management or labor to, from, between, or within establishments essential directly or indirectly to the war effort, for the purpose of (a) performing at such establishments services which are directly related to the prevention or settlement of labor grievances and disputes, or (b) transporting workers to such establishments.

(i) Certificates may be issued hereunder to provide such representatives with transportation between their residences and the establishments at which they render such services, but not with transportation between their residences and fixed places of employment other than such establishments.

(ii) Certificates may be issued under this paragraph only when there are no other means of transportation adequate to the performance of such services by such representative and only when the applicant shows that the vehicle to be equipped will be used economically and that he is making a reasonable effort to carry other passengers to work with him, or to "double up" with others working at the same or nearby places.

PART 1341—CANNED AND PRESERVED FOODS

[Maximum Price Regulation 232]

APPLE BUTTER

In the judgment of the Price Administrator, seasonal conditions and other factors affecting the sale of apple butter have resulted in the establishment under the General Maximum Price Regulation[1] of maximum prices which are not generally fair and equitable as applied to the 1942 pack and which are not best calculated to secure adequate production of this commodity. This Maximum Price Regulation No. 232 is issued by the Price Administrator in order to establish for the packers of apple butter maximum prices which are fair and equitable and which will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this Regulation has been issued and filed with the Division of the Federal Register.*

The Price Administrator has given due consideration to the prices of apple butter prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has consulted with representatives of the apple butter industry.

The maximum prices established by this regulation are not below prices which will reflect to apple growers a price for apples equal to the highest of any of the following prices, as determined and published by the Secretary of Agriculture: (1) 110 per centum of the parity price adjusted by the Secretary of Agriculture for grade, location and seasonal differentials; (2) the market price prevailing on October 1, 1941; (3) the market price prevailing on December 15, 1941; or (4) the average price during the period July 1, 1919, to June 30, 1929.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, Maximum Price Regulation No. 232 is hereby issued.

AUTHORITY: §§ 1341.451 to 1341.465, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1341.451 *Prohibition against dealing in apple butter above maximum prices.* (a) On and after October 1, 1942, regardless of any contract or other obligation, no packer shall sell or deliver any apple butter at a price higher than the maximum prices established by this Maximum Price Regulation No. 232;

(b) No person in the course of trade or business shall buy or receive any apple butter from a packer at a price higher than the maximum prices established by this Maximum Price Regulation No. 232;

(c) No person shall agree, offer, solicit or attempt to do any of these things.

§ 1341.452 *Packer's maximum prices for apple butter.* (a) The packer's maximum price per dozen or other unit f. o. b. factory for each brand, container type and size of apple butter shall be:

(1) The weighted average price per dozen or other unit f. o. b. factory charged by the packer for the brand, container type and size during the months of October and November 1941; plus

(2) ½¢ for each pound of finished apple butter in a dozen or other unit of that size container; plus

(3) The sum of the weighted average cost increases for raw materials. The increase shall be computed for each raw material by taking the difference per dozen or other unit of the finished product between the weighted average cost delivered at the factory of the raw material purchased or contracted for between March 1, 1941, and October 1, 1941, and the weighted average cost delivered at the factory of the raw material purchased or contracted for between March 1, 1942, and October 1, 1942; except as limited in paragraph (b) (3) of this section.

(b) In determining the packer's maximum price:

(1) The "weighted average price" shall be the total gross sales dollars charged for each brand, container type and size divided by the number of units of that item sold. All sales made in the regular course of business during the months of October and November 1941 shall be included, except sales made to the United States.

(2) The "weighted average cost" of any raw material shall be the total amount paid for it divided by the total number of pounds or other unit purchased.

(3) In computing the weighted average costs of raw materials delivered at the factory, the packer shall exclude from the computation any amounts paid in excess of the following amounts:

(i) For raw materials other than fresh apples the maximum prices which the packer's supplier or suppliers were entitled to charge him under the General Maximum Price Regulation or under any other pertinent Maximum Price Regulation in the respective sales by which the raw materials were acquired by the packer.

(ii) For fresh apples the sum of (*a*) the weighted average cost delivered at the factory of apples purchased or contracted for between March 1, 1941, and October 1, 1941, and (*b*) $8 a ton.

(4) In converting the increased cost of raw materials into increased cost per dozen or other unit for each brand and container type and size, the increase shall be allocated to each container type and size in the same proportion as costs of raw materials in 1941 were allocated.

(c) The maximum price for each brand, container type and size for a packer who owns more than one factory shall be determined separately for each factory. But if any two or more factories had the same f. o. b. factory prices in 1941 a maximum price may be determined uniformly for that group by using the combined figures of the group in the computations required by paragraphs (a) and (b) of this section. In applying for the specific authorization of a price under paragraph (b) of § 1341.453, application may be made for a uniform maximum price applicable to the whole group.

(d) Any packer who regularly sold a purchaser any item of apple butter on a delivered price basis during the calendar year 1941 shall increase the maximum price for the item, as computed under the preceding paragraphs of this section, by the amount of the freight charge for that item which he added to his f. o. b. factory price during March 1942. The resulting price shall be the packer's maximum delivered price for that purchaser.

§ 1341.453 *Inability to fix maximum prices under § 1341.452.* (a) If the packer's maximum price for any item cannot be determined under § 1341.452, his maximum price shall be the maximum price of the most closely competitive packer.

(b) If the packer's maximum price for any item cannot be determined under § 1341.452 or under paragraph (a) of this section, the maximum price shall be a price determined after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (1) a detailed description of the brand, container type and size; and (2) a statement of the facts which differentiate it from the most similar item for which he has determined a maximum price, identifying the similar item and stating the maximum price determined for it. When authorization is given, it will be accompanied by instructions for determining the maximum price. Within ten days after the price has been determined, the seller shall report it to the Office of Price Administration, Washington, D. C. This price shall be subject to adjustment at any time by the Office of Price Administration.

§ 1341.454 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 232 may be charged, demanded, paid or offered.

§ 1341.455 *Customary allowances and discounts.* The maximum prices established by §§ 1341.452 and 1341.453 shall be reduced to reflect the packer's customary allowances, discounts and other price differentials.

§ 1341.456 *Transfers of business or stock in trade.* If the business assets, or stock in trade of any packer are sold or otherwise transferred on or after October 1, 1942, and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no transfer had taken place, and his obligation to keep records sufficient to verify those prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in this Regulation.

§ 1341.457 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 232 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to apple butter, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1341.458. *Enforcement.* Any person violating a provision of this Maximum Price Regulation No. 232, is subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942.

§ 1341.459 *Records and reports.* Every packer who makes sales of any apple butter covered by this Maximum Price Regulation No. 232, shall (a) as long as the Emergency Price Control Act of 1942 continues in effect, preserve for examination by the Office of Price Administration all his existing records which were the basis for the computations required by § 1341.452; and (b) preserve for the same period all records of the same kind as he has customarily kept, relating to the prices which he charged for apple butter sold on and after October 1, 1942; and (c) file with the Office of Price Administration, Washington, D. C., within 10 days after determining his maximum prices for each brand, container type and size of apple butter, a statement showing (1) his weighted average price and his increases in the cost of raw materials, as determined under § 1341.452, together with the maximum price determined under this regulation and all customary allowances, discounts and differentials, and (2) in those cases in which the maximum price was determined by the maximum price of the most closely competitive packer, the maximum price and the name and address of the packer whose maximum price was adopted; and (d) as long as the Emergency Price Control Act of 1942 continues in effect, preserve a true copy of each such statement filed with the Office of Price Administration for examination by any person during ordinary business hours. Any packer who claims that substantial injury would result to him from making any such statement available to any other person, may file a copy of the statement with the nearest Regional, State, or District Office of the Office of Price Administration. The information contained in the statement will not be published or disclosed unless it is determined that the withholding of the information is contrary to the purposes of this regulation.

§ 1341.460 *Petition for amendment.* Any person seeking a modification of this Maximum Price Regulation No. 232 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1[2] issued by the Office of Price Administration.

§ 1341.461 *Applicability.* The provisions of this Maximum Price Regulation No. 232 shall be applicable only to the United States and the District of Columbia.

§ 1341.462 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 232 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of apple butter for which maximum prices are established by this regulation.

§ 1341.463 *Export sales.* The maximum prices at which a person may export apple butter shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1341.464 *Definitions.* (a) When used in this Maximum Price Regulation No. 232 the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successors or representatives of any of the foregoing and includes the United States, any of its agencies, any other Government, or any of its political subdivisions and any agency of any of the foregoing.

(2) "Packer" means a person who preserves and packs apple butter as defined in subparagraph (3).

(3) "Apple butter" is the smooth, semisolid food having a characteristic apple flavor obtained by cooking a mixture of the strained edible portion of apples and saccharine ingredients, consisting of not less than 5 parts, by weight, of apple ingredient (calculated on a fresh fruit basis using an average percentage of soluble apple solids of 13.7 percent) to 2 parts, by weight, of saccharine ingredients. The product may be prepared with or without any of the following: Apple juice, lemon juice, lime juice, citric acid, lactic acid, malic acid, tartaric acid and salt. Saccharine ingredients may be any of the following: (i) Sugar, (ii) invert sugar sirup, (iii) brown sugar, (iv) invert brown sugar sirup, (v) honey, (vi) corn sirup, (vii) any combination of two or more of (i), (ii), (iii), (iv), (v) and (vi), but if honey is a component the weight of its solids is not less than ⅖ of the weight of the solids of the combination; or (viii) any combination of corn sugar or dextrose and (i), (ii), (iii), (iv), (v), (vi), or (vii), but if honey is a component the weight of its solids is not less than ⅖ of the weight of the solids of the combination. Apple butter is further defined by the Regulation Fixing and Establishing Definitions and Standards of Identity for Fruit Butters, issued under the Federal Food Drug and Cosmetic Act of 1938[4] and published in the FEDERAL REGISTER on September 5, 1940.

(4) "Raw material" means any ingredient used in the making of apple butter, including the ingredients listed in subparagraph (3).

(5) "The most closely competitive packer" means the packer who: (i) Sells to the same class of buyer,

(ii) Packs the same or similar quality range of the product,

(iii) Has sold in the past the same kind of apple butter at approximately the same prices as the packer establishing a maximum price,

(iv) Has used the same general merchandising methods, and

(v) Is located in the same general growing and packing area or, if there is no such packer in the same general growing and packing area, is located in the nearest growing and packing area.

(b) Unless the context otherwise requires, the definitions of section 302 of Emergency Price Control Act of 1942 shall apply to other terms used in this regulation.

§ 1341.465 *Effective date.* This Maximum Price Regulation No. 232 (§§ 1341.451 to 1341.465 inclusive) shall become effective October 1, 1942.

Issued this 29th day of September 1942.

Partial Redemption, Before Maturity, of 2¾ Percent Mutual Mortgage Insurance Fund Debentures, Series B

I. NOTICE OF EIGHTH CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY, OF 2 3/4 PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES B

September 28, 1942.

The Federal Housing Commissioner, with the approval of the Secretary of the Treasury, has issued the following notice of call for partial redemption and offer to purchase with respect to 2¾ percent Mutual Mortgage Insurance Fund debentures, Series B:

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U.S.C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Mutual Mortgage Insurance Fund debentures, Series B, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1943, on which date interest on such debentures shall cease:

Denomination:	*Serial numbers (All numbers inclusive)*
$50	1,343 to 1,456
$100	4,787 to 5,259
$500	1,593 to 1,705
$1,000	5,923 to 6,469
$5,000	412 to 452
$10,000	45 to 46

The debentures first issued, as determined by the serial numbers, were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1942. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1942, and provision will be made for the payment of final interest due January 1, 1943, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1 to December 31, 1942, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1943, or for purchase prior to that date will be given by the Secretary of the Treasury.

II. TRANSACTIONS IN EIGHTH-CALLED DEBENTURES

1. The debentures included in the foregoing notice of call for partial redemption on January 1, 1943, are hereby designated eighth-called 2¾ percent Mutual Mortgage Insurance Fund debentures, Series B, and are hereinafter referred to as eighth-called debentures.

2. Transfers and denominational exchanges in eighth-called debentures will terminate at the close of business on September 30, 1942.

III. REDEMPTION OR PURCHASE

1. Holders of eighth-called debentures will be entitled to have such debentures redeemed and paid at par on January 1, 1943, with interest in full to that date, at the rate of $13.75 per $1,000. Interest on eighth-called debentures will cease on January 1, 1943.

2. Holders of eighth-called debentures have the privilege of presenting such debentures at any time from October 1 to December 31, 1942, inclusive, for purchase at par and accrued interest, at the rate of $0.74728 per $1,000 per day from July 1, 1942, to date of purchase.

IV. RULES AND REGULATIONS GOVERNING REDEMPTION AND PURCHASE

1. The United States Treasury Department is the agent of the Federal Housing Commissioner for the redemption and purchase of eighth-called debentures. In accordance with regulations adopted by the Federal Housing Commissioner and approved by the Secretary of the Treasury, the assignment, redemption, and purchase of eighth-called debentures will be governed by the general regulations of the Treasury Department with respect to United States bonds and notes, so far as applicable, except as otherwise provided herein.

2. Eighth-called debentures presented for redemption on January 1, 1943, or for purchase from October 1 to December 31, 1942, inclusive, must be assigned by the registered payee or assignee thereof

or by their duly constituted representatives in the form indicated in paragraph 3 hereof, and should thereafter be presented and surrendered to any Federal Reserve Bank or to the Division of Loans and Currency, Treasury Department, Washington, D. C., accompanied by appropriate written advice. (Use Form PD 1795 attached hereto.) The debentures must be delivered at the expense and risk of the holders. (See paragraph 8 of this section.) In all cases checks in payment of principal and final interest will be mailed to the address given in the form of advice accompanying the debentures when surrendered.

3. If the registered payee or an assignee holding under proper assignment from the registered payee desires that payment be made to him, the debentures should be assigned by such payee or assignee or by a duly constituted representative to "The Federal Housing Commissioner for redemption" or to "The Federal Housing Commissioner for purchase," according to whether the debentures are to be presented for redemption on January 1, 1943, or for purchase prior to that date. If it is desired for any reason that payment be made to some other person without intermediate assignment, the debentures should be assigned to "The Federal Housing Commissioner for redemption (or purchase) for the account of ------------------," inserting the name and address of the person to whom payment is to be made.

4. An assignment in blank or other assignment having similar effect will be recognized, but in that event payment will be made to the person surrendering the debenture for redemption or purchase since, under such an assignment, the debenture becomes in effect payable to bearer. Assignments in blank or assignments having similar effect should be avoided, if posisble, in order not to lose the protection afforded by registration.

5. Final interest on any eighth-called debentures, whether purchased prior to or redeemed on or after January 1, 1943, will be paid with the principal in accordance with the assignments on the debentures surrendered.

6. All assignments must be made on the debentures themselves unless otherwise directed by the Treasury Department. Detached assignments will be recognized and accepted in any particular case in which the use of detached assignments is specifically authorized by the Treasury Department. Any assignment not made upon the debenture is considered a detached assignment.

7. An eighth-called debenture registered in the name of, or assigned to, a corporation, will be paid to such corporation on or after January 1, 1943, upon an appropriate assignment for that purpose executed on behalf of the corporation by a duly authorized officer thereof. An assignment so executed and duly attested in accordance with Treasury Department regulations will ordinarily be accepted without proof of the officer's authority. In all cases coming under this provision payment will be made only by check drawn to the order of the corporation. Proof of the authority of the officer assigning on behalf of a corporation will be required, in accordance with the general regulations of the Treasury Department, in the case of assignments for purchase prior to January 1, 1943, and in case of assignments for redemption on or after January 1, 1943, for the account of any person other than the corporation.

8. Debentures presented for redemption or purchase under this circular must be delivered to a Federal Reserve Bank or to the Division of Loans and Currency, Treasury Department, Washington, D. C., at the expense and risk of the holder. Debentures bearing restricted assignments may be forwarded by registered mail, but debentures bearing unrestricted assignments should be forwarded by registered mail insured or by express prepaid.

9. In order to facilitate the redemption of eighth-called debentures on January 1, 1943, any such debenture may be presented and surrendered in the manner herein prescribed in advance of that date but not before December 1, 1942. Such early presentation by holders will insure prompt payment of principal and interest when due.

V. GENERAL PROVISIONS

1. Any further information which may be desired regarding the redemption of eighth-called debentures under this circular may be obtained from any Federal Reserve Bank or from the Division of Loans and Currency, Treasury Department, Washington, D. C., where copies of the Treasury Department's regulations governing assignments may be obtained.

2. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to perform any necessary acts under this circular. The Secretary of the Treasury may at any time or from time to time prescribe supplemental and amendatory rules and regulations governing the matters covered by this circular, which will be communicated promptly to the registered owners of eighth-called debentures.

A petition pursuant to the provisions of the Bituminous Coal Act of 1937 having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on October 27, 1942, at 10 o'clock in the forenoon of that date at a hearing room of the Bituminous Coal Division in Washington, D. C. On such date the Chief of the Records Section in the Offices of the Division in Washington, D. C., will advise as to the room where such hearing will be held.

It is further ordered, That Travis Williams or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party

herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before October 22, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of Carter Coal Company to amend the Schedule of Effective Minimum Prices for District No. 7 for Truck Shipments to permit petitioner to sell coal produced at its Olga No. 1, Olga No. 2, Caretta, Thelma, and Seaboard Mines in District No. 7 to the following persons residing at or near said mines at the same prices and terms at which it sells such coal to its mine-worker employees:

a. Employees of the petitioner who may not be included within the purview of the phrase "mine-worker employees" such, for example, as general and assistant mine superintendents, supervisors, foremen, inspectors, engineers, chemists, mechanics, laborers not directly engaged in mining operations, auditors, accounting and clerical workers, office employees, purchasing agents, store employees, doctors, nurses, cooks, waiters and waitresses, domestic helpers, janitors, watchmen and others;

b. The following persons who are not employees of the petitioner:

i. Employees of a public utility company who reside in houses owned by the petitioner located at or near the mines and who work at the petitioner's electric power sub-station located at Coalwood, West Virginia;

ii. Pastors of local churches, principal and teachers employed at local school, local agent of railroad company, operator of independent garage and repair shop, injured former employees, and widows of former employees; all of the foregoing residing in houses owned by the petitioner located at Coalwood and Caretta, West Virginia; and

iii. Tenants of houses owned by the petitioner located at Seaboard, Virginia, most of whom are employed by a neighboring mining company, namely, Jewell Ridge Coal Corporation, a code member in District No. 7.

Dated: September 29, 1942.

[Docket No. B-333]

IRA H. BISEL, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated September 11, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on September 14, 1942, by Bituminous Coal Producers Board for District No. 1, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Ira H. Bisel, an individual (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on November 2, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 118, Colonial Hotel, Altoona, Pennsylvania.

It is further ordered, That W. A. Cuff, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging

That Ira H. Bisel, an individual, Code Member, whose address is Gray, Pennsylvania, whose Code membership became effective September 19, 1938, and who operates the Bisel Mine, Mine Index No. 1085, and the J. F. Fritz Mine, Mine Index No. 1397, located in Somerset County, Pennsylvania, Subdistrict No. 36 of District No. 1 has wilfully violated the Act, the Code promulgated thereunder, and the rules and regulations and orders of the Division as follows:

I. By selling and delivering by truck, subsequent to September 30, 1940, below the effective minimum prices established therefor in the Schedule of Effective Minimum Prices for District No. 1 For Truck Shipment, coal produced at the aforesaid Bisel Mine, including sales during the period from October 16, 1940, to March 20, 1941, both dates inclusive, but not in limitation thereof, to the Cross Roads School, Jenners Township School District, Somerset County, Pennsylvania, approximately 88.245 net tons of run of mine coal at $2.10 per net ton, whereas said coal was classified as Size Group No. 3 and priced at $2.25 per net ton f. o. b. said mine in said schedule, resulting in violations of section 4 II (e) of the Act and Part II (e) of the Code.

II. By selling and delivering by truck, subsequent to September 30, 1940, coal produced at the aforesaid Bisel Mine, at prices below the effective minimum price for said coal as established in the aforesaid schedule, to which applicable minimum price there should have been added the transportation, handling or incidental charges from the transportation facilities at said mine to the point from which all such charges were assumed and directly paid by the purchasers, including the sale and delivery by truck of approximately 4 net tons of run of mine coal, Size Group No. 3, during the period from February 21, 1941, to March 17, 1941, both dates inclusive, to the Hare School, Jenners Township School District, Somerset County, Pennsylvania, at a delivered price of $2.25 per net ton, whereas the effective minimum f. o. b. mine price of said coal as set forth in said schedule was $2.25 per net ton, to which minimum price there should have been added the transportation, handling and other incidental charges from the transportation facilities at said mine to said point of delivery as required by Price Instruction No. 6, as amended, and contained in Supplement No. 1 to said schedule, resulting in violations of section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code.

Dated: September 29, 1942.

[Vesting Order 112]

PATENTS AND APPLICATIONS OF ENEMY NATIONALS

Under the authority of the Trading with the enemy Act, as amended, and Executive Order No. 9095, as amended,[1] and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

All right, title and interest, including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof, in the patents the numbers of which are listed in Exhibits A, B, C, D, E, F, G, H, I and J attached hereto and made a part hereof, and the titles to which stand of record in the United States Patent Office in the names of the persons appearing (a) in the case of the aforesaid Exhibits A, B, C, D, E, F, G, H and I at the respective tops thereof, and (b) in the case of said Exhibit J, opposite the respective numbers listed therein; and patent applications identified in Exhibit K attached hereto and made a part hereof,

is property in which nationals of a foreign country or countries have interests, and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, o. to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in Section 10 of said Executive Order.

Executed at Washington, D. C., on August 25, 1942.

EXHIBIT A

Patents the titles to which stand of record in the United States Patent Office in the name of Dr. Alexander Wacker Gesellschaft fur Electrochemische Industrie G. m. b. H., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,590,097	6/22/26	L. Hormann and F. Kaufler	Process for manufacturing acetic anhydrids.
1,711,314	4/30/29	W. Gruber	Process for the production of acetyl cellulose soluble in chloroform.
1,723,614	8/ 6/29	W. Gruber	Process for preparing acetone-soluble high viscosity cellulose acetate.
1,771,698	7/29/30	G. Wolff	Apparatus for cleansing and removing grease and the like from solid articles.
1,793,935	2/24/31	F. Kaufler and G. Stangler	Alcoholate and method of making same.
1,798,937	3/31/31	P. Halbig, F. Kaufler and P. Schmitz	Method of producing keto acid esters.
1,805,281	5/12/31	P. Halbig and F. Kaufler	Process for effecting ester condensations.
1,816,843	8/ 4/31	P. Halbig	Method for preparing alkali metal alcoholates.
1,834,040	12/ 1/31	A. Ascherl and W. Gruber	Process for reducing the viscosity characteristics of cellulose ethers.
1,892,923	1/ 3/33	A. Ascherl and W. Gruber	Process of drawing cellulose acetate threads.
1,902,070	3/21/33	P. Halbig and F. Kaufler	Alkoxyaldehyde and production of same.
1,910,331	5/23/33	P. Halbig	Process of preparing alkali metal aliphatic monohydroxy alcoholates.
1,925,829	9/ 5/33	A. Ascherl and W. Gruber	Process for drawing cellulose acetate threads.
1,937,269	11/28/33	P. Ernst	Process for the production of alkyl halides.
1,942,183	1/ 2/34	H. Muller	Diaphragm for electrolytic cells.
1,970,374	8/14/34	P. Halbig, F. Kaufler, and H. Deger	α-methylol=α-ethyl=butyraldehyde and process of preparing same.
1,974,917	9/25/34	P. Halbig and F. Kaufler	Esterification of diethyl-malonic acid.
1,986,548	1/ 1/35	G. Wolff	Apparatus for chemically cleaning fabrics, textiles, garments and the like.
2,001,656	5/14/35	R. Von Gruber-Rehenburg and R. Stobe.	Process and apparatus for reducing solvent losses in fabric cleaning.
2,006,314	6-25-35	P. Halbig and F. Kaufler	Process of preparing substituted malonic acids.
2,026,736	1- 7-36	W. Gruber	Process for the manufacture of woolly threads.
2,036,480	4- 7-36	F. Kaufler and H. Schmitz	Printing ink.
2,040,130	5-12-36	P. Halbig and F. Kaufler	Process of preparing 3-methylal-n-pentane.
2,051,846	8-25-36	P. Halbig and F. Kaufler	Production of barbituric acids.
2,057,177	10-13-36	G. Wolff	Apparatus for cleaning and degreasing metal articles and the like.
2,057,259	10-13-36	G. Wolff	Apparatus for chemically cleaning and drying fabrics, textiles, garments and the like.
2,080,562	5-18-37	W. Eschenbach	Process for the production of ketene.
2,090,191	8/17/37	G. Edhofer	Machine and cleaning and degreasing metal articles.
2,090,192	8/17/37	G. Edhofer and G. Wolff	Means for degreasing and cleaning metal articles.
2,093,666	9/21/37	A. Vogt	Process for treating iron and iron alloys.
2,099,151	11/16/37	A. Vogt	Production of magnesium from magnesium oxides.
2,102,957	12/21/37	F. Kaufler and H. Schmitz	Asphalt solution.
2,104,991	1/11/38	H. Hollerer	Apparatus for cleaning and degreasing articles.
2,104,992	1/11/38	H. Hollerer	Machine for cleaning and degreasing articles.
2,115,630	4/26/38	R. Von Gruver-Rehenburg and R. Stobe.	Process and apparatus for treating lengths of material.
2,137,404	11/22/38	H. Hollerer	Drying process.
2,139,219	12/ 6/38	G. Basel and E. Schaeffer	Process for producing tetrachlorethylene.
2,146,282	2/ 7/39	H. Berg and F. Leiss	Process for producing acrylic acid.
2,158,051	5/16/39	H. Berg, H. Heim, and F. Leiss	Process for producing monovinyl acetylene.
2,158,213	5/16/39	G. Basel and E. Schaeffer	Process of preparing chlorinated ethylenes.
2,158,621	5/16/39	G. Edhofer and G. Wolff	Degreasing machine.
2,163,293	6/20/39	F. Schroll and A. Vogt	Electrothermic production of Boron carbide.
2,165,850	7/11/39	W. Gruber, M. Thoma, and H. Zoebelein.	Cellulose acetate and method of producing same.
2,178,622	11/ 7/39	G. Basel and E. Schaeffer	Process for producing tetrachlorethylene.
2,182,064	12/ 5/39	A. Vogt	Apparatus for treating matters in hot liquid state.
2,207,186	7/ 9/40	G. Wolff	Degreasing process and apparatus.
2,215,180	9/17/40	F. Kaufler	Production of esters of double unsaturated alcohols.
2,215,583	9/24/40	J. Heckmaier and F. Kaufler	Dailkoxy substituted blycols and process for preparing same.
2,219,028	10/22/40	G. Wolff	Degreasing apparatus.
2,222,394	11/19/40	H. Berg, H. Heim and F. Leiss	Process for producing monovinyl acetylene.
2,227,819	1/ 7/41	H. Berg and A. Von Putzer-Reybegg	Process for producing esters of 2-Oxybutadien-1,3.
2,248,662	7/ 8/41	G. Edhofer and G. Wolff	Apparatus for treating solid materials with volatile organic solvents.
2,255,752	9/16/41	G. Basel and E. Schaeffer	Process for producing tetrachlorethylene.
2,272,828	2/10/42	H. Berg	Production of polyvinyl acetals.
2,280,811	4/28/42	G. Edhofer and G. Wolff	Treating articles with volatile solvents.

EXHIBIT B

Patents the titles to which stand of record in the United States Patent Office in the name of Alex. Friedmann and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,555,559	9/29/25	H. Deutsch	Steam admission control for exhaust-steam injectors.
1,574,798	3/ 2/26	H. Deutsch	Steam injector with automatic shifting valve.
1,697,906	1/ 8/29	H. Deutsch	Exhaust steam injector.
1,759,223	5/20/30	H. Deutsch	Exhaust steam injector.
1,858,325	5/17/32	H. Deutsch	Arrangements for starting and stopping exhaust steam injectors.
1,903,696	4/11/33	H. Deutsch	Preheater or economizer for locomotives.
1,903,697	4/11/33	H. Deutsch	Boiler feed apparatus with exhaust steam preheater.
1,963,295	6/19/34	H. Deutsch	Injector for feeding locomotives or other boilers.
2,110,502	3/ 8/38	H. Deutsch	Automatic control device for the overflow valve of injectors.
2,146,335	2/ 7/39	H. Deutsch	Injector.
2,218,036	10/15/40	H. Deutsch	Safety device.

EXHIBIT C

Patents the titles to which stand of record in the United States Patent Office in the name of Chemische Forschungsgesellschaft m. b. H., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,714,783	5/28/29	W. Herrmann and H. Deutsch	Process for the manufacture of acetaldehyde.
1,755,692	4/22/30	W. Herrmann and E. Baum	process for the preparation of condensation products of ethyl alcohol.
1,790,920	2/ 3/31	W. Herrmann, H. Deutsch and E. Baum.	Process for the production of vinyl esters.
1,796,690	3/17/31	W. Herrmann and H. Deutsch	Method for the production of acetals.
1,810,174	6/16/31	W. Herrmann, H. Deutsch and W. Haehnel.	Process for the production of condensation and polymerization products of acetylene.
1,816,326	7/28/31	W. Herrmann and H. Deutsch	Process for the production of acetaldehyde.
1,822,525	9/ 8/31	W. Herrmann, H. Deutsch and E. Baum.	Method for the manufacture of esters of vinyl alcohol.
1,856,251	5/ 3/32	W. Herrmann and H. Deutsch	Process of manufacture of organic acid anhydrides.
1,864,196	6/21/32	W. Herrmann and E. Baum	Process for the preparation of acetylene and ethylene.
1,864,541	6/28/32	W. Herrmann and E. Baum	Process of oxidizing organic substances.
1,898,301	2/21/33	W. Hermann and E. Baum	Process for the preparation of unsaturated hydrocarbons.
1,902,169	3/21/33	W. Herrmann and H. Deutsch	Process for producing unsaturated ethers.
1,916,979	7/ 4/33	W. Herrmann and E. Baum	Process for producing asymmetrical dichloracetone.
1,919,886	7/25/33	W. Herrmann and E. Baum	Process for adding hydrogen halide to acetylene.
1,921,879	8/ 8/33	W. Herrmann and E. Baum	Process for producing dichloroethylene.
1,934,297	11/ 7/33	A. Eibner, W. Herrmann, W. Haehnel, and M. Miller.	Compounds of polymerized vinyl esters and fatty oils.
1,956,551	5/ 1/34	A. Eibner, W. Herrmann, W. Haehnel, and M. Miller.	Compositions of oils and highly polymerized compounds.
1,983,030	12/ 4/34	W. Herrmann	Sound records and process of preparing same.
1,985,993	1/ 1/35	W. Herrmann, H. Deutsch and W. Haehnel.	Synthetic resin compositions and process of making same.
2,033,377	3/10/36	W. Herrmann & E. Baum	Laminated glass.
2,072,302	3/ 2/37	W. Herrmann, E. Baum, and W. Haehnel.	Polymerized vinyl alcohol articles and process of making same.
2,072,303	3/ 2/37	W. Herrmann, F. Hammer, and W. Haehnel.	Artificial threads, bands, tubes and the like for surgical and other purposes.
2,079,068	5/ 4/37	W. Herrmann	Process for the production of vinylformiate.
2,092,512	9/ 7/37	W. Herrmann, F. Hammer, and W. Haehnel.	Reabsorbable threads, bands tubes and the like.
2,109,883	3/ 1/38	W. Herrmann, W. Haehnel, and H. Berg.	Process for the production of polymerized vinyl alchol.
2,135,075	11/ 1/38	W. Herrmann	Laminated glass.
2,143,482	1/10/39	W. Herrmann, and A. Von Putzer-Reybegg.	Nonfogging laminated glass.
2,146,295	2/ 7/39	W. Herrmann, E. Baum, and W. Haehnel.	Polymerized vinyl alcohol articles and process of making same.
2,155,658	4/25/39	W. Herrmann, B. Braun, and W. Haehnel.	Surgical and medical preparations.
2,160,503	5/30/39	W. Herrmann	Blood stancher.
2,194,350	3/19/40	H. Berg	Synthetic product.
2,218,710	10/22/40	W. Herrmann and B. Braun	Manufacture of stiffening bandages and stiffening bandages commercial products.
2,224,663	12/10/40	H. Berg and A. Von Putzer-Reybegg	Mixed Polymers of vinyl acetals.
2,227,997	1/ 7/41	H. Berg	Preparation of polymerized vinyl alcohol.
2,249,514	7/15/41	H. Berg and B. Von Zychlinski	Friction element for power transmission.
2,265,283	12/ 9/41	W. Herrmann, E. Baum, and W. Haehnel.	Process of making polymerized vinyl alcohol articles.
2,279,436	4/14/42	H. Berg	Process for polymerizing vinyl compounds.

EXHIBIT D

Patent No.	Patent date	Inventor	Title
1,586,803	6/ 1/26	W. Herrmann and E. Baum	Process of polymerizing vinyl esters.
1,596,971	8/24/26	W. Herrmann and H. Deutsch	Refining aldehyde resins.
1,600,113	9/14/26	W. Herrmann and H. Deutsch	Process of resinifying aliphatic aldehydes.
1,625,852	4/26/27	W. Herrmann and H. Deutsch	Process for the manufacture of linoxin like substances.
1,643,496	9/27/27	W. Herrmann, H. Deutsch, and W. Haehnel.	Method of improving aldehyde resins.
1,666,482	4/17/28	E. Baum, H. Deutsch, W. Herrmann, and M. Mugdan.	Production of vinylacetate.
1,767,759	6/24/30	W. Herrmann and H. Deutsch	Solid resinous condensation product.
1,792,113	2/10/31	M. Mugdan and J. Wimmer	Process for obtaining concentrated acetic acid.
1,976,265	10/ 9/34	M. Mugdan and J. Wimmer	Manufacture of oxidation products of trichlorethylene.
2,068,772	1/26/37	J. Sixt	Process for the preparation of chlorine substituted butanes.
2,161,078	6/ 6/39	M. Mugdan and J. Wimmer	Process for the polymerization of trichlorethylene.
2,183,154	12/12/39	J. Sixt	Process for producing polymerization products of ethylene.
2,216,437	10/ 1/40	P. Halbig, E. Reiter, and F. Stadler	Process for converting acetylene into higher molecular products.
2,216,450	10/ 1/40	M. Mugdan and J. Sixt	Process for producing diketen.
2,217,167	10/ 8/40	P. Halbig and A. Treibs	Process for the production of ethers of butanol—1—one—3.
2,243,701	5/27/41	P. Halbig and A. Treibs	Process for producing butanol—(1)—one—(3).
2,269,600	1/13/42	M. Mugdan and J. Wimmer	Production of carbon-chloride compounds of the formula C_4Cl_6.

EXHIBIT E

Patents the titles to which stand of record in the United States Patent Office in the name of Seitzwerk G. m. b. H., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
Reissue 21,107	5/30/39	G. Seitz	Sheet filter.
1,650,543	11/22/27	T. Seitz et al	Filter.
1,695,212	12/11/28	T. Seitz	Bottle sterilizing and cleansing apparatus.
1,798,172	3/31/31	P. Seitz	Coin freed vending machine.
1,889,629	11/29/32	A. Bohmer et al	Method of filling and sealing bottles, vessels and the like.
1,950,373	3/ 6/34	W. Depenbrock	Printing machine.
1,971,878	8/28/34	P. Seitz et al	Automatic weight recording devices.
1,988,072	1/15/35	W. Depenbrock	Pendulum weighing machine.
2,003,869	6/ 4/35	F. Stegemann	Apparatus for the sterilization and sterile filling of vessels and the like in one continuous working process.
2,013,604	9/ 3/35	W. Depenbrock	Printing machine.
2,014,750	9/17/35	F. Stegemann	Apparatus for sterilizing containers.
2,018,992	10/29/35	A. Bohmer	Sealing of vessels.
2,050,634	8/11/36	F. Stegemann	Method of cleaning bottles.
2,061,340	11/17/36	R. Adams	Sifting, straining or filtering apparatus.
2,098,526	11/ 9/37	F. Stegemann	Machine for cleaning vessels, particularly bottles.

EXHIBIT F

Patents the titles to which stand of record in the United States Patent Office in the name of Heraeus Vacuum Schmelze G. m. b. H., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,704,902	3/12/29	W. Rohn	Furnace construction.
1,906,184	4/25/33	W. Rohn	Method of reducing metal oxides.
1,915,243	6/20/33	W. Rohn	Method of producing chromium.
2,012,777	8/27/35	W. Rohn	Method of manufacturing alloys.
2,025,614	12/24/35	W. Rohn	Process for producing beryllium alloys.
2,025,615	12/24/35	W. Rohn	Process for producing beryllium alloys.
2,040,566	5/12/36	W. Rohn	Vacuum method of manufacturing steel.
2,071,942	2/23/37	W. Rohn	Method of manufacturing iron alloys.
2,097,344	10/26/37	W. Rohn	Metallurgical slag reaction.
2,104,886	1/11/38	W. Rohn	Electrically heated annealing furnace.
2,139,853	12/13/38	W. Rohn	Method of making steel.

EXHIBIT G

Patents the titles to which stand of record in the United States Patent Office in the name of Siemens & Halske A. G., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,832,290	11/17/31	E. Fischer	Magnetic structure.
1,876,916	9/13/32	F. Gosslau	Fuel pump.
1,876,917	9/13/32	F. Gosslau	Piston for internal combustion engines.
1,883,781	10/18/32	F. Gosslau	Multicylinder two-stroke internal combustion engine.
1,894,946	1/24/33	W. Espe	Method for activating glowing cathodes or the like.
1,894,947	1/24/33	W. Espe	Manufacture of vacuum tubes.
1,894,948	1/24/33	W. Espe et al	Manufacture of electron discharge devices.
1,894,949	6/24/33	W. Espe	Method and means for activating cathodes.
1,913,199	6/ 6/33	F. Gosslau	Internal combustion engine.
1,929,885	10/10/33	F. Gosslau	Internal combustion engine.
1,929,886	10/10/33	F. Gosslau	Internal combustion engine of the radial type.
1,932,635	10/31/35	H. Muller	Electrode connection for discharge tubes.
1,972,441	9/ 4/34	F. Gosslau	Internal combustion engine.
			Electric generating set.
1,975,600	10/ 2/34	F. Gosslau	Internal combustion engine.
1,984,841	12/18/34	R. Reichmann	Agent for polishing sharpening and grinding articles of great hardness.
2,002,316	5/21/35	F. Gosslau	Machine set composed of two engines and a driven machine.
2,013,983	9/10/35	F. Gosslau	Two-cycle internal combustion engine.
2,025,506	12/24/35	F. Gosslau	Cylinder head for internal combustion engines.
2,041,292	5/19/36	H. Kniepkamp	Electron discharge device.
2,047,026	7/ 7/36	F. Gosslau	Air-cooled engine.
2,054,010	9/ 8/36	E. Fischer	Communication cable.
2,072,712	3/ 2/37	E. Fischer	Communication cable.
2,073,483	3/ 9/37	H. Kniepkamp	Electron discharge device.
2,091,107	8/24/37	R. Reichmann	Electric heating element and method of making the same.
2,112,082	3/22/38	W. Espe	Method for improving the vacuum of discharge apparatus.
2,114,339	4/19/38	W. Espe	Magnetron.
2,150,379	3/14/39	H. Kerschbaum	Mercury switch.
2,164,507	7/ 4/39	W. Espe	Discharge tube.
2,192,162	2/27/40	H. Kniepkamp	Gas discharge tube.
2,202,588	5/28/40	H. Kniepkamp	Electrode system for cathode ray tubes
2,215,587	9/24/40	H. Kerschbaum	Rodlike heating element.

EXHIBIT H

Patents the titles to which stand of record in the United States Patent Office in in the name of Siemens-Schuckertwerke A. G. and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,551,427	8/25/25	G. Pfister	Utilization of green fodder.
1,553,777	9/15/25	H. Holldack	Cultivator.
1,629,081	5/17/27	F. Laszlo	Rotor for dynamo electric machines.
1,697,210	1/ 1/29	L. Szilard	Discharge tube.
1,705,975	3/19/29	G. Holthaus	Heat accumulator.
1,707,324	4/ 2/29	K. Schlecker	Method of producing joints in oil-filled cables with hollow conductors.
1,711,979	5/ 7/29	H. Weinert	Electric machine with variable pole numbers.
1,715,874	6/ 4/29	L. Szilard	Discharge tube.
1,721,280	7/16/29	W. Peinecke	Electric individual drive for spindles.
1,752,649	4/ 1/30	J. Ossanna et al	System of connections for compensating.
1,764,437	6/17/30	R. Elsasser	Atomizer for liquids.
1,764,890	6/17/30	W. Reichel	Means for attaching laminated sheet metal rings.
1,770,617	7/15/30	C. Kuhnel	Brush for the supply of electric current.
1,770,625	7/15/30	J. Ossanna et al	Cascade regulating set for asynchronous machines.
1,771,497	7/29/30	K. Mayr	Pulverized fuel feeding and measuring device.
1,774,750	9/ 2/30	F. Kalkner	Searchlight.
1,777,211	9/30/30	J. Ossanna et al	Arrangement and method for regulating asynchronous machines.
1,779,950	10/28/30	W. Reichel	Body constructed of sheet iron sections.
1,783,000	11/25/30	P. Paschen et al	Apparatus for indicating speed variations.
1,783,153	11/25/30	G. Peneff	Tiller.
1,784,682	12/ 9/30	R. Schimpf	Arc ground suppressors.
1,786,920	12/30/30	R. Rudenberg et al	Process for producing thin insulating layers upon wires.
1,791,043	2/ 3/31	F. Schrottke	Lead covered power current cable.
1,791,923	2/10/31	M. Eule	Multiway sludge valve.
1,799,757	4/ 7/31	K. Mayr	Fuel burning system.
1,799,758	4/ 7/31	K. Mayr	Fuel burning system.
1,808,558	6/ 2/31	O. Krell et al	Electric arc lamp.
1,812,472	6/30/31	M. Eule	Particular construction of tubular boilers.
1,812,489	6/30/31	A. Kruger	Electron tube.
1,814,384	7/14/31	F. Hanff	Lead covered submarine cable.
1,816,520	7/28/31	M. Eule	High pressure tubular boiler.
1,817,328	8/ 4/31	W. Weimers	Centrifugal liquid sprayers.
1,819,186	8/18/31	K. Mayr	Steam generating system.
1,822,369	9/ 8/31	J. Ossanna et al	Cascade connection for commutator machines.
1,824,903	9/29/31	A. Kuhns et al	Switching equipment controlling high-voltage distributing lines.
1,834,124	12/ 1/31	E. Fischer	Submarine cable.
1,839,091	12/29/31	M. Eule	Mechanical relay for transmitting adjusting impulses.
1,846,636	2/23/32	E. Fischer	Telephone cable.
1,852,859	4/ 5/32	A. Schmidt et al	Rotary tiller.
1,853,676	4/12/32	E. Fischer	Submarine cable.
1,853,677	4/12/32	E. Fischer	Telephone cable.
1,855,004	4/19/32	L. Von Tothfalussy et al.	Method of starting the spinning in box spinning machines.
1,856,172	5/ 3/32	R. Schimpf	Ground detector.
1,863,065	6/14/32	J. Ossanna et al	Means for compensating the reactance of inductive windings.
1,863,583	6/21/32	R. Schimpf	Ground detector.
1,865,731	7/ 5/32	J. Stockert	Coffee mill with electric driving device.
1,870,293	8/ 9/32	H. Miller	Steam valve.
1,874,481	8/30/32	E. Fischer	Telephone cable.
1,886,264	11/ 1/32	K. Pohlhausen	Electron tube.
1,887,843	11/15/32	F. Ludwig	Machine for sharpening pencils.
1,889,940	12/ 6/32	G. Ziegler	Winding for electrical machines.
1,892,997	1/ 3/33	A. Oldenburg	Electric tool with an electric motor mounted in the handle.
1,895,790	1/31/33	M. Eule	Tubular steam boiler.
1,897,818	2/14/33	P. Paschen et al	Insulating body.
1,898,489	2/21/33	E. Kieffer	Electrical apparatus.
1,899,216	2/28/33	R. Strigel	Electric circuit working with high voltage.
1,900,642	3/ 7/33	F. Gerlach	Ventilating device for subterranean spaces.
1,901,090	3/14/33	M. Eule et al	Multiple heat exchange coil.
1,902,561	3/21/33	C. Kuhnel et al	Vacuum cleaner.
1,904,443	4/18/33	H. Gleichmann	Steam plant.
1,904,514	4/18/33	A. Oldenburg	Protection for armature windings.
1,904,547	4/18/33	K. Schumann	Cores for cables for communication circuits.
1,906,089	4/25/33	P. Paschen et al	Measuring instrument.
1,906,600	5/ 2/33	K. Hofner	Method of jointing oil filled cables with hollow conductors.
1,906,636	5/ 2/33	K. Schlecker	Process of locating leaks.
1,907,561	5/ 9/33	A. Oldenburg	Commutator.
1,909,065	5/16/33	C. Meyer	Protective arrangement for electric installation.
1,911,976	5/30/33	R. Strigel	Electron tube.
1,912,866	6/ 6/33	R. Strigel et al	Electric tube for high operating voltages.
1,916,738	7/ 4/33	H. Miller et al	Valve.
1,918,424	7/18/33	W. Pontow et al	Fluid operated control device.
1,918,859	7/18/33	A. Meyer	Eddy current track braking apparatus.
1,920,760	8/ 1/33	A. Meyer	Eddy current car retarder.
1,921,085	8/ 8/33	K. Korittke	Electrical vacuum cleaner.
1,922,711	8/15/33	O. Ortner et al	Remote controlling plant.
1,929,367	10/ 3/33	P. Paschen et al	Recording measuring instruments.
1,930,829	10/17/33	M. Steenbeck	Circuit arrangement for an ion relay and a mechanical relay.
1,933,112	10/31/33	C. Held	Multicore high tension electric cables.
1,934,821	11/14/33	R. Rudenberg	Device for producing colored pictures.
1,940,085	12/19/33	F. Hanff	Device for filling the receiver of pipe presses, particularly of lead cable presses.
1,948,616	2/24/34	E. Fischer	Cable for communication circuits.
1,954,474	4/10/34	W. Espe et al	Glow cathode.
1,956,402	4/24/34	P. Scholl et al	Absorption refrigerating apparatus.
1,956,723	5/ 1/34	L. Kunst	Joint for oil filled cables.
1,960,005	5/22/34	H. Gleichmann	Arrangement of heating surface of the tubular type adapted for use in a steam generator.
1,961,233	6/ 5/34	K. Mayr	Steam generating apparatus.
1,972,426	9/ 4/34	E. Noebel	Method of filling an absorber generator.
1,972,420	9/ 4/34	K. Hahnel	Control device for a heat transfer system
1,973,068	9/11/34	C. Held	Oil filled cable.
1,973,111	9/11/34	K. Schlecker	High tension electric cable.
1,975,455	10/ 2/34	F. Hanff	Metallic tube.
1,976,800	10/16/34	K. Nesselmann	Absorption refrigerating system.
1,980,651	11/13/34	W. Weimers	Electric drive for domestic utility devices.
1,984,191	12/11/34	C. Kuhnel	Vacuum cleaning device.
1,988,951	1/22/35	K. Korittke	Vacuum cleaner.
1,993,998	3/12/35	C. Kuhnel et al	Refrigerating receptacle.
1,999,701	4/30/35	L. Kunst	Oil filled electric cable.
2,006,403	7/ 2/35	K. Mayr	Steam generator.
2,006,839	7/ 2/35	E. Moller	Headlight for vehicles.
2,008,109	7/16/35	C. Reher	Heavy current conductor system, more particularly for rushes of heavy currents.
2,008,333	7/16/35	K. Nesselmann	Device for cooling a heat generator by means of a circulating auxiliary liquid.
2,014,584	9/17/35	W. Peneke et al	Plain bearing.
2,014,585	9/17/35	W. Peneke et al	Plain bearing.
2,019,409	10/29/35	K. Hahnel	Absorption refrigerating apparatus.
2,025,666	12/24/35	F. Hanff	Extrusion device.
2,030,943	2/18/36	F. Schrottke	Pressure compensator for oil or compound-filled cables.

Patent No.	Patent date	Inventor	Title
2,032,924	3/ 3/36	M. Eule	Arrangement for removing the deposit from the tubular systems of steam generators with forced passage of the operating medium.
2,035,879	3/31/36	H. Gleichmann	Method of generating vapor.
2,035,908	3/31/36	F. Michel	Steam generator.
2,040,653	5/12/36	F. Hanff	Upright extruding press.
2,046,496	7/ 7/36	W. Wiskott et al	Arrangement for maintaining constant line power transmission.
2,046,737	7/ 7/36	F. Gosslau	Multiple stage blower.
2,047,554	7/14/36	E. Fischer	Manufacture of tubes from polystyrene and the like substances.
2,063,253	12/ 8/36	C. Kuhnel	Vacuum cleaning device.
2,067,678	1/12/37	K. Nesselmann	Refrigeration.
2,068,891	1/26/37	P. Scholl	Air-cooled reabsorption refrigerating apparatus of the intermittent type.
2,070,319	2/ 9/37	R. Rudenberg	Apparatus for influencing the character of electron rays.
2,071,654	2/23/37	P. Paschen et al	Odometer for railway vehicles.
2,074,235	3/16/37	C. Muller	Tubular continuous flow steam generator.
2,081,948	6/ 1/37	F. Michel et al	Steam generator.
2,082,649	6/ 1/37	K. Nageli	Method of and means for exerting an artificial pressure on the insulation of electric cables.
2,083,701	6/15/37	W. Fouquet	Protective system for rectifiers.
2,086,990	7/13/37	M. Schleicher et al	Apparatus for supervising a plurality of movable members.
2,089,678	8/10/37	W. Weimers	Positive indicator for carbon brushes.
2,094,542	9/28/37	C. Kuhnel	Domestic refrigerator.
2,103,303	12/28/37	M. Steenbeck	Device for producing electron rays of high energy.
2,106,346	1/25/38	H. Gleichmann	Power plant.
2,106,847	2/ 1/38	H. Kniepkamp	Electric discharge apparatus.
2,113,833	4/12/38	M. Eule	Steam generator with forced passage of the operating medium.
2,115,574	4/26/38	O. Gasser	Method of eliminating gas pockets in liquid filled cables.
2,121,590	6/21/38	W. Espe	Vacuum- and gas-tight vessel for electric apparatus.
2,122,776	7/ 5/38	K. Matthies	Electron discharge tube.
2,125,105	7/26/38	W. Espe	Glow cathode.
2,125,131	7/26/38	A. Siemens	Metallic vapor discharge apparatus for high voltages.
2,126,248	8/ 9/38	M. Eule	Steam generator with forced passage of the operating medium.
2,128,090	8/23/38	R. Hintze	Refrigerating apparatus of the compression type.
2,130,845	9/20/38	J. Von Issendorff	Electrode arrangement.
2,134,527	10/25/38	G. Mierdel	Method of igniting gas or vapor discharge spaces.
2,141,921	12/27/38	W. Leukert	Rectifier.
2,147,447	2/14/39	H. Kolligs	Glow cathode.
2,154,275	4/11/39	A. Linn	Electrode supporting structure.
2,156,628	5/ 2/39	R. Hintze	Compression refrigerating apparatus.
2,157,913	5/ 9/39	W. Neh's	Metallic vapor discharge device.
2,161,960	6/13/39	R. Hintze	Refrigerating apparatus of the compression type.
2,164,405	7/ 4/39	R. Hintze	Device for facilitating the starting of refrigerating apparatus of the compressor type.
2,169,560	8/15/39	E. Janetschke	Device for the conversion of electric currents or potentials by means of periodically actuated switching contracts.
2,175,389	10/10/39	F. Hanff	Electrically conducting whale line.
2,181,152	11/28/39	E. Rolf	Multiphase current converting system.
2,184,309	12/26/30	W. Leukert	Arrangement for controlling rectifiers.
2,188,361	1/30/40	F. Koppelmann	Apparatus for converting currents.
2,191,659	2/27/40	R. Hintze	Cold producing plant.
2,193,421	3/12/40	E. Janetschke	Conversion of currents of voltages with the aid of periodically actuated break contacts.
2,198,970	4/30/40	H. Muller	Manufacturing artificial material from polyvinyl compounds.
2,206,734	7/ 2/40	T. Stassinet	Continuous heat treating furnace of the vertical type.
2,210,689	8/ 6/40	A. Siemens	Metal vapor or noble gas rectifiers.
2,215,471	9/24/40	F. Kesselring	Apparatus for rectifying or for converting alternating or direct current.
2,227,937	1/ 7/41	F. Koppelmann	Alternating current converter.
2,254,424	9/ 2/41	H. Gleichmann	Steam power plant.
2,256,201	9/16/41	R. Hintze	Refrigerating apparatus of the compression type.
2,258,146	10/ 7/41	W. Pontow	Apparatus for controlling the temperature of exotherinic catalytic reactions
2,261,265	11/ 4/41	H. Maass	Flexible container.
2,276,784	3/17/42	F. Koppelmann	Converter and rectifier.

EXHIBIT I

Patents the titles to which stand of record in the United States Patent Office in the name of Siemens-Schuckertwerke G. m. b. H., and which are identified respectively as follows:

Patent No.	Patent date	Inventor	Title
1,557,367	10/13/25	H. Kandler	Process for increasing the strength of metallic bodies.
1,569,919	1/19/26	H. Gleichmann et al	Method of feeding steam boilers from an unheated tank.
1,599,065	9/ 7/26	R. Rudenberg	Cooling of electric machines.
1,600,583	9/21/26	H. Gleichmann	Steam generating plant.
1,619,671	3/ 1/27	W. Hojer	Steam generator for portable plants.

NEW YORK AND GREENWOOD LAKE RAILWAY CO.

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

In the matter of The New York and Greenwood Lake Railway Company, 5% Prior Lien Gold Bonds, due 1946.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of September, A. D. 1942.

The New York Stock Exchange pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the 5% Prior Lien Gold Bonds, due 1946 of The New York and Greenwood Lake Railway Company; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 a. m. on Monday, October 26, 1942, at the office of Securities and Exchange Commission, 120 Broadway, New York, New York, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That Adrian C. Humphreys, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

TRI-CITY UTILITIES CO. AND ASSOCIATED ELECTRIC CO.

ORDER POSTPONING HEARING

In the matter of Tri-City Utilities Company and Associated Electric Company.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 26th day of September 1942.

Associated Electric Company, a registered holding company, and Tri-City Utilities Company, a wholly-owned subsidiary thereof, having filed a declaration and application pursuant to the Public Utility Holding Company Act of 1935 with respect to the reduction by Tri-City Utilities Company of its capital stock from time to time through the purchase and retirement of its common stock at its par value, to the extent of funds which become available to Tri-City Utilities Company from the sale of properties or other assets; and

The Commission having ordered that a hearing on such matter be held on September 1, 1942, at 10 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania; and the Commission having postponed said hearing to October 1, 1942, at the request of the Tennessee Railroad and Public Utilities Commission and certain other interested parties; and

The Tennessee Railroad and Public Utilities Commission having requested that the hearing in this matter be further postponed; and it appearing appropriate to the Commission that the request be granted;

It is ordered, That the hearing in this matter, previously scheduled for October 1, 1942 be and hereby is postponed to October 20, 1942, at the same time and place, and before the same trial examiner as heretofore designated.

By the Commission.

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

[Amendment 1 to SAR 99]

GRADES OF CARCASS BEEF

OFFICIAL UNITED STATES STANDARDS

Whereas, the Office of Price Administration, by Amendment No. 5 to Maximum Price Regulation No. 169,[1] has eliminated "Prime" from the grades of beef and veal carcasses and wholesale cuts established in said regulation, now, therefore, pursuant to authority vested in the Secretary of Agriculture by the act of Congress entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1943, and for other purposes", approved July 22, 1942 (Public No. 674—77th Congress), I, Claude R. Wickard, Secretary of Agriculture, do make, prescribe, and give public notice of, the following amendment to the official standards of the United States for grades of carcass beef, covered by the order of the Secretary of Agriculture, of June 3, 1926, Service and Regulatory Announcements No. 99, to be in force and effect on and after September 18, 1942;

The grade specified as "Prime" for beef carcasses and wholesale cuts is hereby suspended for the period during which said maximum price regulation is effective, and all carcass beef and wholesale cuts meeting the specifications of "Prime" grade shall, during such period, be graded as "Choice."

Done at Washington, D. C., this 1st day of October 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

[B. E. P. Q. 493, Second Revision]

PART 301—DOMESTIC QUARANTINE NOTICES

PINK BOLLWORM QUARANTINE REGULATIONS MODIFIED

Introductory Note: The administrative instructions issued May 1, 1940 (Circular B. E. P. Q. 493, revised) modified the treatment requirements for the pink bollworm as to baled lint and linters and products thereof and restored certain requirements for handling cottonseed in certain counties in northwestern Texas and Lea and Roosevelt Counties, N. Mex. The present revision does not change the requirements for those counties.

Continued improvement in seed sterilization and in sanitary measures in force at gins in the heavily infested area and at oil mills receiving and processing cottonseed produced in that area, makes it safe to allow linters produced from sterilized seed in such area to be moved interstate without additional treatment. The present revision of the administrative instructions therefore removes the requirement as to fumigation or roller treatment of linters produced from sterilized seed originating in the heavily infested area. This modification of the quarantine regulation does not affect the procedure as to handling cottonseed originating in the heavily infested area as provided in paragraph (b) of regulation 4 (§ 301.52-4).

§ 301.54-4b *Administrative instructions: removing the treatment requirements as to cotton linters produced from sterilized cottonseed in the heavily infested areas, and extending the area in which baled cotton lint may be moved from certain lightly infested areas in New Mexico and Texas without treatment.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the second proviso of § 301.52, Chapter III, Title 7, Code of Federal Regulations [Notice of Quarantine No. 52, on account of the pink bollworm], and having determined that facts exist as to the pest risk involved which make it safe to modify, by making less stringent, the restrictions contained in paragraph (a) of § 301.52-4, notice is hereby given that, effective October 1, 1942, (a) all restrictions and certification requirements are hereby waived on the interstate movement from any regulated area of cotton linters produced from sterilized seed; and (b) all restrictions are hereby waived on the interstate movement of baled cotton lint and products thereof from the following area:

New Mexico: Lea and Roosevelt Counties.

Texas: Counties of Andrews, Cochran, Concho, Dawson, Ector, Gaines, Glasscock, Hockley, Howard, Irion, Martin, Midland, Mitchell, Sterling, Terry, Tom Green, Yoakum, and the regulated parts of Bailey, Coke, and Lamb Counties:

Provided, (1) That the products have been produced in an authorized oil mill or gin and subsequently protected from contamination, and (2) that a certificate of the United States Department of Agriculture has been obtained and attached to the containers or shipping papers in accordance with the requirements prescribed in § 301.52-11.

These instructions supersede those in circular B.E.P.Q. 493, dated May 1, 1940.

(7 CFR § 301.52; sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161.)

Done at Washington this 28th day of September 1942.

Chapter IX—Agricultural Marketing Administration

PART 903—MILK IN THE ST. LOUIS, MISSOURI, MARKETING AREA

AMENDMENTS

It is provided in Public Act No. 10, 73d Congress (May 12 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

§ 903.0 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.1-900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended; and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The aforesaid order, as amended and as hereby amended, and all of the terms and conditions of said order, as amended and as hereby amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the St. Louis, Missouri, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the aforesaid order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The aforesaid order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the aforesaid tentatively approved marketing agreement, as amended, upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and proclaimed that, in connection with the execution of a marketing agreement, as amended, and the issuance of this order amending the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, the purchasing power of such milk during the pre-war period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk can be satisfactorily determined from available statistics of the Department of Agriculture for the post-war period August 1919–July 1929; and that the post-war period August 1919–July 1929 is the base period to be used in connection with any marketing agreement, as amended, and with this order in determining the purchasing power of milk.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order, and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by the aforesaid order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the St. Louis, Missouri, marketing area, refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the St. Louis, Missouri, marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said St. Louis, Missouri, marketing area.

Order relative to handling. It is, therefore, ordered that, from and after the effective date hereof, the handling of milk in the St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respects:

1. Delete from § 903.1 (a) (9) the colon and the proviso which reads, "*Provided,* That a handler operating a plant or plants from which no milk is disposed of for fluid consumption in the marketing area shall be a nonhandler with respect to such plant or plants." Insert a period at the end of § 903.1 (a) (9).

2. Delete § 903.3 (b) and substitute therefor the following:

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk the utilization of which is not established as Class II milk.

(2) Class II milk shall be all milk, the skim milk and butterfat of which is established (i) by use or disposition as other than milk, flavored milk and milk drinks (of any butterfat test), and buttermilk, and (ii) as actual plant shrinkage, but not to exceed 3 percent of the total receipts of milk from producers.

3. Delete § 903.3 (c) and substitute therefor the following:

(c) *Interhandler and nonhandler transfers of milk.* (1) Milk received by a handler from another handler shall be Class I milk, and cream so received shall be Class II milk: *Provided,* That if a different classification is agreed upon in writing between the receiving handler and the selling handler and is submitted to the market administrator on or before the 5th day after the end of the delivery period, then the milk or cream shall be classified according to such written agreement: *Provided further,* That the amount so reported in any class shall not be greater than the amount used in that class by the receiving handler.

(2) Milk moved in fluid form from a handler's fluid milk plant to a plant from which no milk is disposed of for fluid consumption (regardless of whether the latter plant is operated by such handler or by a nonhandler) shall be Class II milk. Milk moved in fluid form from a handler's fluid milk plant to a nonhandler's plant from which fluid milk is distributed shall be Class I milk, except that any of this milk in excess of the amount of milk, proved to the satisfaction of the market administrator to have been distributed in fluid form by the nonhandler during the delivery period, shall be Class II milk: *Provided,* That all milk moved in fluid form to plants more than 110 air-line miles from the City Hall in St. Louis shall be Class I milk. Milk disposed of in fluid form from a handler's plant to retail establishments which disposed of milk for both fluid and other uses shall be Class I milk.

4. Delete § 903.3 (d) and substitute therefor the following:

(d) *Purchases of milk from persons who are handlers under other Federal milk agreements or orders.* Milk approved by the proper health authorities for consumption in fluid form in the marketing area which has been received from a person who is a handler, as defined under another Federal marketing agreement or order, shall be deducted from each class in the proportion that the quantity used in each class by the receiving handler bears to the total quantity of milk received by him, after excluding such handler's receipts of milk from other handlers.

5. Delete § 903.3 (e) (2) and substitute therefor the following:

(2) To determine the hundredweight of Class I milk: convert to gallons the quantity of milk disposed of in the form of milk, flavored milk and milk drinks (of any butterfat test), and buttermilk, and multiply the total by 0.086: *Provided,* That there shall be added any difference of milk computed under subparagraph (1) of this paragraph over the Class I milk thus far determined plus the hundredweight of Class II milk computed pursuant to subparagraph (3) of this paragraph.

6. Delete from § 903.4 (a) (1) the figure "1.00" and substitute therefor the figure "1.10."

7. Delete from § 903.4 (a) (2) the figure "0.30" and substitute therefor the figure "0.40."

8. Delete the proviso of § 903.4 (a) (3) and substitute therefor the following:

Provided, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be used: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 20 percent thereof: *Provided,* That such price shall be subject to the following adjustments: (i) add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound or (ii) subtract 3½ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below 5½ cents per pound. For purposes of determining these adjustments the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, as published by the United States Department of Agriculture, shall be used, and the following adjustments shall be made in lieu of the adjustments provided for under (i) and (ii) immediately above: add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption delivered at Chicago is above 7½ cents per pound, or subtract 3½ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 601 et seq.)

Issued at Washington, D. C., this 24th day of September 1942, to be effective on and after the 4th day of October 1942.

Witness my hand and the official seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary of Agriculture.

Approved: September 29, 1942.

AUTHORITY: 964.1 to 964.14, inclusive, issued under 48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C., 601 *et seq.*

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

§ 964.1 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900 1–900.17; 6 F.R. 6570, 7 F.R. 3350), a public hearing was held upon a proposed marketing agreement and order regulating the handling of milk in the Memphis, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The issuance of this order and all of the terms and conditions hereof will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Memphis, Tennessee, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to §§ 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) All milk sold or disposed of by handlers under this order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products; and

(4) This order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* (1) It is hereby found and proclaimed that, in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the Memphis, Tennessee, marketing area, the purchasing power of such milk during the pre-war period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk can be satisfactorily determined from available statistics of the Department of Agriculture for the post-war period August 1919–July 1929; and the post-war period August 1919–July 1929 is the base period to be used in connection with any such marketing agreement and this order in determining the purchasing power of such milk.

(2) It is hereby found that the necessary expenses of the market administrator, during any 12-month period of time, for the maintenance and functioning of such agency, will amount to approximately $32,000; and the prorata share of such expenses to be paid by each handler is hereby approved in the maximum amount of 4 cents per hundredweight on all milk received from producers, or an association of producers, or produced by them during each delivery period.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order) of at least 50 percent of the volume of milk covered by this order, which is marketed within the Memphis, Tennessee, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Memphis, Tennessee, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is

produced for sale in the Memphis, Tennessee, marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of the order and who, during the determined representative period, were engaged in the production of milk for sale in the said marketing area.

§ 964.2 *Order relative to handling—It is, therefore, ordered* That, from and after the effective date hereof, the handling of milk in the Memphis, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of this order.

§ 964.3 *Definitions*—(a) *Terms.* As used herein the following terms shall have the following meanings:

(1) "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937), 7 U. S. C. 1940 ed. 601 *et seq.*), as amended.

(2) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

(3) "Memphis, Tennessee, marketing area" (hereinafter called the "marketing area") means the territory within the corporate limits of the city of Memphis in the State of Tennessee.

(4) "Person" means any individual, partnership, corporation, association, or any other business unit.

(5) "Producer" means any person, irrespective of whether any such person is also a handler, who produces, under a dairy farm inspection report issued by the proper health authorities, milk which is received at a plant from which milk is disposed of in the marketing area and any person reported by a handler pursuant to § 964.7 (a) (1) (viii). "Producer" shall also include any person who produces, under a dairy farm inspection report issued by the proper health authorities, milk caused to be delivered by a cooperative association which is a handler to a plant from which no milk disposed of in the marketing area.

(6) "Handler" means any person, irrespective of whether such person is a producer, wherever located or operating, who engages in such handling of milk, all or a portion of which is disposed of in fluid form as milk, skim milk, or cream in the marketing area, as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products. "Handler" shall also include any cooperative association with respect to the milk of any producer which it causes to be delivered to a plant from which no milk is disposed of in the marketing area, for the account of such cooperative assocation and for which such cooperative association collects payment; but shall not include any person from whom emergency milk is received.

(7) "Fluid milk plant" means any milk plant currently used for any or all of the handling functions of receiving, weighing (or measuring), sampling, cooling, pasteurizing, bottling, or other preparation of milk of producers for final sale or disposition in fluid form in the marketing area.

(8) "Market administrator" means the person designated pursuant to § 964.4 as the agency for the administration hereof.

(9) "Delivery period" means the current marketing period from the effective date hereof to and including the last day of the calendar month in which such effective date occurs. Subsequent to such month, "delivery period" shall mean the current marketing period from the first to the last day of each calendar month, both inclusive.

(10) "Emergency milk" means milk, skim milk, or cream received by a handler from sources other than producers under a special permit issued to him by the proper health authorities, which permit states that such handler may receive such milk in his plant and may utilize such milk for fluid uses.

(11) "Base" means the quantity of milk calculated for each producer pursuant to § 964.10 (i).

(12) "Excess" means the quantity of milk remaining after base deliveries of a producer have been subtracted from his total deliveries of milk during the delivery period.

§ 964.4 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof; and

(2) To receive, investigate, and report to the Secretary complaints of violation of the terms and provisions hereof.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other person as the Secretary may designate;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to § 964.7 or (ii) made payments pursuant to § 964.10;

(6) Publicly disclose to handlers and producers the name of any producer for whom a daily base has been calculated, and the quantity of daily base established for such producer;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay, out of the funds provided by § 964.12 (i) the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, (ii) his own compensation, and (iii) all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and in the performance of his duties; and

(9) Promptly verify the information contained in the reports submitted by handlers.

§ 964.5 *Classification of milk*—(a) *Milk to be classified.* Milk handled by a cooperative association under the conditions set forth in § 964.3 (a) (6), and all milk, skim milk, and cream handled by each handler in his fluid milk plant or reported by him pursuant to § 964.7 (a) (1) (viii) shall be classified by the market administrator in the classes set forth in (b) of this section, subject to the provisions of (c) and (d) of this section.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk, skim milk, and cream disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, and cream (for consumption as cream), including any cream product disposed of in fluid form which contains a butterfat content of less than 18 percent and all milk not specifically accounted for as Class II milk.

(2) Class II milk shall be all milk specifically accounted for (i) as used to produce a milk product other than those specified in Class I milk and (ii) as actual plant shrinkage, which plant shrinkage shall not exceed 2 percent of the total quantity of milk of producers including the handler's own production.

(c) *Transfers of milk and cream.* (1) Milk, skim milk, or cream shall be Class I milk when (i) moved from a handler's fluid milk plant to the fluid milk plant of another handler: *Provided,* That such milk shall be classified as Class I milk only to the extent of the total Class I milk of the second handler; (ii) moved from a handler's fluid milk plant to a handler who receives no milk from producers other than milk of his own production; (iii) without being first received in the handler's fluid milk plant for the primary processing steps of weighing (or measuring) and testing, is caused to be delivered by a handler to a person who is not subject to the provisions hereof but who is engaged in the business of distributing milk, skim milk, or cream in fluid form, if the handler has reported such milk as being a part of his regular supply of producer milk; (iv) moved from the fluid milk plant of a handler to a person who is not subject to the provisions hereof but who is engaged in the business of distributing milk, skim milk, or cream in fluid form on wholesale or retail routes; and (v) a handler who handles no milk of producers disposes of milk, skim milk, or cream completely processed and bottled for distribution to another handler who handles milk of producers: *Provided,* That the quantity so classified shall not exceed the amount of such milk, skim milk, or cream disposed of in the original package by the receiving handler.

(2) Milk, skim milk, and cream received at a fluid milk plant from sources other than producers or other fluid milk plants shall be Class II milk, except that any of this milk, skim milk, and cream in excess of the amount of Class II milk used by the handler shall be Class I milk.

(3) Milk of a producer transferred by a handler to another handler without being received by the first handler for the primary processing steps of weighing (or measuring) and testing, shall be considered as having been received by the second handler directly from the producer.

(4) Milk, skim milk, or cream moved by a handler to a plant not specified in (c) (1) of this section for the manufacture of nonfluid milk products shall be Class II milk.

(d) *Computation of milk in each class.* For each delivery period the market administrator shall compute for each handler the pounds of producer milk allocated to each class as follows:

(1) Determine the pounds of milk, skim milk, and cream handled as follows: add into one sum the pounds of (i) milk of producers; (ii) milk produced by such handler; (iii) milk, skim milk, and cream received from other handlers; (iv) emergency milk received; and (v) milk, skim milk, and cream received from other sources.

(2) Determine the pounds of butterfat handled as follows: add into one sum the pounds of butterfat in (i) milk of producers; (ii) milk produced by such handler; (iii) milk received from other handlers; (iv) emergency milk; and (v) milk received from other sources.

(3) Determine the pounds of Class I milk as follows: convert to quarts the quantity of milk, skim milk, and cream disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, and cream, including any cream product disposed of in fluid form which contains a butterfat content of less than 18 percent, add together, and multiply the sum by 2.15: *Provided,* That there shall be added to such total any difference between the quantity determined under (d) (1) of this section and the Class I milk thus far computed plus the pounds of Class II milk computed pursuant to (d) (4) of this section.

(4) Determine the pounds of Class II milk as follows:

(i) Multiply the pounds of Class I milk, computed prior to the proviso in (d) (3) of this section, by its average butterfat test;

(ii) Subtract the pounds of Class I butterfat, computed pursuant to (d) (4) (i) of this section, from the pounds of butterfat computed under (d) (2) of this section;

(iii) Subtract the pounds of Class I milk, computed prior to the proviso in (d) (3) of this section, from the amount computed under (d) (1) of this section;

(iv) Divide the quantity of butterfat, computed under (d) (4) (ii) of this section, by the pounds of milk computed under (d) (4) (iii) of this section;

(v) Multiply the actual weight of each of the several products of Class II milk by its respective average butterfat test, and add together the resulting amounts;

(vi) Add to the sum obtained in (d) (4) (v) of this section the amount which represents the butterfat loss by actual plant shrinkage, but in no event shall such plant shrinkage allowance exceed 2 percent of the total receipts of milk of producers (including the handler's own production) multiplied by the weighted average test of such milk; and

(vii) Divide the sum computed under (d) (4) (vi) of this section by the average test of Class II milk computed under (d) (4) (iv) of this section.

(5) Determine the classification of milk of producers as follows:

(i) Subtract from the pounds of milk in each class the pounds of milk, skim milk, and cream received from other handlers and apportioned to each class in accordance with (c) of this section;

(ii) Subtract from the remaining pounds of Class II milk the total pounds of milk, skim milk, and cream, except emergency milk, received from other sources: *Provided,* That if the quantity of such milk, skim milk, and cream received is greater than the remaining quantity of Class II milk of such handler, an amount equal to such difference shall be subtracted from the remaining pounds of Class I milk; and

(iii) Subtract from the remaining pounds of Class II milk the total pounds of emergency milk received by such handler: *Provided,* That if the quantity of such emergency milk received is greater than the remaining quantity of Class II milk of such handler, an amount equal to such difference shall be subtracted from the remaining pounds of Class I milk.

§ 964.6 *Minimum prices*—(a) *Class prices.* Subject to the provisions of (b) of this section, each handler who handles milk of producers shall pay producers, at the time and in the manner set forth in § 964.10, not less than the following prices per hundredweight for the respective quantities of milk in each class computed pursuant to § 964.5 (d) (5).

(1) Class I milk: $3.45, except for the months of May and June when the price shall be $3.25: *Provided,* That for Class I milk disposed of by such handler under a program approved by the Secretary for the sale or distribution of milk to low-income consumers, including persons on relief, the price shall be such Class I price less 46 cents.

(2) Class II milk: The price resulting from the following computation by the market administrator: multiply by 4 the average price of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, plus 20 percent thereof, plus 3½ cents for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound. In this computation the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. If carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event the price for Class II milk shall be that resulting from the following computation by the market administrator: multiply by 4 the average price of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, plus 20 percent thereof, plus 3½ cents for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound.

(b) *Butterfat differential to handlers.* (1) If any handler has disposed of milk of producers allocated to Class I milk of a weighted average butterfat test more or less than 4 percent, such handler shall add or deduct, as the case may be, to the Class I price, 5.5 cents for each one-tenth of 1 percent that the butterfat content of such Class I milk varies above or below 4 percent.

(2) If any handler has disposed of milk of producers allocated to Class II milk of a weighted average butterfat test more or less than 4 percent, such handler shall add or deduct, as the case may be, to the Class II price, for each one-tenth of 1 percent that the butterfat content of such Class II milk varies above or below 4 percent, an amount computed as follows: to the average price per pound of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent and divide the result obtained by 10.

§ 964.7 *Reports of handlers*—(a) *Reports to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by him, as follows:

(1) On or before the 7th day after the end of each delivery period, each handler who handled milk of producers shall report the following information with respect to all milk, skim milk, and cream

handled by him during such delivery period:

(i) The quantity of milk of each producer (including that of such handler's own production), the butterfat content thereof, and the number of days on which such milk was handled;

(ii) The quantity of delivered base milk and the quantity of excess milk of each producer;

(iii) The milk, skim milk, and cream, with its butterfat content, received from other handlers who handled milk of producers;

(iv) The milk, skim milk, and cream, with its butterfat content, received from any other source, including milk, skim milk, and cream completely processed and packaged for distribution to consumers which was received from handlers who handled no milk of producers;

(v) The utilization of all milk, skim milk, and cream handled;

(vi) The name and address of each producer whose milk had not been handled during the previous delivery period;

(vii) The emergency milk received, as follows: (*a*) the amount of such milk, (*b*) the date or dates upon which such milk was received during the delivery period, (*c*) the plant from which such milk was shipped, (*d*) the price paid, or to be paid, for such milk, and (*e*) the utilization of such milk;

(viii) The name and address of each person who produces milk under a dairy farm inspection report issued by the proper health authorities and who is under contract with such handler, either individually or through a cooperative association, to have his milk paid for as part of the handler's supply of milk for fluid milk use, but whose milk is not received in such handler's fluild milk plant. Any such person who is not included on such a list, submitted on or before the 7th day after the end of the delivery period, shall not be deemed to be a producer for such delivery period;

(ix) The milk diverted by a cooperative association under the conditions set forth in § 964.3 (a) (6), as follows: (*a*) the amount of such milk, (*b*) the date or dates upon which such milk was diverted during the delivery period, (*c*) the plant to which such milk was shipped, and (*d*) the utilization of such milk; and

(x) Such other information with respect to the above as the market administrator may request.

(2) On or before the day a handler, described in (a) (1) of this section, receives emergency milk, he shall report his intention to receive such milk.

(3) Within 10 days after the market administrator's request, a handler described in (a) (1) of this section shall report with respect to each of his producers for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name and address, (ii) the pounds of milk handled with its butterfat content, and (iii) the number of days upon which such milk was handled.

(4) On or before the 22d day after the end of each delivery period, a handler described in (a) (1) of this section shall report his producer pay roll for such delivery period, which shall show for each producer (i) the total pounds of delivered base and excess milk with the average butterfat content thereof, and (ii) the net amount of such handler's payment to such producer with the prices, deductions, and charges involved.

(5) Each handler described in (a) (1) of this section shall report, at such time and in such manner as the market administrator may request, the payment plan in effect for each producer at his fluid milk plant for the month of June 1942.

(6) Each handler who handles no milk of producers shall report to the market administrator at such time and in such manner as the market administrator may request.

(b) *Verification of reports.* (1) Each handler shall make avaiable to the market administrator or to his agent, or to such other person as the Secretary may designate, (i) all records and facilities necessary for the verification of the information contained in the reports submitted pursuant to this section and for the accounting of the usage of all milk, skim milk, and cream handled in accordance with the classification of milk as set forth in § 964.5, and (ii) those facilities which are necessary for weighing, sampling, and testing of the milk of each producer.

(2) If, in the verification of the reports of any handler made pursuant to (a) of this section, it is necessary for the market administrator to examine the records of milk, skim milk, and cream handled by the handler but not required to be classified in accordance with § 964.5 (a), such handler shall make such records available to the market administrator. If the market administrator finds that, subsequent to the delivery period for which such verification is being made, any milk, skim milk, or cream handled during such delivery period was used in a class other than that in which it was first reported, such milk, skim milk, or cream shall be reclassified accordingly and the adjustments necessary to reflect the reclassified value of such milk, skim milk, or cream shall be made.

§ 964.8 *Application of provisions*—(a) *Handlers who are also producers.* (1) Except as provided in this section, the provisions of §§ 964.6, 964.9, 964.10, 964.11, and 964.12 shall not apply to a handler who handles no milk of producers other than milk of his own production.

(2) In computing the value of milk for any handler pursuant to § 964.9 (a), the market administrator shall consider any milk received in bulk by such handler from a handler who is also a producer and who purchases or receives no milk from other producers as being received from a producer.

§ 964.9 *Determination of uniform prices to producers*—(a) *Computation of the value of milk.* (1) For each delivery period, the market administrator shall compute, subject to the provisions of § 964.8, the value of milk for each handler who handled milk of producers by (i) multiplying the quantity of such milk in each class computed pursuant to § 964.5 (d) (5), by the applicable class prices, and (ii) combining into one total the resulting class values: *Provided,* That if any such handler received milk, skim milk, or cream, in fluid form, except emergency milk, which has been classified as Class I milk pursuant to § 964.5 (c) (2), there shall be added, with respect to such Class I milk, the difference between the Class II and the Class I prices, each of such prices being adjusted by its respective butterfat differential on the basis of the test of such milk, skim milk, or cream.

(2) In the event any handler who handled no milk of producers individually disposed of milk, skim milk, or cream, in fluid form, other than emergency milk, in the marketing area during the delivery period, the market administrator shall compute the value of such milk, skim milk, or cream by multiplying the amount thereof by the difference between the Class II and the Class I prices, each of such prices being adjusted by its respective butterfat differential on the basis of the test of such milk, skim milk, or cream.

(b) *Computation and announcement of uniform prices prior to January 1, 1943.* For each delivery period prior to January 1, 1943, the market administrator shall compute and announce the uniform price per hundredweight of milk of producers in the following manner:

(1) Combine into one total the respective values computed pursuant to (a) of this section, for each handler who made the reports and payments required by §§ 964.7 (a) and 964.10 (e);

(2) Subtract, if the average butterfat content of all milk of producers is greater than 4 percent, or add, if such average butterfat content is less than 4 percent, the total value of such butterfat variance from 4 percent computed pursuant to § 964.10 (h);

(3) Add the cash balance in the producer-settlement fund;

(4) Divide by the total hundredweight of milk of producers which is represented in these computations;

(5) Subtract not less than 4 cents nor more than 5 cents per hundredweight of milk for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and in payments by handlers. This result shall be known as the uniform price for milk containing 4 percent of butterfat; and

(6) On or before the 11th day after the end of such delivery period, mail to all handlers and publicly announce: (i) such of these computations as do not disclose confidential information, (ii) the Class II price, (iii) the butterfat differential, and (iv) the uniform price.

(c) *Computation and announcement of uniform prices subsequent to December 31, 1942.* For each delivery period subsequent to December 31, 1942, the market administrator shall compute and announce the uniform price per hundredweight of milk of producers in the following manner:

(1) Combine into one total the respective values computed pursuant to (a) of

this section for each handler who made the reports and payments required by §§ 964.7 (a) and 964.10 (e);

(2) Subtract, if the average butterfat content of all milk of producers is greater than 4 percent, or add, if such average butterfat content is less than 4 percent, the total value of such butterfat variance from 4 percent computed pursuant to § 964.10 (h);

(3) Subtract the amount to be paid to producers pursuant to § 964.10 (c) (2);

(4) Add the cash balance in the producer-settlement fund;

(5) Divide by the total hundredweight of delivered base milk of producers which is represented in these computations;

(6) Subtract not less than 4 cents nor more than 5 cents per hundredweight of milk for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and in payments by handlers. This result shall be known as the delivery period uniform price to be paid producers for base milk containing 4 percent of butterfat; and

(7) On or before the 11th day after the end of such delivery period, mail to all handlers and publicly announce: (i) such of these computations as do not disclose confidential information, (ii) the Class II price, (iii) the butterfat differential, (iv) the uniform price to be paid for base milk, and (v) the price to be paid for excess milk.

§ 964.10 *Payments for milk*—(a) *Half-delivery period payment.* On or before the last day of each delivery period, each handler shall pay to each of his producers the approximate value of the milk of such producer which was handled by such handler during the first 15 days of such delivery period.

(b) *Final payment for delivery periods prior to January 1, 1943.* On or before the 15th day after the end of each delivery period prior to January 1, 1943, each handler in accordance with his customary plan of payment to producers in the month of June 1942 shall pay his producers a total amount of money equal to the uniform price, subject to the butterfat differential provided by (h) of this section, times the amount of milk delivered to him by such producers, less the payment made pursuant to (a) of this section: *Provided,* That any change may be made in such customary plan of payment if such change is made uniformly to all producers delivering milk to such handler.

(c) *Final payment for delivery period subsequent to December 31, 1942.* On or before the 15th day after the end of each delivery period subsequent to December 31, 1942, each handler shall pay to his producers, subject to the butterfat differential provided by (h) of this section and less the payment made pursuant to (a) of this section, as follows:

(1) To each producer at the uniform price per hundredweight, computed pursuant to § 964.9 (c) (6), for that quantity of milk of such producer not in excess of his delivered base; and

(2) To each producer at the Class II price, for that quantity of milk of such producer in excess of his delivered base.

(d) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to (e) and (g) of this section, and out of which he shall make all payments to handlers pursuant to (f) and (g) of this section.

(e) *Payments to the producer-settlement fund.*—On or before the 13th day after the end of each delivery period, each handler shall pay to the market administrator, for payment to producers through the producer-settlement fund, the amount by which the total utilization value of the milk of producers handled by such handler during the delivery period is greater than the sum obtained by multiplying the pounds of such milk of producers by the appropriate price or prices required to be paid producers by handlers, pursuant to (b) or (c) of this section, and adding together the resulting amounts: *Provided,* That if any handler who handled milk of producers has received milk, skim milk, or cream except emergency milk, which was classified as Class I milk pursuant to § 964.5 (c) (2), such handler shall pay also to the market administrator, for payment to producers through the producer-settlement fund, the amount which is computed pursuant to the proviso of § 964.9 (a) (1): *Provided further,* That in the event any handler who handled no milk of producers, individually disposed of milk, skim milk, or cream, in fluid form, other than emergency milk, in the marketing area, during the delivery period, such handler shall pay to the market administrator, for payment to producers through the producer-settlement fund, an amount per hundredweight which is computed pursuant to § 964.9 (a) (2).

(f) *Payments out of the producer-settlement fund.* On or before the 15th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, the amount, if any, by which the total utilization value of the milk of producers handled by such handler during the delivery period is less than the sum obtained by multiplying the hundredweight of such milk of producers by the appropriate price or prices required to be paid producers by handlers pursuant to (b) or (c) of this section, and adding together the resulting amounts. If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who, on the 15th day after the end of each delivery period, has not received the balance of such reduced payment due him from the market administrator shall be deemed to be in violation of (b) or (c) of this section if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

(g) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors under which money would accrue to the producer-settlement fund pursuant to (e) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler, within 5 days after being notified by the market administrator, shall make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to (f) of this section, the market administrator, within 5 days after such verification shall make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by this section, the handler shall make up such payment not later than the time of making payment to producers next following such disclosure.

(h) *Butterfat differential.* In making payments to each producer, pursuant to (b) or (c) of this section, each handler shall add to the price per hundredweight not less than, or subtract from the price per hundredweight not more than, as the case may be, for each one-tenth of 1 percent of butterfat content which is above or below 4 percent in milk of such producer, the amount as shown in the schedule below for the butter-price range in which falls the average wholesale price of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received:

Butter-price range:	*Butterfat differential (cents per one-tenth of 1 percent)*
17.50–22.499 cents per pound	2.5
22.50–27.499 cents per pound	3.0
27.50–32.499 cents per pound	3.5
32.50–37.499 cents per pound	4.0
37.50–42.499 cents per pound	4.5
42.50–47.499 cents per pound	5.0
47.50–52.499 cents per pound	5.5
52.50–57.499 cents per pound	6.0
57.50 and over cents per pound	6.5

(i) *Determination of base.* For each delivery period subsequent to December 31, 1942, the base of each producer shall be a quantity of milk calculated by multiplying the applicable figure computed pursuant to this paragraph, subject to the provisions of (j) of this section, by the number of days during such delivery period on which the milk of such producer was handled:

(1) Effective for 1943, and for each year following 1943, the daily base, for the ensuing calendar year, of each producer who began delivery to a handler before the month of September preceding such ensuing calendar year shall be determined by the market administrator from reports filed by handlers pursuant to § 964.7 (a) or from the best information available, in the following manner:

(i) Determine for each producer the average daily deliveries of his milk to a handler for the number of days on which this order is in effect during the months of September, October, and November of

the calendar year immediately preceding: *Provided,* That if a producer is prevented by the applicable health authority, through quarantine or degrading, from delivering milk, and such producer furnishes to the market administrator a statement to that effect written by such applicable health authority, the market administrator shall deduct from the figure representing the number of days in the base-forming period the number of days (but not more than 30 days in any one base-forming period) involved by such ruling of the applicable health authority: *Provided further,* That if a producer, as the result of official testing for tuberculosis, Bang's disease, or mastitis by a recognized veterinarian, or for any reason which the market administrator determines was not under the control of the producer, loses 20 percent or more of the cows in his herd and furnishes the market administrator, within 5 days after such loss, with satisfactory documentary evidence thereof, such producer shall be permitted 3 months in which to replace such cows and the market administrator shall credit such producer with the delivery of his established base in the determination of such producer's daily base;

(ii) Add together in one sum all the daily average amounts computed according to (i) (1) (i) of this section;

(iii) Determine, from reports filed by handlers pursuant to § 964.7 (a), the average daily Class I milk of handlers for such months of September, October, and November;

(iv) Divide the amount determined pursuant to (i) (1) (iii) of this section by the sum determined pursuant to (i) (1) (ii) of this section; and

(v) Multiply the daily average amount for each producer determined in (i) (1) (i) of this section by the percentage figure computed pursuant to (i) (1) (iv) of this section. This result shall be known as the producer's daily base for the current calendar year;

(2) In the event of allotment of a daily base to a producer who did not regularly sell milk to a handler on September 1 of the preceding calendar year, or to a producer who for other reasons does not have a base computed under (i) (1) of this section, the market adminstrator shall determine the daily average deliveries of milk by such producer for the first 2 full calendar months immediately following the first regular delivery of such producer, or, in the case of a producer previously holding a base, the first 2 full calendar months immediately following the first regular delivery following the date of termination of such base. Such daily average deliveries of milk shall be multiplied by the percentage that total reported base deliveries were to reported total deliveries of milk to the marketing area by all daily base-holding producers during such 2 calendar months; and

(3) If a handler who distributes within the marketing area milk of his own production disposes of all or a part of his delivery routes to a handler who handles milk of producers and thereafter delivers milk to a handler as a producer, a daily base for such producer shall be computed by the market administrator in the following manner: determine the average daily Class I milk produced and disposed of on such delivery routes of such handler during the 3 months next preceding the date of the disposal of such delivery routes which the purchasing and selling handlers jointly report as involved in the deal, subject to verification by the market administrator. This figure shall be known as the producer's daily base and shall be effective from the date of the first delivery of milk of his own production in bulk to a handler by such producer through the remaining calendar year and thereafter shall be superseded by a daily base determined pursuant to (i) (1) of this section.

(j) *Base rules.* (1) Any producer who ceases to deliver milk to a handler for a period of more than 30 consecutive days shall forfeit his base. In the event such producer thereafter commences to deliver milk to a handler, he shall receive a daily base computed in the manner provided in (i) (2) of this section;

(2) In case a producer sells or delivers to a handler milk not of his own production as being milk of his own production, the base of such producer shall be forfeited at the beginning of the delivery period during which such milk was delivered and all milk sold or delivered to a handler by such producer during such delivery period shall be excess milk.

Thereafter, such producer shall receive a daily base computed in the manner provided in (i) (2) of this section;

(3) If, on or before the 5th day after the transfer of ownership of a farm from which base milk is delivered, and/or a herd producing base milk, there is submitted to the market administrator an affidavit stating that such farm and/or herd has been transferred, and specifying the date of such transfer and the ear tag numbers of the animals so transferred, signed jointly before a notary public by the transferee and the transferor of such farm and/or herd, and if, within 10 days after the announcement of such transfer, no written protest containing information that such transfer was contrary to the terms of this subparagraph is filed with the market administrator, the base of such producer may be transferred but only as one unit to the purchaser of such farm and/or herd. If, upon investigation, the market administrator finds the terms of this subparagraph have been violated, the base of such producer shall be forfeited;

(4) A landlord who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. Likewise, the tenant who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the daily base shall be divided betwen the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship; and

(5) A producer, whether landlord or tenant of a farm, may retain his base when moving his entire herd of cows from one farm to another farm: *Provided,* That, at the beginning of a tenant and landlord relationship, the allotted base of each tenant and landlord shall be a combined base and may be divided only if such relationship is terminated.

§ 964.11 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in (b) of this section, each handler shall deduct an amount not exceeding 5 cents per hundred pounds, the exact amount to be determined by the market administrator, from the payments made to each producer pursuant to § 964.10, with respect to all milk of producers handled by such handler during each delivery period, and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such money shall be expended by the market administrator for verification of weights, sampling, and testing of milk of producers during the delivery period and to provide such producers with market information, and such services shall be performed in whole or in part by the market administrator.

(b) *Producers' cooperative association.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the Secretary, the services set forth in (a) of this section, each handler shall make, in lieu of the deductions specified in (a) of this section, such deductions from the payments to be made directly to such producers, pursuant to § 964.10, as are authorized by such producers, and, on or before the 15th day after the end of each delivery period, pay over such deductions to the association rendering such services.

§ 964.12. *Expense of administration.* As his pro rata share of the expense of the administration hereof, each handler, on or before the 15th day after the end of each delivery period, shall pay to the market administrator, with respect to all milk of producers handled by him and milk produced by him during such delivery period, an amount not exceeding 4 cents per hundredweight, the exact amount to be determined by the market administrator. Each cooperative association which is a handler shall pay such pro rata share of expense on only that milk of producers caused to be delivered by it to the plants from which no milk is disposed of in the marketing area.

§ 964.13 *Effective time, suspension, and termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

(b) *Suspension and termination.* Any or all provisions hereof, or any amendment hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(d) *Continuing power and duty.* (1) If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which require further acts by any handlers, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall be performed, if the Secretary so directs, by such other person, persons, or agency as the Secretary may designate.

(2) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until discharged by the Secretary, (ii) from time to time account for all receipts and disbursements, (iii) when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (iv) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such other person as the Secretary may designate, if so directed by the Secretary, shall liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 904.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 24th day of September 1942, to be effective on and after the 4th day of October 1942. Witness my hand and the official seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary of Agriculture.

Pursuant to the authority contained in section 23 of the Act of February 5, 1917 (39 Stat. 892; 8 U.S.C. 102); section 24 of the Act of May 26, 1924 (43 Stat. 166; 8 U.S.C. 222); section 1 of Reorganization Plan No. V (5 F.R. 2223); section 37 (a) of the Act of June 28, 1940 (54 Stat. 675; 8 U.S.C. 458; § 90.1, Title 8, Chapter I, Code of Federal Regulations (7 F.R. 6753), and all other authority conferred by law, the following amendments of Part 142 of the said regulations (6 F.R. 65, 229) are hereby promulgated.

Section 142.2 (§ 17.2 of General Order No. C-27 of December 31, 1940) is amended by deleting paragraph (c) of the said section and by redesignating present paragraphs (d) and (e) as paragraphs (c) and (d) of the said section.

EARL G. HARRISON,
Commissioner.

Approved:

FRANCIS BIDDLE,
Attorney General.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulations, Serial No. 241]

PART 60—AIR TRAFFIC RULES

TRANSPORTATION OF CERTAIN EXPLOSIVES BY PAN AMERICAN AIRWAYS, INC.

Authorization to Pan American Airways, Inc., to transport certain explosives by or for Dudley South, contractor, to Rubber Reserve Company.

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 29th day of September 1942.

The Rubber Reserve Company, a subsidiary of the Reconstruction Finance Corporation, having by letter dated September 28, 1942, requested the Board to permit Mr. Dudley South, a contractor with the Rubber Reserve Company, to ship 500 rounds of ammunition for a .38-calibre pistol from Miami, Florida, to Caracas, Venezuela, via Pan American Airways on Wednesday, September 30, 1942; and

It appearing to the Board that the said 500 rounds of ammunition are acceptable explosives within the meaning of § 60.972 for carriage by aircraft in passenger flight, and that such ammunition will be placed in the baggage compartment, inaccessible to the passengers; and

The Board finding that its action is necessary to the prosecution of the war;

Now, therefore, the Civil Aeronautics Board, acting pursuant to sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended, enacts the following special regulation, effective immediately:

Notwithstanding the provisions of § 60.973 (b) of the Civil Air Regulations, but subject to all other pertinent sections thereof, Dudley South, a contractor to the Rubber Reserve Company, may ship by air express, or carry as a part of his personal baggage, and Pan American Airways, Inc., its agents, officers, and employees may carry, not to exceed a total of 500 rounds of .38-calibre ammunition for an automatic pistol to Caracas, Venezuela, on any scheduled Pan American Airways flight leaving Miami, Florida, on or before October 15, 1942.

By the Civil Aeronautics Board.

[SEAL] DARWIN CHARLES BROWN,
Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

PART 4—AIR COMMERCE REGULATIONS

APPLICATION OF CERTAIN LAWS AND REGULATIONS TO CIVIL AVIATION

Amendments to regulations[1] for the application to civil air navigation of the laws and regulations relating to customs, public health, entry and clearance, and immigration.

The regulations for the application to Civil Air Navigation of the laws and regulations relating to Customs, Public Health, Entry and Clearance, and Immigration issued by the Acting Secretary of the Treasury, the Federal Security Administrator, the Acting Secretary of Commerce, and the Acting Attorney General, within their respective authorities, on August 28, 1941, as amended on October 31, 1941 and June 5, 1942 (6 F.R. 4516, 4536, 4537, 4514, 5582, 5583, 5596 and 7 F.R. 4471, 4472, 4496; 19 CFR 4.1 to 4.11, 42 CFR 11.501 to 11.516, 14 CFR 904.1 to 904.15, and 8 CFR 116.1 to 116.16), are hereby further amended as follows:

Section 4.9 (a) of Title 19, Code of Federal Regulations, also designated as § 11.509 (a) of Title 42, § 904.9 (a) of Title 14, and § 116.9 (a) of Title 8, is amended by deleting "Commerce Form 1378–B or 1380" and inserting in lieu thereof "customs Form 7301, 7567 or 7569".

Section 4.10a (d) of Title 19, also designated as § 11.511 (d) of Title 42, § 904.11 (d) of Title 14, and § 116.11 (d) of Title 8, is amended by deleting the second sentence and inserting in lieu thereof the following:

When such aircraft has on board no merchandise from any place outside the United States and if no bond on customs Form 7567 or 7569 is on file covering such aircraft, but immediate clearance is requested, a bond on customs Form 7301 "Bond of vessel or aircraft to produce complete manifest and/or export declarations," shall be required. (R.S. 161, 251, sec. 644, 46 Stat. 761, sec. 7, 44 Stat. 572, sec. 5, 27 Stat. 451, sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 623, 46 Stat. 759, sec. 30, 52 Stat. 1089; 5 U.S.C. 22, 19 U.S.C. 66, 1623, 1644, 49 U.S.C. 177, 42 U.S.C. 94, 8 U.S.C. 102, 222. Secs. 201 (a), 205 (b), President's Reorganization Plan No. I, sec. 1, President's Reorganization Plan No. V; 4 F.R. 2728, 2729, 5 F.R. 2132, 2223. E.O. 9083, Feb. 28, 1942; 7 F.R. 1609).

The use of customs Forms 7301, 7567 and 7569 as herein provided shall be effective on a date to be fixed by the Commissioner of Customs in a circular letter after the revised issues of those forms have been printed. Commerce Form 1378–B and 1380 are hereby abolished as of the date fixed in the circular letter for the use of such customs forms.

W. R. JOHNSON,
Commissioner of Customs.

TITLE 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 3—DETERMINATIONS RELATING TO OVERTIME, SUNDAY, AND HOLIDAY PAY

SHIP BUILDING AND SHIP REPAIR INDUSTRY

Temporary stay of application of Executive Order 9240 to the ship building and ship repair industry.

The Chairman of the Ship Building Stabilization Committee has advised me that the Zone Standards Agreements for the Ship Building and Ship Repair Industry and the Pacific Coast Repair Agreements, which have been approved by Governmental agencies, are operating satisfactorily, that the premium compensation problem in the Ship Building Industry has been resolved in substantial accord with the principles of Executive Order 9240 and that negotiations are proceeding for the purpose of conforming the provisions of these agreements to such principles with respect to the payment of premium compensation in the Ship Repair Industry and in other respects. In view of these negotiations he has requested that the application of Executive Order 9240 to the Ship Building and Ship Repair Industry be stayed for a period of 60 days from October 1, 1942.

Upon consideration of the operation of these wage stabilization agreements and the present negotiations as to premium compensation in the Ship Repair Industry, I find there is sufficient cause for the grant of the request.

Now, therefore, it is ordered, Pursuant to the authority vested in me by Executive Order 9248 that the application of Executive Order 9240 entitled "Regulations Relating to Overtime Wage Compensation" to work in the Ship Building and Ship Repair Industry, which is subject to the Zone Standards Agreements for the Ship Building and Ship Repair Industry and the Pacific Coast Repair Agreements, is stayed for a period of 60 days from October 1, 1942.

Dated: September 30, 1942.

FRANCES PERKINS,
Secretary of Labor.

[F. R. Doc. 42-9767; Filed, October 1, 1942; 11:24 a. m.]

PART 3—DETERMINATIONS RELATING TO OVERTIME, SUNDAY, AND HOLIDAY PAY

BUILDING AND CONSTRUCTION TRADES

Determination under Executive Order 9248 as to the building and construction trades Wage Stabilization Agreement.

A Wage Stabilization Agreement for the Building and Construction Trades Industry, engaged on war construction work, which stabilizes, among other things, overtime compensation practices in that industry has been in operation since July 1941. This agreement was approved by the Government departments and agencies concerned with such building construction projects. The Board of Review of the War Production Board which administers that stabilization agreement, entitled "Memorandum of Agreement betwen the Representatives of Government Agencies Engaged in Defense Construction and the Building and Construction Trades Department of the American Federation of Labor", has informed me that the agreement is operating satisfactorily in that industry and has made application that the provisions of Executive Order 9240 shall not apply to any war construction work subject to the said stabilization agreement. The Building and Construction Trades Department of the American Federation of Labor which is a party to the stabilization agreement has made similar application.

Upon investigation it appears that this Wage Stabilization Agreement approved by a Government department or agency is operating satisfactorily to stabilize overtime practices in the industry.

Now, therefore, By virtue of the power vested in me by Executive Order No. 9248, it is ordered that the provisions of Executive Order No. 9240 entitled "Regulations Relating to Overtime Wage Compensation" shall not apply to work on construction projects which is subject to the said stabilization agreement.

Dated: September 30, 1942.

FRANCES PERKINS,
Secretary of Labor.

PART 937—ZINC

[Conservation Order M-11-b,[3] as Amended October 1, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of zinc for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 937.13 *Conservation Order M-11-b*—(a) *Prohibition on use of zinc in articles appearing on List A*. (1) Between July 24, 1942 and September 1, 1942, no person shall put into process in the manufacture of any item on List A more weight of zinc than 50% of the average monthly weight of zinc put into process by him during 1941 in the making of such item, and no person shall put into process any zinc in the making of such item unless processing thereof will be completed within such period.

(2) Effective September 1, 1942, no person shall process any zinc to make any item on List A.

(3) No person shall process any zinc to make any item on List A-1 after the governing date set forth opposite such item in column 2 of List A-1. No person shall at any time process any zinc to make any item now or hereafter placed on List A-1 unless the item will be completed by the governing date applicable to the item.

(b) *Limitation on other uses of zinc*. No person shall put into process during any calendar quarter in the manufacture of items not on List A more than 75% of the weight of zinc of prime western grade or, more than 50% of the weight of zinc of any other grade respectively put into process by him in the manufacture of such items during the corresponding calendar quarter of 1941.

(c) *General exceptions*. The prohibitions and restrictions in paragraphs (a) and (b) shall not apply to the use of zinc in any item which is being produced:

(1) Under a specific contract or subcontract covering the manufacture of any product, or any component to be physically incorporated into such product, produced by or for the account of the Army or Navy of the United States or the United States Maritime Commission, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States", (Lend-Lease Act) to the extent required by specifications, including performance specifications, applicable to the contracts, subcontracts or purchase orders of these organizations.

(2) For use to comply with safety regulations issued under governmental authority which require the use of zinc to the extent employed, or

(3) For use in chemical and industrial plants to the extent that corrosive or chemical action makes the use of any other material impractical, or

(4) For use in research laboratories where and to the extent that the physical or chemical properties make the use of any other material impractical.

(d) *Prohibitions against sales or deliveries of zinc*. No person shall after July 24, 1942, sell or deliver zinc to any person if he knows, or has reason to believe such material is to be used in violation of the terms of this order.

(e) *Limitation of inventories*. No person shall accumulate an inventory of zinc or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies in quantities in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of zinc products by this order. Any person who has an inventory in excess of a minimum practicable working inventory is prohibited from receiving additional zinc or products thereof beyond that extent necesary to maintain a minimum practicable working inventory.

(f) *Miscellaneous provisions*—(1) *Appeal*. Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(2) *Applicability of order*. The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to July 24, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided, the use of zinc in the production of any article, the limitation of such other order shall be observed.

(3) *Violations or false statements*. Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(4) *Definitions*. For the purposes of this order:

(i) "Zinc" means zinc metal which has been produced by any electrolytic, electro-thermic, or fire refining process. It shall include zinc dust (for Sheradizing only), scrap zinc, zinc metal produced from scrap and any alloy in the composition of which the percentage of zinc metal by weight equals or exceeds the percentage of all other metals.

(ii) "Prime western zinc" means zinc of no higher grade than that conforming to American Society for Testing Materials specification B6-37, grade 5, and zinc dust for Sheradizing.

(iii) "Zinc of any other grade" means zinc conforming to American Society for Testing Materials specification B6-37, grades 1a, 1, 2, 3, or 4, and any alloy in the composition of which the percentage of zinc metal by weight equals or exceeds the percentage of all other metals.

(iv) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(v) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not (including, but not limited to, any trustee, receiver, assignee, or personal representative thereof).

(vi) "Item" means any article or component part thereof.

(vii) "Process" means cut, draw, machine, stamp, melt, cast, forge, roll, turn, spin or otherwise shape.

(viii) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(ix) "Sheradizing" means any process which uses zinc dust or finely divided zinc as a raw material for impregnating the surface of a ferrous material with zinc by process of cementation.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1233—THERMOPLASTICS

[General Preference Order M-154, as Amended October 1, 1942[2]]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of thermoplastics, as hereinafter defined, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1233.1 *General Preference Order M-154*—(a) *Definitions.* For the purposes of this order:

(1) "Thermoplastics" means the synthetic resins and cellulose derivatives listed below, whether plasticized or unplasticized, and in all their various forms such as sheets, rods, tubes, shapes, slabs, pellets, powder, solutions, emulsions and flake, but not including yarn or textiles:

(i) Polymers of styrene.

(ii) Polymers of the esters of acrylic and methacrylic acid.

(iii) Polymers of vinyl acetate which have been partially or wholly hydrolized and reacted with aldehydes such as formaldehyde, acetaldehyde or butyraldehyde.

(iv) Polymers of vinylidene chloride.

(v) Cellulose acetate-butyrate.

(vi) Cellulose acetate.

(vii) Cellulose nitrate, except that used in explosives and protective coatings.

(viii) Ethyl cellulose (plasticized).

(ix) Monomer and polymers of vinyl acetate.

(x) Nylon.

(xi) Polymers of vinyl alcohol—polymers of vinyl acetate which have been partially or wholly hydrolyzed.

(2) "Producer" means any person engaged in the production of thermoplastics and includes any person who has thermoplastics produced for him pursuant to toll agreement, but does not include injection, compression or extrusion molders.

(3) "Class I uses" means those uses set forth in Exhibit A annexed hereto and made a part hereof.

(4) "Class II uses" means those uses set forth in Exhibit B annexed hereto and made a part hereof.

(5) "Class III uses" means those uses set forth in Exhibit C annexed hereto and made a part hereof, except as hereinafter in paragraph (a) (6) otherwise provided.

(6) "Class IV uses" means those uses set forth in Exhibit D annexed hereto and made a part hereof, except that until September 1, 1942, such uses shall be considered as Class III uses.

(7) "Orders for Class I, II, and III uses" mean orders for the uses set forth in paragraphs (a) (3), (4) and (5) hereof exclusive of defense orders as defined in priorities regulation No. 1, as amended from time to time.

(8) Application should be made to the War Production Board, attention Chemicals Branch, with respect to the classification of uses not mentioned in paragraphs (a) (3), (4), (5) and (6) hereof.

(9) "15-day production period" shall refer to those periods of the month commencing with the first and fifteenth days thereof and ending with the fourteenth and last days thereof (all days inclusive), respectively.

(b) *Placing of orders.* On and after September 1, 1942, no producer shall accept and no person shall tender an order for delivery of thermoplastics unless such order is accompanied by a certificate manually signed by the person (or his duly authorized agent) tendering such order containing representations by the person seeking delivery that the thermoplastics sought will not be used in violation of paragraph (f) of this order.

(c) *Compulsory acceptance of certain orders.* In addition to the orders, acceptance of which is compulsory under Priorities Regulation No. 1, as amended from time to time, and subject to the same terms and conditions applicable thereto, and subject to the provisions of paragraph (b) hereof, orders for delivery of thermoplastics for Class I, II, and III uses must be accepted by a producer.

(d) *Scheduling of production.* Anything in Priorities Regulation No. 1 to the contrary notwithstanding, on the first and fifteenth days of each month commencing with the 1st day of November, 1942, each producer shall schedule production (and make delivery) under orders on hand which must be put in process during the then current 15-day production period to meet the delivery dates specified in such orders on such days, respectively, in accordance with the following directions.

(1) Provision shall be made for filling, insofar as possible, defense orders in accordance with the applicable provisions of Priorities Regulation No. 1, as amended from time to time.

(2) After provision has been made for filling defense orders, provision shall be made for filling, insofar as possible, orders for Class I uses. Whenever a producer will be unable to fill orders for Class I uses, all orders for such uses shall be filled on an equal basis percentage-wise, regardless of preference ratings.

(3) After provision has been made for filling defense orders and orders for Class I uses, provision shall be made for filling, insofar as possible, orders for Class II uses to the extent of 50%, and no more, of each order. Whenever a producer will be unable to fill orders for Class II uses to the extent of 50%, and no more, of each such order, all orders for such uses shall be filled on an equal basis percentage-wise regardless of preference ratings.

(4) After provision has been made for filling defense orders, orders for Class I uses and orders for Class II uses (to the extent of 50%, and no more), provision shall be made for filling, insofar as possible, the unfilled portion of orders for Class II uses and orders for Class III uses, the unfilled portion of orders for Class II uses and orders for Class III uses receiving equal quantities of thermoplastics, by weight, regardless of preference ratings, until orders for Class II uses have been filled in toto. Whenever a producer will be unable to fill the unfilled portion of orders for Class II uses or orders for Class III uses, the unfilled portion of orders for Class II uses shall, as a class, be filled on an equal basis percentage-wise, regardless of preference ratings, and orders for Class III uses shall likewise, as a class, be filled on an equal basis percentage-wise, regardless of preference ratings. Provision shall not be made for the filling under this paragraph (d) (4) of those orders for Class III uses which will be filled by the use of scrap as provided in paragraph (e) hereof.

(5) Except as may be otherwise directed by the Director General for Operations, no orders shall be put in process except in accordance with the provisions of paragraphs (d) (1), (2), (3) and (4) hereof.

(e) *Use of scrap.* (1) Producers may use 100% scrap (built up with the amount of solvent and plasticizer necessary for reprocessing) resulting from the production of thermoplastics to fill orders for Class III uses without regard to the provisions of paragraph (d) hereof: *Provided*, That:

(i) Such scrap is not of a quality (excluding considerations of color) to permit it to be used to fill defense orders or orders for Class I or Class II uses, and

(ii) The quantity of such scrap does not exceed 15% of the producer's production (estimated for the month in which the scrap is to be used) of the type of thermoplastic material involved.

(2) Persons obtaining scrap from the processing of thermoplastics delivered to them may use such scrap for a use other than that for which the thermoplastics were delivered (as set forth in the certificate furnished pursuant to the provisions of paragraph (b) (3): *Provided*, That:

(i) Such scrap is not of a quality (excluding considerations of color) to permit it to be used for the use for which the thermoplastics from which it was obtained were delivered, and

(ii) The quantity of such scrap does not exceed 15% of the quantity of thermoplastics from which it was obtained.

(f) *Prohibited uses.* (1) On and after September 1, 1942, no producer shall deliver thermoplastics for uses set forth in Exhibit D annexed hereto (regardless of preference ratings): *Provided, however*, That deliveries of thermoplastics for such uses may be made if the order therefor was received and put in process prior to June 27, 1942.

(2) On and after September 1, 1942, no person shall use thermoplastics for uses set forth in Exhibit D annexed hereto other than the quantities in his inventory prior to the effective date of this order or the thermoplastics that may be delivered pursuant to the provisions of paragraph (f) (1) hereof (regardless of preference ratings).

(g) *Exceptions.* (1) Nothing in paragraph (b) contained shall apply to deliveries to or for the account of:

(i) The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, The Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the

(ii) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom including its Dominions, Crown Colonies and Protectorates, and Yugoslavia; and

(iii) The government of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(2) Nothing in paragraph (f) contained shall apply to deliveries to or for the account of, or use by, the Army or Navy of the United States or the United States Maritime Commission.

(h) *Effect on other orders.* Nothing in this order contained shall be construed to permit the manufacture of any item or of more units of any item listed under Class I, II or III uses if the manufacture of said item has been prohibited or curtailed by the terms of another order of the Director General for Operations whether heretofore or hereafter issued.

(i) *Reports.* Reports shall be made at such times and on such forms as shall be prescribed therefor by the Chemicals Branch of the War Production Board.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of thermoplastics conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director General for Operations by addressing a letter to the War Production Board, Chemicals Branch, reference M-154, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(l) *Notification of customers.* Producers of thermoplastics shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but the failure to give such notice shall not excuse any such person from complying with the terms thereof.

(m) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(n) *Communications.* Acceptances of this order, all reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, attention Chemicals Branch, Washington, D. C., reference M-154.

Director General for Operations.

EXHIBIT A

(Class I Uses)

Class I comprises such uses as are essential to the productive effort of the country, such as industrial equipment, transportation, and health. Only functional uses, not readily substituted by more available materials, are included in Class I, and such uses must employ the minimum amount of plastic material required for the functioning of the part. If these requirements are not met, the item shall fall in Class III even though the end use of the product would normally place it in Class I.

Public Transportation

- Commercial aircraft parts and accessories.
- Railway equipment.
- Trucks and buses:
  - (1) Safety glass.
  - (2) Control knobs.
  - (3) Lighting equipment.
  - (4) Electrical parts.
  - (5) Other functional parts.
- Merchant marine applications.

Communications

- Telephone equipment.
- Telegraph equipment.
- Radio parts, except as defined in Class III:
  - Dials.
  - Functional parts.
- Electrical transcription records and direct cutting records for radio use.
- Motion picture equipment, professional, including film.
- Photographic equipment and supplies, professional, including portrait, commercial, and graphic arts, cut films.

Industrial Productive Equipment

- Battery cases.
- Belting, transmission.
- Industrial instruments—crystals, lenses, and other parts.
- Electrical equipment, e. g., coils and condensers.
- Refrigerator parts.
- Industrial tools:
  - Handles for screw drivers and chisels, but not other carpenter tools.
  - Handles for heavy duty factory tools.
  - Oil cans and oil cups.
  - Hammer heads.
- Sewing machine parts.
- Identification, supplied by factories to employees:
  - Passes.
  - Buttons.
  - Tags.
  - Pass cases.
- Functional parts of production machinery:
  - Inspection windows and covers.
  - Sight glasses.
  - Control knobs.
- Laminated plastic instruction charts for machinery, repair and maintenance, and factory operation.
- Transparent holders for factory instructions and blue prints.
- Transparent inventory boxes.
- Weighing machines.
- Battery charging equipment.
- Printing plates.

Accessory Equipment for Industrial Plants, Offices, and Commercial Establishments

- Lighting fixtures, switches, and parts for electrical distribution.
- Control panels and parts.
- Heating equipment parts, e. g., oil burners and thermostats.
- Insulation.
- Fan parts (electric).
- Air filter and air conditioning equipment.
- Functional parts for soap dispensers and disinfectant devices.
- Parts for business machines:
  - Adding machines.
  - Billings and continuous forms handling typewriters.
  - Calculating and computing machines.
  - Dictating machines and collateral equipment, but not including machines embodying amplifiers and other facilities for recording telephone conversations, conferences and wireless messages with near and far voice control.
  - Duplicating machines, including, but not limited to ink ribbon, gelatin, off set, spirit, stencil and reproducing typewriter principle.
  - Microfilm machines.
  - Shorthand writing machines.
  - Time stamp machines.
  - Portable and non portable typewriters.
  - Accounting and bookkeeping machines.
  - Addressing machines, including, but not limited to embossing machines for plates and stencil cutting machines for fibre stencils.
  - Billing and other forms writing machines, manifolders and collateral equipment, (autographic registers not included).
  - Office composing machines (changeable type, changeable horizontal and vertical spacing, uniform impression).
  - Pay roll denominating machines and collateral equipment.

- Parts for business machines—Continued.
  - Punched card tabulating and accounting machines and collateral equipment.
  - Time recording machines, except watchman's clocks.
  - Autographic registers.
  - Cash registers and cash recording machines.
  - Check handling machines.
  - Change making machines.
- Coin handling machines.
- Envelope handling machines.
- Photographic microfilms.
- Guide cards and visible indexes.
- Counter scales.

Health Supplies for Medical, Surgical, Dental, or Veterinarian Use

- Hearing aids (individual type).
- Anaesthesia, oxygen, and respiratory equipment supplies.
- Atomizers.
- Clinical thermometers and cases.
- Diagnostic equipment and supplies.
- Hypodermic syringes and needles.
- Infant incubators.
- Instruments.
- Invalid chairs (hand operated), walkers, and crutches.
- Laboratory equipment and supplies.
- Operating room supplies and equipment.
- Optical frames for corrective use only.
- Physio-therapy equipment and supplies for institutional or professional use.
- Splints and fracture equipment.
- Sterilizers.
- Surgical dressings.
- Surgical and orthopaedic appliances (including artificial limbs).
- Ligatures, sutures, and suture needles.
- X-ray equipment and supplies, except film.
- Tooth brushes.
- Hospital beds, mattresses, and essential bedside equipment.
- Pessaries.
- Plastic pipe, connections, and accessories (medical, surgical, dental, and veterinary).
- Containers and closures, minimum functional weight, for:
  - Biologicals, anti-toxine, serums, sterile ampoules and intravenous solutions.
  - Medical chemicals (limited to medical use).
  - Antiseptics and germicides.
  - Botanical drugs.
  - Hormones and glandular products.
  - Vitamins, including human nutritional use.
  - Preparations for medicinal use, as recommended by the Health Supplies Branch of the War Production Board.
- Embalming instruments.

Food Production and Distribution

- Farm implement equipment.
- Food containers and closures, minimum functional weight.
- Harness rings, functional.
- Poultry bands.
- Identification markers for tubercular cattle.

Technical Equipment

- Technical instruments:
  - Drawing instruments.
  - Slide rules.
  - Meter wheels.
  - Gauge glasses.
  - Protective covers for instruments.
- Working models.
- Materials for scientific research.

Safety Equipment.

- Chemical protective uses.
- Fire fighting equipment.
- Industrial safety appliances:
  - Machine and mechanical guards.
  - Gas mask parts.
  - Goggles and shields.
  - Hazard measuring devices.
  - Helmets.
  - Respirators.
- Flashlights and their parts for industrial use, all types.
- Flashlight parts, civilian, except all-plastic cases or those with plastic tubes.

Housing

- Builder's hardware, except as defined in Class III:
  - Counter trim.
- Domestic heating equipment parts:
  - Blower parts.
  - Thermostat parts and housings.
  - Control buttons.
- Weather strippings.
- Plumbing fixtures:
  - Faucet handles.
  - Valve handles.
  - Essential escutcheons.
  - Shower heads.
  - Waste pipes.
- Electric switches, outlets, and escutcheon plates.
- Lighting fixtures, for permanent installation only.

EXHIBIT B

(Class II Uses)

Class II comprises such uses as have been considered essential for the convenience and welfare of the civilian population, such as commercial equipment, household appliances, and essential personal items. Only functional uses, not readily substituted by more available materials, are included in Class II, and such uses must employ the minimum amount of plastic material required for the functioning of the part. If these requirements are not met, the item shall fall in Class III, even though the end use of the product would normally place it in Class II.

Commercial Equipment

- Printing, commercial, and protective covering, except as covered in Class III.
- Price tags, sanitary, for meat and dairy products only.
- Counter tops and molding.
- Cold frames.

School and Educational Supplies

- Phonograph records, educational only, including direct cutting records for school use.
- Stereoscopes.
- Musical instruments and their functional parts, except as defined in Class III.
- Models.

Private Transportation

- Passenger automobiles:
  - Safety glass.
  - Functional parts and accessories, e. g., control knobs and escutcheons.
- Bicycle parts:
  - Lamp housings.
  - Reflector buttons.
  - Pedals.

Household Appliances and Fixtures

- Refrigerator parts.
- Sewing machine parts.
- Vacuum cleaner parts.
- Carpet sweeper parts.
- Washing machine parts.
- Stove parts.
- Garden sprinklers.
- Hose couplings and nozzles.

Essential Personal Items

- Combs, essential utility, minimum functional weight:
  - Dressing combs.
  - Pocket combs.
  - Barber and professional combs.
  - Plain tuck, back, or side combs.
- Hair pins.
- Barrettes.
- Straight razor handles.
- Electric razor housings.
- Brushes, minimum functional weight:
  - Hair.
  - Shaving.
- Buttons and buckles, minimum functional weight, utilitarian, non-decorative.
- Corset steel covering.
- Clothing accessories, essential.
- Garter, belt, and suspender parts, except the belting material.
- Shoe parts:
  - Eyelets.
  - Lace tips.
  - Box toe.
- Umbrella ferrules.
- Zippers.
- Pipe bits.
- Fountain pens.
- Ferrules for wood-cased pencils.
- Knitting needles.
- Crochet hooks.
- Watch crystals.
- Baby rattles, teething rings, and pacifiers.
- Lipstick holders.
- Service vanity cases for rouge and powder, not to exceed 1½″ diameter or 1½″ square.
- Religious articles.
- Containers for tooth paste, shaving cream, and other personal sanitary use.
- Closures, minimum functional weight.

EXHIBIT C

(Class III Uses)

Items which are useful, but are either not essential or do not meet the minimum functional weight requirements of Classes I and II.

Commercial Items

- Price tags, other than for meat and dairy products.
- Protective envelopes for documents and permanent records.
- Vending machines and parts.
- Restaurant supplies.
- Serving trays.
- Stationery supplies:
  - Desk sets.
  - Pen bases and holders.
  - Ink stands.
  - Rulers.
  - Pocket pencil sharpeners.
  - Book and catalog binders and covers.
  - Stapling machines.
- Beauty parlor equipment.
- Barber shop lather dispensers.
- Pistol grips.
- Containers and closures, not otherwise specified.
- Housing items not defined in Class I:
  - Door knobs.
  - Window lifts.
  - Storm sash.
- Reflectors, roadside or directional.
- Restaurant trays.

Household Items

- Clock cases and crystals.
- Furniture and furniture parts.
- Medical instruments, non-professional:
  - Throat lights.
  - Tongue depressors.
- Chime shields.
- Tableware:
  - Cups, saucers, plates, and tumblers.
- Pocket knives.
- Kitchen canister.
- Kitchen utensils:
  - Measuring cups and spoons.
  - Strainers.
  - Cooking accessories.
- Coin banks.
- Window shades.
- Chair seats.
- Air conditioning unit parts.
- Lighting equipment, portable or temporary lampshades and bases, and light diffusers.
- Civilian flashlights, all plastic or those with plastic tubes.
- Home, portable, or auto radio receivers:
  - Control knobs, dial lenses, and louvres.
- Phonograph records, popular and home recording.
- Fruit juicers.
- Spray closures for disinfectants and insecticides.

Personal Items

- Games and toys, dice, and playing cards.
- Sporting goods.
- Phonographic equipment and supplies, amateur, including roll films, film packs, and 8 and 16 mm. reversal films.
- Sun goggles, other than those for corrective use.
- Visors.
- Brushes, novelty or not otherwise specified.
- Mechanical pencils.
- Billfolds and pass cases.
- Hair curlers.
- Buttons and buckles, decorative.
- Shoe heels, plastic covered.
- Handbag frames and handles.
- Collar and cuff, including dope for same.

EXHIBIT D

(Class IV, Uses)

Items which are primarily novelty or ornamental, or definitely non-essential.

Commercial Items

- Soda fountain accessories.
- Beverage dispensing accessories.
- Displays:
  - Containers and packages.
  - Fixtures, mannequins, and hosiery forms, etc.
  - Advertising printing.
  - Signs.
- Restaurant and coin-operated phonograph parts.
- Amusement machines and parts.
- Artificial flowers, florists' supplies, and flower pots.
- Caskets, decorative parts.
- Thermometer and hygrometer bases and stands.
- Massaging machine parts.
- Name plates.
- Jewelry and watch boxes.
- Handles for carpenter tools, other than those defined in Class I.

Household Items

- Christmas tree ornaments and Christmas lighting fixtures.
- Baby carriage parts.
- Musical instruments—decorative parts.
- Sculptured pieces.
- Table mats, coasters, and table ornaments.
- Cutlery boxes.
- Closet accessories—shoe horns, shoe trees, clothes hangers:
  - Hat boxes.
  - Hat stands.
- Traveling bags, baggage, and handles therefor.
- Curtain fixtures and window shade pulls.
- Book ends.
- Candle sticks.
- Broom fittings and dust pans.
- Picture and mirror frames.
- Table decorations.
- Salt and pepper shakers.
- Syphon for carbonated water.
- Jigger cups.
- Napkin rings.
- Bathroom fixtures:
  - Towel bars.
  - Soap dishes.
  - Toilet seats.
  - Laundry hampers.
  - Accessories.
- Cutlery handles, table and kitchen.

Personal Items

- Binoculars and their parts and opera glasses.
- Combs:
  - Fancy side, back or tuck combs, using more material than functionally necessary.
  - Combs with plastic cases.
  - Handle combs.
  - Combination combs.
  - Combs with attachments.
- Glove fasteners.
- Cosmetic accessories.
- Artificial finger nails.
- Smokers supplies:
  - Cigarette and cigar holders and cases.
  - Pipe cases.
  - Ash trays.
  - Cigarette boxes.
- Razor boxes.
- Toilet sets.
- Jewelry.

Clothing Items

- Shoe heels, all plastic.
- Shoe uppers, woven.
- Belts, except buckles as otherwise specified.
- Gems.
- Millinery.
- Costume jewelry.
- Umbrella handles and tips.

Novelties

- Advertising and miscellaneous novelties.
- Premium items.
- Gadgets.

PART 3025—FLUID MILK SHIPPING CONTAINERS

[Conservation Order M-200]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain metals and materials used in the production of fluid milk shipping containers, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3025.1 *Conservation Order M-200*—(a) *Definitions.* For the purposes of this order: (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Fluid milk shipping container" means a steel container, suitable for use in connection with the transportation in bulk of fluid milk and fluid milk products, which possesses the following characteristics:

(i) A substantially cylindrical shape.

(ii) A coating of tin or a substitute sanitary coating.

(iii) A "necked in" top so that the opening is smaller than any part of the body cylinder.

(3) "Cover" shall mean the device affixed or to be affixed on a fluid milk shipping container for the purpose of protecting and retaining the contents within the container.

(4) "Neck diameter" means the measurement of the diameter of the neck or throat of a fluid milk shipping container at any point between the base and the upper rim of such neck or throat, and, in addition, shall mean that design of opening or neck which is commonly referred to by manufacturers of fluid milk shipping containers by the dimensions stated.

(b) *Restrictions on manufacture.* On and after the 1st day of October, 1942, no person shall manufacture fluid milk

shipping containers or covers except those complying with the following conditions, limitations, and specifications:

(1) *Capacity.* 4-quart, 8-quart, 10-quart, 12-quart, 20-quart, 32-quart, and 40-quart fluid milk shipping containers shall be manufactured exclusively.

(2) *20-quart fluid milk shipping containers*—(i) *Steel gauge.* Subject to rolling mill tolerances, 20-quart fluid milk shipping containers shall be constructed of the following maximum U. S. Standard gauge steel:

Breasts and necks, 20 gauge steel;
Cylinders, 22 gauge steel;
Bottoms, 18 gauge steel.

(ii) *Neck diameter.* Subject to normal operating tolerances, neck diameters are to equal $6\frac{1}{8}''$ or $7''$.

(3) *32- and 40-quart fluid milk shipping containers*—(i) *Steel gauge.* Subject to rolling mill tolerances, 32- and 40-quart fluid milk shipping containers shall be constructed of the following maximum U. S. standard gauge steel:

Breasts and necks, 18 gauge steel;
Cylinders, 18 gauge steel;
Bottoms, 16 gauge steel.

(ii) *Neck diameter.* Subject to normal operating tolerances, neck diameters of 32-quart fluid milk shipping containers to equal $6\frac{1}{8}''$ or $7\frac{1}{4}''$, and neck diameters of 40-quart fluid milk shipping containers to equal $6\frac{1}{8}''$, $7''$, or $7\frac{1}{4}''$.

(4) *Standards applying to 20-quart, 32-quart and 40-quart fluid milk shipping containers*—(i) *Covers.* Sunken cup type covers without umbrella—commonly known in the industry as "plug covers"—only are to be manufactured. Covers to be constructed of 20 gauge steel (U. S. standard), maximum. Both fluid milk shipping containers and covers are to be so constructed as to enable the latter to be used interchangeably on all containers with the same or similar neck diameters.

(ii) *Handles.* Stamped steel upright handles, not tubular in form or construction, only, shall be manufactured and used for 20-quart, 32-quart, and 40-quart fluid milk shipping containers.

(c) *Restrictions on use of steel.* During the period from July 1, 1942 to June 30, 1943, no person shall put into process or process, for the manufacture of fluid milk shipping containers and covers, iron and steel of a total weight greater than 35% of the total weight of iron and steel which he processed or put into process for this purpose during the period between July 1, 1941, and June 30, 1942.

(d) *Exceptions.* (1) The provisions of subparagraphs (2), (3) and (4) of paragraph (b) hereof shall not apply to fluid milk shipping containers of other than 20-quart, 32-quart and 40-quart capacities.

(2) Nothing in this order shall be construed to prevent any person now engaged in the manufacture of fluid milk shipping containers from using steel of a gauge heavier than that permitted by paragraph (b) of this order, or material for handles other than that permitted by paragraph (b) (4) (ii) of this order, which he had on hand or on order on or before the 1st day of October, 1942, in the manufacture of any part of a fluid milk shipping container: *Provided,* That the manufacture of said fluid milk shipping container is completed on or before the 1st day of November, 1942.

(e) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(2) *Records.* All persons affected by this order shall keep and preserve for not less than two years after the effective date of this order accurate and complete records concerning inventories, production, and sales.

(3) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(4) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that compliance therewith would disrupt or impair any program of conversion from non-defense to defense work, or that compliance therewith would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of materials conserved, may apply for relief to the War Production Board by letter or other written communication, setting forth the pertinent facts and the reason or reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he may deem appropriate.

(6) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C. Ref: M-200.

Chapter XI—Office of Price Administration

PART 1340—FUEL

[Amendment 8 to Maximum Price Regulation 122[1]]

MISCELLANEOUS SOLID FUELS DELIVERED FROM FACILITIES OTHER THAN PRODUCING FACILITIES—DEALERS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1340.255 paragraph (e) is added, in § 1340.258 (a) subparagraphs (7), (8), (9), and (10) are added, in § 1340.261 paragraph (c) is amended and a new § 1340.261a Appendix B is added to read as set forth below:

§ 1340.255 *Records and reports.* * * *

(e) Persons filing statements or reports under paragraph (b) of this § 1340.255 of this Maximum Price Regulation No. 122 shall file such reports with the appropriate War Price and Rationing Board of the Office of Price Administration for each place of business of such person, except that any reports previously filed with the Office of Price Administration in Washington or with the appropriate Regional or State Office of the Office of Price Administration shall be deemed to be properly filed and will be transmitted to the War Price and Rationing Board. Reports of adjustment under paragraph (c) of § 1340.261 of this Maximum Price Regulation No. 122 will also be filed with the appropriate War Price and Rationing Board as provided in subparagraph (7) of said paragraph (c).

§ 1340.258 *Definitions* (a) * * *

(7) "Seller" means a person subject to this Maximum Price Regulation No. 122.

(8) "Affiliated supplier" means a person supplying solid fuel who is the same person as the seller receiving such solid fuel or who owns or controls the seller receiving such solid fuel or who is owned or controlled by either the seller receiving such solid fuel or by a person owning or controlling the seller receiving such solid fuel.

(9) "Unequipped dealer" means a seller who is engaged in the business of purchasing solid fuel for resale, and delivers the solid fuel resold by him to consumers from his supplier's place of business, without storing the same, except in a truck or wagon, and who has no facilities customarily used for storing solid fuel other than a truck or wagon.

(10) "Appropriate War Price and Rationing Board" means the War Price and Rationing Board for the area in which is located the seller's place of business from which the solid fuel is offered for sale.

§ 1340.261 *Appendix A: Maximum prices for solid fuels delivered from facilities other than producing facilities.* * * *

(c) If the maximum price cannot be determined under paragraph (a) or (b) of this section, or if a seller chooses to depart from paragraphs (a) or (b), he shall determine his maximum price under this paragraph (c). In general, this paragraph (c) allows the weighted average price received in December 1941, plus subsequent increases in the purchase cost. A price may be computed in 1942 for purchase cost increases prior to October 1, 1942. If the seller later wishes to make a computation or recomputation, he may do so only during the months of January or April 1943, upon the basis of purchase cost increases actually incurred in the three-month period prior to such month. However, unequipped dealers are not subject to this time restriction and may compute their prices under subparagraph (1) below. The previous four sentences are explanatory, and the maximum prices provided by this paragraph (c) are determined specifically, as follows:

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 3239, 3666, 3856, 3940, 3941, 5024, 5567, 5835

(1) *Adjustment for unequipped dealers.* The unequipped dealer may add to the highest price actually charged for deliveries of each kind, size and quality of solid fuel during the period December 15–31, 1941, any increased cost he currently pays his supplier for the same solid fuel over the highest cost per ton he paid for such solid fuel delivered during the period December 15–31, 1941.

The highest price shall be separately determined for each class of customer, and quantity of delivery according to the established sales practices of the unequipped dealer.

(2) *Adjustment for equipped dealers.* In computing the maximum price for the sale of a particular size, kind and quality of solid fuel, the seller shall add (i) the "weighted average price" charged during December 1941 for such solid fuel, to (ii) the amount, if any, by which the "weighted average purchase cost" of such solid fuel delivered during the "current cost period" exceeds the "weighted average purchase cost" of the solid fuel during the "base cost period."

(3) The "weighted average price" shall be determined by dividing (i) the total amount charged by such seller for deliveries during December 1941, by (ii) the total tonnage delivered by such seller during that month. The amount charged shall be computed before the deduction or addition, as the case may be, of any allowances, discounts, or special service charges of the types indicated in paragraph (f) of this section. Both (i) the total amount charged and (ii) the total tonnage delivered shall be computed upon the basis of deliveries of:

(*a*) The same size, kind and quality of solid fuel;

(*b*) In similar quantities;

(*c*) To purchasers of the same class (e. g., domestic, commercial, industrial);

(*d*) By the same method of delivery (e. g., truck, rail, etc.); and

(*e*) Under the same terms of delivery (e. g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock, or terminal facilities, etc.).

(4) (i) The "weighted average purchase cost" during either the "current cost period" or the "base cost period" shall be determined by dividing (*a*) the total amount charged to the person computing his price for deliveries to him during the period involved of the size, kind and quality of solid fuel involved, f. o. b. supplier's shipping point (mine, dock, plant or yard) by (*b*) the total tonnage received by him during the period involved.

(ii) A deduction shall be made, pursuant to this subdivision (ii), when a person computing a "weighted average purchase cost" for the "current cost period" has an increase in the cost of the size, kind and quality involved, at the point from which his supplier shipped the solid fuel, without a corresponding increase in the cost of such fuel delivered to him. Such increases in the cost of the solid fuel f. o. b. supplier's shipping point, to the extent they are not reflected in the cost of such fuel f. o. b. the person's yard, dock or terminal facilities, shall not be used in the computation of the "weighted average purchase cost". The amount of the increases, not reflected in the delivered cost, must be deducted from the total amount referred to under (*a*) of subdivision (i) of this subparagraph (4) before dividing it by the total tonnage referred to under (*b*) of said subdivision (i).

(iii) In the event that any tonnage was received from an affiliated supplier, the computation shall be made in accordance with subparagraph (8).

(5) The "current cost period" is a three-month period composed of the latest calendar month prior to October 1, 1942 during which the size, kind and quality involved was received and the two immediately preceding calendar months whether or not any such solid fuel was received in such preceding months. If the computation is being made in January or April 1943, the current cost period shall be the three-month period immediately preceding January 1 or April 1, (that is, October, November, December 1942, or January, February, March 1943).

(6) The "base cost period" is a three-month period in 1941 composed of the latest calendar month in that year in which the size, kind and quality involved was received and the two immediately preceding calendar months whether or not any such solid fuel was received in such preceding months.

(7) *Posting and reports.* No maximum price may be established under this paragraph (c) unless and until the maximum price for each size, kind and quality of solid fuel is posted in accordance with the provisions of paragraph (j) of this § 1340.261 of this Maximum Price Regulation No. 122. All sellers other than unequipped dealers shall also file any maximum price computed under this paragraph (c) together with the amount of any price adjustment on the Form No. 1122.1 set forth in § 1340.261a Appendix B of this Maximum Price Regulation No. 122, with the appropriate War Price and Rationing Board of the Office of Price Administration. The records and data upon which such adjustment is based shall be kept for the inspection of the Office of Price Administration.

(8) *Purchases from affiliated suppliers; special computation.* In determining the "weighted average purchase cost" under subparagraph (4) above to the extent that any tonnage was received from an affiliated supplier, the computation of the total amount paid by the seller for the size, kind, and quality involved shall be replaced by a computation of the average amount received for such solid fuel by the supplier from all independent purchasers who are persons subject to this Maximum Price Regulation No. 122. Such average amount received shall be determined by dividing (i) the total amount charged by such supplier to such independent purchasers for deliveries during the period involved (the current cost period or the base cost period, as the case may be) by (ii) the total tonnage delivered by such supplier to such independent purchasers during the same period. The average amount thus determined shall then be multiplied by the tonnage received from the supplier in question, during the period involved, by the person who is computing his price under this paragraph (c). The amount resulting from this computation shall then be substituted for the amounts charged the person computing his price by his affiliated supplier in determining the total amount under (*a*) of subdivision (i) of subparagraph (4) above in the computation of the "weighted average purchase cost."

§ 1340.261a *Appendix B: Form for computation of weighed average purchase costs, weighted average price, and price adjustment for solid fuels delivered from facilities other than producing facilities pursuant to § 1340.261, paragraph* (c) *of this Maximum Price Regulation No. 122.*

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Revised Zoning Order 1 Under Rationing Order 3[1]]

SUGAR RATIONING REGULATIONS

ORDER ESTABLISHING ZONES

Pursuant to § 1407.168 the following order is hereby issued: § 1407.281 (Zoning Order 1) is amended as set forth below:

§ 1407.281 *Establishment of zones; authorization of certain deliveries, shipments and transfers.* (a) The following zones are hereby established:

Zone 1 shall include the State of Rhode Island; and Worcester, Middlesex, Essex, Norfolk, Bristol, Plymouth, Barnstable, Suffolk, Nantucket and Dukes Counties in the State of Massachusetts.

Zone 2 shall include the State of Connecticut; all points in the State of New York where the base rate is 14 cents or less; and all points in the State of New Jersey where the New York City base rate is 12 cents or less.

Zone 3 shall include the State of Delaware; that part of the State of New Jersey not included in Zone 2; and all points in the State of Pennsylvania where the base rate is 14 cents or less.

Zone 4 shall include the State of Maryland, except for Garrett and Allegany Counties; the District of Columbia; Berkeley and Jefferson Counties in the State of West Virgina; and all points in the State of Virginia where the base rate is 19 cents or less.

Zone 5 shall include all points in the States of South Carolina and Georgia where the base rate is 15 cents or less.

Zone 6 shall include the State of North Carolina; those parts of the States of South Carolina and Georgia not included in Zone 5; and that part of the State of Florida which lies east of the Apalachicola River.

Zone 7 shall include the States of Arkansas, Alabama, Louisiana and Mississippi; and that part of the State of Florida which lies west of the Apalachicola River.

Zone 8 shall include all points in the State of Texas where the base rate is 35 cents or less.

Zone 9 shall include the lower peninsula of the State of Michigan.

Zone 10 shall include the States of Maine, New Hampshire, Vermont and Ohio; that part of the State of Massachusetts not included in Zone 1; that part of the State of New York not included in Zone 2; that part of the State of Pennsylvania not included in Zone 3; those parts of the States of Maryland, West Virginia and Virginia not included in Zone 4; and all points in the State of Indiana where the base rate is based on shipments from Baltimore, Maryland.

Zone 11 shall include all of the continental United States not included in Zones 1 to 10 inclusive.

(b) "Base rate" as used herein, refers to the lowest published refiner's base rate in effect on the date of issuance of this Revised Zoning Order 1.

(c) Sugar may be delivered, shipped or transferred from Zone 11 to any point in Zones 1, 8 or 10.

(d) From the effective date of Revised Zoning Order 1 to November 1, 1942, confectioner's sugar in bulk may be shipped, delivered or transferred: (1) from Zone 1 to any point in the States of Maine, New Hampshire, Vermont and Massachusetts; (a) from Zone 2 to any point in the State of New York; (3) from Zone 3 to any point in the State of Pennsylvania; (4) from Zone 4 to any point in the States of Maryland, West Virginia, and Virginia and to any point in the State of North Carolina where the base rate is based on shipments from Baltimore, Maryland; (5) from Zone 5 to any point in Zone 6 except any point in the State of North Carolina where the base rate is based on shipments from Baltimore, Maryland; and (6) from Zone 7 to any point in the States of Kentucky and Tennessee.

(e) Any carrier who has, prior to the effective date of this Revised Zoning Order 1, accepted sugar for a delivery, shipment or transfer not at that time prohibited by §§ 1407.168 and 1407.281 as amended (Zoning Order 1 as amended), may complete such delivery, shipment or transfer after the effective date of this Revised Zoning Order 1.

(f) This Revised Zoning Order 1 shall become effective September 30, 1942.

(Pub. Law 421, 77th Cong., W.P.B. Dir. No. 1 and Supp. Dir. No. 1E, § 1407.168 of Rationing Order No. 3)

PART 1499—COMMODITIES AND SERVICES

[Amendment 35 to Supplementary Regulation 14[1] of General Maximum Price Regulation[2]]

VANILLA BEANS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (31) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modifications of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services and transactions listed below are modified as hereinafter provided:

* * * * *

(31) *Vanilla beans.*—(i) *Maximum prices.* The maximum prices for vanilla beans shall be as follows:

	Dollars per pound f. o. b. New York or Philadelphia
Mexican—Superior to Extra (Prime)	$11.00
Mexican—Cuts—First Quality	10.00
West Indies—Regular	10.00
Java—Firsts	9.50
Bourbons—Firsts	10.00
Tahiti—White Label	6.00
Tahiti—Yellow Label	5.75

In all cases the above descriptions apply to the best quality of each type and grade named. The maximum prices for grades and types not named shall be determined by applying the seller's differentials in effect during the period July–August, 1941, or the differentials of the most closely competitive seller of the same class, if the seller had no established differentials during July–August, 1941 for any grade or type of vanilla beans.

(*a*) The maximum prices quoted above are f. o. b. New York or Philadelphia. The maximum price f. o. b. any other point of entry will be determined by subtracting from the above prices the transportation charges per pound via the lowest cost available means of transportation from such point of entry to New York or Philadelphia, whichever is lower.

(*b*) The maximum delivered cost to the buyer shall be:

(*1*) If the beans are shipped from New York or Philadelphia, the maximum prices quoted above plus actual transportation charges from New York or Philadelphia to the buyer's destination, or

(*2*) If the beans are shipped to the buyer from a point of entry other than New York or Philadelphia, the f. o. b. point of entry price as determined under (*a*) above plus actual transportation charges from such point of entry to the buyer's destination.

[2] 7 F.R. 6007, 6058, 6081, 6216, 6615, 6794, 6939, 7093, 7322, 7454, 3153, 3330, 3666, 3990, 3991, 4330, 4487, 4659, 4738, 5027, 5276, 5192, 5365, 5445, 5565, 5484, 5775, 5784, 5783.

(*3*) If the beans are resold, the maximum price at the point of resale, as determined in (*1*) or (*2*) above, plus actually incurred transportation charges to the ultimate buyer's destination.

(*c*) The maximum prices herein established shall include all commissions and other charges.

(ii) *Permission to carry out contracts made prior to September 30, 1942.* Notwithstanding the provisions of subdivision (i) hereof, contracts entered into prior to September 30, 1942, may be carried out at contract prices: *Provided,* That these prices shall not exceed the maximum prices for vanilla beans as established by the General Maximum Price Regulation before the issuance of this amendment. Before delivering any vanilla beans under such contracts, persons shall file with the Office of Price Administration, Washington, D. C., the following information: (*a*) date of the contract, (*b*) the name and address of the buyer and seller, (*c*) the quantity, type and grade of vanilla beans involved, (*d*) the cost of the vanilla beans to the seller, (*e*) the price contracted for with the buyer and (*f*) the delivery date provided for in the contract.

(iii) *Less than maximum prices.* Lower prices than the maximum prices established by Amendment No. 35 to Supplementary Regulation 14 may be charged, demanded, paid or offered.

(iv) *Evasion.* The Price limitations set forth in this amendment shall not be evaded, whether by direct or indirect methods in connection with the purchase, sale, delivery or transfer of vanilla beans, or by way of premium, commission, service, transportation or other charge, or by changing grade standards, or by any other trade understanding, or by making the discounts given or other terms and conditions of sale more onerous to the purchaser than those available or in effect on September 30, 1942, or by any other means.

(b) *Effective dates.* * * *

(36) Amendment No. 35 (§ 1499.73 (a) (31)) to Supplementary Regulation No. 14 shall become effective September 30, 1942.

Apricot	$20.60	$21.40
Blackberry	20.60	21.40
Cherry	20.60	21.40
Peach	20.60	21.40

(b) Retailers doing business in the State of Connecticut may sell and deliver the commodities listed in paragraph (a) and any person may buy and receive from retailers doing business in the State of Connecticut the commodities listed in paragraph (a) at $2.49 per ⅕ and $1.29 per 1/10 or at the maximum prices established for the particular retailer under § 1499.2 of the General Maximum Price Regulation, whichever is higher.

(c) The adjustment granted to Austin Nichols & Co. Incorporated in paragraph (a) is subject to the following conditions:

(1) That such adjustment shall be limited to sales made in the State of Connecticut and delivered in the State of Connecticut.

(2) That within thirty days of the effective date of this order, Austin Nichols & Co. Incorporated shall send written notification to all retail sellers of the commodities listed in paragraph (a) doing business in the State of Connecticut. Said written notification shall read as follows:

> A price increase for Austin Nichols & Co. Incorporated domestic distilled cordials has been granted to us by the Office of Price Administration. This increase was granted because our March 1942 prices to retailers in the State of Connecticut were abnormally low in relation to the prices charged by our competitors. You are therefor permitted to charge $2.49 per ⅕ and $1.29 per ⅒ or your maximum prices established under § 1499.2 of the General Maximum Price Regulation, whichever are higher. You are required to keep this notification for examination.

(d) All prayers of the Petition (Docket No. GF3-207) not granted herein are denied.

(e) This Order No. 56 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 56 (§ 1499.906) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 56 (§ 1499.906) shall become effective October 1, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 30th day of September 1942.

TRANSPORTATION OF MERCHANDISE BETWEEN ALASKA AND CANADA IN CANADIAN VESSELS

SEPTEMBER 28, 1942.

An order waiving compliance with the provisions of section 27 of the Merchant Marine Act, 1920, as amended.

Coastwise laws waived to extent necessary to permit Canadian vessels to transport merchandise between ports in Alaska and ports in Canada as a portion of the transportation of that merchandise between points in Alaska and points in the continental United States.

Upon the written recommendation of the Administrator of the War Shipping Administration and pursuant to the authority vested in me by the provisions of section 501 of the Second War Powers Act, 1942 (Public Law 507, 77th Congress), I hereby waive compliance with the provisions of section 27 of the Merchant Marine Act, 1920, as amended (46 U.S.C. 883), to the extent necessary to permit the transportation of merchandise on Canadian vessels between ports in Alaska and ports in Canada as a portion of the transportation of that merchandise between points in Alaska and points in the continental United States. I deem that such action is necessary in the conduct of the war.

AUTHORITY: §§ 500.40 to 500.45, inclusive, issued under E.O. 8989, 6 F.R. 6725.

§ 500.40 *Definitions.* As used in this subpart:

(a) The term "person" means any individual, partnership, corporation, association, joint-stock company, business trust, or other organized group of persons, and includes the United States or any agency, territory, or possession thereof, a State or any agency or political subdivision thereof, the District of Columbia, or any trustee, receiver, assignee, or personal representative;

(b) The term "rail carrier" means any person engaged in transportation as a common carrier by railroad in or through any of the several States or the District of Columbia;

(c) The term "passenger train" means any train operated for the purpose of transporting passengers for compensation and includes a mixed train;

(d) The term "extra section" means any passenger train operated for the purpose of handling overflow traffic from a scheduled passenger train and which leaves the terminal of origin not more that 15 minutes before or after the published departure time of such scheduled passenger train.

§ 500.41 *Passenger train operations restricted.* No rail carrier shall:

(a) Operate any passenger train schedule in addition to those which were operated during the week ending September 26, 1942;

(b) Operate an extra or special passenger train or any passenger train which is not scheduled;

(c) Operate a passenger train the consist of which includes a car, other than a railroad business car when used by railroad officials and employees on railroad business, chartered, or the use of which by prior arrangement is restricted, to a person or a number of persons travelling together as a group;

(d) Operate an extra section or sections to scheduled passenger trains unless, on 20% or more of the days for ninety (90) day next preceding the effective date of this subpart, an extra section or sections to such scheduled passenger train were operated.

§ 500.42 *Special and general permits.* The provisions of this subpart shall be subject to any special or general permit issued by the Office of Defense Transportation to meet specific needs or exceptional circumstances either of which arise from the war effort or to prevent undue public hardships.

§ 500.43 *Exemptions.* The provisions of § 500.41 of this subpart shall not apply to:

(a) Passenger trains or cars operated for the exclusive service of or through arrangements made by an agency or department of the United States;

(b) Extra sections made necessary as a result of the handling of cars primarily occupied by persons travelling under orders or directions of an agency or department of the United States;

(c) Passenger train schedules, cars, or extra sections required as a result of emergencies arising from an accident, public calamity, military necessity, or train delay: *Provided, however,* That with respect to the operation of such passenger train schedules, cars, or extra sections the chief operating officer of the operating rail carrier shall within forty-eight (48) hours of such operation make a report in writing to the Office of Defense Transportation, explaining in full the emergency requiring the operation.

§ 500.44 *Communications.* Communications concerning this subpart shall be addressed to the Division of Railway Transport, Office of Defense Transportation, Washington, D. C. Such communication shall refer to General Order ODT 24.

§ 500.45 *Effective date.* This subpart shall become effective October 4, 1942.

Issued at Washington, D. C. this 30th day of September 1942.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

OSCAR VAAL

CANCELLATION OF CODE MEMBERSHIP, ETC.

In the matter of Oscar Vaal, also known as Oscar B. Vaal, code member.

Order approving and adopting proposed findings of fact, proposed conclusions of law, and recommendation of the Examiner and revocation of and cancelling code membership.

A complaint pursuant to section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 having been filed with the Bituminous Coal Division on March 5, 1942, by Bituminous Coal Producers Board for District No. 11, alleging that Oscar Vaal, also known as Oscar B. Vaal, a code member in District No. 11 had violated the Bituminous Coal Code and the Rules and Regulations therein, and praying that the Division enter such order or orders and take such other and further action as may be just and proper in the premises;

A hearing having been held before Joseph D. Dermody, a duly designated examiner of the Division at a hearing room thereof in Vincennes, Indiana, on April 23, 1942;

The examiner having made and entered his report, proposed findings of fact, proposed conclusions of law, and recommendations in the matter dated August 24, 1942, in which it was found that code member wilfully violated section 4 II (e) of the Act and Part II (e) of the Code, which prohibitis the sale of coal below the effective minimum prices, by selling to various purchasers between August 1, 1941, and September 19, 1941, inclusive, 95.69 tons of 1¼" x 0 screenings (Size Group 14), produced at his Vaal Mine, Mine Index No. 622, Harrison Township, Spencer County, Indiana, District No. 11, at a price of 55 cents per net ton f. o. b. the mine, when under the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments the minimum price for such coal was $1.40 per net ton f. o. b. the mine; and

The examiner having recommended therein that the code membership of Oscar Vaal, also known as Oscar B. Vaal, be revoked and cancelled;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs and no exceptions and supporting briefs having been filed;

The undersigned having determined that after a consideration of the record that the proposed findings of fact, proposed conclusions of law, and recommendations of the examiner should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is therefore ordered, That the proposed findings of fact and proposed conclusions of law of examiner be, and the same are hereby approved and adopted as a findings of fact and conclusions of law of the undersigned;

And it is further ordered, That pursuant to section 5 (b) of the Act, the code membership of Oscar Vaal, also known as Oscar B. Vaal, operating the Vaal Mine, Mine Index No. 622, located in Harrison Township, Spencer County, Indiana, District No. 11 be, and it hereby is revoked and cancelled effective fifteen (15) days from the date hereof; and

And it is further ordered, That prior to any reinstatement of Oscar Vaal, also known as Oscar B. Vaal, to membership in the Code, he shall pay to the United States a tax in the amount of $52.25 as provided in section 5 (c) of the Bituminous Coal Act of 1937.

FEDERAL TRADE COMMISSION.

[Docket No. 4841]

VAN CAMP SEA FOOD COMPANY, INC.

COMPLAINT AND NOTICE OF HEARING

The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of section 2 of the Clayton Act (U. S. C. Title 15, sec. 13), as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent Van Camp Sea Food Company, Inc., is a corporation, organized under and existing by virtue of the laws of the State of California with its principal office and place of business located on Terminal Island, California.

PAR. 2. Respondent is now and has been since June 19, 1936, engaged in the business of packing, offering for sale, selling and distributing certain types of canned fish including tuna which constitutes the major part of respondent's business.

In the course and conduct of its said business, respondent sells and distributes the aforesaid products, in commerce, to purchasers thereof located in the various states of the United States, and causes said products, when sold, to be shipped and transported, by rail and boat, from its places of business in the State of California to the purchasers thereof who are located in the various states of the United States other than the state of origin of shipments. There is, and has been, at all times mentioned herein, a constant current of trade and commerce in said products, between respondent, located in the State of California, and its customers located in the various other states of the United States. Said products are sold and distributed principally to wholesale grocery dealers, super markets and chain stores for use and resale within and throughout the United States.

PAR. 3. In the course and conduct of its business, as aforesaid, respondent has been, and is now, engaged in substantial competition, in commerce, with other packers, sellers and distributors of tuna fish, who for many years prior hereto, have been and are now engaged in packing, selling and distributing such products, in commerce, across state lines, to purchasers thereof located in the various states of the United States. Many of respondent's customers are competitively engaged with each other and with the customers of respondent's competitors in the purchase and resale of such products within the several trade areas, in which respondent's said customers respectively offer for sale and sell products purchased from the respondent.

PAR. 4. There are approximately eleven individuals, firms or corporations, including the respondent, all located in the State of California, who pack, distribute and sell practically all the domestic canned tuna and canned tuna products in the United States. The total annual sales value of canned tuna and tuna products in the United States amount to several millions of dollars. The business, of the respondent, in packing, distributing, and selling such products, constitutes approximately 50% of the total of such business in the United States.

PAR. 5. The respondent packs, distributes and sells different grades of tuna under designated brands and labels. Respondent's "Chicken of the Sea Select Blue Label Tuna" is the product chiefly involved in these proceedings.

PAR. 6. The Kroger Grocery and Baking Company and its subsidiaries operate in excess of 4,000 retail grocery stores in approximately 1,514 cities located in approximately eighteen states of the United States. The Kroger Grocery and Baking Company is one of the largest retail distributors of tuna and tuna products in the United States and it purchases from the respondent approximately 90% of such products, which it distributes.

PAR. 7. In the course and conduct of its business, as hereinabove described, since June 19, 1936, respondent has been and is now discriminating in price between different purchasers of its products of like grade and quality by selling such products to some of its customers at lower prices than it sells products of like grade and quality to other of its customers, many of whom are competitively engaged, one with the other, in the resale of such products within the United States.

Specifically, among such discriminations, the respondent has sold its Chicken of the Sea Select Blue Label Tuna to The Kroger Grocery and Baking Company and its subsidiaries at a price, per case, substantially lower than the price, per case, which respondent has granted and allowed to other purchasers of such products, of like grade and quality, some of which other purchasers are engaged competitively with The Kroger Grocery and Baking Company and its subsidiaries in the resale of such products.

Illustrations of the aforesaid discriminations in price are as follows:

(a) On January 23, 1937, respondent contracted to sell to The Kroger Grocery and Baking Company, 70,105 cases of tuna, as ordered to December 1, 1937, at a delivered price of $5.50 per case; (the case referred to herein consists of 48 one-half pound tins). On February 4, 1937, respondent increased, to the general trade, the case price of such product to $5.50 f. o. b. Terminal Island, California, which would make a delivered price of $5.75 per case in the territory where the Kroger company and many of its competitors do business. (For convenience respondent considers 25¢ as the approximate cost of shipping, i. e., when sales are made on a delivered price basis, the price is 25¢ per case higher than the price f. o. b. plant). When the Kroger company had purchased only 24,000 cases under said contract and when said contract had seven months yet to run, the respondent entered into a new contract with the Kroger company on May 6, 1937, to remain in effect until May 1, 1938. The latter contract provided for the purchase, by the Kroger company, of 69,396 cases of tuna at a delivered price (ex-warehouse) of $5.50 per case. During the months of March, April, May, June and July, 1937, the respondent contracted to sell and sold tuna, of a like grade and quality as above, to other purchasers, including competitors of the Kroger company, at prices of $5.50 per case, f. o. b. Terminal Island (i. e. $5.75 delivered), $5.75 f. o. b. Terminal Island (i. e. $6.00 delivered), and $6.00 f. o. b. Terminal Island (i. e. $6.25 delivered).

(b) The aforementioned contract, entered into on May 6, 1937, expired by its expressed terms on May 1, 1938. At said expiration date, there were several thousand cases of tuna, of the amount set forth in said contract, which had not been purchased by the Kroger company. For a period of over four months, to-wit, from May 1938 to September 1938, the respondent continued to allow the Kroger company to purchase tuna at a delivered price of $5.50 per case, the price set forth in said expired contract. During the said period of over four months, the respondent sold tuna of like grade and quality, to competitors of the Kroger company at prices from 50¢ to 75¢ per case higher than the price granted to the Kroger company.

(c) On several occasions during the year 1938, the Kroger company sold Chicken of the Sea Select Blue Label Tuna, through its retail stores to the consuming public, at a price of two one-half pound cans for 25¢, or computed on a case basis, at $6.00 per case. At the same time the price, per case, for tuna, of like grade and quality, charged by respondent to wholesalers, was either $6.00 to $6.25 per case. On September 8, 1938, the Kroger company advertised, in Cincinnati, Ohio, Chicken of the Sea, two one-half pound cans for 25¢. On September 1 and September 9, 1938, a competitor of the Kroger company in Cincinnati, Ohio, purchased tuna, of like grade and quality from respondent, at $6.25 per case f. o. b. Cincinnati. The wholesale price to the Kroger company's competitor was 25¢ a case more than the retail price charged by the Kroger company to the consuming public.

PAR. 8. The effect of the aforesaid discrimination in price among such customers may be, has been and is substantially to lessen competition and tend to create a monopoly in said line of commerce and to injure, destroy and prevent competition between respondent and its competitors and among the customers of respondent.

PAR. 9. In the course and conduct of its business, as aforesaid, and contrary to the provisions of subsection (e) of said section 2 of the Clayton Act (U. S. C. Title 15, sec. 13), as amended by the Robinson-Patman Act, respondent is now and since June 19, 1936, has been discriminating in favor of certain of its customers against other of its customers by contracting to furnish and by furnishing to the former certain services or facilities in connection with the sale, or offering for sale, of their products so purchased by them upon terms not accorded to all their customers on proportionally equal terms.

Illustrations of the aforesaid discrimination in services or facilities are as follows:

(a) Respondent maintains consigned stocks of tuna in warehouses strategically located in several cities throughout the United States from which warehouses purchasers of less than carload quantities are supplied. When consigned stocks are held in such warehouses one month the price of the tuna is increased 5¢ per case; when such stocks are so held longer than one month, the said price is increased 10¢ a case. When the Kroger Grocery and Baking Company or its subsidiaries were supplied from any such consigned stocks, the invoicing and billing are handled, not by the regular agents and representatives of the respondent, but exclusively by the executive officials of the respondent and all such storage charges were omitted; whereas payment of such storage charges is required from competitors of the Kroger company.

(b) When the Kroger company or its subsidiaries receive tuna from the consigned stocks, as described above, the Kroger company is permitted by respondent to remit once each month for such goods; whereas competitors of the Kroger company are required by the respondent to pay for such goods at the time of delivery.

PAR. 10. The foregoing alleged acts and practices of said respondent, as set forth in Paragraphs Seven and Nine, respectively, constitute violations of subsections 2 (a) and 2 (e) of Section 2 of the said Act of Congress approved October 15, 1941, as amended by said Act of Congress approved June 19, 1936.

Wherefore, the premises considered, the Federal Trade Commission on this 28th day of September, A. D. 1942, issues its complaint against said respondent.

Notice

Notice is hereby given you, Van Camp Sea Food Company, Inc., a corporation, respondent herein, that the 6th day of November, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 28th day of September, A. D. 1942.

By the Commission.

North American Light & Power Company Holding-Company System and The North American Company

ORDER DISMISSING APPLICATION TO INTERVENE AND FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of September, A. D. 1942.

The Commission on December 30, 1941 having entered an order pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 (Holding Company Act Release No. 3233) directing that North American Light & Power Company shall be liquidated and its existence terminated and further directing that said company and The North American Company shall proceed with due diligence to submit to this Commission a plan or plans for the prompt liquidation of North American Light & Power Company in a manner consistent with the provisions of the said Act; and the Commission having reserved jurisdiction to enter such further order or orders after hearing on appropriate notice as may be necessary or appropriate for the purpose of ensuring that the liquidation of North American Light & Power Company is accomplished expeditiously and in a manner that is consistent with the provisions of the said Act; and

An application having been filed herein by the respondent, Illinois Iowa Power Company, a registered holding company and a subsidiary of Illinois Traction Company, North American Light & Power Company, and The North American Company, registered holding companies and respondents herein, wherein the said Illinois Iowa Power Company requests an order permitting it to intervene in the above entitled proceeding in order to participate as a party and to proffer evidence and testimony relating to an alleged claim which Illinois Iowa Power Company has against North American Light & Power Company and Illinois Traction Company resulting from the following transactions occurring while Illinois Traction Company and Illinois Iowa Power Company were under the control of North American Light & Power Company:

(a) The sale during 1932 of the securities of Central Terminal Company, a Missouri corporation, by North American Light & Power Company to Illinois Iowa Power Company, at a price which Illinois Iowa Power Company alleges was in excess of the real value thereof;

(b) The payment to Illinois Traction Company of cash dividends by Illinois Iowa Power Company during the years 1930, 1931, and 1932; such dividends appearing to Illinois Iowa Power Company to have been paid out of capital; cash dividends paid in other years by Illinois Iowa Power Company to Illinois Traction Company likewise appearing to Illinois Iowa Power Company to have been paid out of capital;

(c) Other transactions which are believed by Illinois Power Company not to have been in its interest but rather to its damage; and

The Commission having considered said application and the affidavit and supplemental affidavit of Allen Van Wyck, president of Illinois Iowa Power Company, in support thereof; and

It appearing to the Commission that Illinois Iowa Power Company has heretofore been made a party respondent in the order instituting these proceedings (Holding Company Act Release No. 3168) and that it is unnecessary to pass on the application of Illinois Iowa Power Company for leave to intervene; and

It appearing to the Commission that it is necessary to determine the nature, validity and extent of the alleged claim of Illinois Iowa Power Company against North American Light & Power Company and Illinois Traction Company in order to bring about compliance with the Commission's aforesaid order of December 30, 1941 and to permit the formulation and effectuation of a plan or plans of liquidation which will be fair and equitable to all creditors and security holders of North American Light & Power Company; and

It further appearing to the Commission that Illinois Iowa Power Company should file with this Commission a verified and detailed statement alleging the nature and extent of its claim and the relief requested with sufficient particularity to enable North American Light & Power Company to admit or deny each allegation material to the establishing of the aforesaid claim; and

It further appearing to the Commission that it is necessary and appropriate in the public interest and in the interest of investors and consumers that a hearing be held herein for the purpose of ascertaining the nature, validity and extent of any claim of Illinois Iowa Power Company against North American Light & Power Company and/or Illinois Traction Company;

It is ordered, That the application of Illinois Iowa Power Company for leave to intervene be and the same hereby is dismissed.

It is further ordered, That the application of Illinois Iowa Power Company for leave to assert a claim against North American Light & Power Company and Illinois Traction Company and to proffer evidence and testimony in support thereof is granted insofar as such evidence or testimony is relevant for that purpose.

It is further ordered, That Illinois Iowa Power Company file herein within ten days from the date hereof a verified detailed statement sufficiently particularized so as to apprize North American Light & Power Company and Illinois Traction Company as to the nature and extent of its claim and the relief requested.

It is further ordered, That Illinois Iowa Power Company serve copies of said statement upon North American Light & Power Company and Illinois Traction Company and that proof of such service be filed with the Commission at the time of filing said statement.

It is further ordered, That North American Light & Power Company and Illinois Traction Company file herein within twenty days after service of the statement of Illinois Iowa Power Company upon said companies, an answer or answers either admitting or denying each material allegation contained in said statement and asserting any additional matters by way of defense or counter-claim.

It is further ordered, That a hearing for the purpose of determining the nature, validity and extent of the claim of Illinois Iowa Power Company against North American Light & Power Company and Illinois Traction Company be held at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, on the 16th day of November, 1942 at 10:00 A. M., E. W. T., in such room as may be designated on such day by the hearing room clerk in Room 318.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to North American Light & Power Company, The North American Company, Illinois Traction Company, Illinois Iowa Power Company, Des Moines Electric Light Company, Iowa Power and Light Company, Central Terminal Company, Illinois Terminal Railroad Company, The Kansas Power and Light Company, Missouri Power & Light Company, the security holders thereof, the creditors thereof, City National Bank & Trust Company of Chicago, successor Trustee under the Debenture Agreement dated July 1, 1926, and to all other persons whose participation in such proceeding may be in the public interest or for the protection of investors or consumers; and such notice shall be given further by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and notice shall be given further to all persons by publication of this order in the FEDERAL REGISTER not later than twenty days prior to the date hereinbefore fixed as the date of the hearing.

By the Commission.

NORTHEASTERN WATER AND ELECTRIC CORP., ET AL.

ORDER GRANTING EXTENSION OF TIME

In the matter of Northeastern Water and Electric Corporation, Denis J. Driscoll and Willard L. Thorp, as trustees of Associated Gas and Electric Corporation, Applicants-Declarants.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of September 1942.

Northeastern Water and Electric Corporation, a registered holding company, and Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, also a registered holding company, having filed applications and declarations pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9 (a), 10, 12 (d) and 12 (f) thereof, and Rules U-9, U-43 and U-44 of the General Rules and Regulations thereunder, with respect to the following transactions:

1. The sale by Northeastern Water and Electric Corporation and the acquisition by the Trustees of Associated Gas and Electric Corporation of all of the securities of General Utilities Company, The Ohio Northern Public Service Company, Western Reserve Power and Light Company, and New London Power Company, all incorporated under the laws of, and operating in, the state of Ohio, such securities to be acquired for a consideration of $1,500,000.

2. The sale by the Trustees of Associated Gas and Electric Corporation of 155,747 shares of the common stock of Northeastern Water and Electric Corporation, to John H. Ware, Jr. and Penn-Jersey Water Company.

The Commission having previously entered its order herein on March 3, 1942, which order permitted the declarations to become effective and granted the applications herein, and which order approved a plan pursuant to Section 11 (e) of the Public Utility Holding Company Act of 1935 and directed the taking of steps to carry out such plan; and

The Commission having entered a supplemental order herein on March 19, 1942, approving said plan and directing Northeastern Water and Electric Corporation to sell to Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, on or before July 1, 1942, and directing said Trustees to acquire from said Northeastern Water and Electric Corporation on or before July 1, 1942, all of the securities of General Utilities Company, The Ohio Northern Public Service Company, and Western Reserve Power and Light Company (the last mentioned company in turn owning all of the securities of New London Power Company), all of said four last named companies being incorporated under the laws of, and operating in, the State of Ohio; and

The Commission having entered an order herein on July 30, 1942, modifying the orders of March 3, 1942, and March 19, 1942, to the extent necessary to extend the time within which such transactions may be consummated to September 30, 1942; and

Applicants-declarants having requested a further extension of time within which to comply with the said orders of the Commission to December 15, 1942, and it appearing appropriate to the Commission that such request be granted;

It is ordered, That the said orders of March 3, 1942, and March 19, 1942, be and hereby are modified to the extent necessary to extend the time within which such transactions may be consummated to December 15, 1942, and that Northeastern Water and Electric Corporation and Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, be and hereby are directed on or before December 15, 1942, to carry out the sale and acquisition specified in the said order dated March 19, 1942.

It is further ordered, That nothing herein contained shall modify or affect any provisions of the Commission's orders of March 3, 1942, and March 19, 1942, not within the subject of this order.

By the Commission.

UNITED LIGHT AND POWER CO., ET AL.

SUPPLEMENTAL ORDER, APPLICATION NO. 12

In the matter of the United Light and Power Company, the United Light and Railways Company, Continental Gas & Electric Corporation, Columbus and Southern Ohio Electric Company and Point Pleasant Water & Light Company.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of September 1942.

The Commission having issued its order on July 22, 1942, granting applications and permitting declarations of Point Pleasant Water & Light Company, Columbus and Southern Ohio Electric Company, Continental Gas & Electric Corporation, the United Light and Railways Company and the United Light and Power Company to become effective with respect to the transactions necessary to effect a sale of the assets of Point Pleasant Water & Light Company to Appalachian Electric Power Company and the subsequent liquidation and dissolution of Point Pleasant Water & Light Company; and

The aforenamed applicants and declarants having requested an extension of time until January 31, 1943, or such other date as may appear appropriate, within which to carry out certain remaining transactions incidental to said liquidation and dissolution, the sale of the assets to Appalachian Electric Power Company having heretofore been consummated; and

It appearing appropriate in the public interest and in the interest of investors and consumers to grant an extension of time within which to accomplish complete compliance with the order of July 22, 1942,

It is ordered, That Point Pleasant Water & Light Company, Columbus and Southern Ohio Electric Company, Continental Gas & Electric Corporation, the United Light and Railways Company and the United Light and Power Company be and hereby are granted an extension of time until December 31, 1942, to effect and execute the remaining transactions incidental to the complete liquidation and dissolution of Point Pleasant Water & Light Company.

By the Commission.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1606]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 13 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13.

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R-I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R-II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R-III, § 333.24 (*General prices*) is amended by adding thereto Supplement R-IV, § 333.25 (*Special prices—(b) Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement V, § 333.27 (*Prices for shipment by river (free alongside) for all uses (except for railway locomotive fuel) for delivery via the Tennessee River to f. a. s. consumers in the State of Tennessee and Alabama*) is amended by adding thereto Supplement R-VI, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T-I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T-II and T-III, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be

No relief is granted herein as to the coals of the #55 Mine (Mine Index No. 1863) of Verdell Davis for truck shipment since such relief has previously been granted the coals of this mine in Dockets Nos. A-171 and A-205 when it was operated by Poe & Davis.

No relief is granted herein for the coals of the Duncan & Glenn Mine of Duncan & Glenn for the reason that records of the Division indicate that no code acceptance has been received for these producers.

The original petition proposed relief for the coals of the Sharit & Robbins Mine of Sharit & Robins. Records of the Division indicate that the proper name of this mine is the Beth Mine and that it is operated by Robbins & Sharritt (Willard Sharritt). Accordingly, relief has been granted for the coals of this mine under the latter designation.

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER CORRECTING SCHEDULE, ETC.

Order correcting schedule annexed to order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board 3 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 3.

On July 31, 1942, 7 F.R. 6242, an order granting temporary relief and conditionally providing for final relief was issued in this matter.

It appears that § 323.6 (*Alphabetical list of code members*) Supplement R–IV annexed to and made a part of this order designates Mine Index No. 762 as the "Talbert (Bolair)" Mine of code member "Talbert, W. A." The correct name of this mine is "Bolair," and the correct name of the operator is "Russell Talbert."

Now, therefore, it is ordered, That § 323.6 (*Alphabetical list of code members*) to the said order of July 31, 1942, be amended by deleting therefrom, with reference to Mine Index No. 762, the mine name of "Talbert (Bolair)" and the operator's name of "Talbert, W. A." and by substituting in lieu thereof the mine name "Bolair" and the operator's name of "Russell Talbert."

It is further ordered, That in all other respects said order of July 31, 1942, be, and it hereby is, continued in full force and effect.

Dated: September 30, 1942.

[SEAL] DAN H. WHEELER,
Director.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 9, as Amended October 1, 1942]

EXPORT RATINGS ASSIGNED ON FORM PD–311 OR OTHER PRESCRIBED FORMS

Section 944.30 *Priorities Regulation 9*,[1] is hereby amended to read as follows:

§ 944.30 *Priorities Regulation 9*—(a) *Forms for export; scope of regulation.* Preference Ratings for export may hereafter be assigned on Form PD–311 pursuant to application on such Form filed by or in the name of the person desiring the export of the material involved. Such person is hereinafter referred to as the applicant, which term shall also include any agency authorized to place purchase orders for such person. This regulation shall be applicable to ratings assigned on such form or any other form prescribed exclusively for exports which by its terms is expressly subject to this regulation.

(b) *Application and extension of ratings.* (1) One copy of Form PD–311 will be returned to the applicant indicating the ratings assigned to deliveries of materials specified thereon. Such ratings shall be applied and extended only in the manner provided in (2) and (3) below.

(2) The applicant, in order to apply a preference rating assigned pursuant to the provisions of this regulation, must have received an export license, a statement of export clearance, or a statement of authority to export (or a copy thereof if authorized by the issuing agency) and must endorse on, or attach to, each contract or purchase order placed by him to which such a rating is to be applied, a certification in the following form signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he has received an export license, a statement of export clearance, or a statement of authority to export, that he is entitled to apply the preference ratings indicated opposite the items shown in this purchase order, and that such application is in accordance with Priorities Regulation No. 9, as amended, with the terms of which the undersigned is familiar.

---------------------- ----------------
(Name of purchaser) (Address)
By ------------------ ----------------
(Signature and title of duly authorized officer) (Date)

The person receiving the certification and rating shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Each person applying ratings must maintain at his regular place of business all documents, including purchase orders and preference rating orders and certificates, upon which he relies as entitling him to apply such ratings, segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection.

(3) A supplier with whom a purchase order or contract has been placed for a delivery to the applicant, to which purchase order or contract the rating has been applied as provided in (2) above, may extend such rating to his suppliers and they may in turn extend such rating to their suppliers only in conformity with the applicable provisions of Priorities Regulations Nos. 3 and 11, as such regulations may be amended from time to time.

(c) *Effect of revocation.* If the export license, statement of export clearance or statement of authority to export any material is revoked, any preference rating subject to this regulation which has been assigned to the delivery of material shall be automatically cancelled, as regards delivery to the applicant; and no delivery of such material shall be made to or received by the applicant. As regards each supplier of the applicant or of another supplier, who has extended such rating, it shall likewise be automatically cancelled, and each such supplier shall promptly notify his suppliers of such cancellation: *Provided, however*, That if, in the opinion of any supplier, cancellation of the rating would seriously interfere with any program of war work, he may make application in writing to the Director General for Operations, Washington, D. C., Att: Office of Petroleum Coordinator for War, requesting continuation of the rating. The Director General for Operations may thereupon grant such relief as he may deem appropriate.

This amendment shall take effect immediately.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–91]

REPUBLIC METALS AND ROOFING MATERIALS, INC.

Republic Metals and Roofing Materials, Inc., Chicago, Illinois, is a steel warehouse as defined in Supplementary Order M–21–b and is subject to the provisions of that order. During the calendar quarter beginning January 1, 1942 and ending March 31, 1942, the Company accepted from its producer or producers deliveries of 44.5 tons of Schedule A Steel Products which was 18.2 tons in excess of the quota established for the company by the War Production Board. The acceptance of excessive deliveries of Schedule A Steel Products constituted a violation of Supplementary Order M–21–b, which has hampered and impeded the war effort of the United States by diverting scarce materials to uses prohibited by the War Production Board. In view of the foregoing,

It is hereby ordered, That:

§ 1010.91 *Suspension order S–91.* (a) During the calendar quarter beginning October 1, 1942 and ending December 31, 1942, no quota of Schedule A Steel Products shall be established for Republic Metals and Roofing Materials, Inc., its successors and assigns, under the provisions of Supplementary Order M–21–b, as amended, and Republic Metals and Roofing Materials, Inc., its successors and assigns, shall not accept deliveries of any Schedule A Steel Products, unless specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Republic Metals and Roofing Materials, Inc., its successors and assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the Director General for Operations except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on October 1, 1942, and shall expire on December 31, 1942, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–92]

HALITOSINE CO.

Halitosine Company, Saint Louis, Missouri, is a corporation engaged in the manufacture of mouthwashes, rubbing alcohol and similar products. During the second quarter of 1942 the company, under the restrictions of General Preference Order M–30, was permitted to accept delivery of only 2270.73 gallons of ethyl alcohol for use in the manufacture of mouth washes. Despite this limitation, the company accepted delivery of 4163 gallons of ethyl alcohol for that purpose or 1892.27 gallons more than it was permitted to receive. This constituted a violation of General Preference Order M–30.

During the first quarter of 1942 the company, under the restrictions of General Preference Order M–30, was permitted to accept delivery of a maximum of 4622.00 gallons of isopropyl alcohol for use in the manufacture of rubbing alcohol. Despite this limitation, the company accepted delivery of 6416 gallons of isopropyl alcohol to be used for this purpose or at least 1794.0 gallons more than it was permitted to receive. This constituted a violation of General Preference Order M–30. At the time the company accepted delivery of these excessive amounts of alcohol it had full knowledge of the existence and terms of General Preference Order M–30 and acted in reckless disregard of the terms of that order.

These violations of General Preference Order M–30 have hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing facts,

It is hereby ordered, That:

§ 1010.92 *Suspension Order S–92.* (a) During the calendar quarter commencing October 1, 1942, and ending December 31, 1942, the amounts of ethyl alcohol and of isopropyl alcohol which Halitosine Company, Saint Louis, Missouri, its successors and assigns, would otherwise be entitled to receive under the provisions of General Preference Order M–30 shall be reduced by the amounts by which its receipts of ethyl alcohol and of isopropyl alcohol as aforesaid exceeded the amounts which it was permitted to receive and shall be further reduced by 50 per cent of the amounts by which the deliveries to it exceeded the amounts it was permitted to receive. During the calendar quarter commencing October 1, 1942, and ending December 31, 1942, Halitosine Company, its successors and assigns, shall not accept delivery of more ethyl alcohol than the amount it would otherwise be permitted to receive under the provisions of General Preference Order M–30, reduced by 2838.40 gallons and shall not accept delivery of more isopropyl alcohol than the amount it would otherwise be entitled to receive under General Preference Order M–30, reduced by 2691 gallons.

(b) Nothing contained in this order shall be deemed to relieve Halitosine Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect October 1, 1942, and shall expire on December 31, 1942, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–94]

STANDARD ELECTRIC SALES CO.

Standard Electric Sales Company, Rochester, New York, is engaged in the sale of electrical supplies, including copper products. The company maintains stocks of such products and is a warehouse as defined in General Preference Order M–9–a. This order, as amended May 7, 1942, prohibits a warehouse from delivering copper products except to fill purchase orders bearing a preference rating of A–1–k or higher. Despite the fact that the company was familiar with these restrictions, during the period from May 9 to June 24, 1942, it delivered substantial amounts of copper wire to fill unrated orders and orders bearing preference ratings lower than A–1–k.

These deliveries constituted violations of General Preference Order M–9–a which have hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing,

It is hereby ordered, That:

§ 1010.94 *Suspension Order S–94* (a) Deliveries of material to Standard Electric Sales Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to Standard Electric Sales Company, its successors and assigns, by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to Standard Electric Sales Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve Standard Electric Sales Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect October 3, 1942, and shall expire on January 3, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of October 1942.

Director General for Operations.

Part 1010—Suspension Orders

[Suspension Order S-104]

ATHOS STEEL SERVICE

Athos Steel Service, Philadelphia, Pennsylvania, is a steel warehouse as defined in Supplementary Order M-21-b and is subject to the provisions of that order. During the calendar quarter beginning January 1, 1942 and ending March 31, 1942, the company accepted from its producer or producers, deliveries of 384.7 tons of Schedule A steel products which was 101.9 tons in excess of the quota established for the company by the War Production Board. The acceptance of excessive deliveries of Schedule A steel products constituted a violation of Supplementary Order M-21-b, which has hampered and impeded the war effort of the United States by diverting scarce materials to uses prohibited by the War Production Board. In view of the foregoing,

It is hereby ordered, That:

§ 1010.104 *Suspension Order S-104.* (a) During the calendar quarter beginning October 1, 1942 and ending December 31, 1942, the quota of Schedule A steel products which Athos Steel Service, Philadelphia, Pennsylvania, would be entitled to receive under the provisions of Supplementary Order M-21-b, as amended, shall be reduced by the amount which the company accepted in the first quarter of 1942 in excess of the quota assigned, and shall be further reduced by 50 percent of the amount by which the company exceeded its quota, or a total reduction of 152.85 tons, and Athos Steel Service, its successors and assigns, shall not accept deliveries of more than 134.15 tons of Schedule A steel products unless specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Athos Steel Service, its successors and assigns, from any restrictions or provisions contained in any other order or regulation of the Director General for Operations, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on October 1, 1942, and shall expire on December 31, 1942, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 1st day of October 1942.

Part 1041—Production, Transportation, Refining, and Marketing of Petroleum

[Preference Rating Order P-98-d]

§ 1041.5 *Preference Rating Order P-98-d.* For the purpose of facilitating the acquisition of material for the production, transportation, refining and marketing of petroleum outside of the United States, its territories and possessions, and the Dominion of Canada, preference ratings may be assigned to deliveries of material upon the terms hereinafter set forth:

(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to, natural gas.

(3) "Petroleum enterprise" means any facility used in the production, refining, transportation, or marketing of petroleum.

(4) "Operator" means any person to the extent that he is engaged in operating a petroleum enterprise outside of the United States, its territories and possessions, and the Dominion of Canada.

(b) *Preference ratings for foreign petroleum enterprises.* No operator shall apply any preference rating to the delivery of material for any operation to which a preference rating may be assigned upon Form PD-311 or any form in the PD-311 series, unless the preference rating is actually assigned by such a form, or has been assigned by such a form and rerated pursuant to Priorities Regulation No. 12, as amended from time to time.

(c) *Extension and use of the "Foreign Petroleum Industry Material Rating Plan".* (1) Notwithstanding the provisions of Forms PD-311 and PD-311-c (Foreign Petroleum Industry Material Rating Plan) and the instructions applicable thereto, any preference rating assigned on such a form shall continue in effect until January 1, 1943, unless sooner revoked by the Director General for Operations.

(2) Preference ratings may be requested on Form PD-311 or Form PD-311-c until November 1, 1942, for material required in the fourth calendar-quarter of 1942.

(d) *Applicability of priorities regulations.* This order is issued pursuant to Priorities Regulation No. 9, as amended from time to time. This order and all transactions affected thereby are subject to the applicable provisions of any priorities regulation issued by the War Production Board, as amended from time to time.

(e) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: Office of Petroleum Coordinator, South Interior Building, Washington, D. C., Ref: P-98-d.

(f) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

Part 1075—Construction

[Supplementary Conservation Order L-41-b, as Amended October 2, 1942]

Supplementary Conservation Order No. L-41-b is hereby amended to read as follows:

§ 1075.3 *Supplementary Conservation Order No. L-41-b.* (a) Conservation Order L-41, as amended, shall not apply to construction begun prior to January 1, 1943, which is necessary to the conversion or substitution of heating equipment to permit the use of fuel other than oil, electricity, natural gas, manufactured gas, or mixed natural and manufactured gas.

(b) Conservation Order L-41, as amended, shall not apply to construction begun prior to January 1, 1943, which is necessary to the installation or application in buildings, structures or projects of the following materials and equipment: Insulation materials, air cell pipe coverings, weather-stripping, storm windows and doors: *Provided, however,* That no rubber, cork, or metal (other than

fastenings), shall be used in such installation or application.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Part 1099—Beds, Springs and Mattresses

[Interpretation 1 to General Limitation Order L-49, as Amended August 4, 1942]

The following official interpretation is hereby issued by the Director General for Operations with respect to paragraph (d) (3), as amended September 19, 1942, of § 1099.1, *General Limitation Order L-49,* as amended August 4, 1942:[1]

Paragraph (d) (3), as amended September 19, 1942, provides that "On and after November 1, 1942, no manufacturer shall process, fabricate, work on or assemble any studio couch, sofa bed or lounge designed for dual sleeping and seating purposes which contains any iron or steel other than joining hardware, except that manufacturers may, after November 1, 1942, process, fabricate, work on or assemble final fabric covers on any such studio couch, sofa bed or lounge, provided that any such studio couch, sofa bed or lounge has otherwise been completely processed, fabricated, worked on or assembled prior to November 1, 1942."

This language is to be strictly construed. No operation other than the putting on of final fabric covers is permitted on and after November 1, 1942. Studio couches, sofa beds or lounges which are merely "sprung up" may not be padded or worked on in any way other than the assembly of final fabric covers. In connection with the assembly of final fabric covers, any work which is absolutely essential to such assembly is permitted. The assembly of hinges, decorative molding, nails, and similar items, after the final fabric cover is placed upon the studio couch, sofa bed or lounge, is also permitted.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 2d day of October 1942.

Part 1125—Caskets, Shipping Cases and Burial Vaults

[Supplementary Limitation Order L-64-a]

In accordance with the provisions of § 1125.1 *General Limitation Order L-64* which the following order supplements:

§ 1125.2 *Supplementary General Limitation Order L-64-a*—(a) *Prohibition of all transactions in iron and steel caskets from the effective date of this order.* From the effective date of this order, no manufacturer shall sell, lease, trade, lend, ship, deliver or transfer to any other person any casket (whether produced before or after the effective date of this order) which contains more than 25% of iron and steel in the total net weight thereof, and with inside measurements of 74¾ inches or more in length, 22¾ to 23¼ inches, inclusive, in width, and 16¾ to 19¼ inches, inclusive, in depth, whether or not it can provide hermetic sealing, except

(1) Caskets which permit half or full length display of a body of the types known as half couch caskets, drop side caskets, full couch caskets, and hinged top caskets, or

(2) To the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, or the Panama Canal, or

(3) Pursuant to the specific authorization of the Director General for Operations.

(b) *Records and reports.* (1) Any manufacturer who has, on the effective date of this order, any caskets which are affected by this order shall keep and preserve, for not less than two years, accurate and complete records of all such caskets and of all sales and shipments made pursuant to this order. Such records shall be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(2) On or before the 15th day of the month following the effective date of this order, any manufacturer who on the effective date of this order, had any caskets which were affected by this order, shall file with the War Production Board a statement of the number and type of such caskets in stock on the effective date of this order on Form PD-590.

(c) *Applications for specific authorization of the Director General for Operations.* Any manufacturer affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may apply in writing to the Director General for Operations, War Production Board, Washington, D. C., Ref.: L-64-a, fully setting forth the reasons why such manufacturer deems it appropriate that he obtain relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(d) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C., Ref: L-64-a".

(e) *Effective date.* This order shall take effect October 2, 1942, at 12:01 a. m. Eastern War Time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Part 1142—Dry Cell Batteries and Portable Lights Operated by Dry Cell Batteries

[General Limitation Order L-71, as Amended October 2, 1942]

1. Part 1142—Flashlight Cases and Flashlight Batteries, is hereby amended to read Part—1142 Dry Cell Batteries and Portable Lights Operated by Dry Cell Batteries.

2. General Limitation Order L-71 (§ 1142.1) is hereby amended to read as follows:

§ 1142.1 *General Limitation Order L-71*—(a) *Definitions.* For the purposes of this order:

(1) "Dry cell battery" means any primary cell or assembly of cells in which the electrolyte is nonspillable and in which electric current is produced by electrochemical action.

(2) "Flashlight battery" means any dry cell battery designated as "D", "C", "BB", or "AA" in Table 4 of Circular C435 of the National Bureau of Standards, issued February 18, 1942, when such battery is produced for use in a flashlight.

(3) "Railroad lantern battery" means any dry cell battery designated as "4F" in Table 4 of Circular C435 of the National Bureau of Standards, issued February 18, 1942.

(4) "Radio battery" means any dry cell battery designed and produced primarily for use with a radio set.

(5) "Hearing aid battery" means any dry cell battery designed and produced primarily for use in any hearing aid device for personal use.

(6) "Other dry cell battery" means any dry cell battery not included in subparagraphs (2), (3), (4) or (5) of this paragraph (a).

(7) "Flashlight" means any portable electric light operated by one or more flashlight batteries or a miniature dynamo.

(8) "Electric railroad lantern" means any portable electric light operated by a railroad lantern battery.

(9) "Other portable electric light" means any portable electric light operated by one or more dry cell batteries

---

[1] 7 F.R. 6044, 7431.

which is not included in subparagraphs (7) or (8) of this paragraph (a).

(10) The terms "flashlight," "electric railroad lantern," and "other portable electric light" shall not include any dry cell battery or lamp or bulb.

(11) "Manufacturer" means any person who manufactures or assembles any flashlight, electric railroad lantern or other portable electric light or any dry cell battery or container for holding assemblies of such batteries.

(12) "Class A manufacturer" means any one of the following manufacturers:

General Dry Batteries, Inc. of Cleveland, Ohio,
National Carbon Company, Inc. of New York, N. Y.,
Ray-O-Vac Company of Madison, Wisconsin,

(13) "Class B manufacturer" means any manufacturer of radio batteries not classified as a Class A manufacturer.

(14) "Class C manufacturer" means the following manufacturer:

National Carbon Company, Inc., of New York, N. Y.

(15) "Class D manufacturer" means any one of the following manufacturers:

Ray-O-Vac Company of Madison, Wisconsin,
United States Electric Manufacturing Corp., of New York, N. Y.,
Winchester Repeating Arms Company of New Haven, Connecticut.

(16) "Class E manufacturer" means any manufacturer of flashlight batteries not classified as a Class C or Class D manufacturer.

(17) "Class F manufacturer" means any one of the following manufacturers:

Bright Star Battery Company of Clifton, N. J.,
The Burgess Battery Company of Freeport, Illinois,
National Carbon Company, Inc., of New York, N. Y.,
Ray-O-Vac Company of Madison, Wisconsin,
United States Electric Manufacturing Corp. of New York, N. Y.,
Winchester Repeating Arms Company of New Haven, Connecticut.

(18) "Class G manufacturer" means any manufacturer of flashlights, electric railroad lanterns or other portable electric lights not classified as a Class F manufacturer.

(19) "Scarce material" means aluminum, crude rubber, chromium, cadmium, nickel, tin, copper or copper base alloy, zinc, iron or steel.

(20) "Transfer" means to sell, lease, trade, deliver, lend, ship or otherwise transfer.

(b) *Restrictions on use of materials.* (1) Except as provided in subparagraph (2) of this paragraph (b) and in paragraph (f), no manufacturer shall produce any dry cell battery, any container for holding assemblies of dry cell batteries, or any flashlight, railroad lantern or other portable electric light containing any scarce materials.

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph (b), any manufacturer may use in the production of flashlights, electric railroad lanterns, other portable electric lights or dry cell batteries the following materials, but only to the extent specifically permitted in this subparagraph (2) of paragraph (b):

(i) Without limit as to time, (*a*) tin contained in solder; (*b*) copper wire (of the minimum size required to provide proper operation) for electrical conductors in dry cell batteries and brass for plating any electrical contact; (*c*) zinc for plating and in die cast fittings, electrical contact fittings, dry cell battery shells and flashlight reflectors; and (*d*) iron and steel in any part of an electric railroad lantern or other portable electric light; in the following parts of flashlights and dry cell batteries: reflectors, electrical contact fittings, switches, eyelets, rivets, screws, end caps, springs, end ferrules, lens rings and battery carbon caps; and in grommets and ferrules for containers for holding assemblies of dry cell batteries; and

(ii) Up to and including October 31, 1942, (*a*) copper or copper base alloy in electrical contact fittings in the minimum quantities required to provide suitable electrical contact and practical operation, provided that such copper and copper base alloy was in his inventory on or before October 2, 1942; and (*b*) tinplate, terneplate or tinned copper wire in electrical contacts in dry cell batteries; and (*c*) iron and steel in battery outer jackets and battery top and bottom seals.

(c) *Restrictions on production of dry cell batteries.* Except as provided in subparagraph (f) (1) no manufacturer shall produce any radio batteries other than:

(i) Batteries containing cells designated as "D", "E", "F", "G" or "J" in Table 1 of Circular C435 of the National Bureau of Standards, issued February 18, 1942, with the modifications permitted in section 2.2 of that Circular, and

(ii) C Batteries of the types described in Table 8 of Circular C435 of the National Bureau of Standards, issued February 18, 1942,

except that he may complete the assembly into batteries of any cells which were completed on or before October 2, 1942.

(2) During the period from October 1, 1942 to December 31, 1942, inclusive,

(i) No Class A manufacturer shall produce radio batteries containing more cells than three times 30% of the average monthly number of cells contained in the radio batteries produced by him during the year 1940;

(ii) No Class B manufacturer shall produce radio batteries containing more cells than three times 100% of the average monthly number of cells contained in the radio batteries produced by him during the year 1940;

(iii) No Class C manufacturer shall produce flashlight batteries containing more cells than three times 33⅓% of the average monthly number of cells contained in the flashlight batteries produced by him during the year 1940;

(iv) No Class D manufacturer shall produce flashlight batteries containing more cells than three times 50% of the average monthly number of cells contained in the flashlight batteries produced by him during the year 1940;

(v) No Class E manufacturer shall produce flashlight batteries containing more cells than three times 80% of the average monthly number of cells contained in the flashlight batteries produced by him during the year 1940;

(vi) No manufacturer shall produce hearing aid batteries containing more cells than three times 150% of the average monthly number of cells contained in the hearing aid batteries produced by him during the year 1940;

(vii) No manufacturer shall produce railroad lantern batteries containing more cells than three times 130% of the average monthly number of cells contained in the railroad lantern batteries produced by him during the year 1940; and

(viii) No manufacturer shall produce other dry cell batteries containing more cells than three times 100% of the average monthly number of cells contained in the other dry cell batteries produced by him during the year 1940.

(d) *Restrictions on production of flashlights, electric railroad lanterns and other portable electric lights.* (1) Except as provided in paragraph (f), no Class F manufacturer shall produce:

(i) During the month of October, 1942, more (*a*) flashlights than 60% of the monthly average number of flashlights produced by him during the year 1940; (*b*) electric railroad lanterns than 100% of the average monthly number of electric railroad lanterns produced by him during the year 1940; or (*c*) other portable electric lights than 60% of the average monthly number of other portable electric lights produced by him during the year 1940; and

(ii) On and after November 1, 1942, any flashlight, electric railroad lantern or other portable electric light.

(2) Except as provided in paragraph (f), no Class G manufacturer shall produce during the period from October 1, 1942 to December 31, 1942, inclusive, more (i) flashlights than three times 60% of the monthly average number of flashlights produced by him during the year 1940; (ii) electric railroad lanterns than three times 100% of the monthly average number of electric railroad lanterns produced by him during the year 1940; or (iii) other portable electric lights than three times 60% of the average monthly number of other portable electric lights produced by him during the year 1940.

(e) *Restrictions on sales and deliveries.* Except as provided in paragraph (f), no manufacturer shall transfer any new flashlight, new electric railroad lantern or any new other portable electric light, except:

(1) In fulfillment of a purchase order or contract bearing a preference rating of A–10 or higher, or

(2) In fulfillment of any purchase order or contract placed with him by a dealer or wholesaler, accompanied by a certification (which shall constitute a representation to the manufacturer and to the War Production Board) in the following form:

> The flashlights (electric railroad lanterns, other portable electric lights) included in this order are required to replace in my inventory an equal number of flashlights (electric railroad lanterns, other portable electric lights) sold pursuant to purchase orders or contracts bearing preference ratings of A–10 or higher.

Company

By ------------------

(f) *Governmental exemptions.* The provisions of paragraphs (b), (c), (d) and (e) shall not apply to the production or transfer of any article in fulfillment of a specific purchase order, contract or subcontract for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration or to the government of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(g) *Provisions for companies under common ownership.* For the purposes of this order a Class A, B, C, D, E, F or G Manufacturer shall include all subsidiaries, affiliates or other companies or enterprises under common ownership or control.

(h) *Applicability of other orders.* On and after October 2, 1942, the provisions of Conservation Order No. M–11–b, limiting the use of zinc, shall no longer apply to manufacturers of dry cell batteries in the manufacture of such batteries but shall be superseded by the provisions of this order. In so far as any other order heretofore or hereafter issued by the Director of Priorities, the Director of Industry Operations or the Director General for Operations limits the use of any material in the production of flashlights, electric railroad lanterns or other portable electric lights or dry cell batteries or containers for holding assemblies of such batteries to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Avoidance of excessive inventories.* No manufacturer shall accumulate for use in the manufacture of flashlights, electric railroad lanterns or other portable electric lights, or dry cell batteries or containers for holding assemblies of such batteries, inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production at the rates permitted by this order.

(k) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(l) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(m) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(n) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(o) *Appeals.* Any person affected by this order who considers that it works an exceptional or unreasonable hardship upon him may apply for relief by forwarding a letter addressed to the War Production Board, Ref: L–71, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(p) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Ref: L–71.

PART 1176—IRON AND STEEL CONSERVATION

[Amendment 7 to General Conservation Order M–126 as Amended July 13, 1942]

Section 1176.1 *General Conservation Order M–126*[1] is hereby amended in the following respect:

(1) The item "Pencils, automatic" contained on List A as reinstated by Amendment 3, issued July 29, 1942, is hereby amended to read as follows:

> Pencils, mechanical or automatic.

(2) The item "Pencils, automatic, functional parts only, except for resale" contained on List C is hereby amended to read as follows:

> Pencils, mechanical or automatic, functional parts only, except for resale.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1245—WOOD UPHOLSTERED FURNITURE

[Interpretation 1 to General Limitation Order L–135]

The following official interpretation is hereby issued by the Director General for Operations with respect to paragraph (b) (2), as amended September 19, 1942, of § 1245.1, *General Limitation Order L–135*, issued August 8, 1942[1]:

Paragraph (b) (2), as amended September 19, 1942, provides that "On and after November 1, 1942, no wood upholstered furniture manufacturer shall process, fabricate, work on or assemble any new wood upholstered furniture which contains any iron or steel other than joining hardware, except that wood upholstered furniture manufacturers may, after November 1, 1942, process, fabricate, work on or assemble final fabric covers on any new wood upholstered furniture, provided that any such new wood upholstered furniture has otherwise been completely processed, fabricated, worked on or assembled prior to November 1, 1942."

This language is to be strictly construed. No operation other than the putting on of final fabric covers is permitted on and after November 1, 1942. Wood upholstered furniture which is merely "sprung up" may not be padded or worked on in any way other than the assembly of final fabric covers. In connection with the assembly of final fabric covers, any work which is absolutely essential to such assembly is permitted. The assembly of decorative molding, nails, and similar items, after the final fabric cover is placed upon the wood upholstered furniture, is also permitted. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law

Part 3062—Conservation of New Automotive Vehicles Subject to Rationing by Federal Agencies

[Amendment 1 to Conservation Order M-216]

§ 3062.1 *Conservation Order M-216,* issued August 29, 1942,[1] is hereby amended by changing the dates October 1, 1942 and October 10, 1942, in paragraph (c), to November 1, 1942 and November 10, 1942, so that said paragraph reads as follows:

(c) *Reports on reserve vehicles required.* Every person in possession of reserve vehicles shall file with the Automotive Branch, War Production Board, Washington, D. C., Ref: Order M-216, a report of the condition of such vehicles on Form PD-641. The initial report shall be as of November 1, 1942, and shall be filed not later than November 10, 1942. Subsequent reports shall be filed thereafter at intervals of six months.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Part 1305—Administration

[Supplementary Order 21]

DISTRICT OF COLUMBIA PENAL INSTITUTIONS

Removal of sales by the District of Columbia of commodities produced and services supplied by the District of Columbia penal institutions from the operation of all price regulations.

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, *It is hereby ordered:*

§ 1305.25 *Removal of sales by the District of Columbia of commodities produced and services supplied by the District of Columbia penal institutions from the operation of all price regulations.* (a) Sales and deliveries by the District of Columbia to the United States or any agency thereof of any commodity produced or service supplied by the District of Columbia penal institutions shall not be subject to any price regulation heretofore issued, or which hereafter may be issued by the Office of Price Administration, unless specific provision making a price regulation applicable to such sales and deliveries shall hereafter be included in such price regulation.

(b) "Price regulation," as used in this supplementary order, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(c) This Supplementary Order No. 21 may be revoked or amended by the Price Administrator at any time.

(d) *Effective date.* This Supplementary Order No. 21 (§ 1305.25) shall become effective October 7, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 1st day of October 1942.

Part 1315—Rubber and Products and Material of Which Rubber Is a Component

[Amendment 34 to Revised Tire Rationing Regulations[1]]

TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

A new paragraph, (ii), is added to § 1315.151 (d); a new § 1315.807 is added; and §§ 1315.151 (d) and 1315.804 are amended, as set forth below:

Definitions

§ 1315.151 *Definitions.* For the purpose of these regulations * * *

(d) "Consumer" of a tire or tube means any person who holds, purchases, or accepts delivery of a tire or tube for use and not for resale, or brings a tire to a retreader or recapper to be retreaded or recapped, the tire to be returned to such person but not for resale.

* * * * *

(ii) "Used" as applied to tires and tubes means a tire or tube that has been run 1,000 miles or more, but does not include a recapped or retreaded tire as defined in paragraph (r) of this § 1315.151.

Transfers and Deliveries of Tires, Tubes, and Camelback

§ 1315.804 *Transfers of tires, tubes or camelback to certain governmental agencies, to manufacturers of new vehicles, and for export*—(a) *Transfers to certain governmental agencies or for export.* Subject to the provisions of paragraphs (c) and (d) of this § 1315.804, any person may transfer tires, tubes or camelback: * * *

(b) *Transfers to manufacturers of new vehicles.* Subject to the provisions of paragraphs (c) and (d) of this § 1315.804, any person may transfer tires or tubes, with the written approval of the chairman of the War Production Board, to any manufacturer of new vehicles for use as part of the original equipment of such vehicles.

(c) *Receipt.* Any person who makes any transfer pursuant to paragraphs (a) or (b) of this § 1315.804, except a transfer of used tires or tubes, shall obtain a receipt from the purchaser upon OPA Form No. R-12 (Revised): *Provided, however,* That a manufacturer who makes any transfer of new tires, new tubes, or camelback pursuant to the same paragraphs, need not obtain such form from the purchaser, except when the transfer is made or originates from premises on which the manufacturer performs the functions of a retailer or distributor.

* * * * *

§ 1315.807 *Permitted and prohibited transfers of used tires and tubes.*—(a) *Prohibitions.* On and after October 1, 1942, except as provided in §§ 1315.401 (c), 1315.402 (d) (5), 1315.403 (a) (5), 1315.501 (d) (4), 1315.502 (c) (4), 1315.503 (c) (4), 1315.704 (b) and (c), 1315.705, 1315.801 (f) (6) (i) and (ii), 1315.804, 1315.806, and paragraphs (b) through (f) of this § 1315.807 of these regulations, no person shall transfer, offer to transfer, or solicit a transfer of any used tire or tube, and no person shall accept or offer to accept any transfer of any used tire or tube. This prohibition shall apply in spite of any contract, agreement or commitment, regardless of when made.

(b) *Definitions.* For the purpose of this § 1315.807, the term

(1) "Dealer" means any retailer, distributor, wholesaler, manufacturer, or any person engaged in the business of (i) manufacturing or selling tires, tubes or vehicles, (ii) retreading or recapping tires, or (iii) extending credit to another upon the security of a vehicle under an agreement permitting the lender to take possession of the vehicle.

(2) "Mounted tire" means a tire mounted upon the running wheel of a vehicle or one spare for each size tire upon a vehicle.

(c) *Transfers by consumers.* (1) a consumer, other than a dealer, may mount used tires or tubes owned by him on any vehicle owned by him.

(2) A consumer, other than a dealer, may transfer to any dealer or consumer used tires or tubes when mounted on a vehicle in conjunction with the transfer of such vehicle to such dealer or consumer.

(3) A consumer may temporarily transfer used tires or tubes to any person engaged in the business of repairing tires or tubes, for purposes of mounting or repair only, and accept the transfer of such tires or tubes after such mounting or repair.

(4) A consumer, other than a dealer, may change the physical location or use of used tires or tubes owned by him, provided that no change in right, title or interest takes place: *And provided, further,* That used tires or tubes are not placed in the hands of a dealer or on his premises unless pursuant to paragraph (c) (3).

(d) *Common carriers.* A common carrier which on September 30, 1942, was in possession of shipments of used tires or tubes consigned to a consignee may deliver such used tires or tubes to such consignee, who may accept such delivery.

(e) *Transfers by dealers.* (1) No dealer may mount on his vehicles or transfer between his vehicles any used tires or tubes except those mounted on one or more of his vehicles as of September 30, 1942, or mounted on a vehicle acquired by him thereafter.

(2) A dealer may transfer used tires to a retreader or recapper for the purpose of retreading or recapping such tires. No transfer of retreaded or recapped tires shall be made except in accordance with the provisions of these regulations.

(3) A dealer may transfer to any consumer used tires or tubes when mounted on a vehicle in conjunction with the transfer of the vehicle to such consumer, provided that the transfer of the vehicle does not violate the new passenger automobile rationing regulations issued by the Office of Price Administration.

(4) A dealer may accept a transfer of used tires or tubes from any Governmental agency specified in § 1315.804 (a) (1).

(5) A dealer may make other transfers of used tires or tubes, which are essential to the conservation of such tires or tubes, only upon written authorization of the State or District Office of the Office of Price Administration having jurisdiction over the area in which the tires or tubes are located. Requests for such authorization shall state the number and size of the tires or tubes, their present and proposed location, and the reasons for the proposed transfer.

(f) *Reports.* A dealer who makes or accepts any transfer of a used tire or tube pursuant to §§ 1315.801 (f) (6) (i) and (ii), 1315.804, 1315.806, or paragraphs (d), (e) (2), (e) (4), or (e) (5) of this § 1315.807, shall file a report within fifteen (15) days of the date of such transfer with the Inventory Control Unit, Office of Price Administration, Empire State Building, New York City, New York, and shall keep a copy thereof. This report shall state the name and address of the dealer, the number and size of used tires or tubes transferred, the date of transfer, and the name and address of the person to whom the dealer has transferred the tires or tubes or from whom the dealer has accepted such transfer.

§ 1315.1199a *Effective dates of amendments.* * * *

(hh) Amendment No. 34 (§§ 1315.151, (d), 1315.804 and 1315.807) to Revised Tire Rationing Regulations shall become effective October 1, 1942.

(Pub. Law 421, 77th Cong., Jan. 30, 1942, OPM Supp. Order No. M-15c, WPB Directive No. 1, Supp. Directive No. 1B; 6 F.R. 6792, 7 F.R. 121, 350, 434, 473, 562, 925, 1009, 1026)

(6) Grades "V–1", "V–2", "V–3", and "V–4" mean rubber heels manufactured after August 31, 1942 which can meet the following physical tests:

Grade	Minimum abrasion		Tensile strength
	All types except whole heels [1]	Whole heels [2]	
V–1	25	20	1,000
V–2	20	16	800
V–3	15	12	500
V–4	10	8	400

[1] A minus tolerance of 2 points from the specified average abrasion index requirements is permitted with an unlimited plus tolerance. The methods of Federal Specifications EA-ZZ-H-141 and ZZ-R-601 shall be applicable to the specifications.

[2] No minus tolerance is permitted for whole heels. The methods of Federal Specifications EA-ZZ-H-141 and ZZ-R-601 shall be applicable to the specifications.

(h) The maximum price for sales by wholesalers to that class of wholesalers who, during March 1942, purchased rubber heels from wholesalers at prices higher than those set forth in Table I–A for sales to wholesalers is the price for sales of the rubber heels in question to shoe repairmen set forth in Table I–A less 20%. Paragraphs (d) (1) and (e) (1) are applicable to such sales.

PART 1340—FUEL

[Amendment 32 to Revised Price Schedule 88[1]]

PETROLEUM AND PETROLEUM PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1340.157, two new paragraphs (v) and (w) are added, and a new paragraph (d) is added to § 1340.159.

§ 1340.157 *Definitions.* * * *

(v) "Wet gas" means any natural or petroleum gas, and refinery gas, which is sold to be processed for the extraction of vapors and liquids, from which operation some residue gas results.

(w) "Dry gas" means any natural or petroleum gas, and refinery gas, sold for consumption either directly as fuel or to be consumed in the production of any other commodity or for use in gas lift, pressure maintenance or repressuring operations, and includes such gas when delivered directly from wells, and the residue gas incident to plant operations.

§ 1340.159 *Appendix A: Maximum prices for petroleum and petroleum products.* * * *

(d) *Petroleum gas; natural gas*—(1) *Wet gas.* (i) A seller's maximum price at any particular time for wet gas produced from any given field shall be the highest price that could be charged at that time under the terms and conditions of any contract which was in effect on May 1, 1942 between the seller and the purchaser for the sale of wet gas produced from such field.

(ii) If a seller had no contract in effect with a particular purchaser on May 1, 1942, for wet gas produced from any given field, then such seller's maximum price to such purchaser at any given field shall be the highest price that could be charged at that time under the terms and conditions of any contract which was in effect on May 1, 1942, between such seller and a purchaser of the same class for the sale of wet gas produced from such field.

(iii) Where a maximum price for wet gas cannot be determined under (i) or (ii), or where a maximum price has been determined under (i) or (ii), and the purchaser wishes to extract, condense and save additional products from the wet gas not contemplated by the contract nor by any contract between a seller and a purchaser of the same class in the given field, a tentative maximum price may be set. The purchaser shall make a request in writing at the Office of Price Administration in Washington, D. C., for approval of such tentative maximum price within 15 days after it has been set by him or within 30 days from October 7, 1942, whichever is later. In connection with his request, the purchaser shall file with the said Office a statement setting forth (*a*) an explanation as to why it is impossible for the seller to establish a maximum price under subdivisions (i) or (ii) of this paragraph (d), (*b*) the tentative maximum price, and an explanation of the method used in arriving at such price, (*c*) the maximum prices for sellers and purchasers of the same class at the two nearest fields to the one in question, if known, and (*d*) if a written contract has been entered into, an authenticated copy thereof. The tentative maximum price shall be the maximum price for the production from the field to purchasers of the same class unless the tentative price is disapproved by the Office of Price Administration within 15 days from the date it is filed as provided above. Ordinarily a tentative price set under this subdivision (iii) will not be approved unless such tentative price is in line with the maximum prices for sellers and purchasers of the same class at the nearest fields to the one in question. A tentative price which has been approved as a maximum price hereunder, may subsequently be changed by order of the Price Administrator.

(2) *Dry gas.* (i) Where a contract for the sale of dry gas was in effect on October 1, 1941, the seller's maximum price at any particular time for any gas sold under that contract, or any renewal of such contract, or a new contract between the same purchaser and seller, shall not exceed the price that could be charged under the terms of the contract that was in effect on October 1, 1941.

(ii) Where a seller had contracts in effect on October 1, 1941, for sale of dry gas but did not then have a contract with a particular purchaser, the seller's maximum price at any particular time to that purchaser shall not exceed the highest price that could be charged at that time under (i) to a purchaser of the same class.

(iii) If a seller had no contracts in effect for sales of dry gas on October 1, 1941, a seller's maximum price at any particular time for dry gas shall not exceed the maximum price established at that time by seller's most closely competitive seller of the same class to a purchaser of same class.

---

[9] A minus tolerance of two points from the specified average abrasion index requirements is permitted with an unlimited plus tolerance. The methods of Federal Specifications EA–ZZ–H–141 and ZZ–R–601 shall be applicable to the specifications.

*Copies may be obtained from the Office of Price Administration.

(iv) Where a seller is unable to determine his maximum price for dry gas under (ii) or (iii) above, a tentative maximum price may be set, and the seller shall comply with the requirements of filing as provided in subparagraph (1), subdivision (iii), and the tentative maximum price shall be subject to disapproval and change as therein provided.

(v) Nothing in this subparagraph (2) shall be construed to authorize the regulation of a rate that is exempt from control by the Office of Price Administration under the Emergency Price Control Act of 1942.

§ 1340.158a *Effective dates of amendments.* * * *

(ff) Amendment No. 32 (§§ 1340.157 (v) and (w), 1340.159 (d)) to Revised Price Schedule No. 88, shall become effective October 7, 1942, except that a purchaser and seller of wet gas may, by mutual agreement, make the effective date retroactive to May 11, 1942.

PART 1370—ELECTRIC APPLIANCES

[Amendment 5 to Maximum Price Regulation 111[1]]

NEW HOUSEHOLD VACUUM CLEANERS AND ATTACHMENTS

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new § 1370.9b is added.

§ 1370.9b *Applications for adjustment.* (a) The Office of Price Administration, or any duly authorized officer thereof, may by order adjust the maximum price established for any model under § 1370.12 (a) Appendix A for persons selling to consumers in any case in which the seller shows:

(1) That such maximum price is substantially below the highest net price in effect for such model by the seller's price list or other regular price quotation to the same general class of purchaser during the period October 1, 1941 to October 15, 1941, inclusive; and

(2) That this fact subjects him to substantial hardship. Applications for adjustment under paragraph (a) shall be filed in accordance with Procedural Regulation No. 1.[2]

(b) Any person seeking relief, for which no provision is made in the foregoing paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 111 may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1 and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 111 to eliminate the danger of inflation.

§ 1370.14 *Effective dates of amendments.* * * *

(f) Amendment No. 5 (§ 1370.9b) to Maximum Price Regulation No. 111 shall become effective October 7, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 1st day of October 1942.

PART 1381—SOFTWOOD LUMBER

[Amendment 3 to Maximum Price Regulation 161[1]]

WEST COAST LOGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1381.151 is amended to read as set forth below and a new paragraph (c) is added to § 1381.159a:

§ 1381.151 *Maximum prices for West Coast logs.* (a) On and after June 20, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver West Coast logs, and no person shall buy or receive West Coast logs in the course of trade or business at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1381.160; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of West Coast logs to a purchaser if prior to June 20, 1942, such West Coast logs had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The provisions of paragraph (a) of this § 1381.151 shall not apply to the sale and delivery by the Polson Lumber and Shingle Company, Hoquiam, Washington, to the United States Treasury Department, Procurement Division, pursuant to Order No. C–11354, of the following species and sizes of West Coast logs:

6 Sitka spruce logs, select veneer grade, 10 feet long, 36″ to 54″ in diameter;

8 Sitka spruce logs, aircraft specifications, 16 feet long, 48″ to 72″ in diameter;

6 Douglas fir logs, select veneer grade, 10 feet long, 40″ to 60″ in diameter; and

8 Douglas fir logs, aircraft specifications, 16 feet long, 48″ to 72″ diameter.

All the above-specified logs to be sprayed and coated and meet the specifications of the Forest Service as set forth in Order No. C–11354 of the Procurement Division, United States Treasury Department.

[2] 7 F.R. 971, 3663, 6967.

[1] 7 F.R. 4426, 5360, 7008.

(b) "Conversion weight" means the weight of the live animal, the carcass or the controlled meat derived therefrom multiplied by the applicable conversion factor as set forth in § 1407.913.

(c) "Cutter and canner grades of beef" means controlled meat conforming to the specifications for cutter and canner grades of steer, heifer, and cow carcass beef set forth in Service and Regulatory Announcements No. 99, Official United States Standards for Grades of Carcass Beef, United States Department of Agriculture, Agricultural Marketing Administration, reprinted with amendments March, 1942.

(d) "Deliver" means to transfer physical possession of controlled meat to any other person. The transfer of controlled meat by a slaughterer to a unit or department of the slaughterer for use in the preparation, manufacture, or production of any product or commodity other than controlled meat shall be deemed a transfer of physical possession to a person other than the slaughterer. In the case of a slaughterer who uses controlled meat for such purposes without any such transfer, the use of controlled meat in the preparation, manufacture or production of any product or commodity other than controlled meat shall have the same effect for the purposes of Restriction Order No. 1 as a transfer of physical possession to a person other than the slaughterer.

(e) "Dressed carcass" means the carcass in the following state:

(1) In the case of beef, with the kidney knob in.

(2) In the case of veal, with the hide off.

(3) In the case of pork, with the leaf fat and kidney out and the head off.

(4) In the case of lamb and mutton, with pluck out.

(f) "Federally inspected" means slaughtered, dressed and passed in a plant subject to federal inspection pursuant to the Act of Congress of March 4, 1907 (Federal Meat Inspection Act, 34 Stat. 1260).

(g) "Non-quota slaughterer" means any person, other than a slaughterer as herein defined, who slaughters cattle, calves, sheep, lambs, or swine and sells the controlled meat derived therefrom.

(h) "Person" means any individual, partnership, corporation, or association, and includes the United States, or any agency thereof, the states or any political subdivision or agencies thereof, and any other government or any agency thereof.

(i) "Sausage" means any ground, chopped, or cut meat or offal of cattle, calves, sheep, lambs, or swine mixed with condiments or other materials and prepared in loaf or sausage-type form, with or without casings.

(j) "Slaughterer" means: (1) Any person who slaughtered during the first nine months of 1942 cattle, calves, sheep, lambs, or swine which produced controlled meat having an aggregate conversion weight in excess of 1,500,000 pounds, and

(2) Any person who slaughters during any quota period cattle, calves, sheep, lambs, or swine which produce controlled meat having an aggregate conversion weight in excess of 500,000 pounds.

§ 1407.902 *Deliveries of slaughterers restricted.* (a) Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no slaughterer shall, except as provided in Restriction Order No. 1, deliver during any quota period, more controlled meat of any type than his quota for such type of controlled meat for such period.

(b) Any slaughterer may, during any quota period, deliver controlled meat against any unused portion of his quota for such type of controlled meat for the preceding quota period in an amount not exceeding 10% of such quota, and against his quota for such type of controlled meat for the subsequent quota period in an amount not exceeding 10% of his quota for the current quota period.

(c) A person who becomes a slaughterer during a quota period shall not thereafter during the balance of such period deliver controlled meat of any type in an amount which, together with the amount of such type of controlled meat previously delivered by him during such period, would exceed his quota for such controlled meat for such period.

§ 1407.903 *Quotas established.* (a) The quota of a slaughterer for each type of controlled meat for each quota period shall be the conversion weight obtained by multiplying the quota base for such type of controlled meat by the percentage set forth below:

Type of controlled meat:	*Percentage*
Beef	80
Veal	100
Lamb and mutton	95
Pork	75

(b) Any incorporated slaughterer may apply to the Office of Price Administration for consolidation of its quotas with the quotas of any one or more of its wholly-owned subsidiaries.

§ 1407.904 *Deliveries of non-quota slaughterers restricted.* (a) Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no non-quota slaughterer shall, during any quota period, deliver more controlled meat of any type resulting from his own slaughter than he delivered of such type resulting from his own slaughter during the corresponding base period, provided that deliveries during a quota period to persons referred to in § 1407.912 (a) shall not be regarded as deliveries for the purposes of this section.

§ 1407.905 *Base and quota periods established.* (a) There are hereby established the following quota periods:

(1) Quota Period 1: October 1, 1942, to December 31, 1942, inclusive.

(2) Quota Period 2: January 1, 1943, to March 31, 1943, inclusive.

(b) The corresponding base period shall be as follows:

(1) Base Period 1: October 1, 1941, to December 31, 1941, inclusive.

(2) Base Period 2: January 1, 1941, to March 31, 1941, inclusive.

§ 1407.906 *Method of computing quota bases.* (a) The quota base of a slaughterer for each type of controlled meat for each quota period shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the corresponding base period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb, and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the corresponding base period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the corresponding base period, and

(3) The conversion weight of all meat of such type delivered to him during the corresponding base period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the base period, and

(5) The conversion weight of meat of such type delivered by him to other slaughterers in deliveries of more than 5,000 pounds each or pursuant to any contract calling for delivery of more than 5,000 pounds, and

(6) Fifty percent of the conversion weight of meat of such type delivered directly, or contained in canned meat delivered directly, by him to the Army, Navy, Marine Corps, Coast Guard, or to any agency of the United States to be delivered to, or for the account of, the government of any country pursuant to the Act of March 11, 1941 (Lend-Lease Act.)

(b) If any person acquires or has acquired a business involving slaughtering, including the good will thereof, and continues the business in substantially the same manner as it was carried on prior to such acquisition, the deliveries, slaughterings, and inventories of such business prior thereto shall be deemed to have been made or held by such person for the purposes of Restriction Order No. 1. If a slaughterer makes such acquisition subsequent to his registration he shall immediately file a new registration in accordance with § 1407.914.

(c) The Office of Price Administration upon application may fix for a slaughterer a quota base for a quota period for any type of controlled meat not delivered by such slaughterer during the corresponding base period.

§ 1407.907 *Method of computing deliveries during quota period.* (a) The amount of each type of controlled meat delivered by a slaughterer during a quota period and charged against his quota shall be computed as follows: From the sum of

(1) In the case of pork: the conversion weight of live animals slaughtered by him during the quota period determined from the average live purchase weight of such animals. In the case of beef, veal, lamb and mutton: the conversion weight of the chilled dressed carcasses of animals slaughtered during the quota period.

(2) The conversion weight of his inventory of such type of meat at the beginning of the quota period, and

(3) The conversion weight of all meat of such type delivered to him during the quota period,

the following shall be subtracted:

(4) The conversion weight of his inventory of such type of meat at the close of the quota period, and

(5) The conversion weight of meat of such type delivered by him during the quota period to the persons set forth in § 1407.912 (a).

§ 1407.908 *Accounting procedures and inventories.* (a) A slaughterer in determining his inventories for the purposes of §§ 1407.905 and 1407.906 shall disregard inventories of non-slaughtering branches or branch warehouses.

(b) If the slaughterer's customary time for taking inventory does not correspond with the opening or closing of a base period or quota period, an inventory taken not more than 15 days from the opening or closing of such period may be used as the opening or closing inventory as the case may be.

(c) If the records in the possession of the slaughterer on the effective date of Restriction Order No. 1 are not sufficient for the determination of the inventories required for the computation of quota bases, he may apply to the Office of Price Administration for permission to adopt an alternative method of computing quota bases.

§ 1407.909 *Deliveries of cutter and canner grades of beef further restricted.* (a) No slaughterer shall during any quota period deliver controlled meat of cutter and canner grades of federally inspected beef to persons other than those referred to in § 1407.912 (a) in excess of 20% of the conversion weight of all his deliveries of such cutter and canner grades during the quota period. Such 20 percentum shall include all deliveries of such beef after rejection thereof for failure to meet the specifications of persons referred to in § 1407.912 (a).

(b) No slaughterer shall during any quota period deliver more than 25% of his quota for beef for such period in cutter or canner grades of non-federally inspected beef, unless an adjustment be granted to him pursuant to the provisions of § 1407.917.

§ 1407.910 *When delivery takes place; transfers of possession for carriage or storage.* (a) Controlled meat transferred to a carrier or loaded aboard a vehicle or vessel (whether or not owned or controlled by the slaughterer) for shipment to a person other than the slaughterer shall be deemed to be delivered when so transferred or loaded, regardless of whether the slaughterer reserves title or consigns the shipment to his own order for security purposes only.

(b) A delivery shall not be deemed to take place when controlled meat is placed in a public warehouse solely for storage purposes, but the withdrawal of such meat from any such warehouse by any person other than the slaughterer who placed it there shall be deemed a delivery.

§ 1407.911 *Slaughterers owning retail outlets.* In the case of a person who owns five or more establishments selling controlled meat principally at retail and who is also a slaughterer, the operation of the slaughtering plant or plants operated by him shall be deemed to be separate from all his other activities for the purpose of Restriction Order No. 1, including the determination of the applicable quota base and quotas. Deliveries to such person shall be deemed quota exempt pursuant to § 1407.912 only if made to such plant or plants, and only inventories of and deliveries to and from such plant or plants shall be included in any computations required by Restriction Order No. 1. The restrictions in §§ 1407.902 and 1407.909 shall apply to such person only with respect to deliveries of controlled meat from, and the use of controlled meat in, such plant or plants.

§ 1407.912 *Deliveries permitted without charge against quotas.* (a) A slaughterer who complies with the provisions of paragraph (b) of this section may, without charge against his quota, deliver controlled meat to any of the following purchasers, or to any person to replace controlled meat delivered on or after October 1, 1942 to any such purchaser or to any person who requires such meat for delivery, with or without further processing, to any such purchaser pursuant to a written contract:

(1) The Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, War Shipping Administration, Maritime Commission, Panama Canal, Advisory Committee for Aeronautics, Office of Scientific Research and Development, Defense Supplies Corporation, and any agency of the United States or of any foreign government for export to and consumption or use in any foreign country or any territory or possession of the United States other than the District of Columbia: *Provided, however,* That post exchanges, organized messes, sales commissaries, service men's clubs, ship service stores, and similar organizations, shall not be deemed part of the Army, Navy, Marine Corps or Coast Guard.

(2) Any person for export to and consumption or use in any foreign country, or any territory or possession of the United States other than the District of Columbia.

(3) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in foreign, coastwise or intercoastal trade, as ships' stores for consumption aboard such vessel.

(4) Any hospital, asylum, orphanage, prison, or other similar institution, which is operated by any federal, state, or local government or agency thereof, other than an agency listed in paragraph (a) (1) of this section, which took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids.

(5) Any person when such delivery is specifically authorized by the Director of the Food Rationing Division of the Office of Price Administration.

(6) Any slaughterer whose deliveries are subject to the quota provisions hereof at the time of such delivery.

(b) A slaughterer who delivers controlled meat to a purchaser specified in paragraph (a) (1) to (6) inclusive of this section, or to a person to replace in such person's inventory controlled meat delivered on or after October 1, 1942, to any such purchaser, shall, not later than 10 days after such delivery, obtain a certification signed by the purchaser or his authorized agent or employee setting forth the following:

(1) The name and address of the person making delivery to the purchaser.

(2) The name and address of the purchaser.

(3) The date of delivery.

(4) The total weight of each type of controlled meat delivered, and a description thereof permitting conversion in accordance with the provisions of §1407.913.

(c) A slaughterer who delivers controlled meat to a purchaser specified in paragraph (a) (2) of this section, or to a person to replace controlled meat delivered on or after October 1, 1942, to any such purchaser, shall obtain with the certification required by paragraph (b) of this section a copy of the export license authorizing the export of such controlled meat. If no export license is required for the shipment, the slaughterer shall obtain with the certification a copy of the bill of lading under which the controlled meat was shipped.

(d) A slaughterer who delivers controlled meat to a purchaser specified in paragraph (a) (3) of this section, or to a person to replace controlled meat delivered on or after October 1, 1942, to any such purchaser, shall obtain with the certification required by paragraph (b) of this section a statement signed by the collector of customs or his deputy authorizing such delivery as ship stores.

(e) A slaughterer who delivers controlled meat to a purchaser specified in paragraph (a) (4) of this section, or to a person to replace controlled meat delivered on or after October 1, 1942 to any such purchaser, shall obtain with the certification required by paragraph (b) of this section a statement, signed by the manager, superintendent or other official in charge of such institutions, that such purchaser took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids.

(f) A slaughterer who delivers controlled meat to a purchaser specified in paragraph (a) (5) of this section, or to a person to replace controlled meat delivered on or after October 1, 1942 to any such purchaser shall obtain with the certification required by paragraph (b) of this section a copy of the authorization issued by the Office of Price Administration.

(g) A slaughterer who delivers controlled meat to another slaughterer whose deliveries are subject to the quota provisions hereof at the time of such delivery shall not later than 10 days after such delivery obtain a certification signed by the slaughterer to whom such delivery is made or his authorized agent or employee setting forth that the latter's deliveries are subject to the quota provisions of Restriction Order No. 1, his registration number, and the date on which he registered.

(h) A slaughterer who delivers controlled meat to a person requiring such meat for delivery to an exempted purchaser listed in paragraph (a) (1) to (6) inclusive of this section, pursuant to a written contract with such purchaser, shall within 10 days after delivery to such person obtain a certification signed by such person or his authorized agent or employee setting forth the following:

(1) The name and address of the person requiring such controlled meat.

(2) The name and address of the exempted purchaser.

(3) The date of the contract.

(4) The number or other designation of the contract.

(5) The total weight of each type of controlled meat purchased from such slaughterer, and a description thereof permitting conversion in accordance with the provisions of § 1407.910.

(6) The total weight and description of each type of controlled meat required to perform the contract.

(7) A statement that such controlled meat will be used only in the performance of the contract.

(i) If any of the information specified under paragraphs (b) to (f) inclusive of this section is military information of a secret character, such information may be omitted.

(j) The certifications which are referred to in this section and the statements which accompany them may be in any convenient form and do not require verification or acknowledgment.

§ 1407.913 *Conversion weight factors.* (a) For the purposes of §§ 1407.905 and 1407.906, the conversion weight of swine slaughtered during a period shall be determined exclusively by computing the average purchase weight of the total number of swine slaughtered (less condemnations) and multiplying the total live purchase weight of such swine by the appropriate conversion factor set forth below for the weight range within which the average falls:

Average live weight range:	*Conversion factor*
200 lbs., and under	0.59
201–240 lbs	.61
241–300 lbs	.63
301 lbs., and over	.65

(b) The conversion weight of carcasses, and cuts and trimmings of controlled meat derived therefrom shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

Type of controlled meat	Description of product	Conversion factor (multiplier)	
Beef	Dressed carcasses and cuts, bone in, fresh (chilled) or frozen	1.00	
	Boned beef and trimmings, fresh (chilled) or frozen	1.33	
	Cured other than dried	1.05	
	Dried (including smoked)	2.00	
Veal	Dressed carcasses hide off, and cuts, bone in, fresh (chilled) or frozen.	1.00	
	Dressed carcasses hide on, fresh (chilled) or frozen	.90	
	Boned, fresh (chilled) or frozen	1.33	
Lamb and mutton	Dressed carcasses pluck cut, and cuts, bone in, fresh (chilled) or frozen.	1.00	
	Dressed carcasses pluck in, fresh (chilled) or frozen	.90	
	Boned, fresh (chilled) or frozen	1.33	
Pork	Dressed carcasses (with cutting fats on), fresh (chilled) or frozen	.90	
	Cuts:	*Bone in*	*Bone out*
	Fresh (chilled)	1.00	1.15
	Cured	1.00	1.10
	Smoked	1.10	1.20
	Cooked	1.10	1.10

(c) For the purpose of determining quota bases where no record is available of transfers of controlled meat to the sausage and canning unit or department, the conversion weight of each type of controlled meat used in the preparation of sausage and canned meat shall be computed by determining the net weight of controlled meat of such type used in the processing thereof, and multiplying such net weight by 1.33.

§ 1407.914 *Registration of slaughterers.* (a) No slaughterer who during the first nine months of 1942 slaughtered cattle, calves, sheep, lambs or swine which produced controlled meat having an aggregate conversion weight in excess of 1,500,000 pounds shall deliver controlled meat on or after November 1, 1942, unless he shall have filed with the Office of Price Administration a registration statement on such form as the Office of Price Administration may hereafter prescribe, executed in duplicate and signed by the slaughterer, a partner (if a partnership), an officer (if a corporation), or a manager of the slaughterer.

(b) No slaughterer who becomes a slaughterer by reason of the fact that he slaughters, during a quota period, cattle, calves, sheep, lambs or swine which produce controlled meat having an aggregate conversion weight in excess of 500,000 pounds shall deliver controlled meat on or after the tenth day following the date on which he became a slaughterer unless he shall have filed with the Office of Price Administration a registration statement on such form as the Office of Price Administration may hereafter prescribe, executed and signed as required in paragraph (a) of this section.

(c) The duplicate of such registration form, bearing the date of resignation and a registration number will be returned to the slaughterer and shall be kept at the place designated by him in his registration statement for the keeping of records.

(d) The registration number of the slaughterer shall appear on all reports submitted by him to the Office of Price Administration.

§ 1407.915 *Reports.* (a) Every slaughterer shall furnish such information to, and execute and file such reports with, the Office of Price Administration, as it may from time to time require.

§ 1407.916 *Records.* (a) Every slaughterer shall keep accurate records from which the following may be determined for each quota period:

(1) The conversion weight of controlled meat of each type on hand at the commencement of the quota period.

(2) The conversion weight of controlled meat of each type delivered to the slaughterer.

(3) The conversion weight of controlled meat of each type produced from animals slaughtered.

(4) The conversion weight of controlled meat of each type delivered without charge against quotas, separately stated for each class of exempt purchasers in accordance with the arrangement of such purchasers into paragraphs in § 1407.912 (a).

(5) The conversion weight of controlled meat of each type on hand at the close of the quota period.

(6) The conversion weight of beef of cutter and canner grades slaughtered during such period.

(7) The conversion weight of beef of cutter and canner grades delivered without charge against quotas, separately stated for each class of exempt purchasers in accordance with the arrangement of such purchasers into paragraphs in § 1407.912 (a).

(b) Every non-quota slaughterer shall keep an accurate record, by quota periods, of live purchase weight and chilled dressed carcass weight of all cattle, calves, sheep and lambs slaughtered by him and of live purchase weight of all swine slaughtered by him.

(c) All records required by Restriction Order No. 1 shall be kept and preserved for not less than 2 years after the effective date hereof at an office of the slaughterer designated by him in his registration, and shall at all reasonable times be open to audit and inspection by duly authorized representatives of the Office of Price Administration.

(d) Every person who slaughters cattle, calves, sheep, lambs or swine and every person who sells, transfers, or delivers controlled meat shall preserve for examination by the Office of Price Administration all of his existing records relating to such slaughter, sales, transfers, and deliveries since January 1, 1941, unless authorized to dispose thereof by the Office of Price Administration.

§ 1407.917 *Application for adjustment or exemption.* (a) Any person who considers that an adjustment or exception should be made in his case to facilitate procurement by persons referred to in § 1407.912 (a) (1), prevent spoilage of meat, relieve transportation facilities, adjust quotas which have been affected by unusual occurrences during the base period, or promote greater efficiency and despatch in the war effort, may apply in writing to the Office of Price Administration, setting forth the pertinent facts, the reasons why he considers that an adjustment or exception should be made, and the precise nature of the adjustment or exception desired.

(b) In cases of emergency, application may be made by the most convenient means of communication and a written application may be filed at such time thereafter as the Office of Price Administration may direct.

(c) Upon receipt of such application, the Office of Price Administration may take such action as it shall deem necessary or appropriate.

§ 1407.918 *Certification deemed a representations.* Any certification delivered to a slaughterer pursuant to the provisions of § 1407.912 (b) shall be held by the slaughterer for delivery to the Office of Price Administration upon request by it and statements contained in or accompanying any such certification shall be deemed representations to an agency of the United States.

§ 1407.919 *Prohibited acts.* (a) No person shall deliver, or offer to deliver, to any person, and no person shall accept or offer to accept delivery from any person, or use, any controlled meat with knowledge or reason to believe that such delivery or use is or will be in violation of Restriction Order No. 1, or in violation of or contrary to any of the statements contained in any certification or authorization furnished or provided as required in § 1407.912 (b).

(b) No person shall, or shall cause another person to, alter or falsify any registration certification, or statement, or to falsify, conceal or fail to disclose any fact, statement or information in any application, registration, report or other statement required to be made, kept, furnished or disclosed by Restriction Order No. 1.

(c) No person shall offer, solicit, attempt or agree to do any act in violation of any provision of Restriction Order No. 1.

§ 1497.920 *Criminal prosecutions.* (a) Any person who knowingly falsifies an application, certification, registration form or any other record, report, or document made pursuant to or required by the terms of Restriction Order No. 1 or who otherwise knowingly furnishes false information to any agent, employee or officer of the Office of Price Administration or falsifies or conceals or covers up by any trick, scheme or device a material fact, or makes or causes to be made any false or fraudulent statement or representation, in any matter within the jurisdiction of the Office of Price Administration, may upon conviction be fined not more than $10,000 or imprisoned for not more than ten years, or both, and shall be subject to such other penalties or actions as may be prescribed by law. Any person who conspires with another person to perform any of the foregoing acts or to violate any provision of Restriction Order No. 1 may upon conviction be fined not more than $10,000 or imprisoned for not more than two years, or both, and shall be subject to such other penalties or actions as may be prescribed by law.

(b) Any person who wilfully performs any act prohibited, or wilfully fails to perform any act required, by any provision of Restriction Order No. 1 may upon conviction be fined not more than $10,000 and imprisoned for not more than one year, or both, and shall be subject to such other penalties or actions as may be prescribed by all applicable statutes.

§ 1407.921 *Suspension orders.* Any person who violates this Restriction Order No. 1 may by administrative suspension order be prohibited from receiving any transfers or deliveries of, or selling or using or otherwise disposing of, any controlled meat or other rationed product. Such suspension order shall be issued for such period as in the judgment of the Administrator, or such person as he may designate for such purpose, is necessary or appropriate in the public interest and to promote the national defense.

§ 1407.922 *Scope of order.* Restriction Order No. 1 shall apply within the 48 states of the United States and within the District of Columbia.

§ 1407.923 *Communications.* All registration statements and reports required to be filed hereunder, and all communications concerning Restriction Order No. 1 shall be addressed to: Office of Price Administration, Att: Food Rationing Division, Washington, D. C.

§ 1407.924 *Effective date.* Restriction Order No. 1 shall become effective October 1, 1942.

Issued this 1st day of October 1942.

PART 1418—TERRITORIES AND POSSESSIONS

[Amendment 4 to Maximum Price Regulation 183[1]]

PUERTO RICO

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Subparagraph (3) is added to paragraph (a) of § 1418.1, paragraph (d) is added to § 1418.13a and paragraph (c) is added to § 1418.14.

§ 1418.1 *Maximum prices.* (a) Maximum prices are established as follows:

* * * * *

(3) On and after October 1, 1942, regardless of any price regulation heretofore issued by the Office of Price Administration, no person shall sell or deliver cigarettes at retail in the Territory of Puerto Rico and no person shall buy or receive cigarettes in the Territory of Puerto Rico at prices higher than the maximum prices set forth in § 1418.14 (c), Table III; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

* * * * *

§ 1418.13a *Effective dates of amendments.* * * *

(d) Amendment No. 4 (§§ 1418.1 (a) (3), 1418.13a (d) and 1418.14 (c)) to Maximum Price Regulation No. 183 shall become effective October 1, 1942.

* * * * *

§ 1418.14 *Tables of maximum prices.* * * *

(c) *Table III—Maximum retail prices for cigarettes..* (1) The maximum retail prices for cigarettes sold or delivered in the Territory of Puerto Rico shall be:

Brands	*Maximum retail price per package of 20 cigarettes*
Camel	$.16
Chesterfield	.16
Lucky Strike	.16
Old Gold	.16
Philip Morris	.16
Raleigh	.16
Pall Mall	.16

The maximum retail price for these brands of cigarettes not sold in packages of 20 cigarettes shall be a maximum price in line with the above prices. Any reduction in the number of cigarettes shall be accompanied by a proportionate reduction in price. For example: The maximum retail price for 10 cigarettes shall be 8 cents, the maximum retail price for 5 cigarettes shall be 4 cents, and the maximum retail price for any quantity less than 5 cigarettes shall be 1 cent per cigarette.

The maximum retail price for all other brands of cigarettes shall continue to be governed by the General Maximum Price Regulation.

On and after the effective date of this amendment, all persons selling cigarettes to retailers in the Territory of Puerto Rico shall insert in the first shipment to each retailer the following notification:

> The maximum retail price for Camels, Chesterfields, Lucky Strikes, Old Golds, Philip Morris, Raleighs and Pall Mall which you are allowed to charge is 16 cents per package. Any reduction in the number of cigarettes shall be accompanied by a proportionate reduction in price. For example: The maximum retail price for 10 cigarettes shall be 8 cents, the maximum retail price for 5 cigarettes shall be 4 cents, and the maximum retail price for any quantity less than 5 cigarettes shall be 1 cent per cigarette. The maximum retail price for all other brands of cigarettes continues to be the highest price charged by you between April 10 and May 10, 1942.

PART 1424—IMPORTED AND PACKAGED FOODS

[Maximum Price Regulation 231]

RAW SPICES AND SPICE SEEDS

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of raw spices and spice seeds by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 231 are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. So far as practical, the Price Administrator has advised and consulted with members of the industry which will be affected by this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 231 is hereby issued.

Sec.
1424.1 Prohibition against sales of raw spices and spice seeds above maximum prices.
1424.2 Applicability of the General Maximum Price Regulation.
1424.3 Less than maximum prices.
1424.4 Export sales.
1424.5 Federal and state taxes.
1424.6 Adjustable pricing.
1424.7 Petitions for amendment.
1424.8 Evasion.
1424.9 Enforcement.
1424.10 Records and reports.
1424.11 Definitions.
1424.12 Applicability.
1424.13 Effective date.
1424.14 Appendix A: Maximum prices for raw spices and spice seeds.

AUTHORITY: §§ 1424.1 to 1424.14 inclusive issued under Pub. Law 421, 77th Cong.

§ 1424.1 *Prohibition against sales of raw spices and spice seeds above maximum prices.* On and after October 7, 1942, regardless of any contract, agreement, lease or other obligation:

(a) No person shall sell or deliver any raw spices or spice seeds at higher prices than the maximum prices set forth in Appendix A of this Maximum Price Regulation No. 231.

(b) No person shall buy or receive any raw spices or spice seeds in the course of trade or business at higher prices than the maximum prices set forth in this Maximum Price Regulation No. 231.

§ 1424.2 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 231 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of raw spices and spice seeds for which maximum prices are established by this regulation.

§ 1424.3 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 231 may be charged, demanded, paid or offered.

§ 1424.4 *Export sales.* The maximum prices at which a person may export raw spices and spice seeds shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1424.5 *Federal and state taxes.* Any tax upon, or incident to, the sale or delivery of raw spices and spice seeds, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto:

(a) As to a tax in effect prior to the effective date hereof (1) if the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during the applicable base period the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 231. (2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately, from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount or tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 231.

(b) As to a tax or increase in a tax which becomes effective after October 6, 1942, if the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum prices, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1424.6 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to and at prices not in excess of the maximum prices in effect at the time of delivery. In appropriate situations where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1424.7 *Petitions for amendment.* Persons seeking any modifications of this Maximum Price Regulation No. 231 or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1424.8 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 231 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of raw spices or spice seeds alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) To mark-down the grade or quality of any raw spices or spice seeds without making corresponding and proper price reduction;

(2) The breaking up or dividing of a quantity of raw spices or spice seeds into the smaller quantities specified in § 1424.14 (g) for the purpose of obtaining a higher price for such quantity:

(3) The elimination of customary trade allowances and discounts that were in existence prior to December 8, 1941;

(4) Changes in the classifications of purchasers of raw spices and spice seeds which were in effect during March 1942.

§ 1424.9 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 231 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have any evidence of any violation of this Maximum Price Regulation No. 231 or any price schedule, regulation or order, issued by the Office of Price Administration, or any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state, field or regional offices of the Office of Price Administration, or its principal office in Washington, D. C.

§ 1424.10 *Records and reports.* (a) Every person making sales of raw spices and spice seeds after October 6, 1942, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price contracted for or received, and the quantity of each type and grade of such raw spices and spice seeds purchased or sold.

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 971, 3663, 6967.

[2] 7 F.R. 5059.

(b) Such persons shall submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require.

(c) Any person delivering raw spices or spice seeds under the terms of the contract specified in § 1424.14 (e) shall report such delivery to the Office of Price Administration, Washington, D. C. within 10 days thereof stating (1) the name and address of the buyer and seller, (2) the actual date of the contract, (3) the date of delivery, (4) the price, quantity and description of the product sold, (5) the remaining quantity yet to be delivered by the seller under the terms of such contract.

§ 1424.11 *Definitions.* (a) When used in this Maximum Price Regulation No. 231, the terms below unless the context otherwise required, shall be construed as follows:

(1) "Package" shall mean the customary unit and weight of bag, bale, box or pack in which the raw spices or spice seeds in question are customarily placed for shipment.

(2) "Person" includes an individual corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of any of the foregoing.

(3) "Place of destination" shall mean the place agreed upon between the buyer and seller at which delivery is completed by the seller.

(4) "Putting into warehouse" shall mean and include the following charges: (i) transportation charges from dock to warehouse; (ii) handling charges in and out of warehouse; (iii) warehouse storage charged for not more than thirty days.

(5) "Raw spices and spice seeds," as used herein, shall mean those spices and spice seeds in their raw, unprocessed state, set out in § 1424.14 Appendix A, of this Maximum Price Regulation No. 231.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1424.12 *Applicability.* The provisions of this Maximum Price Regulation No. 231 shall be applicable to the forty-eight states of the United States and the District of Columbia.

§ 1424.13 *Effective date.* This Maximum Price Regulation No. 231 (§§ 1424.1 to 1424.14 inclusive) shall become effective October 7, 1942.

§ 1424.14 *Appendix A: Maximum prices for raw spices and spice seeds.* (a) Maximum prices for the best quality of the various grades and types of spices and spice seeds shall be the following prices:

(b) In all cases the above descriptions apply to the best quality of each grade and the best grade of each type named. The maximum prices for raw spices and spice seeds specified above imported from any other country or for types or grades not named (whether or not imported from the same country) or for grades of inferior quality or of types of inferior grade not named, shall be determined by applying the customary trade differentials to the maximum prices for the type or grade which is most closely related in quality.

(c) The maximum prices for raw spices and spice seeds which were shipped from the country of origin prior to the effective date of this Maximum Price Regulation No. 231 shall be those prices set forth in paragraph (a) of this section and shall include (1) all commissions, brokerage and other charges, (2) war risk, marine insurance and ocean freight rates in effect on July 24, 1942.

(d) The maximum prices for raw spices and spice seeds shipped from the country of origin subsequent to the effective date of this order shall be the maximum prices for such raw spices and spice seeds set forth in paragraph (a) of this section less the difference between the highest commercial rates for war risk insurance in effect July 24, 1942, and the War Shipping Administration rates prevailing on the date of shipment from the country of origin, except that on any shipments of raw spices and spice seeds shipped from the country of origin subsequent to August 1, 1942, on which the importer has carried a War Shipping Administration war risk insurance policy, deductions must be made from the maximum prices set forth in paragraph (a) of this section equivalent to the difference between the highest commercial rate for war risk insurance in effect July 24, 1942, and the War Shipping Administration rate prevailing on the date of shipment from the country of origin.

(e) Deliveries and receipts made in accordance with the terms of any contract for raw spices and spice seeds entered into prior to the effective date of this Maximum Price Regulation No. 231 shall be exempt from the maximum prices specified in paragraph (a) of this section if the prices named in such contract do not exceed the maximum prices for such raw spices and spice seeds as would be permitted under the provisions of the General Maximum Price Regulation and notice of such transaction is given to the Office of Price Administration as provided in § 1424.10 paragraph (c).

(f) The maximum prices set forth in paragraph (a) of this section are ex-dock or ex-warehouse port of entry. (1) For raw spices or spice seeds sold "ex-warehouse," the cost of actually "putting raw spices and spice seeds into warehouse" as defined in § 1424.11 (a) (4) may be added by the seller who incurred the cost to the maximum prices for such raw spices or spice seeds are determined in this section. (2) The "delivered" price for any type of raw spices or spice seeds shall mean the maximum prices as determined under this section plus the actual transportation charges from the original port of entry or warehouse in the continental United States to the place of destination: *Provided*, That such transportation charges shall not exceed the cost of transporting an equal quantity of raw spices from the same port of entry or warehouse directly to the place of destination, computed at the lowest available transportation rate for the mode of transportation employed.

(g) Any person making sales of spices and spice seeds except mace and cardamoms contained in this schedule in lots of 25 packages or less may add to the maximum prices specified in paragraph (a) of this section an amount which shall not exceed,

7½% on sales of 5 to 25 packages inclusive.
10% on sales of 1 to 4 packages inclusive.
20% on sales of less than 1 original package.

In the case of sales of mace and cardamom 10% may be added to the maximum prices on sales of only 1 to 4 packages inclusive.

Issued this 1st day of October 1942.

§ 146.29-1 *Existing regulations inapplicable.* Section 146.02-21, § 146.03-3, § 146.06-9, §§ 146.09-1 to 146.09-6, inclusive; §§ 146.20-7 to 146.20-25, inclusive; §§ 146.20-50 and 146. 20-100, of the regulations in this part, are hereby declared inapplicable to the transportation of military explosives.

§ 146.29-2 *Scope.* The provisions of the regulations contained in §§ 146.29-1 to 146.29-50, inclusive, §§ 146.29-75 and 146.29-100, apply to the transportation of military explosives, as cargo, on board all vessels that are subject to the regulations in this part. Commercial shipments of explosives shall be tendered and transported in compliance with the applicable provisions of the regulations contained in the other sections in this part.

§ 146.29-3 *Effective date.* Under the provisions of subsection (9) of R.S. 4472, as amended, the regulations contained in §§ 146.29-1 to 146.29-50, inclusive, §§ 146.29-75 and 146.29-100; are effective immediately and shall remain in effect for the duration of the war and for six months thereafter, except as subsequently modified or rescinded.

§ 146.29-4 *Port security regulations.* The applicable provisions of the regulations entitled "Regulations for Security of Ports and the Control of Vessels in the Territorial Waters of the United States" (33 CFR, Part 6), shall unless specifically authorized to the contrary by any provision of these sections be complied with by vessels, masters, agents, or charterers thereof and by all persons engaged in handling, loading, stowing or unloading explosives.

§ 146.29-5 *Definitions.* (a) For the purposes of the regulations in this part, military explosives are defined as follows:

(b) *Military explosives.* Military explosives consist of all Class A, B, or C explosives shipped by, for or to the U. S. Navy or War Departments; or similar types of explosives shipped by, for or to the government of any country whose defense is deemed vital to the defense of the United States. These explosives are divided into two classes as follows:

(1) *Ammunition.* Ammunition consists of all types of shells, projectiles, grenades, bombs, mines, torpedoes, torpedo warheads, propellant powder charges, pyrotechnics, chemical, smoke or incendiary ammunition, or other devices containing explosives that are utilized by the armed forces in the prosecution of the war.

(2) *Explosives in bulk.* Explosives in bulk consist of any high explosives, black powder, and low explosives or smokeless powder in accordance with the definitions in §§ 146.20-1, 146.20-2, and 146.20-3 in this part, when such substances are shipped in containers other than containers such as shells, bombs, grenades, mines, torpedoes, powder bags in individual containers, cartridges, fuzes, detonators, caps, primers and similar "made up" ammunition devices.

§ 146.29-6 *Packing and marking.* Military explosives shall not be offered to vessels or accepted by vessels subject to the regulations in this part unless they are in proper condition for transportation and are packed, marked, labeled, described, certified and otherwise acceptable in accordance with the applicable provisions of the regulations in this part.

§ 146.29-7 *Stowage on board vessels.* (a) All articles of cargo classified as military explosives by the regulations in these sections shall be stowed on board a vessel in conformity with the provisions of the regulations in these sections. Mixed stowage of ammunition or explosives in bulk with other ammunition or explosives, or other dangerous articles or substances, or combustible liquids or hazardous articles shall be in conformity with the provisions of the loading and stowage chart, § 146.29-75 and other applicable specific provisions of these sections. Specifications governing construction and location of magazines and lockers and the preparation of cargo compartments to be used in the stowage of ammunition or explosives in bulk are detailed in §§ 146.29-28 to 146.29-48, inclusive.

(b) Barges engaged in the transfer of explosives between receiving points and delivery points within the harbors, bays, sounds, lakes and rivers including the explosive anchorages on the navigable waters, shall conform to the applicable provisions of §§ 146.10-1 to 146.10-50, inclusive, of the regulations in this part. Ammunition or explosives in bulk, in combustible outside packages, stowed "On deck in open" shall after loading and during transportation be covered by tarpaulins securely lashed in place.

§ 146.29-8 *Stowage of ammunition or explosives in bulk in holds containing coal.* Unless especially authorized, ammunition or explosives in bulk shall not be stowed in a hold containing coal, nor in a hold above or adjacent to one containing coal.

§ 146.29-9 *On deck stowage.* (a) Articles classified as ammunition or explosives in bulk, the stowage of which is permitted "On deck" by the regulations in this section shall be properly secured. Such security may be obtained by using existing vessel's structures such as bulwarks, hatch coamings, shelter deck and poop bulkheads as part boundaries and effectively closing in the cargo by fitting angle bar closing means secured by bolting to clips or other parts of the ship's structure. Lashing of deck stowage permitted, provided eye pads are fitted to carry such lashings. Guard rails shall not be used to secure such lashings.

(b) Bulky articles may be secured by lashing with individual wire rope lashings.

(c) Shoring of such bulky articles of cargo shall be in addition to the foregoing means of securing.

(d) Ammunition or explosives in bulk stowed "On deck" shall not be stowed within a distance of 50 feet of the top side terminus of an ash hoist or a galley or any airing spaces allotted for the use of the crew.

§ 146.29-10 *Stowage adjacent to other dangerous articles.* (a) Ammunition or explosives in bulk shall not be stowed in the same holds in which inflammable liquids, inflammable solids, or oxidizing materials or inflammable compressed gases are stowed, nor in holds below such substances when the same are stowed "On deck" nor in holds adjacent to those in which such substances are stowed.

(b) Ammunition or explosives in bulk shall not be stowed in the same hold with combustible liquids or hazardous articles.

(c) Ammunition or explosives in bulk shall not be stowed in the same hold nor in a hold below one in which corrosive (white label) liquids are stowed, nor in a hold below such substances when the same are stowed "On deck".

§ 146.29-11 *Stowage with nondangerous cargo in the same hold.* Ammunition or explosives in bulk that are stowed in the same hold with nondangerous cargo shall be protected from damage likely to be caused by heavy nondangerous cargo. Shafting, steel bar, steel shapes, pipe, heavy machinery, military vehicles (uncrated), and similar types of cargo shall, when stowed within the same hold be so isolated or dunnaged or secured as to prevent damage to ammunition or explosives in bulk or magazines containing said substances, or temporary bulkheads protecting explosive stowages, under any conditions likely to be encountered during the voyage.

§ 146.29-12 *Stowage and dunnaging of ammunition and containers of explosives in bulk.* (a) Ammunition and the containers of ammunition or explosives in bulk shall be so stowed and dunnaged as to prevent movement in any direction.

(b) Containers of ammunition or explosives in bulk marked "This Side Up" shall be so stowed.

(c) Kegs of black powder shall be stowed in an upright position, the bungs or other opening up, and each tier shall be completely dunnaged.

(d) Metal containers of smokeless powder in bulk having closure means which protrude beyond the chime or the surface of the container shall be so dunnaged as to prevent damage occurring to such closures.

(e) The uppermost tier of ammunition or containers of ammunition or explosives in bulk shall be so braced and blocked that no displacement can occur either upwardly or laterally.

(f) Containers of ammunition or explosives in bulk shall be so stowed that they shall not be liable to be pierced by the dunnaging or crushed by superimposed weight.

(g) Containers of ammunition or explosives in bulk shall not be "cant" stowed, such shall be stowed in full bearing. Broken stowage shall be dunnaged out with cordwood to provide bearing for the container to be added in the tier next above.

(h) Fixed or semi-fixed ammunition in fiber containers, crated or uncrated, may be stowed on its base or on its side. Dunnaging shall be accomplished in such manner as to bear only upon the metal part of the container. No dunnage or weight shall bear directly upon the fiber portion of the container.

(j) Propellant powder charges in uncrated containers shall be stowed on end. Dunnaging shall be acocmplished in such manner as to bear only upon the metal part of the container. No dunnage or weight shall bear directly upon the fiber portion of the container. Overstowage with other containers of propellant charges is permitted not to exceed a total of three tiers including the base tier. Each tier shall be floored off.

(k) Separate loading shells that are not boxed or crated may be stowed on their bases or on their sides.

(l) When tween deck holds of cargo vessels are utilized for the stowage of military explosives, the quantity of such military explosives stowed in a hold shall not be in excess of 45 pounds per square foot of deck space for each foot of tween deck height, i. e. a tween deck hold having a deck height of 10 feet is permitted to load up to 450 pounds per square foot of deck area.

§ 146.29–13 *Cargo working equipment.* (a) Before military explosives are loaded or unloaded on or from a vessel the master or other person in charge of the vessel is required to ascertain by examination the condition and working order of all slings, crates, baskets, boxes, chutes, mattresses, tackle and other equipment to be used in the transfer operation.

(b) Any and all equipment which in the judgment of the master or other person in charge of the vessel is not in safe working condition shall be rejected and he shall prohibit its use and take such precautions as he may deem necessary to be certain such rejected equipment is not used for the purpose of loading or unloading explosives. The master or other person in charge of the vessel shall keep watch of all equipment used during the transfer of explosives and if any part of the equipment shows any defect or is damaged in use, work shall be stopped and the damaged or defective equipment repaired or replaced before permitting the loading or unloading to continue.

(c) This inspection of cargo working equipment shall apply to the vessel's equipment and to stevedores or other contractor's equipment.

§ 146.29–14 *Lights, tools and equipment.* (a) No artificial light except electric lights or electric lamps or flood lights shall be used while loading or unloading military explosives. Such light fixtures shall not be used unless protected against accidental breakage by metal guards. Portable electric lights shall be fitted with stout guards protecting the bulb. Wire of such lights shall be sound and show no evidence of liability to short circuit.

(b) Flashlights of a non-spark type shall be provided by the vessel owner or operator for persons required to enter holds in which explosives are stowed.

(c) Members of the crew of the vessel and other persons permitted on board the vessel to aid and assist in loading or unloading military explosives, shall not be permitted to have or carry on their persons, firearms, matches, knives, bale hooks, metallic tools or personal packages of any description. Lunch boxes, pails, or thermos bottles shall not be brought onto a vessel unless such have been examined and passed by the Coast Guard detail. Lunches shall not be eaten in a hold of a vessel.

(d) Persons engaged in loading explosives shall not wear boots or shoes shod or strengthened with nails or other metal unless such boots or shoes are covered with a nonsparking material.

§ 146.29–15 *Fires and fire protection.* (a) No unnecessary fire shall be permitted on docks, lighters or vessels while loading or unloading military explosives.

(b) Fires deemed necessary must be properly safeguarded and be in constant charge of some competent person assigned for that purpose by the master or person in charge of the vessel, for the entire period of cargo transfer.

(c) Barges, lighters, towboats and other types of vessels engaged in the handling and transfer of military explosives, and equipped with means for heating, cooking, lighting or power involving use of smoke pipes shall have such smoke pipes protected by spark screens. Insofar as practicable such barges, lighters, towboats and other types of vessels shall not come alongside a vessel loading or discharging military explosives opposite the area where hatches are open to receive cargo. (See § 146.29 (f)).

(d) Welding or cutting operations, involving the use of open flame or arc shall not be undertaken on a vessel having explosives on board except upon special permission of the captain of the port.

§ 146.29–16 *Smoking.* Smoking is prohibited on or near any vessel loading or unloading explosives. "No Smoking" warning signs shall be posted during operations of loading and unloading such cargo. One such "No Smoking" sign shall be located on the pier at a safe distance from the vessel when such loading or unloading is taking place at a pier.

§ 146.29–17 *Liquor or drugs.* No person who, in the judgment of the master, person in charge of the vessel or the officer in charge of the Coast Guard detail, may be considered as being under the influence of liquor or of drugs shall be permitted on board a vessel while operations involving the loading, stowage, unloading or transportation of explosives are being carried on.

§ 146.29–18 *Handling and slinging of explosives.* (a) All ammunition and explosives in bulk must be handled carefully. They shall not be thrown, dropped, rolled, dragged, or slid over each other or over the decks. The provisions of the table in § 146.29–100 with reference to handling shall be observed.

(b) In transferring ammunition or explosives in bulk from a pier or another vessel to the receiving vessel, or from a vessel to a pier, the packages may be handled by hand, mechanical hoist or where permitted by the regulations in this section a specification chute and mattress may be used. (See § 146.09–11 and § 146.09–12, Specification of chute and mattress.) A chute shall not be used when the difference in elevation between the two vessels or between a vessel and the loading dock would result in imparting dangerous shocks to the packages by reason of the angle of elevation. When loading or unloading by mechanical means, all ammunition or explosives in bulk shall be handled in the type equipment as specified for the various classes of explosives in the tables, § 146.29–100. The maximum load handled in trays or rope net slings per draft shall not exceed 2,400 pounds. Containers of explosives shall be arranged on trays so that no portion of any container overhangs the ray. For trays provided with sideboards, packages of explosives shall not extend above the sideboard of the crate except packages standing on end may extend above such sideboard, provided the extension does not exceed one-third of the length of the package. Rope net slings shall be so loaded that when lifted a minimum displacement of packages shall occur and the sling shall completely contain the entire load. Explosives shall be hoisted and lowered carefully onto a mattress. Ammunition in fiberboard containers shall not be slung in rope nets. Handles or beckets on ammunition packages shall not be used for slinging purposes.

(c) Blasting caps, detonating fuzes fulminate of mercury and other initiating or priming explosives as defined in the regulations in this part shall be considered as constituting a distinct class of dangerous explosives, and because of the hazard involved they shall be handled with extreme care (See Class VIII, § 146.29–100).

(d) "Cant" or barrel hooks shall not be used for raising or lowering a barrel, drum or other container of military explosives. Metal bale hooks shall not be used in handling packages of such explosives.

§ 146.29–19 *Loading military explosives and other cargo simultaneously.* (a) Ammunition or explosives in bulk shall not be loaded in the same hatch at the same time as other cargo is being worked in any of the holds serviced through said hatch.

(b) When explosives in bulk are stowed in a hold below one in which other cargo is being worked, the tween deck hatch dividing the two holds will have all of its covers securely in place.

(c) Ammunition or explosives in bulk may be loaded in a hold before or after other cargo, provided that all precautions are taken to assure full protection to the explosives against the hazard of articles being dropped from the sling. When possible tween deck hatches should be partially covered to assure such protection.

(d) Padeyes, anglebars or other devices for securing deck cargo shall not be welded to the deck of a vessel in which military explosives are stowed except upon special permission of the captain of the port and then only in the presence of an officer of the Coast Guard detail and in conformity with said officer's instructions.

§ 146.29–20 *Fire hose.* During the loading of military explosives the vessel shall "run out" at least two lines of hose on the weather deck with nozzles adjacent to the hatch (insofar as possible one line shall be to starboard and one to port or one forward and one aft of the hatch). Sufficient hose shall be led out adjacent to the hatch to permit ready lowering of the hose into the hold. The fire line valve shall remain "cracked open" (except in freezing weather) so casual observation may indicate water is available.

§ 146.29–21 *Damaged or leaking containers of explosives.* (a) Any container of explosives showing evidence of damage or leaking of a liquid ingredient shall not be accepted for transportation or storage on board any vessel.

(b) Any container of an explosive when offered for transportation or storage, showing excessive dampness or which is moldy or shows outward signs of any oil stain or other indications that absorption of the liquid part of the explosive is not perfect, or that the amount of the liquid part of the explosive is greater than the absorbent can carry, shall not be accepted for transportation. The shipper must substantiate any claim that a stain is due to accidental contact with grease, oil or similar substance. In case of doubt the container shall be refused.

§ 146.29–22 *Defective ammunition.* Ammunition found to be defective while being unloaded from a barge, freight car, or other vehicle, shall not be placed on board a vessel. If found to be defective while on board the vessel, it shall, if at all possible, be removed from the vessel to an isolated location as quickly as possible.

§ 146.29–23 *Recoopering damaged packages.* Defective packages shall not be recoopered in the hold of a vessel. Such packages shall not be recoopered elsewhere on board the vessel except upon and under conditions authorized by the captain of the port.

§ 146.29–24 *Permit to load explosives.* The owners, charterers, agents or master of a vessel or other person shall not accept on board a vessel any military explosives, as cargo, until a permit authorizing such loading has been granted by the captain of the port.

§ 146.29–25 *Explosives loading detail.* (a) There will be assigned to every vessel, subject to the regulations in this part, loading or discharging military explosives at an explosives anchorage, explosives loading pier or an ammunition loading pier, a Coast Guard detail to supervise such loading or discharge. The owners, agents, charterers, master or person in charge of the vessel and all persons engaged in the handling, loading and stowage of the military explosives shall obey all orders, oral or written, that are given by the person in charge of said detail.

(b) A vessel, subject to the regulations in this part, loading or discharging military explosives at a Navy or Army depot, arsenal, navy yard, port of embarkation, or other facility under the direct control and operation of the Navy or Army shall apply to the captain of the port for a permit for such loading. A Coast Guard detail will be assigned to such a vessel unless the commanding officer of such Navy or Army facility declines the detail.

§ 146.29–26 *Personnel identification.* (a) The provisions of this section shall apply to vessels loading or discharging military explosives in accordance with the provisions of § 146.29–25 (a).

(b) No person shall enter upon a vessel loading or unloading military explosives unless such person first identifies himself to the satisfaction of the Coast Guard detail.

(c) Every person that is permitted to enter into a magazine or a hold or compartment of a vessel wherein military explosives are being handled or stowed shall provide the Coast Guard representative with his name and address and the name and address of the firm employing him, furnishing satisfactory identification to substantiate such information.

(d) A person who, for any reason, is requested to leave a vessel loading or discharging military explosives by the person in charge of the Coast Guard detail shall immediately obey the request and not return until permission is granted.

§ 146.29–27 *Ship's officer present.* (a) During the entire operation involving the building of a magazine, the preparation of holds, and the actual handling and stowage of military explosives, it shall be the responsibility of the master of the vessel to assign a deck officer of the vessel who shall be in constant attendance. It shall be this officer's responsibility to see that the provisions of the regulations in this part, insofar as such provisions apply to the vessel, are complied with.

(b) It shall be this officer's further responsibility at the end of the work shift to see that all means of access to the partially loaded holds are closed off in such a manner as to provide the maximum safety and protection for the explosives stowed within the hold.

§ 146.29–28 *Constructing magazines.* All work in connection with the constructing of a magazine, or other conditioning of holds, decks, or hatches shall be completed before the actual loading of ammunition of bulk explosives is undertaken.

§ 146.29–29 *Preparation of magazines, decks, hatches and holds for handling military explosives.* (a) The floors of all magazines and holds shall be cleared of all rubbish, discarded dunnage and be swept broom clean before commencing to load any ammunition or explosives in bulk. Bilges shall be examined and any residue of previous cargo removed therefrom.

(b) All decks, gangways, and hatches over or through which ammunition or explosives in bulk must be passed or handled in loading or unloading, shall be freed of all loose material and shall be swept broom clean both before and after loading or unloading.

(c) The hatches or cargo ports opening into a compartment in which ammunition or explosives in bulk are stowed shall be kept closed at all times during loading and unloading of the compartment. When closed, wooden hatch covers shall be covered with tarpaulins.

(d) No debris of any description shall be permitted to stand on the weather deck adjacent to a cargo hatch in which ammunition or explosives in bulk are being worked.

(e) Hatch covers shall, where possible, be stowed on the opposite side of the hatch from that over which the ammunition or explosives in bulk are being worked. If this is impossible the hatch covers that are stowed on the working side shall be so stowed as to form as level a platform as possible.

(f) During the time a hatch is open and military explosives are being worked or stowed, the vessel shall display two red flags from the rails or bulwarks on each side of the vessel to indicate explosives are being loaded and the hatches are open. The vessel's officer on duty supervising the loading of explosives shall warn the masters of other vessels coming alongside and the operator of any dock equipment (capable of producing sparks) to stay clear of the area between the flags insofar as is practicable. The flags shall be not less than 4 square feet in area and mounted horizontally at least two feet clear of the ship's side, and spaced at least ten feet forward and ten feet aft of the open hatch or hatches.

§ 146.29–30 *Location of magazines and ammunition stowage.* (a) A cool location being an important factor, magazines shall be built and ammunition stowed in an authorized location in accordance with the following factors in the order listed.

(1) A tween deck hold, preferably a lower tween deck.

(2) A lower hold.

(3) In the square of a hatch. If in the square of a weather deck hatch, having wooden hatch covers, a steel plate of not less than 5 pounds weight per square foot, or other approved protection adequately secured in place, shall be fitted over the top side of the wooden hatch covers.

(4) A shelter deck in a location as far removed from uptakes or engine casing as possible.

(5) A forecastle, poop or permanent deck house provided the space is ventilated and does not contain any "In use" crew accommodations, nor vessel stores and can be closed off from traffic while at sea.

(6) Insulated spaces normally comprising refrigerator spaces may be used for the stowage of all classes of ammunition or bulk explosives, except chemical ammunition, provided all regulations relative to stowage of explosives with other dangerous articles of cargo are observed and the spaces may be ventilated sufficient to provide a temperature consistent with the temperature of other holds of the vessel. When such spaces are fully ceiled the entire compartment will be considered as a magazine, however, any pipes within the compartment shall be protected by horizontal cargo battens of a size not less than commercial 2″ x 4″, spaced not more than 12″ apart, center to center and secured to 4″ x 6″ uprights spaced not more than 36″ apart. Refrigerator spaces, the floors of which are lined with lead, shall not be used as a stowage for picric acid in bulk.

(7) Explosives in bulk and Classes VIII, X and XI ammunition shall not be stowed immediately below the principal bridge. At least one compartment of normal deck height shall intervene between the bridge and the stowage of such explosives in bulk.

(8) Explosives in bulk shall not be stowed in a compartment immediately below or adjacent to crew accommodations.

(9) Classes VIII, X, or XI ammunition shall not be stowed in a compartment immediately below or adjacent to crew accommodations.

(b) When it is necessary to construct a magazine or to stow ammunition adjacent to engine or boiler room bulkheads, uptakes, casings or galley or coal bunker bulkheads, the following provisions shall be complied with:

(1) A tight wooden bulkhead shall be constructed at least one foot off the engine room, boiler room, galley or coal bunker bulkheads or the engine or boiler room uptakes or casings.

(2) Construction shall be of commercial 2″ boarding secured on 4″ x 6″ uprights if constructed in a tween or shelter deck or 6″ x 6″ uprights if constructed in a lower hold. Spacing of uprights shall not exceed 30″ in a tween deck or 24″ in a lower hold. Horizontal bracing shall be fitted between temporary and permanent bulkheads.

(3) Temporary bulkheads shall be constructed with smooth side facing the stowage of the ammunition.

(4) Nails shall be set below the surface of the boarding.

(c) A magazine shall not be constructed in bearing with the forward collision bulkhead.

(d) Stowage provided for ammunition and explosives in bulk shall be dry and should be well ventilated. Ventilator heads fitted to systems leading into spaces in which military explosives are stowed shall be covered with two layers of wire screen of not less than 20 x 20 mesh.

§ 146.29–31 *Types of stowage.* The types of stowage prescribed for military explosives are described as follows:

Magazine stowage "A."
Magazine stowage "B."
Ammunition stowage.
Chemical ammunition stowage.
Pyrotechnic stowage.
Detonator stowage.
Bomb fin stowage.

§ 146.29–32 *Allocation of stowages.* Ammunition or explosives in bulk that are tendered to a vessel for transportation, as cargo, shall be stowed on board the vessel utilizing the type of stowage authorized for the particular ammunition or explosives in bulk by the provisions of the tables in § 146.29–100.

§ 146.29–33 *Magazine stowage "A."* Explosives or ammunition in bulk requiring Magazine stowage "A" shall be stowed in a magazine constructed in accordance with specifications for Type "A" magazine shown in § 146.29–40.

§ 146.29–34 *Magazine stowage "B."* Explosives or ammunition in bulk requiring Magazine stowage "B" shall be stowed in a magazine constructed in accordance with specifications for Type "B" magazine shown in § 146.29–41.

§ 146.29–35. *Ammunition stowage.* Ammunition requiring ammunition stowage shall be stowed in accordance with the specifications for such stowage as set forth in § 146.29–42.

§ 146.29–36 *Chemical ammunition stowage.* Chemical ammunition shall be stowed in accordance with the specifications for such stowage as set forth in § 146.29–43.

§ 146.29–37 *Pyrotechnic stowage.* Pyrotechnic ammunition shall be stowed in accordance with the specifications for such stowage as set forth in § 146.29–44.

§ 146.29–38 *Detonator stowage.* Detonators, primers, fuzes, blasting caps and similar types of ammunition devices shall be stowed in accordance with the specifications for such stowage as set forth in § 146.29–45.

§ 146.29–39 *Magazine, Type A.* (a) The following regulations shall be observed in the construction of a magazine required for "Magazine A" type of stowage.

(b) A type "A" magazine shall be located in the vessel in conformity with the provisions of § 146.29–30.

(c) A type "A" magazine shall be so positioned that the door to such magazine is easily accessible from a hatchway.

(d) A type "A" magazine may be constructed of wood, using clean undressed lumber. Sizes as given in the specifications are minimum. Increased sizes may be used if desired. Nails used for fastening lumber shall be copper, cement-coated or galvanized. Copper nails shall be driven flush, cement-coated and galvanized nails shall be set below the surface of the lumber.

(e) When a Class A magazine measures more than 40′ in any direction, a division bulkhead shall be fitted within the magazine as near half length as practicable, extending from the deck to at least the top of the stowage. Such division bulkhead shall be constructed to the same scantlings as the sides of the magazine, except the boarding may be spaced not more than 6″ apart alternately on both sides of the uprights. This bulkhead shall be constructed before loading commences and care shall be exercised that nail points do not protrude beyond the surface of the boarding.

§ 146.29–40 *Specifications Type A magazine.* (a) Magazines may be constructed of steel or wood.

(b) Magazines constructed of steel shall have the whole of the interior thoroughly protected by wood dunnage of a minimum thickness of ¾″. This lining may be installed during the progress of the stowage. Metal stanchions within the magazine shall be boxed with wood of a thickness of not less than ¾″. Bulkhead stiffeners or other structural members extending into the stowage space shall not be protected by dunnaging but shall be completely boarded over. When

bare steel decks or tank tops are utilized to form the floor of a magazine, a wooden floor consisting of at least two layers of commercial 1″ thick dunnaging shall be laid, the top course being laid crosswise to the lower course. When steel decks or tank tops are originally fitted with a wood flooring or are ceiled, it shall only be necessary to fit one course of dunnage. All flooring formed by these methods shall be laid with commercial 1″ lumber of widths not less than 6″, fitted as close as possible, edge to edge, and butt to butt.

(c) Magazines constructed of wood shall comply with the following specifications: The bulkheads forming the sides and ends shall be constructed of commercial 1″ lumber, or of ¾″ tongue and groove sheathing, secured to uprights of at least a 3″ x 4″ size, spaced not more than 18″ apart and secured, at top, bottom and center with horizontal bracing. When a magazine is constructed as a permanent compartment in the vessel, increased size and finish of lumber and other methods of fastening may be used provided such fastenings are recessed below the surface of the boarding to avoid projections within the interior of the magazine. All boarding shall be fitted and finished so as to form a smooth surface within the interior of the magazine. Construction shall be such as to separate all containers of explosives from contact with metal surfaces of the structure of the vessel. When a metal stanchion, post or other obstruction is located within the interior area of the magazine, such obstruction must be completely covered with wood of a thickness of at least ¾″, secured in place with nails or screws. When screws are used for fastening, the screw heads shall be countersunk below the surface of the wood. When nondangerous cargo is to be stowed adjacent to the exterior of the magazine, wooden cargo battens of not less than commercial 2″ x 4″ size, spaced not less than 12″, center to center shall be fitted horizontally to the uprights forming the frame of the magazine. The floor of the magazine shall conform to the provisions of paragraph (b) of this section.

(d) Uprights shall not be stepped directly onto a metal deck. A 2″ x 4″ bearer to carry the uprights shall be laid upon the metal deck. A 2″ x 4″ header shall be fitted against the underside of an overhead deck to receive the tops of uprights. Tops of uprights fitted against channel beams may be wedged direct to the beam with 2″ x 4″ spacers fitted between. Care shall be taken in securing upright framing that no nails penetrate to the interior of the magazine.

(e) A magazine constructed in accordance with the provisions of paragraphs (b) or (c) of this section, in which it is proposed to stow containers of explosives within 12″ of the overdeck beams, or hatch coaming, shall have such deck beams and coaming sheathed with wood in a manner similar to that required for metal stanchions, posts or other obstructions by the provisions of paragraph (c) of this section.

(f) The door of the magazine shall be of substantial construction fitted reasonably tight into its jamb. The door may be secured in place by the use of exterior battens and wedges.

§ 146.29–41 *Specifications Type B magazine.* (a) This type of magazine is for the stowage of ammunition or explosives in bulk designated as requiring magazine stowage "B" by the provisions of the tables. (§ 146.29–100.)

(b) When an entire compartment or hold is utilized for the stowage of explosives that are required by the regulations in this part to be given magazine stowage "B", the entire compartment may be considered as a magazine. The frames and bulkhead stiffeners protruding into the compartment shall be effectively boarded over to provide a smooth surface for the stowage of the explosives. This boarding need not be applied to the overdeck beams when the explosives are not stowed closer than 12 inches of such beams. If explosives are stowed up to the overdeck beams and into the square of the hatch formed by the coaming, such overdeck beams including the hatch coaming shall be effectively boarded over. The installation of such boarding shall be in accordance with the specifications for the construction of a Type "A" magazine, except, when cargo battens are fitted to the vessel's frames or bulkhead stiffeners, such boarding may be secured vertically using the battens as an anchorage for the necessary securing means, and may be spaced not more than 6″ apart. Permanent bulkheads forming a boundary of the compartment or hold that do not carry stiffeners or other structural projections greater than those formed by plate laps or bounding angles, on the side facing the explosives' stowage, need not be sheathed with wood but in lieu thereof dunnaging, consisting of commercial 1″ boards may be laid vertically against such bulkhead as the stowage of the explosives progresses. This boarding shall be laid edge to edge. Deep frames, girders or webs extending inboard of the line formed by the cargo battens or dunnaging shall be sheathed with wood.

(c) When part of a compartment or hold is utilized for the stowage of ammunition or explosives in bulk that are required to be given magazine stowage "B", the remaining portion of the compartment or hold may be utilized for the stowage of general cargo, provided no article of such general cargo is described by the regulations in this part as dangerous, and provided further that a temporary wooden bulkhead is constructed in the compartment or hold to completely divide and protect the stowage of ammunition or explosives in bulk and the stowage of the nondangerous general cargo. The scantlings and construction of such temporary bulkheads shall be as follows: For tween deck compartments or holds, construction shall be of commercial 2″ boarding, secured on 4″ x 6″ uprights spaced not to exceed 30″ center to center. For lower holds construction shall be of commercial 2″ boarding secured on 6″ x 6″ uprights spaced not more than 24″ center to center. Random widths of boarding may be used. The boarding will be applied close fitted, edge to edge and butt to butt to form a smooth surface facing the explosive stowage. If copper nails are used they shall be driven flush with the surface of the wood. Other types of nails shall be set below the surface of the wood. Frames, beams, girders, webs or stanchions within the area used for the stowage of explosives shall be boarded over. The uprights forming the frame of the temporary bulkhead shall, on the general cargo side, be fitted with cargo battens of a commercial 2″ x 4″ size spaced 12″ center to center to a height equal to the height of the general cargo stowed within the hold. One or more doors, of substantial construction fitted reasonably tight, shall be built into this bulkhead. The door may be secured in place by the use of exterior battens and wedges.

§ 146.29–42 *Ammunition stowage.* Ammunition that is authorized to be given ammunition stowage by the provisions of the tables (§ 146.29–100), shall be stowed in a location selected in accordance with the procedure as set forth in § 146.29–30. Dunnage flooring shall be laid over metal decks or tank tops. Dunnaging shall be fitted to insure that no packages or articles of ammunition directly contact metal parts of the vessel. Tiers of ammunition will be floored off with wood dunnage as required. Ammunition shall not be overstowed unless such overstowing is permitted by the provisions of the regulations in these sections.

§ 146.29–43 *Chemical ammunition stowage.* Chemical ammunition, Class XI, shall be stowed in a deep tank or No. 1 lower hold. When stowed in a deep tank pump suctions shall be effectively sealed off to prevent the escape of any leakage which may take place. When stowed in No. 1 lower hold the hatch covers, ventilators and pump suction shall be effectively sealed off to prevent the escape of any leakage which may take place. Before entering a deep tank or a No. 1 lower hold containing chemical ammunition the air inside the compartment must be tested by competent personnel to ascertain if leakage has taken place. If leakage has occurred the operation of removing the explosives shall be conducted by skilled personnel, preferably representatives of the Chemical Warfare Service. When the quantity of chemical ammunition to be stowed on board the vessel does not justify the use of a deep tank or No. 1 lower hold, a suitable tween deck space shall be selected and the ammunition stowed in a portable magazine especially constructed to prevent any leakage from the ammunition escaping outside of the magazine. The magazine shall be located at least 8′ from the ship's side, the space between being stowed with suitable nondangerous cargo of a type not subject to contamination. No other explosives shall be stowed in the same tween deck hold.

§ 146.29-44 *Pyrotechnic stowage.* (a) Pyrotechnic ammunition shall be given ammunition stowage as described in § 146.29-42: *Provided, however,* Such articles shall not be stowed in a compartment in which any other explosives (except Class I ammunition) is stowed. Pyrotechnics shall not be overstowed with other cargo. The location of this type stowage shall be away from heat and in a dry area so protected as to insure no moisture contacting the packages.

(b) For limited quantities of pyrotechnic ammunition an alternate stowage may be utilized consisting of stowing in metal lockers or portable magazines so located as to conform with the provisions of paragraph (a) of this section as regards other explosives, overstowage, heat and moisture.

§ 146.29-45 *Detonator stowage.* (a) Stowage of Classes III, VI and VIII types of ammunition shall be in either a magazine type "A" or a portable magazine.

(b) The location of a magazine allotted to the stowage of these classes of ammunition is restricted to a hold or compartment in which no other ammunition (except Class I ammunition) or explosives in bulk, inflammable liquids, inflammable solids, oxidizing materials, corrosive liquids, compressed gases, or hazardous articles are stowed. This ammunition when stowed within the magazine shall not be within 8 feet of the vessel's side.

(c) No explosives in bulk shall be stowed in a magazine that is being used for detonator stowage.

(d) No ammunition other than Classes I, III, VI and VIII shall be stowed in the magazine being used for detonator stowage.

(e) The stowage of ammunition of Classes III, VI and VIII and the stowage of any other class of ammunition (except Classs I ammunition) on board the same vessel, shall be separated as follows:

(1) With a permanent steel deck or bulkhead intervening, the separation shall not be less than 10 feet in any plane.

(2) Without a permanent steel deck or bulkhead intervening, the separation shall not be less than 25 feet in any plane.

(f) The stowage of ammunition of Classes III, VI, and VIII and the stowage of any explosives in bulk on board the same vessel, shall be separated as follows:

(1) With a permanent steel deck or bulkhead intervening, the separation shall not be less than 25 feet in any plane.

(2) Without a permanent steel deck or bulkhead intervening, the separation shall not be less than 40 feet in any plane.

(g) When a portable magazine is used for detonator stowage, such magazine may be stowed in the square of a weather deck hatch, provided the hatch covers are of steel, or if of wood, they are covered with a steel plate of not less than 5 pounds weight per square foot, or other approved protection, and adequately secured in place. The provisions of paragraphs (b), (c), and (d) of this section shall also be observed if such a location is utilized.

(h) Upon approval by the captain of the port a portable magazine laden with not more than 1000 fuzes of these classes may be stowed in an isolated cabin or a steel deckhouse secure from aircraft machine gun fire and not subjected to casual contact by persons on board the vessel.

(j) Barges having explosives in bulk laden thereon shall not have any Class III, VI, or VIII ammunition on board, at the same time, unless the separations required by the provisions of (f) of this section can be maintained.

(k) Barges having ammunition laden thereon shall, when having any ammunition of Class III, VI or VIII on board at the same time, maintain the maximum separation possible. If this be less than 10 feet with no deck or division bulkhead intervening, a barrier consisting of at least 2″ wooden plank on 4″ x 6″ framing shall be imposed between the stowages.

(l) Except when circumstances require a different procedure these classes of ammunition shall be the last explosives to be loaded on board the vessel.

(m) When loading at an ammunition loading pier, these articles shall not be brought alongside in any barge containing smokeless powder propellant charges for separate loading ammunition.

§ 142.29-46 *Portable magazine.* Portable magazines shall be of a size not greater than 100 cubic feet capacity. They may be constructed of wood or of metal lined with wood. When constructed of wood, the frame bottom and siding shall be not less than the scantling requirements as given for a Type "A" magazine in § 146.29-40. A strong close-fitting, hinged cover reinforced with wooden battens (at least 1¼″ thick by 5″ wide) shall be fitted. Effective securing means shall be provided for the cover. At least four (4) padeyes with lashing rings, not less than 3″ I. D. x ⅜″ wire, shall be permanently attached to the magazine. When constructed of metal, the minimum thickness shall be not less than ⅛″. The interior shall be lined with wood sheathing of a minimum thickness of ¾″. Securing means shall be countersunk below the surface of the sheathing. Effective means shall be provided for securing the cover in place. Lashing rings as detailed above, or other methods for securing the stowage of the magazine shall be provided. All inner surfaces of the magazines shall be smooth and free of nails, screws, or other projections. Portable magazines shall carry the legend:

"Inflammable—Keep Lights and Fire Away"

§ 146.29-47 *Bomb-fin assemblies and fuzes.* (a) The stowage of bomb-fin assemblies (Bomb tail assemblies) shall be as follows:

(b) Bomb-fin assemblies uncrated, crated, boxed or in metal containers without the bomb fuze being included in the packing constitute an inert, nondangerous cargo and may be stowed in any suitable location on board the vessel.

(c) Bomb-fin assemblies, crated, boxed or in metal containers with the bomb fuze included within the packing may be stowed in the same compartment, hold or magazine with demolition bombs or fragmentation bombs. They shall not be stowed with smokeless powder in bulk, propellant powder charges for separate loading ammunition nor with any Class IX or XI types of ammunition or explosives in bulk.

(d) Bomb-fin assemblies, as described in paragraph (c), may be stowed in a hold or compartment with ammunition other than described in paragraph (c).

§ 146.29-48 *Ventilation of magazines.* A magazine that is not fitted with ventilating ducts to the atmosphere shall be ventilated by omitting the top course of boarding on the sides of the magazine to provide a clear space at least 1″ and not more than 6″ below the lower flange or toe of the deck beam within the compartment or hold in which the magazine is constructed. Cowl type ventilators of systems feeding directly into a magazine or a hold in which explosives are stowed shall be covered with a double layer of wire screen of not less than 20 x 20 mesh at the weather end of the cowl. This wire may be attached by folding it back along the cowl and securing the same in place by a sufficient serving with light line or wire to insure a positive closure.

§ 146.29-49 *Authority to load—loading facilities and use.* (a) For the purposes of the regulations contained in these sections, the explosives anchorages, explosives loading piers and ammunition loading piers which are under the provisions of "Regulations for Security of Ports and the Control of Vessels in the Territorial Waters of the United States" (33 CFR, Part 6), authorized to be used in loading or unloading explosives are identified as follows:

(1) *Explosives anchorages.* Explosives anchorages are those areas upon the navigable waters that are designated as areas within which a vessel may anchor or moor to receive or discharge cargo consisting of explosives.

(2) *Explosives loading piers.* Explosives loading piers are those piers designated by a captain of the port to which a vessel may moor to receive or discharge cargo consisting of explosives.

(3) *Ammunition loading piers.* Ammunition loading piers are those piers designated by a captain of the port at which a vessel may moor to accept or discharge cargo consisting of military ammunition.

(b) No ammunition or explosives in bulk shall be loaded on or discharged from a vessel except at one of the authorized locations shown in (a): *Provided*, the vessel is authorized by the provisions of § 146.29-100 to load or unload, at the anchorage or pier being utilized, the particular class or type of ammunition or explosives in bulk involved: *Provided, further,* That the handling and stowage of the ammunition or explosives in bulk is in accordance with the applicable provisions of the regulations in this part.

(c) (1) Explosives prohibited by subsection 3, of R.S. 4472, as amended, shall not be accepted by any vessel.

(2) A passenger vessel shall not accept any Class A explosives for transportation as cargo.

(3) A passenger vessel shall not accept for transportation as cargo the following Class B explosives: Ammunition for cannon with empty projectile, ammunition for cannon with sand-loaded projectile, ammunition for cannon with solid projectile, ammunition for cannon without projectile or smokeless powder.

(d) A vessel may load or discharge military explosives at any Navy or Army depot, arsenal, navy yard, port of embarkation or other facility under ~~the~~ direct control an doperation of the Navy or Army; provided a permit authorizing such loading has been granted by the captain of the port (See §§ 146.29-24 and 146.29-25).

(e) In an emergency arising by reason of military necessity or casualty, a vessel may, upon authorization by a captain of the port, load or discharge military explosives in any location authorized by said captain of the port.

§ 146.29-50 *Statements of characteristic properties and hazards.* In the second, fourth and seventh columns of the tables, § 146.29-100, are statements in italics setting forth certain charcteristics and hazards of the substances or articles listed therein. It is not intended, nor shall it be assumed that these statements set forth all of the characteristic properties or hazards of the particular substance or article and such statements as are shown are informative only.

NOTE: This chart does not list every type of military explosive. For types not named hereon consult description shown by classes in the tables § 146.29–100. After identifying such unlisted explosive in bulk or ammunition, according to its class, it may then be stowed in the same manner as a similar type that is shown hereon.

CHART REFERENCES

I May be stowed with mortar-smoke shell.
II Wet nitrocellulose (collodion cotton), wet nitroguanidine and wet nitrostarch may be stowed in the same magazine.
III White or yellow phosphorus in drums shall not be stowed with chemical ammunition.
IV Chemical ammunition (non-explosive) may be stowed with chemical ammunition (explosive).
V See § 146.29–47 for additioanl provisions re stowage of bomb fuzes packed with bomb-fin assemblies.

§ 146.29–100 *Military ammunition and explosives in bulk*

Class	Description	Marking	Hazard	Stowage	Loading	Handling
Class I "AMMUNITION"	Small-arms ammunition and mechanical time fuzes without boosters. Includes all fixed ammunition such as is used in pistols, revolvers, rifles, shot guns, machine or antiaircraft guns (with non-explosive bullets) and mechanical time fuzes without boosters. For small-arms ammunition with explosive bullets See: Class IV.	"Small-arms ammunition." "Mechanical time fuzes"	*Involvement in a fire*	Any compartment in which no inflammable liquids, inflammable solids or corrosive liquids are stowed. May be overstowed.	Any location in any area	Observe markings on packages to be certain that *no* "Small-arms ammunition with explosive bullets" is included.

§ 146.29–100 *Military ammunition and explosives in bulk*—Continued

Class	Description	Marking	Hazard	Stowage	Loading	Handling
Class II "EXPLOSIVES IN BULK." "AMMUNITION"	Smokeless powder in containers. In (bulk.) Smokeless powder for small arms. (In bulk.) Packed in boxes, powder cans, or other containers.	"Smokeless powder for cannon." "Smokeless powder for small arms."	*Loose powder may be ignited by spark or friction. Burns rapidly and with intense heat. Burning powder in a ship's hold may explode. May become unsafe if subjected to high temperature.*	TYPE "A" MAGAZINE Shall not be overstowed with any other kind of cargo. Shall not be stowed in the same magazine with other ammunition or explosives unless the two stowages are separated by a partition bulkhead.	Explosives anchorage Explosives loading pier.	Do not chute or drag packages. Do not accept damaged packages. In event a package is damaged, carefully sweep up any powder. Do not attempt to recooper the package. Powder may be disposed of in deep water.
	Smokless powder propellant charges. "Made up" charges in cloth powder bags in outside metal or fiber pack containers.	"Smokeless powder for cannon."	*Loose powder may be ignited by spark or friction. Burns rapidly and with intense heat. Burning powder in a ship's hold may explode. May become unsafe if subjected to high temperature.*	TYPE "A" MAGAZINE. Shall not be stowed in the same magazine with other ammunition or explosives unless the two stowages are separated by a partition bulkhead. Shall not be overstowed with any other kind of cargo. Fiber pack containers shall be stowed on end.	Explosives anchorage Explosives loading pier. Ammunition loading pier.	Do not chute or drag packages. Do not accept damaged packages. In event a package is damaged, carefully sweep up any powder. Do not attempt to recooper the package. Powder may be disposed of in deep water.
"AMMUNITION"	Pyrotechnics, includes all types of military pyrotechnics except photoflash bombs and flashlight powder in bulk. Photoflash bombs are included in Class X. Flashlight powder in bulk is included in Class IX.	"Fireworks"	*The principal hazard is involvement in a fire. Some pyrotechnics may ignite spontaneously if exposed to moisture or high temperatures; but under these conditions, most types tend to become less sensitive and more difficult to ignite. Airplane flares involved in a fire may explode, most other types burn with intense heat and without serious explosion.*	AMMUNITION STOWAGE. Shall be stowed away from heat and in a dry location. Protected against moisture contacting the stowage. Shall not be stowed in a compartment with any other explosives except small-arms ammunition and mechanical fuzes without boosters. Shall not be overstowed with any other kind of cargo.	Explosives anchorage Explosives loading pier. Ammunition loading pier.	Do not load during rainy weather unless complete protection against moisture coming in contact with the packages is provided. Handle carefully. Do not subject packages to shock. Boxes shall not be dropped, thrown or loaded by chute. In loading over ship's side use crate or tray.
"AMMUNITION"	Chemical ammunition filled with phosphorus — When shipped assembled with their ignition elements, bursting charges, detonating fuzes or explosive components. (For such ammunition when shipped without ignition elements, bursting charges, detonating fuzes or explosive components see Section 146.22–100) *This type ammunition includes, but is not limited to: 75-mm. artillery shell. 155-mm. artillery shell. 8-inch artillery shell. 81-mm. mortar shell. 4-inch chemical mortar shell. 4.2-inch chemical mortar shell. 8-inch livens projector shell. 5-pound aviation bomb. 25-pound aviation bomb. 50-pound aviation bomb. 100-pound aviation bomb.*	"Explosives projectiles" or "Explosive bombs."	*The most characteristic property of white phosphorus is that of spontaneously igniting upon exposure to air, burning with an intensely hot flame and giving off large volumes of white smoke. The fumes are highly discomforting. Burning phosphorus gives off phosphorus oxide which is toxic upon sustained exposure thereto. Phosphorus is intensely poisonous when taken internally. It becomes a liquid at 111° F. Leakage, which sometimes occurs, usually gives warning by smoke.* *Ammunition fitted with fuzes and boosters and involved in a fire will usually explode with moderate violence thus tending to spread the fire rapidly.*	AMMUNITION STOWAGE or CHEMICAL AMMUNITION STOWAGE. It is important to stow in locations not subject to temperatures above 100° F. Shall not be stowed in a compartment with any other explosives except other chemical ammunition. Shall not be overstowed with any other kind of cargo.	Explosives anchorage Explosives loading pier. Ammunition loading pier.	Handle carefully. Do not use a chute in loading. Observe packages or shells for evidence of leakage and reject any showing such signs.
Class III	Point-detonating fuzes, minor caliber base detonating fuzes, powder train fuzes, and anti-tank-mine fuzes, packed separately in boxes; bomb fuzes, packed with fin assemblies.		For purposes of these regulations this class of ammunition has been consolidated with Class VIII ammunition.			

§ 146.29–100 *Military ammunition and explosives in bulk*—Continued

Class	Description	Marking	Hazard	Stowage	Loading	Handling
Class IV “AMMUNITION”	Fixed and semi-fixed high explosive shell (Complete rounds) light mortar ammunition, grenades, shrapnel of all calibers, fuzed or unfuzed and blank ammunition for cannon, ammunition for cannon with empty projectile, ammunition for cannon with solid projectile, ammunition for cannon with sand-loaded projectile, high explosives incendiaries, rockets AA, kit grenades antitank, grenades hand defensive; packed in outside wooden boxes, or bundles of 3 individual fiber containers, unfuzed fragmentation bombs, in wooden crates, and small-arms ammunition with explosive bullets. *This class of ammunition includes, but is not limited to: 20 mm. explosive bullet, 37, 40, 57, 60, 75 and 81 mm., 3" 90 and 105 mm. and 4".5 caliber shell.* No chemical or smoke ammunition is included.	“Ammunition for cannon with explosive projectile” “Ammunition for cannon with empty projectile” “Ammunition for cannon with solid projectile” “Ammunition for cannon with sand-loaded projectile” “Hand grenades” “Rifle grenades” “Ammunition for cannon with incendiary projectile” “High explosives incendiaries” “Rockets antiaircraft” “Small-arms ammunition with explosive bullets”	*Articles in this class usually explode progressively only a few boxes at a time, many explosions of individual rounds being of a very low order. Pressures which would cause serious structural damage are not usually generated. Most missiles would fall within 600 feet.*	AMMUNITION STOWAGE or MAGAZINE STOWAGE “B” or MAGAZINE STOWAGE “A”. Boxed and crated ammunition may be overstowed with nondangerous cargo. Fiber bundle pack containers, crated or uncrated, may be stowed on their bases or sides. Unboxed or uncrated fiber pack containers shall not be overstowed with other cargo. (See § 146.29–12)	Explosives anchorage. Explosives loading pier. Ammunition loading pier.	This class of ammunition shall be handled with care. Do not drop, roll or throw the packages. Boxes of fixed ammunition may be handled with chute or trucks and may be loaded by using rope and canvas sling. Fiberpack containers of fixed ammunition shall be loaded by using truck, skip or tray. No weight shall be imposed upon the fiber part of the container.
Class V “AMMUNITION”	Separate-loading shell of all calibers, loaded with explosive “D”, fuzed or unfuzed; and shell loaded with explosive “D”, fuzed or unfuzed not assembled to or packed with cartridge cases; and armor-piercing bombs.	For purposes of these regulations this class of ammunition has been consolidated with Class VII ammunition.				
Class VI	Major and medium caliber base-detonating fuzes, bomb fuzes; boosters for high explosive shell; bursters for chemical shell, and for bombs; packed separately in boxes.	For purposes of these regulations this class of ammunition has been consolidated with Class VIII ammunition.				
Class VII “AMMUNITION”	Separate-loading shell of all calibers, fuzed or unfuzed, except those loaded with explosive “D”; and loaded shell, except those loaded with explosive “D”, fuzed or unfuzed, not assembled to or packed with cartridge cases. For the purposes of handling, stowage and transportation within the scope of these regulations, Class V types of ammunition are consolidated with Class VII.	“Explosive projectiles”	*The principal hazard in transportation will be involvement in a fire. Shells in this class usually explode progressively and very likely en masse.* *Structural damage within 1,800 feet may be severe.*	AMMUNITION STOWAGE or MAGAZINE STOWAGE “B” or MAGAZINE STOWAGE “A” This ammunition boxed or unboxed may be overstowed with nondangerous cargo. Care must be taken not to damage rotating bands on unboxed shells.	Explosives anchorage. Explosives loading pier. Ammunition loading pier.	Handle with care. Do not drop. Sling loads shall be landed as easily as possible. Do not roll shell. Protect rotating band from damage. Avoid injury to or removal of paint from the bourrelet.
Class V	Separate-loading shell of all calibers, loaded with explosive “D”, fuzed or unfuzed; and shell loaded with explosive “D”, fuzed or unfuzed, not assembled to or packed with cartridge cases; and armor-piercing bombs.	“Explosive projectiles” “Explosive bombs.”	*The principal hazard in transportation will be involvement in a fire. These shells usually explode one at a time, and in practically all cases with low order of explosion. Most missiles will fall within 1,200 feet.*			

NOTE. *In general Classes V and VII types of projectiles will be shipped in accordance with the following basic rules:*
Point fuzed shell with false ogives will be crated.
Point fuzed shell without false ogives will have grommets and eyebolt lifting plugs.
Base fuzed shell with relatively fragile parts such as false ogives, steel caps, and windshields will be crated.
Base fuzed shell without false ogives will not be crated but will have grommets to protect rotating bands.
Dummy drill projectile will be crated.
Shell with point-detonating fuze assembled thereto will be boxed.

§ 142.29–100 *Military ammunition and explosives in bulk*—Continued

Class	Description	Marking	Hazard	Stowage	Loading	Handling
Class VIII “AMMUNITION”	Primers, detonators, primer-detonators for bombs, grenade fuzes (Detonating type), and blasting caps. For the purposes of handling, stowage and transportation within the scope of these regulations, Classes III and VI types of ammunition are consolidated with Classr VIII.	“Detonating fuzes” “Percussion fuzes.” “Boosters (explosive).” “Small-arms primers.” “Primers.” ‘Blasting caps.” “Electric blasting caps.”	*The two primary hazards in the transportation of these devices are shock and involvement in a fire. A collateral hazard is the effect of the detonation of these articles upon other explosives or ammunition stowed in proximity to such articles.* *All of Class VIII type of ammunition in a unit stowage may explode at one time, but as the total amount of explosives involved is limited structural damage would not tend to be great. Light missiles having a limited range would be formed.*	DETONATOR STOWAGE or PORTABLE MAGAZINE. The location of magazines is restricted to a hold or compartment in which no other explosives (except small-arms ammunition) inflammable liquids, inflammable solids, oxidizing materials, corrosive liquids, compressed gases or hazardous articles are stowed and shall not be within 8 feet of the vessel's side. See § 146.29–47 for provisions re. stowage of bomb fuzes packed with fin assemblies. See § 146.29–45 for detail of detonator stowage.	Explosives anchorage. Explosives loading pier. Ammunition loading pier.	*Ammunition of Classes III, VI and VIII constitute a distinct class of ammunition when they are not assembled in projectiles, bombs or other ammunition. These types of ammunition are loaded with explosives that are sensitive to shock.* *The handling and stowage provisions of these regulations give consideration to the probable effect accidental detonation of these devices may have upon other ammunition or explosives stowed within the vessel.* Load only by hand or mechanical means. Trays with sideboards shall be used when loading by mechanical means. Packages shall not be stacked on a tray to a height above its sideboards. The maximum weight of the load on one tray lift shall not exceed 1000 pounds. Trays shall not be swung over other open hatches or holds containing ammunition, explosives in bulk or other dangerous cargo. Trays shall be hoisted and lowered carefully and deposited without undue shock. Do not roll, skid or chute packages. Packages shall not be turned over nor onto their sides but always maintained in “This Side Up” position as indicated by the marking on the package.
Class VI	Class VI Major and medium calibe base-detonating fuzes, bomb fuzes; boosters for high explosive shell; bursters for chemical shell, and for bombs; packed separately in boxes.		*The amount of explosives in single items of Classes III and VI usually does not exceed one-half pound. It is likely they would explode progressively box by box. Structural damage caused by the pressures generated would probably be limited to the vessel and pier. Missiles are light and usually fall within 600 feet.*			
Class III	Class III Point-detonating fuzes, minor caliber base-detonating fuzes, powder-train fuzes, antitank-mine fuzes, and grenade fuzes, (ignition type) packed separately in boxes; bomb fuzes packed with fin assemblies.					
Class IX “EXPLOSIVES IN BULK”	Flashlight powder in bulk, demolition blocks, spotting charges, black powder, in bulk, rocket propellants, in bulk, bulk priming explosives; bulk initiating explosives such as mercury fulminate or lead azide, and bulk high explosives such as T. N. T., explosive “D”, tetryl and dynamite. NOTE. Bulk priming or initiating explosives, in dry condition, are not permitted to be transported on board vessels.	“High explosives” “Black powder.” “Low explosives.” “Initiating explosives.” “Fireworks.”	*For the purposes of these regulations this class is divided into groups as follows:* Group IX–A *Flashlight powder in bulk. Spotting charges, black powder, and bulk priming explosives constitute a group having relatively similar hazard characteristics which principally consist of being very susceptible to ignition by spark or friction. They burn with explosive violence and will explode if ignited, under even slight confinement. They are adversely affected by high temperture.*	Group IX–A MAGAZINE STOWAGE “A.” Shall not be stowed in the same magazine with other ammunition or explosives unless the two stowages are separated by a partition bulkhead. Shall not be overstowed with any other kind of cargo.	Explosives anchorages. Explosives loading piers.	Do not subject packages to rough handling. Reject packages showing evidence of failure or damage. In event of sifting of the contents of the package stop operations and carefully clean up any residue. Remove the faulty package from the vessel. Boxes shall be stowed “This side up”. Drums and kegs shall be stowed on end with bung up. Metal cans shall be stowed with cap up.
			Group IX–B *Demolition blocks, rocket propellants, and high explosives such as T. N. T., explosive “D”, tetryl and dynamite have relatively similar hazard characteristics. They may be considered stable in storage. Can be ignited by spark or friction and detonated by shock. When ignited will burn readily like a tar or resin. Bulk shipments in amounts likely to be found on board vessels would if ignited be very likely to detonate.*	Group IX–B MAGAZINE STOWAGE “B”	Explosives anchorages. Explosives loading piers.	Do not subject packages to rough handling. Reject packages showing evidence of failure or damage. In event of sifting of the contents of the package stop operations and carefully clean up any residue. Remove the faulty package from the vessel. Boxes shall be stowed “This side up”. Drums and kegs shall be stowed on end with bung up. Metal cans shall be stowed with cap up.
		Group IX–C *Bulk initiating explosives such as mercury fulminate, lead azide or other fulminates constitute a distinct class of explosives. They are extremely sensitive to shock. The only permitted packing for transportation in bulk consists of a sift-proof cotton duck, rubber or rubberized cloth bag in a metal barrel or drum or wooden barrel or keg and wet with from 20% to 40% of water. Mercury fulminate and lead azide also have 3" of sawdust, saturated with water, between the bag and the outer container.*		Group IX–C MAGAZINE STOWAGE “A”	Explosives anchorages. Explosives loading piers.	Barrels or drums contain from 20% to 40% of water. Check for signs of leakage. Handle carefully to protect against rupture of the container. Stow on end. When overstowing floor off between tiers. Do not roll barrels on their bilges.

§ 142.29-100 *Military ammunition and explosives in bulk*—Continued

Class	Description	Marking	Hazard	Stowage	Loading	Handling
Class X "AMMUNITION"	Demolition bombs, fragmentation bombs in metal crates or bundles, photoflash bombs, high explosive antitank mines, naval mines, depth charges, warheads, livens shells loaded with high explosive (unfuzed) and torpedo bangalore.	"Explosive bombs" "Explosive mines." "Explosive projectiles."	*Fire and shock are the primary hazards to this class of ammunition.* *Demolition bombs have very thin walls. They are regarded as one of the most hazardous types of ammunition because of their tendency to detonate en masse if involved in a fire.* *Fragmentation bombs packed in metal crates or bundles are susceptible to mass detonation.* *Photoflash bombs, involved in a fire, will detonate en masse.* *Antitank mines, naval mines, depth charges, and warheads are loaded with high explosives. Their shells are relatively thin and involved in a fire it is likely detonation will occur.* *Detonation of any appreciable number of this type of ammunition will result in severe structural damage. The extent of the vulnerable area will depend upon the amount of high explosives involved.*	MAGAZINE STOWAGE "B" or MAGAZINE STOWAGE "A". Shall not be overstowed with vehicles or other cargo of high unit weight. Except for wooden barrels or boxes, and fiberboard containers, no inflammable or combustible material as cargo or containers of same shall be stowed in a hold in which this class of ammunition is stowed.	Explosives anchorages. Explosives loading piers.	Handle carefully. Do not drop, roll, drag, or slide these articles. Do not use chute in loading or unloading. Bombs shall be loaded by the use of trays or wire-rope slings. Nets shall not be used. Slings must be approved for such use by the captain of the port. Slings may be of a dual type for bombs not exceeding 2000 pounds each. Photoflash bombs shall be loaded by the use of trays. Antitank mines shall be loaded by the use of trays. Naval mines, uncrated and fitted with lifting ring shall be loaded by using wire rope and shackle. Mines in steel crates will be loaded by tray. Warheads shall be loaded by tray. Depth charges may be loaded by tray or rope and canvas net. A net load shall not exceed three depth charges. Livens shells and torpedo bangalore shall be loaded by the use of trays.
Class XI "CHEMICAL AMMUNITION"	"Chemical ammunition (Explosive)" is used to designate a variety of forms of artillery shell, chemical mortar shell, livens projector shell, airplane bombs, grenades, and candles, containing chemicals and an explosive or a bursting charge. "Chemical ammunition filled with phosphorus" is not included herein. For regulations governing such ammunition see Class II. "Chemical ammunition (nonexplosive)" when shipped without ignition elements, bursting charges, detonating fuzes or explosive components; and drums, cylinders, tanks or other containers of poison gas, liquids, solids or tear gas in bulk shall be accepted and stowed on board vessels in accordance with the provisions of the regulations in § 146.25.	"Explosive projectile" or "Explosive bomb" or "Hand grenade" or "Rifle grenade." This ammunition filled with a poison gas or liquid Class "A", either boxed or not boxed must bear the white "Poison Gas" label.	*This type of ammunition or bulk shipments of these substances in containers other than ammunition represents a particular and special hazard. Prior to the war, these articles were permitted to be stowed in the "Shelter Deck". Because of the danger of damage in the case of air attack, it is now provided that these substances be stowed in a reasonably tight compartment below decks.* *Due to the restrictive control over the preparation of these weapons little likelihood of extreme danger exists unless the containers or ammunition are damaged in handling or stowage on board the vessel.*	CHEMICAL AMMUNITION STOWAGE. Bulk shipment of chemical agents, in ICC-cylinders or tanks may be stowed in a shelter deck space or in a deck house suitable for such stowage.	Explosives anchorages. Explosives loading pier or at a temporary location authorized by the captain of the port for a specific loading.	When possible and the amount of such ammunition or containers of these chemical substances warrant, the loading and stowage of chemical ammunition or chemical agents for such should be supervised by a representative of the Chemical Warfare Service. Ammunition and containers of these substances shall be handled carefully. They shall not be dropped or unnecessarily jarred. The methods used for hoisting chemical ammunition during loading shall be similar to those used in handling high explosive shells. Stowage and bracing are very important. Packages shall be braced so as to prevent any movement. Top tiers shall be braced to prevent upward movement. In general, boxes shall be stowed on the most stable side and arranged in such a manner that the joints between boxes are staggered. No packages shall be cantstowed. Dunnage shall be applied to the sides, ends and the top of the boxes before bracing is applied.

NOTE. *The U. S. Army, Chemical Warfare Service, when shipping chemical ammunition, marks such ammunition and the containers thereof, in general as follows:*

(a) By the use of color bands painted upon the ammunition and the containers thereof; by letter symbol to indicate the particular kind of chemical therein and by the words "Gas", "Smoke", "Incendiary" or "Incend.", stenciled upon the ammunition or the containers thereof.

(b) Persistent gases are marked with two (2) green bands. Nonpersistent gases with one (1) green band. Harassing gases or smoke with one (1) red band. Screening smoke and toxic smoke with one (1) yellow band. Incendiartes with one (1) purple band.

(c) The words "Gas", "Smoke", "Incendiary" or "Incend." will be stenciled upon shells and upon the outside containers of shells, grenades, bombs, candles, etc., the stenciling to be of the same color as the designating band.

(d) The bodies of all munitions containing gas or smoke will be painted gray. Incendiaries will be painted olive drab.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[General Docket No. 21]

DETERMINATION OF EXTENT OF CHANGE OF COSTS OF MINIMUM PRICE AREAS

ORDER AND OPINION ON QUESTIONS OF LAW AND POLICY

Order and opinion of the Secretary of the Interior on review of questions of law and policy involved in the Acting Director's order of August 28, 1942.

In the matter of determining the extent of change, if any, in excess of two cents per net ton in the weighted average of the total costs of any of the minimum price areas; and of revising the effective minimum prices as may be required by reason of any such change in costs.

This is the final administrative stage of a proceeding for the general revision of minimum prices of bituminous coal which was begun by the Bituminous Coal Division on its own motion on May 2, 1941.

On August 26, 1942, the Acting Secretary of the Interior approved the Order for Procedure of the Acting Director of the Bituminous Coal Division of this Department. The order advised the parties to this proceeding who were dissatisfied with the order of August 26 of the Acting Director, fixing new minimum prices for bituminous coal, that they might file with me requests for review of questions of law and policy of general importance in the administration of the Bituminous Coal Act.[1] This order was issued in the exercise of my directive and supervisory authority over the Division. With these requests, it was also announced, might be filed briefs in support of the positions taken in the requests.

Pursuant to this order, requests for review, frequently accompanied by briefs, were filed by District Boards Nos. 3, 5, 7 and 8, the West Virginia Coal and Coke Corporation, Associated Industries of New York, Inc., and the Bituminous Coal Consumers' Counsel.

After full consideration of the importance of the questions of law and policy raised in these requests, I have decided to review the following questions:

I. Whether the Division had statutory authority to include in the revised minimum prices set in this proceeding an amount sufficient to insure a return per net ton for the Minimum Price Areas which approximates the weighted average of the total cost per net ton of the Price Areas.

II. Whether, in revising minimum prices, the Acting Director properly adopted the so-called weighted average adjustment method and properly rejected the so-called automatic adjustment method.

III. Whether the prices of coal produced in Minimum Price Area 2 were properly ordered changed in this proceeding.

Review of all other questions raised is hereby denied.[2] This denial does not mean that the order of the Acting Director with respect to these questions is affirmed by me. It means merely that I have been unable to see that the questions are appropriately raised at this time or of sufficient doubt or general importance to warrant review by me.

I

The question whether the Division had statutory authority to include in the revised minimum prices set in this proceeding an amount sufficient to insure a return per net ton for the Minimum Price Areas which approximates the weighted average of the total cost per net ton of the Price Areas.

The order of the Acting Director of August 28 has set revised minimum prices at a level intended to yield a return per net ton upon the entire tonnage of the several Minimum Price Areas sufficient to approximate the weighted average of the total cost per net ton of the tonnage of the Minimum Price Areas, as such cost was found in the first phase of Docket 21. To reach this result the Acting Director had to deal with a problem of under-realization growing out of the present minimum prices.

The evidence presented in the second phase of this docket showed that during the first year of operation under the minimum prices established October 1, 1940, in General Docket No. 15 the producers had not received, at these prices, a return per net ton for the several Price Areas which covered the weighted average of the total cost per net ton of these Price Areas. The Acting Director concluded that this deficiency in realization can and should be avoided in the future. He found that the deficiency was due to the fact that the 1937 pattern of distribution under unregulated prices had been used as a basis for computing equivalence between costs and returns in Docket 15 and that this pattern had changed extensively since the establishment of effective minimum prices. We also found that, if the prices were properly set in this proceeding, a deficiency of realization could be avoided because the pattern of distribution following the revision of prices would not substantially differ from the pattern of distribution during the first year under minimum prices. To set the prices properly therefore, in an amount sufficient to return costs to the Price Areas, he added to the existing prices not only the amount of the changes in cost which had occurred betwen the computations in Docket 15 and Docket 21 but also the amount of the differential between realization and cost during the first year under minimum prices.

Throughout the second phase of this docket, Associated Industries[3] has objected to the inclusion of this realization differential on the following two grounds: (1) Adequate notice was not given that the proceeding in this second phase would take up the problem of assuring producers a return of their total costs, and (2) statutory authority was lacking to accomplish this inclusion, since the Division could not revise prices to the end of returning total costs to the producers unless the Division were acting under the authority of section 4 II (b), and since the Division could not operate under section 4 II (b) without coordinating proposed prices in conformity with all the standards of sections 4 II (a) and (b).

1. The first objection of Associated Industries was based upon the limitation of the proceedings in their earlier stages to the problems of changes in costs. The first phase of the proceedings was confined to proving the extent of changes in cost in the various Price Areas. Section 4 II (a) provides that, after the initial cost determination for the minimum price areas:

> * * * upon satisfactory proof made at any time by any district board of a change in excess of two cents per net ton of two thousands pounds in the weighted average of the total costs in the minimum-price area, exclusive of seasonal changes, the Commission [Division] shall increase or decrease the minimum prices accordingly.

The Notice of and Order for Resumption of Hearing issued on April 17, set the hearing for May 5. It "strictly limited" the purpose of the hearing to determining the adjustments necessary in order to reflect the changes in costs found in phase (a) and proposed that the Division would increase or decrease the minimum prices by the amount of the changes in costs unless objection was made thereto. The notice limited the adducing of evidence relating to any other revision of prices to the parties objecting to the proposed increase or decrease in prices by the amount of the changes in costs. Other provisions of the notice and the order showed that the Division was not blind to the possible existence of other factors to be considered, but did not specifically enlarge the scope of the proceeding.[4]

[1] Act of April 26, 1937, 50 Stat. 72, as amended April 11, 1941, 55 Stat. 134; 15 U.S.C. secs. 828 et seq.

[2] District Board No. 7 has raised the question whether the Acting Director's refusal to distinguish "in the levels of minimum prices" between coal sold on the open market and coal not so sold was proper. Its only proposal is that the distinction be such that selling expenses are allocated entirely to commercial tonnage. Its argument in favor of this distinction adds nothing to what was said in favor of a similar distinction in reckoning the cost of coal in the first phase of this proceeding. So put and so argued the problem is too narrow to warrant review.

[3] Associated Industries is an organization of industries consuming annually an estimated 15,000,000 tons of coal, produced largely in Minimum Price Area 1. Since these consumers are located in New York and are thus in the group of market areas 1 to 21, Associated Industries computes the amount of deficiency in realization as about 8 cents per ton in the additional 20 cents per ton added by the Director to the prices to be charged in market areas 1 to 21 for coal from Price Area 1.

How far this notice would have permitted consideration of questions unrelated or in addition to the proposal for a straight increase or decrease in prices to reflect changes in costs need not be decided because prior to the start of the hearing the question of revising prices to allow realization of costs was fully incorporated in the hearing by the notice of the Acting Director of May 4. This Notice and Order concerning Consolidation and Hearing consolidated with Docket 21 the petitions of 10 District Boards presented under section 4 II (d).[5]

These petitions sought the establishment of temporary and permanent prices which would permit realization of costs. They were presented as a result of studies and reports of realization deficiencies made by District Boards and by the Division early in 1942 and as a result of the disclosure in the first phase of this docket that the addition of increases in costs might not result in sufficient realization. Most of the petitions contained requests that they be consolidated with Docket 21. The director announced in this consolidation notice that the petitions "raised similar and related issues" and should be consolidated with Docket 21 "for all purposes."

There is no doubt that a petition under section 4 II (d) is a proper method to bring before the Division for correction a discrepancy between returns from minimum prices to a Price Area and the Price Area's weighted average costs. There is also no question of the rightness of the judgment of the Acting Director or of the legal propriety of his action in consolidating the petition proceedings with the basic docket. The original notice of the hearing had expressly reserved to the Division the right to order such further proceedings and institute such further action as deemed appropriate. Moreover, the Acting Director acted in conformity with his authority in the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division to consolidate petitions whenever in his judgment the issues are so related that consolidation will facilitate expeditious and just consideration (30 CFR § 301.104).

While the notice and order for consolidation was issued the day prior to the opening of the hearing in the second phase of Docket 21, such consolidation had been requested by a 4 II (d) petitioner, District Board No. 14, as early as March 18. It was requested specifically with respect to Minimum Price Area 1, the price area of concern to Associated Industries, by the petitions on[5] April 22 and April 24 of District Boards Nos. 9 and 1–6 and 8. Moreover, in their objections lodged under the original notice for the resumption of the hearing in Docket 21 most of the District Boards of the country gave notice of their desire to assure the inclusion of the realization problem in the hearing.

I conclude that there was sufficient notice and opportunity to be heard on the issue of realization and that this issue was injected fully into the hearing, not only with respect to Minimum Price Area 1, but as an issue of general application. The issue had been presented to the Division by half the District Boards, representing far more than half the tonnage of the country, in 4 II (d) petitions and by almost all the District Boards in their formal objections to the resumption notice. The issue grew out of findings as to cost in the first phase of the docket and was by its nature coterminous in scope, for it would not be reasonable in a general adjustment of prices over the country for some prices to be raised only by the amount of an increase in costs and others by the amount of an increase in cost plus a deficiency in realization, in circumstances where a deficiency in realization existed throughout the country.

2. Associated Industries challenges the statutory authority of the Division, in a proceeding such as that held in this second phase of Docket 21, to revise prices "to the end that the return per net ton upon the entire tonnage of the Minimum Price Area shall approximate the weighted average of the total costs per net ton of the tonnage of such Minimum Price Area." This objective is found in section 4 II (b) of the statute and can be reached under section 4 II (b), it is claimed, only by a proceeding which examines prices in the light of all of the standards recited in sections 4 II (a) and (b). This argument is based upon the last sentence of section 4 II (b) which reads as follows:

> The Commission (Division) shall thereupon establish, and from time to time, upon complaint or upon its own motion, review and revise the effective minimum prices and rules and regulations in accordance with the standards set forth in subsections (a) and (b) of part II of this section.

I do not find that the statute restricts the avenue to the objective reached by the Division to the single path indicated by Associated Industries. The Division could reach this objective by adding the increases in costs to the minimum prices under a 4 II (a) proceeding and then entertaining a host of 4 II (d) proceedings to effect adjustments to provide sufficient realization. It is possible, in fact, to say that a consolidation of sections 4 II (a) and (d) proceedings actually occurred in this docket, in view of the chronology of the procedure just rehearsed. Under the authority of section 4 II (d) the Division would have the power to issue "such order as may be required to effectuate the purpose of paragraphs (b) and (c) of part II of this section." This authority is broad enough to support an order allowing full realization to the parties in this proceeding, since only an order of general application would be a satisfactory outcome of this proceeding, and since realization of costs is the ultimate purpose of paragraph (b). Although these 4 II (d) petitions were dismissed at the close of this proceeding after they had served their purpose, such dismissal in no way affected the rights of the parties.

The opinion of the Acting Director, however, shows that he intended to reach the objective he did under his authority to revise prices in section 4 II (b). While I am not concerned with the reasoning of the Director in view of my concurrence in the result, I think it best to consider the correctness of his action under the authority which he claims for it.

Section 4 II (b) contemplates the consideration of many standards in the process of price fixing. Certainly, in an original price fixing proceeding it is necessary to consider all standards at the same time and to accomplish an integrated price pattern. Such a price pattern was accomplished in General Docket No. 15 after extended analysis and application of all the standards of the act. This coordination having been established, it would defeat orderly and expeditious administration if every price change under section 4 II (b) required a general inquiry into the application of all the standards of subdivisions (a) and (b).

Because section 4 II (b) authorizes the Division to revise prices in accordance with all the standards, this does not mean that the Division may not revise prices to accord with such part of these standards as are alleged and proved to be unfulfilled. The Division has already fixed the administrative construction of its statutory authority and has repeatedly taken action under section 4 II (b) to revise prices to conform with particular standards upon complaint made to it as to the failure of fulfillment of these standards, without embarking on a full inquiry as to conformity of the prices

---

[4] The notice called to the attention of the parties the duty of the Division to revise prices under section 4 II (b), in accordance with the standards both of 4 II (a) and 4 II (b). The Order was made without prejudice to the right of any party to petition for action, under section 4 II (d) or any other provision of the Act, "by reason of dissatisfaction with minimum prices as established by the Division."

[5] Eleven District Boards petitioned under section 4 II (d) to obtain realization of total costs. Those which were consolidated with General Docket No. 21 by the notice of May 4, were the following: Petition of District Boards 1–6 and 8 for a temporary and permanent price order for a 20-cent increase on all coals produced in Minimum Price Areas 1, 2 and 3 in order to enable coals in Price Area 1 to recover their total weighted average costs, filed April 22, 1942, Docket A–1423; petition of District Board 9 for a temporary and permanent price order to the same effect, filed April 22, 1942, Docket A–1424; petition of District Board 14 for a price order for Price Area 4 such as to return the total costs of the area, filed March 18, 1942, Docket A–1360; petition of District Board 16 for a 15-cent increase in prices for district 16 to cover deficiency in realization, filed February 2, and supplemented February 28, 1942, Docket A–1299. The petition of District Board 11 for a price order for a 20-cent increase for Price Areas 1 and 2, filed April 21, 1942, Docket A–1422, was denied in the May 4 order as the issue raised by it of increased costs of production was decided in the first phase of General Docket No. 21.

The disposition of the various consolidated petitions is reported on pages 10–13 of the Acting Director's opinion. The petitions of District Boards 1–6, 8, 14 and 16 remained part of Docket 21 until the Director's final order was issued.

with all the other standards set forth in subsections (a) and (b).[6]

Similarly here, the objections lodged by 18 District Boards under the notice for the resumption of the hearing in this phase and the petitions of the District Boards consolidated into the docket apprised the Division and all the parties to this docket of the need for readjustment of prices to satisfy the standard of realization of costs, which is the basic standard of subsections (a) and (b). Acting upon that need the Division evidently proceeded on its own motion to make adjustments upon the proof that this basic standard of realization was unfulfilled by existing prices.

This does not mean that the standards which were not called into question and which were not applied in this proceeding are to be ignored. If the prices resulting from Docket 21 are not in conformity with the standards of subsections (a) and (b), section 4 II (d) affords full opportunity for producing interests and for Consumers' Counsel to raise objection. The Director also has power under section 4 II (b) upon complaint or upon his own motion to institute either particular or general inquiries into the compliance of the distribution pattern with all standards. By proceeding in the limited fashion which I have found to be necessary to permit effective administration of the act, the Director assumes added responsibility to police the distribution pattern, to keep advised of its adequacy, and to give careful consideration to complaints filed by consuming interests who have no power to institute section 4 II (d) proceedings.

I therefore deny the petition of Associated Industries that the increment to cover the deficiency in realization be subtracted from the revised minimum prices and answer the first question in the affirmative.

II

The question whether, in revising minimum prices, the Acting Director properly adopted the so-called weighted average adjustment method and properly rejected the so-called automatic adjustment method

In an effort to expedite the proceeding the Division in effect ordered the parties to show cause why the existing minimum prices for each area should not be increased by the difference between the costs found in General Docket No. 15 and those found here. One of the two broad objections, the claim for a return equal to costs, raised by the District Boards to this plan has already been dealt with. The second objection was that the plan would upset the scheme of coordinated prices provided in Docket 15. That objection is considered here.

It may be taken for granted that an automatic application of the increased realization necessary to return costs would destroy the coordination pattern of Docket 15. A uniform 20-cent increase, for instance, in Price Area 1 coal and no increase in Price Area 2 coal would undoubtedly put Price Area 1 coal at a serious disadvantage at all points at which the two areas compete and would encourage the buying of Area 2 coal in preference to Area 1 coal.

To obviate this difficulty the Division adopted a method of adjusting the prices of coal in each of a number of groups of related marketing areas according to the proportions of coal coming to it from each of the Price Areas serving it. For example, coal shipped into market areas 1 to 21 which are served almost entirely by Price Area 1 was given the full 20-cent increase to which Price Area 1 coal is entitled. Coal shipped into market areas 22 to 31, which are served by Price Area 1 and Price Area 2 in a ratio of approximately 3 to 2, were given about ⅗ of the 20-cent increase to which Price Area 1 coals are entitled. And coals shipped into market areas 32 to 41 in which Price Area 2 coals predominate over all others by about 3 to 1 received an increase of only about ¼ of that to which Price Area 1 would be entitled. Conversely, even though Price Area 2 coal would be entitled to no increases if the coordination problem were ignored, it obtained in the markets served by Price Area 1 the same price increase. In the course of the proceeding, this method of adjusting existing minimum prices became known familiarly as the "weighted average adjustment" method.

An alternative to this method was suggested by Consumers' Counsel in the shape of what it calls the "automatic adjustment" method. This proposal is substantially that which, in his order for resumption of the hearing, the Director proposed using in the absence of protest. It calls for a uniform increase of all existing prices in each Price Area by the amount needed to compensate for changes in cost.

1. Consumer's Counsel first attacks the use of the weighted average adjustment method on the ground that the automatic adjustment method "is legally required by the Act." The basis of the contention is the provision of section 4 II (a) that "upon satisfactory proof made at any time by any district board of a change in excess of 2 cents per net ton * * * in the weighted average of the total costs in the minimum price area * * * the Commission (Division) shall increase or decrease the minimum prices accordingly." It seems to me that the contention of Consumers' Counsel that this necessarily imports use of the automatic adjustment method rests upon an unnecessarily narrow reading of the word "accordingly." Though, of course, it would be permissible to do so, I do not understand this statutory language to mean that every individual price must be adjusted by the exact amount needed to realize the cost change. It can be read, and I read it thus, to mean that the whole body of prices for a Minimum Price Area shall be adjusted, in the most expedient fashion, to reflect the changes in cost. The adjustment might be made, as some of the District Boards proposed in this proceeding, by putting the additional cost on particular sizes of coal. It might be made, as it was made in this proceeding, by varying the amount of increase from marketing area to marketing area.

Consumers' Counsel also objects that the weighted average adjustment method is directed at the goal of preserving the coordination of prices but yet ignores the procedures and standards of section 4 II (b) under which coordination should be undertaken. But this method has the merit of not disturbing the distribution pattern in the absence of a full inquiry into the effects of price changes. It has the merit, too, of allowing the Director to estimate the realization to be expected from the new schedule of prices.

Accordingly, I find no error in the Acting Director's decision that he had power under the act to adopt the weighted average adjustment method.

2. Consumers' Counsel argues also that the weighted average adjustment method represents a poor choice of policy, and that the use of the automatic adjustment method is more consonant with a wise administration of the act. It is urged, for instance, that if the weighted average adjustment method is adopted, every change in a single area's costs will have to be the occasion for a general reconciliation of that area's prices with those of other areas and that the size of such an undertaking will prevent the Division from keeping up with its work. It is urged, moreover, that adoption and application of the weighted average adjustment method will serve to foster monopoly and to discourage efficient production innovations, in that it will prevent small-increase producing areas from cutting in on the large-increase areas' selling territory, and will require that high-increase areas be allowed to make up elsewhere what they lose in highly competitive territory. It is urged, finally, that if application of the automatic adjustment method works hardship resort can be had to 4 II (d) proceedings to rectify the difficulty.

Much of this line of argument, persuasive as it is, rests upon the tacit assumption that the weighted average adjustment method is considerably more than a procedure adapted to the needs of the present proceeding. I do not so understand it. Approval of its use in the present instance where cost changes in practically every area must be taken into account is not equivalent to approval of its use in a proceeding in which only one area shows a cost change. Approval of its use in this proceeding is not, as the Director's opinion itself indicates, an approval of its use as a permanent petrification of the marketing arrangements reflected in General Docket No. 15.

The Acting Director has had a difficult task to perform. As far as I can see, he has performed it wisely and with due regard to orderly procedure. There was no need for him to make it more complicated than it already was by undertaking a general inquiry under section 4 II (b) which might have grown into the proportions reached by Docket 15. To have done so might well have slowed down all revision of minimum prices by months. The Acting Director has, in his opinion, issued an invitation to the parties to this proceeding to undertake 4

II (d) proceedings wherever necessary. The invitation will, I hope, be accepted shortly. If it is not, the Division may wish itself to initiate general or particularized proceedings under section 4 II (b). At that time, there will be occasion to consider and after full exploration to resolve the grave questions of policy that Consumers' Counsel has raised and that would make it difficult to approve the use of the weighted average adjustment method if it were to stand as a permanent obstacle to modification of the bituminous coal distribution system.

At the section 4 II (b) or 4 II (d) hearings, it will be open to the Division and the parties upon a full record to reconsider the whole coordination problem or appropriate segments of it. It will be possible then to lay appropriate stress on the importance to the consumer and to the national economy of the statutory command that the coordinated prices be "just and equitable, and not unduly prejudicial or preferential, as between and among districts." At that time it can be determined whether preservation of "existing fair competitive opportunities" can properly be given the great weight that, *ex necessitate*, it was given in this proceeding. The Division can then consider whether inter-area cost comparison should not be a major test of the fairness of that competition which is to be preserved as well as an evident means of reconciling this criterion with the "just and equitable" requirement of the statute.

The prospect of such a hearing or hearings, in other words, assures me that the Director will be in a position to make those appropriate readjustments of the General Docket No. 15 coordination which will take account, among other pertinent factors, of the important changes in the coal industry and the economy generally that have been suggested in the present proceeding. I therefore approve in this respect the Acting Director's order.

III

The Question Whether Minimum Prices for Coal Produced in Price Area 2 Were Properly Ordered Changed in This Proceeding

It follows from the discussion of Questions I and II that the contention that the Division could not properly order a revision of Price Area 2 prices is without merit. While it is true that this area showed less than the 2-cent change in cost which is the predicate of action under section 4 II (a) of the act, its change in cost and its deficiency in realization could both be taken into account in this proceeding which necessitated, as I have said, a reconciliation of prices in all Price Areas with each other. Price Area 2 was in fact one of the Price Areas for which relief was asked by several District Boards in their petitions under section 4 II (d), particularly in Docket A-1423 consolidated in Docket 21. The order of the Acting Director is therefore affirmed in this respect.

IV

Upon this review of the determinations of the Acting Director embraced in the foregoing questions of law and policy I find that the determinations should be affirmed. It is therefore unnecessary for me to consider such applications for a stay of the effective date of the Acting Director's order as were presented to me.

Accordingly, it is so ordered.

Dated: September 30, 1942.

FRED NOETH

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, ETC.

Order approving and adopting the proposed findings of fact, proposed conclusions of law, and the recommendation of the examiner, and order suspending registration of distributor.

This proceeding having been instituted by the Bituminous Coal Division pursuant to section 4 II (h) of the Bituminous Coal Act of 1937 and section 304.14 of the Rules and Regulations for the Registration of Distributors to determine whether Fred Noeth, a registered distributor (Registration No. 6880), 2808 East 25th Street, Granite City, Illinois, has violated the Act, the Rules and Regulations for the Registration of the Distributors, the Marketing Rules and Regulations incidental to the Sale and Distribution of Coal, and the Agreement by Registered Distributor;

A hearing having been held before Charles S. Mitchell, a duly designated Examiner of the Division at a hearing room thereof in St. Louis, Missouri, on May 22, 1942;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and the Recommendations in the matter dated August 24, 1942, in which it was found that, respondent, continuously and regularly, during the period October 1; 1940, to February 28, 1942, resold coal in less than carload lots to Christ Noeth and that in said purchases and sales, he was under the control of his father, the said Christ Noeth, financially and otherwise (a matter not disclosed in his application for registration) and was, therefore, not in any way qualified to accept or obtain a distributor's discount on said transactions and in accepting and retaining such discounts he violated paragraph (h) of the Distributor's Agreement and §§ 304.19 (c) and 304.11 (c) (s) of the Distributor's Rules, and section 4 II (i) (12) of the Act and Section XIII of the Marketing Rules and Regulations; and

The Examiner having recommended therein that an order cancelling and revoking the registration of Fred Noeth, as a registered distributor, Registration No. 6880, and providing that no petition seeking reinstatement as a distributor shall be entertained within a period of six months from the date thereof;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no exceptions and supporting briefs having been filed;

The undersigned having determined after consideration of the record that the proposed findings of fact and proposed conclusions of law of the examiner be approved and adopted as the findings of fact and the conclusions of law of the undersigned;

Now, therefore, it is ordered, That the proposed findings of fact and proposed conclusions of law of the examiner be, and the same are hereby approved and adopted as the findings of fact and conclusions of law of the undersigned;

It is further ordered, That the registration of Fred Noeth, a registered distributor, Registration No. 6880, be and it hereby is, suspended for a period of six months from the date of this order.

It is further ordered, That respondent shall not evade the effect of such suspension, directly or indirectly, by the use of any device such as a sales agency agreement or any other device, and that such suspension shall not excuse the respondent from all duties and functions imposed upon him by the Act, or the rules and regulations thereunder;

It is further ordered, That if respondent shall not have complied with the provisions of § 304.15 of the Rules and Regulations for the Registration of Distributors at least five days prior to the expiration of such suspension period, such suspension shall continue in full force and effect until five days after the affidavit required by section 304.15 shall have been filed with the Division.

It is further ordered, That respondent shall return to the producers all improperly collected discounts collected by him on coal resold by him to or through Christ Noeth, amounting to $1,174.53, and shall state in the aforesaid affidavit that such refunds have been made.

Dated: September 30, 1942.

[Docket No. 1727-FD]

HANEY COAL COMPANY

FINDINGS OF FACT AND MEMORANDUM OPINION CONCERNING EXCEPTIONS TO THE EXAMINER'S REPORT

This proceeding was instituted upon a complaint dated May 10, 1941, and filed with the Division on May 22, 1941 by District Board No. 12, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937. The complaint alleged that W. J. Haney (Haney Coal Company), the code member, wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder, by selling, for shipment by truck, to George Pope, Hamilton, Iowa, from January 1, 1941 to May 10, 1941, a substantial number of tons of screenings and mine run coals produced at the code member's mine, Mine Index No. 592, in District No. 12, at the price of $1.00 per net ton f. o. b. the mine, whereas the effective minimum price for such screenings is $1.60 per ton f. o. b. the mine, and for such mine run coal is $2.70 per ton f. o. b. the mine, and prayed that the Division either cancel and revoke Haney's code membership or, in its discretion, direct the code member to cease and desist from such violations.

Pursuant to appropriate orders and after due notice to interested persons, a hearing in this matter was held on September 18, 1941, before W. A. Shipman, a duly designated Examiner of the Division, at a hearing room thereof in Des Moines, Iowa. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board No. 12 appeared. The defendant did not appear.

The Examiner, on April 15, 1942, submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and upon the basis thereof, recommended that the complaint herein should be dismissed, without prejudice to the right to institute appropriate proceedings for the violation actually committed.

Thereafter, opportunity was afforded to all parties to file exceptions thereto and supporting briefs. On April 23, 1942, the complainant, Bituminous Coal Producers Board for District No. 12 filed Exceptions to the Examiner's Report.

1. *The Issue Involved.* The facts forming the background of the proceeding show that W. J. Haney, owner and operator of the Haney Coal Company, is a code member in District No. 12. He filed a code membership acceptance on May 27, 1940. He operates a mine, Mine Index No. 592, in District No. 12. Haney, during the period from January 3, 1941 to May 10, 1941, both dates inclusive, sold to George Pope 759.85 tons of screenings[1] coal produced at his above-mentioned mine.

In a signed statement, Haney admitted that he sold to George Pope, Hamilton, Iowa, 266 loads of screenings averaging 9500 pounds per load since October 1940, at $1.60 per ton f.o.b. mine less 60 cents per ton for hauling and handling, "netting" $1.00 per ton f.o.b. mine, and that he "sold the coal on this basis, thinking it was not a violation of the Code. This understanding was gathered from statement made at the meeting held in Knoxville, Iowa, last winter when it was decided the loading dock was considered your tipple and shipping point."

At the hearing the purchaser identified an exhibit[2] containing a tabulation of the sales of the above-mentioned 759.85 tons of coal. A heading entitled "Truck Load Weight" in the exhibit, tended to show that Haney sold the coal for shipment by truck. Pope testified, however, that he had the coal "hauled from the mine to the railroad," and that the coal was by him "in turn" thereupon "shipped by * * * rail" to the Iowa Power and Light Company. The coals of the Haney Mine were priced only for truck shipment. The effective minimum price for screenings coal produced at Haney's Mine, according to the Schedule of Effective Minimum Prices for District No. 12 for Truck Shipments, was $1.60 per net ton f. o. b. the mine.

2. *The Examiner's Report.* The Examiner concluded that the record under these circumstances, warranted a finding that the defendant sold the coal at $1.00 per net ton f. o. b. the mine; that the transaction was a sale by the code member for shipment by rail; that Haney sold the coal to Pope, who trucked it in facilities furnished by him to a railroad ramp at Hamilton, where it was loaded into railroad cars and shipped by rail to Pope's customer, the Iowa Power and Light Company, and the conclusion that this coal was sold in a rail transaction was not in any way dependent upon whether Haney did or did not know that the coal was to move to its destination by rail. The Examiner's Report also added that under "recent rulings of the Acting Director the physical movement of the coal rather than the intention of the parties controls." The Examiner therefore reached the conclusion that the violation committed was the sale of unpriced coal,[3] as no rail prices had been established for the coals of this mine. Since, however, this was not the violation charged in the complaint, the Examiner recommended that the complaint be dismissed.

3. *Exceptions to the Examiner's Report.* The principal arguments contained in the complainant's exceptions, may be thus summarized: the transaction was a sale at the mine and the producer had no control or title to it after the coal left his mine; the record shows that the coal moved from producer's mine by truck was sold with the understanding that title would pass at the mine and that it would move from the mine by truck; the coal was not sold for rail shipment nor at the effective minimum price for rail shipment by the producer either from the mine or from any other point, and the transaction does not have any of the characteristics of rail shipments; Haney's written statement "admitted" that he sold the coal to Pope "at the mine" at a net price of $1.00 per ton, and the proposed findings of the Examiner state that the sales price was $1.00 per ton f. o. b. the mine; there are no exceptions in the truck schedule preventing the prices therein from applying to coal sold at the mine and removed therefrom by truck, even if such coal is eventually to be moved by the purchaser via rail and to establish the precedent proposed by the Examiner would produce a chaotic condition within the District, and would involve an attempt of the Division entirely beyond the provisions of the Act to control the coal after its outright sale and movement. The complainant's exceptions also requested that the Examiner's recommendation be disregarded and that instead, the code member be found guilty of violating the minimum truck prices effective as to the tonnage involved in these proceedings.

4. *Discussion and Conclusions.* The record, unfortunately, is rather scanty. Some of the conclusions must therefore be reached inferentially. The evidence regarding the material facts is found in (1) the testimony of the purchaser, George Pope; (2) the above-mentioned written statement of the producer, dated May 12, 1941; and (3) in the tabulation of the sales compiled from his records. The evidence relating to the view that the transaction was a sale of coal at the mine is represented by the assertion contained in code member's written statement that the coal "was sold to George Pope, Hamilton, Iowa, at $1.60 per ton f. o. b. mine," and also in Pope's testimony that the code member "received $1.00 a ton for the coal at the mine." However, Pope likewise testified that he paid the producer $1.60 "on track" thereby establishing that the transaction called for loading on railroad cars, rather than delivery at the mine. Moreover, the code member's signed statement that he sold the coal at $1.60 per ton f. o. b. the mine less an allowance of 60 cents per ton for hauling and handling, "netting" $1.00 per ton f. o. b. the mine to the code member, modifies code member's reference to "$1.00 * * * at the mine." in view of Pope's tectimony that the $1.60 price was "on track." Code member's

[1] There was no proof of the sale of any mine run coal.

[2] By Order of the Acting Director dated February 9, 1942, duly served upon the defendant on February 12, 1942, it was provided that a copy of this exhibit should be accepted for filing herein as Exhibit No. 1 in this proceeding, unless the defendant showed cause to the contrary within 7 days after the date of service upon him of a copy of such exhibit. The defendant has made no objection to such acceptance of the exhibit.

[3] The order in General Docket No. 19, dated October 9, 1940, prohibits the sale by a code member of coal produced by him for which minimum prices have not been established.

reference to the $1.00 price was merely language used by him to denote what he netted at the mine, but does not establish the passing of title at the mine in the sense of code member's nonresponsibility for the rail phase of the shipment. The code member made an allowance for transportation and hauling to the cars. This created an inference (which was uncontroverted) that code member had knowledge of, and therefore was a party to the ultimate rail shipment. Therefore, the Examiner's finding that the sales price was $1.00 per ton "f. o. b. the mine" must be understood in this sense. This conclusion is not altered by Pope's testimony that he had the coal hauled from the mine to the railroad. The mere physical handling of the coal from the mine to the railroad cars by the purchaser does not alter the comprehended mode of transportation by a combination of methods, namely, first by truck to the railroad ramp, and then by rail.

Under these circumstances, the Examiner properly found that the transaction was a sale of coal for shipment by rail. However, even if, as District Board No. 12 contends, code member Haney did not so intend it, in my view, the Examiner's decision was nonetheless proper. I have already ruled in Dockets Nos. B–13, B–68, and B–69, to name a few, that where coal is shipped in part by rail to a retailer or consumer, it is essentially not a shipment to which prices established in the truck schedules apply. The prices established in the truck schedules apply only to shipments exclusively by truck. I find nothing in the exceptions that warrants my changing this position. Therefore, I conclude that Haney violated the order in General Docket No. 19, but that since this violation was not charged and the violation charged was not established, the complaint should be dismissed. The exceptions to the Examiner's Report are overruled and the proposed findings of fact and proposed conclusions of law of the Examiner will be adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That the complaint herein be, and it hereby is, dismissed, without prejudice.

Dated: September 30, 1942.

[Docket No. B–248]

WALTRIP AND SONS

CEASE AND DESIST ORDER, ETC.

In the matter of D. H. Waltrip, N. H. Waltrip, and D. H. Waltrip, Jr., individually and as co-partners, doing business under the name and style of Waltrip & Sons, code member.

Order approving and adopting the proposed findings of fact, proposed conclusions of law and the recommendation of the Examiner and cease and desist order.

A complaint, pursuant to section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been filed with the Bituminous Coal Division on April 23, 1942, by Bituminous Coal Producers Board for District No. 9, alleging that D. H. Waltrip, N. H. Waltrip, and D. H. Waltrip, Jr., individually and as co-partners, doing business under the name and style of Waltrip & Sons, a code member, in District No. 9, had violated the provisions of the Bituminous Coal Code and the Rules and Regulations therein, and praying that the Division either cancel or revoke the code membership of code member or, in its discretion, direct the code member to cease and desist from violations of the Code or Rules and Regulations therein;

A hearing having been held before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Owensboro, Kentucky, on June 19, 1942;

The Examiner having made and entered in his Report Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in the matter dated August 27, 1942, in which it was found that code member wilfully violated section 4 II (e) of the Act and Part II (e) of the Code, which prohibits the sale of coal below the effective minimum price, by selling to Thurman Vanover of Utica, Kentucky, 82.40 tons of ¾" x 0 screenings (Size Group 14) produced at the Waltrip Mine, Mine Index No. 283, at a price of 37.5 cents per net ton, f. o. b. the mine, and that under the Schedule of Effective Minimum Prices for District No. 9 for Truck Shipments, the minimum price for such coal was $1.10 per net ton, f. o. b. the mine; and

The Examiner having recommended therein that an order be entered directing the code member to cease and desist from violating the Act, the Schedule of Effective Minimum Prices for District No. 9 for Truck Shipment, and the Rules and Regulations thereunder;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs and no such exceptions and supporting briefs having been filed thereto;

The undersigned having determined after consideration of the record that the proposed findings of fact and proposed conclusions of law of the Examiner should be approved and adopted as the findings of fact and conclusions of law of the undersigned;

Now, therefore, it is ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner be, and the same are hereby approved and adopted as the findings of fact and the conclusions of law of the undersigned;

It is further ordered, That D. H. Waltrip, N. H. Waltrip, and D. H. Waltrip, Jr., individually and as co-partners, doing business under the name and style of Waltrip & Sons, their representatives, agents, servants, employees, attorneys, successors, and assigns, and all persons acting or claiming to act in their interest, cease and desist and they are hereby permanently enjoined and restrained from selling or offering to sell coal below the prescribed minimum prices therefor and from violating the Bituminous Coal Act, the Schedule of Effective Minimum Prices for District No. 9 for Truck Shipment, the Bituminous Coal Code and the rules and regulations thereunder;

It is further ordered, That the Division may, upon failure of code member herein to comply with this order forthwith, apply to the Circuit Court of Appeals within any circuit where the code member carries on business for the enforcement thereof, or take any appropriate action.

Dated: September 30, 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-592]

National Gas & Electric Corporation

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of September, A. D. 1942.

A declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by National Gas & Electric Corporation, a registered holding company with respect to the reclassification of its authorized capital stock by changing its presently outstanding no par common stock having a stated value of $3,705,904.08 to the same number of shares of $5 par value common stock having an aggregate par value of $2,241,762.73, which declaration states that the proposed reclassification is to be effected by the adoption of amendments to the Certificate of Incorporation, as amended, of National Gas & Electric Corporation, and that, in connection with the proposed reclassification, National Gas & Electric Corporation will restate certain accounts to be effective as at March 31, 1942 and for the purpose of (a) creating a capital surplus in the amount by which its stated capital is reduced; (b) eliminating certain so-called assets now carried on its books; (c) writing-down its investments in two subsidiary companies; and (d) creating two reserves, namely, a reserve for investments in certain subsidiary companies and a reserve for possible unbilled expense charges incurred prior to March 31, 1942; and

Notice having been given by the Commission of the filing of said declaration by publication in the FEDERAL REGISTER and otherwise as provided by Rule U-23 under said Act;

The Commission having considered said declaration, and it appearing to the Commission that it is appropriate and in the public interest and the interest of investors and consumers that a hearing be held with respcct to said declaration and that said declaration shall not become effective except pursuant to further order of the Commission, and that at said hearing there be considered, among other things, the various matters hereinafter set forth:

---

[1] 7 F.R. 5873.

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on October 13, 1942, at 10:00 o'clock in the forenoon of that day, E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated by the hearing-room clerk in Room 318.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at any such hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to National Gas & Electric Corporation and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with this Commission on or before October 9, 1942.

It is further ordered, That, without limiting the scope of issues presented by said application or declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed reclassification of capital by National Gas & Electric Corporation meets the requirements of section 7 of said Act;

(2) Whether the proposed reclassification of capital and the accounting adjustments in connection therewith to be made by National Gas & Electric Corporation (a) will result in an unfair or inequitable distribution of voting power among the holders of that company's securities or (b) will otherwise be detrimental to the public interest or the interest of investors or consumers; and

(3) Whether it is necessary for the Commission to attach any terms or conditions to any order permitting said declaration to become effective.

By the Commission.

[File No. 52-20]

NORTHWEST CAROLINA UTILITIES, INC.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of September, A. D., 1942.

In the Matter of O. M. Mull and John W. Perry, trustees of Northwest Carolina Utilities, Incorporated.

Notice is hereby given that an application for approval of a plan or reorganization of Northwest Carolina Utilities, Incorporated, a subsidiary of East Coast Public Service Company, a registered holding company, has been filed with this Commission pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935. The application was filed by O. M. Mull and John W. Perry, Trustees appointed by the District Court of United States for the Western District of North Carolina in a reorganization proceedings pursuant to Chapter X of the "Bankruptcy Act" and involving said Northwest Carolina Utilities, Incorporated. All interested persons are referred to said application, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

East Coast Public Service Company owns all of the securities of Northwest Carolina Utilities, Incorporated, (except directors' qualifying shares), such securities consisting as at August 1, 1942, of $620,944.66 principal amount of First Mortgage Bonds with $78,800.34 of accrued and unpaid interest thereon and 1,000 shares of no par capital stock with a stated value of $544,420.66, all of which are pledged by East Coast Public Service Company to secure $1,896,500 principal amount of its First Lien Collateral 4% Bonds, Series A, due August 1, 1948. The proposed reorganization plan contemplates certain transactions which, when consummated, will bring about the complete liquidation and dissolution of Northwest Carolina Utilities, Incorporated, and the distribution of its assets among its creditors according to their respective rights and priorities. The plan proposes the sale of all of the properties of Northwest Carolina Utilities, Incorporated, (except, generally speaking, cash and securities, consumers' merchandise notes and accounts receivable, and any properties which are located outside the counties of Madison, Mitchell, and Yancey, North Carolina, which will be liquidated and the cash proceeds collected by said applicants) to French Broad Electric Membership Corporation at a base purchase price of $340,000, subject to certain adjustments. The proceeds of the above-mentioned sales, including an amount to be held by the Court pending adjudication of certain flood damage suits, will be applied to the payment (a) of all costs and expenses of the reorganization proceeding, (b) of the current indebtedness of Northwest Carolina Utilities, Incorporated, (c) of reasonable and necessary expenses incurred in the defense of a suit brought under the Fair Labor Standards Act by a former employee of Northwest Carolina Utilities, Incorporated, and (d) to City Bank Farmers Trust Company, Trustee under the Trust Indenture of Northwest Carolina Utilities, Incorporated, of the entire balance remaining which amount, together with all other funds held as Trustee, will be paid by said Trustee to East Coast Public Service Company, the holder of all of the outstanding bonds of Northwest Carolina Utilities, Incorporated. All of the securities of Northwest Carolina Utilities, Incorporated, will be returned to said company which will be liquidated and dissolved by the applicants.

The application states that the earnings of Northwest Carolina Utilities, Incorporated, are not sufficient to meet its current interest obligations, any payment on account of the accrued and unpaid interest on its outstanding First Mortgage Bonds, and the principal of its Bonds when and as the same mature. The application further states that in view of the operating problems of Northwest Carolina Utilities, Incorporated, its inability to finance improvements, and the requirements of Section 11 of the Public Utility Holding Company Act of 1935, the sale of its property seems desirable.

It is ordered, That a hearing on said application under the applicable provisions of said Act and rules of the Commission thereunder be held on October 14, 1942 at 10:00 o'clock, A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing-room clerk in Room 318 will advise as to the room where such hearing will be held. Notice is hereby given of said hearing to the above-named applicants and to East Coast Public Service Company, and to all interested persons, said notice to be given to said applicants and East Coast Public Service Company by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said application to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed reorganization plan is fair and equitable to the persons affected thereby;

(2) Whether the proposed plan is feasible;

(3) Whether the purchase price to be received by said applicants for the sale of the properties of Northwest Carolina Utilities, Incorporated, is reasonable;

(4) Whether the proposed use of the proceeds is detrimental to the public interest or the interest of investors;

(5) Generally speaking, whether the proposed plan may be approved by this Commission under section 11 (f) of the Public Utility Holding Company Act of 1935 and whether such plan is consistent with or complies with section 11 (b) thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

NEW ENGLAND GAS AND ELECTRIC ASSOCIATION, RESPONDENT

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 26th day of September, 1942.

I

The Commission having examined the corporate structure of New England Gas and Electric Association, and its subsidiary companies, the relationship among the companies of the holding company system of New England Gas and Electric Association, the character of the interests thereof and the properties owned or controlled thereby, and the files and records of the Commission with respect thereto, and said examination having disclosed data establishing or tending to establish that:

1. New England Gas and Electric Association is a Massachusetts Voluntary Association formed under a Declaration of Trust dated December 31, 1926 (amended July 20, 1932), under which its Trustees hold investments in subsidiaries with properties operating in the States of Massachusetts, New Hampshire and Maine. New England Gas and Electric Association is a holding company, as defined in the Act, and is registered as such, pursuant to the provisions of Section 5 of the Public Utility Holding Company Act of 1935.

2. The subsidiary companies embraced in the holding company system of New England Gas and Electric Association, the states in which the businesses of such companies are conducted, type of business conducted, together with gross property accounts as of December 31, 1941, and their gross revenues for the year 1941, are as shown in the following schedule:

Name of company	Location	Type of company	Gross property per books	Gross revenues
Appliance Credit Corporation [1]	Massachusetts	Service		
Cambridge Electric Light Company	Massachusetts	Electric	$8, 575, 848	$3, 314, 846

Provincetown Light and Power Company	Massachusetts	Electric	474, 526	133, 612
St. Croix Electric Company	Maine	Electric	334, 841	82, 734
Western Hancock Electric Company	Massachusetts	Electric	5, 058	1, 868
Worcester Gas Light Company	Massachusetts	Gas	9, 800, 595	2, 286, 374

[1] Merged with Negea Service Corporation May 1, 1942. (See Holding Company Act Release No. 3477.)

3. All of the subsidiaries named in paragraph 2 above, with the exception of Appliance Credit Corporation, Negea Service Corporation, and Cambridge Steam Corporation, are public utility companies within the meaning of the Act. Appliance Credit Corporation and Negea Service Corporation, as of December 31, 1941, were service companies for the New England Gas and Electric Association holding company system. Cambridge Steam Corporation is engaged in the distribution and sale of steam for heating purposes.

4. For the year ended December 31, 1941, the consolidated operating revenues of the New England Gas and Electric Association and its subsidiaries were as follows:

Operating Revenues:	
Electric	$11, 007, 461. 94
Gas	5, 054, 067. 25
Steam heating	262, 988. 13
Total operating revenues	16, 324, 517. 32

II

The Commission having been advised by its Public Utilities Division that the information set out in Part I hereof and other and further information contained in the Commission's public official files tends to show that:

5. The properties operated by the companies listed in paragraph 2 of this notice and order constitute more than a single integrated public utility system as defined by section 2 (a) (29) of the Act.

6. The properties operated by the companies listed in paragraph 2 of this notice and order constitute more than a single integrated public utility system and systems additional thereto, which may be retained under section 11 (b) (1) of the Act.

7. The assets of the holding company system are located in Massachusetts, New Hampshire, and Maine; the principal or "single" integrated public utility system, if any, of said holding company system is located in Massachusetts.

8. Under the terms of section 11 (b) (1) and especially Clause (B) thereof, New England Gas and Electric Association cannot retain any interest in public utilities operating in Maine.

9. The public utility companies operating in Massachusetts and New Hampshire constitute more than a single integrated public utility system and systems additional thereto which may be retained by New England Gas and Electric Association, pursuant to the provisions of section 11 (b) (1), and especially Clauses (A) and (C) thereof.

10. The business conducted by Cambridge Steam Corporation is not reasonably incidental, or economically necessary or appropriate, to the operations of any of the electric or gas utility systems operated by the companies named in paragraph 2 above which are located in Massachusetts or New Hampshire.

III

It, therefore, appearing to the Commission, in the light of the foregoing, that it is appropriate and in the public interest, and in the interest of investors and consumers, to institute proceedings against New England Gas and Electric Association, under section 11 (b) (1) of the Public Utility Holding Company Act of 1935, to determine whether certain orders should be entered pursuant to the provisions of section 11 (b) (1).

Wherefore it is ordered, That proceedings be instituted pursuant to section 11 (b) (1) of the Act and that New England Gas and Electric Association is hereby made the respondent herein, and that said respondent shall file with this Commission, on or before November 5, 1942, an answer admitting, denying or otherwise explaining its positions with respect to each of the factual allegations set forth in paragraphs 1 to 4 hereof, inclusive, and with respect to the allegations set forth in paragraphs 5 to 11 hereof, inclusive. Such answer may also include a statement by the respondent of its views as to what constitutes the "single integrated public utility system", if any, which it wishes to retain, and as to what additional systems and other businesses, if any, it believes can be retained with such system under the applicable standards of section 11 (b) (1). Such answer may also include a statement as to what action respondent deems to be necessary and appropriate and which it is prepared to take for the purpose of limiting the operations of its holding company system to a single integrated public utility system, together with such additional systems and other businesses as can be retained under the standards of section 11 (b) (1) of the Act.

It is further ordered, That a hearing be held on the 30th day of November 1942, at 10:00 o'clock A. M. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on said day by the hearing room clerk in Room 318, at which hearing the respondent and any other interested persons shall be given an opportunity to be heard with respect to the matters hereinbefore and hereinafter set forth, and with respect to any issues raised in and matters presented by respondent's answer, and at which hearing the respondent shall show cause why an order or orders should not be entered, pursuant to section 11 (b) (1) of said Act, requiring the divestment of properties, securities and other assets for the purpose of limiting the operations of respondent's holding company system as required by the standards of section 11 (b) (1) of said Act, and for the purpose of determining what steps and what action is necessary for that purpose.

It is further ordered, That:

(1) At the outset of said hearing respondent shall show cause why an immediate order should not be entered requiring the divestment by the respondent of all its interests in those companies operating in the State of Maine;

(2) Thereafter there will be considered what action is necessary and should be taken in order to limit the operations of the holding company system of the respondent with respect to the properties located in the States of Massachusetts and New Hampshire, which may be retained under the applicable standards of section 11 (b) (1) of the Act, including specifically a determination (a) of the number of integrated public utility systems, if any, under the control of respondent within the States of Massachusetts and New Hampshire, (b) as to which of such integrated public utility systems, if any, is to be considered as the "single integrated public utility system" retainable under section 11 (b) (1) of said Act, and (c) of the extent, if any, to which additional integrated public utility systems and other businesses may, upon a proper showing, be retained under common control with any such single integrated public utility system under the applicable standards of section 11 (b) (1) of the Act.

(3) Consideration will also be given, and the respondent and other interested persons shall have an opportunity to be heard, with respect to the time and manner for disposition of any other issues which may be presented in these proceedings, particularly with respect to the appropriate procedure for expediting the determination of the issues herein.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order by registered mail to the New England Gas and Electric Association, such mailing to be not less than 30 days prior to the date hereinbefore fixed for the filing of answers; and that notice is hereby given of said hearing to all companies hereinbefore mentioned by name in this order and to all other persons, including the security holders of New England Gas and Electric Association and of its subsidiaries, all States, municipalities and political subdivisions of States within which are located any utility assets of the respondent or of any of its subsidiaries or of any company hereinbefore mentioned by name in this order, all State Commissions, State securities commissions, and all agencies, authorities or instrumentalities of one or more States, municipalities or other political subdivisions having jurisdiction over respondent, its subsidiaries, and such companies, or over any of the businesses, affairs or operations of any of them, and that such notice shall be given further by general release of the Commission, distributed to the press and mailed to the mailing list of the Commission for releases issued under the Public Utility Holding Company Act of 1935. Further notice shall be given to all persons by publication in the FEDERAL REGISTER, not later than thirty days prior to the date hereinbefore fixed for the filing of answers.

It is further ordered, That any person proposing to be heard in these proceedings shall file with the Secretary of this Commission, on or before the date hereinbefore fixed within which respondent may file its answer, an appropriate request or application to be heard as provided by Rule XVII of the Commission's Rules of Practice.

It is further ordered, That jurisdiction be and is hereby reserved to broaden the issues in this proceeding for the purpose of dealing with other problems presented under section 11 (b) (1) or other provisions of the Act concerning the holding company system of the respondent, and jurisdiction is also reserved to make other persons respondents in these proceedings or in any proceedings the scope of which is enlarged as aforesaid, pursuant to such further notice as the Commission may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

The President

EXECUTIVE ORDER 9250

PROVIDING FOR THE STABILIZING OF THE NATIONAL ECONOMY

By virtue of the authority vested in me by the Constitution and the Statutes, and particularly by the Act of October 2, 1942, entitled "An Act to Amend the Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes", as President of the United States and Commander in Chief of the Army and Navy, and in order to control so far as possible the inflationary tendencies and the vast dislocations attendant thereon which threaten our military effort and our domestic economic structure, and for the more effective prosecution of the war, it is hereby ordered as follows:

TITLE I—ESTABLISHMENT OF AN OFFICE OF ECONOMIC STABILIZATION

1. There is established in the Office for Emergency Management of the Executive Office of the President an Office of Economic Stabilization at the head of which shall be an Economic Stabilization Director (hereinafter referred to as the Director).

2. There is established in the Office of Economic Stabilization an Economic Stabilization Board with which the Director shall advise and consult. The Board shall consist of the Secretary of the Treasury, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Chairman of the Board of Governors of the Federal Reserve System, the Director of the Bureau of the Budget, the Price Administrator, the Chairman of the National War Labor Board, and two representatives each of labor, management, and farmers to be appointed by the President. The Director may invite for consultation the head of any other department or agency. The Director shall serve as Chairman of the Board.

3. The Director, with the approval of the President, shall formulate and develop a comprehensive national economic policy relating to the control of civilian purchasing power, prices, rents, wages, salaries, profits, rationing, subsidies, and all related matters—all for the purpose of preventing avoidable increases in the cost of living, cooperating in minimizing the unnecessary migration of labor from one business, industry, or region to another, and facilitating the prosecution of the war. To give effect to this comprehensive national economic policy the Director shall have power to issue directives on policy to the Federal departments and agencies concerned.

4. The guiding policy of the Director and of all departments and agencies of the Government shall be to stabilize the cost of living in accordance with the Act of October 2, 1942; and it shall be the duty and responsibility of the Director and of all departments and agencies of the Government to cooperate in the execution of such administrative programs and in the development of such legislative programs as may be necessary to that end. The administration of activities related to the national economic policy shall remain with the departments and agencies now responsible for such activities, but such administration shall conform to the directives on policy issued by the Director.

TITLE II—WAGE AND SALARY STABILIZATION POLICY

1. No increases in wage rates, granted as a result of voluntary agreement, collective bargaining, conciliation, arbitration, or otherwise, and no decreases in wage rates, shall be authorized unless notice of such increases or decreases shall have been filed with the National War Labor Board, and unless the National War Labor Board has approved such increases or decreases.

2. The National War Labor Board shall not approve any increase in the wage rates prevailing on September 15, 1942, unless such increase is necessary to correct maladjustments or inequalities, to eliminate substandards of living, to correct gross inequities, or to aid in the effective prosecution of the war.

Provided, however, that where the National War Labor Board or the Price Administrator shall have reason to believe that a proposed wage increase will require a change in the price ceiling of the commodity or service involved, such proposed increase, if approved by the National War Labor Board, shall become effective only if also approved by the Director.

3. The National War Labor Board shall not approve a decrease in the wages for any particular work below the highest wages paid therefor between January 1, 1942 and September 15, 1942, unless to correct gross inequities and to aid in the effective prosecution of the war.

4. The National War Labor Board shall, by general regulation, make such exemptions from the provisions of this

title in the case of small total wage increases or decreases as it deems necessary for the effective administration of this Order.

5. No increases in salaries now in excess of $5,000 per year (except in instances in which an individual has been assigned to more difficult or responsible work), shall be granted until otherwise determined by the Director.

6. No decrease shall be made in the salary for any particular work below the highest salary paid therefore between January 1, 1942 and September 15, 1942 unless to correct gross inequities and to aid in the effective prosecution of the war.

7. In order to correct gross inequities and to provide for greater equality in contributing to the war effort, the Director is authorized to take the necessary action, and to issue the appropriate regulations, so that, insofar as practicable, no salary shall be authorized under Title III, Section 4 to the extent that it exceeds $25,000 after the payment of taxes allocable to the sum in excess of $25,000: Provided, however, that such regulations shall make due allowance for the payment of life insurance premiums on policies heretofore issued, and required payments on fixed obligations heretofore incurred, and shall make provision to prevent undue hardship.

8. The policy of the Federal Government, as established in Executive Order No. 9017 of January 12, 1942, to encourage free collective bargaining between employers and employees is reaffirmed and continued.

9. Insofar as the provisions of Clause (1) of section 302 (c) of the Emergency Price Control Act of 1942 are inconsistent with this Order, they are hereby suspended.

TITLE III—ADMINISTRATION OF WAGE AND SALARY POLICY

1. Except as modified by this Order, the National War Labor Board shall continue to perform the powers, functions, and duties conferred upon it by Executive Order No. 9017,[1] and the functions of said Board are hereby extended to cover all industries and all employees. The National War Labor Board shall continue to follow the procedures specified in said Executive Order.

2. The National War Labor Board shall constitute the agency of the Federal Government authorized to carry out the wage policies stated in this Order, or the directives on policy issued by the Director under this Order. The National War Labor Board is further authorized to issue such rules and regulations as may be necessary for the speedy determination of the propriety of any wage increases or decreases in accordance with this Order, and to avail itself of the services and facilities of such State and Federal departments and agencies as, in the discretion of the National War Labor Board, may be of assistance to the Board.

3. No provision with respect to wages contained in any labor agreement between employers and employees (including the Shipbuilding Stabilization Agreements as amended on May 16, 1942, and the Wage Stabilization Agreement of the Building Construction Industry arrived at May 22, 1942) which is inconsistent with the policy herein enunciated or hereafter formulated by the Director shall be enforced except with the approval of the National War Labor Board within the provisions of this Order. The National War Labor Board shall permit the Shipbuilding Stabilization Committee and the Wage Adjustment Board for the Building Construction Industry, both of which are provided for in the foregoing agreements, to continue to perform their functions therein set forth, except insofar as any of them is inconsistent with the terms of this Order.

4. In order to effectuate the purposes and provisions of this Order and the Act of October 2, 1942, any wage or salary payment made in contravention thereof shall be disregarded by the Executive Departments and other governmental agencies in determining the costs or expenses of any employer for the purpose of any law or regulation, including the Emergency Price Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the Revenue Laws of the United States or for the purpose of determining costs or expenses under any contract made by or on behalf of the Government of the United States.

TITLE IV—PRICES OF AGRICULTURAL COMMODITIES

1. The prices of agricultural commodities and of commodities manufactured or processed in whole or substantial part from any agricultural commodity shall be stabilized, so far as practicable, on the basis of levels which existed on September 15, 1942 and in compliance with the Act of October 2, 1942.

2. In establishing, maintaining or adjusting maximum prices for agricultural commodities or for commodities processed or manufactured in whole or in substantial part from any agricultural commodity, appropriate deductions shall be made from parity price or comparable price for payments made under the Soil Conservation and Domestic Allotment Act, as amended, parity payments made under the Agricultural Adjustment Act of 1938, as amended, and governmental subsidies.

3. Subject to the directives on policy of the Director, the price of agricultural commodities shall be established or maintained or adjusted jointly by the Secretary of Agriculture and the Price Administrator; and any disagreement between them shall be resolved by the Director. The price of any commodity manufactured or processed in whole or in substantial part from an agricultural commodity shall be established or maintained or adjusted by the Price Administrator, in the same administrative manner provided for under the Emergency Price Control Act of 1942.

4. The provisions of sections 3 (a) and 3 (c) of the Emergency Price Control Act of 1942 are hereby suspended to the extent that such provisions are inconsistent with any or all prices established under this Order for agricultural commodities, or commodities manufactured or processed in whole or in substantial part from an agricultural commodity.

TITLE V—PROFITS AND SUBSIDIES

1. The Price Administrator in fixing, reducing, or increasing prices, shall determine price ceilings in such a manner that profits are prevented which in his judgment are unreasonable or exorbitant.

2. The Director may direct any Federal department or agency including, but not limited to, the Department of Agriculture (including the Commodity Credit Corporation and the Surplus Marketing Administration), the Department of Commerce, the Reconstruction Finance Corporation, and other corporations organized pursuant to Section 5d of the Reconstruction Finance Corporation Act, as amended, to use its authority to subsidize and to purchase for resale, if such measures are necessary to insure the maximum necessary production and distribution of any commodity, or to maintain ceiling prices, or to prevent a price rise inconsistent with the purposes of this Order.

TITLE VI—GENERAL PROVISIONS

1. Nothing in this Order shall be construed as affecting the present operation of the Fair Labor Standards Act, the National Labor Relations Act, the Walsh-Healey Act, the Davis-Bacon Act, or the adjustment procedure of the Railway Labor Act.

2. Salaries and wages under this Order shall include all forms of direct or indirect remuneration to an employee or officer for work or personal services performed for an employer or corporation, including but not limited to, bonuses, additional compensation, gifts, commissions, fees, and any other remuneration in any form or medium whatsoever, (excluding insurance and pension benefits in a reasonable amount as determined by the Director); but for the purpose of determining wages or salaries for any period prior to September 16, 1942, such additional compensation shall be taken into account only in cases where it has been customarily paid by employers to their employees. "Salaries" as used in this Order means remuneration for personal services regularly paid on a weekly, monthly or annual basis.

3. The Director shall, so far as possible, utilize the information, data, and staff services of other Federal departments and agencies which have activities or functions related to national economic policy. All such Federal departments and agencies shall supply available information, data, and services required by the Director in discharging his responsibilities.

4. The Director shall be the agency to receive notice of any increase in the rates or charges of common carriers or other public utilities as provided in the aforesaid Act of October 2, 1942.

5. The Director may perform the functions and duties, and exercise the powers, authority, and discretion conferred upon him by this Order through such officials or agencies, and in such manner, as he may determine. The decision of the Director as to such delegation and the manner of exercise therof shall be final.

---

[1] 7 F.R. 237.

6. The Director, if he deems it necessary, may direct that any policy formulated under this Order shall be enforced by any other department or agency under any other power or authority which may be provided by any of the laws of the United States.

7. The Director, who shall be appointed by the President, shall receive such compensation as the President shall provide, and within the limits of funds which may be made available, may employ necessary personnel and make provision for supplies, facilities and services necessary to discharge his responsibilities.

Chapter VII—Agricultural Adjustment Agency

[ACP-1942-14]

Part 701[1]—Agricultural Conservation Program

SUBPART D—1942

Allotments, Yields, Grazing Capacities, Etc.

Pursuant to the authority vested in the secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, the 1942 Agricultural Conservation Program, as amended, is further amended as follows:

1. Section 701.301 (g) (8) (i) is amended by inserting an "(a)" just following the word "except" and adding the following at the end thereof:

§ 701.301 *Allotments, yields, grazing capacities, payments and deductions.* * * *

(g) *Wheat.* * * *

(8) *Deduction.*—(i) *Wheat-allotment farms.* * * * and (b) that on any farm in the Southern Region except Oklahoma and Texas, which comprised more than one farm under the 1941 Agricultural Conservation Program but which was determined by the county committee after the wheat was seeded for harvest in 1942 to comprise only one farm, the deduction for the excess wheat acreage shall be the deduction computed for the excess wheat acreage on the combined farm but not to exceed the larger of (1) the deduction which would have been computed had there been no combination for 1942 or (2) the wheat payment for the combined farm.

2. Section 701.301 (g) (8) (ii) is amended by changing the period at the end to a colon and adding the following:

(ii) * * * *Provided*, That for any farm in the Southern Region except Oklahoma and Texas, which in 1941 comprised more than one farm but which was determined by the county committee after the wheat was seeded for harvest in 1942 to comprise only one farm, the deduction shall not exceed the deduction which would have been computed had there been no combination for 1942.

3. Section 701.301 (i) (1) the first paragraph is amended to read as follows:

(i) *Minimum soil-conserving and soil-building requirements.* * * * (1) *Minimum conserving acreage.* The net payment for any farm in connection with special crop allotments shall be subject to a deduction of 5 percent of the maximum amount computed in connection with such allotments for each 1 percent of the cropland on the farm by which the acreage of cropland on the farm devoted exclusively, throughout the 1942 crop year, to one or more of the following uses, as recommended by the State committee and approved by the Agricultural Adjustment Agency, is less than 20 percent of the cropland on the farm: *Provided, however,* That when all or a part of the cropland on a farm has been acquired for the purpose of the national war effort or was flooded in 1942 and it would be impracticable or inequitable to require compliance with the soil-conserving use requirements on the basis of the total cropland in the farm, the county committee with the approval of the State committee, in accordance with instructions issued by the Agricultural Adjustment Agency, may waive all or any part of such requirement:

* * * * *

4. Section 701.301 (i) (1) (xii) is amended to read as follows:

(xii) New seedings of perennial grasses or legumes, biennial legumes, or lespedeza seeded in accordance with good farming practice with flax, peas, or small grains as a nurse crop. The maximum acreage which may qualify under this item shall be limited to the 1942 acreage of flax plus 40 percent of the sum of the 1942 acreages of the following crops on the farm: Soybeans for beans, peanuts for oil, hemp, castor beans, sugar beets, dry field peas, dry beans, canning peas, canning tomatoes, American-Egyptian cotton and land used for school lunch gardens.

* * * * *

5. Section 701.301 (i) (2), the first paragraph, is amended to read as follows:

(2) *Minimum acreage of erosion-resisting crops.* The net payment for any farm in connection with special crop allotments shall be subject to a deduction of 4 percent of the maximum amount computed in connection with such allotments for each 1 percent of the cropland on the farm by which the acreage of erosion-resisting crops and land uses on the farm is less than 25 percent of the cropland on the farm. Erosion-resisting crops and land uses for any county shall be determined by the State committee, with the approval of the Agricultural Adjustment Agency, and may include only cropland which is devoted in the program year to one or more of the following crops or uses: *Provided, however,* That when all or a part of the cropland in a farm has been acquired for the purpose of the National war effort or was flooded in 1942 and it would be impracticable or inequitable to require compliance with the soil-conserving use requirements on the basis of the total cropland in the farm, the county committee with the approval of the State committee, in accordance with instructions issued by the Agricultural Adjustment Agency, may waive all or any part of such requirement:

* * * * *

6. Section 701.301 (i) (2) is further amended by changing the item pertaining to winter legumes, rye grass, and small grains contained in the list of erosion-resisting crops and uses to read as follows:

(2) *Minimum acreage of erosion-resisting crops.* * * *

Winter legumes, rye grass, and small grains (except wheat) seeded in the fall of 1942 on land from which castor beans produced from seed furnished by the Agricultural Adjustment Agency, Sea Island cotton, flax, hemp, sugar beets, dry field peas, dry beans, canning peas, canning tomatoes, sorgo for alcohol, or peanuts, are harvested, land used for school lunch gardens, or land on which a good stand of volunteer wheat is turned under, in 1942. The maximum acreage which may qualify under this item shall be limited to 12½ percent of the cropland but not in excess of the sum of the 1942 acreages of castor beans produced from seed furnished by the Agricultural Adjustment Agency, Sea Island cotton, flax, hemp, sugar beets, dry field peas, dry beans, canning peas, canning tomatoes, sorgo for alcohol, and land used for school lunch gardens plus the amount by which the 1942 acreage of peanuts exceeds the 1942 peanut allotment, and land on which a good stand of volunteer wheat is turned under.

* * * * *

7. Section 701.301 (i) (4) is amended to read as follows:

(4) *Minimum soil-building performance.* The payment made with respect to special crop allotments shall not exceed a percentage of the net payment earned with respect to such allotments equal to the percentage of that part of the soil-building allowance computed under subparagraphs (1) to (3), inclusive, of paragraph (d), § 701.302, which is earned for the farm, except that such limitation will not be applicable if (i) the amount of the soil-building payment earned equals or exceeds the maximum payment computed in connection with special crop allotments, or (ii) the farm is retired from agricultural production during the 1942 program year: *Provided,* That in areas designated by the Agricultural Adjustment Agency, cropland which the county committee determines is subject to annual overflow will not be used in computing the part of the soil-building allowance used for the purpose of this subparagraph. In determining performance under this subparagraph, in areas designated by the Agricultural Adjustment Agency as areas where the allowance on noncrop open pasture is the major portion of the soil-building allowance on a substantial number of farms, the allowance on noncrop open pasture shall not be included.

* * * * *

8. Section 701.301 (j) (2) is amended to read as follows:

(j) *Miscellaneous.* * * *

(2) *Deduction for breaking out permanent vegetative cover.* $3 for each acre of native sod, land previously designated as restoration land which has been reclassified as noncrop pasture or range land, or any other land on which a permanent vegetative cover has been established, broken out during 1942 program year in an area designated by the Agricultural Adjustment Agency as an area subject to serious wind erosion unless the acreage was broken out with the approval of the county committee for the planting of forest trees or the county committee determines in accordance with the standards established by the State committee with the approval of the Agricultural Adjustment Agency that the land broken out is suited to the continuing production of cultivated crops and will not become a wind erosion hazard to the community.

* * * * *

9. Section 701.309 (a) (2) is amended to read as follows:

§ 701.309 *General provisions relating to payments*—(a) *Payment restricted to effectuation of purposes of the program.*

* * * * *

(2) Payments other than payments in connection with soil-building practices will be made only with respect to farms which are being operated during the 1942 program year: *Provided, however,* That in areas designated by the Agricultural Adjustment Agency as areas in which substantial numbers of farms are determined to be farms on which the farming operations were so far short of full operation that, under such instructions as may have been issued prior to September 1, 1942, they would have been regarded as not operated, and the shortage of operation was brought about by causes beyond the control of the operators of such farms, payments other than soil-building practice payments on farms determined to be not operated will be computed on the basis of the smaller of (1) the acreage allotments or (2) 125 percent of the planted acreage of each crop for which an acreage allotment is determined for the farm.

Chapter VII—Personnel

Part 70—The Army Nurse Corps[1]

All sections under Part 70 as published in the FEDERAL REGISTER May 27, 1941 (6 F.R. 2568) are rescinded and the following regulations are substituted therefor.

Sec.	
70.1	Composition.
70.2	Rights and privileges.
70.3	Appointment and promotion.
70.4	Place of first assignment.
70.5	Duties of the Army Nurse Corps.
70.6	Quarters, allowances, and supply of furniture and linens.
70.7	Subsistence at Army hospitals.
70.8	Transportation and traveling expenses.
70.9	Leave of absence.
70.10	Reserve nurses.

AUTHORITY: §§ 70.1 to 70.10, inclusive, issued under 40 Stat. 879, 41 Stat. 767; 10 U.S.C. 161, 164.

§ 70.1 *Composition.* (a) That the Nurse Corps * * * of the Medical Department of the Army shall hereafter be known as the Army Nurse Corps, and shall consist of 1 superintendent, who shall be a graduate of a hospital-training school having a course of instruction of not less than 2 years; of as many chief nurses, nurses, and reserve nurses as may from time to time be needed and prescribed or ordered by the Secretary of War, and, in the discretion of the Secretary of War, of not exceeding 6 assistant superintendents, and, for each army or separate military force beyond the continental limits of the United States, 1 director and not exceeding 2 assistant directors of nursing service, all of whom shall be graduates of hospital-training schools and shall have passed such professional, moral, mental, and physical examination as shall be prescribed by the Secretary of War. (Act July 9, 1918; 40 Stat. 879; 10 U.S.C. 161.)

(b) Unless otherwise indicated, the term "nurse" as used in these and other regulations means any member of the Army Nurse Corps regardless of grade.

(c) The grades, with relative rank, which may be held by an Army nurse are, in the order of their importance, from the lowest to the highest:

(1) Nurse and Reserve nurse (with relative rank of second lieutenant).

(2) Chief nurse (with relative rank of first lieutenant).

(3) Assistant director (with relative rank of captain).

(4) Director (with relative rank of captain).

(5) Assistant superintendent (with relative rank of captain).

(6) Superintendent (with relative rank of major).

(See section 10, national defense act, as amended by act June 4, 1920 (41 Stat. 767; 10 U.S.C. 164))

(d) The regulations in this part embrace primarily the administrative requirements of the Army Nurse Corps. [Par. 1]

§ 70.2 *Rights and privileges.* The following rights and privileges are prescribed for the Army Nurse Corps by the Secretary of War in accordance with the act of June 4, 1920 (41 Stat. 768).

(a) They will be accorded the same obedience from enlisted men and patients in and about military hospitals as is accorded commissioned officers.

(b) They are not eligible for detail as members of courts martial, but may prefer charges against any member of the military service.

(c) They are entitled to the same privileges and allowances, except mileage, as are prescribed for commissioned officers of grades corresponding to their relative rank; and in general all such personal privileges and perquisites, not specifically denied them, as go with commissioned rank and are customarily enjoyed by commissioned officers.

(d) In all reports, returns, orders, and other official documents the titles corresponding to the relative rank conferred upon nurses will be used in the same manner as is prescribed for commissioned officers.

(e) They will be governed by the same censorship regulations as are prescribed for commissioned officers. [Par. 2]

§ 70.3 *Appointment and promotion*—(a) *General.* Original appointments in the Army Nurse Corps will be in the grades of nurse and Reserve nurse. Appointments in all grades, except that of superintendent, are made by The Surgeon General with the approval of the Secretary of War. (See act July 9, 1918 (40 Stat. 879; 10 (U.S.C. 162).)

(b) *Original appointment.* (1) Application for appointment should be made to The Surgeon General who will furnish blanks therefor.

(2) The applicant must be a graduate of an accredited high school or have an education equivalent thereto, unmarried, a registered nurse, and a citizen of the United States.

(3) *Age requirements.* (i) In grade of nurse between 22 and 30 years.

(ii) In grade of Reserve nurse, between 21 and 40 years.

(4) The physical standard and examination of applicants will be governed by the provisions of AR 40–100.[2]

(5) A professional examination will not ordinarily be required, though it may be when deemed necessary by The Surgeon General. An applicant will not be eligible for appointment unless she is a graduate of a school of nursing of approved standards, or has a record of desirable postgraduate training or experience. The applicant's qualifications will be evaluated on her record as a student and on her performance as a nurse.

(6) The applicant will agree to serve for the periods indicated, except in time of national emergency, when this requirement may be waived;

(i) Grade of nurse, 3 years.

(ii) Grade of Reserve nurse, 1 year. [Par. 3]

§ 70.4 *Place of first assignment.* In time of peace the nurse's first assignment will ordinarily be to a station in the United States, to afford her an opportunity to become acquainted with military customs. [Par. 7]

§ 70.5 *Duties of the Army Nurse Corps.*—(a) *General.* Rules and regulations prescribing the duties of the Army Nurse Corps will be prescribed by The Surgeon General of the United States Army, subject to the approval of the Secretary of War.

(b) *Hours of duty.* So far as practicable, a daily tour of duty will not exceed 8 hours. The hours of duty for all members of the Army Nurse Corps will be prescribed by the principal chief nurse. [Pars. 10 and 11]

§ 70.6 *Quarters, allowances, and supply of furniture and linens.*—(a) *Quarters in kind.* The allowance of quarters where quarters in kind are available will include, when practicable, 1 dining room, 1 kitchen, 1 sitting room, and the necessary toilet and utility rooms, for the common use of all nurses, and a separate bedroom for each nurse; also an office, and a separate sitting room and bathroom for the principal chief nurse.

(b) *Supply of furniture and linens.* The Medical Department will supply the necessary furniture and care for the quarters of nurses on duty in hospitals. Sheets, towels, pillowcases, table linens, and other washable articles so supplied will be laundered as a part of the hospital linen. [Par. 12]

§ 70.7 *Subsistence at Army hospitals.* The commanding officer of a hospital will provide suitable meals and proper messing facilities, including necessary equipment and service for nurses on duty at his hospital. At the Army and Navy General Hospital, Hot Springs, Ark., this subsistence charge will be 60 cents per day. At other hospitals, the charge will be the full amount of the nurses' authorized subsistence allowance; but if at any time the approved expenditures of the nurses' mess exceed its current income from individuals and its accumulated reserve in the hospital fund, the members will be charged such additional pro rata assessments as may be necessary to prevent a deficit. While patients in hospital, all nurses, active or retired, will pay into the general account of the hospital fund, on the subsistence basis of officer patients, except at Army and Navy General Hospital and Fitzsimons General Hospital. (See AR 40–600.[3])

§ 70.8 *Transportation and traveling expenses.* Nurses traveling under orders are entitled to transportation at public expense. The Quartermaster Corps will ordinarily furnish the required transportation in kind or will issue transportation requests upon common carriers for the same. [Par. 14]

§ 70.9 *Leave of absence*—(a) *Annual.* Under the provisions of section 5, Chapter 5, Act of July 9, 1918 (40 Stat. 879–880) nurses are entitled to leave of absence with pay and allowances at the rate of thirty days for each calendar year of service in the corps. The leave year will be reckoned in each case from the date of execution of oath, as it appears on her letter of appointment. A leave credit of 2½ days for each month of completed service and leave with pay under her appointment will be allowed, against which will be charged all absence on leave with pay, except absence on sick leave. Leave credits will not be allowed for periods of absence without pay. Unused leave credits may accumulate to an aggregate not exceeding 120 days. Leave to the amount of accumulated unused leave credits may be granted whenever the exigencies of the service permit. Final leave effective prior to discharge will be granted to the amount of accumulated credits. A leave credit accruing but unused under one appointment may be carried over and become available under a subsequent appointment, provided the service is continuous. (See AR 35–2020.[4])

(b) *Sick leave.* In addition to the ordinary leave hereinbefore referred to, a nurse incapacitated for duty by reason of illness of injury incurred in the line of duty is entitled to sick leave not exceeding 30 days in any one calendar year. (See AR 35–2020.[4])

(c) *Leave without pay.* Under exceptional circumstances a leave of absence without pay and allowances may be granted to a nurse for a period of not exceeding 90 days, if in the opinion of her commanding officer such privilege would not be in conflict with the interests of the service. [Par. 16]

§ 70.10 *Reserve nurses*—(a) *Procurement and appointment.* Nurses for appointment in the grade of Reserve nurse will be selected from the roster of enrolled nurses of the American Red Cross Nursing Service, or any other acceptable source.

(b) *Regulations governing.* The nurse appointed in the Army Nurse Corps in the grade of Reserve nurse becomes subject to all regulations governing Army nurses. [Par. 20]

[Docket No. 4679]

B. & L. HAT COMPANY

§ 3.69 (b) *Misrepresenting oneself and goods—Goods—Composition:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Old, secondhand or reconstructed as new—Old and used as unused or new:* § 3.71 (a) *Neglecting, unfairly or deceptively, to make material disclosure—Composition:* § 3.71 (c) *Neglecting, unfairly or deceptively, to make material disclosure—Old and used as unused or new.* In connection with offer, etc., in commerce, of hats, (1) representing that hats composed in whole or in part of used or second-hand materials are new, or are composed of new materials, by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat, in conspicuous and legible terms which cannot be removed or obliterated without mutilating the hat itself, a statement that said hats are composed of second-hand or used materials; and (2) representing in any manner that hats made in whole or in part from old, used, or second-hand materials are new or are composed of new materials; prohibited, subject to the provision, however, as respects former prohibition, that if substantial bands, placed similarly to sweat bands in men's hats, are attached to said hats, then such statement may be stamped upon the exposed surface of such bands, provided that said stampings are of such nature that they cannot be removed or obliterated without mutilating the band and the band itself cannot be removed without rendering the hat unserviceable; and subject to further provision that no provision of order in question shall be construed as relieving respondents in any respect of the necessity of complying with the requirements of the Wool Products Labeling Act of 1939 and the authorized rules and regulations thereunder. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, B. & L. Hat Company, Docket 4679, September 28, 1942]

In the matter of Ben D. Fogel and Louis Singer, individually and trading as B. & L. Hat Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 28th day of September, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of respondents (which admitted the principal allegations of the complaint), testimony and other evidence in further support of the allegations of the complaint taken before a trial examiner of the Commission theretofore duly designated by it (no evidence being offered by respondents), report of the trial examiner upon the evidence, and brief in support of the complaint (no brief having been filed by respondents and oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Ben D. Fogel and Louis Singer, individually and trading as B. & L. Hat Company, or trading under any other name, and their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of hats in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing that hats composed in whole or in part of used or second-hand materials are new, or are composed of new materials, by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat, in conspicuous and legible terms which cannot be removed or obliterated without mutilating the hat itself, a statement that said hats are composed of second-hand or used materials: *Provided*, That if substantial bands, placed similarly to sweat bands in men's hats, are attached to said hats, then such statement may be stamped upon the exposed surface of such bands: *Provided further*, That said stampings are of such nature that they cannot be removed or obliterated without mutilating the band and the band itself cannot be removed without rendering the hat unserviceable.

2. Representing in any manner that hats made in whole or in part from old, used, or second-hand materials are new or are composed of new materials.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

It is further ordered, That no provision in this order shall be construed as relieving respondents in any respect of the necessity of complying with the requirements of the Wool Products Labeling Act of 1939 and the authorized rules and regulations thereunder.

By the Commision.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Sherman Hat Company, Docket 4628, September 28. 1942].

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 28th day of September, A D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, testimony and other evidence in support of, and in opposition to, the allegations of the complaint, taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and exceptions filed thereto, and brief filed by counsel for the Commission; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent Sherman Hat Company, a corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution of hats in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing that hats composed in whole or in part of used or secondhand materials are new or are composed of new materials, by failure to stamp in some conspicuous place on the exposed surface of the inside of the hat, in conspicuous and legible terms which cannot be removed or obliterated without mutilating the hat itself, a statement that said hats are composed of secondhand or used materials: *Provided*, That if substantial bands placed similarly to sweat bands in men's hats are attached to said hats, then such statement may be stamped upon the exposed surface of such bands: *Provided, further*, That said stampings are of such nature that they cannot be removed or obliterated without mutilating the band, and the band itself cannot be removed without rendering the hat unserviceable;

(2) Representing in any manner that hats made in whole or in part from old, used, or secondhand materials are new or are composed of new materials.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

It is further ordered, That no provision in this order shall be construed as relieving respondent in any respect of the necessity of complying with the requirements of the Wool Products Labeling Act of 1939 and the authorized rules and regulations thereunder.

By the Commission.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1482]

Part 325—Minimum Price Schedule, District No. 5

REVISION OF SIZE GROUP CLASSIFICATIONS

Findings of fact, conclusions of law and memorandum opinion and order in the matter of the petition of District Board No. 5 for revision of size group classifications for mines in District No. 5.

This proceeding was instituted upon the petition of District Board No. 5, filed with the Bituminous Coal Division on June 2, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requested the reduction in the number of size group classifications established for coal produced for rail and truck shipments in District No. 5. Petition of intention was filed by the Consumers' Counsel on July 18, 1942.

After due notice to interested persons, a hearing in this matter was held on July 23, 1942, before Edward J. Hayes, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Appearances were entered by the petitioner and Consumers' Counsel. Preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

This proceeding was instituted by District Board No. 5 to effect the deletion of size group classifications Nos. 3, 6, 8, 10, 13, 15, 16, 18 and 19 from the Effective Minimum Price Schedules for District No. 5 For All Shipments Except Truck and For Truck Shipments.

There were 14 mines operating in District No. 5 when nineteen size group classifications and minimum prices were established in General Docket No. 15. At the present time there are only 9 mines operating in District No. 5, and none of these mines is using screens to prepare coal in Size Groups Nos. 3, 6, 8, 10, 13, 15, 16, 18 and 19. W. E. Pippin, Secretary of District Board No. 5, testified that 19 size group classifications and prices in a district in which there are but 9 mines cause much confusion in the supervision of minimum prices for District No. 5. The District Board, therefore, proposes to delete from the schedules of minimum prices all the size group classifications which are not now applicable to coals prepared in District No. 5 at the present time. It is the District Board's intention that these classifications be deleted from both the truck and rail schedules, since the classification in the two schedules correspond in every respect. It is further proposed that after deleting nine size groups and their corresponding minimum prices, the remaining minimum prices will continue to be the same except that the size group members will be changed as follows: No. 1 will be the same; No. 2 will be the same; No. 3 will be old No. 4; No. 4 will be old No. 5; No. 5 will be old No. 7; No. 6 will be old No. 9; No. 7 will be old No. 11; No. 8 will be old No. 12; No. 9 will be old No. 14; No. 10 will be old No. 17.

The deletion of certain size groups will not, however, disenable producers from making any of those sizes. In the event a mine should in the future produce coal of a size falling between any of these 10 proposed classifications, Price Instruction 5 in the Effective Minimum Price Schedule for All Shipments Except Truck will apply if the coal moves by rail; and Prices Instruction 4 in the Effective Minimum Price Schedule for Truck Shipments will apply if the coal moves by truck. These price instructions are exactly alike, reading as follows:

> If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.
>
> If any size coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

District Board No. 5 did not petition for a change in the description of the size groups, but W. E. Pippin, Secretary of the District Board, testified that they would be agreeable to a change in these descriptions so long as there remained a sharp delineation between the various size groups so that there could be no question into which size group a particular size coal will fall. Pippin testified that the District Board had anticipated that the key size numbers would necessarily have to be changed.

O. R. Bell appeared in behalf of the Consumers' Counsel and stated that the Consumers' Counsel approved wholeheartedly of the petition of District Board No. 5 for the reduction of the number of size groups in District No. 5,

On the basis of the uncontroverted evidence, I find that the deletion of Size Group Classifications Nos. 3, 6, 8, 10, 13, 15, 16, 18 and 19, as requested by District Board No. 5, will simplify the operation of the effective minimum price schedules for District No. 5. The reduction of the number of size group classifications in the effective minimum price schedules, I find, will require changes in the descriptions of the size groups and of the key size numbers. The key size numbers and the key size pages, will necessarily have to be rearranged.[1] These proposed amendments to the Effective Minimum Price Schedules for District No. 5 will effectuate the purposes of section 4 II (a) and (b) of the Act and will comply in all respects with the standards thereof.

Now, therefore, it is ordered, That § 325.1 (*Price instructions and exceptions*) is amended by substituting thereto Amendment R-I, § 325.2 (*Size group table*) is amended by substituting thereto Amendment R-II, § 325.3 (*Description of sizes by key size number*) is amended by substituting thereto Amendment R-III, § 325.4 (*Key sizes and commercial size groups for all coal*) is amended by substituting thereto Amendment R-IV, § 325.5 (*Alphabetical list of code members*) is amended by substituting thereto Amendment R-V, § 325.6 (*General prices*) is amended by substituting thereto Amendment R-VI, § 325.7 (*Special prices—Railroad fuel prices*) is amended by substituting thereto Amendment R-VII, § 325.21 (*Price instructions and exceptions*) is amended by substituting thereto Amendment T-I, § 325.22 (*Size group table*) is amended by substituting thereto Amendment T-II, and § 325.23 (*General prices; shipment by truck into all market areas*) is amended by substituting thereto Amendment T-III, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: September 22, 1942.

[SEAL] Dan H. Wheeler,
Director.

Amendment to Minimum Price Schedule District No. 5

SUBPART A—ALL SHIPMENTS EXCEPT TRUCK

[Amendment R-I]

§ 325.1 *Price instructions and exceptions*—(a) *Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective marketing rules and regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to rules and regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) In the sale of coal to destinations outside the boundary of the United States, prices listed herein are for payment in United States funds.

(4) All size designations are for round-hole screens except Size Group No. 10 which is for screens with square-hole openings. When other types of screens are used, the producer shall observe, for the sizes which he produces, the prices listed for the equivalent sizes produced by use of round-hole screens, as determined by the test prescribed by A. S. T. M. designation D-410-38. If the percentage of oversize exceeds five per cent, the price

for the next larger size group classification for that mine shall apply.

(5) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(6) The prices listed herein for shipment via rail transportation apply also for shipment via all other methods of transportation except truck or wagon.

(7) The market areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of common consuming market areas, established in connection with the effective minimum prices pursuant to section 4, Part II of the Bituminous Coal Act of 1937."

(8) Railway fuel prices listed herein shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

(9) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount at least equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation, dock or other facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be not less than the estimated actual cost of such transactions, arrived at in good faith in a reasonable manner: *Provided, however,* That code members may make application to the Director of the Bituminous Coal Division for permission to add to the f. o. b. mine price a sum less than the estimated actual cost of such transactions, upon a showing that such is necessary to preserve existing fair competitive opportunities.

Doubtful situations, concerning the application of this instruction to particular transactions, may be referred to the Director for a ruling.

(10) Various parts of this schedule contain special notes, instructions and exceptions, applicable to specified situations. Such special notes, instructions and exceptions are in addition to the general price instructions and price exceptions listed herein. In the event of any inconsistency between such special notes, instructions and exceptions, and the general price instructions and price exceptions, the special notes, instructions and exceptions shall control.

(11) In the event any price instruction, price exception, or any other provision of this schedule is inconsistent with any provision of any order, rule or regulation of the National Bituminous Coal Commission or the Bituminous Coal Division issued prior to the effective-date of this schedule, the price instructions and exceptions and provisions of this schedule shall control.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal which, under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When lump or double screened coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) Prices listed herein for all sizes above ¼" x 0 raw screenings shall be increased 25 cents per net ton when such sizes are washed or mechanically cleaned.

(4) Prices listed herein for ¼" x 0 or smaller screenings shall be increased 75 cents per net ton when such sizes are washed or mechanically cleaned.

[Amendment T-I]

§ 325.21 *Price instructions and exceptions.* (a) *Price instructions.* (1) Prices listed herein are minimum prices in cents per net ton of 2,000 pounds free on board transportation facilities at the mines.

(2) Prices listed herein are subject to effective marketing rules and regulations established pursuant to section 4, Part II of the Bituminous Coal Act of 1937; to maximum discounts that may be made to distributors, prescribed pursuant to section 4, Part II (h) of said Act; and to rules and regulations for the registration of distributors and bona-fide and legitimate farmers' cooperative organizations.

(3) Size designations listed herein are predicated on the use of round hole screens except Size Group No. 10, which is predicated on the use of square hole screens. When other types of screens are used, the producer shall observe for the sizes which he produces the prices listed for equivalent sizes produced by use of round hole screens. The District Board, with the approval of the Bituminous Coal Division, upon petition of the Producer or upon its own motion will determine the appropriate size designations of the coal produced.

(4) If the maximum top or bottom size of any size of coal exceeds that listed for a particular size group, then such coal must be included in the size group for the next larger size for the same mine and priced accordingly.

If any size of coal falls within a size group for which no price is listed, such size shall be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine.

(5) The market areas to which reference is made in this schedule are those which are numerically designated and geographically described in the "Schedule of common consuming market areas, established in connection with the effective minimum prices, pursuant to section 4, Part II of the Bituminous Coal Act of 1937".

(6) No code member shall evade or violate any of the price provisions of the Act, or any of the prices herein provided, by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Where coal is sold by a code member f. o. b. a point other than transportation facilities at the mine, there shall be added to the applicable minimum f. o. b. mine price provided in this schedule an amount at least equal, as nearly as practicable, to the actual transportation charges, handling charges, or incidental charges of whatsoever kind or character (exclusive of customary costs of mine operation), from the transportation facilities at the mine to the point from which all such charges are assumed and directly paid by the purchaser. When the transportation, handling, or incidental transaction is not an arm's length transaction (for example, when transportation, dock or other facilities are either owned or controlled by the code member or its affiliates), the charge which shall be added shall be not less than the estimated actual cost of such transactions, arrived at in good faith in a reasonable manner: *Provided, however,* That code members may make application to the Director of the Bituminous Coal Division for permission to add to the f. o. b. mine price a sum less than the estimated actual cost of such transactions, upon a showing that such is necessary to preserve existing fair competitive opportunities. Doubtful situations, concerning the application of this instruction to particular transactions, may be referred to the Director for a ruling.

(b) *Price exceptions.* (1) Minimum prices for any sale of coal, which under section 3 (e) of the Bituminous Coal Act of 1937 or other provision of law, is exempt from the tax of one cent per net ton levied by section 3 (a) of such Act, shall be one cent per net ton less than that otherwise applicable under this schedule.

(2) When lump or double screened coal is subjected to any chemical, oil or waxing process for allaying dust, the prices listed in this schedule for such coal shall be increased 10 cents per net ton.

(3) Prices listed herein for all sizes above ¼″ raw screenings shall be increased 25 cent per net ton when such sizes are washed or mechanically cleaned.

(4) Prices listed herein for ¼″ x 0 raw screenings shall be increased 75 cents per net ton when such sizes are washed or mechanically cleaned.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 927—NICKEL

[Conservation Order M–6–b, as Amended October 3, 1942]

Section 927.3, *Conservation Order M–6–b*, is hereby amended to read as follows:

§ 927.3 *Conservation Order M–6–b, as amended October 3, 1942*—(a) *Prohibited uses of nickel.* No nickel shall be used in the manufacture of any item (or part therefor, including repair parts) on List A attached to this order.

(b) *Restricted uses of nickel.* Nickel may be used in the manufacture of articles omitted from List A, or for purposes specified on List A as being exempt from its prohibitions, only as follows:

(1) By any person to the extent that nickel is or may have been allocated to him for such purpose by the Director General for Operations, but subject to any specific directions issued with respect to the material so allocated;

(2) By any person with the specific permission of the Director General for Operations, regardless of whether or not the nickel to be used was allocated to such person by the Director General for Operations;

(3) If the nickel to be used is in the form of nickel scrap or secondary nickel as respectively defined in Supplementary Order M–6–c as the same may be from time to time amended, by any person to the extent permitted by the provisions of paragraph (c) (2) of said supplementary order.

(c) *Exceptions.* The prohibitions and restrictions contained in paragraphs (a) and (b) of this order shall not apply to the use of nickel in the manufacture of:

(1) "Implements of war," as defined in this order, which are being produced for the Army or the Navy of the United States, the United States Maritime Commission, the War Shipping Administration or for any foreign government pursuant to the act approved March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), where the use of nickel to the extent employed is required by the latest issue of government specifications (including performance specifications, unless otherwise directed by the Director General for Operations) applicable to the contract, subcontract or purchase order; or

(2) Such other articles or products being produced for any of the foregoing services, agencies or foreign governments, as may be from time to time approved and designated by the Director General for Operations by means of supplementary orders or specific directions pursuant to certification to him by the Army and Navy Munitions Board that the use of nickel as required by the pertinent government specifications (including performance specifications) for the particular article, is essential to the successful prosecution of the war. Any person who uses nickel in order to meet performance specifications in the manufacture of any article or product covered by subparagraph (1) or (2) of this paragraph (c) shall furnish such information with respect to such article or product and the specifications applicable thereto, as may be from time to time requested by the War Production Board.

(d) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver nickel to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(e) *Limitation of inventories.* No manufacturer shall receive delivery of nickel (including scrap) or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any nickel in the form of raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of nickel products by this order.

(f) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Appeals.* Any person whose business is affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of nickel conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board by letter or on such form as the Ferro-Alloys Branch of the War Production Board may prescribe, reference: M–6–b, setting forth the pertinent facts, including a statement of such person's inventory of nickel, his production and employment, together with the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items or articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of nickel in the production of any item or article, the limitations of such other order shall be observed.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Definitions.* For the purposes of this order:

(1) "Nickel" means any metallic nickel, either primary or produced from or contained in scrap; nickel matte, or any non-ferrous alloy when nickel has been specified or added to produce a desired alloying effect. It also includes nickel salts, oxides and carbonates, and special-purpose alloys such as those for heat or corrosion resistance or electrical use. It does not include such steel and iron alloys as are covered by Supplementary Order M–21–a.

(2) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, coat, produce, or process in any other way, but does not include installations of a finished product for the ultimate consumer on the consumer's premises.

(3) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(4) "Use" means both (1) the act of putting nickel into process in the manufacture of any item and (2) the act of completing the manufacture of any such item.

(5) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(6) "Implements of war" means combat end-products, complete for tactical operations (including but not limited to, aircraft, ammunition, armament, weapons, ships, tanks and military vehicles), and any parts, assemblies, and materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(h) *Communications to War Production Board.* All reports to be filed hereunder, appeals and other communications concerning this order, shall, unless otherwise directed, be addressed to the Ferro-Alloys Branch, War Production Board, Washington, D. C., Reference: M–6–b.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 3d day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 3 as Amended October 3, 1942]

ESTABLISHING A UNIFORM METHOD OF APPLICATION AND EXTENSION OF PREFERENCE RATINGS

Section 944.23, *Priorities Regulation No. 3*,[2] is hereby amended to read as follows:

§ 944.23 *Priorities Regulation No. 3*—(a) *Definitions.* For the purposes of this regulation:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) "Assignment" of a preference rating means the granting to any person, by order or certificate issued by or under the authority of the Director General for Operations, of the right to use such rating.

(4) "Application" of a preference rating means the use of the rating by the person to whom it is initially assigned by or under the authority of the Director General for Operations, and includes the initial issuance by any governmental agency, under authority of the Director General for Operations, of a preference rating certificate rating a delivery to be made directly to such agency.

(5) "Extension" of a preference rating means the use of the rating by any person to whom it is applied or extended by another person.

(b) *General provisions.* (1) Except to the extent otherwise provided in Priorities Regulation No. 11 (§ 944.32) with respect to persons required to qualify under the production requirements plan, any person may apply a preference rating assigned to him by any preference rating certificate or preference rating order issued to him in his name or as one of a class, and any person may extend any rating which has been applied or extended to deliveries to be made by him, subject to the provisions of this regulation.

(2) Preference ratings may be applied by the person to whom they are assigned only to the specific quantities and kinds of material authorized, or to the minimum required amounts or material when no specific quantities are authorized. Ratings which have been applied or extended by others to deliveries to be made by a person may, subject to the provisions of this Regulation, be extended by such person in order to obtain not more than the same amount and kind of material (except as specified in paragraph (c) (2) of this regulation) which he has delivered or is required to deliver pursuant to such ratings.

(3) No person shall duplicate, in whole or in part, purchase orders which he has placed with one or more suppliers for delivery of material to which he has applied or extended a rating, in such manner that the amount of the material ordered exceeds the amount to which he is authorized to apply or extend the rating, even though he intends to cancel or reduce his purchase orders to the authorized amount prior to completion of delivery.

(c) *Extension of ratings.* The following provisions shall be applicable to all extensions of preference ratings notwithstanding any inconsistent provisions of the preference rating certificate or preference rating order assigning the rating. No preference ratings may be extended to the delivery of any material *except:*

(1) Material which will itself be delivered by the person extending the rating on a delivery bearing the rating which is being extended, or which will be physically incorporated into material to be so delivered, including the portion of such material normally consumed or converted into scrap or byproducts in the course of processing, or

(2) Material which is required to replace in inventory material so delivered or incorporated. Material shall not be deemed to be required if the delivery can be made and a practicable working minimum inventory of such material still retained; and if, in making delivery, the inventory is reduced below such minimum, the rating may be extended to replace such material only to the extent necessary to restore the inventory to such minimum: *Provided, however,* That the material ordered for replacement must be substantially the same as the material delivered or incorporated in the material delivered, subject only to minor variations in size, shape or design or substitutions of less scarce materials, which in any case do not substantially alter the purpose for which the same is to be used, or

(3) Repair, maintenance and operating supplies, subject to the following conditions and limitations:

(i) The cost of all maintenance, repair and operating supplies, to which a rating is extended in any month shall not exceed ten percent of the cost of materials described in subparagraphs (1) and (2) of this paragraph (c) to which the same grade of rating is extended during the same month (or, if such materials are obtained without preference rating assistance, to which the same grade of rating could be extended during such month if priorities assistance were needed);

(ii) The cost of maintenance, repair and operating supplies consisting of metals in any of the forms listed on the Metals List attached to Priorities Regulation No. 11 (§ 944.32) to which the rating is extended in any month shall not exceed two and one-half percent of the cost of materials described in said subparagraphs (1) and (2) to which the same grade of rating is extended during the same month (or, if such materials are obtained without preference rating assistance, to which the same grade of rating could be extended during such month if priorities assistance were needed); and

(iii) The term "maintenance, repair and operating supplies" as used in this subparagraph (3) shall include only those supplies which are actually required for directly processing the material described in subparagraphs (1) and (2) of this paragraph (c) or for maintenance or repair of production machinery and equipment used in such processing. It does not include maintenance or repair of building or office supplies.

In cases where the material to be processed is furnished by the customer, the cost thereof to the customer shall, for the purposes of this paragraph (c), be taken instead of cost to the processor and the month in which the processing order is placed shall be taken in lieu of the month in which the material to be processed is ordered.

A person may not extend a rating to any materials in excess of the quantities specified in this paragraph (c) nor to materials for plant improvement, expansion or construction, to machine tools or other capital equipment, to business machines whether purchased or leased, or to maintenance, repair or operating supplies other than those specified above in subparagraph (3) of this paragraph (c).

(d) *Method of application or extension.*

(1) Any person authorized to apply or extend preference ratings may do so by endorsing on, or attaching to, each contract or purchase order placed by him to which the rating is to be applied or extended, a certification in the following

---

[1] Except where necessary for operational purposes.

[2] 7 F.R. 4833, 5404.

form signed manually or as provided in Priorities Regulation No. 7 (§ 944.27)[2] by an official duly authorized for such purpose:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this purchase order, and that such application or extension is in accordance with Priorities Regulation No. 3 as amended, with the terms of which the undersigned is familiar.

--------------------------- ----------
(Name of Purchaser and PRP Certificate No. if Purchaser is a PRP Unit) (Address)

By--------------------------- ----------
(Signature and Title of Duly Authorized Officer) (Date)

The person receiving the certification and rating shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Each person applying or extending ratings must maintain at his regular place of business all documents, including purchase orders and preference rating orders and certificates, upon which he relies as entitling him to apply or extend such ratings, segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection.

(2) Such certification may be used in lieu of any other form of certification required by the terms of any regulation, preference rating order or preference rating certificate (including, without limitation, the instructions accompanying Forms PD-1A, PD-3A and PD-25A) as a means of applying or extending a preference rating and in lieu of furnishing any copy of any preference rating order required thereby; except that the provisions of Priorities Regulation No. 9 (§ 944.30) with respect to the method of applying (but not extending) preference ratings covering certain types of exports must be complied with when ratings are applied pursuant to that Regulation.

(3) Notwithstanding the requirements of any applicable preference rating order or certificate, (i) ratings of the same grade assigned by different preference rating certificates or orders may be combined and extended to a single delivery; ratings of different grades, whether assigned by the same or different preference rating certificates or orders, may be extended to deliveries under a single purchase order, but the amount of each material to which a particular grade of rating is extended must be shown as a separate item and not merely indicated as a percentage figure: *Provided, however*, That to the extent necessary to avoid production or delivery in quantities smaller than the minimum commercially practicable, items to which ratings of different grades might be extended may be combined and the rating of the lowest grade extended to the total delivery; and (ii) a person may defer extending any rating for a period of not more than three months after he becomes entitled to extend the same.

(4) In addition to complying with the foregoing requirements of this paragraph (d), any person applying or extending a preference rating shall include on his purchase order or contract identification symbols as required by Priorities Regulation No. 10 (§ 944.31)[3] and such other information (except designation of the number or serial number of the preference rating certificate or preference rating order assigning the rating) as may be required by the terms of any applicable order of the Director General for Operations and which the person placing the purchase order is able to furnish.

(e) *Applicability of other restrictions.* Except as expressly otherwise provided in paragraphs (c) and (d) of this regulation, the application or extension of any rating shall be subject to any applicable restrictions contained in any order of the Director General for Operations assigning the preference rating in question or regulating transactions in the material involved, including, without limitation, restrictions as to the kind and amount of material to which preference ratings may be applied or extended, requirements of countersignature or other written approval of particular transactions, and restrictions on the use of material.

(f) *Effect on existing certificates and orders.* All existing forms of preference rating certificates issued by or under authority of the Director of Priorities, the Director of Industry Operations or the Director General for Operations are continued in full force and effect, and additional certificates on such forms may continue to be issued by the persons now or hereafter authorized to issue the same until such authority is revoked or amended, subject to the provisions of this and other regulations of the Director General for Operations. All certificates and all existing orders of the Director of Priorities, the Director of Industry Operations and the Director General for Operations are to be deemed amended by this regulation only where and to the extent that the provisions of this regulation indicate that it is to control.

Effective date. This amendment shall take effect on October 3, 1942.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 11, as Amended October 3, 1942]

PRODUCTION REQUIREMENTS PLAN

Section 944.32 *Priorities Regulation No. 11*[1] is hereby amended to read as follows:

§ 944.32 *Priorities Regulation No. 11*—(a) *Purpose.* It is the purpose of this regulation to provide for the integration of the system of distributing scarce materials in the interest of the war and the maintenance of the essential civilian economy by requiring principal industrial users of scarce materials to qualify under the production requirements plan and to obtain preference rating assistance primarily under that plan.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) "PRP application" means an application for priority assistance under the production requirements plan on Form PD-25A or any other prescribed form.

(4) "PRP certificate" means the copy of a PRP application which has been returned to the applicant by the Director General for Operations with an assignment of preference ratings or other priority action endorsed thereon, and includes any supplementary or advance quarter ("bob-tail") certificate which may be issued from time to time.

(5) "PRP unit" means any person who is qualified under the production requirements plan by the issuance to such person of a PRP certificate. In case the certificate is issued to a branch, plant, department, or other division of a corporation or business, "PRP unit" refers only to the portion of the business to which the certificate is issued.

(6) "Production material" means material (including fabricated parts and subassemblies) which will be delivered by a PRP unit as its product, or will be physically incorporated into such product, and includes the portion of such material normally consumed or converted into scrap or by-products in the course of processing. It does not include any supplies or manufacturing equipment.

(7) "Supplies" means maintenance and repair materials and operating supplies. It also includes minor items of productive capital equipment (such as jigs and fixtures, dies and die blocks, portable pneumatic or portable electric tools, and material required for minor relocations of plant machinery and equipment). It does not include any production material or any office machinery or equipment (whether purchased or leased) or materials for plant expansion or plant construction.

(8) "Listed material" means, with respect to any quarter, any material listed and given an item number on the Materials List No. 1, Revised, appearing on the form of PRP application for that quarter or required to be separately listed by supplementary instructions from the War Production Board.

(9) "Listed fabricated item" means, with respect to any quarter, any part, assembly or other item listed and given an item number on the Fabricated Items List No. 2 appearing on the form of PRP applications for that quarter. The first quarter for which such a list will be in effect will be the first quarter of 1943. "Listed fabricated item" also includes any item required to be listed separately by supplementary instructions from the War Production Board.

(10) "Class I producer" means any person (or any branch, plant, department, or other division of a corporation or business which operates as a separate entity and maintains a separate inventory) whose receipts or withdrawals from inventory during the most recent calendar quarter, or whose anticipated receipts or withdrawals from inventory during the current or next succeeding calendar quarter, of metals in the forms included on the attached metals list aggregate five thousand dollars or more in value, except:

(i) Any agency of the United States, of any foreign government, of any state or territory, or of any subdivision thereof except when and to the extent that any such agency is engaged in the manufacture of commodities or other materials or the furnishing of repair facilities (such as Navy yards, arsenals, prison factories, etc.);

(ii) Any person to the extent that he is engaged in the business of:

(*a*) Transportation by any means;

(*b*) Furnishing of heat, light, power, electricity, gas or water to others;

(*c*) Quarrying;

(*d*) Production, refining, transportation, distribution or marketing of petroleum or associated hydrocarbons;

(*e*) Communications;

(*f*) Sewerage or drainage;

(*g*) The sale of material which he has not manufactured, processed, fabricated, assembled, or otherwise physically changed, including sales as a distributor, wholesaler, retailer, warehouse, industrial or mill supply house or scrap dealer;

(*h*) Construction at the site, of buildings, structures, or projects: and

(iii) Any producer located in Alaska, Panama Canal Zone, or in any territory or possession of the United States outside of the continental United States.

(11) "Assignment" of a preference rating means the granting to any person, by order or certificate issued by or under authority of the Director General for Operations, of the right to use such rating.

(12) "Application" of a preference rating means the use of the rating by the person to whom it is initially assigned by or under the authority of the Director General for Operations, and includes the initial issuance by any governmental agency, under authority of the Director General for Operations, of a preference rating certificate rating a delivery to be made directly to such agency.

(13) "Extension" of a preference rating means the use of the rating by any person to whom it is applied or extended by another person.

(c) *Persons required to qualify under PRP.* Every Class I producer shall file a PRP application. For the first quarter of 1943, this application shall b filed not later than October 25, 1942. A person who was not a Class I producer during the third quarter of 1942 shall file such application as promptly as practicable after becoming a Class I producer. The Director General for Operations may specifically require other persons to file such applications from time to time, and may also exempt particular Class I producers from the requirements of this paragraph or extend or advance their time for filing PRP applications. Any other processors of materials desiring priority assistance on a quarterly basis may also, with the consent of the Director General for Operations, qualify under the Production Requirements Plan, although not required to do so by this regulation.

(d) *Restrictions on application and extension of ratings by PRP units.* No PRP unit shall apply or extend any rating to the delivery of any material during any quarter other than the ratings authorized on its PRP certificates for that quarter; and the deliveries to which such ratings are so applied shall be limited in amount as specified on such certificates, with the following exceptions:

(1) A PRP Unit may apply ratings specifically assigned to it for acquisition of items of capital equipment or materials for authorized plant expansion or plant construction.

(2) During the fourth quarter of 1942, a PRP unit may extend any preference rating which it receives, in order to obtain delivery during any quarter of production materials (but not supplies) other than listed materials, provided that the PRP unit has elected to make use of extensions of ratings exclusively for this purpose in lieu of applying the ratings assigned by its PRP certificate. Such election shall be made as follows: Not later than the seventh business day after the day on which the PRP certificate for the fourth quarter is received, the PRP unit shall, if it determines to make the election, endorse the following statement, duly signed by an authorized official, upon the copy of its PRP certificate received by it, under the heading of section F on the certificate:

The undersigned PRP unit hereby elects to rate deliveries to it during the balance of the fourth quarter of 1942 of production materials other than listed materials, as defined in Priorities Regulation No. 11, exclusively by the extension of ratings applied or extended to the undersigned by other persons, and, with respect to such materials to make no use of any ratings assigned by its PRP certificates for the fourth quarter of 1942.

Date

Name of PRP unit

By ---------------

Such election may not be made in any other manner. A PRP unit which makes such election shall not make any use of the preference rating assistance granted on its PRP certificate for the fourth quarter for the delivery of any production materials other than listed materials. Such election must be made as to all such materials or none. Such election may not be made with respect to supplies, which may be rated only in accordance with ratings assigned on the PRP certificates.

(3) In addition a PRP unit which receives a rated purchase order requiring the processing by another person of material owned and supplied by the PRP unit may extend the rating, for processing only and not for acquisition of material, to the person who is to do such processing for it.

(4) Any PRP unit may, until the receipt of its fourth quarter PRP certificate, but not thereafter, apply ratings to the extent permitted under the interim procedure specified in paragraph (i) of this regulation.

(5) In case preference rating assistance for a material is denied on the PRP (certificate on the express ground that such assistance is unnecessary, the provisions of this paragraph (d) shall not apply to such material.

(e) *Restrictions on receipt of listed materials and fabricated items.* No PRP unit shall in any quarter accept deliveries (whether rated, unrated or allocated) of any listed material or any listed fabricated item, whether as production material, supplies or for any other use, in excess of the amounts specifically rated or otherwise authorized on its PRP certificates for such quarter, plus any balance of such materials or items authorized by its PRP certificates for delivery in the previous quarter which is in transit to the PRP unit at the end of the previous quarter or within three days thereafter, with the following exceptions:

(1) A PRP unit may accept deliveries of any balance of listed fabricated items specifically rated or otherwise authorized for the preceding quarter but not yet received.

(2) A PRP unit may in addition, subject to the applicable regulations and orders of the War Production Board, accept delivery of any such materials and items which consist of items of capital equipment or material for authorized plant expansion or plant construction.

(3) Any PRP unit may, until receipt of its PRP certificate for the fourth quarter of 1942, but not thereafter, accept deliveries of any such materials or items to the extent permitted under the

interim procedure specified in paragraph (i) of this regulation.

(f) *Restrictions on use of material.* Each PRP unit shall also comply with any additional restrictions which may be contained in its PRP certificate, including (without limitation) restrictions on the amount of material to be put into production, the use of any material, apportionment of quantities of material between different products, or on the sale of or delivery of specified products.

(g) *Prohibition against placing duplicate orders.* No PRP unit shall duplicate, in whole or in part, purchase orders which it has placed with one or more suppliers for delivery of any material (whether rated, unrated, or allocated) in such manner that the amount of such material ordered exceeds the amount actually required for delivery (not exceeding the amount authorized), even though the PRP unit intends to cancel or reduce its purchase orders prior to completion of delivery, to the amount of actual requirements as rated or otherwise authorized on its PRP certificate.

(h) *Scheduling of deliveries.* Each PRP unit shall, so far as practicable, place its purchase orders for the production material and supplies rated or otherwise authorized on its PRP certificate so as to call for substantially equal deliveries during each of the three months of the quarter, and shall in no event, unless absolutely necessary to maintain its delivery schedule or to obtain the minimum quantities practicably procurable, order for delivery during the first month of the quarter more than 40%, or during the first two months of the quarter more than 80%, of the total quantity of any production material authorized for delivery during the quarter.

(i) *Interim procedure for Class I producers.* Any PRP unit which has been authorized to place orders pursuant to advance quarter authorizations on its PRP certificates for any quarter shall continue to be governed by such advance quarter authorizations and may not proceed under this paragraph (i) with respect to any such quarter. Any other Class I producer who has filed his PRP application for the fourth quarter of 1942 but has not received his PRP certificate for such quarter may apply or extend preference ratings for delivery during such quarter, and, in case he shall have submitted advance quarter applications, may apply or extend preference ratings for delivery during only the first advance quarter as follows:

(1) If he has been operating under the production requirements plan, he may apply the same preference ratings he was authorized to apply during the preceding quarter (on his PRP certificates or under Priorities Regulation No. 12)[2] to not more than 40% during the first month of the quarter, and not more than 70% during the entire quarter, of the amount of each material which he has indicated on his PRP application as his anticipated requirements for the quarter.

(2) If he has not been operating under the production requirements plan, he may continue to apply and extend ratings under any applicable preference rating orders or preference rating certificates in the same manner as permitted prior to the beginning of the fourth quarter; and, notwithstanding the termination of any preference rating order on or after the end of the third quarter, the same shall be deemed to continue in effect as to any such person until he receives his PRP certificate: *Provided, however,* That he shall not apply or extend ratings to the delivery in the fourth quarter of any material in an aggregate quantity greater than 40% during the first month of the quarter, nor greater than 70% during the entire quarter, of the amount of such material which he has indicated as his anticipated requirements on his PRP application for the quarter, subject to any further restrictions contained in the preference rating certificates or orders assigning the ratings which he is applying or extending.

(3) A Class I producer who applies or extends any preference rating pursuant to subparagraphs (1) or (2) of this paragraph (i) shall deduct the amount of any material which he has received or to which he has applied or extended such rating from the amount rated or otherwise authorized by his PRP certificate when issued to him.

(j) *Rerating on receipt of PRP certificates.* Each PRP Unit, not later than the fifth business day after the receipt of its PRP certificate for the fourth quarter (or not later than October 10, 1942, whichever shall be later), shall adjust its outstanding purchase orders, by cancellation, postponing deliveries, or rerating, so that they shall not exceed, either with respect to the amounts to be delivered or with respect to the grade of preference rating, the quantities and ratings authorized on such certificate in accordance with paragraphs (d) and (e) of this regulation for the fourth quarter of 1942 and for any advance quarters covered by its certificates. To the extent that authorized ratings are higher than the ratings already applied to outstanding orders, adjustment shall be optional, and, with respect to any material, the balance of any authorized rating not used may be added to the authorized amount of any lower authorized rating.

(k) *Restrictions on Class I producers who have not filed PRP applications.* Any Class I producer who has not filed his PRP application by the time required by this regulation or by any specific direction of the Director General for Operations may not extend any ratings; and may not apply any rating other than a rating specifically assigned to him for the purpose of acquisition of items of capital equipment, or materials for authorized plant expansion or plant construction.

(l) *Effect on existing orders and certificates.* (1) The provisions of this regulation do not terminate any other existing order or certificate granting preference rating assistance, but limit and prohibit the use of such orders or certificates by specified persons in the manner set forth above.

(2) The provisions of this regulation do not relieve PRP unit from compliance with the terms of any order of the War Production Board controlling the distribution or restricting the use of any specific material, including requirements for the filing or supplying of applications or other documents in connection with the purchase, sale, delivery, or use of any such material.

(m) *Special provisions with respect to metal mills.* Notwithstanding the foregoing provisions of this regulation, the following provisions shall govern with respect to any person (hereinafter in this paragraph (m) referred to as a "metal mill") to the extent that he is engaged in producing metals in any of the forms included on the attached metals list:

(1) A metal mill, in determining whether it is a Class I producer within the meaning of paragraph (b) (10) of this regulation, may exclude all receipts or withdrawals from inventory of metals which will be processed by the metal mill to produce any of the forms listed on the attached metals list. However, there must be included any metals in the forms listed, which will be used by it for maintenance, repair, or operating supplies, or will be fabricated by it beyond the forms listed.

(2) A metal mill need not include in its PRP application materials which will be processed by it to produce metals in any of the forms listed on the attached metals list, but it must include any material, including metals in the forms listed, which will be used by it for maintenance, repair, or operating supplies, or will be fabricated by it beyond the forms listed, and for which it requires priority assistance.

(3) A metal mill may extend and apply preference ratings assigned by a preference rating order or certificate, in the manner heretofore permitted, for delivery to it of material which has been excluded from its PRP application pursuant to the provisions of subparagraph (2) of this paragraph (m) and may accept delivery of such material.

(4) A metal mill, to the extent that it is engaged in producing any of the following:

(i) Pig iron and ferroalloys;

(ii) The following iron and steel products, including alloys: Ingots, blooms (including forged), billets (including forged), slabs (including forged), tube rounds, sheet and tin bars, structural shapes, piling, plates (universal and sheared), rails, tie plates, track spikes, splice bars, rail joints, hot rolled bars (including hoops and bands and concrete reinforcing bars), cold finished bars, pipe and tubes (except conduit), wire rods, wire as drawn not including further fabrications therefrom), black plate, tin and terne plate, sheets, strip, tool steel bars (including high speed), steel wheels and axles (for railroad use only), railroad locomotive tires, armor plate, ordnance forgings, steel castings (rough as cast), skelp, rolling mill rolls, ingot molds;

(iii) Coke for use in the production of pig iron and ferroalloys; may accept deliveries of supplies in any quarter without regard to the limitations of paragraph (e) hereof of this regulation and, notwithstanding the limitations of paragraph (d) hereof, may apply the ratings assigned on its PRP certificate to deliveries of supplies in the amounts essential for proper operation, subject, however, in every case to the restrictions of Section 944.14 of Priorities Regulation No. 1 and to all other applicable regulations and orders.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 12 as amended October 3, 1942]

RERATING

Section 944.33 *Priorities Regulation No. 12*[1] is hereby amended to read as follows:

§ 944.33 *Priorities Regulation No. 12*—(a) *General.* Deliveries bearing preference ratings may be rerated and, subject to the limitations hereinafter provided, such reratings may be applied or extended in the manner provided in this regulation. Such reratings shall change only the grade of the preference rating, and shall not increase the amount of material to which the rating may be applied or extended. As used in this regulation the term "rerating" includes any change from one grade of preference rating to another.

(b) *Methods of initiating rerating.* (1) Reratings may be effected in the first instance through the issuance, by the Director General for Operations or by such government officials as may be authorized by him, of either (i) a new preference rating order or certificate, (ii) an amendment of an existing order or certificate, or (iii) a rerating direction on Form PD–4X (or such other form as may be prescribed), specifying the change of rating and the items to which it applies. A single rerating direction may be used to rerate deliveries to be made under different contracts with the same contractor, and may specify different new ratings for separate deliveries to be made under a single contract.

(2) A rerating direction in the PD–4X series shall be used only:

(i) To rerate deliveries under prime contracts directly to, or construction of facilities under direct contract with, the United States Army or Navy or other United States Government agencies specified in the definition of "defense order" appearing in § 944.1 (b) of Priorities Regulation No. 1 as amended, and in addition, notwithstanding the limitations indicated on Form PD–4X:

(ii) To rerate any other delivery to be made, directly to a prime contractor or subcontractor with the United States Army or Navy or other United States Government agency so specified: *Provided,* Such delivery has previously been duly rated either (a) by a preference rating certificate on Form PD–3, PD–3A, PD–4 or PD–5, or (b) by a preference rating order in the P–19, P–19a or P–19–h series countersigned by an officer of the United States Army or Navy: *And provided further,* That the original rating was assigned by such preference rating certificate or order issued directly to and in the name of the person who is to receive the delivery to be rerated, and not merely applied or extended to such person by another contractor or subcontractor.

Rerating directions on forms in the PD–4X series may be prepared and issued only by authorized government officials, and are not to be prepared or filed with any government agency by any person as application forms to secure reratings.

(c) *Extent to which upward rerating may be extended.* In any case where a delivery to be made by a person has been rerated upward, such person (except as otherwise provided with respect to PRP Units in paragraph (f) of this regulation) may rerate deliveries to be made to him of the following material only:

(1) Material which will itself be delivered by such person on a rerated delivery, or which will be physically incorporated into material to be so delivered, including the portion of such material normally consumed or converted into scrap or by-products in the course of processing, or

(2) Material which is required to replace in inventory material so delivered or incorporated. Material shall not be deemed to be required if the delivery can be made and a practicable working minimum inventory of such material still retained; and if, in making the delivery, the inventory is reduced below such minimum, the new rating may be extended to replace such material only to the extent necessary to restore the inventory to such minimum: *Provided, however,* That the material ordered for replacement must be substantially the same as the material delivered or incorporated in the material delivered, subject only to minor variations in size, shape or design, or substitution of less scarce materials, which, in any case, do not substantially alter the purpose for which the same is to be used.

(3) Repair, maintenance and operating supplies, subject to the following conditions and limitations:

(i) The cost of all maintenance, repair and operating supplies to which a rating is extended in any month shall not exceed ten percent of the cost of materials described in subparagraphs (1) and (2) of this paragraph (c) to which the same grade of rating is extended during the same month (or, if such materials are obtained without preference rating assistance, to which the same grade of rating could be extended during such month if priorities assistance were needed);

(ii) The cost of maintenance, repair and operating supplies consisting of metals in any of the forms listed on the Metals List attached to Priorities Regulation No. 11 (§ 944.32)[2] to which the rating is extended in any month shall not exceed two and one-half percent of the cost of materials described in said subparagraphs (1) and (2) to which the same grade of rating is extended during the same month (or, if such materials are obtained without preference rating assistance, to which the same grade of rating could be extended during such month if priorities assistance were needed);

(iii) The term "maintenance, repair and operating supplies" as used in this subparagraph (3) shall include only those supplies which are actually required for directly processing the material described in subparagraphs (1) and (2) of this paragraph (c) or for maintenance or repair of production machinery and equipment used in such processing. It does not include maintenance or repair of building or office supplies; and

(iv) In cases where the material to be processed is furnished by the customer, the cost thereof to the customer shall, for the purposes of this paragraph (c), be taken instead of cost to the processor and the month in which the processing order is placed shall be taken in lieu of the month in which the material to be processed is ordered.

[1] 7 F.R. 6256, 6465, 6866.

[2] 7 F.R. 4423, 4615, 4698, 4848, 5043, 5359, 6146, 6147, 6614, 7429.

When a delivery to be made by a person has been rerated, such person may *not* extend the new rating to any materials in excess of the quantities specified in this paragraph (c) nor to materials for plant improvement, expansion or construction, to machine tools or other capital equipment, to business machines whether purchased or leased, or to maintenance repair or operating supplies other than those specified above in subparagraph (3) of this paragraph (c). If rerating of such material is necessary, the new rating must be assigned by the appropriate government official.

(d) *Compulsory extension of downward reratings.* In any case where rating assigned to a person has been rerated downward, or a delivery to be made by a person has been rerated downward, such person shall rerate all uncompleted deliveries to be made to him to which he has extended the rating which has been changed. Such rerating must be effected by sending notice, in the manner provided in paragraph (g) of this regulation, not later than the fifth business day following the day on which the rerating is received.

(e) *Partial reratings.* In each case, the new rating extended by any person pursuant to paragraph (c) or (d) of this regulation shall be the same as the new rating which he has received for the rerated delivery to be made by him, even though this may require him to extend separate new ratings to items previously covered by a single rating; except that, to the extent necessary to avoid production or delivery in quantities smaller than the minimum commercially practicable, items which might be rerated with new ratings of different grades may be combined, and the total delivery rerated with the new rating of the lowest grade.

(f) *Special provisions applicable to PRP Units.* No PRP Unit shall extend any rerating or redetermine the rating pattern which it is authorized to apply except that:

(1) Until receipt of its PRP certificate for the fourth quarter of 1942, (or October 5, 1942, whichever is later), a PRP Unit may continue to rate, or rerate, orders for delivery during such quarter in the manner and to the extent permitted by this Priorities Regulation No. 12 as amended August 10, 1942, but must comply with the provisions of paragraph (j) of Priorities Regulation No. 11, as amended, requiring certain adjustments of orders to conform to the authorization on the PRP certificate.

(2) After receipt of its PRP certificate for the fourth quarter of 1942, a PRP Unit may extend reratings only with respect to those deliveries to which it is entitled to extend ratings under paragraph (d) of Priorities Regulation No. 11, as amended.

(g) *Method of application or extension.* (1) In any case where a person (other than a Government agency authorized to issue Rerating Directions in the PD-4X series) has applied or extended a preference rating to a delivery to be made to him and is subsequently authorized or required to rerate such delivery pursuant to this regulation, he may at his option either:

(i) Furnish to his supplier a rerating certificate in the form of Form PD-4Y attached hereto, containing the information therein specified (other than Government contract numbers or other government identification, where none are required by the appropriate Government agency);

(ii) Notify his supplier in writing that the previous rating has been cancelled and furnish him with duplicate purchase orders carrying the appropriate endorsement for the new rating as provided by Priorities Regulation No. 3 (§ 944.23); or

(iii) Advise his supplier of the change in rating by letter or telegram listing the purchase orders on which the ratings are changed, giving the numbers of the original purchase orders, the original rating and the new ratings, and instructing the supplier to file such letter or telegram with the original purchase orders.

In any event, the information given to the supplier must be sufficiently specific with respect to the particular deliveries rerated so that he will be able to adjust his production schedules accordingly. The supplier must be specifically informed, by reference to purchase order numbers, delivery schedules, description of items or otherwise, as to which deliveries are subject to which new ratings. It is not sufficient to state merely that all outstanding purchase orders placed with the supplier are rerated according to specified percentages, unless the material involved is of such type and in such quantities that the supplier can readily determine, from percentage figures alone, the exact effect of the rerating on his production and delivery schedule, and except that, if the supplier consents, orders not yet in production may be rerated on a percentage basis, provided actual amounts and deliveries are identified by supplementary information furnished to the supplier before production is to be scheduled. The supplier shall be entitled to rely on the information given unless he knows or has reason to believe it to be false.

(2) Each person rerating any delivery to be made to him shall maintain at his regular place of business for not less than two years copies of all rerating certificates issued by him, records of the basis of each determination of a new rating pattern made by him pursuant to paragraph (f) (1) of this regulation, and all rerating directions or certificates received by him, upon which he relies as entitling him to such deliveries. In the case of a PRP Unit applying ratings pursuant to paragraph (f) (1) of this regulation, such records must clearly indicate which rating pattern has been used with respect to each order rated or rerated by the unit. All such records shall be kept segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection. Notices to suppliers shall be signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose.

(h) *Use of new rating where rating has not yet been used.* If a person who is entitled or required to rerate a delivery to be made to him has not yet applied or extended a rating to such delivery, he may apply or extend the new rating in the same manner in which he could have applied or extended the earlier rating, subject to the provisions of Priorities Regulation No. 3 as amended (§ 944.23) and of this regulation.

(i) *Effective date of rerating.* The sequence of rated and rerated deliveries shall be determined as if the rerated item had carried the new rating at the time the first rating covering the delivery was received, and the person whose delivery is rerated shall make any necessary change in his production or delivery schedule promptly on receipt of the rerating: *Provided, however,* That:

(1) No person shall, by reason of a rerating, divert material specifically produced for an order bearing a rating higher than A-2 and deliver the same under the higher rerated order if such material is completed at the time the rerating is received or is scheduled for completion within fifteen days thereafter, unless such diversion is specifically directed by the Director General for Operations, or unless the new rating is AAA;

(2) No person shall be required by reason of a rerating to terminate or interrupt a production schedule in any case where such termination or interruption would result in a substantial loss of production: *Provided, however,* That in any such case the termination or interruption of the schedule required by the rerating shall not be postponed more than forty days after such rerating is received.

Part 1002—Iron and Steel Production

[Amend. 5 to Preference Rating Order P-68]

MAINTENANCE, REPAIR AND SUPPLIES

Paragraph (b) of Preference Rating Order P-68[1] § 1002.1) is hereby amended to read as follows:

(b) *Assignment of preference ratings.* Subject to the terms of this order, the following preference ratings are hereby assigned to deliveries to producers, but nothing herein contained shall prevent the use of any other or higher rating to which any person may be entitled by reason of any other preference rating certificate or order.

(1) AA-2X to deliveries of operating material consisting of ferrous and nonferrous metals appearing on the metals list attachment to Priorities Regulation No. 11, as amended, or of fabricated metal parts, or lumber.

Part 1090—Agave Fiber

[Amendment 4 to General Preference Order M-84, as Amended August 5, 1942]

Section 1090.1 *General Preference Order M-84*[1] is hereby amended by the addition of subparagraph (8) to paragraph (d), to read as follows:

(8) Nothing contained in subparagraphs (2), (5), (6) or (7) of paragraph (d) shall prevent the processing, sale or delivery, prior to November 16, 1942, of agave cordage for use as wire rope centers.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 2d day of October 1942.

Part 1293—Hand Tools Simplification

[Schedule IV to Limitation Order L-157]

HEAVY FORGED HAND TOOLS

§ 1293.5 *Schedule IV to Limitation Order L-157*[2]—(a) *Definitions.* For the purposes of this schedule:

(1) "Producer" means any person who manufactures, stamps, forges, or otherwise fabricates heavy forged hand tools.

(2) "Heavy forged hand tools" means such (i) bars, (ii) blacksmiths' anvil tools, (iii) mauls and hammers or sledges weighing 4 pounds or over, (iv) hoes weighing 3½ pounds or over, (v) mattocks, (vi) picks, (vii) railway track tools, (viii) tongs, (ix) wedges, (x) mine blasting hand tools, mine breast drills and miscellaneous forged hand tools, as are listed in Table 1 through Table 10 of Appendix A of this Schedule, and all other tools as are listed in said Tables.

(b) *Limitations.* Parts manufactured for repair and maintenance of any heavy forged hand tools are not subject to the limitations of this Schedule.

(c) *Simplified practices.* Pursuant to Limitation Order L-157 the sizes, types, grades, weights and finishes set forth in Appendix A and Tables 1 through 10 of this schedule are established for the manufacture of heavy forged hand tools.

(d) *Effective date of simplified practices.* On and after the 3rd day of November, 1942, no heavy forged hand tool which does not conform to the size, type, grade, finish, weight and standard established by paragraph (c) of this schedule (and set forth in Appendix A and tables hereto) shall be produced by any producer except upon approval of the Director General for Operations.

(e) *Records covering materials, work in progress, etc.* Each producer of heavy forged hand tools shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 3rd day of October 1942.

Ernest Kanzler,
Director General for Operations.

Appendix A to Schedule IV

Explanations and Limitations

(1) *Finishes.* Faces, bits, points, and other commonly ground parts of a heavy forged hand tool shall not have a finish finer than the finish resulting from the use of a 60-grit emery wheel, dry, when good commercial technique is employed, except that sample tools selected from a lot for inspection may be polished to as fine a degree as may be necessary for such inspection. All other surfaces of heavy forged hand tools shall not be finished other than by applying a coating of paint, enamel, or lacquer over the natural forged surface, free from scale.

(2) *Sizes.* Weights given herein are exclusive of wooden handles. Dimensions and weights are subject to commercial tolerances.

(3) *Eyes.* The shapes of eyes specified by number herein and the dimensions of eyes, except those for which dimensions are given herein, shall conform with the diagrams and data on eye shapes and sizes shown pp. 10 to 18, inclusive, of Simplified Practice Recommendation R17-35, Forged Tools, issued by the National Bureau of Standards.

(4) Chisels, track (designs 1 and 2, A. R. E. A.) as set forth in table 7 of this Appendix; mauls, Pittsburgh or Bell pattern (designs 1 and 2, A. R. E. A.) as set forth in table 3 of this Appendix; and blacksmiths' double face sledges in 6-, 8-, 10-, and 12-pound sizes as set forth in table 3 of this Appendix; may be made of carbon steel or of such National Emergency alloy steels as are permitted by the Director General for Operations. All other tools listed in this Schedule, Appendix and Tables shall be made of carbon steel only.

(5) No producer shall offer the tools listed herein in more than one grade, finish, or kind of steel, except as provided in paragraph 4 above.

(6) Reference herein to "the forged hammers schedule" and to "the forged hatchets schedule" refer to Schedule II of Limitation Order L-157.

PART 3097—SULFAMIC ACID AND SULFAMIC ACID DERIVATIVES

[General Preference Order M-242]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of sulfamic acid and sulfamic acid derivatives for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3097.1 *General Preference Order M-242*—(a) *Definitions.* For the purposes of this order:

(1) "Sulfamic acid" means the chemical compound of that name having the formula HSO_3NH_2.

(2) "Sulfamic acid derivatives" means ammonium sulfamate and fire retardants made from sulfamic acid.

(3) "Producer" means any person engaged in the production of sulfamic acid or sulfamic acid derivatives and includes any person who has any such material produced for him pursuant to toll agreement.

(4) "Distributor" means any person who has purchased, or purchases, sulfamic acid or any sulfamic acid derivative for resale.

(b) *Restrictions on delivery.* (1) On and after November 1, 1942 no person shall deliver or accept delivery of sulfamic acid or any sulfamic acid derivative without the specific authorization of the Director General for Operations upon application pursuant to paragraph (d) hereof.

(2) Each person accepting delivery of sulfamic acid or any sulfamic acid derivative pursuant to specific authorization of the Director General for Operations shall use the same only for the purposes specified in such authorization.

(3) Each person affected by this order shall comply with such directions as may be given by the Director General for Operations at any time after the date of issuance of this order, with respect to the use or delivery of sulfamic acid or with respect to the use or delivery of any sulfamic acid derivative.

(c) *Production and establishment of inventories.* (1) Each producer shall comply with such directions as may be given by the Director General for Operations at any time after the date of issuance of this order, with respect to the production of sulfamic acid or with respect to the production of any sulfamic acid derivative.

(2) Each person shall comply with such directions as may be given by the Director General for Operations at any time after the date of issuance of this order, with respect to the establishment of inventories of sulfamic acid or with respect to the establishment of inventories of any sulfamic acid derivative.

(d) *Applications and reports.* In addition to such other reports as may be required from time to time by the Director General for Operations:

(1) Each person seeking authorization to accept delivery of sulfamic acid or of any sulfamic acid derivative pursuant to paragraph (b) (1) hereof, shall apply for such authorization on Form PD-600. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 15th day of the month preceding the month for which such authorization is requested and shall file with his supplier one copy of such form on or before the 10th day of such month if the supplier is a producer or on or before the 5th day of such month if the supplier is a distributor, which form shall be prepared in the manner prescribed therein, subject, however, to the following specific instructions:

(i) *Heading.* Specify "sulfamic acid and sulfamic acid derivatives" and order number "M-242", and specify pounds as the unit of measure, and in addition to specifying the delivery destination, indicate the address to which communications should be directed.

(ii) *Columns 1, 11 and 19.* Specify sulfamic acid, ammonium sulfamate or fire retardant.

(iii) *Columns 3, 20 and 22.* In the case of a distributor, specify "resale pursuant to further authorization". In the case of a consumer, specify:

Ammonium sulfamate.
Fire retardant.
Flameproofed textiles.
Laboratory reagents.
Leather.
Cellophane.
Dyestuffs.
Dry color.
Electroplating solution.
Other.

If "other" is specified, describe briefly.

(iv) *Column 4.* In the case of a distributor, disregard. In the case of a consumer, specify:

Military materials.
Non-military materials.
Military clothing.
Non-military clothing.
Quartermaster Corps confidential.
Other Governmental Agencies (identify) specification number.
Nitrite removal.
Washing agents.
Fixing agents.
Peptizing pigments.
Other.

If "other" is specified describe briefly.

(2) Each producer and distributor seeking authorization to deliver sulfamic acid or any sulfamic acid derivative pursuant to paragraph (b) (1) hereof, shall apply therefor on Form PD-601. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 20th day of the month preceding the month for which such authorization is requested, which form shall be prepared in the manner prescribed therein, subject, however, to the following specific instructions:

(i) *Heading.* Specify "sulfamic acid and sulfamic acid derivatives" and order number "M-242", and specify pounds as the unit of measure, and in addition to specifying the plant or warehouse address, indicate the address to which communications should be directed.

(ii) *Columns 3 and 8.* Specify sulfamic acid, ammonium sulfamate or fire retardant.

(e) *Notification of customers.* Producers and distributors shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but failure to give such notice shall not excuse any such person from complying with the terms hereof.

(f) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) *Intra-company deliveries.* The prohibitions and restrictions of this order with respect to deliveries of sulfamic acid and sulfamic acid derivatives, shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-242.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 3d day of October 1942.

Subchapter A—General Provisions

PART 905—SPECIFICATIONS

[Directive 9]

NATIONAL EMERGENCY SPECIFICATIONS FOR THE DESIGN OF REINFORCED CONCRETE BUILDINGS

Pursuant to the authority vested in me by Executive Orders No. 9024 of January 16, 1942, No. 9040 of January 24, 1942, and No. 9125 of April 7, 1942, and pursuant to the policy stated in the Joint Directive of the War Production Board and the War and Navy Departments dated May 20, 1942, and the Army and Navy Munitions Board "List of Prohibited Items for Construction Work," dated April 1, 1942, as revised June 29, 1942, the following policy is prescribed (1) for the War Production Board and for the Army, Navy, Maritime Commission, Reconstruction Finance Corporation, National Housing Agency, and (2) for all other Departments and Agencies in respect to war construction and the financing of war construction.

§ 905.2 *National Emergency Specifications for the design of reinforced concrete buildings—Adoption of specifications.* (a) National Emergency Specifications for the Design of Reinforced Concrete Buildings issued by the War Production Board on October 5, 1942, shall apply to and shall govern the designing of reinforced concrete buildings which are constructed by, or the construction of which is financed by, or the construction of which must be approved by any of such departments or agencies, the contracts for which are placed after a date sixty days after the issuance of this directive. Such departments and agencies are, however, empowered to put such emergency specifications into immediate effect wherever possible.

---

[1] 7 F.R. 7396.

(b) With respect to any such contracts already placed by any of said departments or agencies or entered into prior to a date sixty days after the issuance of this directive, the department or agency concerned shall review the contract promptly and shall change to said emergency specifications unless such change will result in any substantial delay in the war effort.

(c) The department or agency undertaking or approving the construction shall obtain from the person in responsible charge of the design of each such building a certificate to the effect that such emergency specifications have been complied with. In cases where Forms PD–200 and PD–200A must be filed with the War Production Board in order to obtain authorization to begin construction of such building, such certificate shall be filed with said forms.

(d) Authority to depart from the provisions of this directive may, upon specific request, be granted by the Director General for Operations of the War Production Board, or by such person or persons as he may designate for this purpose.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024; 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 5th day of October 1942.

DONALD M. NELSON,
Chairman, War Production Board.

Subchapter B—Director General for Operations

PART 1147—COLLAPSIBLE TUBES

[Conservation Order M–115, as Amended October 5, 1942]

1. The designation of Part 1147 (formerly "Collapsible Tin, Tin-coated, and Alloy Tubes") is hereby amended to read "Collapsible Tubes."

2. Section 1147.1 *Conservation Order M–115* is hereby amended to read as follows:

§ 1147.1 *Conservation Order M–115,* as amended October 5, 1942—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Tube" means any collapsible container in the shape of a tube, including but not limited to any such container made in whole or in part of tin, lead, or any combination thereof and includes closures, crowns and caps for such tubes.

(3) "Class I tube" means a tube used or intended to be used to pack any product listed on Table I, annexed hereto.

(4) "Class II tube" means a tube used or intended to be used to pack any product listed on Table II, annexed hereto.

(5) "Class III tube" means a tube used or intended to be used to pack any product listed on Table III annexed hereto.

(6) "Class IV tube" means a tube used or intended to be used to pack any product listed on Table IV, annexed hereto.

(7) "Non-essential tube" means any tube other than a tube described in subparagraphs 3, 4, 5 and 6 above.

(8) "Tube user" means any person, whether or not he is also a tube manufacturer, engaged in the business of packing or filling tubes with any product of any kind for sale to others.

(9) "Retailer" means a person other than a distributor who sells or distributes tubes to the ultimate purchaser.

(10) "Distributor" means a person who sells or distributes tubes to retailers, including, but not limited to, wholesalers, jobbers, tube users, and tube manufacturers when they are engaged in such sale or distribution.

(11) "Ultimate purchaser" means a person who acquires filled tubes for the satisfaction of personal needs (with or without paying any consideration therefor), as distinguished from one acquiring tubes for industrial or other business purposes or for further distribution.

(c) *Restrictions upon the manufacture, sale and delivery of blanks and tubes and upon the use of tubes for packing*—(1) *Non-essential tubes.* No person shall manufacture or sell, for non-essential tubes, blanks containing any tin (but not including tin present as an impurity amounting to 0.5% or less); no tube manufacturer shall manufacture or sell non-essential tubes containing any tin (but not including tin present as an impurity amoumting to 0.5% or less); and no tube user shall use any tubes containing any tin (but not including tin present as an impurity amounting to 0.5% or less) to pack any product not listed on Tables I, II, III, or IV.

(2) *Class I tubes.* Notwithstanding the provisions of Conservation Order M–43–a, as amended, and until further order by the Director General for Operations there shall be no restriction upon the percentage of tin which may be used in the manufacture of Class I tubes, nor on the number of such tubes manufactured or used for packing products listed on Table I.

(3) *Class II tubes.* No person shall manufacture or sell for Class II tubes blanks containing more than 7½% of tin by weight; no tube manufacturer shall manufacture or sell Class II tubes containing more than 7½% of tin by weight; and no tube user shall use any tube containing more than 7½% of tin by weight to pack any product listed on Table II.

(4) *Class III tubes.* No person shall manufacture or sell for Class III tubes blanks containing more than 5% of tin by weight; and no tube manufacturer shall manufacture or sell Class III tubes containing more than 5% of tin by weight; and no tube user shall use any tube containing more than 5% of tin by weight to pack any product listed on Table III.

(5) *Class IV tubes.* No person shall manufacture or sell for Class IV tubes blanks containing more than 1½% of tin by weight; no tube manufacturer shall manufacture or sell Class IV tubes containing more than 1½% of tin by weight; and no tube user shall use any tube containing more than 1½% of tin by weight to pack any product listed on Table IV.

(6) *Quota for Table III and Table IV products.* No tube user shall pack in tubes, during each of the three-month periods beginning April 1, 1942, July 1, 1942, and October 1, 1942, respectively, more than 100% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the corresponding three-month period of 1940, or at his option no more than 25% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the whole of 1940: *Provided,* That no tube user shall pack in tubes during the period between April 1, 1942 and December 31, 1942, inclusive, more than 100% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the last nine months of 1940. All percentages above mentioned shall be based upon volumetric weight. Said percentages shall be in addition to the products listed on Table III and Table IV which are packed in tubes and sold and delivered to the Army or Navy of the United States or the United States Coast Guard (including but not limited to post exchanges, ships' stores, ships' service stores, and marine exchanges), and in addition to products listed on Table III and Table IV which are packed in tubes having no greater tin content than that prescribed in paragraph (c) (1) of this order for non-essential tubes.

(d) *Further conservation of tin.* (1) All manufacturers and users of all the kinds of tubes covered by this order shall cooperate in effectuating as rapidly and as completely as possible a program of reducing the thickness of the tin coating on such tubes to the minimum thickness which will be sufficient for satisfactory packing of the particular product packed.

(2) All manufacturers of all kinds of tubes permitted to be manufactured or filled by this order and all tube users packing products in such tubes are ordered to concentrate to the greatest extent practicable upon the larger-size tubes and to manufacture and to use for tube filling respectively as high a proportion of larger-size tubes (as compared with smaller-size tubes) as may be feasible and practicable. All such manufacturers and tube users are further ordered to substitute, for all tubes made in whole in part of tin, containers made of other materials to the extent that such substitution may be feasible and practicable.

(3) No retailer shall sell or deliver any filled Class III or Class IV metal tube to any ultimate purchaser (except as bona fide samples, manufactured prior to the 15th day of June, 1942, which are distributed indiscriminately and without any conditions) unless such purchaser delivers to such retailer concurrently with his purchase one used metal tube of any kind for each metal tube delivered to such purchaser. All such used tubes, together with any other used tubes held by retailers, shall be held by such retailers and shall not be disposed of by them except as follows:

(i) To the Tin Salvage Institute, 411 Wilson Avenue, Newark, New Jersey, as agent for Metals Reserve Company;

(ii) To any wholesaler of products packed in tubes, who is a duly authorized representative of the Tin Salvage Institute as agent for the Metals Reserve Company; or

(iii) To any other person who is such a representative.

Such deliveries may be made by such retailers at any time and in any manner consented to by the person to whom delivery is to be made, and shall be made, upon demand of such person and at the expense of such person, in such manner and at such time as such person may request. In no case shall any consideration be paid or received for any used tubes so delivered and no person (including, but not limited to, wholesalers of products packed in tubes and dealers in scrap metal and junk) shall, except as otherwise expressly permitted by this paragraph (d) (3), deliver any used tube of any kind to any person except those designated above. Damaged or unused tubes shall, at the option of the holder, be returned for credit to the party from whom they were purchased or delivered to the Tin Salvage Institute as agent for Metals Reserve Company.

(4) Nothing in this order shall prevent the manufacture of nonessential or other tubes from blanks already manufactured on the 1st day of April, 1942, or the sale and delivery of tubes so manufactured or the use of same for packing any products, whether or not listed on Tables I, II, III and IV of this order. *Provided, however,* That the volumetric weight of any products listed in Tables III and IV which are packed in accordance with the provisions of this subparagraph shall be subtracted from the quotas allowed to the tube user pursuant to paragraph (c) (6) of this order.

(5) Nothing in this order shall prevent the sale, delivery, purchase, acceptance of delivery and use of tubes containing no more than 7½% of tin by weight for packing products listed in Tables III and IV of this order, provided said tubes were made from blanks which had already been manufactured on the 5th day of October 1942; and provided further that the volumetric weight of any products listed in Tables III and IV which are packed in accordance with the provisions of this subparagraph shall be subtracted from the quotas allowed to the tube user pursuant to paragraph (c) (6) of this order.

(6) Notwithstanding any other provisions of this order, gift kits or combination set boxes already packed and in the hands of retailers on the 15th day of June, 1942, holding multiple units, including filled Class III or Class IV tubes, the value of which comprises not over 25% of the total value of the package, may be disposed of without complying with the used tube exchange provision set forth in paragraph (d) (3) hereof; provided that any such boxes are delivered or sent direct by the seller to a member of the Army or Navy of the United States or of the United States Coast Guard.

(7) Compliance with the used tube exchange provision set forth in paragraph (d) (3) hereof shall not be required in connection with the sale or distribution of Class III or Class IV tubes when made by the following agencies or instrumentalities of the United States Government; namely, army exchanges, ships stores, ships service stores, and marine exchanges; if made under any of the following circumstances:

(i) Distributions or sales, made aboard ship, in the Territory of Alaska, or outside the continental limits of the United States.

(ii) Distributions or sales made at ports of embarkation, induction centers, receiving stations, receiving ships, to newly inducted selectees or enlistees or other persons designated by the commanding officer.

(iii) Sales or distributions made in hospitals under the jurisdiction of the armed forces of the United States to casualties of war.

Provided, however, That no tubes containing more than 7½% tin shall be sold or delivered pursuant to this subparagraph: *And further provided,* That the exemption provided by this subparagraph shall be subject to such conditions as shall be prescribed by the appropriate authorities of that branch of the Government under whose jurisdiction the above named agencies or instrumentalities respectively operate.

(e) *Certificates and reports relating to all the kinds of tubes covered by this order*—(1) *Certificates of tube users.* Each tube user who purchases any tubes shall furnish to the tube manufacturer from whom he buys, a certificate, in substantially the form attached hereto as Exhibit A, that such tube user is familiar with the terms of this order (in its present form or as it may be amended from time to time) and that, during the life of this order, he will not use any tubes purchased from such tube manufacturer in violation of its terms. Only one such certificate covering all present and future purchases from a given tube manufacturer need be furnished by a tube user to that tube manufacturer (who shall retain such certificate), but no tube manufacturer shall be entitled to rely on any such certificate if he knows, or has reason to believe it to be false.

(2) *Certificates of retailers.* Each retailer who purchases any filled Class III or Class IV tubes shall furnish to the manufacturer or distributor from whom he buys a certificate, in substantially the form attached hereto as Exhibit B, that such retailer is familiar with the terms of this order (in its present form or as it may be amended from time to time) and that, during the life of this order, he will not use any tubes purchased from such manufacturer or distributor in violation of its terms. Only one such certificate covering all present and future purchases from a given manufacturer or distributor need be furnished by a retailer, but no manufacturer or distributor shall be entitled to rely on any such certificate if he knows, or has reason to believe, it to be false: *Provided, however,* That such certificates shall not be required in connection with the export of filled Class III or Class IV tubes from the forty-eight states of the United States of America and the District of Columbia.

(3) *Reports.* Each tube manufacturer and each tube user shall file such reports as the War Production Board may prescribe for the purpose of effective administration of the order, and no tube manufacturer or distributor shall sell any tubes except under contracts or orders validated by the certification required by this paragraph (e).

(f) *Miscellaneous provisions*—(1) Appeal. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tin conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, on such form as may be prescribed, Ref.: M–115, setting forth, the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Sales of tin.* No person shall hereafter sell or deliver tin to any tube manufacturer or tube user if he knows, or has reason to believe, that such tin is to be used in violation of the terms of this order.

(4) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C., Ref.: M–115.

(5) *Effect of other orders.* Except as provided in paragraph (c) (2) above, insofar as any other order of the Director of Priorities, the Director of Industry Operations or the Director General for Operations heretofore or hereafter issued

limits or curtails to a greater extent than herein provided the use of any material used in the production of tubes, the limitations of such order shall control.

PART 3037—ELECTRONIC EQUIPMENT

[Preference Rating Order P-133]

Section 3037.5 *Preference Rating Order P-133*—(a) *Definitions.* For the purpose of this order:

(1) "Operator" means any individual, partnership, association, business trust, corporation, receiver or any form of enterprise whatsoever, whether incorporated or not, the United States, and the several states thereof, and any political, corporate, administrative or other division or agency thereof, to the extent engaged in any activity listed in Schedule A, hereof.

(2) "Material" means any commodity, equipment, accessory, assembly, or product of any kind.

(3) "Maintenance" means the upkeep of an operator's buildings, structures and equipment in sound working condition; and this, without regard to whether the expenditures therefor are for any reason required to be recorded in the operator's accounting records in accounts other than maintenance and repair.

(4) "Repair" means the reconstruction or restoration without expansion, improvement or change of design of any portion of an operator's buildings, structures and equipment when such portion has been rendered unsafe or unfit for service by wear and tear or other similar causes, but not including reconstruction or restoration of any portion damaged or destroyed by fire, flood, tornado, earthquake, act of God or the public enemy; and this, without regard to whether the expenditures therefor are for any reason required to be recorded in the operator's accounting records in accounts other than maintenance and repair.

(5) "Operating supplies" means any material which is essential to and consumed directly in the operation of any of the services specified in (a) (1) above but does not include recording discs, film, other recording media, fuel, office or building supplies, or equipment of any kind.

(b) *Assignment of preference rating.* Subject to the terms of this order, preference rating of A-1-j is hereby assigned:

(1) To deliveries of material to an operator for operating supplies and for maintenance and repair.

(2) To deliveries to any supplier of material to be physically incorporated in other material required by an operator for operating supplies, maintenance or repair.

(c) *Persons entitled to apply preference rating.* The preference rating hereby assigned shall be applied where a preference rating is required to obtain material for maintenance, repair and operating supplies by:

(1) Any operator engaged in an activity in Schedule A hereof and may be applied by

(2) Any supplier, provided deliveries to an operator or another supplier are to be made by him, which are of the kind specified in paragraph (b) and have been rated pursuant to this order.

(d) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(e) *Restrictions on inventory and use.* The preference rating hereby assigned may be applied by any operator, provided:

(1) Such rating is not used to replace in inventory more than one spare tube for each active tube socket.

(2) Such rating is not used to replace in inventory any spare parts except:

(i) Those subject to frequent failure, deterioration or other exhaustion.

(ii) Those which are so unique that failure would inevitably result in long delay in resumption of essential operations.

(3) Such rating is not used in any case to increase the value of an operator's inventory of repair parts, other than tubes, above the value of such inventory on the date of this order.

(4) Such rating is not used to replace in inventory a new part if the defective part can be repaired with a smaller consumption of raw material.

(5) The tube which has been replaced from operator's inventory or for which replacement is required has been operated to failure.

(6) The operator has returned to the manufacturer any power tube rated at

25 watts or more which has failed, unless such tube is to be repaired.

(7) Equipment which has failed has been operated within the ratings specified by the manufacturer.

(8) Such rating is not used to build up inventory of operating supplies other than tubes, in excess of requirements for a three-month period.

(9) Such operator was actively engaged in one of the activities listed on Schedule A hereof, on the date of issuance of the order, or has received specific authorization for his installation from the Director General for Operations of the War Production Board.

(f) *Application and extension of rating.* An operator or supplier, in order to apply the preference rating assigned by this order, shall endorse the following statement on the purchase order or contract for such material signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purposes.

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this purchase order, and that such application or extension is in accordance with Priorities Regulation No. 3, as amended, with the terms of which the undersigned is familiar.

PART 3049—SOFTWOOD LUMBER

[Amendment 2 to Conservation Order M-208]

Section 3049.1 (*Conservation Order M-208*) is hereby amended in the following respects:

1. Paragraph (a) (1) is amended by striking out "or any species of softwood" and inserting in lieu thereof "of any species of softwood."

2. Paragraphs (a) (2), (3), (4) and (5) are amended to read as follows:

(2) "Class 1 orders" means purchase orders or contracts for softwood lumber to which preference ratings of AA-1 or AA-2 have been or may hereafter be assigned.

(3) "Class 2 orders" means purchase orders or contracts for softwood lumber to which preference ratings of AA-2X, AA-3, AA-4 or lower, but higher than A-1-a, have been or may hereafter be assigned (including the ratings assigned in List A attached to this order).

(4) "Class 3 orders" means purchase orders or contracts for softwood lumber to which preference ratings of A-1-a or lower but not lower than A-1-k have been or may hereafter be assigned (including the ratings assigned in List B attached to this order).

(5) "Class 4 orders" means purchase orders or contracts for softwood lumber to which preference ratings lower than A-1-k have been or may hereafter be assigned (including the ratings assigned in List C attached to this order).

3. Paragraph (a) is amended by adding at the end thereof the following new subparagraphs (6) and (7):

(6) "Producer" means any plant which processes, by sawing, edging, planing or other comparable method, 25% or more of the total volume of logs and lumber purchased or received by it.

(7) "Box factory" means any person who manufactures from softwood lumber purchased by him, boxes, box shooks, or cut-to-size crating.

4. Subparagraph (1) of paragraph (b) is amended to read as follows:

(1) The following preference ratings are hereby assigned to deliveries of softwood lumber, subject to the restrictions of subparagraph (2) of this paragraph (b):

(i) AA-2X for the uses specified in List A attached to this order.

(ii) A-1-a for the uses specified in List B attached to this order.

(iii) A-2 for the uses specified in List C attached to this order.

Provided, however, That no preference rating is assigned by this order to any delivery of softwood lumber to which the person requiring the softwood lumber is entitled to apply or extend a preference rating which is assigned on any other preference rating order or certificate, or by specific order of the Director General for Operations.

5. Subparagraph (2) of paragraph (b) is amended to read as follows:

(2) The ratings assigned in subparagraph (1) of this paragraph (b) may be applied, by the person requiring delivery of softwood lumber for the uses specified, by endorsement of purchase orders in the manner prescribed by Priorities Regulation No. 3 and Priorities Regulation No. 12, and the ratings may be extended, by any person receiving such an endorsed purchase order, in the manner and to the extent permitted by those regulations.

6. Paragraph (c) is amended by adding at the end thereof the following proviso:

Provided, however, That orders bearing preference ratings of AAA shall be accepted and filled without regard to the provisions of this order, subject to the provisions of applicable priorities regulations.

7. Paragraph (e) is amended by adding a new subparagraph (4) as follows:

(4) The restrictions of this paragraph (e) shall not apply to producers or box factories.

8. Paragraph (f) is amended to read as follows:

(f) *Restrictions on use of softwood lumber.* (1) Notwithstanding the terms of any contract or purchase order, and notwithstanding the fact that such an order may bear a preference rating, no person shall, except as specifically authorized by the Director General for Operations on Form PD-423, use, or purchase, order or accept delivery of:

(i) Southern pine, Douglas fir or western larch sold as meeting specifications of 1800 or 2000 lbs. fiber stress per square inch, or 1300 or 1450 lbs. compression stress, except on Class 1 orders;

(ii) Southern pine, Douglas fir, cypress or western larch sold as meeting specifications of 1400 or 1600 lbs. fiber stress per square inch, or 1100 or 1200 lbs. compression stress, except on Class 1 or Class 2 orders;

(iii) Douglas fir, west coast hemlock, noble fir or Sitka spruce, of grades No. 1, No. 2, or any higher common grade, except on Class 1, Class 2 or Class 3 orders;

(iv) Southern pine of grades No. 1, No. 2 or any higher common grade, or of No. 1 box, or No. 2 box (not including D or better flooring, ceiling, drop siding or partition) except on Class 1, Class 2, or Class 3 orders;

(v) Idaho white pine, northern white pine, eastern white pine, Norway pine, ponderosa pine, sugar pine, lodgepole pine, jack pine, cypress, white fir, eastern hemlock, Engelmann spruce or western white spruce, of Grades No. 2 or No. 3 common, except on Class 1, Class 2 or Class 3 orders;

(vi) Eastern spruce of grades selected merchantable and Grade No. 1 (merchantable), except on Class 1, Class 2 or Class 3 orders.

(2) Notwithstanding the provisions of this paragraph (f), any person having softwood lumber in inventory on October 5, 1942, which he received without violating the restrictions of Conservation Order M-208, may use it without regard to the restrictions of this paragraph (f); softwood lumber in transit on October 5, 1942, shall, for the purposes of this paragraph only, be deemed to have been delivered prior to October 5, 1942.

(3) The restrictions of this paragraph (f) shall not apply to purchases, sales and deliveries between producers.

9. List A of Order M-208 is amended by substituting the following paragraph for the first paragraph thereof:

Subject to the restrictions of subparagraph (1) of paragraph (b) of this order, a rating of AA-2X is hereby assigned to purchase orders of softwood lumber for the following uses:

10. List B of Order M-208 is amended by substituting the following paragraph for the first paragraph thereof:

Subject to the restrictions of subparagraph (1) of paragraph (b) of this order, a rating of A-1-a is hereby assigned to purchase orders of softwood lumber for the following uses:

11. Item (2) (ii) of List B of Order M-208 is amended to read as follows:

(ii) Defense housing rated under Preference Rating Orders P-19-d, P-19-h, P-55, and P-55 amended, remodeling projects rated under Preference Rating Order P-110, and pre-fabricated housing.

12. List C of Order M-208 is amended by substituting the following paragraph for the first paragraph thereof:

Subject to the restrictions of subparagraph (1) of paragraph (b) of this order, a rating of A-2 is hereby assigned to purchase orders of softwood lumber for the following uses:

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 5th day of October 1942.

PART 1340—FUEL

[Amendment 10 to Maximum Price Regulation 137 [2]]

PETROLEUM PRODUCTS SOLD AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1340.86(c); § 1340.90(a) 15 and 16; § 1340.91 (e) are added and § 1340.86(a) and (b) are amended to read as set forth below:

§ 1340.86 *Statement and posting of maximum prices of motor fuels sold at retail establishments.* (a) Every person selling petroleum products at service stations subject to this Maximum Price Regulation No. 137 shall post the maximum price chargeable to purchasers of the class to whom he made the bulk of his sales for each grade of petroleum products in a manner plainly visible to and understandable by, each purchaser. Such postings shall be marked "maximum prices", "ceiling prices" or "our ceiling", beneath which shall be marked each grade of the petroleum product offered for sale and opposite each grade shall be stated the maximum price for that grade. Notwithstanding anything to the contrary contained in the General Maximum Price Regulation [2] or in § 1340.86 (c) of Maximum Price Regulation No. 137 every person whose maximum prices are increased pursuant to authorization by the Office of Price Administration shall indicate separately either for 60 days after such authorization or for so long as the increase remains effective, whichever period is shorter, the amount by which the maximum prices were increased, and the fact that such increase was authorized by the Office of Price Administration. In making this representation such person shall use the following language: "Amount of Increase—cents per gallon—Approved by the Office of Price Administration" or any other statement supplying the same information.

(b) On or before July 1, 1942, every person subject to this Maximum Price Regulation No. 137 shall file with the appropriate War Price and Rationing Board of the Office of Price Administration a statement showing his maximum price for each grade of motor fuel together with an appropriate description of its specifications. Such statement shall be kept up to date by such person by filing on the tenth day of every succeeding month a statement of his maximum price for each grade of motor fuel newly offered for sale by him at a service station during the previous month together with an appropriate description of its specifications.

(c) (1) Any seller who takes advantage of § 1340.91 (e) and after October 4, 1942, increases the price charged for a particular grade of motor fuel above the level that he would otherwise be permitted to charge shall file with the appropriate War Price and Rationing Board of the Office of Price Administration within five days after making such adjustment, an affidavit setting forth the following with respect to such grade:

(i) The sellers' maximum price as determined by § 1340.91 (a), (b) and/or (c) and his delivered cost at the time the adjustment is made;

(ii) The exact extent of the margin enjoyed by him during the major portion of the period October 1-15, 1941;

(iii) The prices charged by him for the particular grade of motor fuel at that retail establishment during the major portion of the period October 1-15, 1941;

(iv) The delivered cost of the particular grade of motor fuel on which the margin enjoyed during the major portion of the period, October 1-15, 1941, was calculated.

(2) Any seller who makes an initial increase after October 4, 1942, in the price charged for a particular grade of motor fuel under § 1340.91 (e), and reports that increase under (1) above, may hereafter have a further adjustment in price, either by being required to lower the price or by raising the price upon being granted permission for an increase. In the case of either such adjustment the seller shall file with the appropriate War Price and Rationing Board of the Office of Price Administration, within five days after such adjustment is required or made, an affidavit setting forth his delivered cost at the time the adjustment in his selling price is made, and his new maximum price.

§ 1340.90 *Definitions.* (a) * * *

(15) "Margin" means the difference between the selling price of the particular grade of motor fuel at the retail establishment and the delivered cost thereof to the retail establishment.

(16) "Delivered cost" for the purpose of this amendment shall consist of one of the following:

(i) In the case of tank wagon buyers, the net price charged to such buyer.

(ii) In the case of tank car or transport truck buyers who buy on a delivered basis, (*a*) the net laid-down cost at the point of buyer's control storage, and (*b*) the actual cost of transportation from the buyer's point of central storage to the buyer's retail establishment.

(iii) In the case of tank car or transport truck buyers who buy f. o. b. a shipping point, (*a*) the net f. o. b. shipping point price, (*b*) the actual cost of transportation to the point of buyer's central storage, and (*c*) the actual cost of transportation from the point of buyer's central storage to the buyer's retail establishment.

§ 1340.91 Appendix A: *Maximum prices for petroleum products sold at retail.* * * *

(e) When the maximum price for any grade of motor fuel at a retail establishment as determined by paragraphs (a), (b), (c) and (d) permits the seller a margin for a particular grade of motor fuel below that enjoyed by the seller at that particular retail establishment during the major portion of the period, October 1-15, 1941, such seller's maximum price shall be increased to a level which will permit him a margin equal to that enjoyed during the major portion of the above period. In no event, however, shall the seller exceed the price received by him for such grade of motor fuel during the major portion of the period October 1-15, 1941, plus any increases in such price authorized by the Price Administrator under this Maximum Price Regulation No. 137 prior to October 5, 1942. The maximum price of a seller for a particular grade of motor fuel at the particular retail establishment shall be automatically adjustable as the seller's margin changes. For the purposes of this provision, the margin is deemed to change not at the time the delivered cost changes but only after the seller has sold an amount equal to that volume on hand at the time the change in the delivered cost occurs.

§ 1340.93a *Effective dates of amendments.* * * *

(j) Amendment No. 10 (§ 1340.86 (a), (b) and (c); § 1340.90 (a); and § 1340.91 (e)) to Maximum Price Regulation No. 137 shall become effective 5th day of October 1942.

(Pub. Law 421, 77th Cong.)

Issued this 2d day of October 1942.

PART 1341—CANNED AND PRESERVED FOODS

[Maximum Price Regulation 233]

DRIED AND CANNED APPLES AND APPLE PRODUCTS

In the judgment of the Price Administrator seasonal conditions and other factors affecting the sale of dried and canned apples, canned applesauce and canned or bottled apple juice or sweet apple cider, by canners or packers, have resulted in the establishment under the General Maximum Price Regulation of maximum prices for such sales which are not generally fair and equitable as applied to the 1942 pack and which are not best calculated to assist in securing adequate production of such commodities. The Price Administrator has ascertained and given due consideration to the prices of dried and canned apples, canned applesauce and canned or bottled apple juice or sweet apple cider, prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as is practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established for the canners and packers of dried and canned apples, canned applesauce and canned or bottled apple juice or sweet apple cider, by this regulation, are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below prices which will reflect to the producers of the raw agricultural commodities from which dried and canned apples, canned applesauce and canned or bottled apple juice or sweet apple cider, are manufactured, prices for their commodities equal to the highest of any of the following prices therefor determined and published by the Secretary of Agricultural; (1) 110 per centum of the parity price for each such commodity, adjusted by the Secretary of Agriculture for grade, location and seasonal differentials; (2) the market prices prevailing for each such commodity on October 1, 1941; (3) the market prices prevailing for each such commodity on December 15, 1941; or (4) the average prices for such commodity during the period July 1, 1919 to June 30, 1929.

AUTHORITY: §§ 1341.401 to 1341.425, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1341.401 *Prohibition against dealing in dried apples, canned apples, canned applesauce and canned or bottled apple juice or sweet apple cider above maximum prices.* (a) On and after October 5, 1942, regardless of any contract or other obligation no canner or packer shall sell or deliver any dried apples, canned apples, caned applesauce or canned or bottled apple juice or sweet apple cider, at a price higher than the maximum price established therefor pursuant to this Maximum Price Regulation No. 233.

(b) No person in the course of trade or business shall buy or receive any dried apples, canned apples, canned apple-canned apples, canned applesauce or sauce, or canned or bottled apple juice or packer at a price higher than the maximum price established therefor pursuant to this Maximum Price Regulation No. 233; and

(c) No canner, packer or other person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1341.402 *Computation of base prices.* (a) The base price for each kind, grade and container size of canned apples, canned applesauce, and canned or bottled apple juice or sweet apple cider, made from whole apples, shall be the total gross dollars charged for such item during the first 60 days after the beginning of the 1941 pack of such item, divided by the number of dozens sold during such period. All sales from the 1941 pack of such item during such period, made in the usual course of business, shall be included, except sales made to the United States for any agency thereof. Sales made prior to such period, but delivered within such period, shall not be included.

(b) The base price for each kind, grade and container size of dried apples shall be computed in the same manner as set forth in paragraph (a) of this section, except that the period used in such computation shall be the month of October 1941, instead of the first 60 days after the begining of the 1941 pack.

§ 1341.403 *Canner's maximum prices for canned apples and canned applesauce.* The canner's maximum price per dozen f. o. b. factory, for each kind, grade and container size of canned apples and canned applesauce packed after the 1941 pack shall be:

(a) The canner's base price for such kind, grade and container size; plus

(b) Eighteen and one-fourth percent of such base price.

§ 1341.404 *Canner's maximum prices for canned or bottled apple juice or sweet apple cider.* (a) The canner's maximum price per dozen f. o. b. factory for each grade of canned or bottled apple juice or sweet apple cider made from whole apples, in container sizes of less than one gallon, shall be:

(1) The base price for the same grade and container size, plus

(2) Ten percent of such base price; plus

(3) The amount of six cents per gallon, apportioned to each dozen containers in the same proportion which the contents of such dozen containers bears to one gallon.

(b) The canner's maximum price per dozen f. o. b. factory for each grade of canned or bottled apple juice or sweet apple cider, made from whole apples, in container sizes of one gallon or more, shall be:

(1) The base price for the same grade and container size; plus

(2) Eight percent of such base price; plus

(3) The amount of six cents per gallon, apportioned to each dozen containers in the same proportion which the contents of such dozen containers bears to one gallon.

§ 1341.405 *Maximum prices for kinds, grades and container sizes which cannot be computed under §§ 1341.403 and 1341.404.* (a) If the maximum price for any kind, grade and container size, except No. 10 cans of any canned apples, canned applesauce, and canned or bottled apple juice or sweet apple cider, made from whole apples, cannot be determined under §§ 1341.403 and 1341.404 of this Maximum Price Regulation No. 233, but if the canner has been able to determine his maximum price under said sections for the dominant kind, grade and container size of such product, the maximum prices of the remaining kinds, grades and container sizes of such product, except No. 10 container size, shall be those prices which bear the same proportionate relationship to the maximum price for the dominant kind, grade and container size as the price for each such kind, grade and container size bore to the price of the dominant kind, grade and container size in the canner's first price list applying to the 1941 pack.

(b) In determining maximum prices under paragraph (a) of this section, the dominant kind, grade and container size shall be the one of which the canner packed the most cases in 1941.

(c) If the canner is unable to determine the maximum price of one or more grades of such items in a No. 10 can, under §§ 1341.403 and 1341.404, but can so determine the maximum price for one or more other grades of the same product in a No. 10 can, the maximum prices for the grades not so determined shall be established in the manner provided in paragraph (a) of this section, using as the dominant grade the grade for which the price has been determined, or, if the price of more than one grade has been so determined, using as the dominant grade the one of those for which a maximum price has been so determined of which the canner packed the largest number in 1941.

§ 1341.406 *The packer's maximum price for dried apples.* (a) The packer's maximum price for dried apples, packed in wood boxes containing 25 to 50 pounds, for all states except California, Oregon, Idaho and Washington, shall be as follows:

Grade	Kind	Maximum price, cents per pound
U. S. grade A	Rings or quarters	21
U. S. grade B	Rings or quarters	21
U. S. grade C	Rings or quarters	19½

(b) The packer's maximum price for dried apples, packed in wood boxes containing 25 to 50 pounds, for the states of California, Oregon, Idaho and Washington, shall be as follows:

Grade	Kind	Maximum price, cents per pound
U. S. grade A	Rings or quarters	19½
U. S. grade B	Rings or quarters	19
U. S. grade C	Rings or quarters	17

(c) Maximum prices for other kinds or grades of dried apples, such as chops and screenings, and other container sizes, shall be computed as follows:

---

[1] 7 F.R. 971, 3663, 6967.

(1) Determine the base price during October 1941, for U. S. grade C dried apples and the base price during October 1941, for each other item for which a maximum price is to be computed.

(2) Compute the percentage relationship of the maximum price for U. S. grade C dried apples, as determined under paragraph (a) or (b) of this section, to the base price during October 1941, for U. S. grade C dried apples.

(3) For each item for which a maximum price is being computed, multiply the base price in October 1941, for the same item, by the same percentage as determined for U. S. grade C dried apples pursuant to paragraph (c) (2) of this section.

§ 1341.407 *Maximum prices of competitor.* If the maximum price of the canner or packer for any item for which maximum prices are established by this Maximum Price Regulation No. 233 cannot be computed under the foregoing sections of this Regulation, the canner's or packer's maximum price for such item shall be the maximum price of the most closely competitive canner or packer for the same item.

§ 1341.408 *Allowances for packing in glass containers.* (a) Any canner who packed the same item in both glass and tin during the 1941 pack may compute base prices and maximum prices separately for such item packed in tin and the same item packed in glass, pursuant to the foregoing sections.

(b) Any canner who packed an item in tin and not in glass during the 1941 pack and who packs the same product in glass during the 1942 pack, whether or not in the same container size, may compute his maximum price for the product packed in glass, as follows:

(1) If the contents of the glass container are the same by weight as the tin container, the canner shall (a) subtract from his maximum price for such item in the tin container the current net cost per dozen of the tin container; and (b) add to this figure the current net cost per dozen of the new container.

(2) If the contents of the glass container vary by weight from the contents of the tin container by no more than twenty percent, the canner shall (a) divide his maximum price for the item in a tin container by the number of ounces or other units packed therein; (b) multiply the figure so obtained by the number of the same units in the glass container; (c) subtract from this figure the current net cost per dozen of the tin container; and (d) add the current net cost per dozen of the glass container.

(3) The current net cost per dozen of a container means the delivered price paid by the canner, or the delivered price the canner would have to pay per dozen for such container, at the time of computing his maximum price hereunder, including the caps, if any, and shipping carton, less discounts allowed, or that would be allowed, to him.

§ 1341.409 *Authorization of maximum prices.* If the canner's or packer's maximum price cannot be determined under any of the foregoing sections of this Maximum Price Regulation No. 233, the maximum price shall be a price determined by the canner or packer after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (1) a description in detail of the item for which a maximum price is sought; and (2) a statement of the facts which differentiate such item from the most similar item for which he has determined a maximum price, stating such most similar item and the maximum price determined therefor. When such authorization is given, it will be accompanied by instructions as to the method for determining the maximum price. Within ten days after such price has been determined, the canner or packer shall report such maximum price to the Office of Price Administration, Washington, D. C., under oath or affirmation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

§ 1341.410 *Maximum prices for a canner who has more than one factory.* The maximum price for each item for a canner who owns more than one factory shall be determined separately for each factory, except that if any group of two or more factories had the same f. o. b. factory prices in 1941, the maximum prices shall be determined uniformly for the entire group by using the combined figures for all of the factories in the group in computing the base price under § 1341.402 and computing the maximum price under § 1341.405, or, if that cannot be determined, by using the maximum price of the most closely competitive canner as the maximum price of the entire group. In applying for the specific authorization of a price under § 1341.408, the application may be made for a uniform price for all of the factories in such group.

§ 1341.411 *Maximum delivered prices.* Any canner who sold and delivered a particular brand of canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider packed by him during the calendar year 1941 on an established uniform delivered price basis by zone or area, may add to the maximum price per dozen f. o. b. factory computed under the foregoing sections for each grade and container size of such brand, the freight charge he added to his f. o. b. factory price during the calendar year 1941, for such grade and container size of such brand in the same zone or area. The resulting price shall be the canner's maximum delivered price for such grade and container size of such brand for the zone or area in which the same freight charge was used in 1941.

§ 1341.412 *Adjustment of maximum prices for container changes for government sales.* In the event that any governmental purchasing agency requires any of the items covered by this Maximum Price Regulation No. 233 to be packed in containers other than those specified herein or other than the usual containers or cases for such items, such agency may make application to the Office of Price Administration for an order under this section fixing the amount, if any, which may be added to the maximum prices established hereunder. Such application shall be in writing and shall state the estimated increase in the cost of packing in such special container. Any order issued under this section permitting such an increase, will apply to all canners or packers required to pack in such special containers.

§ 1341.413 *Maintenance of customary discounts and allowances.* Each canner and packer shall maintain his customary cash discounts and his quantity discounts to different classes of purchasers.

§ 1341.414 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 233 may be charged, demanded, paid or offered.

§ 1341.415 *Transfer of business or stock in trade.* If the business, assets or stock in trade of a canner are sold or otherwise transferred on or after the effective date of this Maximum Price Regulation No. 233 and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in this regulation.

§ 1341.416 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 233 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any of the items covered by this regulation, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1341.417 *Records and reports.* (a) Every packer who makes sales of dried apples after the effective date of this Maximum Price Regulation No. 233 shall preserve, for so long as the Emergency Price Control Act of 1942 remains in effect, all his existing records which were the basis of computing maximum prices by relationship to other kinds, grades and sizes of dried apples and make and preserve for the same period, all records of the same kind as he has customarily kept, relating to the prices which he charged for dried apples sold after the effective date of this regulation.

(b) Every canner who makes sales of canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider, made from whole apples, packed after the 1941 pack, shall (1) preserve for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, all his existing records which were the basis for the computation of maximum prices under this Maximum Price Regulation No. 233 and (2) preserve for the same period all records of the same kind as he has customarily kept, relating to the prices which he charged for such products sold on and after the effective date of this regulation and (3) file with the Office of Price Administration, Washington, D. C., within ten days after determining his maximum price for each item, a statement certified under oath or affirmation showing his base price and his maximum price for each item, together with his customary cash discounts and customary quantity discounts to different classes of purchasers, and (4) in those cases in which the maximum price of any item was determined by the maximum price of the most closely competitive canner, showing the maximum price of such item and the name and address of the canner whose maximum price was so adopted and (5) in those cases in which a canner made sales and deliveries of a particular brand of any of such products packed by him in 1941 on an established uniform delivered price basis by zone or area, showing his maximum price per dozen f. o. b. factory for each such item, the freight charge which he added to his f. o. b. factory price during the calendar year 1941 for each zone or area and the maximum delivered price for each such item packed after the 1941 pack, delivered in each zone or area, and (6) preserve for the same period a true copy of each such statement filed with the Office of Price Administration for examination by any person during ordinary business hours. Any canner who claims that substantial injury would result to him from making such statement available to any other person, may file such copy of such statement with the appropriate field Office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this regulation.

§ 1341.418 *Information to purchasers from canners.* (a) Any canner selling any canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider made from whole apples, packed after the 1941 pack, to any wholesaler, retailer, or any other purchaser for resale, shall, before making such sale or on his invoice disclose in writing to such purchaser, for each item, his base price, his maximum price, and the amount of the difference between the base price and the maximum price, which amount shall be designated as the "permitted increase."

(b) Any such canner may disclose such information by stating it on his invoice on the first occasion that he sells any item to such purchaser; or he may prepare and supply to the purchaser one or more lists or statements containing such information, at or before the first sale to such purchaser. Any such statement may contain the required information for any number of items.

(c) For the purposes of this section:

(1) When a maximun price has been established for any item by the use of proportionate relationship, the base price for such item shall bear the same ratio to the maximum price as the base price of the item from which such maximum was determined bears to the maximum price of such item.

(2) When a canner has established a maximum price by using the maximum price of his competitor for the same that item shall be the same as the base price of his competitor for the same item.

(3) When any canner makes application to determine a maximum price after specific authorization by the Office of Price Administration, such authorization, when given, will be accompanied by instructions as to the method for determining the price to be deemed the base price.

§ 1341.419 *Enforcement.* Persons violating any provisions of this Maximum Price Regulation No. 233, are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

§ 1341.420 *Petitions for amendment.* Persons seeking a modification of this Maximum Price Regulation No. 233 may file a petition therefor in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1341.421 *Sales for export.* The maximum price at which a person may export any of the products covered by this Maximum Price Regulation No. 233 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1341.422 *Applicability of the General Maximum Price Regulation.* This Maximum Price Regulation No. 233 supersedes the provisions of the General Maximum Price Regulation with respect to sales or deliveries by canners or packers of all products for which maximum prices are established by this regulation.

§ 1341.423 *Applicability.* The provisions of this Maximum Price Regulation No. 233 shall be applicable only in the United States and the District of Columbia.

§ 1341.424 *Definitions.* (a) When used in this Maximum Price Regulation No. 233 the term:

(1) "Persons" includes, an individual, corporation, partnership, association, any other organized group of persons, legal successors or representatives of any of the foregoing and includes the United States, any agency thereof, any other government, or any of its political subdivisions and any agency of any of the foregoing.

(2) "Canner" means a person who processes and packs apples, applesauce, apple juice or sweet apple cider, made from whole apples, in containers of metal or glass, or who packs apple juice or sweet apple cider, made from whole apples, in wooden containers.

(3) "Packer" means a person who removes the major portion of moisture from apples by natural or artificial means or prepares them for shipping in dried form, but does not include a grower when he delivers dried apples to a packer.

(4) "Canned" means sealed or enclosed in containers of metal or glass, whether or not hermetically sealed, and also refers to apple juice or sweet apple cider in wood containers.

(5) "1941 pack" of any item affected by this regulation shall be that pack the major portion of which was processed from apples grown in the calendar year 1941.

(6) The "most closely competitive canner or packer" means the canner or packer who:

(i) Sells to the same class of buyers, (ii) produces the same or a similar quality range of the product in question, (iii) has in the past sold the same item at approximately the same prices as the canner or packer seeking to establish a maximum price, (iv) is located in the same or the nearest canning or packing area.

(7) "Item", when referring to any of the products affected by this Maximum Price Regulation No. 233 also refers to the kind, grade and container size of such product; it designates not only the product, but also the kind, grade and container size. For example, "any item" means any kind, grade and container size of any of such products.

(8) "Kind" refers to the style of pack as well as to the product.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1341.425 *Effective date.* This Maximum Price Regulation No. 233 (§§ 1341.401 to 1341.425 inclusive) shall become effective October 5, 1942.

Issued this 2d day of October 1942.

Part 1394—Rationing of Fuel and Fuel Products

[Amendment 13 to Ration Order 5A[2]]

GASOLINE RATIONING REGULATIONS

A new § 1394.1407 is added; and a new paragraph (n) is added to § 1394.1902; as set forth below:

Expiration and Revocation of Rations.

* * * * *

§ 1394.1407–*Authority of Regional Administrators, State Directors and District Managers to suspend and revoke rations and require the surrender of coupon books and coupons.* (a) The several Regional Administrators of the Office of Price Administration within their respective regions, and such State Directors or District Managers as may be designated by the Regional Administrators for such purpose, are authorized to determine whether any ration, gasoline coupon book, or any bulk, inventory, or other coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) should be suspended, cancelled, revoked, recalled, or surrendered, and may, after a hearing held in accordance with the provisions of this section, suspend, cancel, revoke, recall, or require the surrender of any such ration, coupon book or coupon in any case in which the Regional Administrator, State Director or District Manager, as the case may be, finds either:

(1) That a ration holder was not entitled to receive the ration issued; or

(2) That a ration holder has violated any provision of Ration Order No. 5A; or

(3) That a person has transferred, assigned, received or accepted, or has in his possession any gasoline coupon book or coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) otherwise than in accordance with the provisions of Ration Order No. 5A.

(b) (1) The hearing shall be conducted by a presiding officer who shall be appointed or designated by the Regional Administrator or such person as he may authorize to make such appointment or designation. The presiding officer shall preside at the hearing, administer oaths and affirmations, and rule on the admission and exclusion of evidence.

(2) Notice of any hearing to be held pursuant to this section shall be served on the respondent not less than 3 days prior to such hearing. The notice shall state the time and place of the hearing, the charges against the respondent, and the purpose for which the hearing is to be held.

(3) The hearing shall be conducted by the presiding officer in such manner as will permit the respondent to present evidence and argument to the fullest extent compatible with fair and expeditious determination of the issues raised in the hearing. To this end:

(i) The respondent shall have the right to be represented by counsel of his own choosing;

(ii) The rules of evidence prevailing in courts of law or equity shall not be controlling;

(iii) The presiding officer, having due regard to the need for expeditious decision, shall afford reasonable opportunity for cross-examination of witnesses.

(4) A stenographic transcript of the hearing shall be made, a copy of which shall be made available to the respondent at his request upon the payment of a reasonable fee.

(5) A copy of any order issued pursuant to this section shall promptly be served on the respondent.

(c) Any person against whom an order is issued pursuant to the provisions of this section on the ground that the ration holder to whom a ration was issued was not entitled to such ration may appeal to the Regional Administrator from an order of a District Manager or from an order of a State Director, and to the Deputy Administrator in charge of Rationing from an order or decision on appeal of the Regional Administrator. In making any such appeal the appealing party shall file with the official who issued the order appealed from a statement in writing setting forth his objections to the decision and the grounds for the appeal. The statement must be filed not later than thirty (30) days after receipt of notice of the decision. Within five (5) days after receipt of the statement, such official shall send it to the official appealed to together with the entire record. The official appealed to may request the appealing party to appear before him or to furnish such additional information as he may deem pertinent and shall render his decision on the appeal within five (5) days after receipt of the statement and record, and, in cases of apparent emergency, within twenty-four (24) hours, if possible. He shall promptly notify the appealing party, in writing, of his decision.

PART 1499—COMMODITIES AND SERVICES

[Order 82 Under § 1499.3 (b) of General Maximum Price Regulation]

DUQUESNE SMELTING CORPORATION

The Duquesne Smelting Corporation, 50 Thirty-third Street, Pittsburgh, Pennsylvania, has made application under § 1499.3 (b) of the General Maximum Price Regulation for approval of a proposed maximum price for certain zinc die cast notched bars. Due consideration has been given to the application, and an opinion in support of this order has been issued simultaneously herewith and has bene filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and pursuant to § 1499.3 (b) of the General Maximum Price Regulation issued by the Office of Price Administration, *it is ordered:*

§ 1499.296 *Approval of maximum price for sales of certain zinc die cast notched bars by Duquesne Smelting Corporation.* (a) On sales and deliveries made on and after August 20, 1942, Duquesne Smelting Corporation, 50 Thirty-third Street, Pittsburgh, Pennsylvania, may sell and deliver and agree, offer, solicit, and attempt to sell and deliver zinc die cast notched bars containing approximately 5% aluminum, a small percentage each of copper, tin, lead, iron, and the remainder zinc at a price not higher than 6.8 cents per pound f. o. b. point of shipment.

(b) As used in this Order No. 82, "point of shipment" means the point at which any commodity covered by this Order No. 82 is loaded on a conveyance for transportation directly to the buyer's receiving point. This is usually the seller's plant, warehouse, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.

(c) This Order No. 82 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 82 (§ 1499.296) shall become effective as of October 3, 1942.

Issued this 2d day of October 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 83 Under § 1499.3 (b) of General Maximum Price Regulation]

BELDING HEMINWAY CO.

Belding Heminway Company of New York, New York, made application for an authorization to determine a maximum price for its new "Belcort" thread. Due consideration has been given to the application, and it appears that the new sewing thread cannot be priced by the seller under § 1400.2 of the General Maximum Price Regulation. For the reasons set forth in the opinion in support of this order, which has been issued simultaneously herewith and has been filed with the Division of the Federal Register,* and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1 and § 1499.3 (b) of the General Maximum Price Regulation, issued by the Office of Price Administration, it is hereby ordered:

§ 1499.297 *Approval of maximum prices for sales of sewing thread by Belding Heminway Company.* (a) On and after October 3, 1942 Belding Heminway may sell and deliver, and agree, offer, solicit and attempt to sell and deliver the kinds and grades of sewing thread set forth in subparagraphs (1) and (2) at prices not in excess of those stated therein.

(1) Belcort machine twist and sewing thread made from cotton yarn may be sold at a price not in excess of $3.17 per unit for black threads of all sizes and $3.72 per unit for white and colored threads of all sizes.

(2) Belcort waxon sewing thread made from cotton yarn may be sold at a price not in excess of $5.09 per unit for black threads of all sizes and $5.94 per unit for white and colored threads of all sizes.

(b) The maximum selling price set forth in paragraph (a) (1) and (a) (2) shall be subject to adjustment at any time by the Office of Price Administration.

(c) This Order No. 83 may be revoked or amended by the Office of Price Administration at any time.

(d) This Order No. 83 (§ 1499.297) shall become effective October 3, 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 53 Under § 1499.18 (b) of General Maximum Price Regulation]

PARAFFIN WAX

For the reasons set forth in an opinion * issued simultaneously herewith, *It is ordered:*

§ 1499.853 *Adjustment of maximum prices for sales of household size cakes of paraffin wax by certain dealers therein.* (a) The following companies may sell and deliver, and any person may buy and receive from the following companies, household size cakes of paraffin wax at prices not in excess of 12½¢ per pound:

(1) Intercity Grocery Company, Peru, Illinois.

(2) Lehigh Wholesale Grocery Company, Inc., Allentown, Pennsylvania.

(3) Bayer-Gillam Company, Cleveland, Ohio.

(4) Scott-Mayer Commission, Little Rock, Arkansas.

(b) All discounts, allowances, and trade practices in effect with respect to the above listed commodity during March 1942 by the seller shall remain in effect under this order.

(c) All applicants shall mail or cause to be mailed to all persons who purchase household size cakes of paraffin wax from such applicant at the price established pursuant to this order No. 53 (§ 1499.853) for sale at retail, a notice reading as follows:

> The Office of Price Administration, by Order No. 53 (§ 1499.853), effective October 3, 1942, pursuant to section 18 (b) of the General Maximum Price Regulation, has permitted [insert applicant's name] to raise its maximum price for sales to you of household size cakes of paraffin wax, subject to all discounts, allowances and trade practices in effect during March 1942 with respect to sales of household size cakes of paraffin wax by it.
>
> The permission contained in Order No. 53 (§ 1499.853) was granted by the Office of Price Administration upon the basis of a showing that the maximum prices for sales of this commodity established by the General Maximum Price Regulation are such that no hardship would be imposed upon retailers generally if they were required to pay the price as set forth above.
>
> Order No. 53 (§ 1499.853) does not permit you or any other retailer to raise maximum prices, as established under the General Maximum Price Regulation, for sales of this commodity. However, if you are in a position different from that of retailers generally, so that the price charged you by us pursuant to such order imposes a substantial hardship upon you, and if your maximum prices for sales of this commodity are abnormally low in relation to the maximum prices established for sales of this commodity by other competitive sellers at retail, you may communicate with the nearest District, State, Field, or Regional Office of the Office of Price Administration setting forth the facts of your situation.

(d) All prayers of the application not granted herein are denied.

(e) This Order No. 53 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 53 (§ 1499.853) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 53 (§ 1499.853) shall become effective October 3, 1942.

PRECISION OPTICAL CO.

For the reasons set forth in an opinion issued simultaneously herewith, *It is hereby ordered:*

§ 1499.854 *Adjustment of maximum prices for sales by Precision Optical Co. of custom-made Toric Lenses and Toric Kryptok Bifocals.* (a) Precision Optical Co., No. 437 Wood Street, Pittsburgh, Pennsylvania, may sell and deliver, and any person may buy from Precision Optical Co., Toric Lenses and Toric Kryptok Bifocals that are compounded from an eye specialist's prescription at wholesale prices no higher than those set forth in Precision Optical Company's published price lists which became effective on April 27, 1942, subject to discounts, allowances, and terms no less favorable than those customarily granted by it.

(b) No person purchasing custom-made Toric Lenses or Toric Kryptok Bifocals from Precision Optical Co. is permitted by this Order No. 54 to sell such lenses at a higher price than his maximum price as established by the General Maximum Price Regulation.

(c) The adjustment granted to Precision Optical Co. in paragraph (a) is subject to the condition that Precision Optical Co. shall advise in writing each person purchasing custom-made Toric lenses or Toric Kryptok Bifocals from it of the adjustment of maximum prices permitted by this Order No. 54. Such notification shall be made at or before the first delivery of such lenses after the effective date of this Order No. 54, shall be accompanied by a copy of Precision Optical Company's published price lists which became effective on April 27, 1942, and shall contain the following statement:

> The prices contained in the attached price lists are our maximum prices as established by an adjustment granted by the Office of Price Administration. This adjustment was permitted because our March 1942 prices were abnormally low in relation to the prices charged by our competitors due to our price reduction in October, 1941. A survey of retailers' prices showed that there had been no corresponding reduction in retailers' prices. For that reason the Office of Price Administration has not permitted you to raise your present ceiling prices.

(d) All prayers of the application not granted herein are denied.

PART 1372—SEASONAL COMMODITIES

[Amendment 3 to Maximum Price Regulation 210 [1]]

RETAIL AND WHOLESALE PRICES FOR FALL AND WINTER SEASONAL COMMODITIES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1372.102 (b) (3) is amended to read as follows:

§ 1372.102 *Maximum prices for fall and winter seasonal commodities.* * * *

(b) *Meaning of terms.* * * *

(3) *How a seller calculates his "initial percentage mark-up."* Three different rules are given for this calculation. With the exception stated in the last sentence of this paragraph every seller is required to use Rule 1 if he has or can obtain invoices or other records and information showing the purchases and sales of the same commodity as the one being priced which he made during the last six months of 1941. If the seller dealt in the same commodity during that period but does not have the information needed for Rule 1, he should use Rule 2. In the use of Rule 2, commodities shall not be shifted from one department to another if the result of the shift is to obtain a higher percentage mark-up. If the seller did not deal in the same commodity during the last six months of 1941, he should use Rule 3. A seller who could use Rule 1 may choose to use Rule 2 if the following three conditions are met: (i) his records satisfactorily show the *average* of "the initial percentage mark-ups" which he took during the last six months of 1941 on all commodities sold in the department in which he sells the commodity being priced; (ii) Rule 2 is used in pricing all fall and winter seasonal commodities to be sold in this department; and (iii) the commodity was not sold during the last six months of 1941 in another department which had an average "initial percentage mark-up" lower than that of the department where the commodity is now to be sold.

(c) * * *

This Amendment No. 3 (§ 1372.102 (b) (3)) to Maximum Price Regulation No. 210, shall become effective the 9th day of October 1942.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[Amendment 25 to Maximum Price Regulation 136, as Amended [2]]

MACHINES AND PARTS AND MACHINERY SERVICES

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1390.2 paragraph (f) is amended and new subparagraph (5) is added to paragraph (i); in § 1390.10 paragraphs (c) and (e) are amended; in § 1390.18 paragraph (a) is amended; in § 1390.32 the titles of paragraphs (a), (d), and (i) are amended; new items are added to paragraphs (c) and (d), and an item in paragraph (e) is amended; in § 1399.33 paragraph (a) is amended and new paragraph (d) is added; in § 1399.34 new items are added; and new paragraph (y) is added to § 1390.31a, all as set forth below:

§ 1390.2 *Exclusions.* * * *

(f) Any sale or delivery at retail of a machine or part by a person other than the manufacturer thereof. For the purpose of this exclusion, a sale or delivery is deemed to be "at retail" (1) when made to an ultimate consumer, other than an industrial, commercial, or governmental user, or (2) when made (i) from a store, shop or mail-order house where sales are predominantly made to such ultimate consumers, (ii) at a price ordinarily charged such ultimate consumers (iii) to a purchaser of a class to whom sales were regularly made on or prior to October 1, 1941, at the prices ordinarily charged such ultimate consumers. * * *

(i) Any machinery service performed in connection with the following: * * *

(5) The maintenance, repair or rebuilding of automotive parts, subassemblies or accessories.

* * * * *

§ 1390.10 *Maximum prices; sales by sellers other than the manufacturer.* * * *

(c) *Machines and parts without list prices.* (1) If for any machine or part a seller other than the manufacturer thereof had no published or confidential list price in effect on October 1, 1941, the maximum price to any purchaser for such machine or part shall be the net price determined by applying a margin determined pursuant to subparagraph (2) of this paragraph to:

(i) The seller's net invoiced cost, if available, not to exceed the applicable maximum price, or

(ii) If actual cost is not available, net invoiced cost as estimated by the seller's supplier: *Provided,* That the seller has no reason to believe that the price so estimated exceeds the applicable maximum price.

---

*Copies may be obtained from the Office of Price Administration.

[2] 7 F.R. 5047, 5362, 5665, 5908, 6425, 6682, 6899, 6964, 6965, 6937, 6973, 7010, 7246, 7320, 7365, 7509, 7602.

(2) The margin to be applied in the circumstances referred to in subparagraph (1) shall be the first of the following which is available:

(i) The weighted average percentage margin over net invoiced cost applied in prices charged by such seller on or about October 1, 1941, for the same machines or parts sold to purchasers of the same class;

(ii) The weighted average percentage margin over net invoiced cost applied in prices charged by such seller on or about October 1, 1941, for all machines and parts of the same class sold to purchasers of the same class;

(iii) The weighted average percentage margin over net invoiced cost applied in prices charged by such seller on or about October 1, 1941, for the same machines or parts sold to purchasers of a different class or, if none were sold, for machines and parts of the same class sold to purchasers of a different class, adjusted to afford the same percentage differential in price between purchasers of such different classes as was customarily made by the seller on or about October 1, 1941, for purchasers of such different classes.

* * * * *

(e) *Machines and parts completely subcontracted.* If a manufacturer of a machine or part also subcontracts to another the manufacture of the same machine or part which he resells in the form in which it is received from the subcontractor the maximum price for the prime contractor shall be determined as follows:

(1) If for any such machine or part the prime contractor had a published or confidential list price in effect on October 1, 1941, the maximum price shall be determined in accordance with § 1390.5; or

(2) If the prime contractor had no such list price, the maximum price shall be determined in accordance with the applicable provisions of subparagraphs (1) and (2) of paragraph (d).

§ 1390.18 *Contract prices, renegotiations, price-adjustment agreements, and price increases*—(a) *Existing contracts.* Notwithstanding the provisions of § 1390.3, any person may until September 1, 1942, deliver, perform, or receive, or make or receive payment for, any machine or part or machinery service pursuant to a contract entered into prior to July 22, 1942, at the price provided in such contract: *Provided,* That on or before September 1, 1942, the contract price shall be revised so as not to exceed the maximum price computed in accordance with the provisions of this Maximum Price Regulation No. 136, as amended, and that refunds or other allowances in accordance with such recomputation are made as to deliveries made or services performed on or after July 22, 1942. In computing the maximum price for purposes of this section, no upward adjustment shall be made, and no downward adjustment need be made, for changes in the clock hours of labor or in the quantities of materials required or estimated to be required, which have occurred since the date of entering into the contract or since the date of the last change in the contract price.

§ 1390.32 *Appendix A: Machines and parts to which the October 1, 1941, date is applicable.*

(a) *Prime movers, etc.:* * * *

(c) *Processing machinery and equipment:*

Cement-making machinery.

(d) *Construction and mining machinery, etc.:*

Coal preparation equipment.
Pile drivers.

(e) *Electrical equipment:*

Electric motors and generators (except automotive)

* * * * *

(i) *Miscellaneous parts and subassemblies, etc.:* * * *

§ 1390.33 *Appendix B: Machines and parts to which the March 31, 1942, date is applicable.* (a) Any part or subassembly of any item mentioned in § 1390.32, Appendix A, except that when the manufacturer also manufactures one or more complete items mentioned in Appendix A and the part or subassembly in question is also in some cases used as a component of such complete item, then the part or subassembly is not included within this Section but is included within Appendix A. This paragraph does not include any part or subassembly which is itself covered in Appendix A or which is mentioned in § 1390.34, Appendix C.

* * * * *

(d) Any part or subassembly of any item mentioned in this section, excluding any part or subassembly which is itself covered in § 1390.32, Appendix A or which is mentioned in § 1390.34, Appendix C.

§ 1390.34 *Appendix C: Illustrative list of products not covered by Maximum Price Regulation No. 136:*

Diamond dies smaller than .002 inch in diameter.
Instrument jewel bearings.

§ 1390.31a *Effective dates of amendments.* * * *

(y) This Amendment No. 25 (§§ 1390.2 (f) and (i) (5), 1390.10 (c) and (e), 1390.18 (a), 1390.32 (a) (c) (d) (e) and (i), 1390.33 (a) and (d), and 1390.34) shall become effective October 9, 1942.

[1] Rates are stated in terms of dollars per net ton and are exclusive of expenses for loading and discharging and for cargo insurance. The trimming charge made at loading piers is for the account of the vessel and is included in the rate.

[2] Lower New Jersey piers include piers in South Amboy, Perth Amboy, Port Reading, and Elizabethport.

[3] Upper New Jersey piers include Jersey City, Hoboken, Weehawken, Guttenberg, and Edgewater.

[4] Applicable only to cargoes of less than 2200 net tons. Subtract five cents per net ton from the rates shown when cargo is 2200 net tons or more but less than 2800 net tons, and ten cents per net ton when cargo is 2800 net tons or more.

[5] Includes all points between but not including Hull, Massachusetts, and Lynn, Massachusetts.

The maximum rate applicable to any destination on the Atlantic Coast northerly from New York not specified above shall be the rate shown from the same origin to the closest destination set forth above.

The maximum rates specified above are for transportation in barges other than self-propelled barges and shall be increased by 15 cents per net ton when the transportation is performed by self-propelled barges.

(ii) The provisions of the General Maximum Price Regulation, other than § 1499.11 (a), shall not apply until August 3, 1942, to the transportation of coal in barges between the origins and destinations referred to in paragraph (i) above, when such transportation is performed by carriers other than common carriers within the exemption conferred by section 302 (c) (2) of the Emergency Price Control Act of 1942.

(b) Effective dates. * * *

(37) Amendment No. 36 (§ 1499.73 (a) (5)) to Supplementary Regulation No. 14 shall become effective October 3, 1942, and shall, unless earlier revoked or extended, expire at twelve o'clock midnight December 2, 1942.

PART 1351—FOODS AND FOOD PRODUCTS

[Temporary Maximum Price Regulation 22]

CERTAIN ESSENTIAL FOOD PRODUCTS

In accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to aid in stabilizing the cost of living" (H. R. 7565), 77th Congress, 2d Session, and under the authority of the Emergency Price Control Act of 1942, the Price Administrator, after consultation with the Secretary of Agriculture, hereby issues this Temporary Maximum Price Regulation No. 22 establishing as the maximum prices for certain essential food products not heretofore subject to price control the prices prevailing for those products during the five days prior to the date of issuance of this regulation.

AUTHORITY: §§ 1351.801 to 1351.813, inclusive, issued under H. R. 7565, 77th Cong. and Pub. Law 421, 77th Cong.

§ 1351.801 *Purpose of this regulation.* (a) It is the purpose of this regulation to establish maximum prices on the following essential food products:

(1) *Milk products.* All butter, cheese, condensed and evaporated milk, powdered milk, casein, malted milk powder, and any other commodity which is processed or manufactured from cow's milk and composed of milk ingredients constituting more than fifty percent by weight or volume, except fluid milk, fluid cream, and ice cream.

(2) *Eggs.* All shell, dried, frozen, and tanner eggs.

(3) *Poultry.* All chickens, fowl, roosters, capons, turkeys, ducks, geese, pigeons, squabs, and game birds including live, dressed, drawn, split, disjointed, and all other forms of the foregoing when sold for human consumption.

(4) *Mutton.* All meat from the carcasses of animals of the ovine species of either sex, other than "lamb".

(5) *White potatoes.* All white potatoes used for human consumption.

(6) *Canned citrus fruits and juices and other citrus products.* All canned fruits and juices made from citrus fruits (such as oranges, grapefruit, lemons, and limes) and combinations or blends thereof; citrus concentrates; and all other citrus products.

(7) *Fresh citrus fruits.* All fresh citrus fruits including but not limited to oranges, grapefruit, lemons, and limes.

(8) *Flour.* All flour produced from wheat, rye, buckwheat, rice, corn, oats, barley, soy beans, and potatoes, and combinations thereof including bleached, bromated, enriched, phosphated, and self-rising flours.

(9) *Cake mixes and flour mixes, in bulk and "packaged" in quantities greater than three pounds.* All combinations of flour with any other ingredients.

(10) *Onions.* All onions for human consumption, including all types and varieties other than green onions.

(11) *Dry edible beans, dried peas and lentils.* All threshed and dried field or garden beans, peas and lentils used for human consumption.

(12) *Corn meal, hominy, and hominy grits, in bulk and "packaged" in quantities greater than three pounds.* All corn "ground" for human consumption with or without the removal of all or part of the bran or germ.

The food products listed above are referred to in this regulation as "listed food products".

(b) From October 5, 1942, to December 3, 1942, inclusive, regardless of any contract, agreement, or other obligation, no person shall sell or deliver a listed food product, and no person in the course of trade or business shall buy or receive a listed food product at a price higher than the maximum price permitted by this Temporary Regulation No. 22; and no person shall agree, offer, solicit or attempt to do any of the foregoing. Lower prices may be charged, demanded, paid or offered.

§ 1351.802 *Maximum prices.* (a) The seller's maximum price for any listed food product shall be the highest price charged by the seller during the period September 28, 1942, to October 2, 1942, inclusive, for the same listed food product; or if no charge was made for the same listed food product, for the similar listed food product most nearly like it. If the seller did not sell the same or similar listed food product during the period September 28, 1942, to October 2, 1942, inclusive, his maximum price for such listed food product shall be the highest price charged during that period by his most closely competitive seller of the same class for the same listed food product; or, if no charge was made for the same listed food product, for the similar food product most nearly like it.

§ 1351.803 *Exempt sales.* (a) This Temporary Maximum Price Regulation No. 22 shall not apply to the following:

(1) Sales and deliveries made directly by a farmer of any listed food products produced on his farm. However, this Temporary Maximum Price Regulation No. 22 shall apply to a sale or delivery by a farmers' cooperative and to a sale or delivery directly by a farmer of any listed food products to an ultimate consumer if during the preceding month the farmer's sales to ultimate consumers of all food products produced on his farm exceeded $75.

(2) Deliveries to the United States, or any agency thereof, under contracts entered into prior to October 5, 1942.

§ 1351.804 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 22 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to a listed food product alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by changing a business practice relating to the price lines, grading, labeling, packaging or branding of a listed food product.

§ 1351.805 *Conditional agreements.* No seller of a listed food product shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1351.802 in the event that this Temporary Maximum Price Regulation No. 22 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration, the Price Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1351.806 *Sales for export.* The maximum prices at which a person may export a listed food product shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[1] issued by the Office of Price Administration.

§ 1351.807 *Records and reports.* (a) As to all sales not specifically exempted by other sections of this Temporary Maximum Price Regulation No. 22 every person selling a listed food product shall preserve for examination by the Office of Price Administration all his existing records relating to prices which he charged for such listed food product delivered or supplied during the period from September 28, 1942, to October 2, 1942, inclusive, and his offering prices for delivery or supply of a listed food product during such period; and shall prepare, on or before October 24, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing (1) the highest prices charged for such listed food product delivered or supplied during such period and his offering prices for delivery or supply of a listed food product during such period, together with an appropriate identification of such product, and (2) all his customary allowances, discounts, and other price differentials.

(b) As to all sales not specifically exempted by other sections of this Temporary Maximum Price Regulation No. 22, every person selling a listed food product shall keep and make available for examination by the Office of Price Administration records of the same kind as he has customarily kept relating to the prices which he charged for such food product during the period from September 28, 1942, to October 2, 1942, inclusive, and, in addition, records showing, as precisely as possible, the basis upon which he determined maximum prices.

(c) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section as the Office of Price Administration may from time to time require.

§ 1351.808 *Enforcement.* (a) Persons violating any provisions of this Temporary Maximum Price Regulation No. 22 are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 22 or of any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1351.809 *Petitions for amendment.* Persons seeking modification of any provisions of this Temporary Maximum Price Regulation No. 22 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

§ 1351.810 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 22, the term:

(1) "Person" means an individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agencies of any of the foregoing;

(2) "Highest price charged during the base period" means the highest price which the seller charged for a listed food product delivered by him during the period from September 28, 1942 to October 2, 1942, inclusive, to a purchaser of the same class, or, if the seller made no such delivery during such period, his highest offering price for delivery during that period to a purchaser of the same class. No seller shall change his customary allowances, discounts or other price dif-

ferentials unless such change results in a lower price. No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or supply of any listed food product than the seller required purchasers of the same class to pay during such period on deliveries of a listed food product.

(3) "Purchaser of the same class" refers to the practice followed by the seller in the ninety-day period preceding October 2, 1942, in setting different prices for sales to different purchasers or kinds of purchasers (for example, but not limited to, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer or any ordinarily recognized subgroup or combination of the foregoing) or for purchasers located in different areas or for different quantities or under different conditions of sale.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 and in the General Maximum Price Regulation,[3] issued by the Office of Price Administration, shall apply to other terms used herein.

§ 1351.811 *Relation to other maximum price regulations.* The provisions of this Temporary Maximum Price Regulation No. 22 shall not apply to any sale or delivery of a listed food product for which a maximum price is in effect on October 5, 1942, under the provisions of any other price regulation, including the General Maximum Price Regulation, issued by the Office of Price Administration.

§ 1351.812 *Revocation or replacement of regulation.* This Temporary Maximum Price Regulation No. 22 may be revoked or replaced by a permanent Maximum Price Regulation or Order issued by the Office of Price Administration.

§ 1351.813 *Effective period.* This Temporary Maximum Price Regulation No. 22 (§§ 1351.801 to 1351.813, inclusive), shall become effective on October 5, 1942, and shall, unless earlier revoked or replaced, expire at 12 o'clock midnight, December 3, 1942.

Issued this 3d day of October 1942.

Chapter XIII—Office of Petroleum Coordinator for War

[Recommendation 30, Amendment]

PART 1508—MARKETING

MARKETING MATERIALS

To all persons supplying equipment for the marketing of petroleum products:

Pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, Recommendation No. 30 (§§ 1508.12 to 1508.14, inclusive, of this chapter)[1] is hereby amended and the section numbering thereof changed to read as follows:

AUTHORITY: §§ 1508.12 to 1508.15, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior 6 F.R. 2760).

§ 1508.12 *Definitions.* (a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(b) "Marketing" means the operation of all facilities (other than petroleum terminal or terminal storage facilities or marine, rail, pipe line or truck facilities used to transport petroleum) for distributing or dispensing petroleum (excluding natural gas) including without limitation the operation of service stations, substations, bulk plants, warehouses, wholesale depots, or facilities operated by "consumer accounts".

(c) "Petroleum" means petroleum, petroleum products, and associated hydrocarbons including but not limited to natural gas.

(d) "Equipment" means dispensing pumps and storage tanks having a capacity of more than 65 gallons used in marketing.

(e) "Operator" means any person engaged in marketing.

(f) "Owner" means any person, other than an operator, who has, subject to the rights of any operator, the right to possession of the premises on which equipment is installed.

§ 1508.13 *Notice of intention to remove.* No person having the right to remove from the premises of any operator or owner any equipment operated by such operator whether by reason of the termination of a supply arrangement at the election of either, or for any other reason, shall do so until he shall have given reasonable notice in writing of not less than thirty days to the operator of his intention so to remove such equipment, or until he shall have received the prior consent in writing of such operator.

§ 1508.14 *Option in operator.* Any operator having received notice from any person pursuant to § 1508.13 of this chapter of intention to remove any equipment shall have the option for the period of the notice, but not more than forty-five days from the giving of notice, to purchase or complete the purchase, or procure another person to purchase or ercise of such option, the equipment covered by such notice, and on the exercise of such option, the equipment covered thereby shall be sold in accordance therewith at a reasonable price based on original cost less reasonable depreciation. During any such option period, the operator shall have the right to use the installed equipment and to authorize its use by any person for the purpose of supplying the operator with petroleum.

§ 1508.15 *Option in owner.* When such operator does not exercise the option granted pursuant to § 1508.14, the owner shall be given an option in writing to purchase or arrange for the purchase of the presently installed equipment at a reasonable price based on original cost less reasonable depreciation. Such option shall be for a period of not less than fifteen days, and such equipment shall not be removed prior to the expiration of such option.

PART 1508—MARKETING

CONSERVATION OF FUEL OIL

To all suppliers of fuel oil in District One and in the States of Oregon and Washington:

Pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, Recommendation No. 39 (§§ 1508.38 to 1508.41, inclusive, of this chapter)[2] is hereby amended by deleting §§ 1508.38 to 1508.40, inclusive, and amending § 1508.41 to read as follows:

§ 1508.41 *Conservation of fuel oil.* Except in case of sickness or other emergency which makes essential the maintenance of higher temperatures, controls used by consumers of fuel oil for the regulation of air temperature should be kept at a maximum of 65° Fahrenheit during the day and a maximum of 55° Fahrenheit during the night. All space which is not being utilized or is nonessential should be closed off from the remainder of the establishment and not heated. Controls used by consumers of fuel oil for the regulation of the temperature of hot water for domestic use should be kept at a maximum of 140° Fahrenheit.

Municipal Bodies or Agencies Having Jurisdiction Over the Construction, Reconstruction, Maintenance, or Repair of Roads, Highways, and Other Similar Surfaces, and To All Suppliers of Asphalt and Asphaltic Products and Tar and Tar Products:

Pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, §§ 1508.44 to 1508.48 of this chapter (Recommendation No. 45,[1] dated April 24, 1942, Amendment July 2, 1942,) are hereby amended to read as follows:

AUTHORITY: §§ 1508.44 to 1508.48, inclusive, issued under the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1508.44 *Use of asphalt or tar products on roads and highways.* Subject to the provisions of § 1508.47 of this chapter, the use of asphalt or of any asphaltic product, including road oils, or of tar or any tar product, in the construction, reconstruction, paving, surfacing or resurfacing, and in the maintenance or repair, of any public road, street, highway or driveway, or public parkway, in the areas defined in § 1508.48 of this chapter, and the purchase, sale, delivery, or withdrawal from storage of any asphalt or asphaltic product including road oil, or tar or any tar product, for any such use, shall be deferred for the duration of the emergency, except in the case of public roads, streets, highways or driveways, or public parkways, certified by the Public Roads Administration of the Federal Works Agency to be necessary to the successful prosecution of the war, and for the construction, reconstruction, paving surfacing or resurfacing, or the maintenance or repair, of which the Public Roads Administration certifies that the use of asphalt or an asphaltic product (not including road oil), or tar or a tar product is essential. Certification by the Public Roads Administration shall be made after review and recommendation by the appropriate state highway department pursuant to such procedure as the Commissioner of Public Roads may prescribe, except that in cases of use by or on behalf of an agency of the Federal Government application shall be made direct to the Public Roads Administration.

§ 1508.45 *Other surfacing.* Subject to the provisions of § 1508.47 of this chapter, no asphalt or asphaltic product, including road oils, or tar or any tar product, shall be used during the emergency in the construction, reconstruction, paving, surfacing or resurfacing, or in the maintenance or repair, of any roadway or other surface for vehicular use subject to restricted use, walkway, yard, parking area, or any other similar surface except as may be approved by the Director of Marketing, Office of Petroleum Coordinator for War, Washington, D. C., in the area defined in § 1508.48 of this chapter, except that no approval is required in the case of airport or aircraft plant surfaces on which aircraft travel, or surfaces within buildings.

§ 1508.46 *Transportation of asphalt and asphaltic products.* Asphalt and asphaltic products, including road oils, and tar and tar products, shall be transported by means of tank truck in all movements of 200 miles or less except where suitable tank truck transportation cannot be obtained.

§ 1508.47 *Date of applicability.* In any case where asphalt or any asphaltic product (not including road oil), or tar or any tar product, is being used, pursuant to a written contract for the purposes described in §§ 1508.44 or 1508.45 of this chapter in the area defined in paragraph (b) of § 1508.48 of this chapter, but only where equipment and material has been placed upon the location on or before the date of this amended Recommendation, the use thereof shall be permitted for 20 days following such date, and the delivery thereof for such use shall be permitted for 10 days following such date, but shall be permitted thereafter only upon certification by the Public Roads Administration in the manner contemplated in § 1508.44 or approval as provided in § 1508.45 of this chapter. The delivery of road oils in such area for the purposes described in §§ 1508.44 and 1508.45 of this chapter shall cease on the date of this amended Recommendation, and the use thereof, in such area for such purposes shall cease 20 days following such date. Road oil in tank cars on the date of this amended Recommendation shall be deemed to have been delivered. Certifications and approvals as prescribed in §§ 1508.44 and 1508.45 will not apply to road oils.

§ 1508.48 *Areas of applicability.* (a) Continental United States.

(b) The States of Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming.

RALPH K. DAVIES,
Deputy Petroleum Coordinator for War.

Chapter XV—Board of War Communications

[Order 19]

PART 1714—INTERNATIONAL RADIO-TELEPHONE COMMUNICATIONS

TERMINATION OF CERTAIN INTERNATIONAL RADIOTELEPHONE COMMUNICATIONS

Whereas an agreement has been reached between the appropriate authorities of the Governments of the United States and of Australia for the operation of a radiotelephene circuit between the United States and Australia;

Now, therefore, By virtue of the authority vested in the Board by Executive Order No. 8964,[2] dated December 10, 1941, the Board's Order No. 18,[3] dated August 27, 1942, is hereby amended to read as follows:

It is hereby ordered as follows:

§ 1714.1 *Termination of certain international radiotelephone communications.* From and after the date hereof, (a) non-governmental business radiotelephone calls between the United States and Great Britain shall be permitted subject to the prior approval thereof from the Office of Censorship. No personal radiotelephone calls shall be permitted between the United States and Great Britain.

(b) No non-governmental business or personal radiotelephone call shall be made to or from any foreign point outside of the Western Hemisphere other than Great Britain unless such call is made in the interest of the United States or the United Nations and unless an agency of the United States Government sponsors such call and obtains prior approval therefor from the Office of Censorship: *Provided, however,* That this provision shall not apply to American press calls or radiobroadcast programs, or to such other press calls and radio programs as may be specifically approved by the Office of Censorship.

(c) No calls of any nature over the radiotelephone circuits under the jurisdiction of the United States, no matter where such calls may originate, unless sponsored and approved as provided in paragraph (b) of this section, shall be permitted to, from, or on behalf of, the following thirteen countries: Egypt, Finland, France, Iceland, Iran, Ireland, Latvia, Lithuania, Portugal, Spain, Sweden, Switzerland, and Turkey.

(d) Personal calls other than those prohibited in the foregoing paragraphs may be completed between two points in the Western Hemisphere.

Subject to such further order as the Board may deem appropriate.

Nothing herein shall apply to existing regulations governing the use of cable, telegraph or radiotelegraph communications.

Board of War Communications.

Bituminous Coal Division.

[Docket No. A-1634]

HIGH POINT COAL COMPANY

NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 8 for a change in the price classifications and minimum prices for rail and truck shipments for the coals produced by High Point No. 1 Mine (Mine Index No. 241) of High Point Coal Company, a code member in District No. 8.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on October 20, 1942, at 10:00 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before October 15, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 8 requesting the following changes in price classifications and minimum prices for All Shipments Except Truck and for Truck Shipments, for the coals of the High Point No. 1 Mine, Mine Index No. 241, of High Point Coal Company:

Rail: Size Groups 5 to 8, inclusive, from "B" to "A."
Size Groups 11 to 14, inclusive, from "B" to "A."
Lake: Size Groups 5 and 6, from "B" to "A."
Truck: Size Group 4, from "$2.55" to "$2.60."

Dated: October 2, 1942.

WHEELING TOWNSHIP COAL MINING COMPANY

ORDER APPROVING AND ADOPTING WITH MODIFICATION THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATION OF THE EXAMINER

In the matter of the application of the Wheeling Township Coal Mining Company for permission to accept and retain distributors' discounts on coal purchased by it and resold to the Goodyear Tire and Rubber Company, or any of its affiliates.

This proceeding having been instituted upon a petition filed with the Bituminous Coal Division by The Wheeling Township Coal Mining Company, pursuant to §§ 304.19 (c) and 304.12 (b) (8) of Rules and Regulations for the Registration of Distributors and pursuant to paragraph (h) of the Agreement by Registered Distributor executed by the petitioner, a registered distributor, (Registration No. 9644), seeking permission to accept and retain distributors' discounts on coal purchased and resold by it to the Goodyear Tire and Rubber Company and to any of Goodyear's affiliates;

A hearing having been held before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., on September 18-19, 1941, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The Examiner having filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation in this matter on February 11, 1942, recommending that relief be denied;

The respondent having filed exceptions thereto and supporting brief;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;[1]

Now, therefore, it is ordered, That the exceptions of the petitioner, The Wheeling Township Coal Mining Company, to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation of the Examiner be and they hereby are severally over-ruled except as otherwise indicated in the Findings of Fact, Conclusions of Law, and Opinion of the undersigned filed herewith.

It is further ordered, That the proposed findings of fact, and proposed conclusions of law of the Examiner be and they hereby are modified as indicated in the Findings of Fact, Conclusions of Law, and Opinion of the undersigned filed herewith.

It is further ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner, as modified, be and they hereby are approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That the relief prayed for by the petitioner be, and the same hereby is, denied.

Dated: October 2, 1942.

DISTRICT BOARD 4

ORDER GRANTING MOTION, ETC.

In the matter of the petition of Bituminous Coal Producers Board for District No. 4 for classification and pricing of gob pile or reject coal for both rail and truck shipment.

In the matter of the petition of Bituminous Coal Producers Board for District No. 4 for the establishment of a price instruction to be added to the schedule of effective minimum prices for District No. 4 for all shipments except truck which would permit coals passing through a preparation plant not constituting a part of the facilities of the mine at which said coals were produced to take the same prices for the various kinds, qualities, and sizes of coal as if said preparation plant were located at the mine where said coal was actually produced.

Order granting motion to file petition amending original petition and postponing date of hearing in Docket No. A-1508 only, and order redesignating examiner.

On June 16, 1942, an original petition was filed in Docket No. A-1508 by District Board No. 4 requesting that the Schedules of Effective Minimum Prices for District No. 4 for All Shipments Except Truck and for Truck Shipments be amended, as follows:

That there be added on Page 3 of Price Schedule No. 1 of District No. 4, covering all shipments except truck, under the heading "(B) Price Exceptions", a paragraph numbered 5 and that there be added on Page 3 of Price Schedule No. 1 of District No. 4 for truck shipments, under the heading "(B) Price Exceptions", a paragraph numbered 3, to read as follows:

> Low grade reject or bone coal recovered from gob piles, bins or picking tables, if crushed to not more than 2", shall take the price of the size to which crushed; otherwise the price of such recovered reject coal shall be $1.75 per net ton f. o. b. the mine. The invoices for all such coal having a size over 2" shall carry the designation "Reject" instead of a size group number and shall show the exact size of the coal as loaded.

On June 29, 1942, a notice of and order for hearing was issued by the Bituminous Coal Division in which it was ordered that a hearing be held in Docket No. A-1508 on August 5, 1942, at a hearing room of the Division, Washington, D. C. The dates on which these hearings were scheduled were subsequently postponed to October 5, 1942.

On September 23, 1942, District Board No. 4 filed a Motion For Leave to File Amended Petition in Docket No. A-1508 requesting that the Schedules of Effective Minimum Prices for District No. 4 for All Shipments Except Truck and for Truck Shipments be amended, as follows:

(a) That there be added on Page 3 of Price Schedule No. 1 of District No. 4, covering all shipments except truck, under the heading "(B) Price Exceptions", a paragraph numbered 5 to read as follows:

> Low grade reject or bone coal recovered from gob piles, bins or picking tables, if crushed to not more than 2", shall take the price of the size to which crushed when shipped into Market Areas 13, 14 and 17.

(b) That there be added on Page 3 of Price Schedule No. 1 of District No. 4, for truck shipments, under the heading "(B) Price Exceptions", a paragraph numbered 3 to read as follows:

> The price of low grade reject or bone coal recovered from gob piles, bins or picking tables, which has not been crushed, shall, when sold for truck delivery from rail mines to Market Areas 13, 14 and 17, be $1.75 per net ton f. o. b. the mine, gob pile or bin. The invoices for such coal shall carry the designation "Reject" instead of size group number.

On September 28, 1942, District Board No. 4 filed an Application for Continuance, requesting a further postponement of the hearing in Docket No. A-1508 only, for at least three weeks, alleging that it was necessary to permit its principal witness in this docket to appear at the hearing.

It appears that good cause has been shown to postpone this hearing to a later date. However, in view of the previous postponement of this matter, it is expected that District Board No. 4 will be prepared to proceed with its case on the date scheduled herein for the hearing.

It further appears that the Motion for Leave to File Amended Petition in Docket No. A-1508 has been duly served upon all interested persons and that there has been no objection to the granting of this motion.

It is therefore ordered, That the hearing in Docket No. A-1508 be, and it hereby is, postponed until October 19, 1942, and that the hearing in Docket No. A-1504, Part II, scheduled for hearing by order dated July 31, 1942, be held on October 5, 1942, as heretofore scheduled.

It is further ordered, That the Motion for Leave to File Amended Petition of District Board No. 4 in Docket No. A-1508 be, and it hereby is, granted.

It is further ordered, That Charles S. Mitchell or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in this matter vice Examiner Floyd McGown.

It is further ordered, That the time within which petitions of intervention may be filed is extended to October 14, 1942.

It is further ordered, That in all other respects the orders for hearing entered herein shall remain in full force and effect.

Dated: October 3, 1942.

DEPARTMENT OF LABOR.

Division of Public Contracts.

GLOVES AND MITTENS INDUSTRY

NOTICE OF OPPORTUNITY TO SHOW CAUSE

Determination of the prevailing minimum wage in the gloves and mittens industry.

Whereas, the Secretary of Labor, pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. Supp. III 35), issued on July 28, 1937, a determination that the prevailing minimum wage for employees engaged in the performance of contracts with agencies of the United State Government, subject to the provisions of that Act, for the manufacture or supply of men's work gloves, including the manufacture of leather work gloves, leather-palm cotton gloves, all canvas or canton flannel work gloves, knit gloves, woolen knit lined gloves, and officers' white cotton gloves, is 35 cents per hour, and that there shall be a tolerance of not to exceed 10 percent of the workers in any one establishment for workers who are in fact learners, handicapped or superannuated workers subject to the conditions that they be paid not less than 25 cents per hour and not less than piece rates paid to other workers in the same establishment; and

Whereas, the Secretary of Labor issued regulations (ti. 41, c. 2, Code of Federal Regulations, § 201.1102), effective September 15, 1942 permitting employment of handicapped workers at subminimum rates under the Public Contracts Act in accordance with the regulations of the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938, and amended all prevailing minimum wage determinations, including the Work Glove Wage Determination, to provide that handicapped or superannuated workers may not be employed at subminimum rates under any other conditions in the performance of any contract bids for which are submitted or negotiations commenced by the contracting agency on or after September 15, 1942; and

Whereas, the Administrator of the Wage and Hour Division, pursuant to the Fair Labor Standards Act of 1938, on August 22, 1942, issued a wage order effective September 21, 1942 (7 F.R. 6713), providing that wages at a rate of not less than 40 cents per hour shall be paid by every employer to each of his employees who is engaged in commerce or in the production of goods for commerce in the Gloves and Mittens Industry and defining the industry to mean:

The production of gloves and mittens from any material or combination of materials, except athletic gloves and mittens: *Provided, however,* That the definition shall not include any product the manufacture of which is covered by an order of the Administrator defining an industry, and approving the recommendation of an industry committee or appointing an industry committee for such industry, issued prior to the signing of Administrative Order No. 137 appointing Industry Committee No. 40 for the Gloves and Mittens Industry, except the products included in the wage orders issued for the "Work Gloves and Mittens" and the "Gloves and Mittens Other Than Work Gloves and Mittens" Divisions of the Apparel Industry;

and

Whereas, it appears that substantially all employees in the Gloves and Mittens Industry, as defined in the wage order of the Administrator, are engaged in commerce or the production of goods for commerce as that term is defined in the Fair Labor Standards Act of 1938, and that the wage order of the Administrator will, therefore, have the effect of establishing not less than 40 cents per hour as the prevailing minimum wage in the Gloves and Mittens Industry;

and

Whereas, it appears desirable, for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to substitute for the present tolerance for learners a provision that apprentices and learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division, issued under the Fair Labor Standards Act of 1938 (Reg. Title 29, ch. V, Parts 521 and 522).

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before October 17, 1942, why the Work Glove Wage Determination of the Secretary should not be amended by:

(1) Increasing the prevailing minimum wage from 35 cents an hour to 40 cents an hour;

(2) Adopting the following definition of the industry to conform to the definition of the Gloves and Mittens Industry in the wage order of the Administrator issued under the Fair Labor Standards Act of 1938:

> The Gloves and Mittens Industry is that industry which manufactures gloves and mittens (except athletic gloves and mittens) from any material (other than rubber) or from any combination of materials (other than rubber);

(3) Changing the title of the industry in the determination from the "Work Glove Industry" to the "Gloves and Mittens Industry;" and

(4) Substituting for the present tolerance for learners a provision that apprentices and learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division.

All objections, protests, or any statements in opposition to or in support of the proposed amendments should be addressed to the Administrator, Division of Public Contracts, Department of Labor, Washington, D. C., and should be filed with the Administrator not later than October 17, 1942.

Dated: October 2, 1942.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6438]

WESTERN UNION TELEGRAPH COMPANY

ORDER FOR HEARING

In the matter of increased rates of The Western Union Telegraph Company for New York Stock Exchange quotation bond and stock ticker services.

At a session of the Federal Communications Commission held at its offices in Washington D. C., on the 29th day of September 1942;

It appearing that The Western Union Telegraph Company has filed with the Commission tariff schedules, to become effective October 5, 1942, stating increased charges for and in connection with New York Stock Exchange quotation service furnished by means of tickers to subscribers located in the United States, including the receipt, transmission, and delivery of New York Stock Exchange quotations by ticker, and discontinuing the rates for such service furnished to subscribers located within the State of New York; said tariff schedules being designated as follows: The Western Union Telegraph Company Tariff F.C.C. No. 198, 5th Revised page 32, 4th Revised page 33, 6th Revised page 34, 7th Revised page 35, 8th Revised page 36, 8th Revised page 37, 3rd Revised page 38, 7th Revised page 39, 12th Revised page 40, 7th Revised page 41, 12th Revised page 42, 8th Revised page 43, 11th Revised page 44.

It further appearing that said tariff schedules state increased charges for telegraph communications in interstate commerce; that the rights of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of said tariff schedules should be suspended pending hearing and decision as to their lawfulness;

It further appearing that the discontinuance of charges for New York Stock Exchange quotations by ticker to subscribers located within the State of New York may result in The Western Union Telegraph Company engaging or participating in interstate communication service without having on file with the Commission schedules of charges as required by the Communications Act of 1934, as amended, and the Rules and Regulations promulgated by the Commission pursuant thereto;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the increased charges contained in said tariff schedules, and of the discontinuance of the filing with the Commission of the charges for New York Stock Exchange quotations by ticker furnished to subscribers located within the State of New York.

It is further ordered, That the operation of the increased charges, and of the discontinuance of the filing with the Commission of charges applicable to subscribers located within the State of New York, as provided in said tariff schedules, be suspended; that the use of such increased charges, and the discontinuance of the filing with the Commission of charges for New York Stock Exchange quotations by ticker furnished to subscribers within the State of New York, be deferred for a period of three months beyond the time when they would otherwise go into effect, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in such charges or the charges sought to be altered, unless otherwise authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby, instituted into the lawfulness of the rates, charges, classifications, regulations, practices and services of The Western Union Telegraph Company as set forth in its tariffs F.C.C. Nos. 185, 198, 208, and 216; and into the matter of whether charges for New York Stock Exchange quotations by ticker furnished to subscribers located within the State of New York should be filed with this Commission:

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period, and said charges shall go into effect, The Western Union Telegraph Company and all other carriers participating in service provided under the tariff provisions suspended herein, shall, until further order of the Commission, each keep accurate account of all amounts charged, collected or received by each of them by reason of any increase in charges effected thereby; in which accounts each such carrier shall specify by whom and in whose behalf such amounts are paid;

It is further ordered, That The Western Union Telegraph Company and each participating carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing February 10, 1943, showing the amounts accounted for as aforesaid, during the previous calendar month;

It is further ordered, That a copy of this order shall be filed in the office of the Federal Communications Commission with said tariff schedules herein suspended in part; that copies hereof be served upon the carrier parties to such tariff schedules; and that said carrier parties be, and they are hereby, each made a party respondent to this proceeding;

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing at 10 a. m. on the 5th day of November, 1942, at the offices of the Federal Communications Commission in Washington, D. C.

By the Commission.

[Docket No. 6439]

CONTINENTAL TELEGRAPH COMPANY

ORDER FOR HEARING

In the matter of Continental Telegraph Company, discontinuance of "Tourate" messages.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of September, 1942;

It appearing that there have been filed with the Commission First Revised Page 2 and First Revised Page 30 to Continental Telegraph Company Tariff F.C.C. No. 3, effective October 6, 1942, which provides for the discontinuance of a classification of telegraph communications described as "Tourate";

It further appearing that said discontinuance of the "Tourate" classification makes increases in rates and charges and states regulations and practices effecting such increases in rates and charges for the transmission of telegraph communications in interstate commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commisssion that the effective date of said tariff provisions should be postponed pending hearing and decision thereon;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the rates, charges, regulations and practices contained in said First Revised Page 2 and First Revised Page 30 to Continental Telegraph Company Tariff F.C.C. No. 3, insofar as they relate to the discontinuance of the classification of "Tourate" communications;

It is further ordered, That the operation of said tariff schedules, First Revised page 2 and First Revised page 30 to Continental Telegraph Company Tariff F. C. C. No. 3, insofar as they will result in an increase of rates and charges for delivery of interstate telegraph communications classified as "Tourate" communications, be suspended; and that the use of the rates, charges, regulations and practices therein stated as applicable to such "Tourate" communications be deferred until January 6, 1943, unless otherwise ordered by the Commission; and during said period of suspension no change shall be made in such rates, charges, regulations and practices or in the rates, charges, regulations and practices sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby, instituted into the lawfulness of the rates, charges, classifications, regulations, practices and services of Continental Telegraph Company for and in connection with "Tourate" communications;

It is further ordered, That in the event a decision as to the lawfulness of the rates, charges, classifications, regulations, practices and services herein suspended has not been made during the suspension period, and increased charges shall be made effective with respect to "Tourate" communications, Continental Telegraph Company, and all other carriers participating in service provided under the tariff provisions suspended herein, shall, until further order of the Commission each keep accurate account of all amounts received by each of them by reason of any increase in charges effected thereby; in which account each such carrier shall specify by whom and in whose behalf such amounts are paid;

It is further ordered, That Continental Telegraph Company, and each participating carrier, shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing February 10, 1943, showing the amounts received and accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order shall be filed in the office of the Federal Communications Commission with said tariff herein suspended in part; that copies hereof be served upon the carrier parties to such tariff; and that said carrier parties be, and they are hereby, each made a party respondent to this proceeding;

It is further ordered, That this matter be, and the same is, hereby consolidated with the proceedings heretofore commenced herein by our order of September 15, 1942, in Docket No. 6429, and this matter is hereby assigned for hearing at 10 o'clock a. m. on the 15th day of October 1942, at the office of the Federal Communications Commission in Washington, D. C.

[Vesting Order 191]

2,396 ADDITIONAL SHARES OF THE CAPITAL STOCK OF BUFFALO ELECTRO-CHEMICAL COMPANY, INC.

Under the authority of the Trading with the enemy Act, as amended, and Executive Order No. 9095, as amended,[1] and pursuant to law, the undersigned, after investigation, finding:

(a) That the property described as follows:

> 1,596 shares of no par value common capital stock of Buffalo Electro-Chemical Company, Inc., a New York corporation, Buffalo, New York, which is a business enterprise within the United States, which shares are owned by Holding A. G. Fuer Merck-Unternehmungen (also known as Merck Holding Co.), which latter corporation is listed on The Proclaimed List of Certain Blocked Nationals, and the last known address of which was represented to the undersigned as being Bahnhof-Strasse 23, Zug, Switzerland,

is property of, and represents an interest in said business enterprise which is, a national of a foreign country (Switzerland), and having determined, and certified to the Secretary of the Treasury, that it is necessary in the national interest to vest such property;

(b) That the property described as follows:

> 800 shares of the same capital stock, which shares are owned by Margot Francke, a Swiss citizen, whose last known mailing address is c/o C. A. Buerk, President of Buffalo Electro-Chemical Company, Inc., Buffalo, New York, and who is holding such shares for the benefit of Ruth von Falkenstein, a German citizen, whose address is presently unknown,

is property of, and represents an interest in said business enterprise which is, a national of a designated enemy country (Germany);

which 1,596 shares hereinbefore described in subparagraph (a), and the 800 shares hereinbefore described in subparagraph (b), make a total of 2,396 shares which constitute a substantial part, namely, 22.608%, of all outstanding shares of such corporation, and which 2,396 shares are in addition to the 3,691 shares (which constitute 34.827% of all outstanding shares and which when added to the 2,396 shares vested by this order make an aggregate sum of 6,087 shares, which sum constitutes 57.435% of all outstanding shares) of the same capital stock which were vested by the undersigned pursuant to Vesting Order Number 42 of July 1, 1942; and

(c) That the property described as follows:

> All unpaid dividends heretofore declared on the 800 shares hereinbefore described in subparagraph (b),

OFFICE OF PRICE ADMINISTRATION.

[Amendment 4 to Administrative Notice 1[1]]

J. I. Case Company

ORDER GRANTING EXCEPTION

During the fall and winter of 1941–1942, when the Office of Price Administration requested manufacturers of a wide variety of machines and parts not to increase prices, such manufacturers were advised that exceptions would be considered where maintenance of requested prices caused undue hardship. A certain number of exceptions have been granted to manufacturers filing applications supported by proper data. A list of these exceptions is contained in Administrative Notice No. 1 and three amendments thereto.[1]

By inadvertence J. I. Case Company, Racine, Wisconsin was not included in the Administrative Notice and the amendments thereto.

Pursuant to authority vested in the Price Administrator by the Emergency Price Control Act of 1942: *It is hereby ordered*, That:

An exception be granted to J. I. Case Company, Racine, Wisconsin permitting that company to sell, offer to sell and deliver its industrial tractors, engine units, and repair parts therefor at the prices it had in effect on November 1, 1941.

The Price Administrator hereby confirms the granting of this exception.

Issued this 2d day of October 1942.

LEON HENDERSON,
Administrator.

[Order 23 Under Maximum Price Regulation 122—Solid Fuels Delivered from Facilities Other Than Producing Facilities—Dealers—Docket 3122-135]

Charles Gasperi

ORDER GRANTING ADJUSTMENT

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, *It is hereby ordered:*

(a) Charles Gasperi of Novinger, Missouri, may sell and deliver, and the publicly operated schools of Adair County, Missouri, including state operated colleges in such county, may buy and receive lump and nut coal at prices no higher than those set forth in paragraph (b) below;

(b) The maximum prices for such sales above stated shall consist of the present applicable maximum prices as established pursuant to § 1340.261 of Maximum Price Regulation No. 122 plus the following items and amounts of increased cost to said Charles Gasperi:

Coal	Mine cost increase	Truck rate increase	Maximum total increase
Lump	$0.30	$0.10	$0.40
Nut	.25	.10	.35

Provided, That such items and amounts of increased cost to said Charles Gasperi may be added only if and solely to the extent that such cost increases have been incurred by said Charles Gasperi on coal sold to the publicly operated schools of Adair County, Missouri, for consumption during the 1942–43 heating season;

(c) This Order No. 23 may be revoked or amended by the Price Administrator at any time;

(d) Unless the context otherwise requires, the definitions set forth in § 1340.258 of Maximum Price Regulation No. 122 shall apply to the terms used herein;

(e) This Order No. 23 shall become effective October 5, 1942.

Issued this 3d day of October 1942.

LEON HENDERSON,
Administrator.

[File Nos. 70-549, 70-551, 70-563, 70-602, 70-604]

Associated Electric Co., et al.

NOTICE OF FILING, ETC.

In the matter of Associated Electric Company, File No. 70–549; NY PA NJ Utilities Company, File No. 70–551; Pennsylvania Electric Company, Keystone Public Service Company, Penelec Water Company and Associated Electric Company, File No. 70–563; Pennsylvania Electric Company, Bradford Electric Company and Associated Electric Company, File No. 70–602; and NY PA NJ Utilities Company, File No. 70–604.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 1st day of October 1942.

The Commission, on June 17, 1942, having issued its Notice of Filing and Order for Hearing and Order for Consolidation, In the Matters of Associated Electric Company, File No. 70–549, NY PA NJ Utilities Company, File No. 70–551, and Pennsylvania Electric Company, Keystone Public Service Company, Penelec Water Company, and Associated Electric Company, File No. 70–563, in regard to certain applications and declarations concerning a proposal of exchange between NY PA NJ Utilities Company and Associated Electric Company, (both registered holding companies and subsidiaries of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company) of the former's holdings in Keystone Public Service Company, for certain of its securities now held by Associated Electric Company; and also in regard to the acquisition by Associated Electric Company, for cash, from Keystone Public Service Company, of the investment portfolio held by the latter, the donation by Associated Electric Company to Keystone Public Service Company of certain preferred shares of the latter company, the redemption by Keystone Public Service Company of all its preferred shares, the acquisition by Pennsylvania Electric Company of the assets and the assumption of the liabilities of Keystone Public Service Company, for cash, the dissolution of Keystone Public Service Company, and the distribution of the cash proceeds held by it to Associated Electric Company, the issue at private sale by Pennsylvania Electric Company of a promissory note to obtain cash necessary to consummate the foregoing transactions, and the acquisition by Pennsylvania Electric Company of a portion of the facilities of Penelec Water Company (a subsidiary of Associated Electric Company); and

The Commission having held hearings on the above consolidated matters and the record therein having been closed on August 13, 1942; and

An amendment to the declarations and applications (File No. 70–563) having been filed on September 15, 1942, whereby the following changes in the declarations and applications as formerly filed are proposed:

1. In lieu of the proposals whereby Associated Electric Company would acquire the investment portfolio of Keystone Public Service Company for cash, and Pennsylvania Electric Company would acquire the remaining assets of Keystone Public Service Company for cash, the amended applications and declarations now propose that Pennsylvania Electric Company will acquire all of the assets of Keystone Public Service Company, including its investment portfolio (and assume its liabilities), in exchange for 20,898 shares of the common stock of Pennsylvania Electric Company at its par value of $20 per share. Keystone Public Service Company then proposes to dissolve and transfer to Associated Electric Company the 20,898 shares of common stock of Pennsylvania Electric Company obtained by it, this to be in lieu of the transfer of the net cash proceeds as contemplated under the original filing.

2. Pennsylvania Electric Company proposes to acquire that portion of the property of Penelec Water Company used to supply the Seward Generating Plant of Pennsylvania Electric Company, issuing in consideration therefor 15,362 shares of the common stock of Pennsylvania Electric Company at its par value of $20 per share; the considerations stated to be based on the estimated original cost of the property to be acquired, less provisions for retirements applicable thereto. The issuance of the shares in payment of the purchased facilities is to be in lieu of the cash consideration designated under the original filing.

3. It is further proposed that the 15,362 shares thus obtained by Penelec Water Company will be transferred to Associated Electric Company at its par value of $20 per share, and the open account owed by Penelec Water Company to Associated Electric Company will be reduced by such value of shares transferred, or the book value of assets sold, whichever is greater; and

Pennsylvania Electric Company, Bradford Electric Company, a subsidiary of NY PA NJ Utilities Company, and Associated Electric Company, having filed, on September 18, 1942, applications and declarations, in File No. 70–602, and NY PA NJ Utilities Company, having filed, on September 23, 1942, applications and declarations in File No. 70–604, regarding transactions supplementary to the transactions which are the subject of the declarations and applications filed in File Nos. 70–549, 70–551 and 70–563, as amended, such supplementary transactions consisting of the following:

(a) Pennsylvania Electric Company proposes to acquire from Associated Electric Company $875,500 principal amount of NY PA NJ Utilities Company 5% Debentures due January 15, 1952 (at the purported market price of 85% of principal amount), and $28,500 principal amount of the Mohawk Valley Company 6% Consolidating Refunding Bonds due 1981 (at the purported market price of 95% of principal amount), issuing in consideration therefor 38,562 shares of its common stock at its par value of $20 per share, plus accrued interest in cash;

(b) Pennsylvania Electric Company proposes to acquire from NY PA NJ Utilities Company all of the 3,000 shares of common stock of Bradford Electric Company, delivering in consideration therefor $1,731,500 principal amount of NY PA NJ Utilities Company 5% Debentures due January 15, 1952, and $28,500 principal amount of the Mohawk Valley Company 6% Consolidating Refunding Bonds due 1981, adjustment to be made in cash for accrued interest and for the undistributed earnings of Bradford Electric Company from May 1, 1942, to date of closing;

(c) Pennsylvania Electric Company and Bradford Electric Company propose to enter into an agreement with The Equitable Assurance Society of the United States providing for a change in the terms and conditions of the present loan agreement between Bradford Electric Company and The Equitable Life Assurance Society of the United States, and providing for the consent by the latter to the acquisition by Pennsylvania Electric Company of all assets and the assumption of all liabilities of Bradford Electric Company, including the assumption by Pennsylvania Electric Company of Bradford Electric Company's obligation under said loan agreement, as modified, and a note of Bradford Electric Company to The Equitable Life Assurance Society of the United States, dated November 30, 1939;

(d) Pennsylvania Electric Company proposes to acquire the assets and assume all liabilities (including the liability under the note payable to The Equitable Life Assurance Society of the United States) of Bradford Electric Company, transferring to Bradford Electric Company, in consideration therefor, all of the outstanding capital stock of the Bradford Electric Company. It is proposed that Bradford Electric Company will thereupon be dissolved.

The applicants and declarants consider sections 6 (a), 6 (b), 9 (a), 9 (b) (1), 10, 12 (b), 12 (c) and 12 (f) of the Act and Rules U-42, U-43, U-45 and U-50 of the General Rules and Regulations as being applicable to the proposed transactions contemplated by the amendment to File No. 70–563.

The applicants and declarants consider sections 6 (a), 6 (b), 9 (a), 9 (b) (1), 12 (c), 12 (d) and 12 (f) of the Act and Rules U-42, U-43, and U-44 of the General Rules and Regulations as being applicable to the proposed transactions contemplated in File Nos. 70–602 and 70–604.

It appearing that it is appropriate and in the public interest and in the interest of investors and consumers that a hearing be held with respect to the said applications and declarations filed with this Commission as an amendment to File No. 70–563, and that said declarations shall not become effective nor said applications be granted except pursuant to further order of the Commission, and that at said hearing there be considered, among other things, the various matters hereinafter set forth; it further appearing that the consolidated record in File Nos. 70–549, 70–551, and 70–563 having been closed, and that, as a result of the filing of the amendment to File No. 70–563, that the record in that consolidated proceeding should be reopened;

It further appearing that the foregoing matters filed under File Nos. 70–602 and 70–604 are related to, and that the evidence offered in respect to each of such matters may have a bearing upon, the matters consolidated by the order of the Commission dated June 17, 1942, and that substantial savings of time and expense will result if the matters are further consolidated;

It is hereby ordered, That the consolidated records in File Nos. 70–549, 70–551, and 70–563 be and hereby are reopened;

It is further ordered, That such proceedings (File Nos. 70–549, 70–551 and 70–563) be and hereby are consolidated with the applications and declarations filed in File Nos. 70–602 and 70–604.

It is further ordered, That the hearing on said matters so consolidated be held on October 21, 1942, at 10 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declarations shall become effective and such applications shall be granted.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Public Utility Holding Company Act of 1935 and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of the issues presented by the amended applications and declarations of Pennsylvania Electric Company, Keystone Public Service Company, Penelec Water Company and Associated Electric Company, and by the applications and declarations filed by Pennsylvania Electric Company, Bradford Electric Company and Associated Electric Company, and by the applications and declarations filed by NY PA NJ Utilities Company, nor the scope of the issues presented in the Commission's order dated June 17, 1942, particular attention will be directed at said hearing to the following matters and considerations, in addition to those specified heretofore:

10. Whether the consideration to be paid by Pennsylvania Electric Company for the assets of Keystone Public Service Company (including the investment of Keystone Public Service Company in Citizens Transit Company and NY PA NJ Utilities Company) is reasonable and whether the acquisition of the assets is in the public interest and in the interest of investors in and consumers of Pennsylvania Electric Company;

11. Whether the consideration to be paid by Pennsylvania Electric Company for the portion of the property of Penelec Water Company used to supply to the Seward Generating Plant of Pennsylvania Electric Company is reasonable and whether the acquisition of the assets is in the public interest and in the interest of investors in and consumers of Pennsylvania Electric Company;

12. Whether the consideration to be paid by Pennsylvania Electric Company for the debentures and bonds held by Associated Electric Company is reasonable;

13. Whether the consideration to be paid by Pennsylvania Electric Company for the common stock of Bradford Electric Company is reasonable and whether the acquisition is in the public interest and in the interest of the investors in and consumers of Pennsylvania Electric Company and Bradford Electric Company;

14. Whether the assumption by Pennsylvania Electric Company of the obligation of Bradford Electric Company to The Equitable Assurance Society of the United States is contrary to the public interest or to the interest of the investors in and consumers of Pennsylvania Electric Company and Bradford Electric Company;

15. Whether the consideration to be received by NY PA NJ Utilities Company for the common stock of Bradford Electric Company is reasonable;

16. Whether the acquisition by Pennsylvania Electric Company of Bradford Electric Company will serve the public interest by tending towards the economic and efficient development of an integrated public utility system;

17. Whether terms and conditions are necessary to be imposed upon various transactions which are subjects of the amended declarations and applications (File No. 70–563) and of the declarations and applications at File Nos. 70–602 and 70–604, to insure compliance with the requirements of the Public Utility Holding Company Act of 1935 or any rules, regulations or orders promulgated thereunder.

Notice of such hearing is hereby given to such declarants and applicants and to any other person whose participation in such proceeding may be in the public interest and for the protection of investors or consumers. It is requested that any person desiring to be heard and to be admitted as a party to such proceeding shall file with the Secretary of the Commission on or before October 17, 1942, his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

By the Commission.

FEDERAL WATER AND GAS CORP. AND PEOPLES LIGHT AND POWER CO.

NOTICE OF FILING AND ORDER FOR CONSOLIDATED HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of September 1942.

Notice is hereby given that declarations and applications have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Peoples Light and Power Company and Federal Water and Gas Corporation, both registered holding companies. All interested persons are referred to said document, which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Peoples Light and Power Company proposes to sell, and Federal Water and Gas Corporation proposes to purchase, all of the outstanding 5,000 shares of common stock of Mississippi Public Service Company for $420,000 in cash. Peoples Light and Power Company proposes to apply the proceeds from such sale and other available cash to the reduction of its outstanding Serial Notes payable to a bank.

The applications and declarations recite that section 10, 11 (b) and 12 (d) of the Public Utility Holding Company Act of 1935 are applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declarations shall not become effective nor said applications be granted except pursuant to further order of this Commission; and

It appearing to the Commission that the matters are related and involve common questions of law and fact; that evidence offered in respect to each of said matters may have a bearing on the other matter; and that substantial savings in time, effort and expense will result if the hearings on these matters are consolidated so they may be heard as one matter, and so that evidence adduced in each matter may stand as evidence in the other for all purposes;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on October 27, 1942, at 10:00 A. M. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa. On such day the hearing room clerk will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declarations shall become effective and why such applications shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That the hearings on said matters be, and they hereby are, consolidated. The Commission reserves the right, if at any time it may appear conducive to an orderly and economic disposition of any proceeding or proceedings herein, to order a separate hearing concerning such proceeding or proceedings, to close the record with respect to any of the matters, or to take action on any of the matters prior to the closing of the record in the other matters; and

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a Trial Examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said declarations and applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed acquisition by Federal Water and Gas Corporation will serve the public interest by tending towards the economical and efficient development of an integrated public utility system.

2. Whether the proposed acquisition by Federal Water and Gas Corporation is detrimental to the carrying out of the provisions of section 11 of said Act.

3. Whether the proposed acquisition by Federal Water and Gas Corporation will unduly complicate the capital structure of the holding company system of that company or will be detrimental to the public interest or the interest of investors or consumers or the proper functioning of such holding company system.

4. Whether the consideration to be paid by Federal Water and Gas Corporation and to be received by Peoples Light and Power Company is reasonable and bears a fair relation to the sums invested in and the earning capacity of the utility assets underlying the securities which are the subject matter of the proposed transaction.

5. Whether competitive conditions have been maintained in the negotiations of the proposed transactions.

6. Whether any terms and conditions should be imposed to ensure compliance with the requirements of the Public Utility Holding Company Act of 1935.

7. Whether such sale is a necessary step to effectuate the provisions of section 11 (b) as stated in the application herein.

By the Commission.

ELECTRIC BOND AND SHARE CO., ET AL.

ORDER REINSTATING PARTY RESPONDENT

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of October A. D. 1942.

In the matter of Electric Bond and Share Company, American Power & Light Company, Pacific Power & Light Company, Electric Power & Light Corporation, Utah Power & Light Company, National Power & Light Company, and Ebasco Services Incorporated, Respondents.

The Commission having on May 9, 1940 instituted the above-entitled proceeding under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 against Electric Bond and Share Company and various of its subsidiary companies including American & Foreign Power Company, Inc.; and

The Commission having on June 17, 1940 issued an order dismissing said American & Foreign Power Company, Inc. as a party to the aforementioned proceeding, such dismissal, however, expressly being "without prejudice to any future appropriate proceedings involving said American & Foreign Power Company, Inc. under section 11 (b) (2) or any other section of the Public Utility Holding Company Act of 1935 * * *"; and

It appearing to the Commission appropriate that said American & Foreign Power Company, Inc. should now be reinstated as a party to the aforementioned proceeding:

It is ordered, That American & Foreign Power Company, Inc., be, and it hereby is, made a party to the above-entitled proceeding and that all allegations in the Commission's original Notice of and Order For Hearing in said proceeding dated May 9, 1940 shall be applicable to said American & Foreign Power Company, Inc. to the same extent and with the same force and effect as though fully set forth herein; and

It is further ordered, That notice of the foregoing shall be given to said American & Foreign Power Company, Inc., and to the other respondents and parties in this proceeding by registered mail, and to all other interested persons by publication in the FEDERAL REGISTER.

By the Commission.

CAROLINA POWER & LIGHT COMPANY AND NATIONAL POWER & LIGHT COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2nd day of October, A. D. 1942.

Notice is hereby given that a declaration or application has been filed with this Commission under the Public Utility Holding Company Act of 1935 by Carolina Power & Light Company, a subsidiary of National Power & Light Company, and by National Power & Light Company, a registered holding company. All interested parties are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

National Power & Light Company proposes to surrender for cancellation to Carolina Power & Light Company, as a capital contribution to the latter, 1,442,609 shares of the common stock, without par value, of Carolina Power & Light Company. Upon surrender of said shares for cancellation, as aforesaid, Carolina Power & Light Company proposes to make the following adjustments to its accounts, as of January 1, 1942.

1. To segregate the amount of $42,812,762.81 appearing on its books as Capital Stock Liability, as of January 1, 1942, between preferred stock and common stock, so that the stated value for the $7 Preferred Stock, the $6 Preferred Stock and Common Stock will be $11,223,200, $8,153,300 and $23,643,099.81 respectively. In order that all shares of preferred stock may be stated at the liquidation value of $100 per share, the sum of $206,837 will be transferred to Capital Stock Account, of which amount $202,961.57 will be provided for from Earned Surplus and $3,875.43 by virtue of the cancellation of reacquired capital stock.

2. To cancel 1,573 shares of $7 Preferred Stock now held in the treasury, and 300 shares of $7 Preferred Stock and 1,079 shares of $6 Preferred Stock now held as Reacquired Capital Stock, and to reduce the $7 Preferred Stock Liability in the amount of $187,300 and the $6 Preferred Stock Liability in the amount of $107,900.

3. To transfer from Earned Surplus to a reserve account the sum of $150,000 to provide for a dividend on common stock in said amount declared on March 11, 1942, from earnings in 1941, and the sum of $30,000 to provide for a liability at December 31, 1941, under the escheat Laws of the State of North Carolina.

4. To transfer from Earned Surplus to a Contingency Reserve the sum of $865,831.97, to provide for the disposition of amounts hereafter determined to be charged to Electric Plant Adjustments and any remaining amount of such reserve to be used for other corporate purposes.

5. To reduce Capital Stock Liability in the amount of $13,643,099.81 by crediting such amount to Capital Surplus.

6. To reclassify the sum of $18,648,438 to Electric Plant Adjustments and to credit this amount to Electric Plant in Process of Reclassification.

7. To dispose of the amount of $18,648,438, reclassified to Electric Plant Adjustments, by charging $5,005,338.19 to Earned Surplus and $13,643,099.81 to

Capital Surplus created as set forth in Item 5.

The declarants state that the proposed transactions summarized above are related to the "settlement of an accounting controversy" of Carolina Power & Light Company with the Federal Power Commission regarding the reclassification of the Plant Account of Carolina Power & Light Company as provided by the Federal Power Commission Uniform System of Accounts prescribed for Public Utilities and Licensees.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters, and that said declaration shall not become effective and said application shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules thereunder be held on October 14, 1942, at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the hearing room clerk. All persons desiring to be heard or otherwise wishing to participate in the proceedings, shall notify the Commission in the manner provided by Rule XVIII of the Commission's Rules of Practice, on or before October 9, 1942.

It is further ordered, That without limiting the scope of the issues presented by said declaration or application, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed transactions will be detrimental to the public interest or the interest of investors or consumers, and specifically whether such transactions will be detrimental to the interests of the holders of the senior securities of Carolina Power & Light Company, or of the security holders of National Power & Light Company.

2. Whether the proposed transactions will result in an unfair or inequitable distribution of voting power among holders of the securities of Carolina Power & Light Company.

3. Whether it is necessary to impose any terms or conditions, including terms or conditions relating to future dividend payments, to assure compliance with the requirements of the Act or any rules and regulations promulgated thereunder.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing above ordered. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the entry of this order by mailing a copy thereof by registered mail to Carolina Power & Light Company and to National Power & Light Company, and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

MUTUAL FUNDS, INCORPORATED, ET AL.

ORDER CHANGING PLACE OF HEARING, ETC.

In the matter of proceeding under sections 14 (a) and 40 (a) of the Investment Company Act of 1940, to determine whether the effectiveness of registration statements of Mutual Funds, Incorporated, Files No. 2-4869 and No. 2-4914, under the Securities Act of 1933, as amended, should be suspended and whether the registrations of Mutual Funds, Incorporated, File No. 811-457, and Mutual Funds Trust, File No. 811-463, under the Investment Company Act of 1940, should be suspended or revoked.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 1st day of October, A. D. 1942.

The Commission having heretofore, on September 25, 1942, designated William W. Swift, an officer of the Commission, to take evidence at a hearing to be held in the matter of Mutual Funds Incorporated and Mutual Funds Trust, under section 40 (a) of the Investment Company Act of 1940, at the office of the Securities and Exchange Commission in Philadelphia, Pennsylvania, on October 12, 1942; and

The registrant having subsequently requested that the place of such hearing be changed;

It is ordered, That the foregoing designation of the said William W. Swift is hereby rescinded, and

It is further ordered, That such hearing be convened on October 12, 1942, at ten A. M. Central War Time in Room 527, United States Court House, Kansas City, Missouri, and continue thereafter at such time and place as the officer hereinafter designated may determine; and

It is further ordered, That Henry Fitts, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

Upon completion of the testimony in this matter the officer is directed to close the hearing and make his report to the Commission.

By the Commission.

CENTRAL STATES UTILITIES CORPORATION

ORDER POSTPONING HEARING

In the matter of Central States Utilities Corporation, Central States Power & Light Corporation, and Ogden Corporation.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 3rd day of October, A. D., 1942.

Central States Utilities Corporation, Central States Power & Light Corporation, and Ogden Corporation, the applicants herein, having filed a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 providing or the liquidation and dissolution of Central States Power & Light Corporation and Central States Utilities Corporation;

Amendments having been filed concerning the proposed acquisition by Central States Power & Light Corporation of all of the property and assets of its wholly owned subsidiary, Missouri Electric Power Company, subject to its liabilities, the resale of such property and certain assets (cash excepted) to Sho-Me Power Cooperative, a Missouri cooperative, for a consideration of approximately $2,500,000, and the utilization of the proceeds derived from such sale to make a pro rata partial payment to the holders of Central States Power & Light Corporation's First Mortgage and First Lien Gold Bonds, 5½% Series due January 1, 1953, or under certain circumstances to acquire a portion of such Bonds pursuant to a solicitation for tenders or by purchase on the open market at 100 and accrued interest, as more fully described in the Notice of an Order for Hearing issued by the Commission on September 25, 1942, (Holding Company Act Release No. 3815); and

The Commission having ordered that a hearing in the above entitled matter be held on October 7, 1942 and applicants herein having requested that such hearing be postponed; and

It appearing to the Commission that such request should be granted;

It is ordered, That such hearing be and it hereby is postponed to October 28, 1942 at 10 o'clock in the forenoon.

By the Commission.

COLUMBIA GAS & ELECTRIC CORPORATION, ET AL.

ORDER APRROVING PLAN AND REQUIRING REDISTRIBUTION OF VOTING POWER

In the matter of Columbia Gas & Electric Corporation, Columbia Oil & Gasoline Corporation, and File No. 54-56; Columbia Gas & Electric Corporation, Columbia Oil & Gasoline Corporation, Panhandle Eastern Pipe Line Company, Michigan Gas Transmission Corporation, Indiana Gas Distribution Corporation,

and The Ohio Fuel Gas Company, File Nos. 59-33, 70-263, 70-371, 70-387, 70-430, 70-431.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of October 1942.

Columbia Gas & Electric Corporation, a registered holding company, and Columbia Oil & Gasoline Corporation, its subsidiary, have filed a joint application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a plan to effectuate the provisions of section 11 (b) of the Act with respect to the interest of both companies in Panhandle Eastern Pipe Line Company, a direct subsidiary of Columbia Oil and an indirect subsidiary of Columbia Gas, the elements of which plan are summarized as follows:

1. Columbia Oil will surrender to Panhandle Eastern the 10,000 shares of Class B Preferred stock of Panhandle held by Columbia Oil, against payment to Columbia Oil of the cash sum of $1,000,000 plus accrued dividends to the date of surrender and payment;

2. Columbia Oil will sell to Phillips Petroleum Company for the cash sum of $10,436,826, subject to interest and dividend adjustments, Columbia Oil's holdings of common stock of Panhandle Eastern consisting of 404,326 shares or 50.1% of the common shares outstanding; and will receive from Phillips, as further consideration for such sale, general releases from Missouri-Kansas Pipe Line Company and others in favor of Columbia Oil and Columbia Gas, their respective officers and directors, together with court orders dismissing with prejudice the various actions brought against them or any of them by Missouri-Kansas Pipe Line Company and others;

3. The sales described in paragraphs 1 and 2 above will be exempted from the requirements of competitive bidding imposed by Rule U-50 of the General Rules and Regulations promulgated under the Act;

4. Columbia Oil will be wound up on the following terms and conditions:

(a) Payment in full of all indebtedness, including debentures held by Columbia Gas, together with accrued interest thereon to the date of payment;

(b) Distribution to the common stockholders of Columbia Oil, in full settlement of all their rights and interest in the corporation, of the sum of $1 per share in cash.

(c) Transfer of all remaining assets to Columbia Gas as holder of all the outstanding preferred stock.

5. The plan provides that neither it nor the transactions contemplated therein shall become binding upon Columbia Oil unless and until they are authorized and consented to by affirmative vote of the holders of the requisite amount of common and prefered stock of Columbia Oil at a stockholders' meeting duly called to act thereon, as provided by the laws of the State of Delaware and its certificate of incorporation, as amended.

The Commission issued a Notice of Filing and Order for Hearing on said application and plan, and hearings were held in which all security holders of the applicant and other interested persons were given opportunity to be heard;

The proceeding on the plan was consolidated, for purposes of consideration by the Commission, with a proceeding under section 11 (b) (2) of the Act involving the alleged unfair and inequitable distribution of voting power among the security holders of Columbia Oil, as to which matter hearings had already been held after appropriate notice, in which all security holders of Columbia Oil and other interested persons were given opportunity to be heard;

Briefs were exchanged and filed with respect to the plan and the proceedings under section 11 (b) (2), and the Commission heard oral argument;

The Commission has considered the record with respect to these matters and finds that the proposed 11 (e) plan is fair and equitable to the persons affected thereby and is necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and should be approved subject to the terms and conditions hereinafter enumerated; and finds further, that compliance with paragraphs (b) and (c) of Rule U-50 is not necessary or appropriate within the meaning of paragraph (a) (5) of said rule with respect to the sales of Panhandle Eastern preferred and common stocks contemplated by said plan; and the Commission also finds that the distribution of voting power among the security holders of Columbia Oil is unfair and inequitable, and that it is necessary, to ensure the elimination of such unfair and inequitable distribution of voting power, that the present stock capitalization of Columbia Oil be changed into a single class of common stock unless the above described plan is duly consummated. Accordingly,

It is ordered, On the basis of the foregoing and pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, that the above described plan be, and the same is, hereby approved as filed, subject to the following terms and conditions:

1. That the Commission reserves jurisdiction to pass upon the fees and expenses of Columbia Gas, Columbia Oil and Panhandle Eastern with respect to the plan, as well as any contribution which Panhandle Eastern may be called upon to make as reimbursement to Missouri-Kansas Pipe Line Company for its fees and expenses in connection with litigation with Columbia Oil and Columbia Gas.

2. That the consummation of the plan shall not serve to affect any legal or equitable rights or causes of action which the common stockholders of Columbia Oil may have as individuals and on their own behalf; but this condition shall not have the effect of preserving any legal or equitable rights which such stockholders may have as a class or derivatively on behalf of Columbia Oil.

Further ordered, Pursuant to section 11 (b) (2) of said Act, that Columbia Oil shall distribute voting power among its security holders on a fair and equitable basis by changing its present stock capitalization into a single class of common stock, in an appropriate manner not in contravention of the provisions of said Act or the rules, regulations or orders thereunder: *Provided, however,* That if the above described plan is duly consummated, such action will be deemed to constitute compliance with this order.

More detailed findings and the opinion of the Commission will be issued in due course.

By the Commission.

Secretary.

EXECUTIVE ORDER 9251

SUSPENSION OF EIGHT-HOUR LAW AS TO LABORERS AND MECHANICS EMPLOYED BY THE CIVIL AERONAUTICS ADMINISTRATION IN THE CONSTRUCTION OF PUBLIC WORKS WHICH ARE NECESSARY FOR THE SUCCESSFUL PROSECUTION OF THE WAR

WHEREAS the Civil Aeronautics Administration is engaged in construction of landing areas and air navigation facilities and other public works which are necessary for the successful prosecution of the war; and

WHEREAS the successful prosecution of the war requires the completion of such public works at the earliest practicable date; and

WHEREAS by section 1 of the act of August 1, 1892, 27 Stat. 340, as amended by the act of March 3, 1913, 37 Stat. 726, (U.S.C., Title 40, section 321) the service of all laborers and mechanics employed by the Government upon any public work of the United States is limited to eight hours in any one day, except in case of extraordinary emergency; and

WHEREAS it appears that unless the eight-hour limitation is suspended as to laborers and mechanics employed by the Civil Aeronautics Administration in the construction of the foregoing public works, it will be impossible because of the acute shortage of skilled mechanics and laborers to accomplish the work necessary to the completion of such public works within the time required by the interests of the war effort; and

WHEREAS I find that by reason of the foregoing an extraordinary emergency exists:

NOW, THEREFORE, by virtue of the authority vested in me by section 1 of the said act of August 1, 1892, as amended by the said act of March 3, 1913, and as President of the United States, I hereby suspend, for the duration of the emergencies proclaimed by me on September 8, 1939[1] and May 27, 1941,[2] the abovementioned provisions of law prohibiting more than eight hours labor in any one day of laborers and mechanics employed by the Government of the United States as to all work performed by laborers and mechanics employed by the Civil Aeronautics Administration and engaged in the construction of such landing areas, air navigation facilities, and other public works as the Administrator of Civil Aeronautics may from time to time specify as requiring, in the interest of the war effort, work in excess of eight hours per day: *Provided*, That the wages of all laborers and mechanics employed by the Government upon projects so specified by the Administrator of Civil Aeronautics shall be computed on a basic day rate of eight hours of work with overtime rates to be paid at time and one-half the basic rate of pay for all hours of work in excess of eight hours in any one day.

amends the Civil Air Regulations as follows:

Effective September 30, 1942, Part 04 of the Civil Air Regulations is amended as follows:

By amending § 04.630 to read as follows:

§ 04.630 *General.* Each engine shall have an independent oil supply. The oil capacity of the system shall be at least 1 gallon for every 25 gallons of fuel but shall not be less than 1 gallon for each 75 maximum (except take-off) rated horsepower of the engine or engines. A special ruling concerning the capacity will be made by the Administrator when oil may be transferred between engines in flight or when a suitable reserve is provided. The suitability of the lubrication system shall be demonstrated in flight tests in which engine temperature measurements are obtained. The system shall provide the engine with an ample quantity of oil at a temperature suitable for satisfactory engine operation.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[General Docket No. 21]

PARTS 321 TO 340, INCLUSIVE, 342 AND 343—MINIMUM PRICE SCHEDULE, DISTRICTS NOS. 1 TO 20, INCLUSIVE, 22 AND 23

ORDER OF CLARIFICATION, ETC.

Order of clarification in the matter of determining the extent of change, if any, in excess of two cents per ton in the weighted average of the total costs of any of the minimum price areas; and of revising the effective minimum prices as may be required by reason of any such change in costs.

On August 28, 1942, 7 F.R. 6943, there was issued an order in this proceeding providing for certain increases in the minimum prices effective October 1, 1942. In the case of all shipments except by truck or wagon the increases varied depending upon the market area destination. With respect to shipments via the Great Lakes it was explained in the accompanying Findings of Fact, Conclusions of Law, and Opinion that all coal shipped via the Great Lakes (except bunker fuel) would take the per ton increase prescribed for the market area to which the unloading (from the vessel) docks were physically contiguous. In the August 28, 1942 Order no special mention of this fact was made although increases on shipments via the Great Lakes were adequately provided for. Because of the failure to specifically state in the Order the method by which these increased prices were to be ascertained, it appears that some confusion has arisen. The Division has also received inquiries concerning the increase applicable to river, ex-river, and tidewater shipments. In order to clarify the method by which increases on shipments via the lakes, river, ex-river, and tidewater can be ascertained, I deem it advisable to issue this clarifying order.

Now, therefore, it is ordered, That §§ 321.1 (a), 322.1 (a), 323.1 (a), 324.1 (a), 325.1 (a), 326.1 (a), 327.1 (a), 328.1 (a), 329.1 (a), 330.8 (a), 331.1 (a), 332.1 (a), 333.1 (a), 333.21 (a), 334.1 (a), 335.1 (a), 336.1, 337.1, 338.1, 339.1, 340.1, 342.1, and 343.1 are amended by providing that for the purpose of ascertaining the increase in the minimum prices applicable to coal shipped via the Great Lakes (except bunker fuel) the per ton increase prescribed for the market area to which the unloading (from the vessel) docks are physically contiguous shall govern.

It is further ordered, That §§ 321.1 (a), 322.1 (a), 323.1 (a), 324.1 (a), 325.1 (a), 326.1 (a), 327.1 (a), 328.1 (a), 329.1 (a), 330.8 (a), 331.1 (a), 332.1 (a), 331.1 (a), 333.21 (a), 334.1 (a), 335.1 (a), 336. 1, 337.1, 338.1, 339.1, 340.1, 342.1, and 343.1 are amended by providing that for the purpose of ascertaining the increase in the minimum prices applicable to coal shipped via river, ex-river, and tidewater, the per ton increase prescribed for the market area in which the ultimate destination to which the coal is shipped is located shall govern.

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 2 for the establishment of price classifications and minimum prices for the coals of the Miller #3 Mine (Mine Index No. 2548) of John Miller (Miller Coal Co.)

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Miller #3 Mine (Mine Index No. 2548) of John Miller (Miller Coal Co.); and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 322.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 322.9 (*Special prices*—(c) *Railroad fuel*) is amended by adding thereto Supplement R–II, and § 322.23 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: September 26, 1942.

DISTRICT NO. 8—KENTUCKY CARDINAL COAL CORP.

Findings of fact, conclusions of law memorandum opinion and order in the matter of petition of Bituminous Coal Producers Board for District No. 8 for change in classifications of size group 10 coals produced by Kentucky Cardinal Coal Corporation, code member in District No. 8 for shipment to all markets.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division (the "Division") on June 1, 1942, by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 (the "Act"). The petitioner requested a change in the price classifications and minimum prices for all shipments except truck for coals in Size Group 10, from Classification "C" to Classification "A," of the Kentucky Cardinal Coal Corporation, a code member in District 8, operating the Cardinal No. 1 Mine, Mine Index No. 93, in Harlan County, Kentucky.

Pursuant to appropriate orders and after notice to interested persons, a hearing in this matter was held on July 21, 1942, before W. A. Cuff, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C.

Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. District Board No. 8 appeared and appearance was entered by the Consumers' Counsel. The preparation and the filing of a report by the Examiner was waived by all parties and the record was thereupon submitted to the undersigned.

The uncontroverted testimony shows that the Size Group 10 coals produced by Kentucky Cardinal Corporation at its Cardinal No. 1 Mine, operating in Harlan Seam, are 1⅛" x ⅜" and 1" x ⅜" in size and are prepared through a wet washer at the mine. These coals although of relatively high extraneous moisture, are low in ash. Upon the market, Cardinal No. 1 Mine—Size Group 10 coals compete principally for domestic stoker business with similarly sized coals produced from A grade Harlan No. 5 coals represented by Crummies No. 2 and 3 Mines (Mine Index No. 145) of Crummies Creek Coal Company and No. 30 Mine (Mine Index No. 49) and No. 31 Mine (Mine Index No. 50) of the Black Mountain Coal Corporation. In such market,[1] low ash content of coal is a factor of great value, while high moisture content, especially when moisture is extraneous and substantially reduced prior to the weighing of the coal in cars, is of less importance.

It was testified that because of its extensive production and distribution, the Kentucky Cardinal Coal Corporation is in an advantageous position to displace tonnage of its competitors upon a minimum price market. Therefore it was thought to be important that the minimum prices of its Size Group 10 coals be established upon a parity with the minimum prices for coals of comparable market value.

The proposal of the district board to reclassify the Size Group 10 coals of the Cardinal No. 1 Mine on the basis of A grade Harlan No. 5 Seam coal represents a reversal of its proposal in General Docket No. 15 when it was requested that the Cardinal No. 1 Mine stoker coal be priced 10 cents per ton below the highest grade Harlan No. 5 Seam coals. However, the relationship between such coals has been one constantly under consideration.

In the market the Cardinal No. 1 Mine stoker coal is said to have commanded higher prices than most Harlan Seam stoker coals is said to have commanded Darby Seam coals.

On May 1, 1942, Kentucky Cardinal Coal Corporation renewed its earlier request that the minimum prices for its Size Group 10 coals be increased 10 cents per ton so as to be priced the same as A grade Harlan No. 5 Seam coals. Acting on this renewed request, an analysis of the coal has been made. This analysis showed that coals produced at the Cardinal No. 1 Mine are to be of the same high quality as the Harlan No. 5 Seam coals as represented by the Crummies No. 2 and No. 3 Mines, Mine Index No. 145, of the Crummies Creek Coal Company and the No. 30 Mine, Mine Index No. 49, and No. 31 Mine, Mine Index No. 50 of The Black Mountain Corporation. The variations in the B. t. u.'s as between three analyses made of the coals of three of the aforesaid mines are only such variations that exist normally in the same coals sampled at different times.

---

[1] The coals have been sold principally in Market Areas 13, 15, 16, 17, 18, 19, 21, 23, 24, 28, 32, 101, 102, 108, 109 and 125.

It was testified that the sale of stoker coals produced from the mines of District No. 8 has not been prejudiced by what is thought to be an improper classification of the Cardinal No. 1 Mine Size Group 10 coal, and that these mines have not, therefore, deprived any other producer in the district of any market opportunities for, commencing with October 1, 1941, all of these coals have sold at prices above the minimum. However, the district board feels that it is required to request and the Division to establish minimum prices for coals which reflect their relative market values. If marketing conditions less favorable than those now existing were to return, the Cardinal No. 1 Mine with its present classification might enjoy a position of preference whereby it could sell its coal at prices out of relation to prices representing their true market values relative to the coals in the district and that, therefore, because of the analysis and the market record of the coal relating to price that the highest classification for stoker coals, or classification "A" must be applied to these coals in order to truly and properly reflect their relative market values and to comply with the provisions of the Act.

The record shows further that the coals produced at Cardinal No. 1 Mine and coals produced from other A classification mines producing in the Harlan No. 5 Seam are equally acceptable and that the burning characteristics of each of them are such as they can be used with approximately the same results to the consumer, and that the ash content of these coals and the fusing points thereof are factors taken into consideration by the board in proposing an "A" classification for the coals of Cardinal No. 1 Mine.

Though I have concluded on the basis of this record that the minimum price classification for the Size Group 10 coals produced at the Cardinal No. 1 Mine of the Kentucky Cardinal Coal Corporation should be changed from "C" to "A" for shipment by rail to all destinations, certain observations seem to be necessary. Increases in minimum prices which have been in existence for almost two years are to be approved with extreme caution. This is particularly so because increases in the minima effect generally increases in the maxima (established in Maximum Price Regulation No. 120). For example, in this very instance while the increase in the minimum price is only 10 cents per ton, the increase in the maximum effected by the reclassification from "C" to "A" is 35 cents per ton. I do not mean that increases in the minima will be denied because to grant it would effect an increase in the maxima; but I do mean that the existing minima will be presumed to be correct and parties requesting increases thereof will be expected to show conclusively that the minima need be increased in order to satisfy the provisions of the Coal Act. In this case the recent analyses and previous market history show that the Cardinal No. 1 Mine, Size Group 10 coals are improperly classified on a minimum price basis. If, however, the only basis for relief was the present market relationships I would not be inclined to grant the relief for prices commanded in a seller's market are no reliable criteria of value.

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof § 328.11 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck be and it hereby is amended in accordance with Supplement R annexed hereto and made a part hereof.

Dated: September 26, 1942.

Director.

[Docket No. A–1469]

PART 338—MINIMUM PRICE SCHEDULE, DISTRICT NO. 18

ORDER CONTINUING RELIEF, ETC.

Memorandum opinion and order cancelling hearing, continuing temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 18 for the establishment of price classifications and minimum prices for certain mines in District No. 18.

An original petition was duly filed with this Division by the above-named party, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 18 for both rail and truck shipments. However, the original petition failing to contain all pertinent information necessary for the establishment of certain price classifications and minimum prices requested by petitioner a memorandum opinion and order was issued in this matter on August 18, 1942, granting certain temporary relief and scheduling a hearing to be held herein on September 17, 1942, at a hearing room of the Bituminous Coal Division, Washington, D. C.

District Board No. 18, petitioner in the above-entitled matter, on September 4, 1942, filed with the Division a motion requesting that the hearing scheduled to be held herein on September 17, 1942, be postponed until October 8, 1942. Good cause having been shown why such motion should be granted, an order was issued on September 12, 1942, postponing the hearing scheduled to be held herein on September 17, 1942, until October 8, 1942.

On September 28, 1942, District Board No. 18 filed with the Division a petition for amendment of its original petition in the above-entitled matter, requesting in effect that the hearing scheduled to be held on September 17, 1942, and postponed until October 8, 1942, be cancelled and that the price classifications and minimum prices temporarily established by the Memorandum Opinion and Order dated August 18, 1942, 7 F.R. 6618, be made conditionally final in accordance with the Rules and Regulations of the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The relief requested in the original petition in this matter, as modified by the amendment thereto filed with the Division on September 28, 1942, appears to be necessary and proper. Further, it appears that the price classifications and minimum prices established herein by the Memorandum Opinion and Order dated August 18, 1942, correspond with the classifications and minimum prices heretofore established for analogous and comparable coals produced in District No. 18. Accordingly, a reasonable showing of necessity having been made for the granting of the relief requested by petitioner in its amended petition, it is deemed advisable to cancel the hearing scheduled to be held in this matter on October 8, 1942, at Washington, D. C., to continue the temporary relief heretofore granted and to conditionally provide that such temporary relief shall become final.

Now, therefore, it is ordered, That the hearing scheduled to be held in the above-entitled matter on October 8, 1942 at Washington, D. C., be, and it hereby is, cancelled.

It is further ordered, That, pending final disposition of the above-entitled matter, the temporary relief granted by the Memorandum Opinion and Order dated August 18, 1942, 7 F. R. 6618, be, and it hereby is, continued and the language thereof is incorporated as part of § 338.21 (*General prices in cents per net ton for shipment into all market areas*).

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter, as amended, and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order unless it shall otherwise be ordered.

Dated: October 3, 1942.

Director.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter A—General Provisions

PART 903—DELEGATIONS OF AUTHORITY

[Directive 10]

NARCOTIC DRUGS

§ 903.16 *Delegation of authority over narcotic drugs to Bureau of Narcotics, Department of the Treasury.* Pursuant to the authority vested in me by Executive Order No. 9024 of January 16, 1942, Executive Order No. 9040 of January 24, 1942, and Executive Order No. 9125 of April 7, 1942, and in order to delegate to the Bureau of Narcotics, Department of the Treasury, authority in connection with the production, manufacture, distribution, and use of narcotic drugs, *It is hereby ordered and directed* That:

(a) The Bureau of Narcotics is authorized to perform the functions and exercise the power, authority and discretion conferred upon the President by section 2 (a) of the Act of June 28, 1940 (54 Stat. 676), as amended by Title III of the Second War Powers Act, 1942 (Pub. Law 507, 77th Cong.), with respect to the allocation of narcotic drugs in such manner and to such extent as it may deem necessary or appropriate in the public interest and to promote the National Defense. The authority of the Bureau of Narcotics under this Directive shall include the power to regulate or prohibit the production, manufacture sale, transfer or other disposition of narcotic drugs by any person who has acted in violation of any regulation or order prescribed by the Bureau of Narcotics hereunder. The Bureau of Narcotics is likewise authorized to require such reports and the keeping of such records, and to make such investigations as it may deem necessary or appropriate for the administration of the powers conferred herein; and it may take such measures as it may deem necessary or appropriate for the enforcement of any direction or order prescribed pursuant to this Directive.

(b) The Bureau of Narcotics may exercise the power, authority and discretion conferred upon it by this Directive through such officials and employees of the Department of the Treasury and in such manner as it may determine.

(c) The Chairman of the War Production Board may from time to time delegate to the Bureau of Narcotics such additional powers with respect to the exercise of control over narcotic drugs, or amend or revoke the delegation herein in such manner and to such extent as he may determine to be necessary or appropriate.

(d) Nothing herein shall be construed to limit or modify any order or directive heretofore issued by the Director of Priorities of the Office of Production Management, or the Director of Industry Operations of the War Production Board, or the Director General for Operations of the War Production Board, nor to delegate to the Bureau of Narcotics the power to extend, amend or modify any such order or directive, nor to terminate or limit the power of the Director General for Operations to issue future orders regulating transactions in narcotic drugs: *Provided, however,* That no preference rating heretofore or hereafter assigned, applied or extended by any person shall have any binding effect with respect to any transaction in narcotic drugs unless the Bureau of Narcotics shall expressly so order.

(e) For the purposes of this Directive; (1) "Narcotic drugs" means opium, coca leaves, cocaine or any salt, derivative or preparation of opium, coca leaves or cocaine; (2) "Bureau of Narcotics" means the Commissioner of Narcotics, acting under the supervision of the Secretary of the Treasury.

Subchapter B—Director General for Operations

PART 1034—TUNG OIL

[General Preference Order M-57, as Amended October 6, 1942]

The title to Part 1034 "Tung and Oiticica Oil" is hereby amended to read "Tung Oil".

Section 1034.1 *General Preference Order M-57*[1] is hereby amended to read as follows:

§ 1034.1 *General Preference Order M-57*—(a) *Definitions.* (1) "Tung oil" means that oil obtained from the tung nut, commonly known as tung oil or china wood oil, whether crude, raw, filtered or refined.

(b) *Restrictions on use, processing and delivery of tung oil.* (1) Subject to paragraph (c) hereof, no person shall on and after November 1, 1942, use, process or consume tung oil except as specifically authorized by the Director General for Operations.

(2) Up to and including October 31, 1942, no person shall use or process any tung oil, except upon the following categories of orders:

(i) Defense orders having preference ratings of A-2 or better.

(ii) Orders placed by Defense Supplies Corporation.

(iii) Orders for the manufacture of can linings for cans to contain food products for human consumption.

(iv) Orders for the manufacture of outside can coatings where tung oil is essential to withstand normal food processing.

(v) Orders for uses to comply with underwriters' regulations, health, sanitary or safety regulations or laws issued by Government authority, provided the pertinent provisions of such laws or regulations were in effect both on December 1, 1941 and on the date of such use, and specifically require the use of tung oil or a product required specifically to be made from tung oil.

(3) The Director General for Operations in his discretion may at any time issue special directions to any person with respect to the use, processing or delivery by such person of any tung oil.

(c) *Special exceptions.* Specific authorization shall not be required by any person:

(1) To use, consume or process in any calendar month not more than 35 lbs. of tung oil.

(2) To press or refine any quantity of tung oil.

(d) *Applications and reports.* (1) Each person seeking authorization to use, consume, or process tung oil during any calendar month beginning with November 1, 1942 (except as provided in paragraph (c) hereof) shall file application therefor on or before the 15th day of the month preceding the month for which authorization to use, consume or process is sought. Such application shall be made on Form PD-600, in the manner prescribed therein. subject to the following instructions for the purpose of this order:

(i) Copies of Form PD-600 may be obtained at local field offices of the War Production Board.

(ii) Three certified copies shall be prepared and filed with the War Production Board, Chemicals Branch, Washington. D. C., Ref: M-57.

(iii) In the heading, under name of chemical, specify "Tung Oil"; under WPB Order No., specify M-57; under unit of measure, specify pounds; under name of your company, specify name and mailing address; leave delivery destination, supplier with whom order is placed and his shipping point blank; and in phrase "Application for delivery next month" strike out word "delivery" and substitute word "use" and specify the month and year for which authorization to use, consume or process is sought.

(iv) In Columns 1 and 11, specify grade, as indicated by the following examples: crude or refined.

(v) In Columns 3, 20 and 22, specify primary product in terms of the following: protective coatings; core oil; electrical insulation; rubber substitutes; emulsion breakers; others (specify).

(vi) In Column 4, specify ultimate use of product (as for example, "airplane engine castings", as opposed to "core oil" which may be the primary product called for in Columns 3, 20 and 22), and also specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease, or commercial customer.

(vii) Remarks in Column 10 may, if necessary, be extended on the reverse side of the sheet. Include in remarks quantity of tung oil used in manufacture or preparation of primary products in corresponding period of year 1941. If requirements have increased appreciably, state reasons.

(viii) Columns 9, 17, 18 and 19 shall be left blank.

(2) Each person affected by this order shall file such other reports at such times and with respect to such matters as the Director General for Operations may from time to time direct.

(e) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-57.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040. 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 6th day of October, 1942.

PART 1060—RAPESEED OIL

[General Preference Order M-77, as Amended October 6, 1942]

Section 1060.1 *General Preference Order M-77*[1] is hereby amended to read as follows:

§ 1060.1 *General Preference Order M-77*—(a) *Definition.* "Rapeseed oil" means that oil obtained from rapeseed, commonly known as rapeseed oil, whether crude, raw, filtered, refined or blown, and whether or not denatured.

(b) *Restrictions effective on November 1, 1942 on use, processing and delivery of rapeseed oil.* (1) Subject to paragraph (d) hereof, no person shall, on and after November 1, 1942, use, process or consume rapeseed oil except as specifically authorized by the Director General for Operations.

(2) The Director General for Operations in his discretion may from time to time issue special directions to any person with respect to the use, processing or delivery by such person of any rapeseed oil.

(c) *Restrictions on use and processing up to October 31, 1942.* (1) Up to and including October 31, 1942, no person, except as specifically authorized by the Director General for Operations, shall use or consume rapeseed oil except in the manufacture of the following products:

(i) Marine engine oils, heavy machine engine lubricating oils, pheumatic tool oils.

(ii) Factice for compounding rubber.

(iii) Blown rapeseed oil subject to paragraph (c) (2) hereof.

(2) No person shall, up to and including October 31, 1942, blow any rapeseed oil except in the preparation for the manufacture of the products specified in paragraph (c) (1) (i) and then only to the extent necessary to meet his normal production schedule or if such oil is to be manufactured or used by another person the normal production schedule of such person.

(d) *Special exceptions.* Specific authorization shall not be required by any person:

(1) To use, consume or process in any one calendar month not more than 35 lbs. of rapeseed oil.

(2) To press, alkali refine or denature any quantity of rapeseed oil.

(e) *Applications and reports.* (1) Each person seeking authorization to use, consume or process rapeseed oil during any calendar month beginning with November 1942 (except as provided in paragraph (d)), shall file application therefor on or before the 15th day of the month preceding the month for which authorization to use, consume or process is sought. Such application shall be made on Form PD-600, in the manner prescribed therein, subject to the following instructions for the purpose of this order:

(i) Copies of Form PD-600 may be obtained at local field offices of the War Production Board.

(ii) Three certified copies shall be prepared and filed with the War Production Board, Chemicals Branch, Washington, D. C., Ref: M-77.

(iii) In the heading, under name of chemical, specify "Rapeseed"; under WPB Order No., specify M-77; under unit of measure, specify pounds; under name of your company, specify name and mailing address; leave delivery destination, supplier with whom order is placed and his shipping point blank; and in the phrase "Application for delivery next month" strike out word "delivery" and substitute word "use" and specify the month and year for which authorization to use, consume or process is sought.

(iv) In Columns 1 and 11, specify grade, as indicated by the following examples: crude, refined, denatured, blown.

(v) In Columns 3, 20 and 22, specify primary product in terms of the following: lubricating oil additive, rubber factice, rubber substitutes, sulfonated oil, plasticizers, protective coatings, others (specify).

(vi) In Column 4, specify ultimate use of product (as for example, "marine engine lubrication", as opposed to "lubricating oil additive" which may be the primary product called for in Columns 3, 20 and 22), and also specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease, or commercial customer.

(vii) Remarks in Column 10 may, if necessary, be extended on the reverse side of the sheet. Include in remarks quantity of rapeseed oil used in manufacture or preparation of primary products in corresponding period of year 1941. If requirements have increased appreciably, state reasons.

PART 1223—STANDARDIZATION AND SIMPLIFICATION OF PAPER

[Limitation Order L–120, Schedule VI]

ROLL TOILET TISSUE

§ 1223.7 *Schedule VI to Limitation Order L–120*[1]—(a) *Definitions.* For the purpose of this schedule, including the Appendix:

"Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(b) *Standard ream count.* On and after the effective date of this schedule basis weights for roll toilet tissue shall be calculated by reference to a standard ream of 500 sheets 24'' x 36'', with a tolerance of 5% over or under the specified weight, instead of by reference to the ream of 480 sheets 24'' x 36'' heretofore used.

(c) *Limitations.* On and after the effective date of this schedule no person shall manufacture any roll toilet tissue in any basis weight heavier than indicated in (i) under the appendix, or in rolls containing any sheet count other than the counts specified in (iii) under the Appendix, or pack less rolls per case than indicated as the minimum for the rolls of each permitted sheet count in (iv) under the appendix, or package wind or prepare for loading any roll toilet tissue contrary to the provisions of (v), (vi) and (vii) under the appendix.

This schedule shall take effect 60 days after the date of issuance.

PART 3089—OITICICA OIL

[General Preference Order M–238]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of oiticica oil for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3089.1 *General Preference Order M–238*—(a) *Definition.* (1) "Oiticica" means that oil obtained from the oiticica nut, commonly known as oiticica oil, whether crude (solid) or refined (liquefied), but not including any quick-bodying (Q. B.) oil.

(b) *Restrictions on use, processing and delivery of oiticica oil.* (1) Subject to paragraph (c) hereof, no person shall on and after November 1, 1942, use, process or consume oiticica oil except as specifically authorized by the Director General for Operations.

(2) Up to and including October 31, 1942, no person shall use or process any oiticica oil, except upon the following categories of orders:

(i) Defense orders having Preference Ratings of A–2 or better.

(ii) Orders placed by Defense Supplies Corporation.

(iii) Orders for the manufacture of can linings for cans to contain food products for human consumption.

---

[1] 7 F.R. 5119.

[1] 7 F.R. 6672.

(iv) Orders for the manufacture of outside can coatings where oiticica oil is essential to withstand normal food processing.

(v) Orders for uses to comply with underwriters' regulations, health sanitary or safety regulations or laws issued by Government authority, provided the pertinent provisions of such laws or regulations were in effect both on December 1, 1941 and on the date of such use, and specifically require the use of oiticica oil or a product required specifically to be made from oiticica oil.

(3) The Director General for Operations in his discretion may from time to time issue special directions to any person with respect to the use, processing or delivery by such person of any oiticica oil.

(c) *Special exceptions.* Specific authorization shall not be required by any person:

(1) To use, consume or process in any calendar month not more than 35 lbs. of oiticica oil.

(2) To press, refine or liquefy any quantity of oiticica oil, but not to manufacture any quick-bodying or other processed oil.

(d) *Applications and reports.* (1) Each person seeking authorization to use, consume, or process oiticica oil during any calendar month beginning with November 1, 1942 (except as provided in paragraph (c) hereof) shall file application therefor on or before the 15th day of the month preceding the month for which authorization to use, consume or process is sought. Such application shall be made on Form PD–600, in the manner prescribed therein, subject to the following instructions for the purpose of this order:

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Three certified copies shall be prepared and filed with the War Production Board, Chemicals Branch, Washington, D. C., Ref.: M–238.

(iii) In the heading, under name of chemical, specify "Oiticica oil"; under WPB Order No., specify M–238; under unit of measure, specify pounds; under name of your company, specify name and mailing address; leave delivery destination, supplier with whom order is placed and his shipping point blank; and in phrase "Application for delivery next month" strike out word "delivery" and substitute word "use" and specify the month and year for which authorization to use, consume or process is sought.

(iv) In Columns 1 and 11, specify grade, as indicated by the following examples: crude (solid) or refined (liquefied).

(v) In Columns 3, 20 and 22, specify primary product in terms of the following: protective coatings; core oil; electrical insulation; rubber substitutes; emulsion breakers; other (specify).

(vi) In Column 4, specify ultimate use of product (as for example, "electric motor windings", as opposed to "electric wire insulating varnish" which may be the primary product called for in Columns 3, 20 and 22), and also specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease, or commercial customer.

(vii) Remarks in Column 10 may, if necessary, be extended on the reverse side of the sheet. Include in remarks quantity of oiticica oil used in the manufacture or preparation of primary products in corresponding period of year 1941. If requirements have increased appreciably, state reasons.

(viii) Columns 9, 17, 18 and 19 shall be left blank.

(2) Each person affected by this order shall file such other reports at such times and with respect to such matters as the Director General for Operations may from time to time direct.

(e) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D C Ref.: M–238.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Amendment 35 to Revised Tire Rationing Regulations[1]]

TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

Sections 1315.151 (j), 1315.703, 1315.801 (d) (4), 1315.802 (c) (2) and 1315.803 (c) (2) are amended; § 1315.704 (e) is redesignated as § 1315.704 (f), and a new § 1315.704 (e) is added, as set forth below:

Definitions

§ 1315.151 *Definitions.* * * *

(j) "Mail-order-house" means any business establishment which conducts a part or all of its business by filling mail-orders for tires and tubes.

* * * * *

Tire and Tube Certificates

§ 1315.703 *Execution and issuance of certificates by Board.* (a) It shall be the responsibility of the Board, prior to issuing any certificate, to fill in part A and part B of the certificate setting forth the information required, except that the item on OPA Form No. R–20 which calls for the specification of the sizes of the tires or tubes to be purchased, need not be filled in unless requested by the applicant. It shall also be the responsibility of the Board to indicate on parts C and D of the certificate issued, the number of the Board and its address. No certificate will be valid unless part A is signed by the issuing officer of the Board, who may be either a member of the Board or one of its clerks designated to act in that capacity. When all the foregoing steps have been taken by the issuing Board, the Board shall deliver or mail the certificate to the applicant or his agent.

(b) OPA Form No. R–2 (Revised) shall be used in lieu of OPA Forms No. R–2 and R–8.

§ 1315.704 *Action by purchaser.* * * *

(e) The purchaser or his agent shall sign part A of a certificate which he has received, prior to the time he transfers it to an authorized seller for the purpose of purchasing the tires, tubes, or recapping services specified by the certificate. The purchaser or his agent shall sign parts B, C, and D of OPA Form No. R–2 (Revised) at the time that the tires or tubes which have been purchased, or the tires which have been recapped, are delivered to him, except that when he purchases by mail he shall not sign Part C at all, but shall sign parts B and D before transferring his certificate to the authorized seller. The same person shall sign parts B, C, and D of OPA Form No. R–2 (Revised) for the purchaser.

PART 1388—DEFENSE–RENTAL AREAS

[Designation and Rent Declaration 31]

DESIGNATION OF 45 DEFENSE–RENTAL AREAS AND RENT DECLARATION RELATING TO SUCH AREAS

In the judgment of the Price Administrator, defense activities have resulted or threaten to result in increases in the rents for housing accommodations in the areas designated in § 1388.1341 inconsistent with the purposes of the Emergency Price Control Act of 1942; and

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the said Act to issue this declaration, setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for defense-area housing accommodations within the defense-rental areas designated in § 1388.1341;

Therefore, under the authority vested in the Price Administrator by said Act, this designation and rent declaration is issued.

AUTHORITY: §§ 1388.1341 to 1388.1345, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.1341 *Designation.* The following areas are hereby designated by the Price Administrator as areas where defense activities have resulted or threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 and shall constitute defense-rental areas to be known by the names listed in the following table:

---

[1] The words "Defense-Rental Area" shall follow the name listed in the table in each case to constitute the full name of a defense-rental area, e. g., "Alabama Defense-Rental Area," "Dukes-Nantucket Defense-Rental Area."

§ 1388.1342 *Necessity.* The necessity for stabilization or reduction of rents for defense-area housing accommodations in the defense-rental areas designated in § 1388.1341 is as follows:

The designations of defense-rental areas hereby and heretofore made include the entire United States. The problem of inflation is nation-wide, and effective prevention of inflation requires nation-wide action affecting substantially all elements of the national economy. War conditions have caused widespread increases in rents, and threaten further general price and rent rises. Any increases in housing rentals, an important factor in the cost of living, have serious inflationary effects. Additional rental increases are threatened not only by increased migrations from one part of the country to another in connection with war production and new or expanding military establishments, but also by general factors affecting the economy including the greatly increased purchasing power of the people of the nation in relation to a relatively stable and limited supply of housing. In each of the designated defense-rental areas, defense activities have resulted or threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942.

§ 1388.1343 *Recommendations.* It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within any of the defense-rental areas designated in § 1388.1341 inconsistent with the purposes of the Act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within each of the designated areas on or about March 1, 1942. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the Act.

Recommendations with reference to the stabilization or reduction of rents for housing accommodations within each of the designated defense-rental areas are as follows:

(a) The maximum rent for housing accommodations rented on March 1, 1942 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on March 1, 1942. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents of housing accommodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the particular area on March 1, 1942.

(b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

(c) Appropriate provision should be made to prevent the circumvision or evasion of maximum rents by any method whatever.

§ 1388.1344 *Maximum rent regulation.* If within sixty days after the issuance of this designation and rent declaration, rents for housing accommodations within any defense-rental area designated in § 1388.1341 have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

§ 1388.1345 *Effective date.* This designation and rent declaration (§§ 1388.1341 to 1388.1345, inclusive) shall become effective October 5, 1942.

Issued this 5th day of October 1942.

[Amendment 3 to Maximum Price Regulation 177[1]]

MEN'S AND BOYS' TAILORED CLOTHING

A statement of the considerations involved in the issuance of this amendment is issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1389.115 (b) and in § 1389.116 (c), the date October 10, 1942, is changed to October 25, 1942. § 1389.118 is amended as set forth below:

§ 1389.118 *Applications for adjustment or amendment*—(a) *Retail adjustments.* The Office of Price Administration, or any duly authorized officer thereof, may by order adjust the maximum price established under this Maximum Price Regulation 177 for any seller at retail in any case in which such seller shows:

(1) That such maximum price is abnormally low in relation to the maximum prices of the same or similar garments established for other sellers at retail; and

(2) That this abnormality subjects him to substantial hardship.

Applications for adjustment under this paragraph (a) shall be filed in accordance with Procedural Regulation No. 2[2] No maximum price shall be adjusted under this paragraph (a) to exceed the seller's highest maximum price for a garment of the same classification dealt in during the base period, including any adjustment thereof under this paragraph (a).

(b) *Petitions for amendment.* Any person seeking a modification of any provision of this Maximum Price Regulation 177 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1[1] issued by the Office of Price Administration.

(c) *Adjustment of limitations on highest price lines.* The Office of Price Administration, or any duly authorized officer thereof, may by order adjust the maximum prices of any seller, at retail or otherwise, in any case in which the seller shows:

(1) That because of the rule limiting the highest maximum price which may be determined for any classification of garments, his maximum prices for certain garments are lower than they would otherwise be;

(2) That in the absence of adjustment, these maximum prices would subject the seller to substantial hardship;

(3) That the garments affected, or the materials used in these garments, were irrevocably purchased by the seller before July 11, 1942, and constitute a substantial proportion of his inventory; and

(4) That establishing higher maximum prices for these garments will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of Maximum Price Regulation 177 to eliminate the danger of inflation.

Applications for adjustment under this paragraph (c) shall be filed by a seller at retail under Procedural Regulation No. 2 and by any other seller under Procedural Regulation No. 1.

(d) Amendment 3 (§§ 1389.115 (b), 1389.116 (c) and 1389.118) to Maximum Price Regulation 177 shall become effective October 10, 1942.

[Amendment 9 to Revised Price Schedule 58, as Amended[1]]

WOOL AND WOOL TOPS AND YARNS

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1410.51 is amended by adding a new subparagraph (3) to paragraph (b) as set forth below:

§ 1410.51 *Maximum prices for wool and wool tops and yarns.* * * *

(b) * * *

(3) The seller's maximum price for wool or wool tops or yarns which cannot be determined in accordance with subparagraph (1) of this paragraph shall be a price in line with the level of maximum prices established by this Revised Price Schedule No. 58, as amended, which shall be determined by the seller after specific authorization from the Office of Price Administration.

A seller who seeks to determine a maximum price in accordance with this subparagraph (3) shall file with the Office of Price Administration in Washington, D. C., an application setting forth: (i) a description in detail of the wool or wool tops or yarns for which a maximum price is sought; and (ii) a statement of the reasons why such wool, wool tops, or yarns cannot be priced under subparagraph (1) of paragraph (b) of this section; (iii) the maximum price for the most nearly comparable wool or wool tops or yarns and a statement of the characteristics which differentiate the wool or wool tops or yarns for which a maximum price is sought; (iv) such other information as may be required by the Office of Price Administration.

If such authorization is given it will be accompanied by instructions as to the method of determining the maximum price. Within ten days after such price has been determined, the seller shall report the price to the Office of Price Administration in Washington, D. C. The price reported shall be subject to adjustment at any time by the Office of Price Administration.

[Amendment 5 to Maximum Price Regulation 183[2]]

CANNED CORNED BEEF IN PUERTO RICO

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Subparagraph (4) is added to paragraph (a) of § 1418.1, and paragraph (d) is added to § 1418.14.

§ 1418.1 *Maximum prices.* (a) Maximum prices are established as follows:

* * * * *

(4) On and after October 5, 1942, regardless of any contract, agreement, lease, or other obligation, or of any price regulation heretofore issued by the Office of Price Administration, no person shall sell or deliver canned corned beef to retailers or at retail in the Territory of Puerto Rico, and no person selling at retail or buying at retail shall buy or receive canned corned beef in the Territory of Puerto Rico at prices higher than the maximum prices set forth in § 1418.14 (d), Table IV; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

* * * * *

§ 1418.14 *Tables of maximum prices.* * * *

(d) *Table IV: Maximum prices for canned corned beef present stocks.*

(1) The maximum prices for present stocks of canned corned beef sold to retailers or at retail in the Territory of Puerto Rico shall be:

	Sales to retailers		Sales at retail	
	Per case of 48 12 oz. tins	Per case of 48 8 oz. tins	12 oz. tin	8 oz. tin
First grade (sold by Libby, McNeill, & Libby under the "Libby" brand label)	$13.00	$11.00	$0.32	$0.27
Second grade (all others)	11.25	9.50	.27	.23

The maximum prices for all other sizes of canned corned beef shall be a price in line with the maximum prices set forth above. The maximum prices for other tin sizes are to be computed by adding to or subtracting from the maximum prices set forth above the customary trade price differentials for tins of other sizes.

(2) Every person selling to a retailer shall, after the effective date of this amendment, before or at the time of his first delivery to each purchaser, supply the purchaser with the following statement:

OPA maximum prices for present stocks of canned corned beef in the Territory of Puerto Rico.

	Sales at retail	
	12 oz. tin	8 oz. tin
First Grade (sold by Libby, McNeill & Libby under the "Libby" brand label)	$0.32	$0.27
Second grade (all others)	.27	.23

The maximum prices for all other sizes of canned corned beef shall be a price in line with these maximum prices. The maximum price for other tin sizes are to be computed by adding to or subtracting from the maximum prices set forth above the customary trade price differentials for tins of other sizes. For future supplies these maximum prices will be revised by the Director of the Office of Price Administration for the Territory of Puerto Rico.

(3) *Future supplies.* The Director of the Office of Price Administration for the Territory of Puerto Rico, may, if the costs of imported canned corned beef increases or decreases, revise these maximum prices, both as to existing and future supplies, whenever in his judgment such action is advisable. Such revision shall be made by amendment to this Maximum Price Regulation No. 183 and the prices so established shall be fair and equitable. The maximum prices established by the Director in such an amendment shall in no event permit any person selling at retail to obtain a mark-up over direct cost in excess of the following:

	Mark-up	
	12 oz. tin	8 oz. tin
First grade (sold by Libby, McNeill & Libby under the "Libby" brand label)	$0.05	$0.04
Second grade (all others)	.04	.03

Regardless of cost variations or new shipments, the prices established herein, or those subsequently established by the Director, shall remain in effect until changed by amendment.

PART 1499—COMMODITIES AND SERVICES

[Order 84 Under § 1499.3 (b) of General Maximum Price Regulation[1]]

MAXIMUM PRICES FOR DIE CASTINGS

For the reasons set forth in an opinion* issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and § 1499.3 (b) of the General Maximum Price Regulation, *It is hereby ordered,* That:

§ 1499.298 *Method by which a die caster may determine maximum prices for die castings which cannot be priced under § 1499.2 of the General Maximum Price Regulation.* (a) Whenever a die caster cannot determine the maximum price for any die casting, produced and sold as a die casting by such die caster, under § 1499.2 of the General Maximum Price Regulation, such die caster is hereby authorized to determine the maximum price of such product by applying the same pricing formula or method of calculating prices used by him on March 31st, 1942. In applying such pricing formula or method of calculating prices, the die caster shall use the same unit cost factors (i. e. the same wage and machine hour rates, the same per pound prices of materials, and the same unit overhead) and the same percentage of profit over costs, extra charges, credit and quantity discounts and allowances, which he would have used on March 31, 1942, even though such unit cost factors may have increased since that date.

(b) Within 10 days after a die caster has determined a maximum price pursuant to the provisions of paragraph (a) of this order, he shall report such price to the Office of Price Administration. Such report shall set forth, in addition to the price, (1) a description and identification of the die casting for which such price was determined, (2) a statement of facts which differentiate such die casting from other die castings delivered or offered for delivery during March, 1942 by such die caster and by other competitive sellers of the same class, and (3) a statement that the maximum price reported was determined in accordance with paragraph (a) of this order, and the facts in support of such statement. The die caster, in this connection, shall submit a statement breaking down the price reported into the following categories; (i) material cost, (ii) manufacturing costs, other than plant overhead but including machining (machine hour rate and units per hour to be specified), (iii) plant overhead, (iv) administrative overhead and (v) profit. The maximum price reported by a die caster in accordance with the provisions of this paragraph (b) shall be subject to adjustment at any time by the Price Administrator.

(c) As used in this Order No. 84: (1) "Die caster" means any person who produces die castings.

(2) "Die casting" means a casting produced by injection of molten, non-ferrous metal into a die at higher than atmospheric pressure.

(3) "Non-ferrous metal" means aluminum, antimony, beryllium, bismuth, cadmium, cobalt, copper, lead, magnesium, nickel, tin, zinc and their alloys where any one or any combination of the above metals equals or exceeds fifty (50%) percent by weight of the total metal.

(d) This Order No. 84 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 84 (§ 1499.298) shall become effective October 6, 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 85 Under § 1499.3 (b) of the General Maximum Price Regulation]

VICTOR CHEMICAL WORKS

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, *It is hereby ordered:*

§ 1499.299 *Approval of maximum prices for sales of aluminux and other proprietary mixtures and compounds manufactured by the mixed products department of the Victor Chemical Works.* (a) The maximum price per pound for sales by the mixed products department of the Victor Chemical Works, of Chicago, Illinois, of aluminux and other proprietary mixtures and compounds manufactured by it, for which maximum prices cannot be established under § 1499.2 of the General Maximum Price Regulation, shall be the sum which bears the same percentage relationship to the sum of subparagraphs (1) and (2) below, as the net sales of the mixed products department of the Victor Chemical Works in March 1942, bore to the sum of raw material costs and manufacturing costs for all articles sold in that month, which percentage relationship is established in a statement filed by the mixed products department of the Victor Chemical Works with the Office of Price Administration.

(1) Raw material costs per unit, computed on the basis of actual prices (not to exceed the applicable maximum prices) paid for raw materials, and in any case not to exceed the highest price charged in March 1942, by the actual supplier to a purchaser of the same class as the Victor Chemical Works.

(2) Manufacturing costs, equal to the sum of the applicable unit costs prevailing during March 1942, for the operations used in making the article to be priced, as specified in a list of unit manufacturing costs filed by the mixed products department of the Victor Chemical Works with the Office of Price Administration.

(b) All discounts, trade practices, and practices relating to the payment of shipping charges in effect during March 1942, on the sales by the mixed products department of the Victor Chemical Company of comparable products, shall apply to the Maximum Prices determined under paragraph (a).

(c) On or before the last day of each month, beginning with October 1942, the mixed products department of the Victor Chemical Works shall submit to the Office of Price Administration in Washington, D. C., an individual report in affidavit form for each product priced under this Order No. 85 during the preceding month. Each such report shall include a description of the product so priced; a statement showing why the product cannot be priced under § 1499.2 of the General Maximum Price Regulation; the maximum price determined; and a detailed statement of the factors referred to in paragraph (a) of this order which were used in the determination of such maximum price.

(d) Each price reported under (c) shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Order No. 85 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 85 (§ 1499.299) shall become effective October 6, 1942.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 201—PROCEDURE FOR THE STIPULATION OF CONDITIONS IN GOVERNMENT PURCHASE CONTRACTS

RECORDS OF EMPLOYMENT

Amendment to regulations for administration of the Act of June 30, 1936, Public No. 846, 74th Congress.

By virtue of the authority vested in me by section 4 of the Act approved June 30, 1936, 49 Stat. 2036, 41 U.S.C., secs. 35–45, I hereby amend Article 501, Regulations No. 504, prescribed by the Secretary of Labor under Public Act No. 846, Seventy-fourth Congress (Series A), by substituting for the words "under 21 years of age" in item (b) the words "under 19 years of age" so that the article as amended will read as follows:

§ 201.501 *Records of employment.* Every contractor subject to the provisions of the act and these Regulations shall maintain the following records of employment which shall be available for the inspection and transcription of authorized representatives of the Secretary of Labor:

(a) Name, address, sex, and occupation of each employee covered by the contract stipulations.

(b) Date of birth of each such employee under 19 years of age.

(c) Wage and hour records for each such employee including the rate of wages and the amount paid each pay period, the hours worked each day and each week, and the period during which each such employee was engaged on a Government contract with the number of such contract. Compliance with this subsection shall be deemed complete if wage-and-hour records for all employees in the plant are maintained during the period between the award of any Government contract and the date of delivery of the materials, supplies, articles, or equipment: *Provided,* That where no separate records for employees engaged on Government contracts are maintained, it shall be presumed until affirmative proof is present to the contrary that all employees in the plant, from the date of award of any such contract until the date of delivery of the materials, supplies, articles or equipment, were engaged on such Government contract.

Such records shall be kept on file for at least 4 years from their last date of entry.

Dated: October 3, 1942.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. D-15]

ACKERMAN COAL COMPANY, ET AL.

NOTICE OF HEARING, ETC.

Notice of and order for hearing; order revoking certain registrations; and order dismissing proceedings as to certain respondents.

In the matter of proceedings to determine if certain registered distributors are bona fide merchants actively, regularly and continuously engaged in the business of purchasing coal for resale and actually reselling it in not less than cargo or railroad carload lots within the meaning of § 304.13 of the rules and regulations for the registration of distributors; and for the revocation of the registration of distributors who are not so engaged.

The Bituminous Coal Division, on February 18, 1942, having issued, in the above-entitled matter, an Order to Show Cause why the Registration of the Registered Distributors named therein should not be revoked on the grounds that such registrants were not actively, regularly and continuously engaged in the business of purchasing coal for resale and reselling it in not less than cargo or railroad carload lots within the meaning of § 304.13 of the Rules and Regulations for the Registration of Distributors; and

---

[1] 7 F.R. 7255.

[2] 7 F.R. 4304, 4386, 4930, 5246, 6566, 6014, 6017, 6557.

Said order having provided that the failure of any such named distributor to file an answer to said Order to Show Cause, as required by the order, may be deemed to be an admission that the person so failing to file is not actively, regularly and continuously engaged as a distributor, and an order revoking the registration of such person may be entered; and

Said order having further provided that if any answering respondent has failed to show cause, as therein provided, why his registration should not be revoked, such answering respondent would be afforded an opportunity to be heard and offer evidence in support of his answer; and

It appearing that each of the registered distributors whose names, addresses, and registration numbers are set forth in Exhibit A, attached hereto and made a part hereof, filed an answer to said Order to Show Cause, and made adequate showing therein that his or its registration should not be revoked upon the grounds stated in said order; and

It further appearing that each of the registered distributors, whose names, addresses and registration numbers are set forth in Exhibit B, attached hereto and made a part hereof, failed to file an answer to said Order to Show Cause; and

It further appearing that each of the registered distributors, whose names, addresses and registration numbers are set forth in Exhibit C, attached hereto and made a part hereof, although having filed an answer to said Order to Show Cause, failed to make adequate showing therein that he or it was actively, regularly and continuously engaged in the business of purchasing coal for resale and reselling it in not less than cargo or railroad carload lots, in that the distributor tonnage handled by him or it from October 1, 1940, or from the date of his or its registration (whichever date is later) to the date of the filing of such answer, was less than an average of one and one-half (1½) carloads per month; and

It further appearing that each of the registered distributors whose names, addresses and registration numbers are set forth in Exhibit D, attached hereto and made a part hereof, although having filed an answer to said Order to Show Cause, failed to disclose therein adequate information from which accurate tonnage data concerning his or its distributor transactions could be determined; and

It further appearing that certain distributors cited in said Order to Show Cause, but not listed in Exhibits A, B, C or D hereof, are no longer registered with the Division, except Shelby Coal Company, Inc., Registration No. 8321 and Shelby Coal Co. (W. K. Jenne), Registration No. 4797, with respect to whom action herein is deferred;

Now, therefore, it is ordered: 1. That these proceedings be, and they are hereby dismissed as to each registered distributor whose name, address and registration number is set forth on Exhibit A, attached hereto.

2. That the registration of each registered distributor whose name, address and registration number is set forth on Exhibit B, attached hereto, be and the same is hereby revoked.

3. That a hearing be held in the above-entitled matter on December 7, 1942, at 10:00 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section in the offices of the Division will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to each of the registered distributors whose names, addresses and registration numbers are set forth in Exhibits C and D, attached hereto, and to all other persons who may have an interest in the subject matter of this proceeding. Any person, including any registered distributor, listed in Exhibits C and D, desiring to be heard at said hearing shall file a notice to that effect with the Bituminous Coal Division, Washington, D. C., on or before November 27, 1942, setting forth therein the nature of his interest and a concise statement of the matter or matters which he intends to present. Failure of any such registered distributor to file such notice may be deemed by the Division as an admission that the registered distributor so failing to file such notice is not actively, regularly and continuously engaged as a distributor, and an appropriate order in the premises may be entered.

The matter concerned herewith is in regard to the eligibility of the registered distributors listed in Exhibits C and D, attached hereto, to retain their registration as distributors in accordance with § 304.13 of the Rules and Regulations for the Registration of Distributors; and in regard to the revocation of the registration of any of said registered distributors who are ineligible to retain their said registration, as provided in § 304.14 of the Rules and Regulations for the Registration of Distributors.

Dated: October 2, 1942.

[SEAL] **Dan H. Wheeler,**
Director.

[General Docket No. 21]

DETERMINATION OF EXTENT OF CHANGE OF COSTS OF MINIMUM PRICE AREAS

ORDER AND OPINION ON QUESTIONS OF LAW AND POLICY

Correction

In the fourth paragraph of the order appearing on page 7859 of the issue for October 3, 1942, the dates "August 26" should be "August 28".

CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS MONDAY, SEPTEMBER 30, 1942

Important: The apportioned classified Civil Service includes central offices physically located in Washington, D. C., or elsewhere. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his state of original residence. Certifications of eligibles are first made from states which are in arrears. The apportionment is observed in certifications except to low salaried positions; but as persons who receive appointments in the Departmental Service under the War Service Regulations do not thereby acquire a permanent classified civil service status, their appointments are not charged to the apportionment.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 15—REGULATIONS FOR CORRESPONDENTS, TECHNICAL OBSERVERS AND SERVICE SPECIALISTS ACCOMPANYING U. S. ARMY FORCES IN THE FIELD[1]

TECHNICAL OBSERVERS AND SERVICE SPECIALISTS

Sections 15.31 to 15.44, inclusive, are hereby added as follows:

Sec.
15.31 General.
15.32 Definition.
15.33 Status of technical observers.
15.34 Privileges.
15.35 Application.
15.36 Number of observers.
15.37 Agreement.

15.39 Uniform.
15.40 Transportation.
15.41 Reporting upon arrival.
15.42 Reports.
15.43 Relief from appointment.
15.44 Discipline.

AUTHORITY: §§ 15.31 to 15.44, inclusive, issued under R.S. 161; sec. 1, 41 Stat. 787; 5 U.S.C. 22; 10 U.S.C. 1473.

§ 15.31 *General.* From time to time technical personnel employed by firms engaged in manufacturing munitions of war may be assigned to field forces of the Army during maneuvers or in actual combat for the purpose of observing the operation of mechanical equipment and armament under field conditions. The function of this technical personnel will be to determine the effect of field operations and conditions on equipment manufactured by their firms with a view to overcoming difficulties encountered both in the field and at the factories. [Par. 1]

§ 15.32 *Definition.* The term "technical observer" as used in this manual includes any person officially accredited as such by the War Department to a theater of operations or a base command within or without the territorial limits of the United States in time of war, for the purpose of observing and reporting upon the operation of mechanical equipment and armament under field conditions and/or assisting in the maintenance and repair of such equipment. [Par. 2]

§ 15.33 *Status of technical observers.* (a) Technical observers in time of war accompanying the armies of the United States, both within and without the territorial jurisdiction of the United States, although not in the military service, are subject to military law and are under the control of the commander of the Army force which they accompany.

(b) They are not entitled to the benefits provided by laws enacted exclusively for persons in the military service but they are subject to the provisions of the Selective Training and Service Act of 1940, as amended, and regulations prescribed thereunder.

(c) In the event of capture by enemy forces, they are entitled to be treated as prisoners of war provided they are in possession of a certificate from the military authorities of the armed forces which they are accompanying. They will be cautioned that by the international rules of warfare they are required to give only their name and Army status, and that they will under no circumstances furnish the enemy with information of military value. (Geneva Conference, July 27, 1929, Title VII, Art. 81.)

(d) Technical observers will not exercise command, be placed in the position of authority over military personnel, nor will they be armed. They are under the same restrictions as military personnel as regards the settlement of accounts, compliance with standing orders, and the conducting of themselves with dignity and decorum.

(e) A technical observer becomes subject to military law from the time at which he commences to accompany troops or personnel who are on active service. This will generally be upon his arrival at the field force to which he is accredited but may commence earlier if

he travels to the field force via Government transportation. [Par. 3]

§ 15.34 *Privileges.* (a) Technical observers will be given the same privileges as commissioned officers in the matter of accommodations, transportation, and messing facilities. All courtesies extended them in such matter must be without expense to the Government.

(b) Every reasonable facility and all possible assistance will be given technical observers to permit them to perform their duties efficiently and intelligently, within the limits dictated by military necessities.

(c) So far as the exigencies of the service permit, technical observers will receive without charge the same medical treatment as that afforded officers.

(d) Technical observers are free to converse with troops and examine equipment in connection with their duties subject to the approval of the officer present with the troops in question. They will be required, however, to refrain from conversing with troops on guard, or from discussing subjects or soliciting answers to matters which are clearly secret and not connected with their particular duties.

(e) Under no circumstances will a technical observer assist a war correspondent. [Par. 4]

§ 15.35 *Application.* (a) Application to accompany U. S. Army forces in the field will be submitted by the firm employing the technical observer to the Commanding General, Services of Supply, Washington, D. C.

(b) The application will state the name and address of the individual; citizenship and place and date of birth; general health condition; the particular force it is desired he accompany; and any other pertinent information which will assist in the consideration of his application. [Par. 5]

§ 15.36 *Number of observers.* The Commanding General, Services of Supply, will control and coordinate with field force commanders the number of technical observers which are to be accredited to a field force. This number will be held to an absolute minimum. [Par. 6]

§ 15.37 *Agreement.* Before final acceptance, a technical observer will be required to sign an agreement in triplicate as follows:

WAR DEPARTMENT

HEADQUARTERS, SERVICES OF SUPPLY

WASHINGTON

(Date)

Agreement

In connection with authority granted by the War Department to me, the undersigned, to accompany the United States Army forces in the field as a technical observer, I subscribe to the following conditions:

1. That, as a civilian accredited to the Army of the United States within or without the territorial limits of the United States, I am subject to the Articles of War and all regulations for the government of the Army issued pursuant to law.

2. That I will govern my movements and actions in accordance with the instructions of the War Department and the commanding officer of the field force to which I am accredited. I understand that official reports are to be transmitted through such commanding officer, and that my personal and official correspondence is subject to the general censorship rules prevailing within the command.

3. That I waive all claims against the United States for losses, damages, or injuries which may be suffered as a result of this authority.

4. That this authority is subject to revocatio nat any time.

5. That, upon termination or revocation of this authority, I will surrender my credentials to the Commanding General, Services of Supply, or to his authorized representative, and will cease wearing the prescribed uniform.

Signed--------------------
Representing--------------------
(Firm)

(Address)
Witnessing officer--------------------

This form will be executed in triplicate.

§ 15.38 *Credentials.* (a) When an application for appointment as a technical observer is approved, the applicant will be furnished credentials and a technical observers' identification card by the Commanding General, Services of Supply. The card identifies him as an accredited technical observer.

(b) Technical observers will produce their identification cards whenever called for by any officer, warrant officer, or enlisted man in the execution of his duty. Failure to do so will subject the technical observer to arrest or detention.

(c) In addition to the War Department credentials, the particular field force commander may issue a pass or credentials with regulations covering their use. [Par. 8]

§ 15.39 *Uniform.* (a) The proper uniform for accredited technical observers is that of an officer, but less all insignia of grade or arm or service and without officers' piping, hat cords, or insignia on headgear.

(b) The uniform includes the wearing of the official brassard on the left arm which will be furnished by the War Department. The brassard is an orange cloth band, 4 inches wide, with black letters "TO," 1¼ inches in height.

(c) Articles of special clothing and equipment which are issued to officers and enlisted men in cold climates may be issued to technical observers. These articles must be turned in prior to departure from the theater of operations or base command.

(d) Accredited technical observers will not wear civilian clothing while serving with the field force. [Par. 9]

§ 15.40 *Transportation.* Government transportation for themselves and their baggage may be furnished accredited technical observers whenever such transportation is essential to the accomplishment of their mission and the military situation permits. Weight of baggage will be within the limits prescribed by the commander concerned. [Par. 10]

§ 15.41 *Reporting upon arrival.* Upon arrival in the theater of operations or base command to which accredited, technical observers will report to the commanding officer or his representative, presenting their credentials. All technical observers are officially attached to the headquarters of the field force commander who may arrange for their assignment to posts of duty within the command from which the observer may best accomplish his mission. [Par. 11]

§ 15.42 *Reports.* Reports of a technical observer to the firm which he represents will be transmitted through the commander of the field force to which he is accredited. The provisions of AR 380-5[2] will be complied with. The field force commander will forward a copy of all reports made by technical observers to the Commanding General, Services of Supply. Both their official and personal correspondence will be subject to the general censorship rules prevailing within the command. The use of "blue envelopes" for the censoring of personal mail by the base censor is authorized, but these may not be used to mail reports for publication to avoid censorship by the immediate headquarters under which the technical observer serves. [Par. 12]

§ 15.43 *Relief from appointment.* (a) An accredited technical observer will not leave the theater of operations or base command without the written permission of the commander.

(b) If serving with troops beyond the territorial limits of the United States, relief does not become effective until arrival in the United States, if the journey is made by Government transportation.

(c) Upon termination of appointment as a technical observer, the individual will surrender all credentials to the Commanding General, Services of Supply, or his authorized representative, and will cease wearing the official uniform of a technical observer. [Par. 13]

§ 15.44 *Discipline.* A technical observer is expected to conform to all rules and regulations promulgated in the interest of good order and military discipline. In the presence of the enemy, he will conform with the actions of the troops and will not jeopardize the safety of the command or compromise the scheme of maneuver in progress. When necessary, the technical observer may be placed in arrest to await deportation or trial by court martial. [Par. 14]

Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES

DAMAGES TO PERSONS AND PRIVATE PROPERTY RESULTING FROM OPERATION OF AICRAFT

Sections 36.12 and 36.13 are hereby amended to read as follows:

§ 36.12 *Claims not exceeding $500 in amount.* Claims not exceeding $500 each for damage to private property, including claims of military and civilian personnel in and under the War Department, and for injury to persons other than military personnel resulting from the operation of aircraft at home and abroad may be settled when each claim is substantiated by a survey report of a board of officers appointed by the commanding officer of the nearest aviation post and approved by the Commanding General, Army Air Forces, and the Secretary of War. See annual appropriation acts. (42 Stat. 737, 50 Stat. 456; 31 U.S.C. 224) [Par. 1, AR 35-7060, Sept. 1, 1942]

§ 36.13 *Procedure*—(a) *General.* When a claim for damages arises, the claimant should submit his claim to the commanding officer of the nearest aviation station, as provided in § 36.6. Upon the receipt of such a claim the commanding officer will refer it in the usual manner to a board of officers, who will take the action prescribed in § 36.7.

(b) *Claims for personal injuries.* The foregoing procedure will also be followed, as far as practicable, in all claims for personal injuries resulting from the operation of aircraft. (42 Stat. 737, 50 Stat. 456; 31 U.S.C. 224) [Par. 2, AR 35-7060, Sept. 1, 1942]

PART 54—EXCHANGES

PART 55—MOTION PICTURE SERVICE

SUSPENSION OF CREDIT SALES

§ 54.12 *Credit sales; suspension.* Effective November 1, 1942, at all posts, camps, and stations within the continental United States, except Alaska, all purchases from commissaries and from all company-owned or company-operated activities, for example, barber shops, tailor shops, etc., will be for cash. All purchases from exchanges and theaters will be for cash or for coupons bought and paid for in advance. Quartermaster laundry service, telephone service, and utility service will continue to be handled on a charge sales basis. The issue of rations and sales to organizations which are authorized to buy from commissaries and exchanges under existing regulations are excluded from the above.

So much of § 54.12 as is in conflict with the above is suspended. (R.S. 161; 5 U.S.C. 22) [Cir. 328, W.D., Sept. 28, 1942]

§ 55.8 *Coupon books; suspension of credit sales.* Effective November 1, 1942, at all posts, camps, and stations within the continental United States, except Alaska, all purchases from commissaries and from all company-owned or company-operated activities, for example, barber shops, tailor shops, etc., will be for cash. All purchases from exchanges and theaters will be for cash or for coupons bought and paid for in advance. Quartermaster laundry service, telephone service, and utility service will continue to be handled on a charge sales basis. TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1362]

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

DISTRICT NO. 10—DELTA COAL MINING CO.

Order approving and adopting the proposed findings of fact and proposed conclusions of law of the examiner and granting permanent relief in the matter of the petition of Delta Coal Mining Company, a code member in District No. 10, for minimum f. o. b. mine prices for f. a. s. delivery from mines in District No. 10 to Minneapolis Street Railway Company, at Minneapolis, Minnesota, pursuant to section 3A, special river price instructions and exceptions, schedule of effective minimum prices for District No. 10 for all shipments except truck.

A petition, pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act of 1937, having been filed with the Bituminous Coal Division by Delta Coal Mining Company, a code member, operating the Delta Mine (Mine Index No. 36), in District 10, seeking on behalf of Minneapolis Street Railway Company of Minneapolis, Minnesota, an order permitting it to purchase coals shipped via river by petitioner and other producers in District No. 10 at f. o. b. mine prices for free alongside delivery;

A hearing having been held in this matter on July 13–16, 1942, inclusive, before Charles O. Fowler, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard:

The Examiner, Charles O. Fowler, having made and filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated September 4, 1942, recommending that the relief prayed for by the petitioner be granted;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions or supporting briefs having been filed;

The undersigned having determined that the proposed findings of fact and proposed conclusions of law of the Examiner should be approved and adopted as the findings of fact and conclusions of law of the undersigned;

Now, therefore, it is ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner be and they hereby are approved and adopted as the findings of fact and conclusions of law of the undersigned;

It is further ordered, That the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck be, and same hereby is amended by adding to § 330.10 (b) (1) (iii) (b) (*Special prices—River* (*free alongside deliveries*) *and ex-river shipments—Instructions and exceptions—Special Cases*) the following:

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 3053—CONVEYING MACHINERY AND MECHANICAL POWER TRANSMISSION EQUIPMENT

[General Limitation Order L-193]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials, and in the engineering and other facilities, used in the manufacture of conveying machinery and mechanical power transmission equipment, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3053.1 *General Limitation Order L–193*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Conveying machinery" means any machinery (and any important component part thereof) used for the mechanical handling of materials; except (i) farm elevators included within the provisions of Order L–26, as amended,[1] (ii) machinery or parts used on board ship in the operation of any vessel, or used in the operation of aircraft, tanks, ordnance, or similar combat equipment, (iii) power and hand lift trucks, (iv) cranes, hoists and platform elevators, (v) construction mixers, pavers, graders, drag lines and power shovels, and similar construction machinery, (vi) cars and car dumpers, (vii) steel mill tables, (viii) sintering conveyors, (ix) metal pig conveyors, and (x) underground mining machinery (other than slope conveyors).

(3) "Mechanical power transmission equipment" means equipment (and any important component part thereof) of the following kinds (except equipment or parts used in the operation of any vessel, or in the operation of aircraft, tanks, ordnance or similar combat equipment):

(i) Open and enclosed gearing for transmitting more than ¼ horse power; except marine propulsion gears, gears used as an integral part of a machine, gears built into turbines, and gears used on household, manually powered, automotive, or farm machinery;

(ii) Mechanical drives and parts thereof for transmitting more than ¼ horse power; except belting, drives used as an integral part of a machine, drives used on household, manually powered, automotive, or farm machinery.

(4) "Order" includes any arrangement for the delivery of conveying machinery or mechanical power transmission equipment, whether by purchase and sale, lease, rental or otherwise.

(5) "Engineering services" means services of an engineering nature rendered for a customer or prospective customer in connection with an order or prospective order for the planning, designing, manufacture, delivery, installation, extension, or rearrangement of conveying machinery, or in connection with any bid or estimate or prospective bid or estimate for such an order; but does not include preliminary conferences, discussions, or advice, or the making of line drawings for preliminary purposes, prior to the formulation of a bid or estimate.

(6) "Bid or estimate" means a definitive bid or estimate for the planning, designing, manufacture, delivery, installation, extension, or rearrangement of conveying machinery, but does not include preliminary estimates not intended to form a basis for a firm order.

(7) "Manufacture" means fabrication or shop assembly of conveying machinery or mechanical power transmission equipment, or any component part thereof; but does not include the making of engineering drawings, blue prints, designs, estimates, or surveys.

(8) "Restricted order" means any order for conveying machinery or mechanical power transmission equipment or parts therefor, in the amount of $5,000 or more (not including amounts applicable to foundations or erection labor); and any order which is part of a planned group of orders aggregating $5,000 or more in amount (not including amounts applicable to foundations or erection labor) for items, units or parts of conveying machinery or mechanical power transmission equipment having related operational functions.

(b) *Restrictions on acceptance and placing of orders*—(1) *Restrictions on placing orders.* On and after the date of this order, no person shall place or tender, and no person shall accept, any restricted order, unless the order is accompanied by the authorization of the Director General for Operations, provided for in paragraph (d) below.

(2) On and after the date of this order, no person shall render engineering services, or make any bid or estimate, for any restricted order, and no person shall order or request any such engineering services or invite any such bid or estimate; except with respect to an order theretofore authorized by the Director General for Operations, in accordance with the provisions of paragraph (d) below.

(c) *Restrictions on manufacture and delivery.* (1) Except as otherwise provided in paragraph (c) (3) hereof, on and after the date of this order no person shall commence or continue the manufacture of any conveying machinery or mechanical power transmission equipment or parts therefor, in fulfillment of any restricted order, and no person shall deliver or accept delivery of any such machinery or equipment or parts therefor, in fulfillment of any restricted order; unless the order shall have been authorized by the Director General for Operations, in accordance with the provisions of paragraph (d) below. No person shall maintain an inventory of parts for conveying machinery or mechanical power transmission equipment in excess of a minimum practicable working inventory.

[1] 7 F.R. 5396, 6148.

(2) Except as otherwise provided in paragraph (c) (3) hereof, on and after the date of this order no person shall manufacture or deliver, and no person shall knowingly accept the delivery of, any conveying machinery or mechanical power transmission equipment, or parts therefor, unless such machinery or equipment or parts are manufactured in accordance with the restrictions on the use of materials prescribed in Schedule A hereto: *Provided, however*, That parts fabricated or processed, prior to the date of this order, to the point where other use is impracticable, may be used in fulfillment of any order at any time.

(3) The limitations and restrictions of paragraph (c) shall not apply:

(i) To the manufacture or delivery of any conveying machinery or mechanical power transmission equipment in the process of manufacture on the date of this order in fulfillment of any order accepted by the manufacturer prior to August 1, 1942.

(ii) For ninety days following the date of this order, to the manufacture or delivery of any conveying machinery or mechanical power transmission equipment in the process of manufacture on the date of this order in fulfillment of any order accepted by the manufacturer on or after August 1, 1942 but prior to the date of this order.

(iii) For ninety days following the date of this order, to the manufacture or delivery in fulfillment of any order for the use of the Army, Navy, Maritime Commission or War Shipping Administration, to the extent that any applicable specifications of the Army, Navy, Maritime Commission, or War Shipping Administration, require construction, design, or materials not in accordance with the provisions of this order. As used herein, the terms "Army", "Navy", "Maritime Commission" or "War Shipping Administration" shall not include any privately operated plant or shipyard financed by or controlled by any of those organizations, or operated on a cost-plus-fixed-fee basis. For the purposes of this paragraph (c) an order for machinery or equipment shall be deemed to have been in the process of manufacture on the date of this order only if fabrication or assembly of a component part, in fulfillment of such order and not for inventory or stock, was begun prior to the date of issuance of this order.

(d) *Procedure for obtaining authorization of Director General for Operations.* (1) The authorization of the Director General for Operations for orders accepted hereafter, required by the provisions of paragraph (b), may be applied for by the purchaser by filing an application on Form PD–681 with the Director General for Operations.

(2) The authorization for orders heretofore accepted by the manufacturer, required by the provisions of paragraph (c) (1), may be applied for by the manufacturer. Such application shall be made by letter in duplicate filed with the Director General for Operations and shall contain a list of restricted orders of such manufacturer then on hand, together with the name of the purchaser, the date of each order and value thereof, a description of the equipment or machinery, the specified delivery date, the percentage of completion of the order on the effective date of this order, the Production Code symbols, the preference rating and preference rating certificate or general preference rating order number applicable to each order.

(e) *Production schedules.* On or before October 15, 1942, and on or before the 15th day of each succeeding calendar month, every manufacturer shall file, in triplicate, a report on Form PD–682 showing such production and delivery schedules for restricted orders and such other information as shall be required by said form. The Director General for Operations may at any time change such schedule of deliveries or production or direct the adoption of any other schedule; allocate any order listed on the schedule to any other manufacturer; or direct the delivery of any conveying machinery or mechanical power transmission equipment listed on the schedule to any other person, at the price and terms previously established with such variation as may be justified under the circumstances.

(f) *Miscellaneous provisions*—(1) *Manufacturers' responsibility with respect to orders less than $5000.* Notwithstanding any other provision of this order, an order in an amount less than $5000 which is a restricted order (as defined in paragraph (a) (8)) because it is part of a planned group of orders aggregating $5000 or more, shall be deemed to be unrestricted with respect to the manufacturer (but not the purchaser), unless the manufacturer has reason to believe that such order is a restricted order.

(2) *Records and reports.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales. All persons affected by this order shall execute and file with the War Production Board, such reports and questionnaires as the Director General for Operations shall from time to time request.

(3) *Other limitation orders.* Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms of any L or M order, or amendments or supplements thereto, or other regulation of the War Production Board effective at the date of any such sale, delivery, or other transfer. Where the limitations imposed by any other L or M order are applicable to the subject matter of this order, the most restrictive limitation shall apply, unless otherwise specifically provided herein.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(5) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director General for Operations setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(6) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Branch, Washington, D. C. Ref: L–193.

Issued this 7th day of October, 1942.

ERNEST KANZLER,
Director General for Operations.

Schedule A.—*Restrictions and Limitations on the Use of Materials in Conveying Machinery or Mechanical Power Transmission Equipment*

(a) As used in this schedule, (1) "alloy steel" and "alloy iron" mean alloy steel and alloy iron as defined in Order M–21–a, as amended and supplemented from time to time; and (2) "line shafting" means any shaft driving two or more machines or any single length or rigidly coupled lengths of shafting supported by three or more bearings.

(b) *Conveying machinery.* The materials listed below are restricted or prohibited in the construction of conveying machinery, as prescribed below; except as the Director General for Operations may waive compliance with any such restriction or prohibition, upon application by the manufacturer by letter setting forth pertinent facts disclosing the necessity for such waiver.

(1) *Bins, bunkers, hoppers and tanks (when used as part of conveying machinery or equipment).* No steel shall be used in bins, hoppers, tanks, or bunkers having a capacity of more than 400 cubic feet, level filled, except in clips, gussets, bolts, nuts, screws, lag screws, hinges, tension rods, reinforcing bars or mesh, washers, and hopper bottoms of less than 400 cubic feet capacity. No steel plate of a thickness in excess of ¼ inch shall be used in bins, tanks, or hoppers with a capacity of less than 400 cubic feet, level filled. No liner plates of steel or rubber shall be used in steel bins, steel tanks, or steel hoppers. Steel liners for wood bins or wood bunkers shall not exceed No. 10 U. S. gage in thickness.

(2) *Conveyors and elevators.* No alloy steel or alloy iron shall be used for parts of chains (other than chains for the transmission of power); except for pins and bushings in (i) steel conveyor chains, (ii) draw bench or steel mill type chains, or (iii) cast sprocket chains. No bushings other than carbon steel or gray iron shall be inserted in bores of conveyor chain rollers.

(3) *Conveyor and elevator sprockets.* No alloy steel or alloy iron shall be used in chain sprocket wheels.

(4) *Conveyor structures.* (i) No steel, except in clips, bearing brackets, gussets, bolts, nuts, screws, lag screws, hinges, tension rods, reinforcing bars, mesh, and washers, shall be used in the following structural parts:

(A) Supports for fixed conveyor frames.

(B) Fixed bulk material belt conveyor frames (including stringers).

(C) Conveyor galleries.

(D) Belt conveyor decking.

(E) Walkways, toe boards, handrails, stairways, and platforms.

(F) Guards or housing used only for protection.

(G) Bucket elevator casings; except corner angle iron for self-supporting casings, and boot lining and loading legs. Such corner angle iron for self-supporting casings, and boot lining and loading legs shall not exceed ¼ inch in thickness.

(H) Troughs or trough covers for fixed flight, drag, scraper or screw conveyors, except where liquids or semi-liquids are being conveyed.

(ii) Trough linings for fixed conveyors shall not exceed No. 10 U. S. gage in thickness.

(iii) Steel for chutes and spouts shall not exceed $\frac{3}{16}$ inch in thickness.

(iv) No steel or rubber liner plates shall be used in steel chutes or steel spouts.

(v) Steel linings for wood chutes or wood spouts shall not exceed No. 10 U. S. gage in thickness.

(vi) No copper bearing sheets or plates shall be used.

(vii) Steel troughing belt carriers and steel return belt idler rolls shall not exceed 5 inches nominal diameter on idlers up to 42 inches; and shall not exceed 6 inches on idlers 42 inches and over.

(c) *Mechanical power transmission equipment.* The materials listed below are restricted or prohibited in the construction of mechanical power transmission equipment as prescribed below; except as the Director General for Operations may waive compliance with any such restriction or prohibition, upon application by the manufacturer by letter setting forth pertinent facts disclosing the necessity for such waiver.

(1) *Anti-friction bearings.* (i) Anti-friction bearings shall not be used in hangers, loose pulleys, and clutch pulleys for line shafting except for the following purposes, as certified by the purchaser:

(A) The reduction or elimination of fire hazards resulting from the combustible nature of the material being processed.

(B) Reduction or elimination of waste due to spoilage.

(C) Reduction of starting or running loads where the use of anti-friction bearings will correct an overload pertaining to the primary source of power.

The above mentioned certification by the purchaser shall be included in or shall accompany the purchase order, shall be signed by a duly authorized official of the purchaser, and shall be in the following form:

"The undersigned hereby certifies that the anti-friction bearings covered by order------ (here give order -- number or other pertinent description) are for the following purposes as permitted by the provisions of Item (c) (1) of List A to Order L–193:

-- (here fill in the purposes for which the bear- ---------------- ings will be used)

------------------------ Company.
By ------------------------"

Such certification shall be deemed a representation to the War Production Board as well as to the supplier to whom the order is tendered.

(ii) No alloy steel or alloy iron shall be used in bearing housings.

(2) *Bearings.* No alloy steel or alloy iron shall be used in base, cap or liner castings for sleeve bearings; or in bearing hangers, base plates, floor stands, or wall brackets for line shafting.

(3) *Chains.* (i) No alloy steel or alloy iron shall be used in cast sprocket chains.

(ii) The aggregate amount of alloy element or elements used in semi-finished roller or bushed drive chain shall not exceed 40 percent of the aggregate amount used in the manufacture of a similar quantity of chain in standard practice by the manufacturer prior to November 1, 1941.

(iii) The aggregate amount of alloy element or elements used in finished roller or silent chain shall not exceed 40 percent of the aggregate amount used in the manufacture of a similar quantity of such chain in standard practice by the manufacturer prior to November 1, 1941.

(4) No alloy steel or alloy iron shall be used in chain sprocket wheels.

(5) *Shafting Appliances.* No alloy steel or alloy iron shall be used in the construction of shafting appliances in rigid couplings, collars, or pulleys and sheaves.

(6) *Gears.* No alloy steel or alloy iron shall be used in cast teeth or molded teeth gears and pinions or in gear housings.

(7) *Guards and Housings.* No steel shall be used in guards and housings used solely for protection; except that steel may be used in supporting clips or bolts.

(d) *Rust Proofing.* No metallic plating or coating shall be used in the rust proofing of conveyor machinery or mechanical power transmission equipment, except that galvanizing may be used to prevent contamination of food or in the case of anchor bolts set in concrete and subject to corrosive chemical action.

PART 3063—FOOTWEAR

[Interpretation 1 of Conservation Order M–217]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 3063.1, Conservation Order M–217, issued September 10, 1942[1]:

The word "manufacture" in line two of paragraph (c) (1) of § 3063.1 (Conservation Order M–217), refers to the operation whereby the features mentioned in subdivisions (i) to (xvii), inclusive, of said paragraph became a part of the footwear.

Illustration: Subdivision (iv) refers to full overlaid tips or full overlaid foxings except on work shoes. The order prohibits the placing of full overlay tips or full overlay foxings on dress shoes after October 31, 1942. But it does not prohibit the completion of the shoe if an overlaid tip or an overlaid foxing has been affixed prior to said date.

Definitions

§ 1315.151 *Definitions.* For the purpose of these regulations:

* * * * *

(jj) "Passenger-type camelback" means passenger-type camelback as defined by specifications established from time to time by the War Production Board.

(kk) "Truck-type camelback" means truck-type camelback as defined by specifications established from time to time by the War Production Board.

Tire and Tube Certificates

§ 1315.701 *Notification.* * * *

(b) In cases where the Board authorizes an applicant to purchase retreaded or recapped tires, or retreading or recapping services, the Board shall immediately issue to such applicant a nontransferable certificate for the purchase of retreaded or recapped tires, or retreading or recapping services (O.P.A. Form No. R–2 (Revised)). Before issuing the certificate, the Board shall indicate on each part thereof, the type of camelback (truck-type or passenger-type) that may be used in retreading or recapping the tires specified thereon.

Transfers and Deliveries of New Tires and Tubes. Retreaded or Recapped Tires, and Camelback

* * * * *

§ 1315.802 *Permitted and prohibited deliveries of retreaded or recapped tires.* * * *

(d) *Other deliveries.* * * *

(7) Any retreader or recapper, to whom another retreader or recapper has transferred camelback applied to a tire for the purpose of curing, may transfer the retreaded or recapped tire, without certificate, to the retreader or recapper who applied the camelback.

§ 1315.803 *Permitted and prohibited deliveries of camelback.* * * *

(c) *Transfers to replenish stock.* * * *

(2) * * *

(i) Upon presenting the appropriate part of a certificate or receipt, any person may purchase only the type of camelback specified thereon from a person dealing in or making camelback. The purchaser may present the replenishment portion (part B) of a retreaded or recapped tire certificate, the replenishment portion (part B) of an allotment of camelback certificate, or the replenishment portion (part B) of a receipt for either retreaded or recapped tires or camelback. When using the replenishment portion of a receipt for camelback or the replenishment portion of an allotment of camelback certificate, he may purchase the number of pounds of camelback specified thereon. If he uses the replenishment portion of a retreaded or recapped tire certificate or the replenishment portion of a receipt for retreaded or recapped tires, he may purchase the number of pounds of camelback specified in the table appearing below in this subdivision.

Table for Camelback Replenishment

Type of size of tires specified on certificate or receipt	*Number of pounds of Camelback which may be purchased for each such tire*
Passenger-car-type tire	8½
30 x 5 to and including 7.00 x 20/32 x 6	12
7.50–18 to and including 8.25–24	16
9.00–20 to and including 11.00–24	22
12.00–20 and up (regular truck tires)	32
Truck tires 12.00–20 and up, (but not including tires 12.00–24 and larger) used on farm tractors (rear tires only), road graders, earth movers and other similar equipment used primarily on off-the-road work	55
Tires 12.00–24 and larger to be used on above types of equipment	(*)

* Amount necessary

When the amount of camelback to be replenished cannot be calculated from the above table, the person purchasing the camelback shall attach to the replenishment portion (part B) of the Certificate Form R–2 (Revised), or the Receipt Form R–12 (Revised), certified statement showing the amount of camelback necessary to retread or recap the number of tires specified on the certificate or receipt, and he shall be entitled to purchase the amount of camelback appearing on such statement.

* * * * *

(d) *Other transfers.* * * *

(5) *To retreaders with War Department contracts.* Notwithstanding the provisions of § 1315.803 (c), any manufacturer or dealer in camelback may (without certificate) transfer camelback for use on tires owned by the United States Army, Navy, Marine Corps or Coast Guard to any retreader or recapper who either has a prime contract with the War Department to retread or recap such tires or has a subcontract with the prime contractor, but only when the following conditions are first satisfied.

(6) *Remilled camelback.* Any person who deals in or makes camelback may remill deteriorated camelback which has been transferred to him by a retreader or recapper and may transfer the remilled camelback or camelback of identical type, grade, gauge and weight to the retreader or recapper upon authorization in writing issued to the retreader or recapper by the Regional Administrator of the Office of Price Administration having jurisdiction over the area in which the principal place of business of the retreader or recapper is located. The Regional Administrator may, in his discretion, grant, deny, limit or revoke the authorization. In addition to the reports and records required by other sections of these regulations, any person making a transfer pursuant to this paragraph (d) (6) shall maintain such records, file such reports and conform to such procedure as may be required by the Office of Price Administration.

§ 1315.804 *Transfer of new tires or tubes, retreaded or recapped tires, or camelback to certain governmental agencies, to manufacturers of new vehicles, and for export.* * * *

(a) * * *

(1) To or for the account of the Army, Navy or Marine Corps of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, or the Office of Scientific Research and Development but not to or for the account of any officer, member, or employee of any of the foregoing for use on a privately owned vehicle, regardless of the extent to which such vehicle is used on official business, nor to or for the account of any post exchange, ship's store, commissary, or similar agency or organization.

* * * * *

(c) * * *

(1) O.P.A. Form No. R–12 (Revised) may be obtained from any Local Board and will also be distributed through appropriate governmental agencies. The form shall consist of four parts. Part A shall be mailed to the Regional Office of the Office of Price Administration serving the area in which the seller is located within fifteen (15) days from the end of each calendar month in which deliveries or shipments of tires, tubes or camelback have been made. Part B shall be used as a basis for replenishing stocks in accordance with the transfer provisions of §§ 1315.801 (d), 1315.802 (c) and 1315.803 (c), whichever is appropriate; any person who retreads or recaps Army, Navy, Marine Corps or Coast Guard tires under a prime contract with the War Department for such retreading or recapping or under a subcontract with such prime contractor shall not use O.P.A. Form No R–12 (Revised) to replenish the camelback so used, but upon obtaining that

form from the United States Army, Navy, Marine Corps or Coast Guard shall forward part B thereof together with part A to the Regional Office of the Office of Price Administration. Part C shall be retained by the seller as his record of the transaction in accordance with the record keeping requirements of these regulations. Part D shall be retained by the purchaser as his record.

* * * * *

§ 1315.805 *Certificate for allotment of camelback for retreaders or recappers*—(a) *Application for authority to purchase allotment of camelback.* Any retreader or recapper who is not a maker of camelback may apply to the Board having jurisdiction over the area in which his principal office is located, and to that Board only, for authority to purchase an allotment of truck-type camelback for each mold that he operates capable of retreading or recapping truck-type tires only, an allotment of passenger-type camelback for each mold that he operates capable of retreading or recapping passenger-type tires only and an allotment of both truck-type camelback and passenger-type camelback for each mold that he operates capable of retreading or recapping both truck-type and passenger-type tires. Only one application may be filed except that an applicant who subsequently acquires additional molds may file application for such molds. Each applicant may be authorized to purchase sufficient truck-type camelback for each mold that he operates capable of retreading or recapping truck-type tires to enable him to have the amount of truck-type camelback specified in the following table, less the combined total of his inventory of truck-type camelback as of midnight February 18, 1942, irrespective of where located, the amount of truck-type camelback that the Board authorized him to purchase as an initial allotment of truck-type camelback prior to October 12, 1942, and the amount of truck-type camelback that he acquired subsequent to February 18, 1942, pursuant to § 1315.803 (d) (1) of these regulations.

Type of mold	Tire retreading capacity of mold	Number of pounds of camelback per mold	Type of camelback
Individual	7.50 x 20 or larger	1,000	Truck.
Individual	5.50 x 17, 30 x 5 or larger, but not 7.50 x 20 or larger.	300	Truck.
Multiple	7.50 x 20 or larger	1,500	Truck.

Each applicant may be authorized to purchase sufficient passenger-type camelback for each mold that he operates capable of retreading or recapping passenger-type tires to enable him to have the amount of passenger-type camelback specified in the following table, less the combined total of his inventory of passenger-type camelback as of midnight March 22, 1942, irrespective of where located, the amount of passenger-type camelback that the Board authorized him to purchase as an initial allotment of passenger-type camelback prior to October 12, 1942 and the amount of passenger-type camelback that he acquired subsequent to March 22, 1942, pursuant to § 1315.803 (d) (1) of these regulations.

Type of mold	Tire retreading capacity of mold	Number of pounds of camelback per mold	Type of camelback
Individual	Smaller than 7.50 x 20	1,500	Passenger.
Multiple	Smaller than 7.50 x 20	1,000	Passenger.

(b) *Form of application.* Application for authority to purchase an allotment of truck-type camelback and application for authority to purchase an allotment of passenger-type camelback shall be made on O.P.A. Form No. R–9 (Revised). In making the application and executing the certification the applicant shall follow the procedure set forth in § 1315.605 of these regulations.

(c) *Action by Board.* If the Board, in its discretion, determines that an application should be granted either wholly or in part, it shall note upon such application the amount and type of camelback the applicant is authorized to purchase and the serial number of the certificate to be issued. It shall then issue to such applicant a certificate on O.P.A. Form No. R–10 (Revised) for the appropriate amount and type of camelback.

(d) *Action by purchaser.* Upon receiving the completed certificate, the applicant may at any time purchase the number of pounds and type of camelback indicated thereon from any supplier of camelback. If the purchaser does not buy from one supplier all the camelback which he has been authorized to purchase, he shall return the certificate to the issuing Board and the Board shall thereupon issue as many certificates as are necessary to permit his purchases to be made among several suppliers.

(e) *Action by suppliers.* Prior to delivering or shipping any camelback pursuant to a certificate surrendered to him, the supplier must complete part A of the certificate. Part A must then be detached and returned to the issuing Board within five days after shipment of the camelback to the purchaser. If the supplier is a maker of camelback, part B must be retained as his record of the transaction. If the supplier is not a maker of camelback, he may use part B as the basis for replenishing his stock of camelback pursuant to paragraph (c) of § 1315.803 of these regulations.

(f) *Records.* Any person who has purchased an allotment of camelback pursuant to this section shall keep records at his principal Office and at each establishment where he operates molds capable of retreading or recapping tires showing the name and address of his supplier, the amount, type, grade and gauge of camelback that he purchased, the date of purchase, the amount, type, grade and gauge of camelback that was transferred by his supplier to each of his establishments, and the date of such transfer.

§ 1315.1005 *Records and reports by recappers and retreaders.* (a) * * *

(b) Any retreader or recapper who transfers camelback among his warehouses and premises, as provided in § 1315.803 (a) (2), shall keep records at both the premises from which the camelback is transferred and the premises to which the camelback is transferred showing the address of each, the date of transfer and the amount, size, type and gauge of camelback transferred. Any retreader or recapper who transfers a mold capable of retreading or recapping tires among his premises shall keep records at both the premises from which the mold is transferred and the premises to which the mold is transferred showing the address of each such premises, the date of transfer, the serial number, and the retreading capacity of the mold.

PART 1382—HARDWOOD LUMBER

[Amendment 2 to Maximum Price Regulation 97[4]]

SOUTHERN HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Paragraph (h) of § 1382.112, Appendix A, and §§ 1382.113 and 1382.114, Appendices B and C, are revoked and a new § 1382.113, Appendix B, is added as set forth below:

§ 1382.113 *Appendix B: Maximum prices for Southern hardwood lumber in special grades or items or prepared with special workings, treatments or services*—(a) *Application of Appendix B.* This section shall apply to Southern hardwood lumber which is sold on specifications (grades, items, workings, treatments and for services) not covered by Appendix A, § 1382.112, but shall not include the following:

(1) Glued stock
(2) Moulding
(3) Shiplap (Note: Construction boards worked to shiplap are governed by paragraph (b) (32) of § 1382.112, Appendix A.)
(4) Risers, step treads, threshholds, handrails
(5) Bevel and drop siding
(6) Flooring
(7) Switch, cross, and mine ties
(8) Mine material
(9) Small dimension stock
(10) Lath

(b) *Maximum prices for combination grades.* Where Southern hardwood lumber is sold on a Log Run, Mill Run, or No. 1 Common and Better grade for which no maximum price has been established in § 1382.112, Appendix A, the maximum price shall be the maximum price established in that section for the lowest grade of lumber contained in the stock that is sold on such special inspection grade. The seller, however, may grade and ship the lumber on the standard grades included in such special inspection grade and invoice the footage in each of the standard grades at a price not to exceed the maximum price established in this Maximum Price Regulation No. 97 for the respective standard grades.

(c) *Maximum prices for special grades (other than combination grades, items, workings, treatments and services.* The maximum price (for any seller) for Southern hardwood lumber in a special item or special grade (other than a combination grade) or prepared with a special working, treatment or service shall be computed by adjusting the maximum price established in Appendix A, § 1382.112, of this Maximum Price Regulation No. 97 for the most comparable standard grade or item in accordance with the differential or differentials which were employed or would have been employed by the producing mill during the period of October 1 to 15, 1941, subject to the following conditions:

(1) The mill must, within thirty days of entering into a contract for sale of stock subject to the provisions of this paragraph, file a report with the Lumber Branch of the Office of Price Administration, Washington, D. C., and with the buyer, on OPA Form 197:3 setting forth full details of the transaction, including (i) the name and address of the purchaser, (ii) the point of origin and the point of delivery of the stock, (iii) the species and grades of lumber ordered, (iv) the specifications, including any special working, treatment or service, (v) the price charged for the stock, including the functional commission or discount where the lumber is sold to or through a wholesaler or commission salesman, and (vi) an explanation of how the price was computed, including a showing that the price bears the same relationship to the most comparable standard grade or item of lumber as was employed or would have been employed by the producing mill during the period of October 1 to 15, 1941.

(2) Where the Office of Price Administration, within thirty days of receipt of the report, rules in writing that the seller has made an excessive charge for furnishing stock in special grades or items or prepared with special workings, treatments or services, the seller must readjust the sale price in accordance with the ruling of the Office of Price Administration. If the Office of Price Administration does not rule on the price within such time, the price submitted shall be considered approved.

(3) Pending action on the application of the producing mill by the Office of Price Administration, the seller may quote and deliver at a price which is agreed between buyer and seller to be subject to adjustment in accordance with the action taken on the application, but final payment may not be made and accepted until a maximum price has been approved by the Office of Price Administration.

(4) In the event that the Office of Price Administration approves the price charged by the producing mill, or in the event that the Office of Price Administration rules as to the maximum price which the mill may charge, the price as established shall become the maximum price which any seller thereafter may charge for lumber sold on the special specifications and shipped from the particular mill to which the price is applicable. In subsequent sales of such special stock the mill need not file a report with the Office of Price Administration unless the price quoted by the mill is in excess of the maximum price previously determined.

(5) Copies of OPA Form 197:3 can be obtained from the Office of Price Administration, or OPA Form 197:3 can be reproduced by the seller, providing no change is made in style or content of the form.

PART 1404—RATIONING OF APPAREL

[Amendment 1 to Ration Order 6[1]]

MEN'S RUBBER BOOTS AND RUBBER WORK SHOES RATIONING REGULATIONS

A new paragraph (i) to § 1404.43, and a new § 1404.71 are added; paragraph (a) of § 1404.31, paragraph (b) of § 1404.43, and § 1404.35 are amended as set forth below:

Acquisition and Transfer by Retailer, Distributor, and Manufacturer

* * * * *

§ 1404.31 *Transfer of rubber footwear to exempt person*—(a) *Procuring certificates after transfer to exempt persons.* Any person who transfers rubber footwear from an establishment to any of the agencies enumerated in paragraph (b) of this section; or to any person acquiring such rubber footwear for export to and use in any foreign country, or as slop-chest supplies for use of crew members aboard any ocean-going vessel operating in foreign, coastwise, or intercoastal trade; or who ships or otherwise sends rubber footwear to a Territory, Possession, or Dependency of the United States (except the District of Columbia), without the surrender of certificates, may, after such establishment has been registered pursuant to § 1404.20, apply to the Board on O. P. A. Form R–604 for Parts I of certificates authorizing the acquisition of the type and quantity of rubber footwear so transferred. A separate application shall be made for each type. Before the Board may grant any such application, the applicant shall exhibit to it bills of lading, shipping documents, or other proof of such transfer, and in the case of delivery to a vessel as slop-chest supplies the application shall be accompanied by a statement signed by the Collector of Customs or his deputy certifying that the number of pairs of rubber footwear delivered to the owner of the vessel or his agent was necessary for slop-chest supplies: *Provided, however,* That matters involving military or naval secrets, such as points at which delivery was made, need not be revealed to the Board.

* * * * *

§ 1404.35 *Disposal of rubber footwear acquired without certificates.* Any person who acquires rubber footwear without the surrender of certificates, pursuant to § 1404.40, may thereafter transfer such rubber footwear only upon surrender to him of appropriate certificates except as otherwise expressly provided in Ration Order No. 6. On or before the tenth day of the month following the month in which such transfer was made, Parts I of such certificates shall be surrendered for cancellation to the Central Inventory Unit of the Office of Price Administration, Empire State Building, New York City; and Parts III (if any) of such certificates shall be sent to the respective State Directors specified thereon.

Exceptions

* * * * *

§ 1404.43 *Other excepted transfers.* * * *

(b) *Transfers to exempt persons.* Any person may, at any time after the effective date of Ration Order No. 6, transfer, without the surrender of certificates, rubber footwear to any of the agencies enumerated in § 1404.31 (b); or to any person acquiring such rubber footwear for export to and use in any foreign country, or as slop-chest supplies for use of crew members aboard any ocean-going vessel operating in foreign, coastwise, or intercoastal trade; or may ship or otherwise send rubber footwear to a Territory, Possession, or Dependency of the United States (except the District of Columbia).

(i) *Transfers from slop-chests.* At any time after the effective date of Ration Order No. 6 a person who acquired rubber footwear as slop-chest supplies for use of crew members aboard any ocean-going vessel operating in foreign, coastwise, or intercoastal trade, may transfer such rubber footwear, without the surrender of certificates, to the members of the crew for use aboard such vessel.

Effective date

§ 1404.71 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1404.31 (a), 1404.35, 1404.43 (b) (i), 1404.71) shall become effective October 6, 1942.

PART 1499—COMMODITIES AND SERVICES

[Amendment 1 to Maximum Price Regulation 188[1]]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

A statement of considerations involved in the issuance of this amendment has been prepared and issued simultaneously herewith.

Sections 1499.153 (b) and (c), 1499.156 (b) (3), 1499.157 (e) (3), 1499.158, 1499.163 (a) (2), and 1499.166 are hereby amended to read as follows, a new subparagraph (5) is added to § 1499.163 (a), and new §§ 1499.159a and 1499.165a are added, as set forth below:

§ 1499.153 *Maximum prices for articles of building materials and consumers' goods finally priced before August 1, 1942.* * * *

(b) *Articles priced on and after April 1, 1942 and before August 1, 1942.* The maximum price for any article not delivered or offered for delivery in March 1942 by the manufacturer, for which a maximum price was finally determined in accordance with the provisions of §§ 1499.2 or 1499.3 of the General Maximum Price Regulation[2] or in accordance with the provisions of Temporary Maximum Price Regulations No. 3[3] or 5,[4] and which was offered for sale before August 1, 1942, (or which was offered for sale to the United States or an Allied Government before September 1, 1942), shall be the price so determined.

---

[1] 7 F.R. 7748.

[1] 7 F.R. 5872.

[2] 7 F.R. 3153, 3330, 3990, 3991, 4339, 4487, 4659, 4738, 5027, 5192, 5276, 3666, 5445, 5565, 5484, 5783, 6058, 6081, 6007, 6216, 6615, 6794, 6739, 7093, 7322, 7454, 7258.

(c) *Reports of maximum prices.* On or before August 20, 1942 (or in the case of sales to the United States Government or an Allied Government, on or before November 1, 1942), the manufacturer shall report to the Office of Price Administration, Washington, D. C., all maximum prices determined under paragraph (b) of this section which have not already been reported in accordance with the provisions of the General Maximum Price Regulation or Temporary Maximum Price Regulations Nos. 3 or 5. Such reports shall contain a description of the article, and shall indicate the method of determining the maximum prices. All such maximum prices shall be subject to adjustment (not to apply retroactively) at any time upon written order of the Office of Price Administration.

§ 1499.156 *Second pricing method: changes necessitated by shortages of materials or parts.* * * *

(b) *Reports of maximum prices.*

* * *

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in (1) prior to first offering the article for sale Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in (1) ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

§ 1499.157 *Third pricing method: pricing by comparable articles.* * * *

(e) *Reports of maximum prices.* * * *

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such a government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case, he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

§ 1499.158 *Fourth pricing method; specific authorization by the Office of Price Administration.*—(a) *Maximum prices.* The maximum price for any article or group of related articles which cannot be priced under §§ 1499.155, 1499.156, or 1499,157, or which cannot be priced under §§ 1499.155, 1499.156, or 1499.157 without undue hardship, shall be the price or prices, in line with the level of maximum prices established by this Maximum Price Regulation No. 188, specially authorized by the Office of Price Administration.

(b) *Reports of maximum prices.* Prior to first offering the article for sale the manufacturer shall submit to the Office of Price Administration, Washington, D. C., a report applying for specific authorization of a maximum price. The report shall contain a description in detail of the article (including the manufacturing process), a statement of the facts which make it necessary to price the article under this section, and the proposed maximum price, with a detailed explanation of its computation. If the manufacturer bases his report on undue hardship, he shall include in it all the information required by paragraph (e) of § 1499.157. If the manufacturer applies for approval of a pricing formula for a line or group of related articles, he shall include in his report a description in detail of the articles, including the manufacturing processes, and the manner in which they differ from one another, a statement of the pricing formula he proposes for such articles or the maximum prices he proposes, with a detailed explanation of their computation, and the reasons why such maximum prices or pricing formula will establish maximum prices in line with the level of maximum prices established by this Maximum Price Regulation No. 188. The manufacturer shall submit such other relevant information to supplement his report as the Office of Price Administration may require. Upon receipt of the authorization, the manufacturer may offer the articles for sale in accordance with the terms of the authorization.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer shall submit the report required in the above paragraph of this paragraph (b) ten days after the formation of the contract. The manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The price shall remain tentative until the maximum price has been determined by the Office of Price Administration.

§ 1499.159a *Classification of purchasers in sales to the United States Government and Allied Governments.* For a sale to the United States Government or an Allied Government of an article for which a maximum price has not been determined for sales to the class of purchasers to which such government belongs, but for which a maximum price has been determined under §§ 1499.153, 1499.155, 1499.156, 1499.157, or 1499.158 for sales to purchasers of a different class, if the manufacturer had no customary differential between the class of purchasers for which the maximum price has been determined and such government or the class to which it belongs, such government shall be regarded as belonging to the class of purchasers to whom the manufacturer customarily sold the article in quantities most nearly equal to the quantity of the article involved in the sale to such government. If the manufacturer customarily sells to more than one class of purchaser in such quantities, the lowest maximum price applicable to sales of the article to such classes of purchasers shall apply.

§ 1499.163 *Definitions.* (a) When used in this Maximum Price Regulation No. 188, the term:

* * * * *

(2) "Highest price charged during March, 1942" means

(i) The highest price which the seller charged to a purchaser of the same class for delivery of the article or material during March, 1942; or

(ii) If the seller made no such delivery during March 1942, such seller's highest offering price to a purchaser of the same class for delivery of the article or material during that month; or

---

[3] 7 F.R. 1578.

[4] 7 F.R. 1647.

(iii) If the seller made no such delivery and had no such offering price to a purchaser of the same class during March, 1942, the highest price charged by the seller during March, 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers: *Provided however,* That if, prior to April 1, 1942, the seller raised his prices for the delivery of a commodity to his classes of purchasers generally, and if during March, 1942, he delivered such commodity at the higher price to at least one class of purchasers, the highest price charged during March, 1942, for each class of purchasers

(*a*) To which no delivery was made during March, 1942, at the higher prices, and

(*b*) To which no delivery was made during March, 1942, at a lower price after the price rise, unless made pursuant to a firm commitment entered into before such price rise

shall be the seller's highest offering price for delivery to such class of purchasers during March, 1942.

* * * * *

(5) "The United States Government or an Allied Government" means the United States or any agency thereof, or the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such Government.

PART 1499—COMMODITIES AND SERVICES

[Order 86 Under § 1499.3 (b) of General Maximum Price Regulation [1]]

AMERICAN TOBACCO COMPANY

The American Tobacco Company, a corporation, has made application under § 1499.3 (b) of the General Maximum Price Regulation for determination of a maximum price for a Christmas package of smoking tobacco. Due consideration has been given to the application and an opinion in support of this order issued simultaneously herewith has been filed with the Division of the Federal Register.* For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with § 1499.3 (b) of the General Maximum Price Regulation. *It is hereby ordered,* That:

§ 1499.300 *Authorization of a maximum price for a certain Christmas package of smoking tobacco for the American Tobacco Company.* (a) On and after October 7, 1942, the American Tobacco Company may sell and deliver to any person and any purchaser may buy and receive from the American Tobacco Company a Christmas package of smoking tobacco (consisting of 1⅛ ounce each of Herbert Tareyton and Personal Tobacco and 1¼ ounce each of Blue Boar, Carlton Club and Serene Tobacco all of which are packed in individual cardboard containers assembled in the shape of a star hereinafter spoken of as "Christmas package") at a price no higher than hereinafter set forth:

$9.60 per dozen Christmas packages less 10% trade discount, and 2% cash discount for payment within 10 days.

(b) Any wholesaler or jobber may sell and deliver to any person and any person may buy and receive from such wholesaler or jobber the Christmas package at a price no higher than hereinafter set forth:

$9.60 per dozen Christmas packages less the customary discount or discounts given by such wholesaler or jobber on other tobaccos to a purchaser of the same class.

(c) Any retailer may sell and deliver and any person may buy and receive the Christmas package at a price no higher than $1.00 per package.

(d) The American Tobacco Company shall notify in writing all jobbers and wholesalers who purchase such Christmas package of the maximum prices established in paragraphs (a), (b) and (c) of this order for sales at wholesale and retail on or before the first delivery of such product after the effective date hereof and of the notification provision in paragraph (e) below.

(e) All suppliers of this Christmas package to sellers at retail on or before the first delivery of such product after the effective date hereof, shall notify in writing such sellers that the maximum price established for this Christmas package is $1.00 per package.

(f) This Order No. 86 may be revoked or amended by the Price Administrator at any time.

(g) This Order No. 86 (§ 1499.300) shall become effective October 7, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 6th day of October 1942.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new § 1347.11a is added and eight new subparagraphs (25), (26), (27), (28), (29), (30), (31), and (32) are added to § 1347.22 (a), as set forth below:

§ 1347.11a *Maximum prices for commodities which cannot be priced under § 1347.11.* (a) In the case of a product which was not sold or offered for sale by the manufacturer during the applicable specified base period, and which cannot be priced under § 1347.11 (a) and (b) but which has substantially the same use, is produced by substantially the same process, and varies from a product sold or offered for sale only in one of the details named in this paragraph, the maximum price shall be the maximum price for the most closely comparable product sold during the applicable specified base period. Such price shall be adjusted and computed in the manner hereinafter stated:

(1) *When the variance is in count, length, quantity, or basis weight.* A proportionate increase or decrease in price shall be made. For example, a 25% decrease in the count, length, quantity, or basis weight shall be reflected by a 25% decrease in the price of the package. If the product to be priced falls within a well recognized price series, however, the price of the product shall be computed by interpolating the product in the appropriate position, pricewise, in the series. No price computed under this subparagraph shall exceed the manufacturer's previous highest price in the same series.

(2) *When the variance is in type of size of package, or in quality (other than basis weight), or in a factor as to which a price reduction or increase based upon a smaller or greater consumer value cannot be accurately calculated.* A tentative reduced or increased price shall be calculated by the manufacturer. If interpolation in a recognized price series is possible, such interpolation shall be made in the manner stated in (1) above. No price computed under this subparagraph shall exceed the manufacturer's previous highest price in the same series.

(3) (i) Any price calculated under (1) and (2) above shall be reported to the Office of Price Administration, together with a full description of the comparable product which has been used as a base, a statement of the difference between the product being priced and the comparable product or products, and a justification of the manufacturer's calculation of maximum price.

(ii) The manufacturer may sell, deliver, or offer to sell or deliver at his proposed price if, but only if, he expressly agrees with each customer to adjust such price, if necessary, and to conform with any order or ruling issued by the Price Administrator with respect thereto. If within twenty-one days after the report is filed with the Office of Price Administration, the Administrator does not either disapprove or adjust the price, or extend the time for making such decision, such price may be deemed approved. At any future time, nevertheless, the Administrator may by order establish a lower maximum price for deliveries after the effective date of such order.

(b) The manufacturer's maximum price for a commodity which can not be priced under any of the foregoing sections or paragraph (a) above shall be a maximum price to be established at the level of prices prevailing during the applicable specified base period, in accordance with customary methods of computing prices on the basis of raw materials, conversion charges, margins, and charges for delivery. The general provisions of this paragraph shall be limited and defined by (1) (2) (3) and (4) below:

(1) *Raw materials costs.* The delivered purchase price at which the raw materials are acquired by a converting plant, or the transfer price of an integrated mill to its converting plant, neither of which shall in any event exceed the maximum prices established for such raw materials by the Office of Price Administration. In computing such transfer price, the manufacturer shall use the same method, classifications, and differentials as were used by such manufacturer in computing such transfer price during the applicable specified base period, excepting that such manufacturer may change such method, classifications and differentials, if a lower price results from such change. If, during the applicable specified base period, the manufacturer adopted or employed the practice of averaging or otherwise computing his raw materials costs, he shall continue such practice in the same manner. If a manufacturer acquired raw materials at less than maximum prices during the applicable specified base period, but computed his raw materials costs on the basis of ceiling prices for such raw materials during the applicable specified base period, he may continue to do so, provided the profit on raw materials thus taken, plus the margin, as described in (d) below, does not exceed in total the profit taken on raw materials, plus the margin, during the applicable specified base period. The manufacturer shall continue to add the same percentage charge for waste in estimating prices and applying credits received from the sale or other disposition of waste material in the same manner in which such credits or charges were applied during the applicable specified base period.

(2) *Applicable conversion charges.* Charges for hand and/or machine operations incident to the fabrication, assembly, marking and/or packing of commodities of the same general class shall not be computed in excess of the same hourly, piece and setting-up rates and shall be based on the same standards of production as were in effect during the applicable specified base period, and which were used in normally determining the selling prices of commodities and services contracted to be sold or supplied at a definite price during such period.

(i) The same method or principle for applying conversion charges shall be employed that was employed during the applicable specified base period, so that direct or indirect conversion charges shall be computed in the manner customarily employed during the applicable specified base period. Charges for a different type of conversion (e. g., hand rather than machine operations) shall not be substituted for customary conversion charges as a means of increasing the price of the product.

(3) *Margin.* This margin is to be computed on a percentage basis, or rate per unit of base material in accordance with the method, and shall be equivalent to the margin, used by the manufacturer during the applicable specified base period, in determining the selling price f. o. b. shipping point for the same or comparable commodity or service contracted to be sold at a definite price to a purchaser of the same class during such period.

(i) No seller shall change his customary allowances, discounts or other price differentials unless such change results in a lower price.

(4) *Charges for delivery.* No manufacturer shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery of any commodity, than the manufacturer required purchasers of the same class to pay during the applicable specified base period on sales of the same or similar types of commodities.

(c) In using this section, the manufacturer shall keep on record sufficient evidence establishing that such commodities cannot be priced by § 1347.11, and the prices thus computed are in accordance with the rules set forth in this section.

(d) In the case of sales involving a commodity where the manufacturer cannot establish the facts required by paragraphs (b) and (c), he shall file with the Office of Price Administration in Washington, D. C., an application for authorization of a method to determine his maximum price. This application shall set forth:

(1) A description in detail of the commodity for which a maximum price is sought.

(2) A statement of the facts which differentiate such commodities from other commodities sold or offered during the applicable specified base period.

(3) Comparative cost sheets showing the build-up of manufacturer's raw material costs, applicable conversion charges, and margin, for both the item which is to be priced and the nearest comparable item sold or offered during the applicable specified base period. Those elements of raw material costs, or applicable conversion charges which differ as between the items thus submitted, shall be described in sufficient detail to justify the difference of such elements.

§ 1347.22 *Definitions.* (a) When used in this Maximum Price Regulation No. 129 the term:

* * * * *

(25) "Applicable conversion charges" means the charges covering the normal operations used in producing the commodities or supplying the service to be priced.

(26) "Assembly" means the putting together of component parts of a commodity, or commodities, by such means as gluing, taping, covering, stitching, pasting, typing or otherwise fabricating.

(27) "Commodities of the same general class" means commodities made of essentially the same raw materials and requiring essentially the same hand or machine conversion processes.

(28) "Comparable commodity or service". (i) A "Comparable commodity" is one that is closely comparable by grade, cost and quantities of raw materials for a unit of the commodity and is most nearly alike for the converting operation required.

(ii) A "Comparable service" is one which has the same use and purpose and involves approximately the same operation.

(29) "Hand and/or machine operations". (i) "Hand operations" means the manufacturing processes including, but not limited to, fabrication, assembly, marking and packing, which require only the use of hand tools.

(ii) "Machine operations" means the manufacturing processes including, but not limited to, fabrication, assembly, marking and packing, which require the use of mechanical devices.

(30) "Hourly, piece and setting-up rates". (i) "Hourly rates" means the highest rate per hour for labor, machine, machine overhead, and other manufacturing expenses as established for estimating purposes during the applicable specified base period.

(ii) "Piece rates" means the highest rate per numerical unit for labor, machine, machine overhead and other manufacturing expenses as established for estimating purposes during the applicable specified base period.

(iii) "Setting-up rates" means the highest rate of the preparation of a machine for a particular conversion operation including such procedures as adjustment of feeding and receiving devices, installation of proper printing plates, cutting knives or creasing bars, and cleaning the machine after the completion of the conversion operation as established for estimating purposes during the applicable specified base period.

(31) "Margin" means the difference between the total of the factors set forth in (b) (1) and (2) of this section (raw material costs and applicable conversion charges) and selling price f. o. b. shipping point.

(32) "Applicable specified base period" refers to the dates mentioned in § 1347.11, which are either October 1–15, 1941, inclusive, or December 1–15, 1941, inclusive.

§ 1347.25 *Effective dates of amendments.* * * *

(h) Amendment No. 8 (§ 1347.11a, § 1347.22 (a) (25), (26), (27), (28), (29), (30), (31) and (32)) to Maximum Price Regulation No. 129 shall become effective October 13, 1942.

PART 1350—EMERGENCY CIVILIAN DEFENSE MATERIALS AND EQUIPMENT

[Maximum Price Regulation 234]

APPROVED STIRRUP PUMPS

A statement of considerations involved in the issuance of this regulation has been issued simultaneously herewith, and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[1] issued by the Office of Price Administration, Maximum Price Regulation No. 234 is hereby issued.

AUTHORITY: §§ 1350.51 to 1350.63, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1350.51 *Applicability of this Maximum Price Regulation No. 234.* This Maximum Price Regulation No. 234 applies only to stirrup pumps manufactured under purchase orders from Defense Supplies Corporation, according to specifications approved by the Office of Civilian Defense.

§ 1350.52 *Prohibition against dealing in approved stirrup pumps at prices above maximum prices.* On and after October 13, 1942, regardless of any contract or other obligations, no person is permitted to sell or deliver an approved stirrup pump at a price higher than the maximum price fixed by this Maximum Price Regulation No. 234 and no person is permitted to buy or receive an approved stirrup pump in the course of trade or business at a price higher than the maximum price.

§ 1350.53 *Maximum prices for sales of approved stirrup pumps in the Continental United States.* (a) Maximum prices for sales or deliveries of approved stirrup pumps in the Continental United States are as follows:

Name of manufacturer	Factory price	Wholesale price	Higher retail price	Lower retail price
The Oakes Mfg Co., Tipton, Ind.	$1.96	$2.41	$3.45	$3.10
Tennessee Stove Works, Chattanooga, Tenn.	1.98	2.43	3.50	3.15
Independent Lock Co., Fitchburg, Mass.	2.18	2.63	3.80	3.40
Standard Container Inc., Rockaway, N. J.	1.86	2.31	3.30	3.00

(b) The price listed under "factory price" in paragraph (a) is the maximum price for sales by the named manufacturer to all classes of purchasers, including municipalities and local defense councils. The price is f. o. b. factory.

(c) The price listed under "wholesale price" in paragraph (a) is the maximum price for:

(1) Sales by a person other than the manufacturer to purchasers for resale, including retailers.

(2) Sales to all classes of purchasers by a jobber or wholesaler who does not customarily sell to ultimate consumers other than industrial or commercial users except as an accommodation.

(3) Sales to ultimate consumers by a municipality or defense council.

The "wholesale price" shall be a delivered price.

(d) The price listed under "lower retail price" in paragraph (a) is the maximum price for all sales to an ultimate consumer by a person who buys directly from the manufacturer, other than sales to which the "wholesale price" is applicable. A sale through a retail establishment by a person who maintains separate wholesale and retail establishments shall be deemed to be a "sale by a person who buys directly from the manufacturer", regardless of the fact that the purchase from the manufacturer is made by the wholesale establishment.

(e) The price listed under "higher retail price" in paragraph (a) is the maximum price for all sales except those for which a lower maximum price is established by the above paragraphs of this § 1350.53.

§ 1350.54. *Maximum prices for sales of the approved stirrup pumps in the territories and possessions.* For a sale or delivery of an approved stirrup pump in a territory or possession of the United States, the maximum price shall be as follows:

(a) For the following sales by persons who import the stirrup pumps from the Continental United States, the maximum price is the seller's direct cost plus $.40:

(1) Sales to a purchaser for resale.

(2) Sales to all classes of purchasers by a jobber or wholesaler who does not customarily sell to ultimate consumers other than industrial or commercial users except as an accommodation.

(3) Sales to an ultimate consumer by a municipality or defense council.

The price shall be a delivered price.

(b) For a sale by a retailer of a stirrup pump imported from the Continental United States by him or by the wholesaler from whom he buys the maximum price is the seller's direct cost plus $1.25, adjusted upward to the nearest nickel.

(c) For all sales other than those for which maximum prices are established by paragraphs (a) and (b) of this § 1350.54, the maximum price is the price paid by the seller.

§ 1350.55 *Credit charges.* The maximum prices established by this Maximum Price Regulation No. 234 shall not be increased by any charge for the extension of credit other than retailers' customary carrying charges for credit to the extent that they were stated and charged separately in the past.

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 971, 3663, 6967.

§ 1350.56 *Taxes.* As to any tax upon, or incidental to, the sale or delivery of an approved stirrup pump, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, if the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1350.57 *Retail price labels.* Before the delivery to any purchaser for resale of an approved stirrup pump, except a pump that is to be exported to a territory or possession, the manufacturer must attach securely to such pump so that it is clearly visible a durable tag containing in easily readable lettering the statement in the following form:

> The Office of Price Administration has established a retail ceiling price of $— for this stirrup pump. Lower prices may be charged. This tag may not be removed until after delivery to the consumer.

Tags attached to pumps sold directly to retailers, by manufacturers, shall state the price designated in § 1350.53 (a) as the lower retail price. Tags attached to pumps sold by manufacturers to wholesalers or jobbers shall state the price designated as the higher retail price. Tags attached to pumps sold by manufacturers to municipalities and defense councils shall state the price designated as the wholesale price.

A person customarily selling at both wholesale and retail must re-mark the tags on those pumps, purchased directly from the manufacturer, which he sells to ultimate consumers, so that the tags will state the "lower retail price".

§ 1350.58 *Relation between Maximum Price Regulation No. 234, the General Maximum Price Regulation,[2] and Maximum Price Regulations Nos. 188,[3] 194,[4] and 201.[5]* (a) The provisions of this Maximum Price Regulation No. 234 supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulations Nos. 188, 194, and 201 with respect to sales and deliveries for which maximum prices are established by this Maximum Price Regulation No. 234, except as otherwise provided in paragraph (b) of this § 1350.58. However, the seller must comply with the following provisions, which are identical, except for appropriate changes in dates and terminology, with the sections of the General Maximum Price Regulation having the same heading:

(1) *Sales for export.* The maximum price at which a person may export an approved stirrup pump shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation.

(2) *Sales slips and receipts.* Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the article sold, and the price received for it.

(3) *Petitions for amendment.* Any person seeking a modification of any provision of this Maximum Price Regulation No. 234 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

(b) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this Maximum Price Regulation No. 234 selling at wholesale or retail an approved stirrup pump. When used in this section the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o), respectively, of the General Maximum Price Regulation.

§ 1350.59 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 234 may be charged, demanded, paid, or offered.

§ 1350.60 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 234 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to the approved stirrup pumps, alone or in conjunction with any other commodity, by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1350.61 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 234 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 234 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1350.62 *Definitions.* (a) When used in this Maximum Price Regulation No. 234 the term:

(1) "Continental United States" means the forty-eight states and the District of Columbia.

(2) "Direct cost to the seller" means the price which the seller paid, less discounts allowed to the seller, plus all costs of shipment to the seller actually incurred by him: *Provided,* That in computing the costs of shipment incurred by the seller, war risk insurance costs shall not exceed the amount represented by the charge for war risk insurance by the War Shipping Administration on an identical shipment.

(3) "A sale in a territory or possession of the United States" does not include sales from a seller outside of a territory or possession to a purchaser in the territory or possession. Export sales, from a seller in the Continental United States to a purchaser in a territory or possession of the United States, shall be governed by the maximum prices established for export sales by the Revised Maximum Export Price Regulation.

(b) Unless the context otherwise requires, the definitions set forth in the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1350.63 *Effective date.* This Maximum Price Regulation No. 234 (§§ 1350.51 to 1350.63, inclusive) shall become effective October 13, 1942.

Issued this 7th day of October 1942.

LEON HENDERSON,
Administrator.

PART 1351—FOODS AND FOOD PRODUCTS

[Amendment 10 to Revised Price Schedule 53[1]]

FATS AND OILS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Subparagraph (8) of paragraph (b) of § 1351.151 is amended to read as set forth below:

§ 1351.151 *Maximum prices for fats and oils.* * * *

(b) * * *

(8) *Lard.* On and after October 13, 1942, subparagraphs (1) to (5), both inclusive, and subparagraph (7) of this paragraph (b) shall have no application to lard and the maximum prices thereof shall be computed as follows:

(i) *Chicago and East St. Louis basing points area.* This area shall include that part of the continental United States east of the Mississippi River and north of the northern boundaries of Tennessee and North Carolina. Chicago and East St. Louis basing points maximum prices:

(*a*) Loose lard, 12.80 cents per pound, in tank cars, delivered within corporate limits of basing points.

(*b*) Base or standard commercial refined lard, 14.55 cents per pound, in tierces, delivered within corporate limits of basing points.

(*1*) The maximum price that may be charged by any processor for loose lard, delivered, at any community in this area, outside the corporate limits of the basing points, shall be 12.80 cents per pound, plus the tank-car freight rate per pound on loose lard from the nearest basing point in the area to the community of sale. No other charges may be added to this delivered price.

(*2*) The maximum price at which a processor may sell base or standard commercial refined lard in tierces, delivered, at any community in this area, outside the corporate limits of the basing points, shall be 14.55 cents per pound, plus the packing house product freight rate, tare added, between the nearest basing point and the community of sale. No other charges may be added to this delivered price.

(ii) *Kansas City basing point area.* This area shall include that part of the continental United States east of the Mississippi River and south of the southern boundaries of Kentucky and Virginia. Kansas City basing point maximum prices:

(*a*) Loose lard, 12.55 cents per pound, in tank cars, delivered within corporate limits of Kansas City.

(*b*) Base or standard commercial refined lard, 14.30 cents per pound, in tierces, delivered within corporate limits of Kansas City.

(*1*) The maximum price that may be charged by any processor for loose lard, delivered, at any community in this area shall be 12.55 cents per pound, plus the tank-car freight rate per pound on loose lard from the basing point for this area to the community of sale. No other charges may be added to this delivered price.

(*2*) The maximum price at which a processor may sell base or standard commercial refined lard in tierces, delivered, at any community in this area shall be 14.30 cents per pound, plus the packing house product freight rate, tare added, between the basing point and the community of sale. No other charges may be added to this delivered price.

(iii) *Multiple basing point area.* This area shall include that part of the continental United States west of the Mississippi River. Basing points shall be as follows:

Iowa: Cedar Rapids, Davenport, Des Moines, Dubuque, Fort Dodge, Marshalltown, Mason City, Ottumwa, Waterloo.

Minnesota: Albert Lea, Austin, Duluth, South St. Paul, St. Paul, Winona.

Missouri: Joplin, Kansas City, South St. Joseph, Springfield.

Nebraska: South Omaha, Omaha.

Maximum prices at each of these basing points shall be as follows:

(*a*) Loose lard, 12.55 cents per pound, in tankcars, delivered within corporate limits of basing points.

(*b*) Base or standard commercial refined lard, 14.30 cents per pound, delivered within corporate limits of basing points.

(*1*) The maximum price that may be charged by any processor for loose lard, delivered, at any community in this area, outside the corporate limits of the basing points, shall be 12.55 cents per pound, plus the tankcar freight rate per pound on loose lard from the nearest basing point in the area to the community of sale. No other charges may be added to this delivered price.

(*2*) The maximum price at which a processor may sell base or standard commercial refined lard in tierces, delivered, at any community in this area, outside the corporate limits of the basing points, shall be 14.30 cents per pound, plus the packing house products freight rate, tare added, between the nearest basing point and the community of sale. No other charges may be added to this delivered price.

(iv) To determine his maximum price for lard other than loose lard or base or standard commercial refined lard in tierces, the processor should determine his maximum price for base or standard commercial refined lard in tierces, in accordance with this schedule, and to this figure add no more than, or, subtract at least the quality differentials hereinafter set forth for the appropriate type of lard, irrespective of area, quantity, or type of package:

Prime steam	¾ cent per pound under base or standard commercial refined lard.
Rendered pork fat	1 cent per pound under base or standard commercial refined lard.
Refined rendered pork fat.	¼ cent per pound under base or standard commercial refined lard.
Base or standard commercial refined lard.	None.
Special refined hardened lard.	¼ cent per pound over base or standard commercial refined lard.
Open kettle rendered lard.	½ cent per pound over base or standard commercial refined lard.
Neutral lard	1 cent per pound over base or standard commercial refined lard.
Lard flakes	1½ cents per pound over base or standard commercial refined lard.
Rendered pork fat flakes.	1½ cents per pound over rendered pork fat.

(v) To determine his maximum price for lard sold in other than tierces, the processor should first compute his maximum price for the particular type of lard involved, in accordance with the above provisions of this schedule, then, to this figure he may add a sum equal to, but no more than, the differential hereinafter set forth for the appropriate type of package, irrespective of area, quantity or quality:

	Cents per lb.
Tierces	None.
400 pound nonreturnable steel drums	None.
120 pound nonreturnable steel drums	None.
57 pound tubs	None.
65 pound hardwood tubs	⅛
50 pound tins	¼
25 pound tins	½
20 pound tins	1
16 pound tins	1
20 pound wooden pails	1
8 pound tins	1
4 pound tins	1¼
8 pound cartons	¼
4 pound cartons	¼
2 pound cartons	¼
1 pound cartons	¼

(vi) If a processor sells lard in a type of package not listed in (v) above, his maximum price for lard sold in such type of package shall be his maximum price for the particular type of lard involved, in accordance with this schedule, plus the usual or normal differential for such type of package.

(vii) The maximum price for cash lard shall be 13.80 cents per pound, Chicago basis, and the maximum price for lard futures contracts traded on the Chicago Board of Trade shall be 13.80 cents per pound.

(viii) The maximum price for F. S. C. C. lard shall be 14.25 cents per pound, Chicago processor's plant, in export boxes, and shall be subject to such zone differentials for other areas as are established by F. S. C. C. regulations.

(ix) Where a processor operates a branch house from which lard products are distributed and manufactures no lard at such branch, the maximum delivered price at which such branch house may sell a particular lard commodity shall be the processor's maximum delivered price at the community of sale on such lard commodity, as established by this schedule, plus ¾ cent per pound.

(x) Where a branch house processes lard, it should compute its maximum price on such lard in the same manner as any other processor, in accordance with the provisions of this schedule.

(xi) Where a processor sells through car-route, the maximum price on any particular lard commodity shall be the processor's maximum delivered price at the community of sale on such lard commodity, as established by this schedule, plus ¾ cent per pound.

(xii) *Definitions.* When used in §1351.151 (b) (8) of Revised Price Schedule No. 53, the term:

(*a*) "Loose lard" means lard conforming with paragraph 29, section 1, Regulation 1 of the Meat Inspection Regulations of the United States Department of Agriculture regardless of rendering method and not refined or packaged.

(*b*) "Prime steam lard" shall be considered the same as loose lard both as to definition and price consideration except that it shall be rendered in steam tanks.

(*c*) "Cash lard" means prime steam lard in tierces conforming with the requirements of paragraph 1479, pages 183–184, of the Rules and Regulations of Board of Trade of City of Chicago, March 8, 1941.

(*e*) "Refined rendered pork fat" means rendered pork fat, as defined above, regardless of rendering method used in processing such pork fats, refined under standard commercial practice to conform to the following specifications:

Moisture—not to exceed 0.3% as tested by the vacuum oven method of the Association of Official Agricultural Chemists.

Suspended matter—shall be free from appreciable amounts of suspended matter.

F. F. A.—not to exceed 0.5%, as tested by method of the Association of Official Agricultural Chemists.

Taste and odor—shall be mild, sweet and normal.

Stability—not less than three hours as determined by active oxygen method. (King, Roschen & Irwin, Oil and Soap *10*, 105, June, 1933.)

(*f*) "Base or standard commercial refined lard" means that kind of lard produced from loose lard, regardless of rendering method used in making the loose lard, and refined under standard commercial practice to conform to the following specifications:

Moisture—not to exceed 0.3%. (Same test as above.)

Suspended matter—shall be free from appreciable amounts of suspended matter.

F. F. A.—not to exceed 0.5%. (Same test as above.)

Taste and odor—shall be mild, sweet and normal for pure lard.

Stability—not less than three hours as determined by active oxygen method.

Plasticity—shall remain solid and be plastic and workable at ordinary temperatures.

(*g*) "Special refined hardened lard" means lard which conforms to the requirements of base or standard commercial refined lard, as above defined, with the addition of a minimum of 8% lard flakes which have a minimum titre of 57° C. and shall conform to the following specifications:

Moisture—not to exceed 0.2%. (Same test as above.)

Suspended matter—shall be free from appreciable amounts of suspended matter.

F. F. A.—not to exceed 0.5%. (Same test as above.)

Taste and odor—shall be mild, sweet and normal for pure lard.

Stability—not less than three hours as determined by active oxygen method.

Melting point—not less than 45° C., as tested by Wiley Method of the Association of Official Agricultural Chemists.

(*h*) "Open kettle rendered lard" means that kind of lard which is produced from 100% leaf fat or any mixture of leaf fat and back fat down to a minimum of 40% leaf fat, and is kettle rendered in a regular commercial manner to conform to the following specifications:

Moisture—not to exceed 0.3%. (Same test as above.)

Suspended matter—shall be free from appreciable amounts of suspended matter.

F. F. A.—shall be less than 0.5%. (Same test as above.)

Taste and odor—shall have a characteristic kettle rendered flavor.

Stability—not less than five hours as determined by active oxygen method.

Plasticity—shall remain solid and be plastic and workable at ordinary temperatures.

(*i*) "Neutral lard" means that kind of lard from fresh chilled leaf fat only, rendered at a temperature not exceeding 130° F., to conform to the following specifications:

Moisture—not to exceed 0.3%. (Same test as above.)

Suspended matter—shall be free from appreciable amounts of suspended matter.

F. F. A.—not to exceed 0.5%. (Same test as above.)

Taste and odor—shall be neutral in flavor.

Stability—not less than ten hours as determined by active oxygen method.

(*j*) "Lard flakes" means hydrogenated lard which conforms with paragraph 29, section 1, Regulation 1 of the Meat Inspection Regulations of the United States Department of Agriculture. The titre shall not be less than 57° C. and free fatty acid shall not exceed 0.2%.

(*k*) "Rendered pork fat flakes" means hydrogenated rendered pork fat conforming to paragraph 30, section 1, Regulation 1 of the Meat Inspection Regulations of the United States Department of Agriculture.

(*l*) "F. S. C. C. lard" means lard prepared in conformity with specifications established and commercially accepted for such lard.

§ 1351.159 *Effective dates of amendments.* * * *

(*j*) Amendment No. 10 (§ 1351.151 (b) (8)) to Revised Price Schedule No. 53 shall become effective October 13, 1942.

AUTHORITY: §§ 502.75 to 502.84, inclusive, issued under E.O. 8989, 6 F.R. 6725.

§ 502.75 *Definitions.* As used in this subpart or orders issued hereunder:

(a) The term "person" means any individual, firm, copartnership, corporation, association, governmental corporation, or other type of legal entity, or any trustee, receiver, assignee, or personal representative;

(b) The term "vessel" means any water craft or other artificial contrivance of whatever description which is designed or converted for use, and which is used, or is capable of being used, or is intended to be used, as a means of transportation by water of property other than liquid cargo in bulk, and which is documented under the laws of the United States or owned by a citizen of the United States or which is engaged in transportation by water of property between points and places in the United States;

(c) The term "vessel of the self-unloader belt type" means any vessel equipped with a belt conveyor self-unloading device;

(d) The term "ore type vessel" means any vessel certified by the Office of Defense Transportation as capable of transporting iron ore.

§ 502.76 *Permit required.* No person shall operate any vessel on the Great Lakes except in the transportation of such property, from and to such points and places, as may be authorized by a general or special permit issued by the Office of Defense Transportation.

§ 502.77 *Application for permit.* Application for permit shall be made in writing to the Office of Defense Transportation and shall be in such form and contain such information as the Office of Defense Transportation shall require.

§ 502.78 *Certification of vessels.* The Office of Defense Transportation may, from time to time, determine the type of cargo that any vessel operated on the Great Lakes is capable of transporting and certify such determination by the issuance of a certificate with respect to any such vessel.

§ 502.79 *Control of vessels.* (a) Whenever the Office of Defense Transportation shall deem it advisable, any person having possession or control of any vessel operated on the Great Lakes shall, notwithstanding any contract, charter, lease, or other commitment, express or implied, with respect to the use or operation of such vessel, cause such vessel (1) to be operated in such manner, for such purpose, and between such points and ports, as the Office of Defense Transportation shall from time to time direct, and (2) to be chartered, leased or rented by any such person to such person or persons as the Office of Defense Transportation shall from time to time direct. Unless the interested parties agree upon the amount of compensation payable for the use of any such vessel, so directed to be chartered, leased, or rented, the amount of such compensation shall be such amount as may be determined by the Office of Defense Transportation to be just and equitable, subject to any applicable maximum price established by any competent government authority.

(b) The provisions of this section shall not be so construed or applied as to require or authorize any person operating a vessel to perform any transportation service, the performance of which by such person is not authorized or sanctioned by law.

§ 502.80 *Records and reports.* Every person owning, chartering, subchartering, leasing, subleasing, loading, unloading, or operating a vessel on the Great Lakes shall keep such records and make such reports as the Office of Defense Transportation shall require.

§ 502.81 *Suspension of provisions.* The provisions of this subpart or any part thereof may be suspended from time to time, by order of the Office of Defense Transportation.

§ 502.82 *Exemptions.* The provisions of this subpart shall not apply:

Bituminous Coal Division.

[Docket No. B-227]

BOEHMAN BROTHERS

CEASE AND DESIST ORDER, ETC.

In the matter of Albert M. Boehman and Joseph J. Boehman, individually and as co-partners, doing business under the name and style of Boehman Brothers.

Order approving and adopting proposed findings of fact, proposed conclusions of law, and recommendation of the examiner, and cease and desist order.

A complaint pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 having been filed with the Bituminous Coal Division on March 4, 1942, by District Board No. 11, alleging that Albert M. Boehman and Joseph J. Boehman, individually and as co-partners, doing business under the name and style of Boehman Brothers, a code member in District No. 11, operating the Boehman No. 2 Mine (Mine Index No. 592), wilfully violated the provisions of the Bituminous Coal Code of 1937 and the Rules and Regulations thereunder. Complainant prayed that the Division either cancel and revoke the Boehman Brothers' code membership, or in its discretion direct the Defendant to cease and desist from further violations of the Code and the Rules and Regulations thereunder;

A hearing having been held on April 22, 1942, before Joseph D. Dermody, a duly designated Examiner of the Division, at a hearing room thereof in Vincennes, Indiana;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated August 20, 1942, recommending that an order be entered directing the code members to cease and desist from violations of the Code and the Rules and Regulations thereunder;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions and supporting briefs having been filed;

The undersigned having considered this matter and having determined that the proposed findings of fact and proposed conclusions of law of the Examiner should be approved and adopted as the findings of fact and conclusions of law of the undersigned;

Now, therefore, it is ordered, That the proposed findings of fact, proposed conclusions of law of the Examiner be, and they hereby are, adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That the code member, Albert M. Boehman and Joseph J. Boehman, individually and as co-partners, doing business under the name and style of Boehman Brothers, as partners and as individuals, their representatives, agents, servants, employees, attorneys and all persons acting or claiming to act for or in their behalf or interest, cease and desist, and they are hereby permanently enjoined and restrained from selling or offering to sell coal below the prescribed minimum price therefor, and from violating the Bituminous Coal Act, or any rules and regulations promulgated thereunder, the Bituminous Coal Code, or any provisions thereof.

It is further ordered, That the Division may, upon the failure of the code members herein to comply with this order, apply to the Circuit Court of Appeals of the United States within any circuit where they carry on business for enforcement thereof, or take any other appropriate action.

Dated: October 6, 1942.

[Order 1 Under § 1389.118 (c) of Maximum Price Regulation 177—Men's and Boys' Tailored Clothing—Docket 3177-1]

JOSEPH H. COHEN AND SONS VANITY CLOTHES, INC.

ORDER ADJUSTING MAXIMUM PRICES

An opinion in support of this order is issued simultaneously herewith and filed with the Division of the Federal Register. Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and pursuant to Procedural Regulation No. 1 and § 1389.118 (c) of Maximum Price Regulation 177, *It is hereby ordered:*

(a) Joseph H. Cohen and Sons Vanity Clothes Inc. of 71 Fifth Avenue, New York, New York, may sell and deliver, and agree, offer, solicit and attempt to sell and deliver the garments of men's and boys' tailored clothing set forth in paragraph (b) of this order at prices not in excess of the prices prescribed by that paragraph. Any person may buy and receive, and agree, offer, solicit, and attempt to buy and receive such garments at such prices from Joseph H. Cohen and Sons Vanity Clothes Inc.

(b) (1) The garments which may be sold pursuant to this order are men's and boys' suits made from the specific pieces of goods, purchased by Joseph H. Cohen and Sons Vanity Clothes Inc. before July 11, 1942, which are listed in paragraph (i) of this order by mill of origin, fabric name or lot number, total yardage and price paid.

(2) The maximum price for any garment sold pursuant to this order, referred to as the "new garment," shall be determined as set forth below:

(i) Find that group of garments, similar to garments which the seller booked during the base period, which has the highest current cost; this group is referred to as the "seller's highest price line."

(ii) Find the maximum price of the seller's highest price line.

(iii) Add to the maximum price of the seller's highest price line whichever is the lower of the following:

(*a*) The difference between the actual cost of the principal material used in garments in the seller's highest price line, and the actual cost of the principal material used in the new garment; or

(*b*) The difference between the total current cost of garments in the seller's highest price line, and the total current cost of the new garment.

The result is the maximum price of the new garment under this order.

(c) This order does not authorize any person other than Joseph H. Cohen and Sons Vanity Clothes Inc. to sell at prices in excess of the maximum prices established by Maximum Price Regulation 177, and shall not be made the basis for any application for adjustment or amendment by any person who buys or receives garments sold pursuant to this order.

(d) With respect to the garments affected by this order, Joseph H. Cohen and Sons Vanity Clothes Inc. shall be subject to the reporting requirements of Maximum Price Regulation 177 and shall file such other reports, and answer such other inquiries, as the Office of Price Administration, or any duly authorized officer thereof, may from time to time require.

(e) All relief requested by Joseph H. Cohen and Sons Vanity Clothes Inc. in its petition 3177-1, which is not granted by this order, is denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) Unless the context otherwise requires, the definitions set forth in § 1389.119 of Maximum Price Regulation 177 shall apply to terms used in this order.

(h) This order shall become effective October 10, 1942, and shall expire on March 31, 1943.

CHARLES GLENN COLE

[Suspension Order 140]

ORDER RESTRICTING TRANSFER OF GASOLINE

Charles Glenn Cole, 490 Main Street, Canton, Georgia, herein called respondent, was duly served with a notice of specific charges of violations of the Emergency Gasoline Rationing Regulations and a notice of hearing thereon. Respondent has waived the holding of a hearing pursuant to said notice and has stipulated certain facts with the Office of Price Administration. Upon the facts so stipulated by respondent, it is hereby determined:

That respondent has violated the Emergency Gasoline Rationing Regulations in that on July 6, 1942, in Canton, Georgia, he purchased and received from one, John Teasley, a Dealer, nineteen gallons of gasoline for highway use in a motor vehicle, said transfer being made partly in bulk and partly by delivery into the fuel tank of an automobile clearly identifiable as a private passenger vehicle and without in either instance the exhibition of any gasoline rationing card Class X or the cancellation of any unit of any gasoline rationing card Class A or B.

Because of the great scarcity and critical importance of gasoline in the Georgia area, violations of the Emergency Gasoline Rationing Regulations have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense.

It is therefore ordered, That:

(a) Respondent is hereby prohibited from receiving transfer or delivery of 20 gallons of gasoline included in the ration heretofore issued to him by the Office of Price Administration.

(b) Respondent shall forthwith surrender to the local War Price and Rationing Board which issued them, the gasoline rationing coupon books which have been issued to him under the gasoline rationing regulations. Upon surrender of said books, said Board shall immediately detach therefrom and cancel gasoline rationing coupons evidencing the right of respondent to receive transfer or delivery of 20 gallons of gasoline. Said books shall then be returned to respondent. Currently valid coupons shall first be detached and cancelled and if sufficient currently valid coupons are not now in the books, the deficiency shall be made up by detaching coupons next becoming valid.

(c) This suspension order shall become effective October 8, 1942.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125, 7 F.R. 2719; WPB Directive No. 1 and Supp. Dir. No. 1H, 7 F.R. 562, 3478, 3477.)

National Power & Light Company

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 3rd day of October, A. D. 1942.

The Commission having permitted to become effective, by order dated July 3, 1942, a declaration and an amendment thereto filed by National Power & Light Company, a registered holding company, pursuant to the provisions of the Public Utility Holding Company Act of 1935, particularly section 12 (c) thereof and Rule U-42 thereunder, regarding a program for the acquisition by National Power & Light Company of $330,000 principal amount of non-callable Fifty-Year Five Per Cent Collateral Trust Mortgage Gold Bonds, due July 1, 1951, of Lancaster County Railway and Light Company, the payment of which bonds has been assumed by National Power & Light Company; and

National Power & Light Company having acquired for retirement during the period commencing July 3, 1942, and terminating September 23, 1942, $213,500 principal amount of said bonds of Lancaster County Railway and Light Company, leaving outstanding as of September 23, 1942, $116,500 principal amount thereof; and

National Power & Light Company having requested that the time to carry out the program regarding the acquisition of said bonds of Lancaster County Railway and Light Company in accordance with the terms and conditions of, and for the purposes stated in said declaration, be extended for a period of ninety days from the date hereof, and it appearing appropriate that such request be granted.

It is ordered, That the time to carry out the program regarding the acquisition by National Power & Light Company of $116,500 principal amount of non-callable Fifty-Year Five Per Cent Collateral Trust Mortgage Gold Bonds, due July 1, 1951, of Lancaster County Railway and Light Company, in accordance with the terms and conditions of, and for the purpose stated in the declaration aforesaid, be, and the same hereby is, extended for a period of ninety days from the date hereof.

By the Commission.

NOTICE REGARDING FILING

[File No. 70-606]

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 3rd day of October, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named party or parties; and

Notice is further given that any interested person may, not later than October 21, 1942, at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Kansas City Gas Company, a subsidiary of Cities Service Company, a registered holding company, proposes to issue to Commerce Trust Company, Kansas City, Missouri, its promissory note in the principal amount of $800,000 to evidence a bank loan to applicant in like principal amount. The note will bear interest at the rate of 2% per annum, will be dated October 28, 1942 and will mature nine months from its date.

The proceeds of the above described loan, together with $400,000 of the company's cash funds available for the purpose, are to be used to pay at maturity a like promissory note outstanding in the amount of $1,200,000.

By the Commission.

Engineers Public Service Company, et al.

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of October, A. D. 1942.

In the matter of Engineers Public Service Company and its subsidiary companies, respondents.

Engineers Public Service Company and its subsidiary companies, respondents herein, have filed a petition for rehearing on our order dated September 16, 1942, wherein we directed Engineers Public Service Company and El Paso Electric Company, an intermediate holding company under Engineers and itself a registered holding company, to sever their relationships with certain companies and businesses. The petition also requests leave to adduce additional evidence and a stay of our order.

(1) As a petition for rehearing, the petition raises no new issues and presents no new arguments which were not presented to us in the course of the hearing, in the briefs and in oral argument.

(2) The additional evidence sought to be adduced falls into two parts:

a. A volume marked "Respondent's Proffer of Constitutional Evidence", consisting of a transcript of testimony proposed to be given by M. H. Waterman and exhibits compiled at his direction, and proffered for the purpose of establishing the unconstitutionality of section 11 (b) (1) as applied to the respondents. In our previous opinion of July 23, 1941 (9 Sec. —,[1] Holding Company Act Release No. 2897), we held that this evidence was inadmissible, but that, if the respondents desired to make a more complete proffer of the evidence to save their rights for the purposes of judicial review, we had no objection to their doing so. Thereafter, respondents offered the volume in evidence, and, pursuant to our previous direction, the trial examiner excluded it. The petition advances no new reasons why this evidence should be admitted, and we adhere to our previous ruling.

b. Evidence relating to the application of clauses (A), (B) and (C) of section 11 (b) (1) of the Act to the retention of the utility systems of Gulf States Utilities Company and/or El Paso Electric Company as additional systems to the electric utility system of Virginia Electric and Power Company as the principal system. As grounds for failure to adduce the evidence referred to, respondents state:

> that the Commission, by its Findings and Opinion and Order of July 23, 1941, herein erroneously made as the law of this case an interpretation of subdivision (B) of section 11 (b) (1) of the Act which prevented and precluded the petitioners from offering or proffering earlier any such evidence.

This argument appears to be directed to a failure to adduce evidence under the (A) and (C) standards rather than under the (B) standard, as to which full argument and briefs were submitted in the record on which our findings, opinion and order of July 23 were based. Our interpretation of Clause (B) was arrived at upon these briefs and argument of counsel, and after careful study on our part. We adhere to that interpretation. Since Clauses (A), (B) and (C) are set forth in the statute in the conjunctive, it would be necessary to find that the standards of all three clauses are met if Engineers were to be permitted to keep the combination of systems here referred to. Our finding that the combination was barred by Clause (B) rendered evidence addressed to the (A) and (C) standards irrelevant, and the hearings will therefore not be reopened for its admission.

(3) The petition prays for a stay of our order of September 16, 1942, during the pendency of the petition and until the closing of the record after the reception of the requested evidence. Since we have concluded that no rehearing or reopening of the hearing is to be granted, no valid grounds exist for such a stay.

In view of respondents' assertion, however, that they were aggrieved by the provision of our order of September 16 allowing Engineers fifteen days in which to petition for leave to retain the electric utility system of Gulf States Utilities Company as its principal system, we shall modify the order to the extent of permitting the fifteen-day period to run from the date of this opinion and order. In other respects—as a petition for rehearing, for leave to adduce additional evidence, and for a stay of our order—the petition will be denied, and it is so ordered.

By the Commission (Chairman Purcell and Commissioners Healy, Pike, Burke and O'Brien).

Secretary.

Niagara Hudson Power Corporation, et al.

ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of October, 1942.

In the matters of Niagara Hudson Power Corporation, File No. 31-523, Buffalo, Niagara and Eastern Power Corporation, File No. 31-524, Niagara Hudson Power Corporation and its subsidiary companies, respondents.

Applications pursuant to section 3 (a) (1) of the Public Utility Holding Company Act of 1935 having been duly filed with this Commission by Niagara Hudson Power Corporation, a New York corporation and a subsidiary of The United Corporation, a registered holding company (File No. 31-523), and its subsidiary, Buffalo, Niagara and Eastern Power Corporation, also a New York corporation (File No. 31-524), for orders exempting them as holding companies, and every subsidiary company thereof as such, from the provisions of the Act; and

The Commission having heretofore, on August 28, 1942, issued its Notice of and Order for Hearing (File No. 59-52), as amended September 4, 1942, pursuant to sections 11 (b) (2), 12 (c), 12 (f) and 20 (a) of the Act, concerning Niagara Hudson Power Corporation and its subsidiary companies (including Buffalo, Niagara and Eastern Power Corporation), directing that a hearing be held in respects thereof on October 15, 1942 at 10 o'clock in the forenoon of that day; and

The Commission having reserved jurisdiction in its Notice of and Order for Hearing (File No. 59-52) to consolidate such proceedings or any portion thereof with any proceedings under other provisions of said Act with respect to Niagara Hudson Power Corporation and its subsidiary companies, and to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved;

It appearing to the Commission that the above matters are, in large part, related and involve common questions of law and fact; that evidence offered in respect of each of the said matters may have a bearing on the other; and that substantial savings in time, effort, and expense will result if hearings on said matters are consolidated, so that they may be heard as one matter and so that evidence adduced in each matter may stand as evidence in the others for all purposes;

It is ordered, That the hearings on said matters be, and they hereby are, consolidated. The Commission reserves the right, if at any time it may appear conducive to an orderly and economic disposition of any matters herein involved, to order a separate hearing concerning any particular matter involved in the proceeding, to close the record with respect to any of the matters, or to take action on any of the matters prior to the closing of the record on the other matters.

It is further ordered, That notice of the consolidated hearing is hereby given to Niagara Hudson Power Corporation and its subsidiary companies, to their respective security holders, all State Commissions, State Securities Commissions and all agencies or other political subdivision having jurisdiction over such companies and all other interested persons; that the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order by registered mail to The United Corporation, The United Gas Improvement Company, the Federal Power Commission, and the Public Service Commission of the State of New York.

It is further ordered, That any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Secretary of the Commission on or before October 13, 1942.

It is further ordered, That, without changing or limiting the scope of the issues raised in the Commission's Notice of and Order for Hearing (File No. 59-52) or the scope of the issues raised by said applications pursuant to section 3 (a) (1) of the Act, particular attention will be directed at such hearing to the following additional matters and questions:

---

[1] So in original document.

(1) Whether applicants and their public utility subsidiary companies from which they derive, directly or indirectly, any material part of their income are predominantly intra-state in character and carry on their business substantially in a single state in which applicants and their subsidiary companies are organized;

(2) Whether the exemption of applicants and their subsidiary companies, as such, from any provision or provisions of the Act is detrimental to the public interest or the interest of investors or consumers;

(3) Whether it is necessary or appropriate, in the public interest or for the protection of investors and consumers, to impose terms and conditions in respect of said applications.

By the Commission.

EASTERN SHORE PUBLIC SERVICE COMPANY (DELAWARE) ET AL.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 6th day of October, 1942.

In the matter of Eastern Shore Public Service Company (Delaware), The Eastern Shore Public Service Company of Maryland.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Eastern Shore Public Service Company (Delaware), a registered holding company (hereinafter called "Delaware"), and The Eastern Shore Public Service Company of Maryland, a subsidiary thereof (hereinafter called "Maryland"); and

Notice is further given that any interested person may, not later than October 15, 1942, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized below;

Maryland has outstanding as of August 31, 1942, $3,892,500 principal amount of its First Mortgage 4% Bonds due September 1, 1969, all of which bonds are owned by Delaware and pledged by Delaware to secure its First Mortgage and First Lien Bonds. Maryland proposes to redeem $200,000 principal amount of its outstanding bonds, at par and accrued interest thereon, in accordance with the terms of the Indenture securing them.

The funds to be received by Delaware from Maryland will be deposited with the Trustee under the Indenture securing Delaware's First Mortgage and First Lien Bonds. In order to obtain the release of funds so deposited, Delaware then proposes to deliver to the Trustee for cancellation $200,000 principal amount of its First Mortgage and First Lien Bonds, Series C, 5%, due September 1, 1946, now pledged as collateral to its 3% note payable to The Chase National Bank of the City of New York upon which note there is an unpaid balance of $800,000. Delaware will apply the $200,000 it will receive from the Trustee to reduce the amount now owing on the bank loan.

Within the period of eighteen months dating from the consummation of the proposed transactions set forth above, Maryland proposes to redeem a further amount of its outstanding bonds not exceeding $350,000 principal amount thereof. The proceeds therefrom will be applied by Delaware to further reduce the aforementioned bank loan. Before Maryland pays any part of this amount it will notify the Commission 10 days prior thereto and furnish a forecast of receipts and disbursements of Maryland for the six months period subsequent thereto showing the ability of the company to make such payment.

By the Commission.

ELECTRIC POWER & LIGHT CORP. AND DALLAS RAILWAY & TERMINAL CO.

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE AND GRANTING APPLICATIONS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of October, A. D. 1942.

Dallas Railway & Terminal Company ("Dallas"), a non-utility company, and its parent Electric Power & Light Corporation ("Electric"), a registered holding company subsidiary of Electric Bond and Share Company, likewise a registered holding company, having filed declarations and applications and amendments thereto under the Public Utility Holding Company Act of 1935, particularly section 6 (a), 7, 9 (a) (1), 10 and 12 thereof and Rule U-45 thereunder regarding the following:

(1) The donation to Dallas by Electric of all of the securities of Northern Texas Company, a wholly-owned non-utility subsidiary of Electric;

(2) The acquisition by Dallas of the physical properties of Northern Texas Company and the dissolution of the latter company;

(3) The donation to Dallas by Electric for cancellation of 11,000 shares of the 7% preferred stock of Dallas;

(4) The execution by Dallas of a supplemental indenture; and

(5) The acquisition by Electric of 1,816 additional shares of the common stock of Dallas;

A public hearing on said declarations and applications, as amended, having been held after appropriate notice; the Commission having examined the record and having made and filed its findings herein;

It is ordered, That said declarations and applications, as amended, be permitted to become effective and be granted forthwith subject to the following conditions:

1. Dallas shall not hereafter pay any dividends on its common or preferred stocks out of its earned surplus existing at June 30, 1942, as adjusted to reflect the transactions proposed herein.

2. Dallas shall not hereafter use for any purpose any part of the paid-in-surplus, created under the transactions proposed herein, except after notice to and approval by this Commission.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1614]

PART 337—MINIMUM PRICE SCHEDULE, DISTRICT NO. 17

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 17 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 17.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 17; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 337.4 (*Code member price index*) is amended by adding thereto Supplement R-I, § 337.5 (*General prices; minimum for shipment via rail transportation*) is amended by adding thereto Supplement R-II, and § 337.21 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: September 28, 1942.

[SEAL] DAN H. WHEELER,
Director.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-105]

LAMBERT BROTHERS

Lambert Brothers, New Orleans, Louisiana, is a partnership engaged in distributing and jobbing electrical supplies and other items. On April 20, 1942, the company applied an A-10 preference rating under Preference Rating Order P-100 to a purchase order for 5,000 feet of 14-2 Flex copper wire and accepted deliveries on this order on April 25, 1942, May 11, 1942 and May 26, 1942. However, at the time this order was placed, the company had no authority to apply the A-10 preference rating since it was a supplier and its assignment of the A-10 preference rating was unsupported by purchase orders rated under Preference Rating Order P-100. Accordingly, its application of the Preference Rating constituted a violation of Preference Rating Order P-100.

The company, on March 16, 1942, applied an A-10 preference rating under Preference Rating Order P-100 to its purchase order for 12,000 feet of D18CFC soft brown copper wire and accepted deliveries of 11,900 feet. At the time this order was placed, the company was entitled to extend this preference rating only for 490 feet and, therefore, the application of the preference rating to an order for 12,000 feet constituted a violation of Preference Rating Order P-100.

These violations of Preference Rating Order P-100 have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.105 *Suspension Order S-105.* (a) Lambert Brothers, New Orleans, Louisiana, its successors and assigns, are prohibited from accepting delivery of, receiving, processing or fabricating any copper, copper base alloy, copper scrap and copper products except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Lambert Brothers, its successors and assigns from any restriction, prohibition or provision contained in any other order of regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on October 9, 1942, and shall expire on January 9, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 7th day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 3093—GOLD MINING

[Limitation Order L-208]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export which are used in the maintenance nad operation of gold mines; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3093.1 *Limitation Order L-208*—(a) *Definitions.* For the purposes of this order, "nonessential mine" means any mining enterprise in which gold is produced, whether lode or placer, located in the United States, its territories or possessions, unless the operator of such mining enterprise is the holder of a serial number for such enterprise which has been issued under Preference Rating Order P-56.

(b) *Restrictions upon production.* (1) On and after the issuance date of this order, each operator of a nonessential mine shall immediately take all such steps as may be necessary to close down, and shall close down, in the shortest possible time, the operations of such mine.

(2) In no event on or after 7 days from the issuance date of this order shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to break any new ore or to proceed with any development work or any new operations in or about such mine.

(3) In no event on or after 60 days from the issuance date of this order shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to remove any ore or waste from such mine, either above or below ground, or to conduct any other operations in or about such mine, except to the minimum amount necessary to maintain its buildings, machinery, and equipment in repair, and its access and development workings safe and accessible.

(4) The provisions of this order shall not apply to any lode mine which produced 1200 tons or less of commercial ore in the year 1941, provided the rate of production of such mine, after the issuance date of this order, shall not exceed 100 tons per month, nor to any placer mine which treated less than 1000 cubic yards of material in the year 1941, provided that the rate of treatment of such placer mine, after the issuance date of this order, shall not exceed 100 cubic yards per month.

(5) Nothing contained in this order shall limit or prohibit the use or operation of the mill, machine shop, or other facilities of a nonessential mine in the manufacture of articles to be delivered pursuant to orders bearing a preference rating of A-1-k or higher, or in milling ores for the holder of a serial number under Preference Rating Order P-56.

(c) *Restrictions on application of preference ratings.* No person shall apply any preference rating, whether heretofore or hereafter assigned, to acquire any material or equipment for consumption or use in the operation, maintenance, or repair of a nonessential mine, except with the express permission of the Director General for Operations issued after application made to the Mining Branch, War Production Board.

(d) *Assignment of preference ratings.* The Director General for Operations, upon receiving an application in accordance with paragraph (c) above, may assign such preference ratings as may be required to obtain the minimum amount of material necessary to maintain such nonessential mine on the basis set forth in paragraph (b) (3) above.

(e) *Records.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventory, acquisition, consumption, and use of materials, and production of ore.

(f) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications.* All reports to be filed, appeals, and other communications concerning this order should be addressed to: War Production Board, Mining Branch, Washington, D. C., Ref.: L-208.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, by letter, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 8th day of October 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1047—PETROLEUM MATERIAL CONSERVATION

[Supplementary Order M-68-3]

GENERAL EXCEPTION AUTHORIZED BY PARAGRAPH (C) (10) OF CONSERVATION ORDER M-68, AS AMENDED

Whereas, the petroleum industry of the State of California is required to provide crude petroleum, immediately and for an indefinite period, from which large quantities of fuel oil and other special petroleum products necessary in the public interest and essential to the war effort can be obtained; *Now, therefore, it is hereby ordered,* That:

§ 1047.8 *Supplementary Order M-68-3*—(a) *Definitions.* The definitions of Conservation Order M-68, as amended,[1] shall apply in this order.

(b) *Wells deepened, plugged back, recompleted, or reworked in fields specified in Exhibit A.* The provisions of paragraph (b) of Conservation Order M-68, as amended, shall not apply to any case where material is to be used by an operator engaged in the production of oil in the State of California, to deepen and recomplete, plug back and recomplete, or otherwise "rework" any well in any of the fields specified in Part I through Part III inclusive of Exhibit A of this order: *Provided,* That material shall not be used for any such purpose unless:

(1) With respect to the fields specified in Part I of Exhibit A of this order,

(i) Such well is deepened or plugged back and recompleted to produce from a geological formation or that portion of a geological formation described in Column No. 3 of Exhibit A opposite the name of the field in which such well is located, and such well is not deepened or plugged back and recompleted to a geological formation described in Column No. 4 of Exhibit A opposite the name of the field in which such well is located; and

(ii) Such well is not deepened to a depth greater than the depth specified in Column No. 5 of Exhibit A opposite the name of the field in which such well is located; and

(iii) The number of wells on any single lease or tract which are deepened, plugged back, recompleted, or otherwise "reworked" does not at any time exceed an average of one well to every 5 surface acres of that part or parts of such lease or tract as are contained within the productive limits of the field.

(2) With respect to the fields specified in Part II and Part III of Exhibit A of this order,

(i) Such well is deepened or plugged back and recompleted to produce from a geological formation described in Column No. 3 of Exhibit A opposite the name of the field in which such well is located, and such well is not deepened or plugged back and recompleted to a geological formation described in Column No. 4 of Exhibit A opposite the name of the field in which such well is located; and

(ii) Such well is not deepened to a depth greater than the depth specified in Column No. 5 of Exhibit A opposite the name of the field in which such well is located; and

(iii) The number of wells on any single lease or tract which are deepened, plugged back, recompleted, or otherwise "reworked" does not at any time exceed an average of one well to every 10 surface acres of that part or parts of such lease or tract as are contained within the productive limits of the field.

(c) *Installation of pumping or other artificial lifting equipment.* The provisions of paragraph (b) of Conservation Order M-68, as amended, shall not apply to any case where material is to be used by an operator engaged in the production of oil in the State of California for pumping or other artificial lifting equipment to be installed upon a well located on any single lease or tract in any of the oil fields specified in Part I and Part II of Exhibit A of this order: *Provided,* That material shall not be used for any such purpose unless:

(1) Such well is producing from a geological formation described in Column No. 3 of Part I of Exhibit A opposite the name of the field in which such well is located, and such well is not producing from a geological formation described in Column No. 4 of Exhibit A opposite

PART 1055—WOOL

[Amendment 2 to Conservation Order M-73 as Amended for the period August 3, 1942, to January 31, 1943]

§1055.1 *Conservation Order No. M-73 as amended for the period August 3, 1942 to January 31, 1943,*[1] is hereby amended in the following respects:

1. Paragraph (a) (3) (i) is amended by inserting after the words "fine carpet wools," therein, the words "coarse carpet wools,".

2. Paragraph (d) (4) is amended to read as follows:

(4) *Restrictions on use of wool in the manufacture of certain uniforms.* All purchase orders placed on or after October 3, 1942, for uniforms or fabrics therefor containing wool shall be deemed nondefense orders for the purposes of paragraph (a) of this order, regardless of any preference rating assigned thereto, and no preference rating for uniforms or fabrics therefor containing wool shall be valid for any purpose, notwithstanding the provisions of any other rule, regulation or order of the Director General for Operations; except that the foregoing provisions of this paragraph (d) (4) shall be inapplicable in the case of purchase orders for the following uniforms or fabrics therefor:

(i) Uniforms to be delivered to, or for the account of, any agency of the United States. As used in this paragraph (d) (4) (i) the term "agency of the United States" shall not include any privately operated plant or organization financed or controlled by the United States, or operated on a cost-plus-a-fixed-fee basis under the terms of any contract with the United States.

(ii) Officers uniforms, as defined in Preference Rating Order No. P-131, as the same may be amended from time to time.

(iii) Uniforms for members of a Reserve Officers' Training Corps or State Guard unit.

(iv) Any other uniform which the Director General for Operations may specifically exempt in writing, by express reference, from the provisions of this paragraph (d) (4).

3. Paragraphs (i) (5) (ii) and (iii) are amended to read as follows:

(ii) "Fine carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor covering (but which under the terms of this order may only be used for the manufacture of wool products other than floor covering, and other than drapery and upholstery fabrics on nondefense orders) identifiable under the following names: Persian Gulf fleece, New Zealand fleece, Criolla, Joria, and Thibet number one white.

(iii) "Coarse carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor covering, not specifically named in subparagraph (ii) above.

PART 1099—BEDS, SPRINGS AND MATTRESSES

[Amendment 2 to General Limitation Order L-49, as Amended August 4, 1942]

Section 1099.1 *General Limitation Order L-49*[1] is hereby amended in the following particulars:

1. Paragraph (c) (3) is hereby amended to read as follows:

(3) During the period of three months beginning October [illegible] 1942, and during each three month period thereafter, no manufacturer shall use more iron and steel in the aggregate production of coil, flat, fabric and box bedsprings than 3⅛% of the iron and steel used by him in the aggregate production of coil, flat, and fabric bedsprings during the base period, plus 6¼% of the iron and steel used by him in the production of box bedsprings during the base period.

2. Paragraph (c) (4) is hereby deleted in its entirety and paragraph (c) (5) is hereby renumbered (c) (4) and amended to read as follows:

(4) During the period from September 1, 1942 to November 30, 1942, inclusive, no manufacturer shall process, fabricate, work on or assemble any coil, flat, box or fabric bedsprings containing more iron or steel other than joining hardware than the following specified amounts:

(i) Box bedsprings—full size, 22 pounds; single or twin size, 16 pounds.

(ii) Coil, flat or fabric bedsprings—full size, 30 pounds; single or twin size, 22 pounds.

3. Paragraph (c) is hereby amended by adding thereto the following new subparagraph:

(5) On and after December 1, 1942, no manufacturer shall process, fabricate, work on or assemble any coil, flat, box or fabric bedsprings containing more iron or steel other than joining hardware than the following specified amounts:

(i) Full size, 15 pounds.

(ii) Single or twin size, 9 pounds.

4. Paragraph (g) (1) is hereby amended to read as follows:

(1) The sales specified below shall be expressly permitted within the terms of paragraph (c) (3) of Priorities Regulation No. 13 (§ 944.34):

(i) Sales of wire by manufacturers of innerspring constructions for innerspring mattresses, pads and pillows, to other manufacturers of such products.

(ii) Sales of iron or steel by manufacturers of buttons, ventilators, handles or eyelets for mattresses, pads and pillows, to other manufacturers of such products.

(iii) Sales of iron or steel by manufacturers of parts made specifically for incorporation into studio couches, sofa beds and lounges designed for dual sleeping and seating purposes, to other manufacturers of such products.

(iv) Sales of wire by manufacturers of coil, flat, fabric or box bedsprings, to other manufacturers of such products.

PART 1276—DOUGLAS FIR PLYWOOD (MOISTURE-RESISTANT TYPE)

[Limitation Order L-150 as Amended October 8, 1942]

Section 1276.1 *Limitation Order L-150*[1] is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Douglas fir plywood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1276.1 *Limitation Order L-150*—(a) *Definitions.* For the purposes of this order:

(1) "Producer" shall mean any manufacturer of Douglas fir plywood.

(2) "Douglas fir plywood" shall mean a built-up board of laminated veneers of Douglas fir, united with a bonding agent, in which the grain of each piece is at right angles to the one adjacent to it, and which is of the type known to the trade as "moisture resistant."

(3) "Sound-1-Side" shall mean a piece of Douglas fir plywood, meeting the following specifications: The face shall be of one or more pieces of firm smoothly cut veneer. When of more than one piece it shall be well joined and reasonably matched for grain and color at the joints. It shall be free from knots, splits, checks, pitch pockets and other open defects. Streaks, discolorations, sapwood, shims and neatly made patches shall be admitted. The face shall present a smooth surface suitable for painting. The back shall present a solid surface with all knots in excess of one inch patched and with the following permitted: Not more than six knotholes or borer holes ⅝ of an inch or less in greater dimension, splits ⅛ of an inch or less in width and pitch pockets not in excess of one inch wide or three inches long or that do not penetrate through veneer to glue line. There may be any number of patches and plugs in the back.

(4) Other terms shall have the meanings assigned to them in Commercial Standard CS 45-40, effective August 20, 1940, issued by the National Bureau of Standards.

(b) *Simplified practice; effective date.* On and after October 8, 1942, no producer shall manufacture or deliver Douglas fir plywood, and no person shall receive Douglas fir plywood from any producer, unless it is of one of the types and sizes set forth below, except upon the specific written authorization of the Director General for Operations:

Item	Width	Length	Thickness
STANDARD PANELS	*Inches*	*Inches*	*Inches (after sanding)*

(c) *Exceptions*—(1) *Work in process.* Nothing contained herein shall prohibit the delivery by any producer or the receipt from any producer, of any Douglas fir plywood which was in the stock of such producer in finished form on July 1, 1942, or which had, on said date, been processed in such manner and to such extent that its manufacture in conformity with the provisions of paragraph (b) hereof would be impracticable.

(2) *Military orders.* Nothing contained herein shall prohibit the manufacture of Douglas fir plywood which does not conform to the provisions of paragraph (b) hereof under specific contracts or orders placed by or for the account of, or to fulfill a contract with, the Army or Navy of the United States, the United States Maritime Commission, The Panama Canal, the Coast and Geodetic Survey, the Coast Guard, The Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, and the Office of Scientific Research and Development, or to be delivered to or for the account of any Lend-Lease Government under the Lend-Lease Act, to the extent that the use of Douglas fir plywood not complying with the provisions of paragraph (b) hereof, is required by the specifications of the prime contract.

(3) *Rejects, cutbacks, plywood from short length veneer, core stock.* Nothing contained herein shall prohibit the manufacture or delivery by any producer, or the receipt from any producer, of (i) plywood which has been rejected by grading processes, (ii) reclaimed plywood of sizes other than those specified in paragraph (b) of this order developed by "cutting back" rejects, (iii) plywood produced from short lengths of veneer developed by reason of defects in logs, and (iv) core stock in widths up to 96 inches and lengths up to 48 inches in Sound-2-Side and Sound-1-Side grades.

(4) *Door panels.* In addition to the sizes specified in paragraph (b) of this order, Douglas fir plywood of Sound-2-Sides grade may be manufactured, delivered and accepted in widths of 22, 26 and 28 inches, lengths of 60, 72, 84 and 96 inches, and in either ¼ inch thickness after sanding or 3/16 inch thickness unsanded, but solely for use in the manufacture of doors. Every person ordering Douglas fir plywood in any such sizes shall endorse on the order a statement manually signed by the purchaser, or, if the purchaser is a corporation, an officer of the purchaser, in the following terms:

> The material covered by this order is to be used solely in the manufacture of doors, and comes within the exemption contained in paragraph (c) (4) of Limitation Order L-150, with the terms of which the undersigned is familiar.
>
> ______________________________
> Purchaser
> ______________________________

(5) *Records covering excepted production.* Each producer shall retain in his files records showing his inventory of Douglas fir plywood excepted under the terms of subparagraph (1) of this paragraph (c), and such records shall be kept readily available and open to audit and inspection by duly authorized representatives of the War Production Board.

(d) *Appeals.* Any person whose business is affected by this order and who considers that compliance therewith would disrupt or impair a program of war work may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(e) *Communications to the War Production Board.* All reports to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Lumber and Lumber Products Division, Washington, D. C. Ref.: L-150.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time.

(h) *Intra-company deliveries.* The prohibitions and restrictions contained in this order shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single business enterprise to another branch, division or section of the same or any other business enterprise under common ownership or control; and each such affiliate, subsidiary, branch, division or section shall for the purposes of this order be deemed a separate person.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a) Pub, Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 3095—VINYL ACETATE

[General Preference Order M-240]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of vinyl acetate for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3095.1 *General Preference Order M-240*—(a) *Definitions.* For the purposes of this order:

(1) "Vinyl acetate" means the monomer vinyl acetate from whatever source derived.

(2) "Producer" means any person who produces vinyl acetate, and includes any person who has vinyl acetate produced for him pursuant to toll agreement.

(3) "Distributor" means any purchaser of vinyl acetate from a producer for purpose of resale without further processing.

(b) *Restrictions on use and delivery of vinyl acetate.* (1) On and after November 1, 1942, no producer or distributor shall use or deliver vinyl acetate, and no person shall accept delivery of vinyl acetate from a producer or distributor, subject to the exemptions provided for in paragraph (c) hereof, except as specifically authorized by the Director General for Operations upon application pursuant to paragraph (d) hereof.

(2) Each person accepting delivery of vinyl acetate pursuant to specific authorization of the Director General for Operations shall use such material only for the purposes specified in such authorization.

(3) Each person affected by this order shall comply with such directions as may be given by the Director General for Operations at any time after October 8, 1942, the effective date of this order, with respect to the use or delivery of vinyl acetate.

(c) *Exemptions.* Specific authorization pursuant to paragraph (b) (1) hereof shall not be required with respect to the use, delivery or acceptance of delivery of vinyl acetate in the following cases:

(1) Any person may accept delivery of, and any producer or distributor may use, twenty-five (25) pounds or less of vinyl acetate during any one calendar month.

(2) Any producer or distributor may deliver vinyl acetate to any person entitled to accept delivery pursuant to paragraph (c) (1) hereof, without regard to preference ratings, provided that no producer or distributor shall deliver, pursuant to this paragraph (c) (2), in excess of one thousand (1000) pounds of vinyl acetate in any one month.

(d) *Applications and reports.* In addition to such other reports as may from time to time be required by the Director General for Operations:

(1) Each producer and distributor seeking authorization to use, and each person seeking authorization to accept delivery of, vinyl acetate pursuant to paragraph (b) (1) hereof, shall apply for such authorization on Form PD-600. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 20th day of the month preceding the month for which such authorization is requested and shall file with his supplier one copy of such form on or before the 15th day of such month if the supplier is a producer or on or before the 10th day of such month if the supplier is a distributor, which form shall be prepared in the manner prescribed therein, subject to the following specific instructions:

(i) *Heading.* Specify "Vinyl acetate" and order number "M-240" and specify pounds as the unit of measure, and in addition to giving the delivery destination, indicate the address to which communications should be directed.

(ii) *Columns 1, 11 and 19.* Specify vinyl acetate.

(iii) *Columns 3, 20 and 22.* In the case of a distributor, specify "Resale pursuant to further authorization". In all other cases, specify polyvinyl acetate, polyvinyl alcohol, polyvinyl butyral, polyvinyl formal, co-polymers with vinyl chloride, sulfa drugs or other. If "other" is specified, describe briefly.

(iv) *Column 4.* Specify "Subject to M-10", sulfa drugs or other. If "other" is specified, describe briefly.

(2) Each producer and distributor seeking authorization to deliver any vinyl acetate, pursuant to paragraph (b) (1) hereof, shall apply for such authorization on Form PD-601. Such applicant shall file with the War Production Board the original and two copies of such form on or before the 20th day of the month preceding the month for which such authorization is requested, which form shall be prepared in the manner prescribed therein, subject to the following specific instructions:

(i) *Heading.* Specify "Vinyl acetate" and order number "M-240" and specify pounds as the unit of measure, and in addition to giving the plant or warehouse address, indicate the address to which communications should be directed.

(ii) *Columns 3 and 8.* Specify vinyl acetate.

(e) *Notification of customers.* Each producer and distributor shall notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Miscellaneous provisions.* (1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) *Intra-company deliveries.* The prohibitions and restrictions of this order with respect to deliveries of vinyl acetate, shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref.: M-240.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 203—BRIDGE REGULATIONS

OREGON; CERTAIN BRIDGES OF THE WILLAMETTE RIVER

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the provisions of § 203.755 of Bridge Regulations are amended, both as to title and regulations, as follows:

§ 203.755 *Willamette River, Oreg.; bridges above Oregon City, Oreg.*—(a) *Southern Pacific Company's bridge at Salem.* (1) Except as provided in paragraph (a) (2) below, the drawspan shall be opened promptly for the passage of river craft unable to pass under the closed bridge upon the following signal: One long blast, followed quickly by one short blast; or upon verbal request of the operator of any watercraft of his desire to have the drawspan opened.

(2) When river stages are below 20 feet, U. S. Engineer gauge, and passage through the drawspan of this bridge is desired at any time between 7 p. m. and 7 a. m., at least six hours' advance notice of the time opening is desired shall be given to the Southern Pacific Company's telegraph operator at Salem.

(3) Upon receipt of such advance notice, arrangements shall be made for the prompt opening of the drawspan at the time given in the notice for passage of the vessel, and the draw shall be so opened.

(4) The owner or agency controlling the bridge shall keep a copy of these regulations conspicuously posted on both the upstream and downstream sides of the bridge, in such place and manner that it can be easily read from the river at any time.

(b) *Southern Pacific Company's bridge at Albany, Oreg., and Benton County highway bridge at Corvallis, Oreg.* (1) Whenever a vessel unable to pass under the Southern Pacific Company's railroad bridge at Albany, or the Benton County highway bridge at Corvallis, desires to pass through the draw of either bridge, at least six hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner or agency controlling the bridge through which passage is desired.

(2) Upon receipt of such advance notice, arrangements shall be made for the prompt opening of the draw at the time given in the notice for passage of the vessel, and the draw shall be so opened.

(3) The owner or agency controlling the bridge shall keep a copy of these regulations conspicuously posted on both the upstream and downstream sides of the bridge, in such place and manner that it can be easily read from the river at any time, together with a notice stating exactly how the representative specified in paragraph (b) (1) may be reached.

(4) The operating machinery of the draws of these bridges shall be maintained in a serviceable condition, and the draw opened and closed at least once each three months, to insure that the machinery is in proper order for satisfactory operation. [1942 Dept. Circ. 698]

2 PERCENT TREASURY BONDS OF 1950–52

OCTOBER 8, 1942.

I. OFFERING OF BONDS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2 percent Treasury Bonds of 1950–52. At the same time the Secretary of the Treasury is inviting subscriptions for an additional amount of Treasury Notes of Series B–1946 under Department Circular No. 699. The aggregate amount of both issues will be $4,000,000,000, or thereabouts. The amount of bonds to be issued hereunder will be determined by the relation which the total subscriptions for the bonds bear to the total subscriptions received for both the bonds and the notes.

II. DESCRIPTION OF BONDS

1. The bonds will be dated October 19, 1942, and will bear interest from that date at the rate of 2 percent per annum, payable on a semiannual basis on March 15 and September 15 in each year until the principal amount becomes payable. They will mature March 15, 1952, but may be redeemed at the option of the United States on and after March 15, 1950, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys, but will not bear the circulation privilege and will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $100, $500, $1,000, $5,000, $10,000 and $100,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers must agree not to sell or otherwise dispose of their subscriptions, or of the securities which may be allotted thereon, prior to the closing of the subscription books. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions from banks and trust companies for their own account will be received without deposit. Subscriptions from all others must be accompanied by payment of 5 percent of the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and within the amount of the offering, subscriptions for amounts up to and including $25,000 from banks which accept demand deposits, and subscriptions in any amount from all other subscribers, will be allotted in full; subscriptions for amounts over $25,000 from banks which accept demand deposits will be allotted on an equal percentage basis, to be publicly announced. Allotment notices will be sent out promptly upon allotment.

IV. PAYMENT

1. Payment at par and accrued interest, if any, for bonds allotted hereunder must be made or completed on or before October 19, 1942, or on later allotment. In every case where payment is not so completed, the payment with application up to 5 percent of the amount of bonds applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

1½ PERCENT TREASURY NOTES OF SERIES B–1946—ADDITIONAL ISSUE

OCTOBER 8, 1942.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for notes of the United States, designated 1½ percent Treasury Notes of Series B–1946. At the same time the Secretary of the Treasury is inviting subscriptions for 2 percent Treasury Bonds of 1950–52 under Department Circular No. 698. The aggregate amount of both issues will be $4,000,000,000, or thereabouts. The amount of notes to be issued hereunder will be determined by the relation which the total subscriptions for the notes bear to the total subscriptions received for both the notes and the bonds.

II. DESCRIPTION OF NOTES

1. The notes now offered will be an addition to and will form a part of the series of 1½ percent Treasury Notes of Series B–1946 issued pursuant to Department Circular No. 686, dated May 25, 1942, will be freely interchangeable therewith, are identical in all respects therewith, and are described in the following quotation from Department Circular No. 686:

> 1. The notes will be dated June 5, 1942, and will bear interest from that date at the rate of 1½ percent per annum, payable on a semiannual basis on December 15, 1942, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1946, and will not be subject to call for redemption prior to maturity.
>
> 2. The income derived from the notes shall be subject to all Federal taxes, now or hereafter imposed. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.
>
> 3. The notes will be accepted at par during such time and under such rules and regulations as shall be prescribed or approved by the Secretary of the Treasury in payment of income and profits taxes payable at the maturity of the notes.
>
> 4. The notes will be acceptable to secure deposits of public moneys, but will not bear the circulation privilege.
>
> 5. Bearer notes with interest coupons attached will be issued in denominations of $100, $500, $1,000, $5,000, $10,000 and $100,000. The notes will not be issued in registered form.
>
> 6. The notes will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States notes.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers must agree not to sell or otherwise dispose of their subscriptions, or of the securities which may be allotted thereon, prior to the closing of the subscription books. Banking institutions generally may submit subscriptions for account of customers; but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. count will be received without deposit. Subscriptions from all others must be accompanied by payment of 5 percent of the amount of notes applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and within the amount of the offering, subscriptions for amounts up to and including $25,000 from banks which accept demand deposits, and subscriptions in any amount from all other subscribers, will be allotted in full; subscriptions for amounts over $25,000 from banks which accept demand deposits will be allotted on an equal percentage basis, to be publicly announced. Allotment notices will be sent out promptly upon allotment.

IV. PAYMENT

1. Payment at par and accrued interest from June 5, 1942, for notes allotted hereunder must be made or completed on or before October 15, 1942, or on later allotment. In every case where payment is not so completed, the payment with application up to 5 percent of the amount of notes applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit for notes allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district. Accrued interest at 1½ percent from June 5, 1942, to October 15, 1942, on $1,000 face amount is $5,41209.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

BODTKE BROTHERS LOGGING CO., LICENSEE

ORDER REVOKING LICENSE AND DIRECTING ITS SURRENDER

To: Bodtke Brothers Logging Co., Licensee above-named, Deming, Washington.

Based upon the records in this matter, I, R. R. Sayers, Director of the Bureau of Mines, make the following findings of fact:

1. On September 5, 1942, a Specification of Charges against you, setting forth violations of the Federal Explosives Act (55 Stat. 863) and regulations thereunder of which you were accused, was mailed to you at the above named, your last known, address, giving you notice to mail an answer within fifteen days if you wished to be heard on the charges against you.

2. More than twenty days have elapsed since the giving of said notice. The length of time required for mail to be delivered to the office of the Bureau of Mines, Washington, D. C., from Deming, Washington, does not exceed five days. You have failed to answer the charges against you.

3. The charges against you are true.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act (55 Stat. 863) and § 301.22 of the regulations thereunder (7 F.R. 5901).

It is hereby ordered, That Purchaser's License No. 492730, heretofore issued to you under the Federal Explosives Act (55 Stat. 863), be and it is hereby revoked; and

It is further ordered, That you shall immediately surrender said license and all certified or photostatic copies thereof, if any, by delivering or mailing the same to the Director of the Bureau of Mines, Interior Department, Washington, D. C.

This order is effective on and after its date, except that you will be allowed not to exceed ten days thereafter within which to sell or otherwise dispose of explosives or ingredients thereof now on hand to persons licensed under the Federal Explosives Act and in accordance with the provisions of the act and regulations thereunder. This exception does not authorize you to use or test explosives or ingredients thereof on hand, nor does it authorize you to manufacture or to purchase or otherwise acquire explosives or ingredients thereof.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

Dated: October 3, 1942.

CALIFORNIA

AIR-NAVIGATION SITE WITHDRAWAL NO. 187

By virtue of the authority contained in the act of June 25, 1910, c. 421, 36 Stat. 847 (U.S.C., title 43, sec. 141), and section 4 of the act of May 24, 1928, c. 728, 45 Stat. 729 (U.S.C., title 49, sec. 214), and pursuant to Executive Order No. 9146 of April 24, 1942, it is ordered as follows:

1. The following-described public lands in California are hereby withdrawn from all forms of appropriation under the public-land laws and reserved, subject to valid existing rights, for the use of the Department of Commerce in the maintenance of air-navigation facilities, the reservation to be known as Air-Navigation Site Withdrawal No. 187:

MOUNT DIABLO MERIDIAN

T. 26 S., R. 43 E.,
Sec. 27, SW¼NW¼, N½NW¼SW¼.

The areas described aggregate 60 acres.

2. This order shall take precedence over, but shall not rescind or revoke, the withdrawal for Potash Reserve No. 2, California No. 1, made by the Executive Order of February 21, 1913, so far as such order affects the above-described lands.

ACCOUNT SERVICING; COLLECTING OFFICE PROCEDURE

FINAL SETTLEMENT AND SURRENDER OF NOTES

JANUARY 20, 1942.

Security instruments will be satisfied when all notes for which such instruments serve as security have been paid in full. The regional office will execute all written satisfactions on Form FSA-LE 77. —, "Satisfaction", and will forward the signed and, if necessary, acknowledged original and an exact copy to the collecting official. The original and the copy shall be given to the client (the original for filing or recording if the client wishes to clear the record, or for any purchaser of the property). If a written satisfaction is not necessary, the regional office will authorize the necessary satisfaction.

Where satisfactions of mortgages, deeds of trust, or other security instruments have been executed by the regional director or other authorized official in the regional office, and state law requires the mortgagee to record or file such satisfactions and to pay the recording or filing fee therefor, collecting officials are hereby authorized, as agents and attorneys-in-fact for the United States, the Secretary of Agriculture, and the FSA, to record and file such satisfactions and to make marginal satisfactions on the records of the office of registry. Payment of recording or filing fees may be scheduled on Standard Form No. 1034, "Public Voucher for Purchases and Services Other Than Personal". (Pars. I B and I C of FSA Instruction 463.1, January 20, 1942.)

SUGAR AND RELATED PRODUCTS INDUSTRY

APPOINTMENT OF INDUSTRY COMMITTEE NO. 50

1. By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938, I, L. Metcalfe Walling, Administrator of the Wage and Hour Division, U. S. Department of Labor, do hereby appoint and convene for the sugar and related products industry (as such industry is defined in paragraph 2) an industry committee composed of the following representatives:

For the Public: Theodore J. Kreps, Chairman, Palo Alto, California; Henry W. Toll, Denver, Colorado; Kathryn Abbey, Tallahassee, Florida; Colston Warne, Amherst, Massachusetts; Harlan L. McCracken, Baton Rouge, Louisiana; Harold E. Fey, Chicago, Illinois.

For the Employees: John R. Owens, New York, New York; Boris Shishkin, Washington, D. C.; R. E. James, Kansas City, Kansas; Adolph Lesser, Edgewater, New Jersey; Lezin L'Hoste, New Orleans, Louisiana; Louis Goldblatt, San Francisco, California.

For the Employers: Frank A. Kemp, Denver, Colorado; Frank L. Barker, Lockport, Louisiana; J. H. Lind, Jr., New York, New York; Clarence R. Bitting, Clewiston, Florida; C. R. Winston, New York, New York; Ernest W. Greene, Washington, D. C.

Such representatives having been chosen with due regard to the geographical regions in which such industry is carried on.

2. For the purpose of this order the term "sugar and related products industry" means:

> The production of sugar, molasses, and syrups, of all types, made wholly or in part from maple sap, sugar beets, sugarcane, sorgo, or any derivative therefrom, and the production of beet pulp, bagasse, lime cake, and related by-products: *Provided, however,* That fountain syrups commonly and commercially so known shall not be included in this definition.
>
> The production of any products covered under this definition shall be deemed to begin with the loading of the raw materials at the farm."

3. The definition of the sugar and related products industry covers all occupations in the industry which are necessary to the production of the products covered by this definition, including clerical, maintenance, shipping and selling occupations: *Provided, however,* That in a wholesaling or selling department of a manufacturing establishment clerical, maintenance, shipping and selling employees, the greater part of whose work relates to the sale of articles which have been purchased for resale or of articles not covered by this definition, shall not be deemed to be covered by this definition: *And provided further,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

4. The industry committee herein created shall meet at 10:00 A. M. on October 26, 1942 in the College Room of the Hotel Astor, New York City, and, in accordance with the provisions of the Fair Labor Standards Act of 1938 and rules and regulations promulgated thereunder, shall proceed to investigate conditions in the industry and recommend to the Administrator minimum wage rates for all employees thereof who within the meaning of said Act are "engaged in commerce or in the production of goods for commerce," excepting employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14.

Signed at New York, New York this 5th day of October 1942.

is property of nationals, and represents control of said business enterprise which is a national, of a designated enemy country (Germany), and determining that to the extent that any or all of such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country, and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on October 3, 1942.

OFFICE OF PRICE ADMINISTRATION.

[Suspension Order 139]

JOHN TEASLEY

ORDER RESTRICTING TRANSACTIONS

John Teasley, dealer operating dealer outlet known as City Service Station, Canton, Georgia, herein called respondent, is regularly engaged in the business of transferring gasoline directly to consumers and subject to gasoline rationing regulations issued by the Office of Price Administration. There was duly served on respondent a notice of specific charges of violation of the Emergency Gasoline Rationing Regulations and a notice of hearing thereon. Respondent has waived the holding of said hearing and has stipulated certain facts with the

Office of Price Administration. Upon consideration of the facts so stipulated, it is hereby determined:

That respondent has violated the Emergency Gasoline Rationing Regulations in that on July 6, 1942, at the dealer outlet above described, he sold and transferred to one Charles Glenn Cole, a consumer, three gallons of gasoline, said transfer being made into the fuel tank of an automobile clearly identifiable as a private passenger vehicle without the exhibition of any gasoline rationing card Class X or the cancellation of any unit of any gasoline rationing card Class A or B.

That respondent has violated the Emergency Gasoline Rationing Regulations in that respondent on the 6th day of July 1942, sold and transferred to one Charles Glenn Cole, a consumer, sixteen gallons of gasoline in containers for highway use by said consumer in an automobile clearly identifiable as a private passenger vehicle, said transfer being made without the exhibition of any gasoline rationing card class X or the cancellation of any unit of any gasoline rationing card Clas A or B.

Because of the great scarcity and critical importance of gasoline in the Georgia area, violations of the Emergency Gasoline Rationing Regulations necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator from the matters stipulated, that violations of the Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action be taken.

It is therefore ordered:

(a) During the period in which this suspension order shall be in effect:

(1) Respondent shall accept no deliveries or transfers of, nor in any manner directly or indirectly, receive from any source any gasoline at or for the above described dealer outlet; and

(2) No person, firm or corporation shall sell, deliver or in any manner directly or indirectly transfer any gasoline to respondent at or for the above described dealer outlet.

(b) Any terms used in this order that are defined in the Emergency Gasoline Rationing Regulations shall have the meaning therein given them.

(c) This suspension order shall become effective 12:01 A. M. October 8, 1942, and unless sooner terminated, shall expire 12:01 A. M. November 7, 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-336]

NATIONAL POWER & LIGHT COMPANY

NOTICE OF FILING OF APPLICATION FOR EXTENSION OF PERIOD OF EXCHANGE OFFER AND ORDER FOR HEARING THEREON.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 7th day of October, A. D., 1942.

The Commission having heretofore, on December 24, 1941, entered its order herein permitting to become effective a declaration or application filed by National Power & Light Company, a registered holding company, pursuant to sections 9 (a) (1), 12 (c), 12 (d), and 12 (e) of the Public Utility Holding Company Act and the applicable rules thereunder respecting a proposed offer to be made by National Power & Light Company to its preferred stockholders to exchange for each share of National's preferred stock two shares of common stock of Houston Lighting & Power Company; and

The Commission having found that such declaration or application should be treated as a plan filed under section 11 (e) and 11 (g) of the Act, and having approved said plan for submission to the preferred stockholders of National Power & Light Company subject to the conditions contained in said order dated December 24, 1941; and

Said exchange offer having become effective on January 30, 1942 for the period ending March 31, 1942, and National Power & Light Company having successively extended the period of said exchange offer to and including October 13, 1942, pursuant to the authority contained in the orders of the Commission dated June 15, 1942 and August 13, 1942;

Notice is hereby given that National Power & Light Company, on October 6, 1942, filed an application herein for permission to extend further the period of such exchange offer to and including December 15, 1942.

All interested parties are referred to said application which is on file in the office of the Commission for full details thereof.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held for the purpose of considering said application;

It is ordered, That a hearing on said application be held on October 12, 1942, at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the Hearing Room Clerk. At said hearing attention will be particularly directed to the question whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to permit an extension of the period within which exchanges may be effected under said offer, and if so, the period of such extension.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing above mentioned. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the entry of this order by mailing a copy thereof by registered mail to National Power & Light Company and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

WAR PRODUCTION BOARD.

[Certificate 18]

PLAN FOR ORGANIZATION OF AN IMPORTERS GROUP

THE ATTORNEY GENERAL: Pursuant to the provisions of section 12 of Public Law No. 603, approved June 11, 1942, I submit a plan of the Board of Economic Warfare for the organization of an importers group, to be known as Emergency Group for Foreign Vegetable Oils, Fats and Oil-Bearing Materials, to handle and service foreign purchases of such fats, oils and materials by the Commodity Credit Corporation.

---

[1] 7 F.R. 1971.

I hereby approve said plan for the purposes of section 12 of Public Law No. 603, approved June 11, 1942, and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with such plan, is requisite to the prosecution of the war.

DONALD M. NELSON,
Chairman.

OCTOBER 2, 1942.

Plan for the organization of an importers group, to be known as "Emergency Group for Foreign Vegetable Oils, Fats and Oil-Bearing Materials" to handle and service foreign purchases of such fats, oils and materials by the Commodity Credit Corporation.

Purpose of the Group. The Group will be organized for the purpose of providing, for a fixed fee, all of the necessary and customary services incident to the importation into the United States, and the servicing thereafter, of all foreign vegetable oils, fats and oil-bearing materials purchased by Commodity Credit Corporation pursuant to directives issued by the Board of Economic Warfare. Commodity Credit Corporation will negotiate and make all purchases and the Group will have no responsibility and exercise no function relative to purchases. The Group will function only as to servicing and handling after purchases are made.

Organization of the Group. The Group will function (a) through a Management Committee composed of representatives of five members elected by a majority of all the members, whose duty it shall be, subject to specified controls to be exercised by Commodity Credit Corporation and the Board of Economic Warfare, to manage and coordinate all of the activities of the Group, and (b) through various specialized commodity committees. These latter committees will be composed of representatives of every member experienced in handling the commodity with which the committee is concerned, will generally be under the supervision and control of the Board of Economic Warfare and the Commodity Credit Corporation; and will have the duty of furnishing expert advice relative to, and expediting, the services to be performed in connection with the importation of commodities purchased by Commodity Credit Corporation. Commodity Credit Corporation will compensate the Group for services rendered by it, through its officers and employees, in accordance with a schedule of fees fixed in an exclusive agency contract between Commodity Credit Corporation and the Group. Income of the Group, after payment of administrative expenses and establishment of a reserve, will, from time to time, be distributed by the Group among its members in accordance with a base period formula.

Membership of the group. Membership in the Group will be open to all individuals, partnerships, firms, and corporations who are "eligible importers". Restrictions on eligibility will be provided as to nationals of any country deemed by the Board of Economic Warfare to be unfriendly to the United States, Only those shall be deemed "eligible importers" who effect sales of vegetable oils, fats and oil-bearing materials of foreign origin before they have cleared customs, and who either: (a) represent or negotiate directly with sellers in a foreign market, or with foreign sellers' representatives wherever domiciled, as agents for sale to consumers, or other buyers, in the United States or Canada on a fixed fee or commission basis for effecting such sales; or (b) purchase directly from sellers, or from foreign sellers' representatives wherever domiciled, in a foreign market for their own account or for subsequent resale.

All applications for membership must be submitted within forty-five (45) days after the applicant has received a written invitation to join the Group, or within forty-five (45) days after the release of such an invitation published in representative trade journals and general newspapers. Similar publicity will be given, and invitations to join will be sent to all eligible importers, not then members, prior to the expiration date of any contract with Commodity Credit Corporation which is to be renewed or prior to entering into a new contract. Applications for membership, pursuant to such an invitation, must be received at least forty-five (45) days after the issuance of such invitation and publicity.

Commodity Credit Corporation and the Board of Economic Warfare will take all necessary and proper steps to arrange for the initial issuance of written invitations to join and initial publicity as to the right of membership. They will initially approve or reject applications for membership and will call the organizational meeting of the Group.

Each member will advance One Hundred Dollars ($100) to the Group to establish a revolving fund from which the Group may defray current expenses.

After organization, the right to membership of any applicant will be subject to review by the Board of Economic Warfare and the Commodity Credit Corporation.

Duration of the group. The Group will not function except pursuant to contracts in effect with the Commodity Credit Corporation, or as directed by the Board of Economic Warfare should no such contract be in existence. In no event shall the Group continue to operate as such after the expiration of six months after the termination of the present national emergency.

PROGRAM FOR VEGETABLE OIL SEEDS

THE ATTORNEY GENERAL: Pursuant to section 12 of Public Law No. 603, approved June 11, 1942, I submit to you a price-support, processing, and distribution program to be carried out by the Commodity Credit Corporation with respect to domestic vegetable oil seeds and products thereof. This program and the contracts offered in implementation thereof are more fully described in the annexed memorandum of Mr. J. B. Hutson, President, Commodity Credit Corporation, dated October 2, 1942.

I hereby approve this program for the purposes of section 12 of Public Law No. 603, approved June 11, 1942, and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with such program, is requisite to the prosecution of the war.

DONALD M. NELSON,
Chairman.

OCTOBER 6, 1942.

Price-support, processing, and distribution program of Commodity Credit Corporation for domestic vegetable oil seeds and products thereof.

The demands of the war program have very greatly increased the total requirements for domestic vegetable oils. Not only have domestic requirements for oil been materially increased, but foreign sources of supply have been cut off. In order to provide for these increased requirements, the Department of Agriculture, early this year, initiated action through price assurances to producers to stimulate production of domestic oil-bearing seeds. As a result of this action, there are now on hand or in prospect supplies of soybeans, cottonseed, peanuts, and flaxseed aggregating approximately 50 percent greater than normal stocks.

With a view to assuring the conversion into oil of these greatly expanded supplies and the orderly movement of the oil and other products of the seed, the Commodity Credit Corporation, with the approval of the President of the United States, has undertaken a price-support, processing, and distribution program for soybeans, cottonseed, peanuts, and flaxseed of the 1942 domestic crop. This program has thus far involved the preparation and submission to all processors of seed and all refiners of crude oil derived therefrom, of the following forms of contract, which are on file in and available for public inspection at the offices of Commodity Credit Corporation.

Processor Contract—1942 Cottonseed Program.

Processor Contract, Form A—1942 Soybean Program.

Processor Contract, Form B—1942 Soybean Program.

Processor Contract, Cotton States—1942 Soybean Program.

Processor Contract, Pacific Coast States—1942 Soybean Program.

Crusher Contract—1942 Peanut Crushing Program.

Processor Contract—1942 Flaxseed Program.

Refiner Contract—1942 Vegetable Oils Program.

The principal provisions of these contracts may be summarized as follows: The processors, except in the case of peanuts, agree to pay not less than specified prices for the seed. The processors also agree to sell the cake and meal at not less than specified prices and, except in the case of linseed oil, to sell oil only at a specified price. In addition, it is reserved to the Commodity Credit Corporation to fix, within a defined range, the maximum trade sale price of cottonseed and peanut meal. The Corporation agrees to purchase all meal and oil offered to it, except in the case of linseed meal and oil, the price payable for the meal being somewhat lower than that at which trade sales are permitted. There are also provisions under which loans will be made by the Commodity Credit Corporation to processors upon cottonseed and peanut meal, flaxseed, and linseed oil.

All but one of the forms of contract applicable to soybeans commit the Commodity Credit Corporation to purchase soybeans from the processor and to resell the beans to the processor at a reduced price, the reduction to be dependent upon the relative efficiency of the processor's facilities. The cottonseed contract also commits the Corporation to purchase at a specified price all cotton linters not otherwise allocated by the War Production Board.

Finally, the Refiner Contract provides for the purchase by refiners, at specified prices and to the extent of their capacity, of crude soybean, cottonseed, and peanut oil offered them by processors having contracts with the Corporation. In addition, the Corporation agrees to purchase such oil from the refiners at the original purchase price and to resell the oil to the refiners for use in edible products at one-half cent per pound below that price. The refiners agree to sell refined oils to the Corporation at specified differentials over crude prices.

The contracts referred to, in my opinion, will have the effect of assuring the greatest possible production of oil, meal and linters and appear to be the most practicable means of attaining this objective. We believe the vegetable seed and oil program is essential to the war effort and that certification by the Chairman of the War Production Board, pursuant to section 12 of Public Law No. 603, approved June 11, 1942, is necessary in order to secure the widest possible participation in the program.

J. B. HUTSON,
President,
Commodity Credit Corporation.

SPECIAL INSTRUCTIONS RELATIVE TO USE OF 1941 RICE FORMS

233.40 Pending printing and distribution of 1942 rice forms, 1941 rice forms, with the modifications enumerated, shall be used.

AUTHORITY: §§ 233.1 to 233.40, inclusive, issued under Sec. 302, 52 Stat. 43, 55 Stat. 203, 860; 7 U.S.C. 1302, 7 U.S.C. Sup., 1330.

GENERAL INSTRUCTIONS

§ 233.1 *Definitions.* For the purpose of these instructions and the notes and loan agreements or mortgages relating thereto, the following terms shall be construed, respectively, to mean:

(a) *Eligible producer.* An eligible producer shall be any person (including a partnership, association, or corporation) that has an interest as a landowner, landlord, tenant, or sharecropper in the rice produced on a farm on which (1) the acreage planted to rice on the farm is not less than 90 percent of the farm rice acreage allotment or permitted acreage of rice on the farm, as determined under the 1942 Agricultural Conservation Program, or (2) the acreage planted to rice on the farm is less than 90 percent of the farm rice acreage allotment or permitted acreage of rice on the farm, as determined under the 1942 Agricultural Conservation Program, solely because of lack of water.

(b) *Eligible rice.* Eligible rice is rough rice of the classes listed below (1) which grades U. S. No. 6 or better; (2) which has a milling quality of prime, good, medium, fair or ordinary; (3) which was produced in 1942; (4) the beneficial interest in which is, and always has been, in the eligible producer tendering such rice as security for the loan; and (5) which meets the special requirements set out in §§ 233.20, and 233.30 of these instructions:

Edith rough rice (Class II).
Fortuna rough rice (Class III).
Lady Wright rough rice (Class V).
Rexoro rough rice (Class VII).
Nira rough rice (Class IX).
Blue Rose rough rice (Class XI).
Early Prolific rough rice (Class XII).
American Pearl rough rice (Class XIV).
Calady rough rice (Class XV).
Zenith rough rice (Classification pending).

(c) *Eligible storage.* Eligible storage shall include public warehouses and farm storage meeting the requirements prescribed by the Commodity Credit Corporation. Public warehouses must meet the requirements set out in § 233.4 of these instructions. Farm storage shall consist of farm bins and granaries which are of such substantial and permanent construction as to afford safe storage of rice for a period of two years and permit effective fumigation for the destruction of insects and vermin and afford protecton against rodents, other animals, thieves, and weather, as determined by the county agricultural conservation committee.

(d) *Lending agency.* A lending agency shall be any bank, or other corporation, partnership, or person making loans in accordance with these instructions, which has entered into the Contract to Purchase (1942 C. C. C. Rice Form E) or any rice cooperative association which has entered into the 1942 Rice Cooperative Association Contract (1942 C. C. C. Rice Form C) and which makes loans in accordance with these instructions and such 1942 Rice Cooperative Association Contract.

(e) *Eligible paper.* For the purposes of the Contract to Purchase (1942 C. C. C. Rice Form E) and the 1942 Rice Cooperative Association Contract (1942 C. C. C. Rice Form C), eligible paper shall consist of notes executed by eligible producers, secured by chattel mortgages covering or warehouse receipts representing a single variety of eligible rice in existence. Such notes must be dated not earlier than September 1, 1942, nor later than March 1, 1943, and must be executed in accordance with these instructions and, in the case of cooperative associations, in accordance with the 1942 Rice Cooperative Association Contract, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee will be acceptable only where valid in law.

§ 233.2 *Areas in which loans will be made.* Loans shall be made on eligible rice stored in approved farm storage and in approved public rice warehouses in the States of Arkansas, Louisiana, Texas, Missouri, and California.

§ 233.3 *Separate loans on each variety of rice.* Each note to be acceptable by the Commodity Credit Corporation must be secured by a chattel mortgage covering or warehouse receipts representing a single variety of eligible rice. Producers will be required to obtain a separate loan and to execute separate loan documents with respect to each variety of eligible rice.

§ 233.4 *Public warehouses.* Commodity Credit Corporation will accept only non-insured negotiable warehouse receipts representing a single variety of rice pledged as collateral to notes on 1942 C. C. C. Rice Form B, issued by any public rice warehouse which is approved by the Commodity Credit Corporation (see 1942 C. C. C. Rice Forms 2 and 2a) and with respect to which the warehouseman has executed the Rice Warehouse Agreement (1942 C. C. C. Rice Form 3), or with respect to which rice there has been executed a 1942 Rice Cooperative Association Contract, Supplement No. 1, (1942 C. C. A. Rice Form C, Supplement No. 1). Warehousemen desiring approval should communicate with the regional director of the Commodity Credit Corporation serving the area in which the warehouse is located. A list of the approved warehouses and their locations will be available at the offices of such regional directors or any State or county agricultural conservation committee office in the areas in which rice is produced. Each approved public rice warehouse will be required to enter into the Rice Warehouse Agreement and to furnish a bond in accordance with 1942 C. C. C. Rice Form 2. All rice pledged as security for any one note must be in the same warehouse, and each producer must arrange for the storage of rice in an approved warehouse.

§ 233.5 *Warehouse receipts.* Warehouse receipts must not include insurance, must be dated on or prior to the date of the related note, must be issued to and in the name of the producer and endorsed by him in blank so as to vest title in the holder, and must be issued by an approved warehouse. Commodity Credit Corporation will not accept warehouse receipts indicating any lien for charges prior to unloading in or delivery to the warehouse issuing such receipts. Liens for storage charges will be recognized by Commodity Credit Corporation from September 1, 1942. Such receipts must set out in their written or printed terms the number of bushels, the gross weight, and variety of the rice represented thereby, and, in addition, if stored in bags, the number of bags of rice; must set out or be accompanied by certificates issued by the Agricultural Marketing Administration of the United States Department of Agriculture stating the variety, grade, milling quality, percentage of moisture, and dockage (if any), of the rice represented thereby: *Provided, however,* That, in the case of any loans made by any rice cooperative association in accordance with the 1942 Rice Cooperative Association Contract (1942 C. C. C. Rice Form C), such information may be shown as provided in such contract; and must set out all other facts and statements required to be stated in the written or printed terms of a negotiable warehouse receipt by section 2 of the Uniform Warehouse Receipts Act.

§ 233.6 *Farm storage.* In accordance with regulations issued by the Secretary of Agriculture, the State and county agricultural conservation committees will inspect and approve farm storage facilities and will arrange for measuring, weighing, sampling, grading, and sealing the rice collateral in approved structures. Chattel mortgages securing notes on 1942 C.C.C. Rice Form A must cover a single variety of rice and must be executed, signed, and recorded or filed in accordance with the applicable State law. Producers may obtain information and assistance from the county agricultural conservation committees in regard to the execution and filing of such chattel mortgages. Where the borrower is a tenant farmer and the rice collateral is stored on the farm, the expiration date of the lease shall be given in section 1 (d) of the chattel mortgage. If the expiration date of the lease is prior to June 30, 1943, or, in the case of rice stored in California, September 30, 1943, the borrower must secure from the owner and any other interested parties, consent that the rice collateral may remain in the described storage structure(s) for a period of sixty days beyond the maturity date of the note without charge except as provided in these instructions. The consent agreement is set forth in the chattel mortgage. Each producer must designate in section 1 (b) of the chattel mortgage a shipping point reasonably convenient for delivery of the rice as determined by the county committee. Notes and chattel mortgages will not be acceptable if they provide a shipping point other than the normal shipping point customarily used by the producers in the area in which the rice was produced. A separate note and chattel mortgage must be submitted for rice stored on each quarter section of land and, as stated above, each such chattel mortgage must cover only a single variety of rice.

A farm-storage allowance of 5 cents per bushel will be earned by the producer under the following conditions:

(a) If the rice is delivered to Commodity Credit Corporation on or after June 30, 1943, for Arkansas, Louisiana, Texas, and Missouri, or July 31, 1943, for California, or

(b) If, pursuant to demand of the Corporation for the repayment of the loan, the rice is delivered to the Corporation prior to June 30, 1943, for Arkansas, Louisiana, Texas, and Missouri, or July 31, 1943, for California, provided such demand for repayment was not due to any fraudulent representation on the part of the producer, or the rice was damaged, threatened with damage, abandoned, or otherwise impaired.

If, pursuant to demand by the Corporation for repayment of the loan, or with the consent and approval of the Corporation, mortgaged rice is delivered prior to June 30, 1943, for Arkansas, Louisiana, Texas, and Missouri, or July 31, 1943, for California, because the rice was damaged, threatened with damage, or otherwise impaired, a storage payment computed at the following rates shall be earned by the producer provided he has not made any misrepresentation in connection with the loan:

	Southern States	California
4 cents per bushel if delivered during the month of.	June 1943	July 1943.
3½ cents per bushel if delivered during the month of.	May 1943	June 1943.
3 cents per bushel if delivered during the month of.	April 1943	May 1943.
2 cents per bushel if delivered during the month of.	March 1943	April 1943.
1 cent per bushel if delivered prior to	Feb. 1, 1943	March 1943.

Any deficiencies in quantity or quality of the mortgaged rice delivered to the Corporation, unless paid by the producer, will be set off against any credits due the producer or any payments due the producer under any agricultural program administered by the Secretary of Agriculture.

§ 233.7 *Liens.* The rice collateral must be free and clear of all liens except in favor of the lienholders listed in the space provided therefor in 1942 C. C. C. Rice Form AA or B, or on the separate C. C. C. Form AB. The names of the holders of all existing liens on the pledged or mortgaged rice, such as landlords, laborers, threshers, or mortgagees, must be listed as prescribed herein. The waiver and consent to mortgage or pledge contained in the mortgage or loan agreement, or in C. C. C. Form AB, must be signed personally by all lienholders listed or by their duly authorized agents or, if corporations, by the designated officer thereof authorized to execute such instruments. The producer may designate on the note (1942 C. C. C. Rice Form A), or on the note and loan agreement (1942 C. C. C. Rice Form B), persons, other than himself, to whom the proceeds of the note will be remitted. Producers should read carefully all real estate and other mortgages previously given by them in order to be sure that the rice tendered for loan is not covered thereby. Any fraudulent representation of fact made in the execution of the note and mortgage or loan agreement, and related forms, shall render the producer personally liable for the amount of the loan and subject to the provisions of the United States Criminal Code.

§ 233.8 *Insurance*—(a) *Warehouse storage.* Insurance will be carried for the account of the Commodity Credit Corporation on the pledged rice stored in approved public warehouses against the perils of fire, lightning, windstorm, tornado, cyclone, and hail. Where producers redeem pledged rice on or before the maturity date of the loan a proportionate share of the cost of such insurance will be included in the amount of redemption paid by the producer.

(b) *Farm storage.* Commodity Credit Corporation will not require producers to insure their 1942 farm-stored rice placed under loan. In case of a total loss of collateral resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the Commodity Credit Corporation will mark the note "paid" and return it to the borrower. In case of a partial loss of collateral resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the note will be credited at the loan value, plus interest for the number of bushels on which the loss occurred. No loss will be assumed if it is determined that there is fraudulent representation on the part of the borrower in connection with the loan. Producers may insure their equities, however, if any, at their own expense.

§ 233.9 *Approval of loans by member of county agricultural conservation committee.* The 1942 C. C. C. Rice Forms A and B (with the exception of 1942 C. C. C. Rice Form B, evidencing loans made by cooperative associations on the basis of asociation weights and grades pursuant to the 1942 Rice Cooperative Association Contract) must be approved in the space provided therefor on the forms A and B by a member of the county agricultural conservation committee for the county in which farm-stored rice is stored and the county in which warehoused rice was produced. The date of the approval must not be prior to the date of the execution by the producer of the applicable form. A member of the county agricultural conservation committee for the county in which the rice was produced must certify that any producer obtaining a loan on 1942 C. C. C. Rice Form B on the basis of association weights and grades pursuant to the 1942 Rice Cooperative Association Contract is an eligible producer as defined herein.

(a) The member of the county committee signing in the space provided on the 1942 Producer's Note (1942 C. C. C. Rice Form A), certifies for and on behalf of the county committee, to the committee's best knowledge and belief: (1) that the rice securing the note and the storage structure(s) in which the rice is stored have been inspected and sealed; (2) that the quantity, variety, grade, milling quality, and the loan value of the rice have been determined in accordance with regulations of the Secretary of Agriculture and the requirements of the Commodity Credit Corporation; (3) that the representations set forth in the chattel mortgage are true and complete; (4) that the chattel mortgage covering the rice has been properly executed and will be duly and properly filed for record in accordance with the requirements of the applicable State law; (5) that, in the event any person whose signature appears on the form has signed in a representative or fiduciary capacity, the committee has determined that such representative or fiduciary has authority so to act, and, if the committee did not have personal knowledge of the authority of the representative or fiduciary, that it has required such person to show the committee documentary evidence of his authority; (6) that the original or duplicate copy of the chattel mortgage, bearing receipt of the county recording official, will be held by the committee; (7) that all lienholders have executed the lienholders' waiver and consent to mortgage; and (8) that, where necessary, consents for storage have been granted.

(b) The member of the county committee signing in the space provided on the 1942 Rice Producer's Note and Loan Agreement (1942 C.C.C. Rice Form B), certifies for and on behalf of the county committee, to the committee's best knowledge and belief: (1) that the quantity, variety, grade, milling quality, and the loan value of the rice represented by the warehouse receipts securing the note have been determined in accordance with regulations of the Secretary of Agriculture and the requirements of the Commodity Credit Corporation; (2) that the representations set forth in the note and loan agreement are true and complete; (3) that the note and loan agreement has been properly executed; (4) that, in the event any person whose signature appears on the form has signed in a representative or fiduciary capacity, the committee has determined that such representative or fiduciary has authority so to act, and, if the committee did not have personal knowledge of the authority of the representative or fiduciary, that it has required such person to show the committee documentary evidence of his authority; and (5) that all lienholders have executed the lienholders' waiver and consent to pledge.

§ 233.10 *Source and preparation of documents.* Forms will be obtainable from the appropriate county agricultural conservation committees in the States designated in § 233.2 hereof and from the offices of the regional directors of the Commodity Credit Corporation at New Orleans, Louisiana, and Portland, Oregon. All 1942 C. C. C. rice forms must be appropriately filled in and executed with ink, typewriter, or indelible pencil, and no documents containing additions, alterations, or erasures will be accepted by the Commodity Credit Corporation, unless initialed by the producer. In order to meet the costs of the county committees in servicing loan papers and assisting producers, county agricultural conservation committees will collect a service fee for all loans except loans made by cooperative associations on 1942 C. C. C. Rice Form B, pursuant to the 1942 Rice Cooperative Association Contract.

§ 233.11 *Source of loans.* It is contemplated that loans will ordinarily be obtained from banks, cooperative associations, and other local lending agencies which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Producers may also obtain loans directly from Commodity Credit Corporation. Notes evidencing direct loans shall be made payable to Commodity Credit Corporation and shall be delivered or sent to the regional director serving the area in which the rice is stored. Documents for such direct loans tendered by mail, in person, or otherwise must be delivered or postmarked not later than March 1, 1943. Upon delivery of all necessary documents properly executed and upon approval of the loan by the regional director, payment will be made pursuant to the directions of the producer contained in the note.

§ 233.12 *Purchase of loans.* Commodity Credit Corporation will purchase, without recourse, eligible paper, as defined in these instructions, only from lending agencies which have executed and delivered to the office of the regional director to which notes are submitted, a Contract to Purchase (1942 C. C. C. Rice Form E) or, in the case of cooperative associations, a 1942 Rice Cooperative Association Contract (1942 C. C. C. Rice Form C). These forms will be obtainable only from such regional director.

Notes and chattel mortgages and notes and loan agreements held by lending agencies must be tendered to the appropriate regional director of the Commodity Credit Corporation for purchase within the period prescribed in any demand made by the Commodity Credit Corporation for the tender of such notes and related mortgages or loan agreements. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the face amount of such notes, plus accrued interest at the rate of 1½ percent per annum from the respective dates of the notes to the date of payment of the purchase price. Lending agencies are required, under their contracts with Commodity, to report weekly on 1942 C. C. C. Rice Form F or, in the case of cooperative associations, on 1942 C. C. C. Rice Form G. all collections and repayments on producers' notes held by them, and to remit with such reports to the regional director of Commodity Credit Corporation, an amount equivalent to 1½ percent per annum on the principal amount collected or repaid from the date of disbursement of the note to the date of payment.

§ 233.13 *Release of collateral.* A producer may obtain the return of his notes and the release of rice securing such notes upon his request in writing addressed to the payee of the note (either the lending agency or the Commodity Credit Corporation, as the case may be), and upon his payment to the holder of the note of the principal amount due thereon, plus accrued interest. If the payee of the producer's note is the Commodity Credit Corporation, the producer should address his request to the regional director of the Commodity Credit Corporation serving the area. Upon receipt of such a written request by the regional director, the producer's note, with warehouse receipts (if any) securing the note, will be transmitted to an approved bank with instructions to deliver such documents to the producer or his agent upon the payment of the principal amount of the note, plus accrued interest. The bank to which the note is sent will be instructed to return the note to the Commodity Credit Corporation if payment is not made by the producer within 15 days. All charges and expenses of the collecting bank incident to the collection of the note will be payable by the producer. Upon payment of notes secured by farm-stored rice, county agricultural conservation committees will release the chattel mortgages of record, either by the filing of an instrument of release or by a margin release on the county records.

In submitting a written request for the release of farm-stored rice, the producer must identify to the lending agency or the regional director, the seal number(s) of the bin(s) of rice securing the loan to be repaid. No partial repayments of loans will be permitted and the Commodity Credit Corporation will, in no event, allow a partial release of the rice securing any one loan. Upon receipt of such a request, the producer's note will be forwarded to an approved bank, as stated above, to be released to the producer against the payment of the total amount loaned, plus accrued interest.

In submitting a request for the release of warehouse-stored rice, the lending agency or the regional director should be informed of the warehouse receipts numbers applicable to such rice. Each request for release must cover all the rice pledged as collateral for any one loan.

In the case of notes on 1942 C. C. C. Rice Forms A and B which have not been purchased from lending agencies by the Commodity Credit Corporation, such lending agencies will also permit repayments and releases as provided above. The lending agency should remit to the regional director, in accordance with the terms of the Contract to Purchase (1942 C. C. C. Rice Form E) or, in the case of cooperative associations, the 1942 Rice Cooperative Association Contract (1942 C. C. C. Rice Form C), an amount equal to 1½ percent interest per annum on the face amount of the notes repaid from the date of the disbursement of the note to the date of repayment.

SPECIAL INSTRUCTIONS APPLICABLE TO ARKANSAS, LOUISIANA, TEXAS, AND MISSOURI

§ 233.20 *Eligible rice.* Eligible rice shall be rice of the varieties described in § 233.1 (b) of these instructions. However, in Arkansas, Louisiana, Texas, and Missouri, rice grading "damp" or having a moisture content in excess of 14.5 percent, or which is weevily, musty, or of sample grade, shall not be eligible for a loan.

§ 233.21 *Amount of loans.* Rice of the varieties produced in Arkansas, Louisiana, Texas, and Missouri shall have the following loan values:

§ 233.22 *Determination of quantity of rice.* All quantity determinations shall be stated in bushels. Loans shall be made at values expressed in cents per bushel. One bushel weighs 45 pounds. One barrel weighs 162 pounds and is equivalent to 3.6 bushels. When determined by measurement, one bushel shall equal 1.25 cubic feet of rice testing 45 pounds per bushel. In determining the quantity of rice by measurement, fractional pounds of the bushel test weight for rice testing less than 45 pounds per bushel will be disregarded and the quantity determined by measurement will be the following percentages of the quantity determined for 45-pound rice:

	Percent
For rice testing 45 pounds or over	100
For rice testing 44 pounds or over, but less than 45 pounds	98
For rice testing 43 pounds or over, but less than 44 pounds	96

For rice testing 40 pounds or over, but less than 41 pounds	89

§ 233.23 *Maturity and interest rate.* Notes secured by rice stored on farms and in public warehouses in Arkansas, Louisiana, Texas, and Missouri shall mature on demand, or June 30, 1943, whichever is earlier. All loans shall bear interest at the rate of 3 percent per annum.

§ 233.24 *The office of the regional director of Commodity Credit Corporation.* The address of the regional director of the Commodity Credit Corporation serving the States of Arkansas, Louisiana, Texas, and Missouri is the Masonic Temple Building, New Orleans, Louisiana.

SPECIAL INSTRUCTIONS APPLICABLE TO CALIFORNIA

§ 233.30 *Eligible rice.* Eligible rice shall be rice of the following varieties as described in § 233.1 (b) of these instructions: Blue Rose, Rexoro, American Pearl and Calady. However, in California, rice having a moisture content in excess of 16 percent, or which is weevily, musty, or of sample grade, shall not be eligible for a loan.

§ 233.31 *Amount of loans.* Rice of the Blue Rose, Rexoro, American Pearl, and Calady varieties produced in California, basis San Francisco, straight 50 pounds extra fancy, shall have the following loan values:

[Cents per bushel]

Grade and Moisture	Blue Rose	Rexoro	American Pearl	Calady
U. S. Grades #1, 2, and 3:				
Straight	105	119	107	115
Over 14½% but not more than 16% moisture	95	109	--------	--------
Over 15% but not more than 16% moisture	-----	--------	97	105
U. S. Grade #4:				
Straight	101	115	103	111
Over 14½% but not more than 16% moisture	91	105	--------	--------
Over 15% but not more than 16% moisture	-----	--------	93	101
U. S. Grade #5:				
Straight	96	110	98	106
Over 14½% but not more than 16% moisture	86	100	--------	--------
Over 15% but not more than 16% moisture	-----	--------	88	96
U. S. Grade #6:				
Straight	92	106	94	10
Over 14½% but not more than 16% moisture	82	96	--------	--------
Over 15% but not more than 16% moisture	-----	--------	84	92

A premium of three-quarters of 1 cent will be added to the loan value of any grade for each whole pound in excess of 50 pounds extra fancy. A deduction of three-quarters of 1 cent from the loan value of each grade will be made for each whole pound by which the rice falls below 50 pounds extra fancy.

§ 233.32 *Determination of quantity of rice.* All quantity determinations shall be stated in bushels. Loans shall be made at values expressed in cents per bushel. Each determination of weight and quantity shall be based on rough rice, free of dockage. One bushel weighs 45 pounds. One barrel weighs 162 pounds and is equivalent to 3.6 bushels. When determined by measurement, one bushel shall equal 1.25 cubic feet of rice testing 45 pounds per bushel. In determining the quantity of rice by measurement, fractional pounds of the bushel test weight for rice testing less than 45 pounds per bushel will be disregarded and the quantity determined by measurement will be the following percentages of the quantity determined for 45-pound rice:

	Percent
For rice testing 45 pounds or over	100
For rice testing 44 pounds or over, but less than 45 pounds	98
For rice testing 43 pounds or over, but less than 44 pounds	96
For rice testing 42 pounds or over, but less than 43 pounds	93
For rice testing 41 pounds or over, but less than 42 pounds	91
For rice testing 40 pounds or over, but less than 41 pounds	89

TITLE 7—AGRICULTURE

Chapter VII—Sugar Agency

PART 802—SUGAR DETERMINATIONS

LOUISIANA SUGARCANE; PRICES FOR 1942 CROP

Determination of fair and reasonable prices for the 1942 crop of Louisiana sugarcane for sugar, pursuant to the Sugar Act of 1937, as amended.

Whereas section 301 (d) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

> That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

Whereas the Secretary of Agriculture held public hearings for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1942 crop of Louisiana sugarcane for sugar:

Now, therefore, I, Grover B. Hill, Assistant Secretary of Agriculture, after investigation and consideration of the evidence obtained at the aforesaid hearings and all other information before me, do hereby make the following determination:

§ 802.22i *Louisiana sugarcane for sugar*—(a) *Fair and reasonable prices for the 1942 crop.* Fair and reasonable prices for the 1942 crop of Louisiana sugarcane shall be (when the price of 96° raw sugar, duty-paid basis, is 3.50 cents per pound) not less than $1.00 per ton of standard sugarcane for each 1 cent of the average price per pound of raw sugar determined in accordance with whichever of the following options is agreed upon: (1) the average of the weekly quotations of 96° raw sugar, duty-paid basis, on the Louisiana Sugar and Rice Exchange and the Cane Products Trade Association Exchange for the week in which such sugarcane is delivered; or (2) the simple average of the weekly quotations of 96° raw sugar, duty-paid basis on the Louisiana Sugar and Rice Exchange and the Cane Products Trade Association Exchange for the weeks from Friday, October 9, 1942 (or the Friday within the first marketing week of actual trading) to April 1, 1943, except that, if such quotations do not give full effect to orders or regulations of the Federal Government pertaining to the establishment of a price for 96° raw sugar, duty-paid basis, at New Orleans, Louisiana, the Chief of the Sugar Agency may substitute such prices as will give effect to any such Federal orders or regulations: *Provided, however,*

(i) That for each decline of ¼ cent in the price of 1 pound of 96° raw sugar, duty-paid basis, below 3.50 cents per pound, the price of standard sugarcane shall be reduced by not more than 3 per centum, with intervening prices in proportion, unless the price of sugar falls below 2.75 cents per pound, in which case no further reduction shall be made;

(ii) That for an advance of ¼ cent in the price of 1 pound of 96° raw sugar, duty-paid basis, above 3.50 cents per pound, the price of standard sugarcane shall be increased by not less than 3 per centum, with intervening prices in proportion, unless the price of raw sugar exceeds 3.75 cents per pound, in which case settlement shall be made on the basis of $1.03 for each 1 cent of the price;

(iii) That the premiums paid for sugarcane of the 1942 crop containing more sucrose in the normal juice than that defined as standard sugarcane shall be not less than those paid during the 1941 crop year;

(iv) That the discounts applicable to sugarcane of the 1942 crop containing less sucrose in the normal juice than that defined as standard sugarcane shall be not greater than those applied in connection with the 1941 crop; and

(v) That, in the event any agency of the Federal Government shall, through any orders or regulations require modification of the normal marketing practices, then the price basis for settlement shall be determined by reference to the results of such orders or regulations and upon approval by the Chief of the Sugar Agency.

(b) *Definitions and general provisions.* (1) On each ton of Louisiana sugarcane there shall be paid a molasses bonus, such bonus to be computed by taking ½ of the excess, if any, of the average price per gallon of blackstrap molasses, as quoted by the agencies set out above for the period there specified, over 8 cents, and multiplying the product by 6½ (a figure representing the state average recoveries of blackstrap molasses for the three-year period, 1938–1940).

(2) Deductions based upon decreased boiling house efficiency may be made for frozen sugarcane accepted by the processor (it being understood that cane shall not be considered as frozen even after being subjected to freezing temperature unless and until there is evidence of damage having taken place because of the freeze) at a rate not in excess of 3.775 per centum of the payment, computed without regard to the molasses bonus, for each 0.25 cc. of acidity above 2.25 cc. but not in excess of 4.50 cc. (analyzed in accordance with the established methods of the area, with intervening fractions computed to the nearest multiple of 0.05 cc.).

(3) Standard sugarcane shall be sugarcane containing no more sucrose in the normal juice than was defined as standard sugarcane by the processor in his sugarcane purchase contract, or contracts, verbal or written, used in the year 1941.

(4) Costs, such as hoisting and weighing of sugarcane, shall be absorbed by the processor, except in those instances in which the processor did not bear such costs in 1941; but nothing in this subparagraph shall be construed as prohibiting negotiations with respect to the level of such costs, subject, upon appeal, to review by the Secretary of Agriculture or his authorized agent, in the event of changes alleged to be unfair to either the producer or the processor.
